AGENCY ISSUE NARRATIVE:

2017-2018 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

The Department of State, Office of the Secretary and Division of Administrative Services, requests \$500,000 nonrecurring funding in General Revenue for litigation expenses in order to acquire legal representation for lawsuits related to elections and other Departmental litigation. The Department has limited legal staff and resources, which makes it difficult for the Office of the General Counsel internally to handle protracted litigation or litigation pending in venues outside Leon County without the aid of outside counsel. The Florida Department of Legal Affairs represents the Department in many of these situations unless its workload precludes taking additional cases or unless there is a conflict. In turn, in some cases it is necessary to obtain outside counsel and subject matter specialists to assist elections litigation and other Departmental issues. At times, multiple outside lawyers are needed simultaneously when there is a significant number of cases in which the Department is involved and when there is an urgency to prepare cases for almost immediate hearings and appeals. In recent years, especially in presidential election years, the Department has been involved in a large number of time-intensive, short-deadline cases, and the resources required to effectively handle the litigation duties have necessitated hiring outside counsel.

This issue aligns with the following strategies contained in Florida's Strategic Plan for Economic Development: #25 - Civic and Governance Systems - Improve the efficiency and effectiveness of government agencies at all levels.

AGENCY ISSUE NARRATIVE:

2017-2018 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

The Department of State, Division of Historical Resources, requests \$161,250 nonrecurring funding in the Land Acquisition Trust Fund for an increase in Operating Capital Outlay (OCO) authority to purchase several technology enhancement items to increase the efficiency of fieldwork and report preparation within the Bureau of Archaeological Research. The items being requested are now standard tools used by private sector and government Archaeologists.

-Sub-bottom Profiler(\$51,000): Identifies archaeological features below the sea floor. Current rental cost per use is \$2,750. Average use six times per year at a total of \$16,500. At this rate, purchasing a sub-bottom profiler will result in cost savings in just over three years.

-Ground-Penetrating Radar Unit(\$39,000): Allows Archaeologists to identify archaeological features underground.

-Portable X-ray Fluorescence Analyzer(\$36,000): Analyzes the chemical composition of objects.

-Automated Total Station(\$35,250): Used for precise mapping of landscapes, archaeological sites, and specific archaeological features within sites. This equipment would update an aging unit that is near obsolescence.

Historic Preservation Small Matching grants preserve Florida's historical and archaeological resources through restorations and rehabilitation of historic buildings and structures, as well as through survey and evaluation of historic and archaeological resources and education about Florida history. Restoration and rehabilitation projects under this program are a proven stimulus package that boosts both the economy and quality of life. It draws millions of tourists to towns and communities that offer authentic experiences and a sense of history generating state and local taxes. Preservation grants create jobs directly in the restoration of older buildings and indirectly in the entrepreneurial opportunities that restored buildings provide to downtown districts. Preservation is also environmentally responsible. Reusing existing buildings depletes fewer natural resources, preserves greenways and conserves the energy originally required to extract, process, manufacture, transport and install building materials, and reduces landfill waste that results from demolition.

Eligible applications are reviewed in an open competitive process by peer review panels. Panel recommendations are forwarded to the Secretary of State for approval. Subject to Legislative appropriation, all projects approved by the Secretary of State will be awarded at their full request by score until all appropriated funds are depleted.

This issue aligns with the following strategies contained in Florida's Strategic Plan for Economic Development: #13 - Infrastructure and Growth Leadership - Coordinate decision-making and investments for economic development, land use, transportation, infrastructure, housing, water, energy, natural resources, workforce, and community development at the statewide, regional, and local levels, #27 - Quality of Life and Quality Places - Create and sustain vibrant, safe, and healthy communities that attract workers, residents, businesses, and visitors and #29 - Quality of Life and Quality Places - Promote, develop, protect, and leverage Florida's natural, art, and cultural assets in a sustainable manner.

2017-2018 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

The Department of State, Division of Corporations, requests \$500,000 nonrecurring funding in General Revenue for the conversion of microfiche records to electronic images. This amount will enable the Division to contract with a vendor to convert a fourth of the over 2,500,000 microfiche cards to a digital format. This will allow the Division to permanently preserve essential public records and eliminate dependence on declining and antiquated microfiche reading, copying, and printing equipment. Converting these records into an electronic format will provide additional resources for the public and business community. Many documents date back to the late 1800s. This issue will be Phase I of IV to convert all of the documents. For each phase, the Division will address converting the oldest records to the newest records.

This issue aligns with the following strategies contained in Florida's Strategic Plan for Economic Development: #25 - Civic and Governance Systems - Improve the efficiency and effectiveness of government agencies at all levels.

AGENCY ISSUE NARRATIVE:

2017-2018 BUDGET YEAR NARRATIVE: IT COMPONENT? NO  
 The Department of State, Division of Library and Information Services, requests \$800,000 nonrecurring authority in the Federal Grants Trust Fund for the State Aid to Libraries grant program. This is in addition to the \$22,298,834 provided in recurring General Revenue, bringing the total funding amount to \$23,098,834. Annually, the Department receives Library Services and Technology Act funds from the Institute of Museum and Library Services. The Department draws down the federal funds and expends them on contracts, salaries, and other eligible expenses. All funds which are not expended in the fiscal year are rolled over to the next fiscal year. Over the years, the Department has accumulated the excess funds in the Federal Grants Trust Fund.

The Division requests an increase in authority for State Aid to Libraries as provided in s. 257.17-19, F.S., and administered by 1B-2.011, Florida Administrative Code. The additional grant funds will be used to support operations in Florida's 559 public libraries. The State Aid program is designed to assure that all Florida residents have access to

free public library service. The program also encourages increased local support for public library service. The state must guarantee through its maintenance of effort \$20,217,536 in order to continue to receive its full allotment of federal Library Services and Technology Act funds.

The State Aid to Libraries program supports three types of grants:

Operating Grants: All qualified counties are eligible to receive up to \$0.25 on every \$1.00 of local funds spent for the operation and maintenance of a library. Grants are prorated if the program is not fully funded.

Equalization Grants: These grants are made available to those counties that qualify for an Operating Grant and that have limited local tax resources. The formula for distribution of these grants is based on fiscal capacity, effort, and need. The total for Equalization Grants may not exceed 15 percent of the appropriation. Grants are prorated if the program is not funded at or above \$31,999,233 or if libraries qualify for more than 10 percent of the amount required to fund the Equalization Grants.

Multicounty Library Grants: These grants are made available to provide support to libraries that qualify for Operating Grants and that choose to join together to offer library service to their residents in a more cost-effective manner. To qualify, a multicounty library must serve a combined population of at least 50,000 and serve two or more counties, at least one of which qualifies for an Equalization Grant. The grants have two components: a base grant and a match on the first \$1 million in local expenditures. These grants are not prorated. State Aid funds are used to provide all residents free access to library services including increasing hours of operation and number of staff at library facilities, enhancing the library's collections of print and electronic books and supporting citizens' technology needs. The 2013 Return on Investment study found that for every dollar invested in Florida's public libraries \$10.18 is returned.

This issue aligns with the following strategies contained in Florida's Strategic Plan for Economic Development: #5 - Align education and workforce development programs to foster employment opportunities and to develop and retain talented workers with the skills to meet current and future employer needs, #8 - Expand access to education and training programs for talent in distressed markets, #13 - Coordinate decision-making and investments for economic development, land use, transportation, infrastructure, housing, water, energy, natural resources, workforce, and community development at the statewide, regional, and local levels, #24 - Support and sustain statewide and regional partnerships to accomplish Florida's economic and quality of life goals, #25 - Improve the efficiency and effectiveness of government agencies at all levels, #26 - Invest in strategic statewide and regional economic development priorities, #27 - Create and sustain vibrant, safe and healthy communities that attract workers, businesses, residents and visitors, and #29 - Promote, develop, protect and leverage Florida's natural, art and cultural assets in a sustainable manner.
