AGENCY NARRATIVE:

SCH VIIIIB-1 NARRATIVE: PETROLEUM TANKS CLEANUP IT COMPONENT? NO
 Priority #3

This issue proposes a nonrecurring reduction of \$71,012,035 to the Petroleum Restoration Program (PRP) in the Division of Waste Management (Division). This reduction is being proposed due to a projected decline in Pollutant Tax revenue that is deposited into the Inland Protection Trust Fund. In August of 2020, the Office of Economic and Demographic Research revised their current projections for Pollutant Taxes downward due to a decline in various types of fuel consumption. The Florida Department of Environmental Protection (Department) is monitoring the revenue situation closely.

Funds for the PRP are used to competitively procure contracts with private remediation cleanup and support contractors. Pursuant to Section 376.3071, F.S., contaminated sites are prioritized for cleanup based on their potential risk to human health and the environment. This proposed reduction will limit the Division's ability to address high-priority environmental projects, reduce the number of assessments and cleanup activities conducted and delay action on local projects. This will negatively impact the Department's ability to protect human health and the environment.
