From the funds provided in Specific Appropriations 5B and 76, \$35,262,206 is provided for the Sparsity Supplement as defined in section 1011.62(7), Florida Statutes, for school districts of 20,000 and fewer FTE in 2009-2010.

2. 0.25 mills

Expenditure requirements for the ESE Guaranteed Allocation shall be as prescribed in section 1010.20(3), Florida Statutes, for programs for exceptional students.

From the funds provided in Specific Appropriations 11, 12A, 138, and 139A, each university may shift enrollment by level in a manner which is revenue neutral; however, no university, with the exception of New College of Florida, shall increase the number of lower level FTEs. For planning and enrollment shifting purposes, the University of South Florida may combine lower, upper, and graduate FTE identified in Specific Appropriations 138 and 139A.

The Chancellor of the State University System shall submit a revised 3-year state university enrollment plan by lower, upper, graduate I and graduate II levels, by university, to the Board of Governors by September 1, 2009. This revised 3-year enrollment plan must be developed with input from each state university.

The enrollment policy adopted by the Legislature does not limit the number of students admitted from out-of-state under the profile admissions policy; however, no state university may receive general revenue funding associated with the enrollment of out-of-state students admitted under this policy. For the purposes of implementing this policy, the Chancellor shall segregate these FTEs and not count them toward the 2009-2010 enrollment plan for the State University System.

Funds provided in Specific Appropriation 138 for the University of Florida include no more than that amount which the State Board of Education and the City of Gainesville agree represents the cost of service for water provided by the city to the University of Florida. The amount charged shall reflect a cost-based rate only and shall be determined through a cost of service study completed annually by the city and reviewed by the university. The costs of any General Fund transfer to the City of Gainesville from Gainesville Regional Utilities or any profit to the city or utility shall be specifically excluded as costs allocable to the university. The cost-based rate shall include charges for only those water services actually provided by the city to the university and shall not include charges for services furnished by the university.

Each university board of trustees is given flexibility to make necessary adjustments to its operating budget. If any board reduces individual programs or projects within the university by more than 10 percent during the 2009-2010 fiscal year, written notification shall be made to the Executive Office of the Governor, the President of the Senate, the Speaker of the House of Representatives, and the Board of Governors.

EXECUTIVE DIRECTION AND SUPPORT SERVICES

Any requests pursuant to chapter 216, Florida Statutes, by the Agency for Health Care Administration to increase budget authority to expand existing programs using increased federal reimbursement through Low Income Pool (LIP) provisions and exemptions to hospital Medicaid rate ceilings shall be contingent upon the availability of state match from existing state funds or local sources that do not increase the current requirement for state general revenue or tobacco settlement funds. The agency is authorized to seek federal Medicaid waivers as necessary to implement this provision.

The agency is authorized to contract on a contingency fee basis for post-audit claims analyses to identify and recover overpayments for the Medicaid program. The state may pay the contractor a rate based on recoveries. The agency shall receive approval from the Centers for Medicare and Medicaid prior to entering into a contractual relationship.

The agency is authorized to transfer a hospital's low-income pool payments between the various low-income programs listed in this specific appropriation if it is required to obtain approval of the low-income pool payment methodology from the Centers for Medicare and Medicaid Services. Any transfer of funds, however, is contingent on the hospital's net low-income pool payments under the low-income pool plan remaining unchanged.

In the event that the amount of approved non-federal share of matching funds is not provided by local governmental entities, the agency may re-allocate low-income pool funds between programs described within this specific appropriation as necessary to ensure sufficient non-federal matching funds. No re-allocation, under this provision, of low-income

pool funds may occur if the level of program increase for any provider access system exceeds the amount of the additional increases in the local non-federal share match that their local governments transfer to the state Medicaid program, and for which the provider access system would have otherwise received.

Funds provided in Specific Appropriation 190, are contingent upon the non-federal share being provided through grants and donations from state, county or other governmental funds. In the event the non-federal share provided through grants and donations is not available to fund the Medicaid low-income payments for eligible Medicaid providers, known as provider access systems, the agency shall submit a revised low-income pool plan to the Legislative Budget Commission for approval. Distribution of such funds provided in Specific Appropriation 208 are contingent upon approval from the Centers for Medicare and Medicaid.

SECTION 4 - CRIMINAL JUSTICE AND CORRECTIONS

SPECIFIC
 APPROPRIATION

The moneys contained herein are appropriated from the named funds to the Department of Corrections, Justice Administration, Department of Juvenile Justice, Florida Department of Law Enforcement, Department of Legal Affairs/Attorney General, and the Parole Commission as the amounts to be used to pay the salaries, other operational expenditures and fixed capital outlay of the named agencies.

CORRECTIONS, DEPARTMENT OF

From the funds in Specific Appropriations 582 through 773, each provider contracting with the Department of Corrections must provide the department with a proposal prior to the release of funds that details the services that will be delivered, the expected results, and recommended performance measures. The department and each provider must execute a contract before the release of any funds, and the contract documents must include mutually agreed upon performance measures. Each provider must provide quarterly performance reports to the department. Funds shall only be released to providers whose performance reports indicate successful compliance with the performance measures described in the contract.

The Department of Corrections shall develop and use a uniform format and uniform methodologies for the purpose of reporting annually to the Legislature on the state prison system. Such reports shall include a comprehensive plan for current facility use and any departures from planned facility use, including opening new facilities, renovating or closing existing facilities, and advancing or delaying the opening of new or renovated facilities. The report shall include the maximum capacity of currently operating facilities and the potential maximum capacity of facilities that the department could make operational within the fiscal year. The report shall also identify appropriate sites for future facilities and provide information to support specified locations, such as availability of personnel in local labor markets. Reports should include updated infrastructure needs for existing or future facilities. Each report should reconcile capacity figures to the immediately preceding report. For the purpose of this paragraph, maximum capacity shall be calculated and displayed pursuant to section 944.023(1)(b), Florida Statutes. The department may provide additional analysis of current and future bed needs based on such factors as deemed necessary by the Secretary. The next report shall be due January 1, 2010.

Funds in Specific Appropriations 582 through 773 shall not be used to pay for unoccupied space currently being leased by the Department of Corrections in the event the leases are vacant on or after July 1, 2009, and for which it has been determined by the Secretary of the department that there is no longer a need.

The Department of Corrections may, subject to all applicable provisions of chapter 216, Florida Statutes, transfer funds and positions and salary rate among budget entities and programs within Specific Appropriations 582 through 773 if necessary, to ensure public safety and avoid adversely affecting current employees due to the elimination of vacant positions and other approved reductions.

PROGRAM: SECURITY AND INSTITUTIONAL OPERATIONS

From the funds provided in Specific Appropriations 617, 631 and 644, a total of \$1,074,362 is provided as payment in lieu of ad valorem taxation for distribution to local government taxing authorities. Funding is provided as follows: \$269,324 for the Bay Correctional Facility, \$339,242 for the Moore Haven Correctional Facility, \$275,560 for the South Bay Correctional Facility, \$100,000 for the Gadsden Correctional Facility and \$90,236 for the Lake City Correctional Facility. These funds may not be distributed if there are outstanding claims for ad valorem taxes due on the property at issue and may not be distributed until the property is reclassified on the real property and tangible personal property rolls as Government State property back to the date the finance corporation or other state entity acquired the title thereto. These distributions shall be adjusted, with the respect to any facility, to reimburse the Department of Management Services, and any predecessor agency, for the total amounts expended by the state in resisting the imposition of such ad valorem tax claims, including all attorneys' fees and costs actually incurred by the state's agencies.

At the discretion of the Department of Corrections, the department is authorized to contract through a request for proposal for innovative and cost effective approaches to the financing, construction and operation of private correctional beds and services which can include any and all operations defined and requested by the department, including but not limited to financing, operations, housing, staffing, security, meals, medical care, transportation, education and substance abuse treatment services. The department may consult with other state agencies on the development of this request for proposal. Any resulting contract shall be funded through existing appropriations, and at a minimum provide for per diem costs at a cost of at least seven percent below what the department can incarcerate similar inmates. The department shall not implement this section in a manner that reduces participation in existing reentry programs.

ADULT MALE CUSTODY OPERATIONS

Funds and positions in Specific Appropriations 607 through 773, include: an increase of 190 full-time equivalent positions and \$5,664,413 from the General Revenue Fund to support the state-wide inmate population increase. These funds and positions are sufficient to provide housing and security for 107,081 inmates when fully annualized. Variable expenses, maintenance, and health services funds are provided for an average daily population of 104,292 inmates.

Funds and positions in Specific Appropriations 607 through 773 are provided to address security needs for the additional prison populations expected in Fiscal Year 2009-2010 as projected by the Criminal Justice Estimating Conference.

Pursuant to sections 944.012(6)(c), 921.00241 and 775.082(11), Florida Statutes, \$3,000,000 in non-recurring funds from the Federal Grants Trust Fund is provided in Specific Appropriation 737A to establish Judicial/DOC pilot programs for offenders who would be sentenced to prison, but could be diverted to appropriate programs which allow the offender to retain community support, access drug treatment and/or employment opportunities while receiving life-skills assistance in a structured environment. These treatment programs may include drug treatment, residential and outpatient treatment programming, day reporting or other services to reduce recidivism.

These pilot programs will be initiated in communities where the local court, and Department of Corrections in conjunction with community stakeholders agree to implement evidence-based practices and graduated incentives that will result in a reduction in prison admission for that community.

Funds in Specific Appropriation 1064 are provided for the redirection program subject to the requirements and limitations in effect during Fiscal Year 2008-2009. The program may serve youth who are before the court for a non-violent 3rd degree felony and who the judge determines would otherwise require residential commitment. Treatment services shall be evidenced-based family therapy for youth for whom these services are appropriate. Youth at risk of commitment are eligible for evidenced-based family therapy services. These services are to be provided as an alternative to commitment. Following the completion of the department's alternative rail traffic evaluation, for through-freight rail traffic moving through Central Florida, including Polk and Hillsborough Counties the department shall begin a project development and environmental study that must be reviewed and approved by appropriate federal agencies so that a preferred alternative can be identified which minimizes the impacts associated with freight rail movements along the corridor.

PROGRAM: WORKFORCE SERVICES

PROGRAM SUPPORT

It is the intent of the Legislature that the administration and delivery of workforce services and programs that are currently provided by agency employees working in One Stop Career Centers operated by the Regional Workforce Boards may be transferred from the Agency for Workforce Innovation to the Regional Workforce Boards. Such transfers shall only occur if the agency determines that the Regional Workforce Boards would more effectively and efficiently deliver services and if such transfers comply with applicable federal regulations. For all transfers made, the agency shall submit budget amendments pursuant to chapter 216, Florida Statutes, to move positions to the Executive Office of the Governor's reserve and realign the budget into the appropriate operating budget appropriation categories to implement the transfer of programs and service delivery to the Regional Workforce Boards.

From the funds in Specific Appropriations 2196 through 2239, the Agency for Workforce Innovation shall determine whether any funds provided for specific workforce programs, projects or initiatives are not an allowable use of federal funds. If the agency finds that any project or initiative for which funds are specifically appropriated in this act is not an allowable use of federal funds, the agency shall notify the Executive Office of the Governor, the chair of the Senate Policy and Steering Committee on Ways and Means and the chair of the House Full Appropriations Council on Education and Economic Development.

AGENCY FOR ENTERPRISE INFORMATION TECHNOLOGY

The Agency for Enterprise Information Technology (AEIT) shall facilitate and coordinate the consolidation of the computing resources in the Department of Business and Professional Regulation and the Department of Juvenile Justice into the Northwood Shared Resource Center and the Florida Parole Commission into the Department of Corrections Office of Information Technology.

The AEIT shall form workgroups consisting of staff with appropriate areas of expertise from affected agencies, including but not limited to budget and technical expertise, for the purpose of developing transition plans for each transfer. The transition plans shall be submitted to the legislative appropriations committee chairs and the Governor. The transition plans shall establish timetables for each transfer, identify the costs and savings associated with each transfer, the positions and resources to be moved and the necessary budget adjustments required to accomplish the consolidation.

The transition plan for consolidation of the Department of Business and Professional Regulation's computing resources into the Northwood Shared Resource Center shall be submitted December 1, 2009 and shall be based on completing the consolidation by November 30, 2010.

The transition plan for consolidation of the Department of Juvenile Justice's computing resources into the Northwood Shared Resource Center shall be submitted December 1, 2009 and shall be based on completing consolidation by June 30, 2010.

The transition plan for consolidation of the Florida Parole Commission's computing resources into the Department of Corrections Office of Information Technology shall be submitted October 1, 2009 and shall be based on completing consolidation by July 1, 2009.

Computing resources being transferred comprise all data center functions necessary to provide full managed services for customer agencies. Computing resources include hardware, software, staff, contracted services, and facilities resources that collectively enable or perform data center management, operations, security, production control, backup and recovery, disaster recovery, system administration, data base administration, system programming, job control, production control, print, storage, technical support, help desk and managed services.

By October 1, 2009, the Agency for Enterprise Information Technology shall submit a proposal for reducing the service cost per user and overall cost of the current electronic mail customers of the Southwood Shared Resource Center (SSRC). The proposal shall be submitted for approval to the Legislative Budget Commission along with any necessary budget amendments. The proposal shall consist of a recommendation to provide the least costly electronic mail solution which maintains current service levels for existing SSRC customers. The proposed solution shall be funded from current resources. The proposal shall, at a minimum, be based on a review of the following options:

1. Allow the SSRC to contract with another state agency for use of its electronic mail system with similar electronic mail services to temporarily provide electronic mail services for existing customers.
2. Allow the SSRC to procure an externally sourced system option that can be used to provide temporary electronic mail services for the existing customers.
3. Transition of additional electronic mail customers onto the existing service platform at the SSRC to reduce the service cost per user.

The proposal shall include an analysis of:

SECTION 6 - GENERAL GOVERNMENT

1. The ability of each option to meet major requirements of each customer;
2. A description of the scope of functionality and operations; and
3. A description of the required resources associated with each option, including one-time acquisition costs, mail migration costs, and ongoing operations, administrative overhead, and staffing costs.

If the option results in increased electronic mail costs for any customer, the proposal shall identify those costs and the funding sources proposed to pay those costs. In order to develop the proposal, the Agency for Enterprise Information Technology shall consult with and, as necessary, form workgroups consisting of agency staff from affected state agencies. State agencies shall cooperate with the Agency for Enterprise Technology in its development of the proposal.
