AGENCY ISSUE NARRATIVE:

2009-2010 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

Narrative Summary of Issue:

This issue requests budget authority in Fiscal Year 2009-10 for the non-recurring Community Assistance Program (CAP) provided for by the Federal Emergency Management Agency (FEMA), Department of Homeland Security. The additional budget authority need for Fiscal Year 2009-10 is anticipated at \$293,000.

Current Situation/Unmet Need:

The purpose of the CAP is to provide, through a State grant mechanism, a means to ensure that communities participating in the National Flood Insurance Program (NFIP) are achieving the flood loss reduction goals of the NFIP. The intent of this funding is to provide technical assistance to NFIP communities and to evaluate community performance in implementing

NATIONAL FLOOD INSURANCE PROGRAM										
COMMUNITY ASSISTANCE PROGRAM										550B020

NFIP flood plain management activities while building state and community flood plain management expertise and capability.

This program derives its authority from the National Flood Insurance Act of 1968 and the Flood Disaster Protection Act of 1973. FEMA is prohibited from providing flood insurance in communities that do not adopt/enforce flood plain management measures that meet or exceed the minimum criteria outlined in 44 CFR Part 60.3. These measures can take the form of flood plain management ordinances, building codes or zoning provisions. This program has a cost sharing requirement of 75% federal share and a 25% non-federal share. The state match requirement for these funds will be provided using existing state funding sources.

The Division of Emergency Management (DEM) has not received any funding for this program since the 2004 Hurricane Season due to staff associated with this program being utilized for disaster assistance. The division is redirecting two staff positions to this program and actively applying for the grant funding. The salaries/benefits for these positions are already included in the division's base budget authority.

Proposed Solution/Initiative:

This issue requests budget authority which will enable the DEM to fully utilize the available funds. Fiscal Year 2009-10 budget authority in the amount of \$293,000 in the Federal Emergency Management Programs Support Trust Fund is requested to ensure the state's continued skill maintenance and ability to meet performance goals as required by the grant in the following categories:

030000	Other Personal Services	\$143,000
100777	Contracted Services	\$100,000
040000	Expenses	\$ 50,000

At this requested budget level, the funds will be utilized by the NFIP Coordinator for program monitoring and hiring of OPS staff to provide technical assistance for activities relating to the development of the NFIP State Coordinating Office and floodplain management. In addition, DEM will contract services of a consultant to provide training, guidance and assistance to the coordinator and planners in the requirements of the program. Region IV FEMA office is fully apprised of DEM's use of a consultant for this purpose.

Impact of Not Funding Issue:

If this issue is not funded, the State of Florida will have insufficient budget authority to provide the technical assistance and funding to local communities to achieve the goals outlined by the National Flood Insurance Program and maintain the FEMA Enhanced Mitigation Plan designation.

NATURAL DISASTER PREPAREDNESS						5500000
FLOOD MITIGATION ASSISTANCE						
PROGRAM-APPROPRIATION CATEGORY						
CHANGE (DECREASE)						5504040

Current Situation/Unmet Need:

The Flood Mitigation Assistance Program's priority is to fund flood mitigation activities that reduce or eliminate the long term risk of flood damage to buildings, manufactured homes and other structures insured under the National Flood Insurance Program (NFIP). FMAP funding is available for state allocation for Planning, Project and Technical Assistance grants. Eligible project activities under this grant program include, but are not limited to: Acquisitions/Relocation, Elevations, Dry Flood-proofing of non residential structures, Minor Localized Flood Control Projects, Beach Nourishment Activities and Demolition of NFIP-insured structures on acquired or restricted property. Planning activities that develop state and local flood mitigation activities that meet the planning criteria are eligible under the grant. The cost share for this three year grant is 75% federal and 25% non-federal.

Currently, the Division of Emergency Management (DEM) has three open grants for which budget authority is being requested. Approximately 10% of this budget authority will be utilized for management cost by DEM to administer the program which will require a 25% match. The remaining balance of the requested budget authority will be passed through to local grant sub-recipients who will be required to provide the non-federal match. DEM will be using Emergency Management Preparedness Assistance Trust Fund dollars to match DEM's management costs incurred by the program.

Proposed Solution/Initiative:

This issue requests budget authority which will enable DEM to fully utilize the available funds. Fiscal Year 2009-10 budget authority in the amount of \$2,473,924 is requested to cover anticipated reimbursement requests and management costs for all open awards.

Impact of Not Funding Issue:

If this issue is not funded, the State of Florida will have insufficient budget authority to reimburse and administer this grant program in support for all-hazards, comprehensive emergency management activities at the State and local levels.

AMENDED 2009-10 NARRATIVE AFTER FEBRUARY 25, 2009

Narrative Summary of Issue:

This issue requests a decrease in the continuation of budget authority in Fiscal Year 2009-10 for the recurring Flood Mitigation Assistance Program (FMAP) provided for by the Federal Emergency Management Agency (FEMA), Department of Homeland Security. The total budget authority for Fiscal Year 2009-10 is anticipated at \$1,323,731.

Current Situation/Unmet Need:

CHANGE (DECREASE)										5504040

The Flood Mitigation Assistance Program's priority is to fund flood mitigation activities that reduce or eliminate the long term risk of flood damage to buildings, manufactured homes and other structures insured under the National Flood Insurance Program (NFIP). FMAP funding is available for state allocation for Planning, Project and Technical Assistance grants. Eligible project activities under this grant program include, but are not limited to: Acquisitions/Relocation, Elevations, Dry Flood-proofing of non residential structures, Minor Localized Flood Control Projects, Beach Nourishment Activities and Demolition of NFIP-insured structures on acquired or restricted property. Planning activities that develop state and local flood mitigation activities that meet the planning criteria are eligible under the grant. The performance period of these grant awards is 3 years. The cost share for these three year grants is 75% federal and 25% non-federal.

Currently the Division of Emergency Management (DEM) has three open grants for which budget authority is being requested. Approximately 10% of this budget authority will be utilized for management costs by DEM to administer the program which will require a 25% match. The remaining balance of the requested budget authority will be passed through to local grant sub-recipients who will be required to provide the non-federal match. DEM will be using existing state funds for the 25% non-federal match of DEM's management costs incurred by the program.

Proposed Solution/Initiative:

This issue requests a decrease in recurring budget authority which will enable DEM to fully utilize the available funds. Fiscal Year 2009-10 budget authority decrease in the amount of \$2,276,269 is requested. The remaining budget authority of \$1,323,731 (\$1,229,695 for project pass through and \$94,036 for management costs) will cover anticipated reimbursement requests and management costs for all open awards.

Impact of Not Funding Issue:

If this issue is not funded, the State of Florida will have insufficient budget authority to reimburse and administer this grant program in support for all-hazards, comprehensive emergency management activities at the State and local levels.

SUMMARY: THIS REQUEST IS TO DECREASE THE AMOUNT OF BUDGET AUTHORITY DUE TO THE DECREASE IN FUNDING FOR THE PROGRAM AS WELL AS REIMBURSEMENT REQUESTS NOT BEING RECEIVED AS ORIGINALLY ANTICIPATED.

AGENCY ISSUE NARRATIVE:

2009-2010 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

Narrative Summary of Issue:

The U.S. Department of Homeland Security, Federal Emergency Management Agency (FEMA) implemented the Severe Repetitive Loss Program in Federal Fiscal Year 2007 at a level of \$40 million nationally. Funding for the Federal Fiscal Year 2008 has been requested at a level of \$80 Million nationally. The funds for local government projects and state management will be allocated to the state by formula similar to the Flood Mitigation Assistance Program. The budget authority for State Fiscal Year 2009-10 is anticipated at \$3,000,000.

Current Situation/Unmet Need:

The Severe Repetitive Loss Program was created to reduce or eliminate claims under the National Flood Insurance Program through project activities that will result in the greatest savings to the National Flood Insurance Fund by mitigating those structures with the highest flood insurance claims history. The state has 81 local governments that contain 480 severe repetitive loss structures, which if offered a mitigation grant and refused without good reason, the flood insurance policy on that structure will increase by 150%. To be considered a severe repetitive loss property, the following requirements must be met:

A single family structure consisting of 1 to 4 residences that have flood insurance, and

Have experienced flood related damages on 4 or more occasions with a claim paid of \$5,000 or more for each occasion and

A cumulative amount of claims paid exceeding \$20,000 or

For which two separate claim payments cumulatively exceed the market value of the property.

The Division of Emergency Management proposes to identify these properties as a priority for mitigation funding. This priority is anticipated to stem from the continuance of excessive flood insurance claim payments and reduce future reliance on the National Flood Insurance Fund for flood relief.

Proposed Solution/Initiative:

The Division of Emergency Management will partner with local governments and their Community Rating System Coordinators to conduct outreach with owners of severe repetitive loss properties to educate them on the benefits of mitigation/flood retrofitting so that they may accept reasonable mitigation offers from FEMA. Budget authority in the amount of

PUBLIC SAFETY MANAGEMENT										59000000
SEVERE REPETITIVE LOSS PILOT PROGRAM										5900200

\$3,000,000 is requested to cover the anticipated award for FY 2009-10.

The grant has a match requirement of 75% Federal and 25% Non-Federal, which will be provided on all pass through projects by the local government sub-applicant. The state will have the 10% match requirement on any state management costs, approximately \$300,000 in total management costs incurred by the program.

Impact of Not Funding Issue:

If this issue is not funded, the State of Florida will have insufficient budget authority to accept these awards and therefore will be unable to continue the increased level of support for all-hazards, comprehensive emergency management activities at the State and local levels. Additionally, owners of severe repetitive loss structures will be penalized through the increase of their flood insurance premium by 150%.

AMENDED 2009-10 NARRATIVE AFTER FEBRUARY 25, 2009

Narrative Summary of Issue:

The U.S. Department of Homeland Security, Federal Emergency Management Agency (FEMA) implemented the Severe Repetitive Loss Program in Federal Fiscal Year 2007 at a level of \$40 million nationally. Funding for the Federal Fiscal Year 2008 has been requested at a level of \$80 Million nationally. The funds for local government projects and state management will be allocated to the state by formula similar to the Flood Mitigation Assistance Program. The budget authority for State Fiscal Year 2009-10 is anticipated at \$4,177,066.

Current Situation/Unmet Need:

The Severe Repetitive Loss Program was created to reduce or eliminate claims under the National Flood Insurance Program through project activities that will result in the greatest savings to the National Flood Insurance Fund by mitigating those structures with the highest flood insurance claims history. The state has 81 local governments that contain 480 severe repetitive loss structures, which if offered a mitigation grant and refused without good reason, the flood insurance policy on that structure will increase by 150%. To be considered a severe repetitive loss property, the following requirements must be met:

- * A single family structure consisting of 1 to 4 residences that have flood insurance, and
- * Have experienced flood related damages on 4 or more occasions with a claim paid of \$5,000 or more for each occasion, and
- * A cumulative amount of claims paid exceeding \$20,000, or
- * For which two separate claim payments cumulatively exceed the market value of the property.

AGENCY ISSUE NARRATIVE:

2009-2010 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

Narrative Summary of Issue:

This issue requests \$4,511,578 federal pass-through and administration non-recurring budget authority funding to continue the Pre-Disaster Mitigation Grant Program (PDM). PDM is a federal program that is designed to provide assistance to states and communities for activities that reduce the state's overall vulnerability to disasters and disaster-related loss of life and property. The PDM is administered by the Division of Emergency Management.

Current Situation/Unmet Need:

In each federal fiscal year, Congress allocates annual funding for the PDM program. These funds are made available to states and communities through a nationwide, competitive process. The program is a cost-share program (75%/25%) through which states and communities may receive grants for mitigation planning and projects that are designed to reduce the state's vulnerability to all-hazards. The local PDM award recipients are responsible for the non-federal or match share of the project. Grant recipients have up to three years to complete the work. In previous years, Congress has allocated amounts that have varied between \$50 Million to \$150 Million to the program. Communities in Florida that have active Local Mitigation Strategy (LMS) Working Groups are encouraged to submit their pre-identified LMS projects for consideration. Prior to the FEMA's application deadline, DEM provides technical assistance to these local communities so that these applications have the best chance for funding. The State's success in receiving this funding can directly be attributed to these nationally recognized LMS working groups. These federal funds are provided to the state as pass through funds to local government, with additional funds being available to the state to administer the program. The match required for state administration cost is 25%. This match is being provided using existing state funding sources.

This program is also a requirement for the state to maintain it's accreditation through the Emergency Management Accreditation Program (EMAP). The state must develop and implement a strategy to eliminate hazards or mitigate the effects of hazards that cannot be eliminated as outlined in Standard 5.4, EMAP. The division is currently undergoing accreditation and this program is used to justify our fulfillment of this standard as part of the accreditation process.

Proposed Solution/Initiative:

DEM expects to disburse over \$4.7M in federal funds for the PDM projects and over \$400,000 for administration in FY 2009-10. This issue requests additional non-recurring budget authority of 4,511,578 in the Federal Emergency Management Program Support Trust Fund to ensure DEM's ability to utilize the grant funds.

Impact of Not Funding Issue:

If this issue is not approved, the division will not be able to utilize the federal funds awarded to assist local communities in implementing pre-disaster mitigation projects designed to reduce the financial burden of future disasters

on the State of Florida as well as affecting the division's accreditation status.

AMENDED 2009-10 NARRATIVE AFTER FEBRUARY 25, 2009

Narrative Summary of Issue:

This issue requests \$5,000,000 federal pass-through and administration non-recurring budget authority funding to continue the Pre-Disaster Mitigation Grant Program (PDM). PDM is a federal program that is designed to provide assistance to states and communities for activities that reduce the state's overall vulnerability to disasters and disaster-related loss of life and property. The PDM is administered by the Division of Emergency Management.

Current Situation/Unmet Need:

In each federal fiscal year, Congress allocates annual funding for the PDM program. These funds are made available to states and communities through a nationwide, competitive process. The program is a cost-share program (75%/25%) through which states and communities may receive grants for mitigation planning and projects that are designed to reduce the state's vulnerability to all-hazards. The local PDM award recipients are responsible for the non-federal or match share of the project. Grant recipients have up to three years to complete the work. In previous years, Congress has allocated amounts that have varied between \$50 Million to \$150 Million to the program. Communities in Florida that have active Local Mitigation Strategy (LMS) Working Groups are encouraged to submit their pre-identified LMS projects for consideration. Prior to the FEMA's application deadline, DEM provides technical assistance to these local communities so that these applications have the best chance for funding. The State's success in receiving this funding can directly be attributed to these nationally recognized LMS working groups. These federal funds are provided to the state as pass through funds to local government, with additional funds being available to the state to administer the program. The match required for state administration cost is 25%. This match is being provided using existing state funding sources.

This program is also a requirement for the state to maintain it's accreditation through the Emergency Management Accreditation Program (EMAP). The state must develop and implement a strategy to eliminate hazards or mitigate the effects of hazards that cannot be eliminated as outlined in Standard 5.4, EMAP. The division is currently undergoing accreditation and this program is used to justify our fulfillment of this standard as part of the accreditation process.

Proposed Solution/Initiative:

DEM expects to disburse \$5,535,000 in federal funds for the PDM projects and \$165,000 for administration in FY 2009-10. This issue requests additional non-recurring budget authority of \$5,000,000 in the Federal Emergency Management Program Support Trust Fund to ensure DEM's ability to utilize the federal grant funds.

AGENCY ISSUE NARRATIVE:

2009-2010 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

Narrative Summary of Issue:

This issue requests continuation of budget authority in Fiscal Year 2009-10 for the non-recurring Repetitive Flood Claims Program (RFCP) provided for by the Federal Emergency Management Agency (FEMA), Department of Homeland Security. The budget authority for Fiscal Year 2009-10 is anticipated at \$1,046,542.

Current Situation/Unmet Need:

In the spring of 2007, FEMA published notice of funding availability for the new Repetitive Flood Claims Program (RFCP). This program is designed to assist all classes of flood damaged structures from a single loss to several losses, of which there are approximately 15,945 in Florida based on the Repetitive Loss County Summary Report dated September 30, 2007. These grant funds will make it possible to continue to provide additional federal support for all-hazards, comprehensive emergency management at the state and local levels.

Proposed Solution/Initiative:

This issue requests budget authority which will enable the Division of Emergency Management (DEM) to fully utilize the available funds. Fiscal Year 2009-10 budget authority in the amount of \$1,046,542 is requested to cover the anticipated award for 2009-10.

Impact of Not Funding Issue:

REPETITIVE FLOOD CLAIMS PROGRAM										5901870

If this issue is not funded, the State of Florida will have insufficient budget authority to accept these awards and therefore will be unable to continue the increased level of support for all-hazards, comprehensive emergency management activities at the State and local levels.

AMENDED 2009-10 NARRATIVE AFTER FEBRUARY 25, 2009

Narrative Summary of Issue:

This issue requests continuation of budget authority in Fiscal Year 2009-10 for the non-recurring Repetitive Flood Claims Program (RFCP) provided for by the Federal Emergency Management Agency (FEMA), Department of Homeland Security. The budget authority for Fiscal Year 2009-10 is anticipated at \$1,671,022.

Current Situation/Unmet Need:

In the spring of 2007, FEMA published notice of funding availability for the new Repetitive Flood Claims Program (RFCP). This program is designed to assist all classes of flood damaged structures from a single loss to several losses, of which there are approximately 15,945 in Florida based on the Repetitive Loss County Summary Report dated 9/30/07. These grant funds will make it possible to continue to provide additional federal support for all-hazards, comprehensive emergency management at the state and local levels.

There is no state or local match requirement for this grant program. Grants received for this program have a performance period of 3 years.

Proposed Solution/Initiative:

This issue requests budget authority which will enable the Division of Emergency Management (DEM) to fully utilize the available federal funds. Fiscal Year 2009-10 budget authority in the amount of \$1,671,022 (\$1,665,952 pass through projects, \$5,070 for management costs) is requested to cover anticipated disbursements for FY 2009-10.

Impact of Not Funding Issue:

If this issue is not funded, the State of Florida will have insufficient budget authority to continue disbursing federal funds for prior year grants received by the division, therefore will be unable to continue the increased level of support for all-hazards, comprehensive emergency management activities at the State and local levels.

SUMMARY: THIS REQUEST HAS INCREASED DUE TO AN ANTICIPATED INCREASE IN REIMBURSEMENT REQUESTS.

GRANT PROGRAM										1601100

Narrative Summary of Issue:

The Deficit Reduction Act of 2005 directed the National Telecommunications and Information Administration, in consultation with the Department of Homeland Security (DHS), to establish a \$1 billion grant program to assist public safety agencies in the acquisition, deployment, or training in the use of interoperable communication systems. The Public Safety Interoperability Communications (PSIC) Grant Program is a one-time formula based program intended to enhance public safety communications interoperability relating to voice, data or video signal.

Current Situation/Unmet Need:

The Division of Emergency Management (DEM) received a three year PSIC award of \$42,888,266. DEM is responsible for the distribution of the funds to eligible public safety agencies in the state, local and other eligible organizations. Grant recipients must provide a 20 percent match in either cash or in-kind sources. DEM has negotiated a total flat fee of \$1,200,000 of the award for management and administration of the grant. DEM's match requirement will be provided using existing state funding sources.

The PSIC grant proposal has been approved by the Domestic Security Oversight Council and DEM has final approval from DHS on the allocation of grant funds. The proposed total grant allocation is as follows:

Region 1 Okaloosa County Public Safety Responders Interoperable Initiative - \$2,325,037 (Four county departments, 6 law enforcement agencies, nineteen fire districts, and an emergency service function, comprising Okaloosa County and the cities of Crestview, Ft. Walton Beach, Valparaiso, Niceville, Mary Esther, Destin and Shalimar.)

Region 2 North Florida Domestic Security Task Force (NFDSTF) Region - \$3,850,000 (The Florida counties directly served by the PSIC Grant are Columbia, Dixie, Franklin, Gadsden, Hamilton, Jefferson, Lafayette, Leon, Liberty, Madison, Suwannee, Taylor and Wakulla.)

Region 3 Framework to Enhance Interoperability throughout Regional Domestic Security Task Force (RDSTF) - \$4,906,915 (The counties in region 3 include: Alachua, Baker, Bradford, Clay, Duval, Gilchrist, Marion, Levy, Nassau, Putnam, St. Johns and Union.)

Region 4 Tampa Bay Region 700 MHz Overlay and P25 Technology migration for multi-regional interoperability - \$6,951,290 (The counties in region 4 include: Citrus, Hillsborough, Pinellas and Polk with connectivity to Region 5.)

Region 5 Cross-Regional 700 MHz P25 Multi-jurisdictional Shared Public Safety Mutual Aid Interoperable Communications Systems for State and Local Agencies - \$4,166,813 (The counties in region 5 include: Brevard, Indian River, Lake,

py Martin, Orange, Osceola, Seminole, St. Lucie, and Volusia in conjunction with the following counties directly.)

Region 6 Southwest Florida Domestic Security Task Force Regional Interoperable Communications improvement project - \$8,375,558 (The counties in region 6 include: Manatee, Sarasota, Okeechobee, Highlands, DeSoto, Glades, Hendry, Charlotte, Lee and Collier.)

py Region 7 South Florida Interoperable 700 and 800 MHz radio data and Tribe of Indians), Collier County (Sheriff's Office), Miami-Dade County (Aviation, Corrections, Fire, Medical Examiner, EOC, Police, Port of Miami, School Board, Transit, Water & Sewer, etc), Municipality Police (34 cities), State Agencies (4 Agencies plus Attorney General and Department of Health), Federal Agencies (12 Agencies), Military Agencies (National Guard, Southern Command, and US Coast Guard), and Private Companies (3 Ambulance, FIU Police, Railway Police, FPL, Humane Society, etc.)

Florida State Agencies Interoperable Communications Networks Enhancements - \$5,800,453 (Department of Agriculture and Consumer Services/Forestry - \$1,600,000; Department of Management Services - \$2,670,400; Department of Health - \$1,370,254, Web based platform for the delivery of interoperable communications and associated public safety curriculum for public safety personnel - \$159,799.)

State of Florida State Law Enforcement Radio System Mobile Trunking System Upgrades and System Expansion (STR) - \$827,200 (State of Florida, Florida National Guard, local law enforcement, fire and EMS agencies that have chosen to participate on the State Law Enforcement Radio System or any other public safety agency with subscriber equipment capable of 700/800 MHZ P25 operations.)

State Planning - \$750,000 (Improved coordination between all agencies and stakeholders at all levels. Utilization of the PSIC as a central point for the states interoperable communications issues ensures that there will be a single point of distribution to all stakeholders for any information relating to interoperable communications in Florida. This will improve communications and information flow throughout the state.)

Management & Administration - \$1,200,000 (Manage, administer and distribute the grant funding)

Due to delays in receiving the authorization from FEMA to draw down the federal dollars, DEM will be requesting an extension of 12 months in order to complete the scope of work outlined above.

COL A12		COL A14		COL A15		COL A16		COL A14-A12		CODES

ADJUSTMENTS TO CURRENT YEAR										
ESTIMATED EXPENDITURES										1600000
CONTINUATION OF PUBLIC SAFETY										
INTEROPERABILITY COMMUNICATIONS										
GRANT PROGRAM										1601100

Proposed Solution/Initiative:

DEM requests non-recurring budget authority for Fiscal Year 2009-10 of \$16,620,266 in the Grants and Donations Trust Fund in the following appropriation categories:

Pass Thru for Projects

\$16,188,266 in Grants and Aids State Domestic Preparedness Program, funding that will be expended on the projects as outlined in the plan to DHS.

Grant Management and Administration (\$432,000)

\$200,000 in Other Personal Services, which includes maintaining 4 OPS staff to administer the grant;
 \$185,200 in Contracted Services, to obtain initial support for the project through a contract with the North East Regional Planning Council;
 \$46,800 in Expenses, to purchase equipment, office supplies, travel, rent, and other costs associated with supporting the OPS staff.

This budget authority will enable DEM to distribute, manage and administer the federal grant funds to public safety organizations in state and local government and in non-governmental organizations to enhance the interoperability of their voice and data communication systems. DEM will be required to provide match on \$502,000 (includes indirect cost budget) identified for Grant Management & Administration during FY 2009-10.

Impact of Not Funding Issue:

Without this budget authority, DEM will be unable to distribute this grant award and improve/enhance Florida's public safety communications interoperability as it relates to voice, data and video signals.

AMENDED 2009-10 NARRATIVE AFTER FEBRUARY 25, 2009

AGENCY ISSUE NARRATIVE:
 2009-2010 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

AMENDED 2009-10 NARRATIVE AFTER FEBRUARY 25, 2009

Narrative Summary of Issue:

The Division of Emergency Management (DEM) has 12 positions that require modifications to their current funding sources as the funding sources relate to the positions functions/responsibilities.

Current Situation/Unmet Need:

The Division of Emergency Management (DEM) receives funding from the Department of Homeland Security to operate the state's domestic preparedness grant programs. DEM has eight (8) positions for which the salary funding source requires correction. The duties and responsibilities pertaining to this program should be funded from the Grants & Donations Trust Fund. Additionally, three (3) positions currently reflect funding from the state domestic preparedness program and should be more accurately funded from the Emergency Management & Preparedness Assistance Trust Fund and the Federal

Emergency Management Program Support Trust Fund.

Also, the division has one (1) position that is being funded through the Emergency Management & Preparedness Assistance Trust Fund and Operating Trust Fund. However, based upon the position's functions/responsibilities, it should be funded from disaster funds.

Proposed Solution/Initiative:

Correct funding source for the following positions to the Grants & Donations Trust Fund:

- Position #17
- Position #83
- Position #402
- Position #446
- Position #625
- Position #627
- Position #631

Correct funding source for the following positions equally between the Emergency Management Preparedness & Assistance Trust Fund and the Federal Emergency Management Program Support Trust Fund:

- Position #654
- Position #665
- Position #666

Change the funding source and budget entity for the following position to reflect disaster funding:

- Position #457

Change the funding source and budget entity for the following position from disaster funding to the Grants & Donations Trust Fund:

- Position #652

Impact of Not Funding Issue:

DEM will continue to utilize state dollars for federal functions and, additionally, will risk being non-compliant with the use of the federal grant funds.

AGENCY ISSUE NARRATIVE:
 2009-2010 BUDGET YEAR NARRATIVE: IT COMPONENT? NO
 AMENDED 2009-10 NARRATIVE AFTER FEBRUARY 25, 2009

Narrative Summary of Issue:
 During the 2006 Legislative Session the Division of Emergency Management (DEM) received \$29 million for the identification of coastline storm surge zones for regional evacuation planning purposes using Light Detection and Ranging (LiDAR) technology. LiDAR, a remote sensing system that utilizes aircraft-mounted lasers to obtain topographic data, is being used to measure over 35,000 square miles of coastal Florida. As the LiDAR data is collected, it is incorporated into the National Hurricane Service computerized models to assist in projecting storm surge heights and gale force winds from impending hurricanes and storms.

Stemming from 217 days lost for LiDAR data collection due to bad weather in FY 07/08, continuing delays have been experienced with this project. Compounding these weather delays were difficulties meeting the high technical specifications set by the State of Florida. These specifications far exceed anything previously set by other states or Federal Emergency Management Agency(FEMA). Contractors involved with the project have had to re-tool their processes and work flows to meet these specifications. After numerous rejections due to data quality, each of the prime contractors have now had deliveries accepted and are expected to continue to provide deliverables that meet these specifications. Another time delaying factor includes partnering with other agencies to collect data over larger geographic regions. Additional budget authority is requested in FY 09/10 to complete this project.

Current Situation/Unmet Need:
 This project has two major components, LiDAR data collection and regional evacuation study analyses. 100% of the LiDAR data has been collected, and 95% of this data has been processed. 40% of the Sea, Lake and Overland Surges from Hurricanes (SLOSH) basins within Florida have been updated using the LiDAR data and are in various states of review between the DEM, National Oceanic and Atmospheric Administration's (NOAA) Meteorological Development Laboratory, and contractors. Demographic and transportation analyses are 100% complete, and critical facilities, shelter, and behavioral analyses are nearly complete. Vulnerability analysis is 25% complete, and is waiting on the SLOSH model update results

for completion.

Proposed Solution/Initiative:

This issue requests budget authority in the amount of \$750,000 in the U.S. Contributions Trust Fund in Special Category Statewide Hurricane Preparedness and Planning to complete the implementation of the LiDAR initiative as required by HB 7121 (2006).

Impact of Not Funding Issue:

DEM will not be able to meet the intent of HB 7121 to complete the identification of coastline storm surge zones for regional planning purposes and improve upon the division's ability to adequately evacuate areas impacted by an impending storm's storm surge.

AGENCY ISSUE NARRATIVE:

2009-2010 BUDGET YEAR NARRATIVE: IT COMPONENT? NO

AMENDED 2009-10 NARRATIVE AFTER FEBRUARY 25, 2009

Narrative Summary of Issue:

The Interoperable Emergency Communications Grant Program (IECGP) is a grant program created by the Implementing Recommendations of the 9/11 Commission Act of 2007. It is administered by the Federal Emergency Management Agency Grant Programs Directorate in partnership with the Department of Homeland Security Office of Emergency Communications. The Interoperable Emergency Communications Grant Program is formula based program intended to enhance public safety communications interoperability relating to voice, data or video signal.

Current Situation/Unmet Need:

The Division of Emergency Management (DEM) received a 2009 IEGCP grant award in the amount of \$2,039,553. The program is divided in two phases. Phase one is the development of a training video and supporting distribution to responders state-wide. Phase two is training of responder agencies state-wide in several areas related to interoperable communications and conducting functional exercises in each region of the state. Also included in this phase is the development and implementation of a statewide mapping program that will enhance interoperable communications by mapping the coverage areas of all public safety radio systems in the state.

This grant award has a performance period of 24 months and there is not a state match requirement.

Proposed Solution/Initiative:

The Division of Emergency Management will contract for services to work with the State Working Group, Interoperable Coordinator, and other subject matter experts on developing the training material and deliverance of the training to responder agencies throughout the state. The projected areas to be completed the first year of the program are as follows:

Production and distribution of training video	\$277,368
Communications Leader Training	\$36,000
Communications Technician Training	\$70,000
Florida Interoperability Network Training	\$110,000

COL A12		COL A14		COL A15		COL A16		COL A14-A12		CODES

<u>EMERGENCY PREV/PREP/RESPNS</u>										<u>1208.00.00.00</u>
PUBLIC SAFETY MANAGEMENT										5900000
INTEROPERABLE DATA COMMUNICATIONS										
SYSTEMS										5902130
Durable Training Equipment		\$155,000								
Interactive Mapping System		\$350,000								
Management & Administration Allowance		\$30,000								
Total First Year Budget request		\$1,028,368								

DEM is requesting non-recurring budget authority in the amount of \$1,028,368 in the Domestic Preparedness Interoperable Communications Program appropriation category in order to perform the activities as described above.

Impact of Not Funding Issue:

Without this budget authority, DEM will be unable to utilize the grant award in order fulfill the identified planning and training activities.

SUMMARY: THIS IS A NEW ISSUE.

AMENDED 2009-10 NARRATIVE AFTER FEBRUARY 25, 2009

Narrative Summary of Issue:

The Interoperable Emergency Communications Grant Program (IECGP) is a grant program created by the Implementing Recommendations of the 9/11 Commission Act of 2007. It is administered by the Federal Emergency Management Agency Grant Programs Directorate in partnership with the Department of Homeland Security Office of Emergency Communications. The Interoperable Emergency Communications Grant Program is a one-time formula based program intended to enhance public safety communications interoperability relating to voice, data or video signal.

Current Situation/Unmet Need:

The Division of Emergency Management (DEM) has received an IEGCP 2008 grant award of \$2,004,978. There are two phases related to implementation of the activities covered by this grant. Phase one involves issues related to the Statewide Communications Interoperability Plan. This involves further development of the plan and training related to the plan. Phase two involves training and exercise of responders on interoperable communications subjects related to their job responsibilities. Both phases of this program will be completed by June 30, 2010.

Phase one cost is projected to be: \$247,828

Phase two is projected to be:

Administration Costs	\$60,150
 Total Program Cost (requested budget authority)	 \$2,004,978

This grant award has a performance period of 24 months and there is not a state match requirement.

Proposed Solution/Initiative:

DEM will contract for services to conduct meetings with Regional Domestic Security Task Force Interoperable Communications committees and the Interoperable Communications State Working Group for purpose of developing the Governance Section of the Statewide Plan. In addition, DEM will contract to provide coordination of training activities for responder agencies in each area of the state.

DEM is requesting non-recurring budget authority in the amount of \$2,004,978 in the Domestic Security Interoperable Communications Program appropriation category in order to contract for the services and perform the activities described above.

Impact of Not Funding Issue:

Without this budget authority, DEM will be unable to utilize the federal grant award in order fulfill the identified planning and training activities.

AGENCY ISSUE NARRATIVE:

2009-2010 BUDGET YEAR NARRATIVE: IT COMPONENT? NO

Narrative Summary of Issue:

The Division of Emergency Management (DEM) received recurring funding in Fiscal Year 2006-07, through House Bill 7121 (Chapter 2006-71, Laws of Florida), to improve the state's logistical staging and warehousing capacity for the purposes of responding to a disaster. The funding appropriated is to increase storage capacity, improve technology to manage commodities and enhance the methods in which inventory is maintained before and after a disaster. While the funding has been reduces in previous fiscal years, additional authority is being requested to continue the basic operations of the facility due to increases in facility costs.

Current Situation/Unmet Need:

The DEM has created the State Logistics Response Center (SLRC) to meet the requirements of HB 7121. This is a 200,000 square feet facility that warehouses over \$15 million in essential water and emergency supplies. It also provides a home base and staging area for state/federal responders deployed in advance of an impending disaster. The lease agreement for the facility reflects a 6.5% annual increase each year for the next ten years. For FY 2008-09 the budget authority to operate this facility is \$1,730,241.

In the FY 2008-09 General Appropriations Act, the SLRC received recurring budget authority using the Department of Homeland Security Grant funding to augment the operation of the facility. These funding sources cannot be used to supplant expenditures already being paid for by state funds. The Department of Homeland Security Grant is very restrictive that funds can only be used in support of the grant program. During FY 2008-09, the SLRC provided services in support of the Department of Homeland Security Grant. For FY 2009-10 the SLRC is not expecting to provide any

COL A12		COL A14		COL A15		COL A16		COL A14-A12		CODES

PUBLIC SAFETY MANAGEMENT										5900000
EMERGENCY MANAGEMENT INITIATIVES										5903000

services that support this grant program, therefore these grant funds cannot be used.

In addition, a portion (\$51,300) of the appropriation provided for FY 2008-09 from monies received from the Department of Health should have been categorized as non-recurring. The agreement DEM has with DOH is for a base fee of \$68,400 with a 7% increase annually. The amount for FY 2009-10 is \$73,188.

DEM also has an agreement with the Department of Agriculture & Consumer Services (DACS) who is utilizing space in the SLRC. The terms of the agreement has DACS providing \$100.00 a month for the usage of the space. The amount of authority needed for FT 2009-10 is \$1,200.

FY 2009-10 budget for this facility is estimated to be \$1,912,884. This issue requests an increase above the current budget authority level to encompass the increased costs.

Proposed Solution/Initiative:

DEM requests additional non-recurring budget authority of \$302,955 in the Federal Emergency Management Program Support Trust Fund (FEMPS) Special Category Statewide Hurricane Preparedness and Planning. Additionally, DEM requests a decrease of recurring budget authority in the Grants and Donations Trust Fund Special Category Statewide Hurricane Preparedness and Planning of \$120,312 in order to only utilize those monies being provided by the Department of Health and Department of Agriculture & Consumer Services in addition to the EMPA and FEMPS funds.

Impact of Not Funding Issue:

DEM will be unable to continue operations at the SLRC and maintain the inventory of water, meals, medical and emergency supplies, valued at over \$15 million, which is utilized to support disaster survivors in the aftermath of an event. This discontinuation will drastically impact the state's response efforts during and after a disaster event.

AMENDED 2009-10 NARRATIVE AFTER FEBRUARY 25, 2009

Narrative Summary of Issue:

The Division of Emergency Management (DEM) received recurring funding in Fiscal Year 2006-07, through House Bill 7121 (Chapter 2006-71, Laws of Florida), to improve the state's logistical staging and warehousing capacity for the purposes of responding to a disaster. The funding appropriated is to increase storage capacity, improve technology to manage commodities and enhance the methods in which inventory is maintained before and after a disaster. AGENCY ISSUE NARRATIVE:
 2009-2010 BUDGET YEAR NARRATIVE: IT COMPONENT? NO

AMENDED 2009-10 NARRATIVE AFTER FEBRUARY 25, 2009

Narrative Summary of Issue:
 The Division of Emergency Management (DEM) has 12 positions that require modifications to their current funding sources as the funding sources relate to the positions functions/responsibilities.

Current Situation/Unmet Need:
 The Division of Emergency Management (DEM) receives funding from the Department of Homeland Security to operate the state's domestic preparedness grant programs. DEM has eight (8) positions for which the salary funding source requires correction. The duties and responsibilities pertaining to this program should be funded from the Grants & Donations Trust Fund. Additionally, three (3) positions currently reflect funding from the state domestic preparedness program and should be more accurately funded from the Emergency Management & Preparedness Assistance Trust Fund and the Federal Emergency Management Program Support Trust Fund.

Also, the division has one (1) position that is being funded through the Emergency Management & Preparedness Assistance Trust Fund and Operating Trust Fund. However, based upon the position's functions/responsibilities, it should be funded from disaster funds.

Proposed Solution/Initiative:

Correct funding source for the following positions to the Grants & Donations Trust Fund:

- Position #17
- Position #83
- Position #402
- Position #446
- Position #625
- Position #627
- Position #631

Correct funding source for the following positions equally between the Emergency Management Preparedness & Assistance Trust Fund and the Federal Emergency Management Program Support Trust Fund:

- Position #654
- Position #665
- Position #666

Change the funding source and budget entity for the following position to reflect disaster funding:

- Position #457

Change the funding source and budget entity for the following position from disaster funding to the Grants & Donations Trust Fund:

- Position #652

Impact of Not Funding Issue:

DEM will continue to utilize state dollars for federal functions and, additionally, will risk being non-compliant with the use of the federal grant funds.

THIS IS A NEW ISSUE.

AGENCY ISSUE NARRATIVE:
2009-2010 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

Narrative Summary of Issue:

This request seeks to continue funding for open federally declared disaster programs through Tropical Storm Faye, for the State of Florida. In order to expend federal disaster funds provided by the Federal Emergency Management Agency (FEMA) in the Department of Homeland Security, the Division of Emergency Management (DEM) is requesting authority in the U.S. Contributions Trust Fund in the amount of \$306,601,487. Additionally, in order for the Division to continue to provide approved state matching funds and to cover disaster related state costs not provided under federal programs for these events, DEM is requesting authority in the Grants and Donations Trust Fund in the amount of \$23,718,109. This request is for the continuation of legislative approval for programs provided under prior year appropriations and/or budget amendments for each disaster event. This issue is directly related to the financial assistance for intermediate and long terms prevention measures, national environmental policy act project review and project inspections for federal/state compliance activities within the emergency recovery sub-budget entity.

Current Situation/Unmet Need:

This issue addresses open federal declarations for disaster events through September 15, 2008 and programs including various components of Public Assistance (PA), Hazard Mitigation Grants (HMGP), housing and other victim assistance activities. DEM needs to maintain a sufficient level of budget authority to expend federal funds awarded to the State of Florida as well as the non-federal matching funds appropriated for disaster recovery programs. Without this authority, DEM cannot provide current contractually obligated payments to various qualifying state and local governments, and private non-profit organizations for disaster response and recovery related activities.

Proposed Solution/Initiative:

DEM is requesting the following total authorities as detailed above in order to manage and effectively continue disaster recovery mitigation programs throughout the state. This request is for all open disasters through Tropical Storm Faye.

request is for the continuation of legislative approval for programs provided under prior year appropriations and/or budget amendments for each disaster event. This issue is directly related to the financial assistance for intermediate and long terms prevention measures, national environmental policy act project review and project inspections for federal/state compliance activities within the emergency recovery sub-budget entity.

Current Situation/Unmet Need:

This issue addresses open federal declarations for disaster events through December 31, 2008 and programs including various components of Public Assistance (PA), Hazard Mitigation Grants (HMGP), housing and other victim assistance activities. DEM needs to maintain a sufficient level of budget authority to expend federal funds awarded to the State of Florida as well as the non-federal matching funds appropriated for disaster recovery programs. Without this authority, DEM cannot provide current contractually obligated payments to various qualifying state and local governments, and private non-profit organizations for disaster response and recovery related activities.

Proposed Solution/Initiative:

DEM is requesting the following total authorities as detailed above in order to manage and effectively continue disaster recovery mitigation programs throughout the state.

	(Federal Share) U.S.CONTRIBUTIONS TRUST FUND	(State Share) GRANTS & DONATIONS TRUST FUND
Events Prior to 2004	\$ 43,153,822	\$14,473,725
2004 Events	\$ 69,863,283	\$ 2,574,514
2005 Events	\$105,167,497	\$ 1,614,395
2006/2007 Events	\$ 1,559,907	\$ 152,492
2008 Events	\$ 32,517,597	\$ 3,323,577
TOTAL BY TRUST FUND	\$252,262,106	\$22,138,703

The amount requested in the U.S. Contributions Trust Fund represents authority to utilize the federal funds provided; the amount requested in the Grants & Donations Trust Fund represents not only spending authority, but a state cash commitment as well. Consistent with legislatively expressed guidelines, DEM is requesting budget authority for only the amounts of these total disasters expected to expend during Fiscal Year 2009-10.

Impact of Not Funding Issue:

Without the requested budget authority, the State of Florida will be unable to continue the contractually obligated

payment of eligible disaster recovery activities based on the current estimates of actual eligible costs under each of the federal disaster declarations, to local governments, state agencies and qualifying private, non-profit organizations within the Public Assistance and Hazard Mitigation Programs

Additionally, in order for the State of Florida to maintain its accreditation through the Emergency Management Accreditation Program (EMAP), the State must have "financial and administrative procedures to support the program before, during, and after an emergency or disaster, (Standard e.15.1, EMAP). The provisions for cash match and budget authority to our sub-grantees is critical to the justification of compliance with this standard, which helps ensure DEM's continued nationally accredited status.

SUMMARY: THE REQUEST HAS DECREASED DUE TO SUBGRANTEES REQUESTING FINAL REIMBURSEMENTS ON COMPLETED PROJECTS.

AGENCY ISSUE NARRATIVE:
 2009-2010 BUDGET YEAR NARRATIVE:
 Narrative Summary of Issue:

IT COMPONENT? NO

The 2004 and 2005 hurricane seasons were unprecedented for Florida and resulted in 7 presidential disaster declarations. In the 2008 hurricane season, an 8th presidential declaration resulted in response to Tropical Storm Fay. Each presidential declaration brings with it two separate long term disaster grant programs, the Public Assistance Program and the Hazard Mitigation Grant Program. These long term recovery programs have a lifespan of 8 years per disaster to complete all the construction/repairs resulting from the event. In order to accommodate the workload and technical assistance required to manage these programs, a federal/state Florida Recovery Office is opened in Orlando and is expected to remain operational through 2010.

Currently more than 100 Other Personal Services (OPS) division staff are authorized under the state staffing plans for

the 2004, 2005 and 2008 events. In FY 2006-07, 6 time limited full time equivalent (FTE) positions were established to fill key roles in the Florida Recovery Office to help ensure consistent leadership and policy direction for critical recovery issues as the disaster programs mature under each event. These positions have a time limitation which expires on 12/31/09. Without these positions, the division is faced with turn over in key positions due to the lack of benefits associated with OPS employment and the additional workload that has resulted from Tropical Storm Fay. In addition, the Federal Emergency Management Agency has federal time-limited positions with full benefits at the Florida Recovery Office that competes with the state's ability to recruit and retain qualified staff. This issue requests the extension of six time limited full time equivalent (FTE) positions through June 30, 2010. These key positions have been included in the staffing projections for disaster match so no additional funding is required.

Disaster Title	Position Title/Number	Cost to Employ	Federal Share	State Share
Recovery Manager	Community Program Manager (SES)/00678	\$82,536	\$72,219	\$10,317
Public Assistance Officer	Planning Manager (SES)/00679	\$72,408	\$65,167	\$7,241**
Deputy Public Assistance Officer	Planning Manager (SES)/00680	\$65,724	\$59,152	\$6,572**
Hazard Mitigation Officer	Planning Manager (SES)/00676	\$60,024	\$45,018	\$15,006***
Deputy Mitigation Officer	Planning Manager (SES)/00677	\$60,024	\$45,018	\$15,006***
Deputy Recovery Manager	Planning Manager (SES)/00681	\$60,024	\$60,024	\$0****

(Salary and Benefits only)

- *50% Hazard Mitigation funded at 75/25 federal/state share & 50% Public Assistance funded at 100% federal share.
- **Public Assistance funded at 90/10 federal/state share
- ***Hazard Mitigation funded at 75/25 federal state share
- **** Public Assistance funded at 100% federal share

Current Situation/Unmet Need:

Experience has proven that without time limited full time equivalent positions it is difficult to recruit and retain

experienced and qualified program managers for these key positions. These positions are currently responsible for managing over \$1 billion in Public Assistance projects and \$600 million of Hazard Mitigation projects and an additional workload as a result of Tropical Storm Fay. This problem is further exacerbated at the Florida Recovery Office because the Federal Emergency Management Agency has established federal positions with benefits at the same location.

Proposed Solution/Initiative: This issue proposes the extension of six time limited full time equivalent positions through 6/30/10 for the Florida Recovery Office. The funding for these positions is already included in the approved staffing plans for these events. The federal portion of these funds is provided in the U.S. Contributions Trust Fund. The state funds for these positions are provided by the Grants and Donations Trust Fund.

Impact of Not Funding Issue:

If this issue is not approved, the division will continue to rely on OPS employees for these key positions. This will result in continuous turn over which will then produce inconsistent grant and program implementation. As a consequence, unnecessary delays will occur for the needed projects for local recovery from the 2004, 2005 and 2008 events. This may also increase the amount of state dollars that will have to be allocated for the state share as a result of possible project overruns due to these delays.

AMENDED 2009-10 NARRATIVE AFTER FEBRUARY 25, 2009

The 2004 and 2005 hurricane seasons were unprecedented for Florida and resulted in 7 presidential disaster declarations. In the 2008 hurricane season, an 8th presidential declaration resulted in response to Tropical Storm Fay. Each presidential declaration brings with it two separate long term disaster grant programs, the Public Assistance Program and the Hazard Mitigation Grant Program. These long term recovery programs have a lifespan of 8 years per disaster to complete all the construction/repairs resulting from the event. In order to accommodate the workload and technical assistance required to manage these programs, a federal/state Florida Recovery Office is opened in Orlando and is expected to remain operational through 2010.

Currently more than 100 Other Personal Services (OPS) division staff are authorized under the state staffing plans for the 2004, 2005 and 2008 events. In FY 2006-07, 6 time limited full time equivalent (FTE) positions were established to fill key roles in the Florida Recovery Office to help ensure consistent leadership and policy direction for critical recovery issues as the disaster programs mature under each event. These positions have a time limitation which expires on 12/31/09. Without these positions, the division is faced with turn over in key positions due to the lack of benefits associated with OPS employment and the additional workload that has resulted from Tropical Storm Fay. In addition, the Federal Emergency Management Agency has federal time-limited positions with full benefits at the Florida Recovery Office

AMENDED 2009-10 NARRATIVE AFTER FEBRUARY 25, 2009

Narrative Summary of Issue:
 The Division of Emergency Management (DEM) has 12 positions that require modifications to their current funding sources as the funding sources relate to the positions functions/responsibilities.

Current Situation/Unmet Need:
 The Division of Emergency Management (DEM) receives funding from the Department of Homeland Security to operate the state's domestic preparedness grant programs. DEM has eight (8) positions for which the salary funding source requires correction. The duties and responsibilities pertaining to this program should be funded from the Grants & Donations Trust Fund. Additionally, three (3) positions currently reflect funding from the state domestic preparedness program and should be more accurately funded from the Emergency Management & Preparedness Assistance Trust Fund and the Federal Emergency Management Program Support Trust Fund.

Also, the division has one (1) position that is being funded through the Emergency Management & Preparedness Assistance Trust Fund and Operating Trust Fund. However, based upon the position's functions/responsibilities, it should be funded from disaster funds.

Proposed Solution/Initiative:

AGENCY NARRATIVE:

2009-2010 BUDGET YEAR NARRATIVE: HOUSING & URBAN DEV DIS GR IT COMPONENT? NO

AMENDED 2009-10 NARRATIVE AFTER FEBRUARY 25, 2009

Narrative Summary of Issue:

The Department of Community Affairs requests additional Fixed Capital Outlay (FCO) budget authority in the Community Development Block Grant Trust Fund to continue the activities of the Community Development Block Grant (CDBG) Disaster Recovery Program(DRP). This will enable the Department to maximize the use of federal funds in Florida's disaster recovery efforts.

Current Situation/Unmet Need:

With the initial disaster allocations from the U.S. Department of Housing and Urban Development (HUD), the CDBG DRP targeted Florida's hardest hit cities and communities that received federal disaster declarations as a result of the Hurricanes striking Florida in 2004-2005. These funds are providing funding to assist local governments in addressing housing and infrastructure.

The State of Florida, Department of Community Affairs is being awarded \$17,457,005 in supplemental CDBG disaster recovery funds with over \$17.1 million being allocated to local governments in areas covered by a 2008 disaster declaration. The Department's CDBG DRP will award grants to eligible local governments for restoration of housing and infrastructure.

Proposed Solution/Initiative:

Additional FCO budget authority in the amount of \$17,457,005 is requested in the Community Development Block Grant Trust Fund. This request includes the CDBG DRP pass-thru allocation of \$17,107,865 and State CDBG DRP program administration of \$349,140 to pay OPS salaries and expense. This will enable the Division of Housing and Community Development to maximize the use of federal funds in Florida's CDBG Disaster Recovery Program.

Impact of Not Funding Issue:

This request is to authorize the Division of Housing and Community Development to utilize additional CDBG federal funding. Without this authorization, \$17,457,005 in federal funds will not be available for local governments to address restoration of infrastructure and housing that were destroyed or impacted in the 2008 storm season.

AGENCY NARRATIVE:
 2009-2010 BUDGET YEAR NARRATIVE: G/A-SM CIT COM DEV BLCK GT IT COMPONENT? NO

AMENDED 2009-10 NARRATIVE AFTER FEBRUARY 25, 2009

Narrative Summary of Issue:
 An annual appropriation is made to the State of Florida by the US Department of Housing and Urban Development (HUD) for the regular Small Cities Community Development Block Grant (CDBG) Program. Under the CDBG program, the Department provides grants to eligible local governments for projects including housing rehabilitation, neighborhood revitalization, revitalization of commercial areas, and infrastructure projects in support of business and economic development.

In fiscal year 2008-2009, Congress passed the American Recovery and Reinvestment Act (ARRA) of 2009 to address the severe housing and economic crisis. Division A, Title XII, of the Act appropriates \$1 billion in the Community Development Fund for approximately 1,200 state and local governments to invest in community development priorities.

The State of Florida will receive \$7.5 million for Community Development Programs from the ARRA to support shovel-ready projects and assisted housing improvements that promote job creation and stimulate economic activity. These funds will be administered through the state's Small Cities Community Development Block Grant Program.

Proposed Solution/Initiative:
 Additional Fixed Capital Outlay Budget Authority in the amount of \$7,454,893 is requested in the Community Development Block Grant Trust Fund (2109). This will enable the Division of Housing and Community Development to maximize the use of federal funds in Florida's CDBG Program.

Impact of Not Funding Issue:
 This request is to authorize the Division of Housing and Community Development to utilize additional CDBG Program federal funding. Without this authorization, \$7,454,893 in federal funds will not be available for community projects that promote job creation and stimulate local economic activity.

AGENCY ISSUE NARRATIVE:
 2009-2010 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

AMENDED 2009-10 NARRATIVE AFTER FEBRUARY 25, 2009

Narrative Summary of Issue:

The Department of Community Affairs requests additional authority in the Community Services Block Grant Trust Fund to obligate federal funds that have been approved through the American Recovery and Reinvestment Act (ARRA). These funds provide low-income individuals and families the opportunity to obtain education, skills, employment, food, and housing assistance needed while they reach their ultimate goal of self-sufficiency. These funds are passed thru to community action agencies, local governments, and non-profit agencies, and are administered at the local level based on the low-income needs of their respective communities.

Current Situation/Unmet Need:

The Community Services Block Grant Program allocation for fiscal year 2009-2010 is expected to increase by \$29.1 million from ARRA funds. Due to the current economic problem and unemployment rate in Florida, these funds should enable the local providers to assist approximately twice as many individuals and families as in previous years.

Proposed Solution/Initiative:

The Department requests additional authority in the amount of \$29,100,000 in the Community Services Block Grant Trust Fund to obligate this additional funding through June 30, 2010. None of the funds may be used for state program administration.

Impact of Not Funding Issue:

If the request for this additional authority is not granted, then these federal funds will not be allocated to the State of Florida.

AGENCY ISSUE NARRATIVE:

2009-2010 BUDGET YEAR NARRATIVE: IT COMPONENT? NO

Narrative Summary of Issue:

The Department of Community Affairs requests additional authority in the Low-Income Home Energy Assistance Trust Fund to obligate federal funds that have been approved through a continuing resolution. These funds have been released to help low-income and poverty families cope with high energy costs due to escalating gas and fuel costs now and through the upcoming winter months. For Florida, this increase will have a positive impact on the high energy bills which we see at the end of each summer season. These funds will continue to benefit us through the winter and upcoming summer season.

Current Situation/Unmet Need:

At this time Florida's Low-Income Home Energy Assistance Program allocation for Fiscal Year 2008/2009 is expected to increase by \$65 million. These additional funds will allow the program to serve twice as many clients over federal fiscal years 2009 and 2010. At the current level of funding, Florida can only serve approximately 8% of the eligible poverty population within the state. This increase should raise this percentage to close to 20%.

Proposed Solution/Initiative:

LOW INCOME HOME ENERGY ASSISTANCE										
PROGRAM										6300010

The Department requests additional authority in the amount of \$65 million in the Low-Income Home Energy Assistance Trust Fund to obligate the additional funding through June 30, 2010.

Impact of Not Funding Issue:

If the request for this additional authority cannot be met, then these much needed additional federal funds will not be able to be used to provide services to over 2 million low-income Floridians.

AMENDED 2009-10 NARRATIVE AFTER FEBRUARY 25, 2009

Narrative Summary of Issue:

The Department of Community Affairs requests additional authority in the Low-Income Home Energy Assistance Trust Fund to obligate federal funds that have been approved through a continuing resolution. These funds have been released to help low-income and poverty families cope with high energy costs due to escalating gas and fuel costs now and through the upcoming winter months. For Florida, this increase will have a positive impact on the high energy bills which we see at the end of each summer season. These funds will continue to benefit us through the winter and the upcoming summer season.

Current Situation/Unmet Need:

At this time Florida's Low-Income Home Energy Assistance Program allocation for Fiscal Year 2009-10 is expected to increase. This increase, plus authority needed to obligate the remainder of the Fiscal Year 2008-09 appropriation which may not be paid in the certified period, is requested. These additional funds will allow the program to serve more clients over federal Fiscal Years 2009-10. At the current level of funding, Florida can only serve approximately 6 percent of the eligible poverty population within the state. This increase should raise this percentage to almost 18 percent.

Proposed Solution/Initiative:

The Department requests additional authority in the amount of \$65,470,000 in the Low-Income Home Energy Assistance Trust Fund to obligate the additional funding through June 30, 2010. Additional authority is requested in the following categories: other personal services (OPS) in the amount of \$450,000; expense in the amount of \$ 20,000; and pass-thru in the amount of \$65 million.

Impact of Not Funding Issue:

If the request for this additional authority is not granted, then these much needed federal funds will not be allocated to the State of Florida.

AGENCY ISSUE NARRATIVE:
 ARRA FY 2008-09 NARRATIVE:

IT COMPONENT? NO

AMENDED 2009-10 NARRATIVE AFTER FEBRUARY 25, 2009

Narrative Summary of Issue:

The Department of Community Affairs requests additional authority in the Weatherization Assistance Program to obligate federal funds that have been approved through the American Recovery and Reinvestment Act (ARRA). These funds are provided by the U. S. Department of Energy (USDOE) to reduce the monthly energy burden of low-income households by improving the energy efficiency of their homes. These funds are passed through to local governments, community action agencies, and non-profit agencies to provide these services at the local level.

Current Situation/Unmet Need:

At this time Florida's Weatherization Assistance Program federal allocation for federal Fiscal Year 2009 increased by \$175,984,474 million from ARRA funds. Due to the current economic crisis these funds should enable local providers to weatherize more homes, create jobs in Florida, and reduce the annual cost of energy by an estimated 20 percent for each home weatherized.

Proposed Solution/Initiative:

The Department requests additional budget authority in the amount of \$18,000,000 in Fiscal Year 2008-09 in the Grants and Donations Trust Fund. Up to \$300,000 of these funds may be used for Administration (Other Personal Services {salaries and contractual}, expenses and Operating Capital Outlay), and pursuant to federal guidelines, up to 17% may be used for training and technical assistance. This will allow the department to obligate federal funds awarded from USDOE through the ARRA. Additional authority will be requested in Fiscal Year 2009-10 to obligate the remaining balance of the federal

Proposed Solution/Initiative:

Of the \$175,984,474 in additional federal funding, \$18,000,000 was requested for Fiscal Year 2008-09.

The Department requests additional budget authority in the amount of \$157,984,474 in Fiscal Year 2009-10 in the Grants and Donations Trust Fund in the Fixed Capital Outlay (FCO) category, in order to obligate the remaining federal funds awarded from USDOE through the ARRA. Up to 5% of these FCO funds may be used for Administration (Other Personal Services {salaries and contractual}, expenses, and Operating Capital Outlay), and pursuant to federal guidelines, up to 17% of the FCO may be used for training and technical assistance.

Impact of Not Funding Issue:

If the request for this additional authority is not granted, these federal funds will not be allocated to the State of Florida.

AGENCY NARRATIVE:

2009-2010 BUDGET YEAR NARRATIVE: G/A-WEATHERIZATION GRANTS IT COMPONENT? NO

Narrative Summary of Issue:

The Department of Community Affairs requests Fixed Capital Outlay (FCO) authority in order to continue to obligate federal funds awarded for the Weatherization Assistance Program in Fiscal Year 2009-2010. This award provides funding for local governments and non-profit organizations to assist low-income persons with lowering their utility bills by weatherizing their homes. No state matching funds are required.

Current Situation/Unmet Need:

At this time Florida's Weatherization Assistance Program federal allocation for Fiscal Year 2009-2010 is not expected to increase, but WAP/LIHEAP will receive additional federal funds that have been approved through a continuing resolution in the Low-Income Home Energy Assistance Program. In addition to the U.S. Department of Energy (USDOE) funding, federal dollars are awarded annually by the U.S. Department of Health and Human Services (HHS) for weatherization activities. For Fiscal Year 2009-2010, \$11,700,000 of federal HHS and USDOE funding is anticipated for the Weatherization Assistance Program.

Proposed Solution/Initiative:

The Department requests \$9,700,000 FCO authority in the Low-Income Home Energy Assistance Program Trust Fund and \$2,000,000 FCO authority in the Grants and Donations Trust Fund in order to obligate federal funds awarded from USDOE and HHS for the Weatherization Assistance Program.

Impact of Not Funding Issue:

If this issue is not funded, the Department will be unable to serve approximately 1,850 low-income households with weatherization assistance that averages about \$9,100 per household.

The Department of Community Affairs requests Fixed Capital Outlay (FCO) budget authority in order to continue to obligate federal funds awarded for the Weatherization Assistance Program in Fiscal Year 2009-2010. This award provides funding for local governments and non-profit organizations to assist low-income persons with lowering their utility bills by weatherizing their homes. No state matching funds are required.

Current Situation/Unmet Need:

At this time, Florida's Weatherization Assistance Program federal allocation for Fiscal Year 2009-2010 from the U.S. Department of Energy (USDOE) is expected to increase, and additional WAP/LIHEAP federal funds that have been approved through a continuing resolution in the Low-Income Home Energy Assistance Program will not be needed. In the original Fiscal Year 2009-10 issue the department requested FCO budget authority in the Low-Income Home Energy Trust Fund and the Grants and Donations Trust Fund. This issue requests the total amount of funding in the Grants and Donations Trust Fund in order to obligate additional USDOE funding for weatherization activities. For Fiscal Year 2009-2010, \$11,700,000 of federal USDOE funding is anticipated for the Weatherization Assistance Program.

Proposed Solution/Initiative:

The Department requests \$11,700,000 FCO budget authority in the Grants and Donations Trust Fund in order to obligate federal funds awarded from USDOE for the Weatherization Assistance Program.

Impact of Not Funding Issue:

If this issue is not funded, the Department will be unable to obligate USDOE Federal funding provided for the Weatherization Assistance Program.

SUMMARY: THIS REQUEST IS FOR BUDGET AUTHORITY IN THE GRANTS AND DONATIONS TRUST FUND ONLY.
