Authority is granted to buy back rate reductions up to, but no higher than, the amounts available under the budgeted authority in this Specific Appropriation. In the event that the funds are not available in the Grants and Donations Trust Fund, the State of Florida is not obligated to continue reimbursements at the higher amount.

From the funds in Specific Appropriation 204, the Agency for Health Care Administration shall apply a recurring methodology to establish clinic services rates taking into consideration the reductions imposed on or after October 1, 2008, in the following manner: (1) the agency shall divide the total amount of each recurring reduction imposed by the number of visits originally used in the rate calculation for each rate setting period on or after October 1, 2008, which will yield a rate reduction per diem for each rate period; (2) the agency shall multiply the resulting rate reduction per diem for each rate setting period on or after October 1, 2008, by the projected number of visits used in establishing the current budget estimate which will yield the total current reduction amount to be applied to current rates; and (3) in the event the total current reduction amount is greater than the historical reduction amount, the agency shall hold the rate reduction to the historical reduction amount.

SECTION 3 - HUMAN SERVICES

Health shall, in consultation with the Florida Association of Healthy Start Coalitions, alter the Healthy Start service delivery system, including the potential realignment of the current geographic configuration of the coalitions. Coalitions that have a federal Healthy Start site designated by the Health Resources and Services Administration of the United States Department of Health and Human Services within their current service catchment area as of July 1, 2018, shall be preserved. The new service delivery system shall maximize the use of available local, state, and federal funds by targeting services to at-risk women and infants in zip codes with the highest incidence of fetal and infant mortalities and other poor birth outcomes including, but not limited to, low and very low weight births and premature births, in order to reduce ethnic and racial disparities. The targeted services shall be evidence-based, incorporate national and international best practices, and not duplicate services provided by other programs such as Healthy Families and Early Steps. The department and coalitions shall leverage existing partnerships with migrant and community health centers, hospitals and health systems, managed care organizations, local governments, state agencies, managing entities, federal maternal and child health programs, and community-based organizations to ensure that any gaps identified in the new service delivery system are met. The department may use a portion of funds to facilitate the expansion, especially in rural areas of the state, of model evidence-based programs that have been implemented in other states. Where feasible, the coalitions shall co-locate in department facilities to reduce administrative overhead. The department may permit, without charge, appropriate use of administrative services, property, and facilities of the department by the coalitions. At least 90 percent of funds distributed to coalitions must be spent on subcontracted direct client services. JUVENILE JUSTICE, DEPARTMENT OF

From the funds in Specific Appropriations 1104 through 1179A, the Department of Juvenile Justice must, before implementing any departmental reorganization plans, submit its proposal to the Governor's Office of Policy and Budget and to the Legislative Budget Commission for approval.

From the funds in Specific Appropriations 1104 through 1179A, the Department of Juvenile Justice may work within its existing budget, including applicable grants, to implement any corrective action plan that is developed as the result of a Prison Rape Elimination Act audit conducted in accordance with Title 23, Part 115 of the Code of Federal Regulations. The department may request additional resources required through the Legislative Budget Request process as defined in chapter 216, Florida Statutes.

From the funds in Specific Appropriations 1104 through 1179A, the Department of Juvenile Justice shall conduct a comprehensive statewide review of county-level data, including a gap analysis of services and programs available across all counties in the state, to evaluate the implementation of juvenile justice policies at the county level. As the result of such review, the department shall prepare a report that includes benchmarking of counties' performance on factors that demonstrate how a county is supporting the department's strategic goals of preventing and diverting more youth from entering the juvenile justice system; providing appropriate, less restrictive, community-based sanctions and services; reserving serious sanctions for youth who pose the greatest risk to public safety; and focusing on rehabilitation. The report shall also include recommendations and strategies that can be implemented by the department or counties to address any identified deficiencies and to assist in developing a statewide, coordinated response across all of Florida's communities to support the department's strategic goals. A copy of the report shall be submitted to the Governor, President of the Senate, and Speaker of the House of Representatives by January 1, 2019.

PROGRAM: RESIDENTIAL CORRECTIONS PROGRAM

From the funds in Specific Appropriations 1154 through 1167, the Department of Juvenile Justice shall provide a monthly residential resource utilization report that identifies operating capacity, current placements, vacant placements, number of youth awaiting placement, and the percent of use for all residential commitment beds. The department may increase or decrease beds or overlay services provided that the change will better serve taxpayers and the youth under its care. Notification and justification of changes will be provided to the Governor's Office of Policy and Budget, chair of the Senate Appropriations Committee, and chair of the House Appropriations Committee prior to implementing any change.

SECTION 4 - CRIMINAL JUSTICE AND CORRECTIONS

From the funds in Specific Appropriations 1154 through 1167, in selecting a private provider for operation of secure and non-secure residential programs, the Department of Juvenile Justice must consider the provider's history of performance of services in other jurisdictions as well as its performance of services in Florida. The department must also provide a report of serious incidents to the Governor, President of the Senate, and Speaker of the House of Representatives on no less than a quarterly basis. The report must include, at a minimum: the number of incidents and allegations of staff abuse or abuse by another child, including whether or not an allegation was substantiated; descriptions of incidents or allegations of such abuse that resulted in physical injury or significant psychological trauma, or that involved deprivation of food, water, or medical care; and the failure of a provider to report incidents or allegations within required timeframes established by the department. In addition, the department must conduct an independent review of each out-of-state provider before issuing a new contract. The report must be organized so that the incidents and allegations relating to a particular facility and to a particular provider can be readily ascertained. The department must also immediately report the death or serious bodily injury of a youth in a secure or non-secure residential program to the Governor, President of the Senate, and Speaker of the House of Representatives, and may make any additional reports that it determines to be appropriate based upon the seriousness of an incident or allegation.

From the funds in Specific Appropriation 1155 and 1162, the Department of Juvenile Justice shall implement a five percent pay increase for direct care workers in their residential programs, in order to help reduce turnover, retain employees and attract new employees. The department shall report on the use and effectiveness of these initiatives by March 1, 2019. The report shall be submitted to the chair of the Senate Committee on Appropriations, the chair of the House of Representatives Appropriations Committee, and the Executive Office of the Governor.

From the funds in Specific Appropriation 1855, \$2,300,000 of nonrecurring funds shall be allocated to community transportation coordinators who operate in counties that are not direct recipients of funding under the Urbanized Area Formula Program set forth in 49 U.S.C. section 5307 (Senate Form 2230). Funds are to be used to provide transportation services for persons with disabilities, older adults, and people with low income so that they may access health care, employment, education, and other life-sustaining activities. Funds allocated for this purpose shall be distributed among community transportation coordinators based upon the Transportation Disadvantaged Trip and Equipment allocation methodology established by the Commission for the Transportation Disadvantaged.

From the funds in Specific Appropriation 1855, \$1,750,000 in nonrecurring funds is provided to award competitive grants to community transportation coordinators to support transportation projects that: (1)

SECTION 5 - NATURAL RESOURCES/ENVIRONMENT/GROWTH MANAGEMENT/TRANSPORTATION

enhance the access of older adults, persons with disabilities, and persons with low income to health care, shopping, education, employment, public services, and recreation; (2) assist in the development, improvement, and use of transportation systems in nonurbanized areas; (3) promote the efficient coordination of services; (4) support intercity bus transportation; and (5) encourage private transportation provider participation (Senate Form 2231).

From the funds in Specific Appropriation 1855, \$10,361,334 in nonrecurring funds shall be allocated equally among all 67 counties in the state for trip and equipment grants.

From the funds in Specific Appropriation 1855, \$41,445,334 in nonrecurring funds shall be allocated to community transportation coordinators for trip and equipment grants based on a comparative ranking of all community transportation coordinators in each of the following five categories:

1. Passenger trips. Total system passenger trips provided as a percentage of all community transportation coordinators' trips reported. This factor will represent 20 percent of the trip and equipment grant funds.
2. Vehicle miles. Total system vehicle miles traveled as a percentage of all community transportation coordinators' vehicle miles traveled and reported. This factor will represent 40 percent of the trip and equipment grant funds.
3. Population of older adults. Total county population of older adults as a percentage of the total state population of older adults of all community transportation coordinators. This factor will represent 13.33 percent of the trip and equipment grant funds. For the purpose of this allocation, the commission shall consider individuals age 60 and above as older adults.
4. Population of persons with disabilities. Total county population of persons with disabilities as a percentage of the total state population of persons with disabilities of all community transportation coordinators. This factor will represent 13.34 percent of the trip and equipment grant funds. For the purpose of this allocation, the commission shall consider individuals claiming a disability on the most recent United States Census survey.
5. Population of people with low incomes. Total county population of people with low incomes as a percentage of the total state population of people with low incomes of all community transportation coordinators. This factor will represent 13.33 percent of the trip and equipment grant funds. For the purpose of this allocation, the commission shall consider the income of individuals as reported on the most recent United States Census survey.
6. Transportation Network Companies are eligible to participate in these services as demand-responsive operations pursuant to section 427.011(9), Florida Statutes.

If the department finds that any workforce program, project, or initiative for which funds are specifically appropriated in this act is not an allowable use of federal funds, the department must notify the Office of Policy and Budget in the Executive Office of the Governor, the chair of the Senate Appropriations Committee, and the chair of the House Appropriations Committee.

SECTION 6 - GENERAL GOVERNMENT

When allocating full-time equivalent (FTE) positions to individual local workforce development boards, the Department of Economic Opportunity must ensure that workforce services are effectively and efficiently provided throughout the state. The department is authorized to reallocate any FTE position allocated to a local workforce development board that has been or becomes vacant for more than 180 days. When reallocating a vacant FTE position, the department must give priority to a local workforce development board that would use the FTE position to provide additional services to veterans.

Funds provided in Specific Appropriation 2182 from the Welfare Transition Trust Fund are allocated for workforce services based on a plan approved by CareerSource Florida. The plan must maximize funds distributed directly to the local workforce development boards and must identify any funds allocated for state-level and discretionary initiatives. The plan must equitably distribute funds to the boards based on anticipated client caseload to maximize the ability of the state to meet performance standards, including federal work participation rate requirements, and prioritize services provided to one-parent families.

From the funds provided in Specific Appropriation 2182, any expenditures by a local workforce development board for "outreach," "advertising," or "public relations" must have a direct program benefit and must be spent in strict accordance with all applicable federal regulations and guidance. For any expenditure exceeding \$5,000 for outreach purposes, a local workforce development board must obtain prior approval from the Department of Economic Opportunity before purchasing promotional items, including but not limited to clothing, memorabilia, models, gifts, and souvenirs.

Funds in Specific Appropriation 2182 may not be used directly or indirectly to pay for meals, food, or beverages for board members, staff, or employees of local workforce development boards, CareerSource Florida, or the Department of Economic Opportunity except as expressly authorized by state law. TRUST FUND		100,000,000

From the funds in Specific Appropriation 2224, \$30,000,000 shall be used to fund the Hurricane Housing Recovery Program. These funds are targeted only to the Base Program and the Extremely Low Income Supplement, using Hurricane Irma FEMA data that weighs both the extent and the intensity of housing damage in each county.

From the funds in Specific Appropriation 2224, \$60,000,000 shall be used to fund the Rental Recovery Loan Program to provide housing targeted to areas of the state hardest hit by Hurricane Irma. To the extent feasible, the program shall leverage existing federal rental financing programs to provide units for households at income levels served through the State Apartment Incentive Loan Program in section 420.5087, Florida Statutes. For developments serving families, preference shall be given to those located in close proximity to employment opportunities. Based on the continued need for specialized housing for homeless persons, persons with special needs as defined in section 420.0004(13), Florida Statutes, and farmworkers, a portion of these funds may be made available to provide flexible financing to meet these housing needs. The funding shall be prioritized to the hardest hit counties using FEMA data that weighs both the extent and the intensity of housing damage.

From the funds in Specific Appropriation 2224, \$10 million shall be provided to the Monroe County Land Authority, created pursuant to section 380.0663, Florida Statutes, to acquire land for affordable housing in the Florida Keys Area of Critical State Concern. The Monroe County Land Authority shall use these funds to purchase, own, and lease lands for the provision of affordable rental housing.

By August 15, 2018, the Florida Housing Finance Corporation must submit a plan that includes an allocation formula for the distribution of the programs described above to the chair of the Senate Appropriations Committee and the chair of the House Appropriations Committee.

Private, nonprofit organizations that have a primary mission that includes serving persons with developmental disabilities as defined in section 393.063, Florida Statutes, shall be eligible for these grant funds. Housing projects funded with these grants may include community residential homes as defined in section 419.001, Florida Statutes, or individual housing units, and may include new construction and renovation of existing housing units. In evaluating proposals for these funds, the FHFC shall consider: the extent to which funds from local and other sources will be used by the applicant to leverage the grant funds provided under this section; employment opportunities and supports that will be available to residents of the proposed housing; a plan for residents to effectively and efficiently access community-based services, resources, and amenities; and partnerships with other supportive services agencies.

From the funds provided in Specific Appropriation 2225, and in Section 85, \$40,000,000 of nonrecurring funds is provided for the SAIL Program to construct workforce housing to primarily serve low-income persons, as defined in section 420.0004, Florida Statutes, and in the Florida Keys Area of Critical State Concern, to serve households with incomes not to exceed 140 percent of Area Median Income (AMI) when strategies are included in the local housing assistance plan to serve these households.

For purposes of developing the inventory, the Chief Data Officer shall establish a process and a reporting format for state agencies to provide an inventory that describes all current datasets aggregated or stored by the state agency.

SECTION 6 - GENERAL GOVERNMENT

The inventory shall include, but is not limited to: 1) the title and description of the information contained within the dataset; 2) a description of how the data is maintained, including standards or terminologies used to structure the data; 3) any existing or planned application programming interface used to publish the data; 4) a description of the data contained in any such existing interface; and 5) a description of the data expected to be contained in any currently planned interface.

The Chief Data Officer shall recommend potential methods for standardizing data across state agencies that will promote interoperability and reduce the collection of duplicative data, identify what state agency data may be considered open data, recommend open data technical standards and terminologies for use by state agencies, and recommend options and all associated costs for the state to develop and maintain an open data catalog.

Funds in Specific Appropriation 3081 shall be distributed to county supervisors of elections to be used for election administration activities such as voter education; pollworker training; standardized elections results reporting; or other federal election administrative activities as approved by the Department of State.

County supervisors of elections will receive funds only after providing the Department of State a detailed description of the programs that will be implemented. Funds distributed to a county supervisor of elections require a certification from the county that matching funds will be provided in an amount equal to fifteen percent of the amount to be received from the state.

Also, before a county supervisor of elections receives funds for any software or hardware technology, including but not limited to any emerging or enhancing technology that enhances or facilitates the delivery of absentee ballots, the casting and counting of valid votes, voting system audits or recount processes, and the certification of accurate and complete official election results, the software or technology must first be certified or approved, whichever is applicable, by the Department of State. Additionally, before the supervisor can receive funds for emerging or enhancing technology, the county supervisor of elections and the chairperson of the county governing body must certify that the county has purchased and made available sufficient equipment for casting and counting ballots to meet the needs of the county electors including reducing the wait time at the polls during the early voting period and on election day for the next regularly scheduled general election.

To be eligible, a county must segregate federal funds and required county matching dollars in a separate account established to hold only such funds. Funds in this account must be used only for the activities for which the funds were received. Funds shall remain in the account to be used for the same purposes for subsequent years or until such funds are expended. Supervisors of elections shall report to the Department of State any unspent funds remaining on June 30 of each fiscal year.

<p>From the funds in Specific Appropriation 3141A, the Office of the State Courts Administrator shall develop or procure an electronic criminal justice risk assessment solution. The solution shall be used to pilot one or more validated pretrial risk assessment instruments in two or more counties which will objectively analyze the risk that a criminal defendant will re-offend or fail to appear before trial and provide risk levels that will inform the court's decision as to whether the defendant should be detained pretrial or released with or without conditions. The pilot shall commence on or before November 1, 2018. Criminal justice agencies within the pilot counties shall participate. In determining the appropriate pretrial risk assessment instruments for the pilot, the office, in collaboration with the participating criminal justice agencies, shall review existing, validated pretrial risk assessment instruments. Additionally, the office shall review the use of validated risk assessment instruments to determine a criminal defendant's suitability for problem solving courts and consider whether such assessments should be included in the criminal justice risk assessment solution. As part of the reviews, the office shall consult with the Department of Juvenile Justice and the Department of Corrections regarding their experiences with developing and using risk assessment instruments. The office shall submit to the President of the Senate and the Speaker of the House of Representatives an interim report by February 1, 2019, which addresses the pilot's implementation status and whether risk assessment instruments used in problem solving courts should be included in the solution, and a final report by January 3, 2020, which addresses the success of the pilot and, if warranted by the pilot's findings, makes recommendations to the Legislature on how to implement pretrial risk assessment instruments statewide.</p>

SECTION 8. EMPLOYEE COMPENSATION AND BENEFITS - FISCAL YEAR 2018-2019
This section provides instructions for implementing the Fiscal Year 2018-2019 salary and benefit adjustments provided in this act. All allocations, distributions, and uses of these funds are to be made in strict accordance with the provisions of this act and chapter 216, Florida Statutes.

References to an "eligible" employee refer to an employee who is, at a minimum, meeting his or her required performance standards, if applicable. If an ineligible employee achieves performance standards subsequent to the salary implementation date, but on or before the end of the fiscal year, the employee may receive the increase; however, the increase shall be effective on the date the employee becomes eligible but not retroactively. In addition, any salary increase or bonus provided under this section shall be pro-rated based on the full-time equivalency of the employee's position. Employees classified as being other personal services employees are not eligible for an increase.

It is the intent of the Legislature that the minimum for each pay grade and pay band not be adjusted during the 2018-2019 fiscal year and that the maximums for each pay grade and pay band shall be adjusted upward by six percent, effective July 1, 2018. In addition, the Legislature intends that all eligible employees receive the increases specified in this section, even if the implementation of such increases results in an employee's salary exceeding the adjusted pay grade maximum. Salary increases provided under this section shall be prorated based on the full-time equivalency of the employee's position.
