AGENCY ISSUE NARRATIVE:

2020-2021 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

Amended 2020-21 Narrative after November 22, 2019.

Issue Statement. Florida has been the site of several mass shootings that include Pulse Nightclub in Orlando, Marjory Stoneman Douglas High School in Parkland, Fort Lauderdale-Hollywood International Airport, Jacksonville Landing, as well as a SunTrust Bank in Sebring. These acts of targeted violence underscore the need to focus additional resources toward threat identification and proactive efforts to prevent against future tragedies. As a result, Governor Ron DeSantis requested the FDLE to conduct a detailed review of Florida's readiness to prevent and mitigate targeted threats and incidents of violence. The Governor specifically requested that Florida develop a broader and more comprehensive threat assessment strategy, and appropriate training, to be used by local law enforcement agencies.

FDLE defines Behavioral Threat Assessment and Management (BTAM) as a structured group process used to evaluate the risk posed by an individual, typically as a response to an actual or perceived threat or concerning behavior. The primary purpose of a threat assessment is to identify individuals on a pathway to violence by collecting, corroborating and analyzing probative information from all sources, including published academic and operational research to contextualize and understand the patterned thinking and behavior of an identifiable person of concern and make a determination as to whether or not the individual poses a threat of violence to a target. If an inquiry indicates that there is a risk of violence in a specific situation, authorities conducting the threat assessment collaborate with others to develop,

implement, and monitor a strategic, individualized plan to directly or indirectly intervene in an identified person of concern's pattern of life through coordinated, operational activities designed to:

- \* Stabilize and support, to the extent possible, an identified person of concern's current situation;
- \* Influence, control, or incapacitate an identified person of concern's threat-enhancing thinking and behavior;
- \* Harden and protect any identifiable targets; and
- \* Mitigate concern to prevent targeted violence.

Although several states have behavioral threat assessment and management programs embedded within their schools, none have attempted to develop and implement a statewide strategy to address all forms of targeted violence. According to subject matter experts, Florida's efforts to develop and implement such a comprehensive statewide strategy to address all incidents of violence, regardless of the incident location, positions the state at the forefront of this issue nationally.

Proposed Solution and Resources Needed. The department is requesting \$4,700,776 in general revenue (\$4,486,196 recurring) 20 FTE positions and supporting expenses, including three new vehicles for sworn members.

Expected Results. Enable the department to carry out the Governor's request that FDLE develop a broader and more comprehensive threat assessment strategy, and appropriate training, to be used by local law enforcement agencies.

Risks of Not Funding Issue. Inability to assign a broader and more comprehensive threat assessment strategy, and appropriate training, to be used by local law enforcement agencies.

Effective Date. Upon receipt of funds.

Summary: This is a new issue.
