Workers' Compensation (ACT0561)

DEPARTMENT OF EDUCATION GOALS:
 6. Align resources to strategic goals

ISSUE NARRATIVE:

A budget realignment of \$2,713,708 from the Contracted Services category to the Purchased Client Services category is requested in the Workers' Compensation Administration Trust Fund. This realignment is needed to meet the critical needs in the Purchased Client Services category.

A budget realignment of \$240,474 is requested from the Southwood Shared Resource Center category to the Expense category (\$75,190) and the Other Personal Services category (\$165,284) in the Workers' Compensation Administration Trust Fund. This request is made to address concerns with insurance carrier non-compliance issues. This transfer will enable the Division to increase the number of workers' compensation insurance carrier on-site reviews by 26 for state fiscal year 2010-2011.

During State Fiscal Year 2008-2009, the Bureau of Rehabilitation and Reemployment Services purchased a Structured Query Language (SQL) server and no longer has a need for the \$240,474 in DB2 database (DB2) services provided by the Southwood Shared Resource Center. With the purchase of this SQL server, the bureau has re-written its main application, the Automated Reemployment and Management Information System (ARAMIS), to utilize a department level SQL server as its main data repository. In addition, all data have been migrated down from the mainframe to the SQL server. The copies of all historical DB2 data have been archived which eliminated the need to maintain the access to the DB2 subsystem and incur the monthly central processing unit (CPU) storage costs billed by the Southwood Center.

Requesting the realignment of \$75,190 to the Expense category and \$165,284 to the Other Personal Services category will enable the Division to increase the number of workers' compensation insurance carrier on-site reviews by 26 for state fiscal year 2010-2011.

2010-2011 BUDGET YEAR NARRATIVE: IT COMPONENT? NO
 LONG RANGE PROGRAM PLAN:
 Workers' Compensation (ACT0561)

DEPARTMENT OF EDUCATION GOALS:

6. Align resources to strategic goals

ISSUE NARRATIVE:

A budget realignment of \$165,284 is requested from the Southwood Shared Resource Center category to the OPS category in the Workers' Compensation Administration Trust Fund. This request is made to address concerns with insurance carrier non-compliance issues.

The requested realignment of \$165,284 to the Other Personal Services category will enable the Division to increase the number of workers' compensation insurance carrier on-site reviews by 26 for state fiscal year 2010-2011. The temporary employees will be hired as Workers' Compensation Specialist at an annual salary of \$41,321 (pay grade 22). This will offer the bureau the opportunity to select individuals with the knowledge, skills and abilities that are necessary to address the temporary back-log by providing on-site monitoring and auditing of Florida's workers compensation insurance

carriers. These critical services are necessary in order to review non-compliant insurance carriers who fail to provide services as mandated by statutes and rules. Non-compliance negatively impacts consumer protection for injured workers. The bureau desires to pursue the hiring of temporary OPS Workers' Compensation Specialists as opposed to contracting for services due to the temporary nature of the issue, the need to hire staff with the appropriate knowledge, skills and abilities, and the potential for delays and increased costs involved in contracting for services.

A budget realignment of \$75,190 is requested from the Southwood Shared Resource Center category to the Expense category in the Workers' Compensation Administration Trust Fund. This request is made to address concerns with insurance carrier non-compliance issues.

The Vocational Rehabilitation and Reemployment Services Injured Workers' Program has the responsibility for monitoring Florida's workers' compensation insurance carrier practices to determine compliance with statutory and rule requirements under section 440.491, Florida Statutes, and Rule 6A-22, Florida Administrative Code. Florida workers' compensation insurance carriers are required to implement a systematic review of the factors that are predictive of longer-term disability by conducting periodic status reviews for injured workers, and by encouraging the provision of medical care coordination and reemployment services that are necessary to assist the injured worker in returning to suitable gainful employment, as soon as medically feasible.

Since the enactment of the 2003 Workers' Compensation Law amendments, several issues have surfaced that impact consumer protections related to insurance carrier non-compliance. Some insurance carriers are: failing to use qualified providers; failing to conduct reemployment status reviews to determine the likelihood that an injured worker will return to work; failing to provide timely notification to injured workers regarding the availability of bureau services; and failing to submit status review reports on injured workers. Since injured workers are on a limited time schedule of 24 months to receive benefits, any delay in the provision of carrier services can negatively impact their ability to achieve their rehabilitation goals within the 24 month period. To address the insurance carrier non-compliance issues, the bureau is requesting to realign funds to support associated travel costs for four Other Personal Services (OPS) employees (Workers' Compensation Specialists) that the Division plans to hire for FY 2010-11. The OPS employees will perform 26 insurance carrier on-site monitoring reviews during this time period.

The requested realignment of \$75,190 from the Southwood Shared Resource Center category to the Expense category is to support associated travel costs.

A budget realignment of \$2,713,708 is requested from the Contracted Services category to the Purchased Client Services category in the Workers' Compensation Administration Trust Fund. This trust fund supports the daily operations of 16 Bureau of Rehabilitation and Reemployment Services field offices in the provision of reemployment services for 2,682 injured workers. The Division of Vocational Rehabilitation provides client services to both individuals with disabilities and injured workers. This realignment will combine the appropriations into the same category for direct services to clients.

The Vocational Rehabilitation Reemployment Services Program assists eligible injured workers, who have suffered a work injury covered by the Florida Workers' Compensation Law, return to suitable gainful employment through the provision of reemployment services. Reemployment services include vocational counseling, job seeking skills training, transferable skills analysis, labor market surveys, and selective job placement. The Reemployment Services Program arranges for other services such as formal training and education, vocational and on-the-job training which may be needed by the injured worker to secure suitable gainful employment. The program supports the injured worker by paying for tuition, books, supplies, uniforms, and laboratory and parking fees while the client is enrolled in a training or educational program. The program is funded by the Florida Workers' Compensation Administration Trust Fund and operates under the auspices of Section 440.491, Florida Statutes, and Rule 6A-22, Florida Administrative Code.

Data from the last five years demonstrate the trend of overall outcomes of the Reemployment Services Program.

ISSUE NARRATIVE:
 Additional funding of \$7,250,427 is requested in the Purchased Client Services category of which \$1,544,341 is General Revenue match and will generate a maximum federal award of \$5,706,086 in the Federal Rehabilitative Trust Fund.

The requested funds will serve approximately 3,507 additional individuals with the most significant disabilities currently on the waiting list.

The chart below shows the return on investment that was realized from state general revenue funds appropriated to the Division for state match for fiscal year 2008-09.

* State investment of \$35,396,061 generated \$166,701,403 of earnings to be spent in Florida's economy.

RETURN ON INVESTMENT CALCULATION FOR VOCATIONAL REHABILITATION

- (A) - Employment = 8,129 Total number of Vocational Rehabilitation customers gainfully employed
- (B) - Earnings for Customers Employed = \$20,507 Average annual earnings of customers placed in employment
- (C) - Return on Investment = \$166,701,403 Earnings for customers gainfully employed (A x B = C)

 Vocational Rehabilitation - General Program (ACT1625)

DEPARTMENT OF EDUCATION GOALS:

6. Align resources to strategic goals

ISSUE NARRATIVE:

Requested is the restoration of \$778,000 in nonrecurring American Recovery and Reinvestment Act (ARRA) funds for the Contracted Services category to provide contracted services at the current level.

Requested is the restoration of \$336,323 in American Recovery and Reinvestment Act (ARRA) funds for the Independent Living Services category to provide the current level of funding for the 16 independent living centers. These centers provide living services to 20,460 people statewide.

Requested is the restoration of \$13,935,607 in American Recovery and Reinvestment Act (ARRA) funds for the Purchased Client Services category to continue the current level of service.

The nonrecurring American Recovery and Reinvestment Act funds were used to provide services to clients and reduce the number of customers on the Division's waiting list. With this funding, the Division anticipates continuing to serve the current level of clients and attempting to serve some of the clients currently on the waiting list.

The division is not requesting restoration of nonrecurring American Recovery and Reinvestment Act (ARRA) funds in the Other Personal Services, Expenses, Operating Capital Outlay and Other Data Processing Services categories. 2009-10 costs supported with this funding source will be budgeted in the Purchased Client Services category for 2010-11.

6. Align resources to strategic goals

ISSUE NARRATIVE:

An increase of 6% in salary rate authority is requested for the Division of Vocational Rehabilitation (Division) to attract and maintain qualified counselors and staff. The increase of \$2,149,394 would increase the salary rate authority for the Division from \$35,823,228 to \$37,972,622. The salary rate authority is needed for the Division to be able to provide competitive salaries for counselors and other staff.

The average salary for an entry-level Vocational Rehabilitation Counselor as of May 2009 is \$31,100. Vocational Rehabilitation's State Plan with the federal government indicates that Florida Vocational Rehabilitation will, by 2012, have all counselors meet a national standard of being eligible to take the Certified Rehabilitation Certification exam. At the current time, only 52% of Florida's counselors meet this standard. The minimum criteria for this certification include a master's degree in vocational rehabilitation or related field. Current salary levels are insufficient for the Division to be competitive in attracting and retaining qualified individuals with a master's degree. Additional salary rate authority is necessary for Florida to comply with this requirement.

Comparable federal jobs with the Veteran's Administration are reported to begin at \$54,500. In addition, Florida is 14.5% below the national average for entry-level counselors.

During 2008-09, the Division's employee turnover rate at the entry-level counselor position was 32% (59 of 186 positions). For Senior Counselor positions, the employee turnover rate was 15% (27 of 181 positions). Turnover of counselor positions and other staff is costly with regard to training. Most importantly, counseling turnovers have a negative impact on the success of Vocational Rehabilitation customers. Data shows that a customer whose counselor changes is twice as likely to be unsuccessful as those who have one counselor.

In February 2007, Vocational Rehabilitation implemented an exit interview for employees leaving the Division. Sixty-two percent of those completing the survey indicated that they were dissatisfied with their salary, and 40% indicated that salary was the primary reason for leaving the Division.

The Division of Vocational Rehabilitation continues to be under an Order of Selection which is a federal requirement to provide a fair and orderly way to serve clients when financial and/or human resources are insufficient to meet all clients' needs. Since the Order of Selection was invoked on August 4, 2008, 15,113 individuals have been selected for services from the waiting list. The waiting list currently contains 11,230 individuals requiring services and an additional 4,227 individuals are in the application process. Maintaining quality personnel and providing service consistency for Vocational Rehabilitation customers are critical to reducing the waiting list and achieving overall success for Vocational Rehabilitation customers and the Division.

AGENCY ISSUE NARRATIVE:

2010-2011 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

This issue properly aligns the Funding Source Identifier (FSI) in the General Revenue Appropriation by increasing the following categories in FSI 1 and reducing FSI 2.

Salaries and Benefits	1,370,478
G/A Client Services	980,925
Contracted Services	22,000
Risk Management Insurance	2,132
Transfer to Department of Management Services -	
Human Resources Services	3,316
Data Processing Services - Regional Data Center - SUS	1,127

This issue also increases FSI 2 in the following categories and reduces FSI 1.

Other Personal Services	3,829
Expense	11,614
Operating Capital Outlay	21,354

These changes will properly align the FSI.

 Determine Eligibility, Provide Counseling, Facilitate Provision of
 Rehabilitative Treatment and Job Training to Blind Customers (ACT0740)

DEPARTMENT OF EDUCATION GOALS:
 6. Align resources to strategic goals

ISSUE NARRATIVE:
 The requested increase of \$50,000 in the Federal Rehabilitation Trust Fund is needed to cover a projected shortfall in the Contracted Services category for 2010-11. The increase is funded by moving \$10,000 from the Regional Data Centers category and \$40,000 from the Expense category. The shift in budget authority will result in a net effect of zero within the trust fund.

ISSUE NARRATIVE:

Maintenance of Effort Requirements:

The Division of Blind Services receives increases in federal grant funding of approximately five percent annually and anticipates the increases to continue in future years. For this reason, the Division projects that it will be under matched in General Revenue to make full use of available federal funds. Therefore, the Division is requesting \$901,030 of General Revenue for match purposes. This funding will be utilized in the Client Services category for Vocational Rehabilitation Services. The requested amount is based on expenditures for the fiscal year, two years prior to the request fiscal year. For example, in fiscal year 2010 a state's maintenance of effort level is based on the amount of its expenditures from non-federal sources for fiscal year 2008. Thus, if the state's non-federal expenditures are less in 2010 than they were in 2008, the state has maintenance of effort deficit, and the Secretary of the United States Department of Education reduces the state's allotment in 2011 by the amount of that deficit. In 2009, the state's expenditures were approximately \$7,933,409 for match and maintenance of effort. This causes the state to have a deficit in match and maintenance of effort of \$901,030 in 2011. If the state does not meet the maintenance of effort requirement the state could be required to pay back \$901,030 in federal funds and the state will not have the funding to match \$3,329,158 in federal funds.

ISSUE NARRATIVE:

Blind Babies Program:

Increased funding of \$44,642 for an additional 34 children is requested to provide community-based early-intervention education to blind and visually impaired children between the ages of birth through five years of age, as well as their families to promote early development with a special emphasis on vision skills to maximize each child's abilities. With the projected increase of 34 students in 2010-11, this program will be serving 951 students and their families with Early Intervention Services that enhance the necessary skills, training, and activities needed to transition to school along with their sighted peers.

 ABLE Grants (ACT1903)

DEPARTMENT OF EDUCATION GOALS:
 3. Expand opportunities for post-secondary degrees and certificates
 6. Align resources to strategic goals

ISSUE NARRATIVE:
 An additional \$354,960 is requested to provide funding for an increase of approximately 360 students at the current award level of \$986. This represents a 9% growth in the student count for the 2010-11 year for the Access to Better Learning and Education program. The projected number of students is based on final 2008-09 student counts and growth trends reflected in estimating conferences. These projections are then compared to March 2009 estimating conference numbers for fiscal year 2009-10 in order to determine the 2010-11 Legislative Budget Request.

AGENCY ISSUE NARRATIVE:

2010-2011 BUDGET YEAR NARRATIVE: IT COMPONENT? NO
 LONG RANGE PROGRAM PLAN:
 Florida Bright Futures Scholarship (ACT 2014)

DEPARTMENT OF EDUCATION GOALS:
 3. Expand opportunities for post-secondary degrees and certificates
 6. Align resources to strategic goals

ISSUE NARRATIVE:
 Requested is an additional \$11,415,624 as follows:

- \$4,953,963 is to serve an additional 2,161 students at the current year average award amount of approximately \$2,292.44
- \$6,461,661 is to increase the projected average award from \$2,292.44 to \$2,327.39, an increase of \$34.95 per award, for the total projected students of 184,883.

This projected average award increase is the result of a projected change in the mix of the Bright Futures population. At the March 2009 Estimating Conference the Office of Economic and Demographic Research projected a 3.9% increase in the number of Academic Awards for 2010-11. Currently the Bright Futures Scholarship population is: 20.8% Academic, 78.3% Medallion, and 0.9% Gold Seal. For 2010-11, the population is expected to be: 21.4% Academic, 77.6% Medallion, and 1% Gold Seal. The increase in the projected number of Academic Scholarships and the decrease in the projected number of Medallion Scholarships has a net effect increase on the projected average award amount of \$34.95.

The requested increase assumes the same cost per credit hour award amount as specified for the scholarships in the 2009-10 General Appropriations Act.

Background
 =====

Florida's Bright Futures Scholarship program was created in 1997 to establish a lottery-funded scholarship program to reward any Florida high school graduate who merits recognition of high academic achievement. Funded by the Florida Lottery, the program rewards Florida high school students for their high academic achievement and encourages them to

continue their postsecondary education at a Florida institution of higher education. The 2009 General Appropriations Act, included proviso that provided a specified cost per credit hour award which does not include the 2009-10 tuition increase of 8%. Correspondingly, the applicable statutes were changed to provide an award equal to the amount specified in the 2009-10 General Appropriations Act with an expiration date of July 1, 2010.

If the statutory language limiting each award to the per credit hour amount listed in the 2009-10 General Appropriations Acts is not renewed for 2010-11 then the awards will be for the following amounts as referenced in statute.

FLORIDA ACADEMIC SCHOLARSHIP - Pays 100% of tuition and fees plus \$375 for college-related expenses for the 2008-09 year; TOP SCHOLARS - As part of the Florida Academic Scholarship, the highest ranking recipient in each school district, receives an additional award of \$54 per credit hour as provided in the current General Appropriations Act.

FLORIDA MEDALLION SCHOLARSHIP - Pays 75% of tuition and fees for students attending a state university or college and 100% for students attending a public community college and pursuing an associate degree. (The change to a 100% award for community college students took effect in the 2006-07 fiscal year.)

FLORIDA GOLD SEAL VOCATIONAL SCHOLARSHIP - Pays 75% of tuition and fees. This award is created to recognize and reward academic achievement and career preparation by high school students who wish to continue their education. For all three scholarship types, eligible institutions include Florida state universities, community colleges, public technical centers, and eligible private colleges, universities and technical schools that meet licensure, accreditation, and operation standards.

FIRST GENERATION IN COLLEGE				
MATCHING GRANT				3000410

- 3. Expand opportunities for post-secondary degrees and certificates
- 6. Align resources to strategic goals

ISSUE NARRATIVE:

\$1,228,825 is requested to fund an additional 3,456 students, 314 at state universities and 3,142 at community colleges, at the current average award amount of \$502 and \$341 respectively. This request represents an 18% growth in the funding for the 2010-11 academic year for the First Generation Matching Grant Program. As a one-for-one matching program, this increase in state funds will provide a total increase in available scholarship funds of \$2,457,650.

The First Generation in College (FGIC) Matching Grant program was established to provide need-based scholarships, in partnership with private donors, to students who are the first generation in their family to attend college and who may not otherwise have the resources to pursue postsecondary education opportunities. The program enables each public state university and community college to provide donors with a matching grant incentive for contributions that will create need-based scholarships at each institution. Each year, the General Appropriations Act delineates the total amount of funding to be distributed among all state universities and community colleges. The institutions, through their institutional foundations, are responsible for generating private donations for the purpose of this program. The per institution allocations are prorated according to a sector driven formula that includes, but is not limited to, a percentage of first generation students with need per institution.

Beginning with the 2009-10 year, students must meet the eligibility requirements in Section 1009.50, Florida Statutes, for demonstrated financial need for the Florida Student Assistance Grant, by submitting the Free Application for Federal Student Aid (FAFSA).

This program offers a maximum award capped only by a student's need. Student need is derived from their cost of attendance less their "expected family contribution" and any other aid, not including loans.

- Florida Public Postsecondary Career Education Grant (ACT2064)

DEPARTMENT OF EDUCATION GOALS:

- 3. Expand opportunities for post-secondary degrees and certificates
- 6. Align resources to strategic goals

ISSUE NARRATIVE:

An increase of \$14,204,995 to serve an additional 12,828 students is requested.

The projected number of students for each program is based on final 2008-09 student counts and growth trends reflected in estimating conferences. (See program breakout below). These projections are then compared to March 2009 estimating conference numbers for fiscal year 2009-10 in order to determine the 2010-11 Legislative Budget Request. March 2009 estimating conference numbers were used for all programs except Children/Spouses of Deceased or Disabled Veterans. (See explanation below).

FLORIDA STUDENT ASSISTANCE GRANTS (FSAG) - \$13,644,632 is requested to serve an additional 12,434 students. These funds are for public, private, and postsecondary grant awards. The maximum award amount for these grants is outlined in each year in proviso and is adjusted each year as tuition increases.

The Florida Student Assistance Grant (FSAG) Program, created in 1972, is Florida's largest need-based grant program. FSAG includes three separately funded student financial aid programs available to undergraduate Florida residents who demonstrate substantial financial need and are enrolled in participating postsecondary institutions and are degree-seeking in the Public, Private and Postsecondary grants. The FSAG is available to students who attend Florida public state universities, public community colleges, and eligible private postsecondary institutions. The FSAG is administered as a decentralized program, which means that each participating institution determines application deadlines, student eligibility, and award amounts. Eligibility criteria and maximum award amounts are regulated by Florida Statutes and the General Appropriations Act. FSAG funds are used to meet federal matching requirements for programs appropriated in Student Financial Aid (Federal) appropriations.

FLORIDA STUDENT ASSISTANCE GRANTS -CAREER EDUCATION (FSAGCE) - \$81,857 is requested to serve an additional 140 students. The projected increase includes, but is not limited to, students pursuing a Child Development Associate (CDA) degree or

	=====	=====		=====	=====	=====

NOTES: March 2009 Estimating Conference projections were used in the 2009/10 projected number of students where applicable, except for Children/Spouses of Deceased or Disabled Veterans (CSDDV). This is for 2 reasons:

1) The March 2009 Estimating Conference projected a deficit of \$487,175 based on the projected number of eligible students and the award formula at that time.

2) During the 2009 Session, the award amount for C/SDDV students was reduced from 100% of tuition and fees to a flat award amount per credit hour.

In order to have a base starting point that is more realistic, the March 2009 Estimating Conference numbers were not used; and instead, the number of students that can actually be supported by the appropriation, based on the award change, were used.

 LONG RANGE PROGRAM PLAN:
 Minority Teacher Scholarships (ACT2028)

DEPARTMENT OF EDUCATION GOALS:

- 3. Expand opportunities for post-secondary degrees and certificates
- 6. Align resources to strategic goals

ISSUE NARRATIVE:

Requested is the restoration of \$344,500 of nonrecurring funds provided under the American Recovery and Reinvestment Act of 2009.

The funds will be used for the following statutory program requirements pertaining to the Florida Fund for Minority Teachers:

- \$17,225 for a 5% administrative fee to the University of Florida
- \$327,275 for a maximum award of \$4,000 to approximately 82 students

NOTE: The continuation funds and the restored funds provide for a maximum award amount of \$4,000 for approximately 382 students.

The Department projects the Florida Fund for Minority Teachers, Inc., will remit to the Department, in accordance with statute, a balance of undistributed scholarship funds sufficient to fund an additional 318 students at a maximum award amount of \$4,000 (\$1,272,000) for a total of 700 students funded at a maximum award amount of \$4,000.

ASSISTANCE LOANS				3007010

DEPARTMENT OF EDUCATION GOALS:
 6. Align resources to strategic goals

ISSUE NARRATIVE:
 An additional \$420,000 is requested due to the anticipated increase in loan volume and consequently the increased volume of 1% default fees the Department will pay on behalf of students seeking student loans. The Department made the decision in 2008 to pay the 1% default fees on behalf of students in order to remain competitive in the student loan industry and ultimately increase revenues which can be used to fund scholarships for Florida students.

 LONG RANGE PROGRAM PLAN:
 College Access Challenge Grant Program (ACT2066)

DEPARTMENT OF EDUCATION GOALS:
 3. Expand opportunities for post-secondary degrees and certificates
 6. Align resources to strategic goals

ISSUE NARRATIVE:
 A reduction of \$2,816,708 is requested to align the Federal Grants Trust Fund budget with remaining federal funds for the College Access Challenge Grant award that ends August 2010. The remaining \$300,000 of federal budget authority should be sufficient for any remaining funds to be spent in July and August of 2010.

At this time the Department is unaware of the U.S. Department of Education continuing this program in 2010-11.

FEDERAL FUNDING REDUCTIONS				3200000
REDUCTION OF FEDERAL FUNDS				3200040

The College Access Challenge Grant Program has three broad goals: college readiness, college access and college retention. The majority of these funds, 78.6% or \$2,450,000, is spent for need-based scholarships which carry out the college access goal of the program. These funds supplement other need based aid students are receiving. The remaining funds are spent to carry out the college readiness and college retention goals of the program through activities such as K-12 counselor trainings and programs to assist students toward success in community colleges.

This program is funded through a federal grant award that was received for fiscal years 2008-09 and 2009-10 in the amount of \$3,116,708 for each year. The program requires a state to federal match of one to two. The required state matching funds for this program are \$1,558,354 and are provided in the Student Financial Aid - State category through the Florida Student Assistance Grants. The grant award ends August 2010.

ISSUE NARRATIVE:
 \$22,413,676 is requested to provide for an additional 8,439.82 Voluntary Prekindergarten (VPK) full-time equivalent (FTE) students. For the 2010-11 School Year Program, there is an estimated increase of 7,516.08 VPK FTE. For the 2010 Summer VPK Program/2011 VPK Summer Program, there is an estimated increase of 923.74 VPK FTE (Source: June 30, 2009 VPK Estimating Conference Revised Report).

The request is calculated using the basic student allocation of \$2,575 per full time equivalent student for the 2010-11 school year and \$2,190 for summer term students. The administrative overhead rate is continued at 4.85 percent.

Florida's Voluntary Prekindergarten (VPK) Education program is constitutionally mandated and available free to all eligible four-year-olds. The VPK Program provides full time equivalent (FTE) funding for the VPK student base. Funds are transferred to the Agency for Workforce Innovation for distribution through the early learning coalitions to public and private providers.

delivered by over 5,000 private and public providers (March 9, 2009 VPK Estimating Conference, Post-Conference Report Revised).

To maintain the quality of the voluntary prekindergarten (VPK) program through supports to VPK instructors and parents and the implementation of the required VPK accountability system, an increase of \$550,000 is requested to fund the following activities:

\$297,840 - statewide implementation of the VPK assessments including costs for the production and distribution of the VPK assessments for all 5,500 VPK programs and their participating children, development of an online course for the use/administration of the VPK assessments, and maintenance of the online reporting system for the VPK Assessment

\$84,400 - completion of the online course, Mathematical Thinking for VPK Instructors and development of face-to-face training on the 2008 VPK Standards in Mathematics

\$66,265 - production/distribution of 2008 VPK Education Standards and Parent Guide

\$65,230 - activities associated with the VPK Provider Kindergarten Readiness Rate

\$36,265 - research and technical support from the Florida Center for Reading Research, Florida State University

 2. Improve college and career readiness
 3. Expand opportunities for post-secondary degrees and certificates
 4. Improve quality of teaching in the education system
 5. Improve K-12 educational choice options
 6. Align resources to strategic goals

ISSUE NARRATIVE:
 An increase of \$353,741,106 is requested to continue to reduce class size in grades PK-3, 4-8, and 9-12. This is year eight of the implementation process. The requested funds have been calculated based on the salary and benefit costs to fund an estimated 7,047 teachers needed to comply with the constitutional amendment in 2010-11.

ISSUE NARRATIVE:

Funds are requested for the Florida Education Finance Program (FEFP) for school district operations and to provide the resources to increase student achievement, promote a safe learning environment, and to increase the efficiency of the delivery of education services to children in Florida. The requested funding for the FEFP is included in two issues, Issue #2103534 Nonrecurring Expenditures - Division of Licensing Trust Fund Sweep Veto - \$6,000,000 and Issue #3003600 FEFP Workload - \$700,858,664 for the total FEFP request of \$706,858,664.

2010-11 FLORIDA EDUCATION FINANCE PROGRAM (FEFP) COMPONENTS

The following details describe the cost components and price level adjustments which were used to calculate the 2010-2011 FEFP:

1. NO WORKLOAD ADJUSTMENT FOR INCREASED STUDENT ENROLLMENT as enrollment is projected to decline by 2,678 students or 0.10% from 2,608,007 Unweighted Full-time Equivalent (UFTE) in 2010-11 to a projected 2,605,329 UFTE in 2010-11.
2. ADJUSTMENT TO BASE FUNDING A base funding adjustment amount for education activities funded by the FEFP was calculated as follows: the consumer price level adjustment of 2.40% was applied to the 2009-10 Base Student Allocation (BSA) of \$3,630.62, resulting in a BSA of \$3,717.75, an increase of \$87.13. The total Base FEFP Funding amount requested for 2010-2011 is \$10,411,564,862.
3. DECLINING ENROLLMENT SUPPLEMENT Declining enrollment was calculated based on the policy in Section 1011.62(8), Florida Statutes (F.S.). The supplement was calculated based on 25% of the decline between prior year and estimated students. Student enrollment is projected to decline in 34 of the 67 school districts. Student enrollment growth is projected for the remaining 33 school districts. The calculated cost of the declining enrollment component is projected to be \$14,486,460.
4. DISTRICT SPARSITY SUPPLEMENT The 2009-2010 Sparsity Supplement of \$35,822,046 was appropriated as part of the FEFP to be allocated to districts with 20,000 or fewer FTE students pursuant to Section 1011.62(7), F.S. For 2010-2011, the calculation request is for \$35,822,046 or the same amount as in 2009-10. Funds are to be distributed using the 2009-10 policy.
5. LABORATORY SCHOOL DISCRETIONARY CONTRIBUTION The state provides each laboratory school funds that on a per FTE basis are equivalent to the discretionary taxes the school district in which they are located may collect. The total amount of the Laboratory School Discretionary Contribution is \$12,961,435.

6. 0.748 MILL DISCRETIONARY MILLAGE COMPRESSION If any school district levies the full 0.748 mill levy and it generates an amount of funds per unweighted FTE that is less than the state average amount per unweighted FTE, the school district shall receive a discretionary millage compression supplement that, when added to the funds generated by the district's 0.748 mill levy, shall be equal to the state average as provided in section 1011.62(5), F.S. If any school district chooses to levy an amount not less than 0.498 mills and less than 0.748 mills, a compression supplement shall be calculated on a levy of 0.498. If a 0.498 levy generates an amount of funds per unweighted FTE that is less than the state average amount per unweighted FTE for 0.498 mills, the school district shall receive a discretionary millage compression supplement that, when added to the funds generated by a 0.498 mill levy, would be equal to the state average as provided in Section 1011.62(5), Florida Statutes. The combined state discretionary compression and discretionary millage revenue will generate the state average of \$419.69 per unweighted FTE. The request is for \$143,002,083.

7. DEPARTMENT OF JUVENILE JUSTICE (DJJ) SUPPLEMENTAL ALLOCATION
 The supplemental allocation provides class size reduction funds for students in juvenile justice education programs in each school district pursuant to the formula provided in Section 1011.62(10), F.S. An increase of \$1,275,591 is requested for 2010-11; the total request is \$11,534,081.

8. SAFE SCHOOLS For 2010-2011, \$67,260,840 is requested for school district Safe Schools activities. Funds are allocated as follows: \$65,387 shall be distributed to each district, and the remaining balance shall be allocated as follows: two-thirds based on the latest official Florida Crime Index provided by the Department of Law Enforcement and one-third based on each district's share of the state's total unweighted student enrollment. Safe Schools activities include: (1) after school programs for middle school students; (2) other improvements to enhance the learning environment, including implementation of conflict resolution strategies; (3) alternative school programs for adjudicated youth; (4) suicide prevention programs; and (5) other improvements to make the school a safe place to learn. No increase is requested and funds are to be distributed on the same basis as they were in 2009-2010.

9. EXCEPTIONAL STUDENT EDUCATION (ESE) GUARANTEED ALLOCATION The ESE Guaranteed Allocation provides exceptional student services for students who were formerly reported in ESE Support Levels I, II, and III, pursuant to Section 1011.62(1)(e)2., F.S. These funds are in addition to the funds appropriated on the basis of FTE student membership. The total request is for \$981,724,365, the same amount as was allocated in the 2009-10 appropriation.

10. SUPPLEMENTAL ACADEMIC INSTRUCTION (SAI) The SAI funds provide flexible resources to schools for supplemental academic instruction at appropriate times throughout the school year pursuant to Section 1011.62(1)(f), F.S. First priority for the use of these funds shall be the provision of supplemental intensive instruction, consistent with the Sunshine State Standards, including summer school and intensive English immersion instruction, for students in grade 3 and 10 who scored FCAT Level I in FCAT reading or math. For 2010-2011, the total amount requested is \$637,781,383, the same amount as was allocated in the 2009-10 appropriation.

11. INSTRUCTIONAL MATERIALS The requested funds provide for core subject instructional materials, dual enrollment materials, library/media materials, and science lab materials and supplies. The amount requested is \$216,031,121. The

ELEMENTARY & SECONDARY ED				0304.00.00.00
WORKLOAD				3000000
FLORIDA EDUCATION FINANCE PROGRAM				3003600

funding will support Florida's Next Generation Sunshine State Standards and a learning environment conducive to teaching and learning using appropriate educational materials. This request is a direct response to legislation passed during the 2000 Legislative Session (Section 1006.28-1006.43, F.S.) that mandates a textbook or major tool of instruction for each student in all core subject areas. The funds are to be allocated to the districts based on the formula in Section 1011.67, F.S.

12. STUDENT TRANSPORTATION To provide the equitable distribution of funds for safe and efficient transportation services in school districts in support of student learning, \$428,931,491 is requested for Student Transportation in 2010-11. The funding formula provides incentives for efficiency as well as simple, reliable and auditable data collection. The formula for allocating the requested funds as outlined in Section 1011.68, F.S., contains the following provisions in the state allocation for student transportation: 1) base funding for each district is established by the district's proportionate share of the total statewide students eligible for transportation; and, 2) indices are applied which modify the base funding amount to reward more efficient bus utilization, compensate for rural population density, and adjust funding based on the cost of living. A portion of the overall allocation request is also identified in the formula to assist districts with the cost of providing transportation for students with disabilities. The funds are to be distributed based on the formula in Section 1011.68, F.S.

An appropriation of \$428,931,491 was allocated for student transportation in 2009-10. This funding does not include bus replacement. Transportation expenditures, less new bus costs, reported by school districts for the 2007-08 school year were \$1,128,959,472. The 2007-08 student transportation appropriation was \$483,592,820, or 42.84% of the reported expenditures.

13. FLORIDA TEACHERS LEAD The Florida Teachers Lead appropriation provides an allocation to each school district based on the prorated total of each school district's share of the total K-12 unweighted FTE student enrollment. Pursuant to Section 1012.71, F.S., the funds are to be used only to fund stipends to classroom teachers for the purchase of classroom instructional materials and supplies for use in teaching students. An appropriation of \$33,283,309 was allocated for Florida Teachers Lead in 2009-10. No increase is requested for 2010-2011.

14. READING INSTRUCTION SUPPLEMENT The request is for \$101,923,720 for the Reading component of the FEFP to sustain the gains Florida schools have demonstrated in reading achievement. The amount of \$87,182 shall be allocated to each school district and the remaining balance shall be allocated based on each district's proportion of the state's total base funding, pursuant to Section 1011.62(9), F.S. No increase is requested and funds are to be distributed on the same basis as they were in 2009-2010.

15. MERIT AWARD PROGRAM Five school districts and charter schools in 32 districts were eligible for a share of the \$20,000,000 Merit Award Program allocation in 2009-10. A request of \$112,211,527 will fund bonuses for eligible teachers and school-based administrators in all public schools in 2010-11, pursuant to Section 1012.225, F.S.

16. REQUIRED LOCAL EFFORT REVENUE No increase in the required local effort (RLE) millage is requested. The RLE from ad valorem property taxes was calculated based upon a state-wide average millage rate of 5.288 mills. The tax roll used for

the calculation was approved by the Ad Valorem Tax Revenue Estimating Conference on August 6, 2009. The millage rates for each district were adjusted as provided in Section 1011.62(4), F.S. The total RLE for 2010-11 is \$7,404,468,990, a decrease of \$396,910,996, due to a 6.33% decline in the tax roll for school purposes.

AGENCY ISSUE NARRATIVE:

2010-2011 BUDGET YEAR NARRATIVE: IT COMPONENT? NO

LONG RANGE PROGRAM PLAN:
 Florida Education Finance Program (ACT0660)

DEPARTMENT OF EDUCATION GOALS:

1. Strengthen foundation skills
4. Improve quality of teaching in the education system
6. Align resources to strategic goals

ISSUE NARRATIVE:

An increase of \$33,441,334 is requested for the Florida School Recognition Program. Funds are to be allocated as awards of \$100 per student to qualified schools pursuant to Section 1008.36, Florida Statutes. If there are funds remaining after payment to qualified schools, up to \$5 per unweighted students shall be allocated to be used at the discretion of the school advisory council pursuant to Sections 24.121(5) and 1001.452, Florida Statutes. If funds are insufficient to provide \$5 per student, the available funds are prorated.

Florida Education Finance Program (ACT660)

DEPARTMENT OF EDUCATION GOALS:

1. Strengthen foundation skills
2. Improve college and career readiness
3. Expand opportunities for post-secondary degrees and certificates
4. Improve quality of teaching in the education system
5. Improve K-12 educational choice options
6. Align resources to strategic goals

ISSUE NARRATIVE:

The Financial Outlook Statement of July 17, 2009, lowered the projected revenue in the Educational Enhancement Trust Fund (Lottery) for 2010-11 and the projected cost of the Bright Futures program has increased for that same year. To balance to available funds, a fund shift of \$11,444,921 from the Educational Enhancement Trust Fund to General Revenue in this category is necessary.

 LONG RANGE PROGRAM PLAN:
 State Grants to School Districts/Non-Florida Education Finance Program (ACT0695)

DEPARTMENT OF EDUCATION GOALS:

5. Improve K-12 educational choice options

ISSUE NARRATIVE:

Funds are requested in the amount of \$66,604 to cover the costs of two years of membership dues to the Council of State Governments for membership in the Interstate Compact on Educational Opportunity for Military Children.

Membership in the compact allows member states to aid in the transition of military students by removing barriers to: (a) school enrollment caused by delayed transfer of education records or variations in entrance or age requirements; (b) program placement caused by variations in attendance requirements, scheduling, course sequencing, grading, course content, or assessment; (c) program enrollment and participation in extracurricular activities; and (d) timely graduation.

State Grants to School Districts/Non-Florida Education Finance Program (ACT0695)

DEPARTMENT OF EDUCATION GOALS:

1. Strengthen foundation skills
2. Improve college and career readiness
4. Improve quality of teaching in the education system

ISSUE NARRATIVE:

An increase of \$100,000 is requested for Instructional Materials for Partially Sighted Pupils - science instructional materials (scheduled for adoption in 2010-11). The projected increase is the result of two factors impacting costs: expertise and labor needed to produce science instructional materials and the reduction of volunteer Braille transcribers.

Science instructional materials require a higher level of Braille expertise as well as a large number of hand-drawn graphics. Higher skill levels and advanced Library of Congress certification are required for both mathematics and science Braille transcribers. In producing Braille science books, transcribers are required to create by hand precise and detailed graphics, measurement items, and formulas. Most of these hand-drawn graphics are extremely time-consuming and challenging to produce, resulting in higher production costs for Braille science texts.

The pool of volunteer Braille transcribers is diminishing and as a result production costs at the Florida Instructional Materials Center for the Visually Impaired (FIMC-VI) are increasing. The Center must pay for more private vendors to transcribe textbooks. The approximate cost of Braille transcription is \$3.00 per page for literary Braille and \$5.00-\$6.00 per page for tactile graphics pages and Nemeth Braille Code for Mathematics and Science Notation. High school science texts can easily cost between \$10,000 and \$20,000 for an initial Braille transcription of a newly adopted textbook.

AGENCY ISSUE NARRATIVE:

2010-2011 BUDGET YEAR NARRATIVE: IT COMPONENT? NO
 LONG RANGE PROGRAM PLAN:
 State Grants to School Districts/Non-Florida Education Finance Program (ACT0695)

DEPARTMENT OF EDUCATION GOALS:

1. Strengthen foundation skills
4. Improve quality of teaching in the education system
5. Improve K-12 educational choice options
6. Align resources to strategic goals

ISSUE NARRATIVE:

The Florida School for the Deaf and the Blind (FSDB) is requesting \$984,071 to serve an additional 80 deaf/hard of hearing and blind/visually-impaired children and to coordinate services in a classroom setting to better serve students in the Early Intervention Program.

The Early Intervention Program staff are nationally trained and recognized as highly qualified providers for birth to 5 year olds. The school currently provides outreach services to students who have either a hearing or vision disability in 33 small and rural districts. These services are typically provided to students on a one on one basis, usually in their homes, with little opportunity for students to interact in a group environment. This interaction is critical for students as they prepare to enter kindergarten. By establishing eight classrooms for the Early Intervention Program, students will develop basic language and readiness skills to enhance their future education.

To implement this program, FSDB is requesting \$319,471 to supplement current resources and support staff from the campus in St. Augustine. These funds will cover expense and human resource services assessment packages. An additional \$664,600 is requested to cover costs associated with the provision of eight sites to provide delivery of services under the Early Intervention Program. These costs include lease space/rental classrooms, utilities, curriculum and assessment materials, travel and training expenses, legal fees, furniture and/or educational equipment, and a vehicle. The estimated cost for the nonrecurring portion of this request is for human resource services in the amount of \$18,789, furniture and/or educational equipment in the amount of \$40,000, and the vehicle in the amount of \$22,000 for a total of \$80,789.

AGENCY ISSUE NARRATIVE:

2010-2011 BUDGET YEAR NARRATIVE: IT COMPONENT? NO
 LONG RANGE PROGRAM PLAN:
 State Grants to School Districts/Non-Florida Education Finance Program (ACT0695)

DEPARTMENT OF EDUCATION GOALS:

1. Strengthen foundation skills
2. Improve college and career readiness
3. Expand opportunities for post-secondary degrees and certificates

ISSUE NARRATIVE:

Requested is the restoration of nonrecurring funds in the amount of \$309,015 provided under the American Recovery and Reinvestment Act of 2009 to continue the current level of services for the Take Stock in Children mentoring program. This funding provides college scholarships for low-income students between grades 6-9. In addition, students are provided tutoring, motivation, guidance, friendship, and support by an assigned mentor. Students and parents are required to sign a contract agreeing to maintain good grades, remain drug/crime free, and meet with their mentor once a week.

ISSUE NARRATIVE:

Requested is the restoration of nonrecurring funds in the amount of \$38,030 provided under the American Recovery and Reinvestment Act of 2009 to continue the current level of services for the Governor's Mentoring Initiative (GMI) mentoring program. This funds recruitment and training of high school students to mentor 3rd grade students. GMI provides mentors with a step-by-step curriculum guide and mentoring activities through the Teen Trendsetter Reading Mentors Program (TTRM). In addition GMI provides one-to-one reading sessions to 3rd graders throughout the state of Florida.

- DEPARTMENT OF EDUCATION GOALS:
1. Strengthen foundation skills
 2. Improve college and career readiness
 3. Expand opportunities for post-secondary degrees and certificates

ISSUE NARRATIVE:
 Requested is the restoration of nonrecurring funds in the amount of \$92,671 provided under the American Recovery and Reinvestment Act of 2009 to continue the current level of services for the YMCA State Alliance mentoring program. This funding provides at-risk 1st and 2nd graders from low-performing schools or schools that have a high percentage of students scoring below grade level in reading with mentoring and tutoring assistance in reading through the YMCA READS! program. Students will learn about Systematic Instruction in Phoneme Awareness, Phonics, and Sight Words to increase reading scores. The mentors assist students in reading mechanics and foster a love for reading and literature.

UNIVERSITY - AUTISM PROGRAM				40S1260

- DEPARTMENT OF EDUCATION GOALS:
1. Strengthen foundation skills
 2. Improve college and career readiness
 4. Improve quality of teaching in the education system

ISSUE NARRATIVE:
 Requested is the restoration of \$32,574 of nonrecurring funds provided under the American Recovery and Reinvestment Act of 2009 to continue the current level of services at the Florida Atlantic University's Center for Autism and Related Disabilities (CARD). School districts continue to identify and serve an increasing population of students with autism spectrum disorders (ASD) at the CARD Centers. Between 2007-08 and 2008-09 Centers saw a 19.3% increase in the number of students identified with ASD as a primary or secondary exceptionality.

PreK through Grade 12 students with autism spectrum disorder:
 2007-08 - 13,008 students with ASD as a primary (12,440) or secondary (568) exceptionality
 2008-09 - 15,514 students with ASD as a primary (14,707) or secondary (807) exceptionality

1. Strengthen foundation skills
 2. Improve college and career readiness
 3. Expand opportunities for post-secondary degrees and certificates

ISSUE NARRATIVE:
 Requested is the restoration of nonrecurring funds in the amount of \$100,000 provided under the American Recovery and Reinvestment Act of 2009 to continue the current level of services for the Task Force on African American History program. This funding ensures awareness of the statutory requirements, helps identify and recommend needed state education leadership action, assist in the selection of textbooks for state adoption, provide training, and build supporting partnerships.

DEPARTMENT OF EDUCATION GOALS:

1. Strengthen foundation skills
2. Improve college and career readiness
4. Improve quality of teaching in the education system

ISSUE NARRATIVE:

\$ 46,902,403 is requested for the restoration of nonrecurring funds provided under the American Recovery and Reinvestment Act of 2009 to continue to provide certification and mentoring bonuses to Florida teachers with National Board for Professional Teaching Standards certification. The funds requested will provide a prorated certification bonus amount of approximately 7.451% rather than the 10% award amount provided in statute. Bonus eligibility is limited to a 10 year initial certification period. Calculation of the estimated budget needed for FY 2010-11 is shown below:

A. Estimated Total NBCTs for 2010-11 Certification Bonus

Current National Board Certified Teachers (NBCTs) 2008-09	12,793
Plus estimated new 2009-10 NBCTs	823
Plus estimated new 2010-11 NBCTs	971
Total Estimated maximum NBCTs funded through 2010-11	14,587
Reduce to trend data for certification bonus = 90%	13,128
Less Expired NBCTs for 2010	673
Estimated Total NBCTs for Certification Bonus 2010-11	<u>12,455</u>

DEPARTMENT OF EDUCATION GOALS:

1. Strengthen foundation skills
2. Improve college and career readiness
3. Expand opportunities for post-secondary degrees and certificates
4. Improve quality of teaching in the education system

ISSUE NARRATIVE:

The American Recovery and Reinvestment Act of 2009 funding of \$4,600,000 provides support for professional development, training, and instructional projects through the following reading programs:

- Florida Online Reading Professional Development (FOR-PD)-\$850,000
Free Competency 2 training for the Reading Endorsement
- Northeast Florida Educational Consortium (NEFEC) Project courses, Applied Data Analysis for Educational Leaders (ADAPT) and Foundations of Language and Cognition (FOLAC)-\$300,000
Free Competency 1 and 3 training for the Reading Endorsement
- NEFEC Florida Reading Initiative (FRI)-\$900,000
Free Competency 2 training for the Reading Endorsement
- Progress Monitoring and Reporting Network (PMRN) and Assessments for the Florida Center for Reading Research (FCRR) at FSU - \$2,200,000
Free assessments and data reporting tool used to assist instructional decision making and monitor reading coach time expenditures in grades K-12
- Summer professional development-\$350,000
Will serve approximately 8,000 principals, teachers, and reading coaches (partial support)

The restoration of the \$4,600,000 is requested to continue the current level of services provided through these programs.

ISSUE NARRATIVE:				
Requested is the restoration of \$411,060 of nonrecurring funds provided under the American Recovery and Reinvestment Act of 2009 in order to maintain the level of funding needed to carry out the statutory requirements of the College Reach-Out Program (CROP). Funds will continue to be used to ensure students have academic support and access to a constant learning environment throughout the school year as well as a Summer Residential Program for eligible students. Additional services are provided such as tutoring, mentoring, FCAT prep courses, PSAT prep courses, PSAT test taking, SAT prep courses, and numerous other educational activities to help prepare students for postsecondary education. CROP will continue to reach out and assist underrepresented low-income students by providing an opportunity for them to reach their full potential and fulfill their dreams.

3. Expand opportunities for post-secondary degrees and certificates
4. Improve quality of teaching in the education system
6. Align resources to strategic goals

ISSUE NARRATIVE:

The request for restoration of \$354,288 of nonrecurring funds for the School District Matching Grant Program will provide the match for private cash contributions (dollar-for-dollar) made to local education foundations for activities or programs designed to improve academic achievement of low performing public school students. Currently over 10 million dollars has been pledged by local business partners and the restoration of requested funds will ensure private matches are not lost. These funds will assist the state in meeting its strategic focus areas of strengthening foundation skills, improving the quality of teaching, expanding opportunities for postsecondary degrees and certificates, and alignment of resources with strategic goals.

ISSUE NARRATIVE:

Requested is the restoration of \$166,075 of nonrecurring funds provided under the American Recovery and Reinvestment Act of 2009 to continue the current level of programs and services to the Regional Education Consortium for students, teachers, and administrators in rural districts. Each regional consortium provides a full range of programs to students in rural districts, helping to minimize duplication of services and encouraging the development of new programs and services. At least three of the following services are provided: exceptional student education, teacher education centers, environmental education, federal grant procurement and coordination, and data planning and accountability. Purchasing and bidding programs have also been established, including construction and construction management arrangements. Restoration of nonrecurring funds is essential to continue the consortia's efforts to provide a full range of supportive services to each member district.

 3. Expand opportunities for post-secondary degrees and certificates

ISSUE NARRATIVE:
 An increase of \$1,450,000 is requested to provide funding for the Jobs for Florida's Graduates (JFG) program. This project is an affiliate of and uses/aligns with the model of the national Jobs for America's Graduates (JAG) program. The JAG Model provides performance standards and best practices for serving young people (ages 15-21). The four Program Applications include the School-to-Career Program (for students in the 12th grade); Multi-Year Dropout Prevention Program (for students in 9th, 10th, 11th and 12th grades); and the Out-of-School Program (serving dropouts and young people in alternative schools). The ultimate objective of JAG Model programs is to provide participants (in-school or out-of-school) with classroom and work-based learning experiences that result in a quality job leading to a career after graduation or completion of a GED.

STUDENTS TOWARD EFFECTIVE ROLE				
MODELS)				4100620

DEPARTMENT OF EDUCATION GOALS:

1. Strengthen foundation skills
2. Improve college and career readiness
3. Expand opportunities for post-secondary degrees and certificates

ISSUE NARRATIVE:

An increase of \$300,000 is requested to provide funding for the Call Me MISTER (Mentors Instructing Students Toward Effective Role Models) program. This project is a part of a national initiative (created and licensed by Clemson University) to increase the pool of available male teachers from a broader more diverse background, particularly among the State's lowest performing elementary schools. Student participants (MISTERS) are largely selected from among under-served, socioeconomically disadvantaged and educationally at-risk communities. To maximize opportunity and greater access, students will have the option of first attending one of our two-year partner community colleges before transferring to a four-year institution to earn a baccalaureate degree in a state-approved teacher education program. It is expected that a MISTER who completes his program of study and becomes certified to teach will assume a teaching position in a Florida public school and teach one year for each year he received financial support from the Call Me MISTER program. This program addresses teacher recruitment for the State of Florida. More specifically, it is intended to increase the number of Black and Hispanic male teachers in Florida.

3. Expand opportunities for post-secondary degrees and certificates

ISSUE NARRATIVE:

An increase of \$1,000,000 is requested to provide funding for the Professional Opportunities Program for Students (POPS) program. This project provides 16-18 year old at-risk high school students with work study opportunities and activities that develop educational, work, and developmental skills. The program teaches participants to improve grades, develop positive behavior and discipline, provide service within the community, while attending school regularly. The POPS program combines community, schools, and business efforts to support and encourage teenagers to complete high school, pursue advanced education, and obtain gainful employment.

State Grants to School Districts/Non-Florida Education Finance Program (ACT0695)

DEPARTMENT OF EDUCATION GOALS:

1. Strengthen foundation skills
2. Improve college and career readiness
3. Expand opportunities for post-secondary degrees and certificates

ISSUE NARRATIVE:

An increase of \$150,000 is requested to provide funding for the Sunshine State Scholars Program (SSSP). To reflect the value and significance of the Sunshine State Standards, a mathematics/science recognition program for high school seniors throughout Florida was initiated in 1998. This competition, the Sunshine State Scholars Program, provides the opportunity for every district in Florida to showcase its excellent student performance in mathematics and science. The Sunshine State Scholars Program is unique in that it focuses on seniors, and also in that it assesses both mathematics and science knowledge. It represents an opportunity to recognize those students who excel in the mathematics and science standards of the Florida curriculum frameworks.

2010-2011 BUDGET YEAR NARRATIVE: IT COMPONENT? NO
 LONG RANGE PROGRAM PLAN:
 Federal Funds for School Districts (ACT0865)

DEPARTMENT OF EDUCATION GOALS:

6. Align resources to strategic goals

ISSUE NARRATIVE:

School Lunch Program

This request incorporates adjustments for federal reimbursement rate increases as well as the movement of students from the paid and reduced category into the higher free reimbursement category. This trend is a result of the current economy and has been identified by the U.S. Department of Agriculture (USDA) as a substantial trend amongst most of the states in the southeast region.

Fresh Fruit and Vegetable Program

This requested increase is based on the success of the program since its implementation in 2008-09. USDA funding for the program has increased substantially throughout the southeast region over the last two years. With the promotion of healthy living and the fight against childhood obesity, this program is projected to continue to gain momentum. In it's first two years of operation, the program has grown in participation from 6 districts and 46 sites to 17 districts and 73 sites.

Specifically included in this workload request is:

5. Improve K-12 educational choice options

ISSUE NARRATIVE:

A fund shift to General Revenue from the Federal Grants Trust Fund of \$466,000 is requested to replace expiring Title V Education Innovation federal funds. These requested funds provide for student support services and the Juvenile Justice Education Program as follows:

\$400,000 to continue current level of Student Support Services

The department requests \$400,000 in General Revenue to offset the loss of federal funds. The department uses federal funds to provide student support services such as counseling, nurses, social workers and psychologist in the amount of \$1,485,737. The funds are provided from two federal grant awards: Individuals with Disabilities and Education Act (IDEA) in the amount of \$1,085,737 and Title V Education Innovation in the amount of \$400,000. The IDEA funds are used for students that meet the specific criteria of that program while Title V funds are used for the students not meeting the more stringent IDEA criteria. Title V funding will be expiring and at this time the department is unaware of the U.S. Department of Education's intent to continue providing awards. Since student support services are statutorily required and Title V funds will no longer be available, the Department requests \$400,000 in General Revenue to offset the loss of federal funds.

\$66,000 to continue current level of the Juvenile Justice Education Program (JJEP)

The department requests \$66,000 in General Revenue to offset the loss of federal funds. The department uses federal funds to carry out statewide education quality assurance of the Juvenile Justice Education Program (JJEP) in the amount of \$2,272,642. The funds are provided from two federal grant awards: Individuals with Disabilities and Education Act (IDEA) in the amount of \$2,206,642 and Title V Education Innovation in the amount of \$66,000. The IDEA funds are used for students that meet the specific criteria of that program while Title V funds are used for students not meeting the more stringent IDEA criteria. Title V funding will be expiring and at this time the department is unaware of the U.S. Department of Education's intent to continue providing awards. Since the Juvenile Justice Education Program is statutorily required and Title V funds will no longer be available, the Department requests \$66,000 in General Revenue to offset the loss of federal funds.

2010-2011 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

LONG RANGE PROGRAM PLAN:

Food and Nutrition/Operations and Services (ACT0520)

DEPARTMENT OF EDUCATION GOALS:

6. Align resources to strategic goals

ISSUE NARRATIVE:

The American Recovery and Reinvestment Act of 2009 (ARRA), was signed into law by President Barack Obama on February 17, 2009. The ARRA provides an appropriation to Florida for financial assistance to school food authorities (SFAs) participating in the National School Lunch Program (NSLP) that will be used to purchase cafeteria kitchen equipment. Each SFA will receive a base of \$1,000 and the remaining funds will be pro-rated based on their total lunch earnings.

AGENCY ISSUE NARRATIVE:
 2010-2011 BUDGET YEAR NARRATIVE: IT COMPONENT? NO
 LONG RANGE PROGRAM PLAN:
 Federal Equipment Matching Grant (ACT0890)

DEPARTMENT OF EDUCATION GOALS:
 6. Align resources to strategic goals

ISSUE NARRATIVE:
 \$3,125,953 in additional funds is requested as follows:

2009 FEDERAL GRANT AWARDS
 \$1,960,344 is requested in additional funds to match the National Telecommunications and Information Administration's Public Telecommunications Facilities Program (PTFP) project applications submitted by eleven Florida radio and television stations in 2009. (Awards are received in one fiscal year and expended the next.) The grants are highly competitive among the nation's public broadcasting entities and each grant is dependent on the nature of each application. The federal grants require state funds per provided on a dollar-for-dollar match basis. A total of \$2,093,006 is requested to match the project applications. There are insufficient recurring funds in the base to match all the applications, should they be awarded. The participating stations and the amount requested to match each application are listed below:

The federal grants require state funds on a dollar-for-dollar match.
 WUSF-DT - \$340,194
 WFSU-DT - \$137,483
 WFSQ-FM - \$ 65,400
 WSRE-DT - \$426,802
 WMFE-TV - \$828,247

WJCT-TV - \$ 94,880
 WPBT-TV - \$200,000
 TOTAL \$2,093,066 - \$132,662 in base funds - \$1,960,344 in additional funds needed

2008 FEDERAL GRANT AWARDS

\$634,604 in additional funds is requested to complete the match for the 2008 federal awards. Although the Federal Equipment Matching appropriation for 2009-10 was applied to these award matches, most projects were not fully matched, leaving federal funds unused. The stations receiving 2008 grants that were not fully matched by the state, and the balance of unmatched funds are listed below. Without a full state match, these stations cannot claim the full amount awarded to them in the National Telecommunications and Information Administration's Public Telecommunications Facilities Program (PTFP).

Public Station	Federal Award	Appropriated State Match	Federal Funds Not Matched
WFSU-FM	\$ 49,450	\$ 8,550.07	\$ 40,899.93
WJCT-TV	\$335,160	\$ 57,949.95	\$277,210.05
WPBT-TV	\$327,240	\$ 56,580.48	\$270,659.52
WQCS-FM	\$ 44,105	\$ 7,625.80	\$ 36,479.20
WUFT-FM	\$ 11,311	\$ 1,955.70	\$ 9,355.30
Totals:	\$767,266	\$132,662.00	\$634,604.00

2007 FEDERAL GRANT AWARDS

\$531,005 in additional funds is requested to complete the match for the 2007 federal awards. Although the Federal Equipment Matching appropriation for 2009-10 was applied to these award matches, most projects were not fully matched, leaving federal funds unused in part. The stations receiving 2007 grants that were not fully matched by the state, and the balance of unmatched funds are listed below. Without a full state match, these stations cannot claim the full amount awarded to them in the National Telecommunications and Information Administration's Public Telecommunications Facilities Program (PTFP).

Public Station	Federal Award	Appropriated State Match	Federal Funds Not Matched
WFSU-TV	\$ 87,250.00	\$ 20,503.00	\$ 66,747.00
WQCS-FM	\$ 46,492.00	\$ 10,925.00	\$ 35,567.00
WUFT-TV	\$125,000.00	\$ 29,374.00	\$ 95,626.00
WUFT-TV	\$290,375.00	\$ 68,236.00	\$222,139.00
WXEL-TV	\$145,000.00	\$ 34,074.00	\$110,926.00
Totals	\$694,117.00	\$163,112.00	\$531,005.00

AGENCY ISSUE NARRATIVE:

2010-2011 BUDGET YEAR NARRATIVE: IT COMPONENT? NO
 LONG RANGE PROGRAM PLAN:
 Instructional Technology (ACT0900)

DEPARTMENT OF EDUCATION GOALS:

- 1. Strengthen foundation skills
- 4. Improve quality of teaching in the education system
- 6. Align resources to strategic goals

ISSUE NARRATIVE:

An additional \$410,461 is requested to pay for the renewal of 40 instructional video licenses that will expire in 2010-11 (licenses generally expire in 3 years). The request for these funds are supported by the continued strong demand of districts for maintaining instructional programming. The Florida Knowledge Service of the Florida Department of Education, licenses video programs nominated and selected annually by school district representatives for use by teachers in the classrooms in direct support instruction. Such programming has proven to be successful when used in the classroom to support instruction in numerous subjects and across all grade levels.

An additional \$360,000 is requested to continue support for the Governor's School for Space Science and Technology. This funding will allow the state to continue providing a unique learning opportunity for some of the state's brightest and most talented high school students through a hands-on research laboratory experience. The School is a joint initiative between Florida State University, the Florida Institute of Technology and Embry-Riddle Aeronautical University and is located near Kennedy Space Center. The mission of the school is to provide advanced educational opportunities in the areas of science, biology, mathematics, engineering and technology. It also provides teachers summer professional development opportunities in these subject areas.

hits occurred during the summer month of June 2009 when most public schools have closed for the summer.

The requested funds will provide for the maintenance costs of the interactive online tools with practice items that support the Florida Comprehensive Assessment Test (FCAT) and aligns with the Next Generation Sunshine State Standards (SSS) for all public school students for every grade level in reading, math, and science. The items are designed to complement regular classroom instruction and offer further practice on SSS benchmarks that students have not yet mastered.

AGENCY ISSUE NARRATIVE:

2010-2011 BUDGET YEAR NARRATIVE: IT COMPONENT? NO
 LONG RANGE PROGRAM PLAN:
 State Grants to Districts and Community Colleges (ACT3050)

DEPARTMENT OF EDUCATION GOALS:

- 2. Improve college and career readiness
- 3. Expand opportunities for post-secondary degrees and certificates
- 6. Align resources to strategic goals

ISSUE NARRATIVE:

Additional funding of \$25,766,749 for the Workforce Development Program is necessary to support the students enrolled in these programs as follows:

Enrollment Growth:

An additional \$15,092,883 is requested to support increased enrollment of 3,813.26 full-time equivalent students (FTE) at approximately \$3,958 state funds per unweighted FTE.

Compression/Equity:

An additional \$10,673,866 is requested to fund one-third of the current disparity in funding as part of a three year plan. Currently, a funding disparity among districts exists in state funds per FTE. With overall state funds per unweighted FTE at \$3,958, twenty-eight districts have state funds per unweighted FTE below this amount. Twenty-one (21) districts are below 90% of the current state funds per FTE. The total equity adjustment required to get all districts to the state average is \$32,021,917. The recommended plan is to phase-in this adjustment over a three year period with re-calculation of equity adjustments each year.

AGENCY ISSUE NARRATIVE:

2010-2011 BUDGET YEAR NARRATIVE: IT COMPONENT? NO

LONG RANGE PROGRAM PLAN:

State Grants to Districts and Community Colleges (ACT3050)

DEPARTMENT OF EDUCATION GOALS:

1. Strengthen foundation skills
2. Improve college and career readiness

ISSUE NARRATIVE:

An increase of \$6,073,066 of nonrecurring federal budget authority is requested to fund the receipt of one time funds for adult education and family literacy programs. The United States Department of Education (USDOE) has notified Florida of an estimated allocation adjustment for Fiscal Years 2003-2008 in Adult Education State Grant Awards, which are included in the President's 2010 Budget proposal. These funds will be received as a result of a USDOE administrative error that incorrectly calculated the number of qualifying adults in computed grant amounts for states from Fiscal Years 2003-2008. As a result, Florida was underpaid by \$6,073,066. These funds are anticipated to be disbursed in July 2010, provided Congress appropriates those funds for the Fiscal Year 2010 Budget and enacts statutory language permitting the additional funds to be used to correct the administrative error.

State Grants to Districts and Community Colleges (ACT3050)

DEPARTMENT OF EDUCATION GOALS:

- 2. Improve college and career readiness
- 3. Expand opportunities for post-secondary degrees and certificates
- 6. Align resources to strategic goals

ISSUE NARRATIVE:

Requested is the restoration of \$159,956 of nonrecurring funds to maintain current funding level for performance incentives for districts for adult education and career technical programs. Since districts have to "earn back" their funding each year based on prior year completions and placements, it is critical that funds at least be maintained at the current year level.

AGENCY ISSUE NARRATIVE:

2010-2011 BUDGET YEAR NARRATIVE: IT COMPONENT? NO
 LONG RANGE PROGRAM PLAN:
 Community College Program Fund (ACT0571)

DEPARTMENT OF EDUCATION GOALS:

2. Improve college and career readiness
3. Expand opportunities for post-secondary degrees and certificates
4. Improve quality of teaching in the education system
6. Align resources to strategic goals

ISSUE NARRATIVE:

An additional \$4,006,439 is requested to enable the Florida Community College System to provide for necessary operations and maintenance, including custodial services and security for new facilities opening during 2009-10 that received only a partial year of funding in 2009-10. Failure to provide these funds would severely limit the funds available for colleges to perform their instructional and administrative functions.

College facilities are completed at various times during a fiscal year. If the facility is operational for less than the full fiscal year, the initial budget request is calculated proportionately based on the number of months the facility is operational. The annualized amount represents the balance to complete a full year of operational funding for the facilities that will open during the current year, and thus only received a partial year of funding.

- DEPARTMENT OF EDUCATION GOALS:
2. Improve college and career readiness
 3. Expand opportunities for post-secondary degrees and certificates
 4. Improve quality of teaching in the education system
 6. Align resources to strategic goals

ISSUE NARRATIVE:
 An increase of \$70,110,900 is requested to fund an additional 22,580 FTE at the current state funding per FTE of \$3,105.

Community College Program Funds were provide for the basic operation of Florida public colleges including: instruction, academic support, libraries, student services, institutional support, physical plant and the College Center for Library Automation. These colleges have statutorily defined service districts in order to provide lower division educational opportunities within commuting distance to almost all Florida residents.

The Florida College System consists of 28 locally-governed public colleges operating 180 instructional sites and serving over 836,000 students (2008-09) from all walks of life. For 2009-10, the college system is funded for 330,819 full time equivalent (FTE) students. This issue would increase the total number of funded FTE to 353,399.

 Community College Program Fund (ACT0571)

DEPARTMENT OF EDUCATION GOALS:

- 2. Improve college and career readiness
- 3. Expand opportunities for post-secondary degrees and certificates
- 4. Improve quality of teaching in the education system
- 6. Align resources to strategic goals

ISSUE NARRATIVE:

An increase of \$15,672,319 is requested to provide funding for baccalaureate degree programs. This increase will be used as follows:

\$6,202,237 - To serve an additional 1,720 FTE (approximate) at \$3,607 per FTE.

\$9,470,082 - To equalize the funding per full-time equivalent (FTE) from historical levels up to a consistent funding level of \$3,607 per FTE which supports the Council of Presidents initiative to provide funding equity for Florida college baccalaureate programs.

Community colleges were granted authorization from the Legislature to offer bachelor's degrees in certain areas (Sections 1007.33 & 1004.73, Florida Statutes) such as elementary education, secondary education in critical need areas, public safety, fire science, management, computer networking and nursing. The Legislature adopted a process in law by which the State Board of Education could consider and approve community college proposals to grant baccalaureate degrees in limited areas of economic need. Implementation of those programs has resulted in 14 colleges being authorized by the State Board of Education to grant baccalaureate degrees: Broward College, Chipola College, Daytona State College, Edison State College, Florida State College at Jacksonville, Indian River State College, Miami Dade College, Northwest Florida State College, Palm Beach Community College, Polk State College, Saint Petersburg College, Santa Fe College, Seminole Community College, and State College of Florida, Manatee - Sarasota.

In 2008-09, the amount of \$10,015,201 in General Revenue funds was appropriated to provide for baccalaureate degree programs at ten (10) community colleges. The Legislature has historically funded baccalaureate enrollments at various rates since the inception of the community college baccalaureate program. The Council of Presidents is cognizant of the

LONG RANGE PROGRAM PLAN:

Community College Program Fund (ACT0571)

DEPARTMENT OF EDUCATION GOALS:

2. Improve college and career readiness
3. Expand opportunities for post-secondary degrees and certificates
4. Improve quality of teaching in the education system
6. Align resources to strategic goals

ISSUE NARRATIVE:

Based on the Financial Outlook Statement of July 17, 2009, and the traditional allocation of 70 percent for K-12 Programs, and 15 percent each for the Community College System and the State University System, a fund shift is necessary to balance the distribution of the Education Enhancement (Lottery) funds. The total distribution for the Community College System is \$143,970,889, an increase of \$27,011,731. This request is to increase the Community College Lottery Fund category by \$27,011,731 and decrease the requested General Revenue in the Community College Program Fund category by the same amount.

2. Improve college and career readiness
3. Expand opportunities for post-secondary degrees and certificates
4. Improve quality of teaching in the education system
5. Improve K-12 educational choice options
6. Align resources to strategic goals

ISSUE NARRATIVE:

Additional funds in the amount of \$42,500 are requested to pay for community colleges' portion (half) of the annual \$85,000 software maintenance fee for the Equella Repository Software needed for the operations of the Florida Digital Repository. The annual renewal of this license allows for upgrades and continuing support to ensure the product integrity and relevance. The software maintains a cross-platform, one-stop-shop of digital instructional resources including open access textbooks for use by any postsecondary educator in all methods of instruction.

These funds will be used to support the original investment made by the legislature and higher education in 2007. A perpetual repository software license was purchased at a cost of \$425,000 to provide the underlying structure and functionality of the repository for organized "anywhere, anytime" central access to instructional resources for postsecondary educators in Florida. The annual maintenance fee to support the software is \$85,000 (20% of the original perpetual license of \$425,000) to make upgrades and continue support for Equella Repository Software.

The State University System (SUS) will provide funds for the remaining half of the annual maintenance fee.

DEPARTMENT OF EDUCATION GOALS:

2. Improve college and career readiness
3. Expand opportunities for post-secondary degrees and certificates
4. Improve quality of teaching in the education system
6. Align resources to strategic goals

ISSUE NARRATIVE:

The Division of Community Colleges requests \$39,000,000 for the Dr. Philip Benjamin Matching Grant Program for Community Colleges to provide matching support for scholarships and other eligible uses. The funds being requested are to match private contributions that colleges have receipted, as of February 1, 2009. The \$39,000,000 is requested to match private contributions received for the 2010-11 fiscal year, and, as part of a 5-year plan, to match a portion of prior year obligations for unmatched funds received for the 2008-09 and 2009-10 fiscal years.

Subsequent state funding was provided to make community college education accessible to Florida citizens and to enhance the quality of the education they receive. Donors may be reluctant to contribute to this proven program, if funds are not being fully matched by the state.

ISSUE NARRATIVE:
 Requested is the restoration of \$29,124,808 of nonrecurring general revenue funds to support the current level of operational costs for the state's community colleges. If the recurring amount is not restored it will have a direct impact on community college students and institutions.

Community College Programs provide for the basic operation of Florida public colleges including: instruction, academic support, libraries, student services, institutional support, physical plant and the College Center for Library Automation. These colleges have statutorily defined service districts in order to provide lower division educational opportunities within commuting distance to almost all Florida residents.

AGENCY ISSUE NARRATIVE:

2010-2011 BUDGET YEAR NARRATIVE: IT COMPONENT? NO
 LONG RANGE PROGRAM PLAN:
 All Activities.

- DEPARTMENT OF EDUCATION GOALS:
1. Strengthen foundation skills
 2. Improve college and career readiness
 3. Expand opportunities for post-secondary degrees and certificates
 4. Improve quality of teaching in the education system
 5. Improve K-12 educational choice options
 6. Align resources to strategic goals

ISSUE NARRATIVE:
 Requested is the realignment of \$750,000 of operating funds in the Federal Grants Trust Fund from the Expense category to the Contracted Services category (\$500,000) and the Salaries and Benefits category (\$250,000).

The Contracted Services increase of \$500,000 is the result of continuing to refine and clarify expenditures that are of a contracted services nature. In 2007-08, a statewide change was made to appropriate funds and record expenditures for services differently than they had been in the past. At that time agencies tried to identify all funds of a contracted services nature and have those funds moved from the Expense category to the Contracted Services category. Since that time there have been expenditures that the Department considered to be an Expense item that have been determined by the Department of Financial Services to be a Contracted Services item. As a result of this continued refinement, the Department projects the need to exercise it's transfer authority in accordance with 216.292(2)(a)1, Florida Statutes, during the 2009-10 fiscal year to increase the Contracted Services funds and decrease the Expense funds. This need is

during 2009-2010. These pending applications, plus any others that may be received during 2009-2010, will result in an increase of another 75 to 100 new licensed institutions by the start of 2010-2011. The increased funding will be used to provide the additional human resources needed by the Commission in order to carry out its responsibilities. The new licensure fee structure implemented (in Rule 6E-4.001, Florida Administrative Code) by the Commission will generate adequate fees in the Institutional Assessment Trust Fund to cover these new expenditures.

AGENCY ISSUE NARRATIVE:

2010-2011 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

LONG RANGE PROGRAM PLAN:

Assessment and Evaluation (ACT 0635)

DEPARTMENT OF EDUCATION GOALS:

1. Strengthen foundation skills
2. Improve college and career readiness
3. Expand opportunities for post-secondary degrees and certificates
4. Improve quality of teaching in the education system
5. Improve K-12 educational choice options
6. Align resources to strategic goals

ISSUE NARRATIVE:

An increase in the amount of \$4,683,770 is requested to fund increased costs for PreK-12 assessments. Most assessment contracts are multi-phase, multi-year contracts with contract periods of three to five years. Contractual obligations for multi-year contracts vary from fiscal year to fiscal year depending on the contractual phases being completed in a given year. The department makes every effort to write contracts such that the amount of variance is minimized. Trust funds have been maximized where possible and appropriate.

DEPARTMENT OF EDUCATION GOALS:
 6. Align resources to strategic goals

ISSUE NARRATIVE:
 This issue removes unfunded budget from the Working Capital Trust Fund (WCTF). In accordance with s. 216.272, FS, Working Capital Trust Funds shall provide sufficient funds for the operation of data processing centers. Furthermore, such funds shall be created from moneys budgeted for data processing services by those agencies to be served by the data processing center. During the 2009 Session the data processing funds for the Department were reduced resulting in unfunded budget for the WCTF. The salary portion of this reduction is related to the 28 positions that were cut during the 2009 Session. This additional reduction amount more accurately reflects the salary dollars associated with the 28 positions.

DEPARTMENT OF EDUCATION GOALS:
 6. Align resources to strategic goals

ISSUE NARRATIVE:
 INFRASTRUCTURE STORAGE AREA NETWORK REPLACEMENT

Requested is \$202,277 of nonrecurring operating capital outlay funds to upgrade the Department of Education's (DOE) existing Storage Area Network (SAN).

The Education Data Center (EDC) maintains four production Storage Area Networks (SANs) that provide networked data storage for the Department of Education (DOE). The standard support for the SAN switches and processors is a three-year factory warranty followed by a two-year (from March 14, 2008 to March 13, 2010) extended maintenance contract. When this equipment is five years old, the probability of risk is high and therefore there is a significant increase in the cost of maintenance contracts to cover it.

Because the SAN switches and processors have exceeded their life cycle, this replacement is required to mitigate the risk of the negative impact from potential outages. This replacement would include both the SAN at the Turlington building in Tallahassee and the SAN at the disaster recovery site in Gainesville. There were 98 performance incidents encountered in FY 2007-08 and an additional 106 performance incidents encountered in FY 2008-09.

COMPREHENSIVE INTRUSION PREVENTION SYSTEM (IPS)

Requested is \$150,000 of nonrecurring operating capital outlay funding for an intrusion prevention system that will:
 Enable 24 hour coverage, 365 days a year for monitoring of network traffic using specific threat signatures, such as malformed packets and virus fragments, for automatic notification of network problems.
 Monitors network traffic for any deviations from the norm that might indicate intrusions.
 Reduce staff time required for reviewing network traffic data using the new equipment's analysis tools.
 Enable visibility into network traffic to determine the origin of valid network messages from DOE's in-house applications and network messages from DOE's desktops; in particular, eliminating peer-to-peer (P2P) software and spy ware.
 Implement sending automated alarms to staff and automatic isolation of the DOE network in response to outside attacks (for example, denial of service attacks).
 Improve intrusion prevention support by network staff.

INFRASTRUCTURE SERVER REPLACEMENT

Requested is \$179,714 of nonrecurring operating capital outlay funds for replacement of aging servers and storage area

	COL A03	COL A04	COL A05	
	AGY REQUEST	AGY REQ N/R	AG REQ ANZ

AGENCY-WIDE INFORMATION TECHNOLOGY				3620000
NETWORK INFRASTRUCTURE				36217C0

network enclosure.

The Education Data Center (EDC) maintains 321 named servers that provide service to EDC customers. The standard supported hardware life cycle for these servers is a three-year warranty and a fourth year under extended maintenance. Using servers beyond the fourth year translates to a decreased level of reliability and availability, and a substantial increase in the cost of maintenance. There would be a significant loss of productivity if the applications on these servers were not available to staff due to a server failure.

Eighty virtual servers rely heavily on the storage area network (SAN) as a central storage solution to allow the virtual hosts to manage the virtual servers dynamically when capacity requirements change and also provide failover functionality. The virtualization project expanded the number of servers attached to the SAN which emphasizes the need to replace the out-of-warranty SAN components.

Not funding this request will delay the replacement of servers and support components that have reached the end of their reliable life cycle and thus increase the risk that maintenance issues will impact the availability of services to DOE.

Funding Request Breakdown:

- \$ 46,844 Seven Enterprise servers
- \$ 72,870 Fifteen Mid-Range servers
- \$ 60,000 Storage Area Network (SAN) disk enclosure to replace enclosure at the end of their manufacturer's maintenance life during FY 2009-10

\$179,714 Total

INFRASTRUCTURE SWITCH REPLACEMENT

Requested is \$249,380 of nonrecurring operating capital outlay funds to replace thirty-seven closet network switches housed at the Turlington Building. The Department of Education's (DOE) network depends on the closet network switches on each floor of the Turlington Building. The closet network switches are already at the manufacturer's end of life (EOL). Failure or faults of the network switches will affect virtually all network data operations, making these switches two of the most critical devices in the DOE's network. Replacing the network switches is necessary due to the continuing risk to the Department's enterprise network. The likelihood of frequent failures is an increasing concern. Failure of any one of the switches would have a significant negative impact on employee productivity.

FIRE SUPPRESSION

Requested is \$149,500 of recurring and nonrecurring funds to convert the Education Data Center's (EDC) computer room from a wet pre-action fire suppression system to a dry pre-action fire suppression system.

Nonrecurring operating capital outlay funds in the amount of \$136,000 are requested to purchase and install a dry pre-action fire suppression system to replace the current wet pre-fetch system to avoid the irreparable water damage to

	COL A03	COL A04	COL A05

the Department of Education's (DOE) EDC servers, telephony equipment, network equipment, uninterruptible power supplies, storage area networks, and air conditioners if there were to be a fire in the Data Center. The water dispensed by the existing system could cause as much damage to most of the equipment as a fire.

Recurring contracted services funds in the amount of \$13,500 are requested to conduct semiannual tests of the dry pre-fetch system to ensure that everything is working properly in the event that there would be a fire in the EDC.

NETWORK CONFIGURATION ANALYZER

Requested is \$24,000 of nonrecurring operating capital outlay operating capital outlay funds to acquire a network configuration analyzer that improves the quality, stability and performance of network services. The Department of Education's (DOE) Education Data Center (EDC) maintains a large switch-based network with all network connectivity passing through a single enterprise core. There are more than 110 switches with a large number of standardized and device-specific configurations. Given this large number of network devices and the lack of appropriate automated tools, it is difficult and costly in terms of network staff time to locate network problems caused by incorrectly configured or malfunctioning devices.

INFRASTRUCTURE NETWORK WIRELESS

Requested is \$20,000 of nonrecurring operating capital outlay funds to acquire a centrally managed and secure wireless network system that would replace the consumer-grade disjointed collection of wireless access points in use today. It is difficult to monitor and supervise the standards of multiple access points, especially when they are set up using the type of equipment typically used for wireless networks in homes. Additionally, the device would provide new functionality such a roaming capabilities and the ability to use new wireless applications.

Recruitment and Retention (ACT0560)

DEPARTMENT OF EDUCATION GOALS:

2. Improve college and career readiness
3. Expand opportunities for post-secondary degrees and certificates
5. Improve K-12 educational choice options
6. Align resources to strategic goals

ISSUE NARRATIVE:

An additional \$1,400,000 is requested to continue funding for FACTS.org. This request along with a projected 2009-10 ending interest earnings balance of \$400,000 will provide the necessary funds of \$1,800,000 for fiscal year 2010-11.

This request restores funding to the program after a temporary reduction in funding that was put in place for fiscal years 2008-09 and 2009-10. The temporary funding reduction was the result of \$2,400,000 of interest earnings that were available to support the program for two years in lieu of state funds. The interest earnings were from General Revenue funds that were held in reserve until such time as the 39 public institutions met their various obligations to connect to the system and were eligible to receive their allocation of funds. It is anticipated that approximately \$400,000 of the interest earnings will remain at the close of fiscal year 2009-10 to be available for 2010-11.

6. Align resources to strategic goals

ISSUE NARRATIVE:

Requested is \$102,000 to support the ongoing costs associated with network administration, database administration, SharePoint portal administration and access and security maintenance for the Integrated Education Program Management System, more commonly referred to as the HUB. These expenditures had been paid for by Microsoft in a contract that expired in August 2009.

The HUB serves as the foundation for building an enterprise-wide solution to information technology projects for the Department and stake-holders through out the state. The HUB term is an analogy of the system. The HUB takes the many "spokes" of data through out the department and brings them together in one efficient, effective location. The HUB is a hardware, software, and network connectivity environment which was built to be scalable and expandable and provide more data to a larger audience much more quickly.

The HUB currently houses three portals (spokes); the Teacher Portal (commonly referred to as Sunshine Connections), the Business Intelligence Portal used for the Education Data Warehouse, and the Portal to Exceptional Education Resources application (PEER). The Department's goal is to continue creating more portals as resources and funds are available. In 2009-10 the Department is planning to create portals for the K12 Student and Staff database and the Community College database.

Without the requested funds to support ongoing administration and maintenance costs the HUB will not be functional and the Department will have lost a valuable resource.

AGENCY ISSUE NARRATIVE:

2010-2011 BUDGET YEAR NARRATIVE: IT COMPONENT? YES
 LONG RANGE PROGRAM PLAN
 Teacher Certification (ACT0630)

DEPARTMENT OF EDUCATION GOALS:

- 4. Improve quality of teaching in the education system
- 6. Align resources to strategic goals

ISSUE NARRATIVE:

Funds in the amount of \$215,000 are requested to ensure the integrity, stability and security of the Department's automated Teacher Certification system. To ensure this mission-critical function is met, the Department's Avaya telephony system (\$100,000) software must be upgraded and the Interactive Voice Response (IVR) interface for the automated Teacher Certification System (\$115,000) must be replaced. The Avaya telephony system software upgrade and the IVR replacement must be done simultaneously.

AVAYA TELEPHONY SYSTEM UPGRADE -

The Department's multi-million dollar Avaya automated telephone system software (Communications Manager 2.2) reached its end of life manufacturer support for software patches on December 15, 2008. The requested upgrade is necessary to ensure the needs of the Department's automated Educator Certification system are met.

The cost breakdown is:

- \$100,000 to upgrade the Avaya telephony system's software
 - o Software - \$33,204
 - o Hardware - \$29,389

INTERACTIVE VOICE RESPONSE SYSTEM				
UPGRADE				36352C0

- o Maintenance - \$1,119
- o Contracted Services - \$36,288

INTERACTIVE VOICE RESPONSE (IVR) INTERFACE -

Due to a very high volume of Educator Certification telephone calls (202,186 calls for the 2008-2009 fiscal year), the current IVR system often reaches capacity resulting in frequently dropped and ring-busy calls. Parts for the IVR system hardware are no longer available and the software is obsolete. The IVR software has a memory leak problem that is temporarily corrected by rebooting the PC that hosts the IVR software. Replacement of the IVR system is necessary for a permanent fix.

Over half the certification callers (45-55%) are provided service via the self-help menu options provided via the IVR system. Staff cannot modify current menu options as program requirements or other policies necessitate change due to the lack of quality support for the present IVR system's proprietary software. Live operator calls attempted increased from 110,833 in 2007 to 113,407 in 2008. Despite supplementing Bureau of Educator Certification staffing resources in 2007, the percentage of calls assisted versus the live operator calls attempted has not improved due to the significant increase in the volume of calls received.

The cost breakdown is:

\$115,000 to replace the current Interactive Voice Response (IVR) system (telephone system interface).

- o Software - No cost
- o Hardware - \$17,630
- o Training - \$5,203
- o Contracted Services - \$92,167

AGENCY ISSUE NARRATIVE:

2010-2011 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

This issue requests \$2,293,304 in student fee budget authority for three medical schools within the SUS based on estimated tuition revenue generated by a planned increase in medical students. The three components of this request are as follows:

- Florida State University (FSU-MS) - \$253,304 - This request will support the final phase-in of 16 students at FSU-MS; bringing the total to 480 medical students.
- Florida International University (FIU-COM) - \$840,000 - This request will support 40 additional students at FIU-COM; bringing the total to 80 medical students.
- University of Central Florida (UCF-COM) - \$1,200,000 - This request will support 60 additional students at UCF-COM; bringing the total to 100 medical students.

This issue supports the Board of Governors strategic Planning Goals / Objectives of 'Access to and Production of Degrees' and 'Building World-Class Academic Programs and Research Capacity'.

AGENCY ISSUE NARRATIVE:

2010-2011 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

This issue requests \$12,343,379 to provide a utility inflationary increase for operating funds for existing space similar to the increase that is applied to funding for new space each year. Currently, no mechanism exists to cover basic increases in utility rates for existing facilities.

Pursuant to the U.S. Department of Labor, Bureau of Labor Statistics latest information, the utility price index has increased 6.2 percent. Utilizing the existing utility per GSF factor and multiplying by 6.2 percent, and applying that to existing E&G GSF as of June 2009, utility costs have increased \$12.3 million over last year.

The breakdown by university is as follows:

AGENCY ISSUE NARRATIVE:

2010-2011 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

This issue requests \$13,240,783 for plant operations and maintenance funding for new space. During 2010-2011, the State University System expects to increase its facilities inventory by 1,419,321 gross square feet (GSF). New facilities that will be completed based on the contract substantial completion date during 2010-2011 and that have been approved for construction by the legislature are included in the new space issue request. This request does not include any space

CHALLENGE GRANTS PROGRAMS				3007310

Challenge Grant Program (Section 1011.94 F.S.) through June 30, 2009.

The 2007 Legislature appropriated funds to be used for Major Gift Challenge Grants in 2007-2008 totaling \$74,336,964. This appropriation was used to match gifts received as of February 7, 2007. Since that time private donations exceeding \$183 million have been donated to the universities. This request would provide the state match for donations received between February 8, 2007 and June 30, 2009.

This activity provides state matching funds to universities for private donations that establish permanent endowments with the proceeds of the investments used to support libraries, instruction, and research programs. Also, a portion of these funds are used to match the Theodore R. and Vivian M. Johnson Scholarship Program (Section 1009.74 F.S.) which provides scholarships to disabled students attending all eleven state universities.

The Major Gifts Challenge Grant Program continues to experience tremendous growth as private support for university scholarships, professorships, and endowed chairs becomes more readily available. The increase in private donations is due, in large part, to the incentive provided through state matching funds.

This issue supports the Board of Governors' Strategic Planning Goals/Objectives of 'Building World-Class Academic Programs and Research Capacity' and 'Meeting Community Needs and Fulfilling Unique Institutional Responsibilities'.

AGENCY ISSUE NARRATIVE:

2010-2011 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

This issue requests \$20,795,941 for the second year of non-recurring federal stabilization discretionary funds appropriated to the State University System (SUS). For 2009-2010, approximately \$20,795,941 million in education federal funds was awarded to the SUS with an equivalent amount expected for 2010-2011. These funds will be used primarily to enhance faculty and staff recruitment efforts and maintain already existing personnel. According to the most recent figures, an estimated 2,900 jobs will be saved or created throughout the System as a result of the federal stimulus dollars appropriated in 2009-2010. In addition, several universities will utilize these funds by supporting and enhancing university operations and student support services such as the expansion of library resources, additional scholarship awards, building renovations, and various furniture and equipment purchases. With additional revenue streams provided to the universities, further efforts could be made towards improving student services, providing scholarships to the best and brightest students, and recruiting and retaining world-class faculty.

AGENCY ISSUE NARRATIVE:

2010-2011 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

This issue requests \$1,300,000 for the New College of Florida (NCF) final year of building academic and administrative support infrastructures. Since becoming the eleventh member of the State University System in 2001, New College has focused on the start-up of an academic and administrative infrastructure capable of supporting a freestanding institution. An analysis by MGT in 2005 indicated that New College is significantly understaffed and under-funded in delivering all manner of academic and administrative support services to an institution its size. In 2009-10, \$1.8 million was requested, with \$500,000 appropriated.

The requested funding will be used to fill the remaining gaps in basic operations. Enhanced student services, such as increased access to library resources and assistance, additional faculty lines, and writing center support will assist in the effort to foster a supportive co-curricular environment for all students. This supportive campus culture will enhance retention and improve the quality of student outcomes.

This issue supports the Board of Governors' Strategic Planning Goal/Objective of 'Access to and Production of Degrees'.

discussion/debate over the last several years. Recently, a medical school task force was formed to explore whether it was possible to establish a more transparent, systemic, and rational approach to medical education funding and accountability than the one currently employed. In March 2009 the task force reported out to the BOG, and the BOG directed the task force to make a recommendation for a defensible annual M.D. cost-to-educate per student funding model. The taskforce was also directed to continue its work on improving outcomes reporting for the M.D. program and fiscal reporting for the M.D. and other programs insofar as reporting their expenditures assisting in providing better clarity of and accountability for the state's investment in medically-related programs. The amount requested for 2010-2011 serves as a placeholder pending the results of the February 2010 report due to the legislature from the medical school task force.

This request supports the need for additional funds for UF to increase the base funding of the medical school.

This issue supports the Board of Governors' Strategic Planning Goals/Objectives of 'Access to and Production of Degrees' and 'Meeting Statewide Workforce and Professional Needs'.

AGENCY ISSUE NARRATIVE:

2010-2011 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

This issue requests \$11,300,000 in recurring general revenue funds for the replacement of funds provided by the Legislature as nonrecurring during fiscal year 2009-10. Funding appropriated as a result of this request will allow the state universities to dedicate more resources towards campus operations and instructional offerings. During 2009-10, the universities are utilizing these revenues to fund faculty salaries, recruitment of temporary employees, summer courses, and the enhancement of course offerings. The replacement of these funds will allow the universities to restore funds to various divisions affected by the reductions in order to improve the services rendered to the students.

Nonrecurring base funds will be replaced with recurring general revenue as follows:

AGENCY ISSUE NARRATIVE:

2010-2011 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

This issue requests a lump sum amount of \$134,250 in support of distance learning initiatives, consisting of three components:

- Florida Distance Learning Catalog - \$44,750 - In July 2003, the Florida Distance Learning Consortium (the Consortium) was formed by combining the resources of two separate but related organizations: the Florida Community College Distance Learning Consortium (established in 1996) and the Florida Virtual Campus (established in 1998). The Consortium's purpose is to provide strong distance learning leadership for Florida's PreK-20 educational system. It achieves this objective by spearheading statewide initiatives and facilitating cross-institutional communication, thereby championing the interests of its membership institutions. Among other accomplishments, the Consortium routinely realizes over \$1 million in annual savings for the State of Florida as a result of consolidated statewide licensing agreements. Distance learning and classroom instruction continue to dramatically change as technology evolves and revolutionizes how, when, and where instruction is delivered. Students' growing demand for technology-based instruction is reflected by Florida's significant growth in post-secondary distance learning headcounts since 1998. Likewise, the Consortium and the services it supports have continued to advance and increase in scope and depth. As new technologies emerge, basic core functions (e.g., online catalog of distance learning courses) are maturing while new services (e.g., statewide repository of learning resources) are being sought by Consortium members.

The amount requested for FY 2010-11 represents one-half of the funds needed to modernize the code base and stabilize the Florida Higher Education Distance Learning Catalog operated by the Florida Distance Learning Consortium.

- Orange Grove Digital Content Repository - \$42,500 - The Orange Grove Digital Content Repository serves as a centralized, online, one-stop-shop location for Florida postsecondary faculty to access, create, store, share, and link to open access, copy right restricted or state and locally-licensed digital resources for classroom instruction and student learning. It is also a key resource for the open access textbook planning initiative that is also required in the same section of statute.

The amount requested for FY 2010-11 represents half of the \$85,000 annual maintenance fee (20% of original perpetual license of \$425,000) to receive upgrades and continuing support for Equella repository software that allows the Orange Grove Digital Content Repository to function as a cross-platform, one-stop-shop of digital instructional resources including open access textbooks for use by any postsecondary educator in all methods of instruction. This budget item supports the original investment made by the Florida Legislature (2007) and the public higher education sectors (2009) to

purchase a perpetual repository software license that provides the underlying structure and functionality of the repository.

- Web Development and Technical Support for the Catalog and Repository - \$47,000 - The amount requested for FY 2010-11 represents half of the amount needed to restore 1 FTE staff position to support the Consortium's web applications and provide for the management and operation of the Florida Higher Education Online Catalog and the Orange Grove Digital Content Repository.

This issue supports the Board of Governors strategic Planning Goals/Objectives of 'Access to and Production of Degrees' and 'Building World-Class Academic Programs and Research Capacity'.

IT COMPONENT? NO

Florida International University College of Medicine - \$2,858,496: This issue requests \$2,858,496 in general revenue funds for Florida International University Medical School (FIU-COM) to continue to address the requirements set forth by the Liaison Committee for Medical Education (LCME), the accrediting entity for medical education.

On August 7, 2009, FIU-COM held its first white coat ceremony for its inaugural class of 43 medical students with the first day of classes starting on August 10, 2009. This is an extremely important milestone for FIU-COM as it continues to take significant steps to produce and qualify humanistic, ethical and culturally sensitive physicians responsive to the medical needs and health care challenges faced by the State of Florida. Developing a curriculum of instruction focused on community medicine and elevating the quality of medical care in the region will substantially expand the economic growth potential within the State as a whole.

FIU-COM is dedicated to achieving excellence in medical education instruction and research and contributing to the improvement of the quality and access to health care in the Southern region and ultimately throughout the nation. In addition, FIU-COM continues to expand and improve student support and services. Areas of emphasis have included

enhancements in information technology and library infrastructure. Furthermore, the hiring of additional faculty and administrative staff looms as more recruiting efforts are initiated to support the anticipated number of medical students at the university. Advancement within these critical areas requires ongoing support as FIU-COM remains committed to providing the highest level of medical education to its student.

This issue supports the Board of Governors' Strategic Planning Goals / Objectives of 'Access to and Production of Degrees' and 'Meeting Statewide Workforce and Professional Needs'.

University of Central Florida College of Medicine - \$1,747,526: This issue requests \$1,747,526 in general revenue funds for the University of Central Florida Medical School (UCF-COM) to continue to address the requirements set forth by the Liaison Committee for Medical Education (LCME), the accrediting entity for medical schools.

UCF-COM is dedicated to meeting the physician workforce needs of the state. Efforts have been made to accelerate faculty and staff recruitment within the next couple of years in order to stay on pace with the LCME requirements for accreditation. The faculty continue their efforts to integrate an effective curriculum that focuses on small group instruction and interaction, case-based learning, problem-based learning, and integration of both the clinical and basic science experiences of medical education delivery. Ongoing support of financial resources is critical to the medical school's overall mission of delivering medical education conducive to the needs of the students served.

UCF-COM held its first white coat ceremony for an inaugural class of 41 medical students on August 3, 2009, and began the first day of classes on August 10, 2009. Continuous efforts have been made by administrators to accelerate and retain excellent faculty to keep pace with the projected number of 120 medical students per class by 2014. Currently, the medical education program has 86 faculty and staff members in addition to 936 volunteer faculty from the community. The UCF-COM remains steadfast in improving physician workforce needs of the state and playing a major role in enhancing economic growth and development in the region. Based on the 2008 economic impact study by Arduin, Laffer, and Moore

AGENCY ISSUE NARRATIVE:

2010-2011 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

For 2009-2010, the Board General Office received \$1,532,680 in State Fiscal Stabilization Funds.

These funds were included in categories 010000, 030000, 040000, 060000, and 100777.

These funds are supporting 20 of the 53 authorized positions in the Board of Governors General Office.

This issue is requesting the second year of funding in the same amount.

AGENCY ISSUE NARRATIVE:

2010-2011 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

During the 2009 session the Legislature reduced all state employee salaries by two percent. Even though the reduction was vetoed by the Governor, the funds were not restored to each agency's budget; therefore, each agency had to absorb the reduction within other funding categories.

The Board requests \$64,426 in salaries and benefits to replace the two percent salary and benefit budget cut enacted during the 2009 session.
