AGENCY ISSUE NARRATIVE:

2020-2021 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

"Amended 2020-21 Narrative after November 22, 2019"

This issue transfers six positions and related budget authority from the Executive Office of the Governor to the Department of Health for the Correctional Medical Authority. The associated rate will be transferred from the County Health Department budget entity (64200700). The Correctional Medical Authority reviews the Florida Department of Correction's Health care delivery system for inmates housed in correctional institutions throughout the state and provides recommendations to address health care deficiencies in each of the correctional institutions.

Summary: This is a new issue.

AGENCY ISSUE NARRATIVE:

2020-2021 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

ISSUE TITLE: Healthy Floridians Healthy Future - Racial and Ethnic Disparities - Closing the Gap

CURRENT SITUATION: Florida's State Health Improvement Plan (SHIP) Steering Committee directed a comprehensive State Health Assessment (SHA) to identify the most important health issues affecting Floridians. Using the Mobilizing for Action through Planning and Partnership (MAPP) process, the SHA ensured that selected priorities were supported by data about the health status of Florida's residents, the effectiveness of Florida's public health system in providing essential services, residents' perceived quality of life and factors outside of health that impact health, now or in the future.

Health Equity is the number one priority.

REQUEST: Funding is requested to enhance staffing capacity and to support awards for community-based projects. These projects will address HIV/AIDS, infant mortality, cardiovascular disease, Alzheimer's disease and community conditions in areas across the state with the greatest needs. The distribution of the awards will be facilitated through the release of a Request for Application (RFA) per the Department's policy.

 CLOSING THE GAP

Closing the Gap Grants (\$2,500,000): Award additional Closing the Gap Grants to address racial or ethnic disparities in areas defined by statute, including maternal and infant mortality, cardiovascular disease, diabetes, lupus, HIV/AIDS, and social determinants of health.

Alzheimer's Disease (\$750,000): Award grants to increase collaboration and coordination between state and local partners to increase the implementation and quality of evidence-based interventions to address Alzheimer's and related dementias in alignment with Centers for Disease Control's Healthy Brain Initiative's Public Health Road Map.

Community Intervention Programs (\$500,000): Award grants to support implementation of Community Intervention Programs to address chronic disease, including evidence-based chronic disease screening, intervention, and health education efforts, per Section 385.103 Florida Statute.

Coordinated Implementation and Evaluation Services (\$500,000): Contract with an entity to support improved design, monitoring, and evaluation of the Closing the Gap Grant program and its grantees. The contracted entity will bring together an overarching stakeholder group consisting of state and local governments, community-based organizations, health care systems, social service providers, and other nontraditional partners to provide feedback on the identification of the factors contributing to existing health disparities, evidence-based and promising practices currently being implemented, and opportunities for quality improvement.

BUDGET SUMMARY: This issue requests \$4,476,310 in General Revenue (1000) of which \$13,287 is non-recurring in the Administrative Support budget entity (64100200), Executive Direction program component (16.02.00.00.00), Grants and Aids Minority Health Initiative category (050310) and \$321 Human Resource Services category (107040).

AGENCY ISSUE NARRATIVE:

2020-2021 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

ISSUE TITLE: Tobacco Constitutional Amendment - Consumer Price Index

CURRENT SITUATION: Section 2007-65 Laws of Florida created section 381.84, Florida Statutes that requires the Department of Health (DOH) to conduct a statewide tobacco education and use prevention program in order to implement Article X, Section 27 of the State Constitution. Article X also requires an annual adjustment for inflation, using the Consumer Price Index.

REQUEST: By applying the Consumer Price Index of 1.9% from the July 2019 National Economic Estimating Conference the estimated tobacco expenditures from the August 2019 Revenue Estimating Conference will be adjusted by \$1,369,799.

BUDGET SUMMARY: This issue requests \$1,369,799 in recurring appropriation in the Tobacco Settlement Trust Fund (2122), Community Health Promotion budget entity (64200100), Comprehensive Statewide Tobacco Prevention and Education Program special category (106036), Health Services to Individuals program component (13.01.00.00.00).

The Tobacco Settlement Trust Fund (2122) total base budget for Fiscal Year 2020-2021 is \$72,094,658 which when multiplied by the inflation percentage of 1.9% = \$1,369,799.

LINKAGE TO THE GOVERNOR'S PRIORITIES: #4 Health Care - Promote innovation in healthcare that reduces the cost of medical procedures and services and increases access to care for Floridians.

FLORIDA STRATEGIC PLAN: 1. Create and sustain vibrant, safe, healthy and resilient communities that attract workers, residents, businesses and visitors. 2. Ensure Floridians in all communities and life stages have opportunities to achieve healthier outcomes and societal contributions.

"Amended 2020-21 Narrative after November 22, 2019"

This issue is for the annual adjustment of inflation using the Consumer Price Index as required by Article X, section 27 of the state constitution for the Tobacco Settlement Trust Fund. Section 381.84, Florida Statutes requires the Department

2020-2021 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

ISSUE TITLE: Emerging Disease Threat Response

CURRENT SITUATION: The Department has responded to several emerging infectious disease threats that have had the potential to impact Florida residents, the health care infrastructure and the state's tourism industry. Most recently, the Department has been coordinating a disease investigation and vaccination effort to control hepatitis A, an outbreak which has affected thousands of Floridians and caused numerous deaths to date. The outbreak is still ongoing and could continue for many years depending on the rapidity and effectiveness of disease control efforts. Several other emerging diseases, including Ebola, yellow fever, measles, dengue, Zika, chikungunya and pandemic flu are common and could cause a threat to Florida.

Florida receives over 100 million visitors annually, which raises the risk of high threat disease introductions. One of the most recent threats to Florida's health security is an outbreak of hepatitis A, which has so far, sickened thousands and contributed to the death of many Floridians. The Department identified non-recurring resources to track and investigate cases, mitigate disease spread, and vaccinate those in high-risk groups. However, without additional resources to effectuate more rapid and effective disease control efforts, this outbreak will likely result in additional cases, more deaths, and continue to threaten Floridians and visitors alike for many years.

Most (80%) of Florida's Hepatitis A cases are admitted to the hospital and the cost of their care is about \$77,000 per case. Often, this care is charged to Medicare, Medicaid, and other public funding sources. It costs the Department less than \$50 to vaccinate a person against hepatitis A. If the Department was better resourced to prevent those 1,750-3,500 additional cases by vaccinating at-risk people before they become exposed, we could conservatively prevent over \$107,000,000 to \$215,000,000 in HAV-associated healthcare charges.

Improving early identification, responding to, and tracking the threat of emerging and reemerging high threat diseases, is an investment in protecting Florida against other emerging and reemerging disease threats. Conservative estimates have hospitalization charges for high threat diseases at \$50,000 per case. Preventing 140 hospitalizations would allow for the state to see a return on the \$7,000,000 investment requested. Additional benefits to the affected individuals and the broader Florida community, include avoidance of costs associated with work productivity loss, outpatient visits, and

deaths. The sooner the department can identify and track these cases, the sooner disease spread can be contained, and outbreaks avoided.

REQUEST: The ongoing risk of importation of these diseases from those visiting or moving to Florida from other parts of the U.S. and from countries where the diseases are endemic, as well as the possibility of Florida's outbreak of the hepatitis A virus not being fully resolved, an ongoing response effort is needed. The requested funding will allow the support of the Department's response to emerging infectious disease threats and the sustainment of the hepatitis A outbreak.

BUDGET SUMMARY: The Department requests \$15,166,202 in recurring General Revenue (1000) in the following categories:

Statewide Public Health Support Services (64200800) budget entity:  
 \$7,226,478 in the Drugs/Vaccines/Biologicals (101015) category (16.02.01.00.00 Program Component)  
 \$7,000,000 in the State and Federal Disaster Relief Operations (103535) category (12.08.00.00.00 Program Component)

County Health Departments Local Health Needs (64200700) budget entity:  
 \$939,724 in the Contribution to County Health Units (050329) category (13.06.01.00.00 Program Component)

The Department also requests \$939,724 in recurring budget authority in the County Health Department Trust Fund (2141) in the County Health Departments Local Health Needs budget entity (64200700).  
 \$939,724 in Expense Category (040000) (13.06.00.00.00 Program Component)

AGENCY ISSUE NARRATIVE:

2020-2021 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

ISSUE TITLE: CMS Workforce Reduction

CURRENT SITUATION: Under Chapter 391 and 409, Florida Statutes, the Department of Health's (Department) Office of Children's Medicaid Services (CMS), serves medically complex children through Medicaid and KidCare Health Plans. In 2015, CMS transitioned into the Statewide Medicaid Managed Care Program. Since then, the Department has been looking for the most efficient and ideal way to delivery services to Florida's youngest and most medically complex population.

In February 2019, the Office of CMS Managed Care Plan (CMS MCP) transitioned into a new service deliver model and contracted with a provider to deliver services for children enrolled in the CMS MCP. The decision to transition to a new service delivery model followed nearly three years of research and collaboration with statewide and national experts to identify challenges of the current plan and to outline desired elements in a new plan, to give children more access to the services they need. Once the new model was implemented, an internal comprehensive analysis of job functions was developed. CMS MCP assessed all the positions and looked for positions that were no longer needed, could be absorbed, or reassigned to other positions, and as a result, CMS MCP had a workforce reduction in July 2019.

REQUEST: The Department identified 79 FTE's in the workforce reduction to eliminate within the CMS budget entity (64300100). The Department no longer needs the budget appropriation or salary rate associated with these positions.

BUDGET SUMMARY: The Department has identified \$4,517,691 in Donations Trust Fund (2168), within the CMS budget entity (64300100), in the salaries and benefits category (010000) that is no longer needed. The Department has also identified 2,967,872 units of rate, that is also no longer needed within the same budget entity.

AGENCY ISSUE NARRATIVE:

2020-2021 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

ISSUE TITLE: CMS Network Category Savings

CURRENT SITUATION: Under Chapter 391 and 409, Florida Statutes, the Department of Health's (Department) Office of Children's Medicaid Services (CMS), serves medically complex children through Medicaid and KidCare Health Plans. In 2015, CMS transitioned into the Statewide Medicaid Managed Care Program. Since then, the Department has been looking for the most efficient and ideal way to delivery services to Florida's youngest and most medically complex population.

In February 2019, the Office of CMS Managed Care Plan (CMS MCP) transitioned into a new service deliver model and contracted with a provider to deliver services for children enrolled in the CMS MCP. The decision to transition to a new service delivery model followed nearly three years of research and collaboration with statewide and national experts to identify challenges of the current plan and to outline desired elements in a new plan, to give children more access to the services they need.

Once the new model was implemented, an internal comprehensive analysis was done to estimate the cost savings for the CMS MCP. Most of CMS MCP expenditures are made within the CMS Network Category (100497). These expenditures include, but are not limited to, office rentals facilities, janitorial services, communication services such as telephone lines, OPS and staffing, and medical supplies.

REQUEST: The Department has identified a \$10,271,253 savings in General Revenue due to the CMS MCP transition into a new service delivery model. The Department request to move \$7,969,253 of this savings from the CMS Network Category to the IDEA Part C (103629) category for Early Steps and \$702,000 to the Poison Control Center (102936) category. Early Steps provides early intervention services for infants and toddlers from birth to thirty-six months. The Department is requesting to use the CMS Network savings to fund the increase in children served through Early Steps, as well as phase 3 of the State Systemic Improvement Plan, and moving costs for the three displaced Local Early Steps program that were co-located with CMS MCP offices. The remaining \$1,600,000 will be used to offset three General Revenue (1000) issues in other divisions.

Due to the CMS transition, Random Moment Sampling (RMS) was also discontinued in 2018-19. The discontinuation of RMS has left the Department with some unfunded budget within the CMS Federal Grants trust fund (2261). The Department has identified \$3,500,000 in salaries and benefits category and \$1,800,000 in the expense category, within the Federal Grants trust fund, that is no longer needed in these categories. The Department is requesting to move \$2,478,074 from the salaries and benefits category to the IDEA Part C category (103629), for the Early Steps Administration System.

BUDGET SUMMARY: The Department has identified \$10,271,253 in savings in General Revenue (1000), within the CMS budget entity (64300100), in the CMS Network category (100497). The Department is requesting to move \$7,969,253 from the CMS Network category (100497) to the IDEA Part C category (103629) and \$702,000 in the Poison Control Center category (102936). This would be a zero budgetary impact for CMS budget entity (64300100). The Department is also requesting to move \$1,600,000 from the CMS Network category (100497) to the following:

- \$450,000 Contracted Services (100777), Community Health Promotion budget entity (64200100), 6200180 Issue Code
- \$350,000 Contracted Services (100777), Disease Control and Health Protection budget entity (64200200), 5800180 Issue Code
- \$800,000 Contracted Services (100777), Disease Control and Health Protection budget entity (64200200) 36329C0 Issue Code

The Department is also requesting to move \$2,478,074 from the salaries and benefits category (010000) to the IDEA Part C category (103629), within the CMS budget entity (64300100), in the Federal Grants Trust Fund (2261). The additional \$1,021,926 in the salary category (010000) and \$1,800,000 in the expense category (040000) is unfunded budget within the Federal Grants trust fund.

"Amended 2020-21 Narrative after November 22, 2019"

This issue is necessary to correct issue #33J0010 Children's Medical Services Workforce Reductions and Identified Savings. \$2,821,926 of this Children's Medical Services Realignment of Administrative Savings issue should have been included with the workforce reduction issue.

Summary: The Salary and Benefits category (010000) was adjusted by \$1,021,926 and the Expenses category (040000) was adjusted by \$1,800,000 in the Children's Special Health Care budget entity (64300100), Federal Grants Trust Fund (2261).
