SCH VIIIA NARR 16-17 NOTES:           READY CENTERS REVITAL PLAN  
 \$8,000,000 to continue renovating state readiness centers to meet state and federal building codes.  
 The Florida Armory Revitalization Program continues renovating State Readiness Centers to meet state and federal building codes. National Guard Readiness Centers (Armories) are the core of our hometown based units. The remaining 2 armories are in varying states of disrepair and some are in desperate need of renovation. The revitalization of these readiness centers greatly increases our ability to gain new units with increased capabilities for our state, make the buildings more energy efficient, and directly stimulate the economies of the communities which we serve.

 \$1,700,000 to provide scheduled preventative maintenance. Since 2005, the State of Florida has renovated 50 armories. A recurring maintenance/sustainment program is imperative to sustain the facilities effectively and efficiently while preserving the capital invested in the renovation. This program will provide scheduled preventative maintenance and sustainment to major components over the expected economical life of the components spreading the maintenance expense in a manageable fashion. This will greatly extend the manageable service life of the renovated facility allowing for scheduled minor and major repairs which will save limited funding by reducing the crisis contracting and unscheduled expense of a major system failure.

SCH VIIIA NARR 16-17 NOTES:

\$2,000,000 to secure and harden state readiness centers to meet security needs of the future.

Governor Rick Scott issued Executive Order #15-137 directing the Adjutant General to take immediate action to secure the Florida guardsmen and women. The DMA in conjunction with the Florida National Guard have developed a plan to secure the state's armories, Field Maintenance Shops and Recruiting and Retention stations. The approximate cost to strengthen domestic security is \$8,000,000. Several steps that can be taken include: Installing perimeter fencing at some armories, installing Mylar film and ballistic cover on windows, barricades for Stand-off at over 60 locations, installing Ai-phones, Security and Detection systems. This is a strategic plan spanning over 4 years.

SCH VIIIA NARR 16-17 NOTES:

About Face provides both a summer and a year-round after-school life-preparation program for economically disadvantaged and at-risk youths from 13 through 17 years of age at selected armories around the state. Both summer and after-school programs provide schoolwork assistance, focusing on skills such as teaching students to work effectively in groups; providing basic instruction in computer skills; teaching basic problem-solving, decision-making and reasoning skills; teaching how the business world and free enterprise system work through computer simulations; and teaching home finance and budgeting and other daily life skills. In the after-school program, students must train in academic study skills and basic technical skills that businesses require for employment consideration.

These funds will be used to purchase information technology software and hardware.

A portion of this request (\$16,200) is Life Cycle Replacement (LCR) at a rate of 25% per year as recommended by the US Army. Typical infrastructure has a life expectancy of 3 years, with some hardware able to survive at a 50% replacement to 4 years. Financially it is not viable to support desktops and laptops past the 3 year life expectancy.

\$113,200 will be used to purchase equipment which supports the federal cooperative agreements.  
 \$39,500 will be used to purchase equipment which supports the Florida National Guard Youth Challenge academy.

A detailed list of the equipment is depicted in the D-3A.

The replacement of this specialized equipment is required to maintain compatibility and connectivity with other state and federal agencies and will allow the continuation of the current level of operations.

\$200,000 to upgrade and renovate barracks constructed in the 1950's.

These barracks are exclusively used by state agencies, church groups, youth organizations and other civilian users. These facilities are deteriorating, revealing leaking roofs and mold, and are in desperate need of maintenance and repair. It is difficult to market these buildings in their current condition. A renovation plan for these buildings is in place to elevate the quality of services CBJTC can provide to our civilian users.

TIP	The issue narrative must completely and thoroughly explain and justify each D-3A issue. Agencies must ensure it provides the information necessary for the OPB and legislative analysts to have a complete understanding of the issue submitted. Thoroughly review pages 65 through 70 of the LBR Instructions.

TIP	If an agency is receiving federal funds from another agency the FSI should = 9 (Transfer - Recipient of Federal Funds). The agency that originally receives the funds directly from the federal agency should use FSI = 3 (Federal Funds).					
TIP	If a state agency needs to include in its LBR a realignment or workload request issue to align its data processing services category with its projected FY 2016-17 data center costs, this can be completed by using the new State Data Center data processing services category (210001).					
TIP	If an appropriation made in the FY 2015-16 General Appropriations Act duplicates an appropriation made in substantive legislation, the agency must create a unique deduct nonrecurring issue to eliminate the duplicated appropriation. Normally this is taken care of through line item veto.
