The Commissioner of Education shall allocate the value of the supplemental FTE based on documented evidence of the difference in the cost of the service and the amount of funds received in the district's FEFP allocations for the students being served. The supplemental value shall not exceed three FTE.

The Declining Enrollment Supplement shall be calculated based on 25 percent of the decline between the prior year and current year unweighted FTE students pursuant to section 1011.62(8), Florida Statutes.

Each school district shall report to the Department of Education the amount of funds expended for each of the nine activities.

From the funds in Specific Appropriations 7 and 94, \$709,826,848 is for Supplemental Academic Instruction to be provided throughout the school year pursuant to section 1011.62 (1)(f), Florida Statutes. From these funds, at least \$75,000,000, together with funds provided in the district's research-based reading instruction allocation and other available funds, shall be used by districts with one or more of the 300 lowest performing elementary schools based on the statewide, standardized English Language Arts assessment to provide an additional hour of instruction beyond the normal school day for each day of the entire school year for intensive reading instruction for the students in each of these schools. This additional hour of instruction must be provided by teachers or reading specialists who are effective in teaching reading, or by a K-5 mentoring reading program that is supervised by a teacher who is effective at teaching reading. Students enrolled in these schools who have level 5 reading assessment scores may choose to participate in the additional hour of instruction on an optional basis. ESE centers shall not be included in the 300 schools.

The Department of Education shall provide guidance to school districts for documentation of the expenditures for the additional hour of instruction to ensure that all local, state, and federal funds are maximized for the total instructional program and that the funds used for the additional hour of instruction in these 300 schools do not supplant federal funds. School districts shall submit a report to the Department of Education in a format prepared by the department that includes summary information, including funding sources, expenditures and student outcomes for each of the participating schools that shall be submitted to the Speaker of the House of Representatives, President of the Senate, and Governor by September 30, 2016. Pursuant to section 1008.32, Florida Statutes, the State Board of Education shall withhold funds from a school district that fails to comply with this requirement.

The funds provided for the Supplemental Academic Instruction allocation shall consist of a base amount that shall have a workload adjustment based on changes in FTE. In addition, an additional amount is provided for districts with schools on the list of the 300 lowest-performing elementary schools. District allocations from these additional funds shall be based on the 2014-2015 reported total expenditures for the program, each district's level of per student funding in the reading instruction allocation and the supplemental academic instruction categorical fund, and on the total FTE for each of the schools. The categorical funding shall be recalculated once during the fiscal year following an updated designation of the 300 lowest-performing elementary schools and shall be based on actual student membership from the October FTE survey. If the recalculated total allocation is greater than the amount provided in the General Appropriations Act, the allocation shall be prorated to the level of the appropriation, based on each district's share of the total.

From the funds in Specific Appropriations 7 and 94, \$130,000,000 is provided for a K-12 comprehensive, district-wide system of research-based reading instruction. The amount of \$115,000 shall be allocated to each district and the remaining balance shall be allocated based on each district's proportion of the total K-12 base funding. From these funds, at least \$15,000,000 shall be used to provide an additional hour of intensive reading instruction beyond the normal school day for each day of the entire school year for the students in the 300 lowest performing elementary schools based on the statewide, standardized English Language Arts assessment pursuant to sections 1008.22(3) and 1011.62(9), Florida Statutes. This additional hour of instruction must

be provided by teachers or reading specialists who are effective in teaching reading. Students enrolled in these schools who have level 5 reading assessment scores may choose to participate in the additional hour of instruction on an optional basis. ESE centers shall not be included in the 300 schools. Pursuant to section 1008.32, Florida Statutes, the State Board of Education shall withhold funds from a school district that fails to comply with this requirement.

The growth allocation per FTE shall be \$301.03 for the 2016-2017 fiscal year. School districts shall pay for instructional materials used for the instruction of public high school students who are earning credit toward high school graduation under the dual enrollment program as provided in section 1011.62(1)(i), Florida Statutes.

From the funds provided for Instructional Materials, \$165,000,000 shall be available to school districts to purchase instructional content as well as electronic devices and technology equipment and infrastructure. The purchases made in the 2016-2017 fiscal year must comply with the minimum or recommended requirements for instructional content, hardware, software, networking, security and bandwidth and the number of students per device as developed and published by the Department of Education. Prior to release of the funds by the department to the school districts, each school district shall certify to the Commissioner of Education an expenditure plan for the purchase of instructional content and technology. If the district intends to use any portion of the funds for technology, the district must certify that it has the instructional content necessary to provide instruction aligned to the adopted statewide benchmarks and standards. If the district intends to use the funds for technology the district must include an expenditure plan for the purchase of electronic devices and technology equipment and infrastructure that demonstrates the alignment of devices and equipment with the minimum or recommended requirements. The department shall provide a report to the Legislature on or before March 1, 2017, that summarizes the district expenditures for these funds.

From funds provided in Specific Appropriations 7 and 94, \$435,031,211 is provided for Student Transportation as provided in section 1011.68, Florida Statutes.

From funds provided in Specific Appropriations 7 and 94, \$45,286,750 is provided for the Teachers Classroom Supply Assistance Program and shall be given to teachers pursuant to section 1012.71, Florida Statutes. The allocation shall not be recalculated during the school year.

The supplement shall be the sum of a student allocation and an exempt property allocation. To participate, districts must be eligible for federal Impact Aid funding under Section 8003, Title VIII of the Elementary and Secondary Education Act of 1965.

The student allocation shall be based on the total number of students, including students with disabilities, reported for federal impact aid who: 1) reside with a parent on active duty in the uniformed services or who is an accredited foreign government official and military officer, 2) reside on eligible Indian lands, or 3) reside with a civilian parent who lives or works on eligible federal property connected with a military installation or NASA. This third category shall be multiplied by a factor of 0.5. Students with disabilities shall also be counted separately for the first two categories. The total number of federally-connected students and the total number of students with disabilities shall be multiplied by 3 percent and 10.5 percent of the base student allocation, respectively. The exempt property allocation shall be equal to the tax-exempt value of federal impact aid lands reserved as military installations, real property owned by NASA, or eligible federally-owned Indian lands located in the district, multiplied by the millage authorized and levied under section 1011.71(2), Florida Statutes.

SECTION 2 - EDUCATION (ALL OTHER FUNDS)

For the 2016-2017 fiscal year, this allocation shall be derived from the data reported by school districts to the Department of Education for the federal Impact Aid Program, Section 8003, Title VIII of the Elementary and Secondary Education Act, for the 2016 federal fiscal year. transplants and the global fee payment shall be paid to approved bone marrow transplant providers that provide bone marrow transplants to Medicaid beneficiaries.

Any hospital that was exempt from the inpatient reimbursement ceiling in the prior state fiscal year, due to their charity care and Medicaid days as a percentage to total adjusted hospital days equaling or exceeding 11 percent, but no longer meets the 11 percent threshold, because of updated audited Disproportionate Share (DSH) data, shall remain exempt from the inpatient reimbursement ceilings for a period of two years.

From the funds in Specific Appropriation 206, the Agency for Health Care Administration shall apply a six percent adjustment for anticipated case mix increases from improved documentation and coding through the implementation of Diagnosis Related Grouping (DRG). The agency shall also apply a one percent adjustment for real case mix change. By February 28, 2017, the agency shall perform a reconciliation and apply positive or negative adjustments to the reimbursements comparing actual to predicted case mix in aggregate. Actual case mix will be measured using admissions between April 1, 2015, and March 31, 2016, from both the fee-for-service and managed care programs. Actual case mix in state fiscal year 2016-2017 will be assumed to be higher than measured case mix by between zero and three percent based on case mix trending. Effective March 1, 2017, adjustments will be performed prospectively to the fee-for-service DRG payment parameters and will be applied for the remainder of the fiscal year. Adjustments applied must maintain budget neutrality for the fiscal year. No recalculation of managed care capitation payments will be made based upon these adjustments.

From the funds in Specific Appropriation 206, the Agency for Health Care Administration shall continue a Diagnosis Related Grouping reimbursement methodology for hospital inpatient services as directed in section 409.905 (5)(c), Florida Statutes.

Authority is granted to buy back rate reductions up to, but not higher than the amounts available under the budgeted authority in this Specific Appropriation. In the event that the funds are not available in the Grants and Donations Trust Fund, the State of Florida is not obligated to continue reimbursements at the higher amount.

SPECIFIC
APPROPRIATION

The moneys contained herein are appropriated from the named funds to the Department of Corrections, Justice Administration, Department of Juvenile Justice, Florida Department of Law Enforcement, Department of Legal Affairs/Attorney General, and the Florida Commission on Offender Review as the amounts to be used to pay the salaries, other operational expenditures and fixed capital outlay of the named agencies.

CORRECTIONS, DEPARTMENT OF

From the funds in Specific Appropriations 599 through 755, each provider contracting with the Department of Corrections must provide the department with a proposal prior to the release of funds that details the services that will be delivered, the expected results, and recommended performance measures. The department and each provider must execute a contract before the release of any funds, and the contract documents must include mutually agreed upon performance measures. Each provider must provide quarterly performance reports to the department. Funds shall only be released to providers whose performance reports indicate successful compliance with the performance measures described in the contract.

The Department of Corrections shall continue to submit an annual report on the state prison system to the Governor and to the Legislature using a uniform format and uniform methodologies. The report shall include a comprehensive plan for current facility use and any departures from planned facility use, including opening new facilities, renovating or closing existing facilities, and advancing or delaying the opening of new or renovated facilities. The report shall include the maximum capacity of currently operating facilities and the potential maximum capacity of facilities that the department could make operational within the fiscal year. The report shall also identify appropriate sites for future facilities and provide information to support specified locations, such as availability of personnel in local labor markets. Reports should include updated infrastructure needs for existing or future facilities. Each report should reconcile capacity figures to the immediately preceding report. For the purpose of this paragraph, maximum capacity shall be calculated and displayed pursuant to section 944.023(1)(b), Florida Statutes. The department may provide additional analysis of current and future bed needs based on such factors as deemed necessary by the Secretary. The next report shall be due January 1, 2017.

From the funds in Specific Appropriations 599 through 755, the Department of Corrections shall prepare a report detailing the amount of overtime expended per facility; the number of positions in overlap, with justification for each overlapped position; and identifying the number of unfunded positions that may be eliminated. The report shall be submitted to the chair of the Senate Appropriations Committee and the chair of the House Appropriations Committee by January 1, 2017.

From the funds in Specific Appropriations 599 through 755, the Department of Corrections shall, before closing, substantially reducing the use of, or changing the purpose of any state correctional institution as defined in section 944.02, Florida Statutes, submit its proposal to the Governor's Office of Policy and Budget, the chair of the Senate Appropriations Committee, and the chair of the House Appropriations Committee for review.

From the funds in Specific Appropriations 599 through 755, the Department of Corrections may work within its existing budget, including applicable grants, to implement any corrective action plan developed as the result of a Prison Rape Elimination Act audit conducted in accordance with Title 23, Part 115 of the Code of Federal Regulations. The department may request additional resources required through the Legislative Budget Request process as defined in chapter 216, Florida Statutes.

JUVENILE JUSTICE, DEPARTMENT OF

From the funds in Specific Appropriations 1093 through 1174, each provider who contracts with the Department of Juvenile Justice shall provide the department with a proposal prior to the release of funds that details the services that will be delivered, the expected results, and recommended performance measures. The department and each provider must execute a contract before the release of any funds, and the contract documents shall include mutually agreed upon performance measures. Each provider must provide quarterly performance reports to the department. Funds shall only be released to providers whose performance reports indicate successful compliance with the performance measures described in the contract.

From the funds in Specific Appropriations 1093 through 1174, the Department of Juvenile Justice shall establish a performance accountability system for each provider who contracts with the department for the delivery of services to children at-risk of future involvement in the criminal justice system, as determined by the department. The contract shall include both output measures, such as the number of children served, and outcome measures, such as program completion. The contractor shall report performance results annually to the department. The department's Office of Program Accountability shall summarize performance results from all contracts and report the

SECTION 4 - CRIMINAL JUSTICE AND CORRECTIONS

information annually to the Legislature.

From the funds in Specific Appropriations 1093 through 1174, the Department of Juvenile Justice must, before implementing any departmental reorganization plans, submit its proposal to the Governor's Office of Policy and Budget and to the Legislative Budget Commission for approval.

From the funds in Specific Appropriations 1093 through 1174, the Department of Juvenile Justice may work within its existing budget, including applicable grants, to implement any corrective action plan developed as the result of a Prison Rape Elimination Act audit conducted in accordance with Title 23, Part 115 of the Code of Federal Regulations. The department may request additional resources required through the Legislative Budget Request process as defined in chapter 216, Florida Statutes.

From the funds in Specific Appropriations 1093 through 1174, the Department of Juvenile Justice shall conduct a comprehensive statewide review of county-level data, including a gap analysis of services and programs available across all counties in the state, to evaluate the implementation of juvenile justice policies at the county level. As the result of such review, the department shall prepare a report that includes benchmarking of counties' performance on factors that demonstrate how a county is supporting the department's strategic goals of preventing and diverting more youth from entering the juvenile justice system; providing appropriate, less restrictive, community-based sanctions and services; reserving serious sanctions for youth who pose the greatest risk to public safety; and focusing on rehabilitation. The report shall also include recommendations and strategies that can be implemented by the department or counties to address any identified deficiencies and to assist in developing a statewide, coordinated response across all of Florida's communities to support the department's strategic goals. A copy of the report shall be submitted to the Governor, the President of the Senate, and the Speaker of the House of Representatives by January 1, 2017.

From the funds in Specific Appropriations 1147 through 1161, the Department of Juvenile Justice shall provide a weekly residential resource utilization report that identifies operating capacity, current placements, vacant placements, number of youth awaiting placement, and the percent of use for all residential commitment beds. The department may increase or decrease beds or overlay services provided that the change will better serve taxpayers and the youth under its care. Governor's Office of Policy and Budget, the chair of the Senate Appropriations Committee, and the chair of the House Appropriations Committee prior to implementing any change.

From the funds in Specific Appropriations 1147 through 1161, in selecting a private provider for operation of secure and non-secure residential programs, the Department of Juvenile Justice must consider the provider's history of performance of services in other jurisdictions as well as its performance of services in Florida. The department must also provide a report of serious incidents to the Governor, President of the Senate, and Speaker of the House of Representatives on no less than a quarterly basis. The report must include, at a minimum: the number of incidents and allegations of staff abuse or abuse by another child, including whether or not an allegation was substantiated; descriptions of incidents or allegations of such abuse that resulted in physical injury or significant psychological trauma, or that involved deprivation of food, water, or medical care; and the failure of a provider to report incidents or allegations within required timeframes established by the department. In addition, the department must conduct an independent review of each out-of-state provider before issuing a new contract. The report must be organized so that the incidents and allegations relating to a particular facility and to a particular provider can be readily ascertained. The department must also immediately report the death or serious bodily injury of a youth in a secure or non-secure residential program to the Governor, President of the Senate, and Speaker of the House of Representatives, and may make any additional reports that it determines to be appropriate based upon the seriousness of an incident or allegation.

	FROM FLORIDA CRIME PREVENTION		
	TRAINING INSTITUTE REVOLVING TRUST		
	FUND		208,408

From the funds in Specific Appropriation 1283, \$1,660,000 in recurring general revenue funds is provided to the Child Safety Matters program for a research-based prevention education curriculum to protect children from bullying, cyberbullying, and sexual abuse in Florida's public elementary schools.

From the funds in Specific Appropriation 1283, \$1,000,000 in nonrecurring general revenue funds is provided for the Selah Freedom Residential Housing for Human Trafficking Survivors program comprised of residential safe housing and case management for street and jail outreach programming.

From the funds in Specific Appropriation 1283, \$800,000 in recurring general revenue funds shall be distributed to the Florida Sheriffs Association for the purpose of enhancing Crisis Intervention Team (CIT) training for law enforcement and correctional officers in local sheriff's offices and police departments. The training must include evidence-based approaches designed to improve the outcomes of law enforcement interactions with persons who have mental health issues. Agencies who have conducted minimal or no CIT training must be given priority for training. Local law enforcement agencies may use the funds to pay necessary expenditures resulting from a demonstrated financial hardship that currently prevents officers from receiving CIT training. Funds can also be provided to local community mental health providers to provide additional CIT training in partnership with local law enforcement agencies. A maximum of \$50,000 of these funds may be used by the Florida Sheriffs Association to hire a contract coordinator.

SECTION 4 - CRIMINAL JUSTICE AND CORRECTIONS

From the funds in Specific Appropriation 1283, \$1,000,000 in nonrecurring general revenue funds and \$2,567,306 from the Federal Grants Trust Fund is provided to Voices for Florida for establishment and operation of the Open Doors: Statewide Network of Commercially Sexually Exploited Children program. The program must use survivor mentors, regional navigators, and clinicians to provide trauma-focused crisis intervention and therapeutic services for recovered child victims of sex trafficking. These services are to be initially provided in the Northeast, Big Bend-Panhandle, Central, Suncoast-Tampa Bay, and Southwest areas of the state.

From the funds in Specific Appropriation 1856, \$200,000 of nonrecurring funds is provided to the Florida Commission for the Transportation Disadvantaged to contract with an independent consultant to explore Florida's historic funding of transportation disadvantaged services, the formulas used for distribution of state funds, and the allocation of funding specifically as it relates to urban and rural counties throughout the state. The study will also explore funding formulas and practices of similar services provided in other states.

From the funds in Specific Appropriation 1856, \$4,050,000 of nonrecurring funds shall be allocated to community transportation coordinators who do not receive Urbanized Area Formula Program (49 U.S.C. section 5307) funds to provide transportation services for persons with disabilities, older adults, and people with low incomes so they may access health care, employment, education and other life-sustaining activities. Funds allocated for this purpose shall be distributed among community transportation coordinators based upon the Transportation Disadvantaged Trip and Equipment allocation methodology established by the commission.

From the funds in Specific Appropriation 1856, \$1,138,120 of nonrecurring funds are provided to award competitive grants to community transportation coordinators to address unique transportation challenges of persons with disabilities, older persons and low-income persons seeking to obtain or maintain employment, to allow inner city, urban, or rural neighborhoods residents to access jobs, and to provide transportation services for persons who work late at night or on weekends when conventional transit services are reduced or non-existent.

From the funds in Specific Appropriation 1856, \$2,750,000 of nonrecurring funds are provided to award competitive grants to community transportation coordinators to support transportation projects to: (1) enhance the access of individuals to health care, shopping, education, employment, public services, and recreation; (2) assist in the development, improvement, and use of transportation systems in nonurbanized areas; (3) promote the efficient coordination of services; (4) support intercity bus transportation; and (5) encourage private transportation provider participation.

The remaining funds in Specific Appropriation 1856 are provided for funding services to transportation disadvantaged individuals. A public or private entity that receives any of these funds shall develop and implement performance measures which, at a minimum, shall address timing of advanced scheduling requests; on-time passenger pickup; improved routing to minimize passenger wait times; error rates for passenger pick-up and drop-off; and collection and public posting of passenger satisfaction survey ratings. By September 30, 2016, each such public or private entity must provide information to the Florida Department of Transportation which details the adopted performance measures and the methods used for evaluating performance. The Florida Department of Transportation shall provide a report to the chairs of the legislative appropriations committees by December 15, 2016, specifying which entities submitted, or failed to submit, the required information as well as an evaluation of the efficacy of the performance measures and recommendations as to best practices that could be implemented on a statewide basis.

ECONOMIC OPPORTUNITY, DEPARTMENT OF

From the funds in Specific Appropriations 2148 through 2245, any expenditure from the Temporary Assistance for Needy Families (TANF) Block Grant must be expended in accordance with the requirements and limitations of Part A of Title IV of the Social Security Act, as amended, or any other applicable federal requirement or limitation. Before any funds are released by the Department of Children and Families, each provider shall identify the number of clients to be served and certify their eligibility under Part A of Title IV of the Social Security Act. Funds may not be released for services to any clients except those so identified and certified.

The department head or a designee must certify that controls are in place to ensure that such funds are expended in accordance with the requirements and limitations of federal law and that reporting requirements of federal law are met. It is the responsibility of any entity to which such funds are appropriated to obtain the required certification prior to any expenditure of funds.

From the funds in Specific Appropriations 2148 through 2245, no federal or state funds shall be used to pay for space being leased by a Regional Workforce Board, CareerSource Florida, or the Department of Economic Opportunity if it has been determined by whichever entity is the lessee that there is no longer a need for the leased space. All leases, and performance and obligations under the leases, are subject to and contingent upon an annual appropriation by the Florida Legislature. In the event that such annual appropriation does not occur, or in the alternative, there is either a reduction in funding from the prior annual appropriation or the entity which is the lessee determines that the annual appropriation is insufficient to meet the requirements of the leases, then the lessee has the right to terminate the lease upon written notice by the lessee and the lessee shall have no further obligations under the contracts.

PROGRAM: WORKFORCE SERVICES

WORKFORCE DEVELOPMENT

From the funds in Specific Appropriations 2174 through 2203, the Department of Economic Opportunity must determine if any funds provided for specific workforce programs, projects, or initiatives are not an allowable use of federal funds. If the department finds that any workforce program, project, or initiative for which funds are specifically appropriated in this act is not an allowable use of federal funds, the department must notify the Governor's Office of Policy and Budget, the chair of the Senate Appropriations Committee, and the chair of the House Appropriations Committee.

When allocating full-time equivalent (FTE) positions to individual regional workforce boards, the Department of Economic Opportunity must ensure that workforce services are effectively and efficiently provided throughout the state. The department is authorized to reallocate any FTE position allocated to a regional workforce board that has been or becomes vacant for more than 180 days. When reallocating a vacant FTE position, the department must give priority to a regional workforce

	FROM STATE HOUSING TRUST FUND		95,000,000

From the funds provided in Specific Appropriation 2223, at least 50 percent shall be used to fund the construction or rehabilitation of units through the State Apartment Incentive Loan (SAIL) Program. Each SAIL development that receives an award from these funds and will be targeted to families, elderly persons, and persons who are homeless pursuant to section 420.5087 (3), Florida Statutes, must include not less than 5 percent and no more than 10 percent of its units designed, constructed, and targeted for persons with a disabling condition as defined in section 420.0004 (7), Florida Statutes. Each development shall be required to enter into an agreement with at least one designated supportive services lead agency, such as the Local Center for Independent Living, the Agency for Persons with Disabilities, or any other such agency approved by the Florida Housing Finance Corporation (FHFC), for the purpose of coordinating services and housing for persons with disabilities.

From the funds in Specific Appropriation 2223, \$10,000,000 is provided to fund a competitive grant program for housing developments designed, constructed, and targeted for persons with developmental disabilities as defined in section 393.063, Florida Statutes. Private nonprofit organizations whose primary mission includes serving persons with developmental disabilities as defined in section 393.063, Florida Statutes, shall be eligible for these grant funds. Housing projects funded with these grants may include community residential homes as defined in section 419.001, Florida Statutes, or individual housing units, and may include new construction and renovation of existing housing units. In evaluating proposals for these funds, the FHFC shall consider: the extent to which funds from local and other sources will be used by the applicant to leverage the grant funds provided under this section; employment opportunities and supports that will be available to residents of the proposed housing; a plan for residents to effectively and efficiently access community-based services, resources, and amenities; and partnerships with other supportive services agencies.

From the funds in Specific Appropriation 2223, \$5,000,000 from the Local Government Housing Trust Fund is provided to fund affordable rental opportunities for essential services personnel in the Florida Keys Area of Critical State Concern. "Essential services personnel" means persons in need of affordable housing who are considered essential services personnel as defined by Monroe County in its local housing assistance plan. "Workforce housing" means multifamily rental housing affordable to persons or households whose income does not exceed 140 percent of the area median income for Monroe County.

The Florida Housing Finance Corporation (FHFC) may provide low-interest loans for construction or rehabilitation of workforce housing in the Florida Keys Area of Critical State Concern, provided that the loans: (a) do not exceed the lesser of 50 percent of development costs as defined in section 420.503(13), Florida Statutes, or the minimum amount required to make the project economically feasible; and (b) bear interest rates of 1 to 3 percent, where long term affordability is provided and guaranteed for units set aside for workforce housing for essential services personnel.

SECTION 6 - GENERAL GOVERNMENT

The FHFC shall select projects for funding by competitive solicitation as provided in section 420.507(48), Florida Statutes, including consideration of factors contained in section 420.5087(6)(c), Florida Statutes. The applicant must prove that it has site control of the proposed project site or sites and provide evidence that infrastructure sufficient to support the project is in place at the time of application. Projects must demonstrate support from the local government through funding grants, fee waivers, donations of land, contributions, or other tangible assistance.

From the funds provided in Specific Appropriation 2223, \$20 million from the Local Government Housing Trust Fund is provided for the SAIL program to construct workforce housing to primarily serve low-income persons, as defined in section 420.0004(11), Florida Statutes.

From the funds in Specific Appropriation 2223 from the Local Government Housing Trust Fund, \$674,000 shall be used for training and technical assistance provided through the Affordable Housing Catalyst Program created by section 420.531, Florida Statutes. The Florida Housing Finance Corporation shall directly contract with the entity that meets all of the requirements of section 420.531, Florida Statutes, to provide the training and technical assistance.

	GRANTS AND AIDS - HOUSING FINANCE CORPORATION (HFC) - STATE HOUSING INITIATIVES PARTNERSHIP (SHIP) PROGRAM FROM LOCAL GOVERNMENT HOUSING TRUST FUND	185,800,000

From the funds in Specific Appropriation 2224, each local government must use a minimum of 20 percent of its allocation to serve persons with special needs as defined in section 420.0004, Florida Statutes. Before this portion of the allocation is released by the Florida Housing Finance Corporation (FHFC), a local government must certify that it will meet this requirement through existing approved strategies in the local assistance plan or submit a new local housing assistance plan strategy for this purpose to the FHFC for approval to ensure that it meets these specifications. The first priority of these special needs funds must be to serve persons with developmental disabilities as defined in section 393.063, Florida Statutes, with an emphasis on home modifications, including technological enhancements and devices, which will allow homeowners to remain independent in their own homes and maintain their homeownership.

From the funds in Specific Appropriation 2224, \$7,200,000 shall be used to provide services to homeless persons. Of the \$7,200,000, \$7,000,000 shall be transferred to the Department of Children and Families to implement the provisions of section 420.622, Florida Statutes, and \$200,000 shall be used by the Department of Economic Opportunity to provide training and technical assistance regarding affordable housing to designated lead agencies of homeless assistance continuums of care.

elections results reporting; or other federal election administrative activities as approved by the Department of State.

County supervisors of elections will receive funds only after providing the Department of State a detailed description of the programs that will be implemented. Funds distributed to county supervisors of elections require a certification from the county that matching funds will be provided in an amount equal to fifteen percent of the amount to be received from the state.

Also, before a county supervisor of elections receives funds for any software or hardware technology, including, but not limited to any emerging technology that enhances or facilitates the delivery of absentee ballots, the casting and counting of valid votes, voting system audits or recount processes, and the certification of accurate and complete official election results, the software or technology must first be certified or approved, whichever is applicable by the Department of State. Additionally, before the Supervisor can receive funds for emerging or enhancing technology, the county supervisor of elections and the chairperson of the county governing body must certify that the county has purchased and made available sufficient equipment for casting and counting ballots to meet the needs of the county electors including reducing the wait time at the polls during the early voting period and on election day for the next regularly scheduled general election.

To be eligible, a county must segregate federal funds and required county matching dollars in a separate account established to hold only such funds. Funds in this account must be used only for the activities for which the funds were received. Funds shall remain in the account to be used for the same purposes for subsequent years or until such funds are expended. Supervisors of elections shall report to the Department of State any unspent funds remaining on June 30 of each fiscal year.
