Dear Ms. Kelly:

The Agency Capital Improvement Program for Fiscal Year 2019-20 through Fiscal Year 2023-24 for the Executive Office of the Governor, Division of Emergency Management, is submitted and has been posted to the Florida Fiscal Portal, following the instructions dated July 2018. The information provided electronically is a true and accurate presentation of our proposed Fixed Capital Outlay Legislative Budget Request of \$4,800,000 for the 2019-20 Fiscal Year.

This request will provide funding of \$1,800,000 for architectural and design services to develop construction project scopes and initial cost estimates to replace or structurally alter and expand existing Emergency Operation Centers for nine fiscally constrained counties to meet the minimum hurricane safety criteria.

This request will also provide funding of \$3,000,000 to local governments to retrofit existing public hurricane evacuation shelters listed in the most current Shelter Retrofit Report published by the Division each year in order to reduce any shelter space deficits. Projects provided funding must retrofit the facility to American Red Cross Standard 4496, which is a nationwide standard used for hurricane evacuation shelter selection that provides assurance to those seeking public shelter that they are safe from the hazards associated with hurricanes. The funding source for these projects is outlined in Section 215.559, Florida Statutes, from the Florida Hurricane Catastrophe Fund, and the Division receives a recurring appropriation for these shelter retrofit projects each year.

Sincerely,

A handwritten signature in blue ink, appearing to read "Wesley Maul", written over the typed name and title.
