AGENCY ISSUE NARRATIVE:

2021-2022 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

Title: Project Management and Technology Changes for Transition to the Florida Planning, Accounting, and Ledger Management (PALM) Solution

Current Situation: The State of Florida Accounting Information Resource (FLAIR) system is based on software developed in the 1970s and was implemented as the core of the state's financial system in 1981. Recognizing the risks and shortcomings of FLAIR, the Legislature authorized and appropriated funds to the Department of Financial Services in Fiscal Year 2013-2014 to conduct a study of replacement options. The result of this study was a recommendation to replace the core

 AND LEDGER MANAGEMENT (PALM) - ADD

functionality of FLAIR and the Treasury Cash Management System (CMS). The replacement of FLAIR and CMS has been recognized as the Florida Planning Accounting and Ledger Management (PALM) Project.

As the Florida PALM Project advances towards the replacement of CMS and components of FLAIR, the Department of Health (Department) will need to prepare for and execute specific transition activities which will require additional resources. Starting in 2021, Florida PALM will begin to replace the CMS components, followed by the Central FLAIR functions in 2022, the FLAIR Payroll functions in January 2024, and finally, the Departmental FLAIR functions in July 2024.

Request: As a result of replacing CMS and FLAIR components over time, the Department's business systems must be analyzed to determine if they need to be modified, retired, or will not be impacted. Currently, the Department has over 100 business systems and databases that exchange data with FLAIR and CMS. The requested budget authority would fund positions to develop an analysis of current business system usage and anticipated actions such as modifications, retirements, or no action needed.

Florida PALM will be offering several standardized interfaces to exchange data with agency-maintained applications that will still be needed to support critical agency functions. The requested budget authority is needed for additional Full-Time Equivalents (FTE) to conduct the Department's efforts to connect multiple interfaces with Florida PALM. FLAIR currently uses an antiquated batching system to exchange data with agency business systems. However, Florida PALM will offer a modern Application Program Interface (API) to process data inputs and outputs. This improved interface will require development within the Department's interface architecture, including software licenses and hardware.

During the next three years subject matter experts will be utilized to participate in the collaborative design, testing, and implementation activities for Florida PALM. The Department is requesting 4 FTE positions to provide continuity of the Department's business functions while the current staff are transitioning the current business processes and systems to Florida PALM.

The following describes the current high-level timeline of activities for the Department's transition to Florida PALM:

Conduct interface testing (CMS Wave)	November 2020- February 2021
Participate in user acceptance testing (CMS Wave)	March 2021- April 2021
Support go-live (CMS Wave)	July 2021
Conduct interface testing (Central Wave)	August 2021-January 2022
Provide and/or validate data for conversion (Central Wave)	March 2021-November 2021
Participate in user acceptance testing (Central Wave)	February 2022-April 2022
Support go-live (Central Wave)	July 2022
Conduct interface testing (Departmental Wave)	March 2023-November 2023
Provide and/or validate data for conversion (Departmental Wave)	March 2022-February 2023
Participate in user acceptance testing (Departmental Wave)	December 2023-April 2024

Notification Enterprise (CORTNE) system. This system will consolidate the Department's financial applications and processes, update outdated technology, and reduce the manpower needed to update and maintain the current applications and processes.

Additional budget authority in the amount of \$1,444,555 is needed in fiscal year 2021-2022 for year three of the project to allow for the continued development of the CORTNE database system.

REQUEST: Budget authority is requested to continue the development and implementation of the CORTNE system. The following timeline displays specific activities and the anticipated progress schedule for completion of the CORTNE project.

- 2019-2020 The initiation and planning phases and Cash Receipts module were completed.
- 2020-2021 Development of the following functionality or modules will begin:
 The Debit Memo module
 Automation of Data uploads for the Spending Plan
 Catalogue of Federal Domestic Assistance (CFDA) Report
 Trust Fund Cash Analysis Report
 Service Charge to General Revenue
 Daily Revenue Draw/Daily Cash Draws
 Daily Cash Reports
- 2021-2022 Development of the following functionality or modules will begin:
 County Health Departments (CHD) Federal Reimbursements
 CHD Expenditures, Approved Operating Budget
 Surplus/Deficit module (formerly Spending Plan module)
 Salary Analysis
 Other Cost Accumulator (OCA) Reference Data and Historical Tracking (re-write of OCA module in the Budget Information Management System)
- 2022-2023 Future development will include:
 Cell Phone Bill Verification
 Grants Management
 Departmental People First Report Front-End functionality

The Department's application developers will continue to coordinate with the Department of Financial Services' Florida Planning, Accounting, and Ledger Management (PALM) team to ensure the CORTNE system does not duplicate functionality that will be provided in the PALM system.

The Department also requests a six-month extension for the CORTNE project schedule from July 2022 through December 2022.

The additional time is needed because the Coronavirus Disease 2019 (COVID-19) reporting requirements became a priority and increased the workload outside of CORTNE development. As the COVID-19 data was being compiled and reported, new functionality that would benefit future use of CORTNE reporting were identified that would enhance the system and make tracking easier.

Additionally, the PALM account code structures had to be developed by the Department of Financial Services' PALM team so that compatibility with CORTNE could be determined prior to programming. This created a delay to some CORTNE development.

The Department does not have sufficient budget authority to allow for the continuation of the development of the CORTNE system.

BUDGET SUMMARY: The Department requests \$1,444,555 of non-recurring budget authority in the Centralized CORTNE System category (100809) within the Administrative Trust Fund (2021), Administrative Support budget entity (64100200), in the Executive Leadership/Support Services program component (16.02.00.00.00).

AGENCY ISSUE NARRATIVE:
 2021-2022 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

ISSUE TITLE: Strengthening the State's Minority Health and Health Equity Infrastructure

CURRENT SITUATION: Many of Florida's racial or ethnic minorities face complex barriers to optimal health resulting in substantial health disparities and avoidable health care expenses. Significant racial and ethnic health disparities continue to persist in Florida. Examples include but are not limited to diabetes, prostate cancer, new cases of human immunodeficiency virus (HIV), and infant mortality rates remaining higher among Florida's racial and ethnic populations. The Office of Minority Health and Health Equity (OMHHE) works to eliminate health disparities and improve access to

public health which has eluded minority populations for the past 30 plus years. The office also serves to assist the Florida Department of Health (Department) in the development and implementation of policies and programs aimed at eliminating health disparities in Florida.

A comprehensive, statewide, multi-sector approach is needed to effectively implement improvements to resources available at the local level. The OMHHE will lead this effort and work together with its more than 250 partners from diverse sectors to facilitate and coordinate limited public health resources as well as ensure Florida's minority populations are aware of and have opportunities to access these resources.

The Department's goal is to enhance the capacity of the OMHHE to develop, design, and implement programs/resources, which would reduce health disparities and advance health equity at the state and county levels. Resources that will decrease disparities may include but are not limited to:

- Case Management
- Client Services
- Personnel to provide more education to targeted populations
- Personnel to provide more outreach to targeted populations
- Increased coordination of cross-sector partnerships
- Increased training opportunities and technical assistance for internal and external partners.

These efforts include coordination of cross-sector partnerships, more communication to vulnerable populations, analysis and dissemination of relevant data, strategic planning, training, and technical assistance for staff across the agency.

REQUEST: The Department requests \$8,473,802 in General Revenue (1000), and \$5,875,760 in County Health Department Trust Fund (2141) budget authority. Funds will be used to enhance the capacity of the OMHHE and to support implementation of evidence-based health equity (which is the opportunity for all individuals regardless of race/ethnicity to obtain optimal health) improvement projects focused on racial and ethnic minority and underserved communities. This includes projects that are designed to reduce or eliminate disparities in:

- Adult and Childhood Immunizations
- Alzheimer's Disease and Related Dementias
- Cancer
- Cardiovascular Disease
- Diabetes
- HIV/AIDS
- Lupus
- Maternal and Infant Mortality
- Oral Health

- Sickle Cell Disease

Four Full Time Equivalent (FTE) positions (2 Government Analysts IIs, Class Code 2225, Paygrade 26 and 2 Senior Program Analysts, Class Code 6843, Paygrade 27) will serve as subject matter experts, support the development and implementation of county and/or regional health equity plans focused on improving the health of the most vulnerable populations. These FTE's will also provide training and technical assistance to partners across the state to identify and address inequalities within minority populations. The OMMHE has over 250 partners. Partners include but are not limited to:

- Faith-based organizations
- Community Organizations
- Universities
- Community Health Centers
- Local Urban Leagues and like organizations
- County Health Departments
- Neighborhood organizations
- City and County Governments
- Schools and Youth Organizations

Funding of up to \$5,875,760 will be awarded to County Health Departments (CHD). The funds will be used to support the development of county and/or regional health equity plans for the most vulnerable populations to address the social determinants of health and improve health status. Health equity projects are the implementation of health equity plans. Coordination and monitoring of activities will be key elements of assuring projects produce healthier communities. Allocated funding will vary based on population size, proposed initiatives, and complexity of the issues being addressed. Activities will be evaluated and reports will be developed to document project outcomes. Positions will support training efforts for Florida's certified Community Health Workers (CHWs) on various topics to minority populations. CHWs are front-line health workers who serve as liaisons between health services and communities, making it easier to provide services to hard to reach populations. This funding will support a CHW workforce.

BUDGET SUMMARY: The Department requests to transfer 4 vacant FTE's, with the equivalent units of rate of 210,000, from the County Health Department Local Health Needs budget entity (64200700), to the Administrative Support budget entity (64100200).

Administrative Support budget entity (64100200)	
Executive Direction Program Component (16.02.00.00.00)	210,000 units of Rate
County Health Department Local Needs budget entity (64200700)	
County Health Departments Program Component (13.06.00.00.00)	(210,000) units of Rate

The Department also requests a total of \$8,473,802 in General Revenue (1000), of which \$126,886 is non-recurring.

 General Revenue (1000)

- Salary and Fringe Benefits category (010000) \$305,185
- TR/HR/DMS Services Purchased er Statewide Contract category (107040) \$1,321
- Grants and Aids - Minority Health Initiative category (050310) \$8,167,296
- for the following:
- \$180,036 for Expenses (\$17,716 non-recurring)
- \$2,111,500 for Contractual Services
- \$5,875,760 for transfer to County Health Departments (\$109,170 non-recurring)

Total: \$8,473,802

This issue also requests recurring double budget authority of \$5,875,760 of which \$109,170 is non-recurring.

County Health Department Local Needs budget entity (64200700)
 County Health Departments Program Component (13.06.00.00.00)
 County Health Department Trust Fund (2141)

- Other Personal Services category (030000) \$2,036,480
- 30 OPS will be hired for approximately 1,850 hours each annually consisting of 25 positions at \$28 per hour and 5 positions at \$32 per hour, with 28% fringe.
- Transfer to Department of Management Services Human Resources Services Purchased per Statewide Contract category (107040) \$7,037
- Expense category (040000) \$669,640
- \$262,380 for standard expense (\$109,170 non-recurring; \$153,210 recurring) and \$407,260 to establish up to thirty-five projects at an estimated \$11,636 per project for program expenses. The expenditures will include office supplies, printing, space rental for meetings, online survey software, evidence-based curriculum, translation and interpretation services (American sign language, English/Spanish/Creole).
- *Standard Expense Package for OPS:
 (30 OPS positions X \$3,639 non-recurring) + (30 OPS positions + \$5,107 recurring expenses no travel) = \$262,380
- *Standard Expense Package for Projects (with limited travel): \$11,636 X 35 projects = \$407,260
- Contracted Services category (100777) \$3,162,603
- Each CHD grantee will contract with at least two organizations to establish a consortium (35 consortia). The organizations selected to be a part of each consortium will be different for each community because each community's needs are different and the organizations available

AGENCY ISSUE NARRATIVE:

2021-2022 BUDGET YEAR NARRATIVE:

IT COMPONENT? YES

Title: Project Management and Technology Changes for Transition to the Florida Planning, Accounting, and Ledger Management (PALM) Solution

Current Situation: The State of Florida Accounting Information Resource (FLAIR) system is based on software developed in the 1970s and was implemented as the core of the state's financial system in 1981. Recognizing the risks and shortcomings of FLAIR, the Legislature authorized and appropriated funds to the Department of Financial Services in Fiscal Year 2013-2014 to conduct a study of replacement options. The result of this study was a recommendation to replace the core

functionality of FLAIR and the Treasury Cash Management System (CMS). The replacement of FLAIR and CMS has been recognized as the Florida Planning Accounting and Ledger Management (PALM) Project.

As the Florida PALM Project advances towards the replacement of CMS and components of FLAIR, the Department of Health (Department) will need to prepare for and execute specific transition activities which will require additional resources. Starting in 2021, Florida PALM will begin to replace the CMS components, followed by the Central FLAIR functions in 2022, the FLAIR Payroll functions in January 2024, and finally, the Departmental FLAIR functions in July 2024.

Request: As a result of replacing CMS and FLAIR components over time, the Department's business systems must be analyzed to determine if they need to be modified, retired, or will not be impacted. Currently, the Department has over 100 business systems and databases that exchange data with FLAIR and CMS. The requested budget authority would fund positions to develop an analysis of current business system usage and anticipated actions such as modifications, retirements, or no action needed.

Florida PALM will be offering several standardized interfaces to exchange data with agency-maintained applications that will still be needed to support critical agency functions. The requested budget authority is needed for additional Full-Time Equivalents (FTE) to conduct the Department's efforts to connect multiple interfaces with Florida PALM. FLAIR currently uses an antiquated batching system to exchange data with agency business systems. However, Florida PALM will offer a modern Application Program Interface (API) to process data inputs and outputs. This improved interface will require development within the Department's interface architecture, including software licenses and hardware.

During the next three years subject matter experts will be utilized to participate in the collaborative design, testing, and implementation activities for Florida PALM. The Department is requesting 4 FTE positions to provide continuity of the Department's business functions while the current staff are transitioning the current business processes and systems to Florida PALM.

The following describes the current high-level timeline of activities for the Department's transition to Florida PALM:

Conduct interface testing (CMS Wave)	November 2020- February 2021
Participate in user acceptance testing (CMS Wave)	March 2021- April 2021
Support go-live (CMS Wave)	July 2021
Conduct interface testing (Central Wave)	August 2021-January 2022
Provide and/or validate data for conversion (Central Wave)	March 2021-November 2021
Participate in user acceptance testing (Central Wave)	February 2022-April 2022
Support go-live (Central Wave)	July 2022
Conduct interface testing (Departmental Wave)	March 2023-November 2023
Provide and/or validate data for conversion (Departmental Wave)	March 2022-February 2023
Participate in user acceptance testing (Departmental Wave)	December 2023-April 2024

AGENCY ISSUE NARRATIVE:

2021-2022 BUDGET YEAR NARRATIVE: IT COMPONENT? NO
 ISSUE TITLE: Tobacco Constitutional Amendment - Consumer Price Index

Current Situation: Section 2007-65 Laws of Florida created section 381.84, Florida Statutes that requires the Department of Health (Department) to conduct a statewide tobacco education and use prevention program in order to implement Article X, Section 27 of the State Constitution. Article X also requires an annual adjustment for inflation, using the Consumer Price Index.

REQUEST: By applying the Consumer Price Index adjustment of 0.8% from the August 2020 National Economic Estimating Conference the estimated tobacco expenditures from the August 2020 Revenue Estimating Conference will be adjusted by \$576,912.

BUDGET SUMMARY: This issue requests \$576,912 in recurring appropriation in the Tobacco Settlement Trust Fund (2122), Community Health Promotion budget entity (64200100), Comprehensive Statewide Tobacco Prevention and Education Program special category (106036), Health Services to Individuals program component (13.01.00.00.00).

LINKAGE TO THE GOVERNOR'S PRIORITIES: Health Care - Promote innovation in healthcare that reduces the cost of medical

AGENCY ISSUE NARRATIVE:

2021-2022 BUDGET YEAR NARRATIVE:

IT COMPONENT? YES

ISSUE TITLE: Additional Federal Grants Trust Fund Appropriation for Community Health Promotion New or Increased Grants

CURRENT SITUATION: The Department of Health (Department), Community Health Promotion budget entity (64200100) received five new grant awards and needs budget authority in multiple categories to fulfill the grant obligations. The Department submitted an LBR request the year after grants were awarded. The LBR request was not successful last year and the authority is needed to optimize all grants to their capacity at this time.

REQUEST:

Grant Title: Grants to States to Support Oral Health Workforce Activities

Granting Agency: Health Resources and Services Administration (HRSA)

Project Period: 09/01/2018 - 08/31/2022

Budget Period: 09/01/2018 - 08/31/2019 - \$387,859
 09/01/2019 - 08/31/2020 - \$399,454
 09/01/2020 - 08/31/2021 - \$399,229
 09/01/2021 - 08/31/2022 - \$398,429 (recommended future support from grant)

The purpose of this grant is to support Florida in developing and implementing innovative programs to address the oral health workforce needs of the Dental Health Professional Shortage Areas. Projects include activities to provide community-based prevention services, continue dental education and establish dental workforce programs designed to address risk factors common to childhood obesity and dental cavities.

Annual Travel and Supplies - National Oral Health Conference (required travel), contract monitoring and grantee meetings, education materials for meetings and office supplies - \$6,068
 Printing materials for annual meetings for grantees and trainings - \$541
 Project #1 - Oral Health Florida/Dr. Janna Gold \$76,458
 Project #2 - Central Health Federally Qualified Health Center - \$69,342
 Project #3 - Nicklaus Children's Hospital - \$121,469
 Project #4 - Nova Southeastern University - \$125,351
 Total Request - \$399,229

Grant Title: Supplemental Nutrition Assistance Program Education (SNAP-ED)

Granting Agency: United States Department of Agriculture (USDA) through the Florida Department of Children and Families

Project Period: 09/30/2020 - 09/30/2021

Grant Award: \$5,992,184 Less Indirect \$992,095 = Total Direct \$5,000,089

The purpose of this grant is to provide nutrition education and obesity prevention in the State of Florida to SNAP-ED eligible Florida residents of various age groups, including children, youths/teens, families with children, adults, and seniors. The Department of Children and Families (DCF) and the Department have entered into an agreement to promote better health among adults and children through enhanced nutrition education by increasing the availability of nutrition information. This agreement may be renewed.

Of the \$5,000,089 direct funding, \$3,653,145 will be awarded to local county health departments and the remaining \$1,346,944 will be used by the Community Health Promotion budget entity (64200100). The portion for the County Health Departments will use existing budget authority and will not be requested at this time.

2 OPS staff - 1,880 hours x \$20.92 per hour x Fringe at 28% = \$100,684
 Standard expenses and travel - \$32,130
 Florida A and M University, Program Evaluation - \$278,916

 Community Based Organizations - \$294,000
 Human Resource Assessment - \$107.29 x 2 OPS staff = \$214
 Total Request - \$1,346,944

Grant Title: Evaluating and Expanding Florida's Public Health Dental Program

Granting Agency: Centers for Disease Control and Prevention (CDC)

Project Period: 09/01/2018 - 08/31/2023

Budget Period:
 09/01/2018 - 08/31/2019 - \$307,226
 09/01/2019 - 08/31/2020 - \$370,000
 09/01/2020 - 08/31/2021 - \$370,000
 09/01/2021 - 08/31/2022 - \$370,000 (assume same level of funding)
 09/01/2022 - 08/31/2023 - \$370,000 (assume same level of funding)

Grant Award: \$370,000

The purpose of this grant is to support oral health promotion and disease prevention and an opportunity to work with chronic disease programs to address the co-morbid chronic disease of diabetes, which is often associated with poor oral health outcomes. Strategies and activities will be implemented through the evaluation, support and expansion of school sealant programs, community water fluoridation, oral health surveillance and integration of medical and dental programs

 09/30/2022 - 09/29/2023 - \$650,000 (recommended future support from grant)

Grant Award: \$650,000

The purpose of this grant is to establish, improve, or maintain programs that expand health care providers' capacity to screen, increase timely detection, assessment, treatment and referral of pregnant and postpartum women for maternal depression and related behavioral health disorders. These disorders include but are not limited to depression, anxiety, opioid use disorder and alcohol use disorder. This grant will also increase and improve access to treatment and recovery support services for pregnant and postpartum women identified with maternal depression and related behavioral health disorders, including those living in rural and medically underserved areas.

FSU - This contract is for the provision of perinatal mental health services. Provider will develop and implement a screening and treatment model for maternal mental health; create a customized data system; and develop a statewide training program for the screening and treatment model. Provider will also expand the Maternal Mental Health Statewide Resource Directory; conduct community forums; train community mental health providers in evidence-based management of perinatal mental health disorders - \$449,562

UF - Contract is for the services of a psychiatrist to be available to OB/GYNs enrolled in the program for assistance

Grant Title: Pool Safely Program

Granting Agency: U.S. Consumer Product Safety Commission

Project Period: 09/28/2018 - 09/27/2020 (grant is awarded every year with a two-year project period)

09/28/2019 - 09/27/2021

09/28/2020 - 09/27/2022

Grant Award: \$250,000

The purpose of this grant is to prevent the drowning and drain entrapment of children in pools and spas and provide assistance for prevention education and enforcement of pool safety requirements. Florida leads the nation with drowning as the primary cause of death in children ages one to four. Working with a strong network of statewide partners will increase public awareness about swimming pool safety and increase training for swimming pool inspectors on the requirements of the Virginia Graeme Baker Pool and Spa Safety Act.

Supplies - standard expense, general office supplies, training materials and educational activities supplies - \$5,000

Contracts Public Service Announcement (PSA), Social Media Campaign, Billboards - \$245,000

Total Request \$250,000

BUDGET SUMMARY:

This issue requests \$215,892 of recurring budget authority in the Other Personal Services category (030000), \$96,982 of recurring budget authority in the Expenses category (040000), \$2,702,864 of recurring budget authority in the Grants and Aids - Contracted Services category (100778), and \$535 of recurring budget authority in the Human Resources Assessment category (107040) in the Community Health Promotion budget entity (64200100), Federal Grants Trust Fund (2261).

AGENCY ISSUE NARRATIVE:

2021-2022 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

ISSUE TITLE: Workload - Additional Resources for the Office of Medical Marijuana Use

CURRENT SITUATION: The Office of Medical Marijuana Use (OMMU) within the Department of Health (Department) is the single state entity responsible for regulating the cultivation, processing, transportation, and dispensation of marijuana in Florida. Additionally, the OMMU is responsible for issuing identification cards to qualified patients and caregivers. Section 381.986, Florida Statutes, permits the legal use of marijuana for medical purposes when a qualified patient is diagnosed with at least one of the statutorily defined qualifying medical conditions.

The OMMU works daily to provide qualified patients, caregivers, and physicians the information and resources they need to access Florida's medical marijuana program. The OMMU contracts with a vendor to process patient and caregiver applications, issue ID cards to approved applicants, and operate a call center to provide customer service to Florida residents seeking general information related to medical marijuana use. The call center is staffed 10 hours per day from 8:00 a.m. to 6:00 p.m., Monday through Friday, excluding state holidays. The OMMU has an internal team of staff dedicated to customer service support. In addition to providing information to qualified patients and caregivers, the OMMU call center receives inquiries from qualified physicians, law enforcement personnel, and medical marijuana treatment centers on numerous topics relating to the lawful use of medical marijuana in Florida.

At the end of fiscal year 2019-2020, there were 358,122 active patients, 5,345 active caregivers, and 2,457 qualified physicians in Florida. The number of active qualified patients and caregivers increased by 120 percent and 138 percent, respectively, compared to Fiscal Year 2018-2019. The number of qualified physicians remained comparatively stable at a

growth rate of five percent.

The OMMU contracted call center received 506,965 calls from July 2018 through June 2020 at an average length of 7 minutes and 22 seconds per call. The average monthly calls received during this period is 21,124 with a minimum of 10,961 received in December 2018 and a peak of 42,086 received in June 2020. The number of calls received each month varies, but largely tracks to the number of patient and caregiver applications received in that month. In fiscal year 2019-2020, the total number of calls received each month was on average 73 percent of the total applications received monthly in that same time period.

Due to the increase in call volume at the contracted call center, the OMMU began onboarding additional full-time equivalent (FTE) staff in September 2019. The OMMU began tracking calls received internally in September 2019, and the number of calls received has increased from 1,203 to 4,013 in June 2020, which represent an increase of 234 percent. Since January 2020, the OMMU has hired, or is in the process of hiring, additional Other Personal Services (OPS) staff to absorb the increase in OMMU call center workload as a temporary solution while it seeks additional full-time equivalent positions for the 2021-2022 fiscal year.

REQUEST: The OMMU projects receiving approximately 507,000 patient and caregiver applications in the current fiscal year. The OMMU anticipates the call volume per application received to be 73 percent; therefore, the total number of calls received by the contracted vendor and OMMU call support staff is estimated at 370,143. Based on the workload calculations below, an additional 11 full-time equivalent (FTE) positions are required to timely provide qualified patients, caregivers, and physicians the information and resources they need to access Florida's medical marijuana program.

Workload Calculations: Total hours in a work year (LBR standard 1,854 hours) divided by Average Call Length (7 min 22 sec) equals 15,100 calls answered per year. Estimated Call Volume (370,143) divided by Calls Answered per Year (15,100) equals 25 staff needed to handle the estimated workload. There are 11.0 contracted staff and 3.0 Department FTE positions meaning an additional 11.0 FTE positions are needed to support the anticipated call volume at the beginning of Fiscal Year 2021-22.

The OMMU requests 11.0 FTE Regulatory Specialist I's filled at the current salary of OMMU call center staff (\$30,129) to satisfy the minimum staffing requirements of the OMMU call center based on the anticipated workload. The OMMU requests 2.0 FTE Regulatory Specialist Supervisors filled at the mid-point salary of similarly classed positions at the Department (\$36,640) to oversee the call support staff, prepare monthly quality assurance and monitoring reports, and respond to calls that are escalated by OMMU call center staff. The Department requests the standard expenses package with no travel for these positions.

BUDGET SUMMARY: The Department is requesting \$667,348 from the Salaries and Benefits category (010000), \$136,461 from the Expenses category (040000), of which \$57,577 is nonrecurring, and \$4,293 in the Transfer to DMS - HR Assessment category (107040) within the Division of Disease Control and Health Protection budget entity(64200200), Grants and Donations Trust Fund (2339), Regulation and Licensing program component (12.04.00.00.00).

AGENCY ISSUE NARRATIVE:

2021-2022 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

ISSUE TITLE: Onsite Sewage Program

CURRENT SITUATION: Senate Bill (SB) 712, referred to as The Clean Waterways Act, transfers the Onsite Sewage Program and its revenues from the Department of Health (Department) to the Department of Environmental Protection (DEP) effective July 1, 2021. The transfer of the Onsite Sewage Program from the Department to DEP will be completed with a type two transfer. The Department's, Bureau of Environmental Health, uses revenue from the Onsite Sewage Program, in conjunction with other Environmental Health fees, to provide the regulatory management and statewide database support for statutorily mandated Environmental Health programs. These programs are stated in Florida Statutes Chapter 381.006 Sections (1), (5), (6), and (16), Chapter 381.0075 and Florida Administrative Code Chapters 64E-8 (Limited Use Drinking Water Systems), 64E-11 (Food Hygiene), 64E-12 (Community Based Residential Facilities), 64E-19 (Body Piercing) and 64E-14 (Migrant Farmworker Housing). When the Onsite Sewage Program revenue transfers to DEP, funding will be needed to supplement the shortfall of fee revenues to support 5 Full-Time Equivalent (FTE) positions in the Bureau of Environmental Health.

REQUEST: The Department requests an internal fund shift to move appropriation from the Administrative Trust Fund to General Revenue. This will fund an existing Information Management Manager position that provides primary support for the database, which is expected to stay with the Department as mandated in SB 712. In addition, the Department requests funding to support four existing FTEs that provide programmatic support for other Central Office Environmental Health programs needed as a result of the Onsite Sewage Program revenue loss. The total request for the 5 FTEs is \$398,585.

BUDGET SUMMARY: The Department requests a total of \$398,585 in General Revenue (1000) to support 5.0 existing FTE in the Bureau of Environmental Health, within the Disease Control and Health Protection Budget Entity (64200200) in the following categories:

General Revenue (1000)
 Program Component (13.02.00.00.00)

AGENCY ISSUE NARRATIVE:
 2021-2022 BUDGET YEAR NARRATIVE: IT COMPONENT? NO
 ISSUE TITLE: Addressing the HIV Epidemic

Current Situation: The Human Immunodeficiency Virus (HIV) is a life-threatening disease that attacks the body's immune system and leaves a person vulnerable to opportunistic infections. As there is no cure for HIV, reducing the transmission of HIV, while minimizing its effect on those living with HIV, is critical. Although transmission of HIV is on a downward

trend nationally, Florida continues to be a high morbidity state with increasing diagnoses reported over the past several years. Continued increases in HIV infection in Florida places an increased stress on Florida's economy, adversely affects its local communities, and impacts Florida's health care system.

The Florida Department of Health (Department) has identified reducing transmission of HIV as one of its seven priority goals. To achieve this goal, Florida has adopted a comprehensive strategic approach to prevent HIV transmission and strengthen patient care activities which will greatly reduce the risk of further transmission of HIV from those diagnosed and living with HIV.

Testing is the first intervention in a series aimed at changing the HIV epidemic. Earlier diagnosis leads to more successful treatment. Being aware of one's status allows the opportunity to link individuals to treatment with effective antiretroviral medications. These medications lower the amount of HIV in the client's blood, which is known as suppression. The Centers for Disease Control and Prevention (CDC) estimates that in 2018 there were 17,700 Floridians living with HIV that were unaware of their HIV status.

Starting in December 2018, Pre-Exposure Prophylaxis (PrEP) services became available in all of Florida's 67 County Health Departments (CHD). PrEP is a program that provides access to an antiretroviral medication which will prevent the infection of HIV for persons who do not have HIV. The Department's PrEP program is focused on screening for HIV, sexually transmitted infections (STI), and offering access to the medication immediately for appropriate individuals.

The United States Department of Health and Human Services also initiated a plan to mitigate the spread of HIV and broaden the awareness of useful resources available to citizens. The proposed initiative, "Ending the HIV Epidemic (EHE): A Plan for America", seeks to reduce new HIV transmissions 90% by the year 2030.

The Plan for America to end the HIV epidemic revolves around four pillars; diagnosis, treatment, prevention, and response and a strategy that pulls them all together: strengthening the public health workforce. In order to reach the national 90% reduction goal, there needs to be a reduction of new HIV cases from 4,906 new HIV diagnoses in Florida (2018) to fewer than 400, to hit the estimated 2030 target for Florida. This will require a focused, statewide effort.

Request: The Department has a need to increase its infrastructure to support the statewide advancement of efforts to end the HIV epidemic in our state. The implementation of PrEP in Florida's 67 CHD's has added a workload to clinical providers. The Department is requesting funding for 17 additional Advanced Registered Nurse Practitioners (ARNPs) to support clinical efforts with PrEP. The CDC guidelines for PrEP treatment includes a clinic visit every 90 days to be screened for STI including HIV. ARNPs will support the Department's STI and Family Planning clinics to ensure the following services are delivered:

1. Conduct Health Screenings
2. Order diagnostic tests

WORKLOAD - ADDRESSING THE HUMAN
 IMMUNODEFICIENCY VIRUS INFECTION
 (HIV) EPIDEMIC IN FLORIDA 3000760

3. Conduct physical health exams
4. Order medications
5. Provide STI treatment (injections) as needed
6. Provide antiretrovirals to individuals diagnosed with HIV
7. Provide telehealth services to other STI and Family Planning clinics within the Department as needed.

Additional personnel in the higher morbidity areas of the state will increase the capacity of CHD's STI and/or Family Planning clinics to screen, prescribe medication, navigate, and clinically monitor clients receiving PrEP. The following is the proposed allocation of Full-Time Equivalent (FTE) positions to the counties with the highest HIV rates.

- Broward 2 FTE
- Duval 2 FTE
- Hillsborough 2 FTE
- Lee 2 FTE
- Miami-Dade 2 FTE
- Orange 2 FTE
- Palm Beach 2 FTE
- Pinellas 2 FTE
- Brevard 1 FTE

The Integrated HIV Surveillance and Prevention grant received by the Department from the CDC does not allow for payment of PrEP medication. The grant also does not allow for certain laboratory costs associated with maintaining clients on PrEP, nor can it be used to fund personnel costs for the provision of PrEP medication and recommended clinical care associated with PrEP.

The Ending the Epidemic grant received by the Department from the CDC may be used to support limited personnel costs related to the provision of PrEP medication if coupled with other supportive PrEP services, i.e. eligibility assessments, risk reduction education, referral/navigation support to other essential services, etc. These activities must be a well-defined set of duties that are in addition to writing prescriptions and provision of clinical care. Other sources of funding are needed to support any duties specifically related to clinical care. CDC funds cannot be used to cover the costs of antiretroviral medication, including PrEP and clinical care.

Budget Summary: The Department requests \$1,417,088 (1,341,795 recurring; \$75,293 non recurring) in General Revenue (1000), in the Disease Control and Health Protection budget entity (64200200), in the Grants and Aid HIV/AIDS Prevention and Treatment category (050028). The Department plans to use this funding to support 17 vacant FTE's in the County Health Departments Local Health Needs budget entity (64200700).

The Department request double budget authority in the County Health Department Trust Fund (2141), in the County Health

AGENCY ISSUE NARRATIVE:

2021-2022 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

Issue Title: Epidemiology Infrastructure and Clinical Laboratory Capacity

CURRENT SITUATION: The role of the Florida's Department of Health (Department) Division of Disease Control and Health Protection is to help the state identify and monitor the occurrence of known infectious disease, identify newly emerging infectious diseases, and identify and respond to outbreaks. The ability for state health agencies to quickly detect and respond to infectious diseases depend on having a strong public health infrastructure in place. Infrastructure is the foundation for delivering, planning, and evaluating public health services.

Both our Nation's and Florida's experience with SARS-CoV-2 (COVID-19) since January 2020 has demonstrated the need for a more robust professional public health epidemiology infrastructure. The Department has responded to a growing number of infectious disease and related public health emergencies over the past few years. These have included extended responses

to Ebola (2014), Zika (2016-2017), Hepatitis A (2018-ongoing), and SARS-CoV-2 (2020-ongoing) viral outbreaks, and a variety of health care associated infections. Such threats are likely to continue and are of concern to Florida's large population with underlying health conditions and older residents. According to the U.S. Census Bureau, (1) 32.5% of Florida's population will be 60 and older by 2030, (2) over 13.1 million have chronic medical conditions, (3) and in a May 2020 survey of states with the most vulnerable population, Florida ranked number one.

To protect Florida's diverse populations, the public health epidemiology infrastructure currently focuses on supporting County Health Departments (CHD), infectious disease prevention, surveillance, education, and investigations. An effective response to public health threats depend on a skilled and experienced work force. To ensure that the public health work in the state can be effectively performed, the Department's Bureau of Epidemiology and Public Health Laboratories (BPHL) relies on recruiting and retaining highly qualified public health professionals.

Request: The national COVID-19 pandemic has demonstrated an even greater need to build and sustain a professional epidemiological public health workforce, focused on infectious diseases and protection of our growing diverse population in Florida. The increasing volume of work due to infectious diseases has added an increased workload for state laboratory staff, epidemiologist and the CHDs. The Department requests resources that will sustain ongoing core public health functions to protect Florida's largest and most vulnerable populations from infectious disease threats now and into the future. The Department requests funding for a total of 68 FTE for the increased workload for Disease Control and Health Protection budget entity (64200200):

General Revenue (1000)	(Laboratory Services Program Component 16.02.02.00.00)
Maintenance Mechanic	1.0 FTE
Biological Administrator II-SES	2.0 FTE
Government Analyst II	2.0 FTE
Data Processing Manager	1.0 FTE
Systems Programming Consultant	2.0 FTE
Biological Scientist IV	5.0 FTE
Senior Web Page Design Specialist	1.0 FTE

14 positions are being requested in General Revenue for the Bureau of Public Health Laboratories in Jacksonville. These positions will provide administrative functions by supporting the Jacksonville laboratory operations to expand and coordinate activities related to infectious diseases and maintain laboratory compliance and certification with federal and state regulations.

Bureau of Epidemiology
 Double Budget: General Revenue (1000) and County Health Department Trust Fund (2141)
 County Health Departments Program Component (13.06.00.00.00)
 Biological Scientist IV - 54.0 FTE (Existing FTEs)

Epidemiological resources at the CHDs are sparse. These requested positions will serve various counties throughout the state. These positions will serve as intermediate-level professional epidemiologists responsible for carrying out a broad and complex range of investigative and analytical epidemiologic activities related to the surveillance, detection, and prevention of diseases and injuries. They will work independently or as an experienced team or project member, providing epidemiologic expertise for specific programs or more complex individual epidemiologic analyses. This high level of epidemiologic work includes developing and designing methods of collecting, analyzing, and disseminating data and requires a broad understanding of program processes and methods for prevention, intervention, and control of diseases of public health importance.

These additional positions will contribute to the critical need for Florida to enhance and sustain the epidemiological infrastructure. These positions will help quickly identify emerging public health threats to Florida, guide community efforts to prevent and control disease spread, and have the capacity to quickly deploy resources to support CHDs and community efforts with needed operational and technical assistance.

BUDGET SUMMARY: The Department requests \$6,893,044 in General Revenue (1000) in the Disease Control and Health Protection budget entity (64200200), as follows:

Disease Control and Health Protection budget entity (64200200)
 Bureau of Public Health Laboratories
 General Revenue (1000) (Laboratory Services Program Component 16.02.02.00.00)
 Salary Rate: 830,389 units of rate transferred from County Health Departments Local Health Needs budget entity
 Salaries and Benefits (010000) \$1,183,912

AGENCY ISSUE NARRATIVE:

2021-2022 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

AGENCY ISSUE NARRATIVE:

2021-2022 BUDGET YEAR NARRATIVE: IT COMPONENT? NO

ISSUE TITLE: Bureau of Public Health Laboratory Onboarding Medical Marijuana Testing

Current Situation: The Office of Medical Marijuana Use (OMMU) within the Department of Health (Department) administers the statewide Medical Marijuana Use Program. The OMMU has the mission of providing a regulatory framework for the cultivation, processing, transportation and dispensing of low-tetrahydrocannabinol (THC) cannabis and full-potency medical marijuana. Section 381.986, Florida Statutes, permits the legal use of marijuana for medical purposes when a qualified patient is diagnosed with at least one of the statutorily defined qualifying medical conditions. It is unlawful for a qualified patient or caregiver to obtain marijuana or a marijuana delivery device for medical purposes from any person or business entity other than a medical marijuana treatment center (MMTC) licensed by the Department pursuant to 381.986(8), F.S.

MARIJUANA TESTING - ADD							3000820

MMTCs are the only entities legally authorized in Florida to cultivate, process, transport, and dispense marijuana and marijuana delivery devices to qualified patients and caregivers. MMTCs are vertically integrated business entities with sole control over the cultivation, processing, transportation, and dispensation of medical marijuana, including low-THC cannabis as defined in section 381.986(1)(e), F.S., and marijuana delivery devices in Florida. Licensed MMTCs receive authorization from the Department to cultivate, process, and dispense marijuana; and all MMTC dispensing facilities must be authorized individually before an MMTC is permitted to dispense marijuana and marijuana delivery devices to qualified patients and caregivers. MMTCs must contract with Department-certified marijuana testing laboratories to analyze samples of marijuana to ensure the safety and potency of the medical marijuana products prior to sale at the MMTCs' dispensing facility.

Pursuant to 381.986(8)(e)11.d., F.S., the Department may select a random sample from edibles available for purchase in a dispensing facility and test to determine that the edible meets statutory potency requirements, is safe for human consumption, and the labeling of the tetrahydrocannabinol and cannabidiol concentration is accurate. MMTCs must recall edibles, including all edibles made from the same batch of marijuana, which fail to meet health and safety requirements in Florida Statutes and Department rule. The Department anticipates adopting regulatory guidance for the production and dispensation of edible products in the 2020-2021 fiscal year and begin preparation for implementation of the statutorily authorized testing of edible products at the beginning of fiscal year 2021-2022.

Request: The Bureau of Public Health Laboratories (BPHL) is requesting appropriation and staff to support the on-boarding of Medical Marijuana Laboratory Testing at the Jacksonville Public Health Laboratory. The Jacksonville laboratory will conduct testing of random samples of edibles selected by the Department from MMTC dispensing facilities. Testing by the Jacksonville laboratory will determine that the edible meets statutorily required potency limits, is safe for human consumption, and is labeled with the accurate concentration of THC and cannabidiol.

The Department is required to adopt rules to determine the types of contaminants that must be tested in marijuana processed by MMTCs and determine the maximum levels of each contaminant which is safe for human consumption. The Department of Agriculture and Consumer Services is required to assist the Department in developing the testing requirements for contaminants that are unsafe for human consumption in edibles. Appropriate testing is critical to demonstrate that these products do not contain harmful levels of contaminants or adulterants and are safe for public consumption. Laboratory testing may include cannabinoid testing, pesticide/fungicide, residual solvents, heavy metals, and microbiological contaminants. The Jacksonville laboratory can provide the OMMU the essential laboratory testing and analysis needed to ensure medical marijuana edible products dispensed by MMTCs are in compliance with state law and Department regulations.

Based on a workload analysis using the standard 1,854 work hours per year, the Department is requesting 8.0 full-time equivalent(FTE) positions at the Jacksonville laboratory to perform and oversee testing of medical marijuana edible products. The positions are being requested at a higher than minimum rate to recruit and retain qualified laboratory

scientists and related technical personnel. The positions are being requested at the midpoint of the pay grade because of the level of expertise and technical competency needed for directing, supervising, and operating a medical marijuana laboratory. The laboratory will be required to obtain International Organization for Standardization (ISO) 17025 certification and laboratory staff must be capable to meet all proficiency requirements for receiving (chain-of-custody), processing, testing, reviewing data, and accurate reporting of test results. The personnel will be required to maintain quality standards for operating as an accredited environmental chemistry and biological laboratory, which would be an expectation as the State of Florida verification laboratory for all laboratories operating under this program. Accreditation standards meet or exceed the regulatory requirements of certification and provide a public assurance of the accuracy and reliability of test results.

- * 2.0 FTE Medical Laboratory Scientist III (Salary \$49,623)
 - Performing microbiological culture and identification analyses
 - Communicating with supervisor in performance of assigned duties
 - Working with compliance officer (Sr Mgmt Analyst II) to meet regulatory requirements
- * 1.0 FTE Medical Laboratory Scientist IV-SES (Salary \$63,531)
 - Supervision and oversight of microbiological analyses
 - Supervision of technical staff
 - Communicating with chemistry administrator in performance of assigned duties and projects
 - Working with compliance officer (Sr Mgmt Analyst II) to meet regulatory requirements
- * 1.0 FTE Chemist II (Salary \$43,941)
 - Performing chemical analyses
 - Communicating with supervisor in performance of assigned duties
 - Processing shipments and triage (receipt of samples)
- * 2.0 FTE Chemist III (Salary \$52,941)
 - Performing chemical analyses
 - Communicating with supervisor in performance of assigned duties
 - Working with compliance officer (Sr Mgmt Analyst II) to meet regulatory requirements
- * 1.0 FTE Chemist Administrator-SES (Salary \$63,531)
 - Administration and management of the Medical Marijuana Testing Program
 - Communicating with supervisor and leadership regarding medical marijuana testing
 - Working with compliance officer (Sr Mgmt Analyst II) to meet regulatory requirements
 - Oversight of the procurement of equipment and supplies
- * 1.0 FTE Senior Management Analyst II (Salary \$68,856)

AGENCY ISSUE NARRATIVE:

2021-2022 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

Issue Title: Epidemiology Infrastructure and Clinical Laboratory Capacity

CURRENT SITUATION: The role of the Florida's Department of Health (Department) Division of Disease Control and Health Protection is to help the state identify and monitor the occurrence of known infectious disease, identify newly emerging infectious diseases, and identify and respond to outbreaks. The ability for state health agencies to quickly detect and respond to infectious diseases depend on having a strong public health infrastructure in place. Infrastructure is the foundation for delivering, planning, and evaluating public health services.

Both our Nation's and Florida's experience with SARS-CoV-2 (COVID-19) since January 2020 has demonstrated the need for a more robust professional public health epidemiology infrastructure. The Department has responded to a growing number of infectious disease and related public health emergencies over the past few years. These have included extended responses to Ebola (2014), Zika (2016-2017), Hepatitis A (2018-ongoing), and SARS-CoV-2 (2020-ongoing) viral outbreaks, and a variety of health care associated infections. Such threats are likely to continue and are of concern to Florida's large population with underlying health conditions and older residents. According to the U.S. Census Bureau, (1) 32.5% of Florida's population will be 60 and older by 2030, (2) over 13.1 million have chronic medical conditions, (3) and in a May 2020 survey of states with the most vulnerable population, Florida ranked number one.

To protect Florida's diverse populations, the public health epidemiology infrastructure currently focuses on supporting County Health Departments (CHD), infectious disease prevention, surveillance, education, and investigations. An effective response to public health threats depend on a skilled and experienced work force. To ensure that the public health work in the state can be effectively performed, the Department's Bureau of Epidemiology and Public Health Laboratories (BPHL) relies on recruiting and retaining highly qualified public health professionals.

Request: The national COVID-19 pandemic has demonstrated an even greater need to build and sustain a professional epidemiological public health workforce, focused on infectious diseases and protection of our growing diverse population in Florida. The increasing volume of work due to infectious diseases has added an increased workload for state laboratory staff, epidemiologist and the CHDs. The Department requests resources that will sustain ongoing core public health functions to protect Florida's largest and most vulnerable populations from infectious disease threats now and into the future. The Department requests funding for a total of 68 FTE for the increased workload for Disease Control and Health Protection budget entity (64200200):

General Revenue (1000) (Laboratory Services Program Component 16.02.02.00.00)
 Maintenance Mechanic 1.0 FTE
 Biological Administrator II-SES 2.0 FTE
 Government Analyst II 2.0 FTE
 Data Processing Manager 1.0 FTE
 Systems Programming Consultant 2.0 FTE
 Biological Scientist IV 5.0 FTE
 Senior Web Page Design Specialist 1.0 FTE

14 positions are being requested in General Revenue for the Bureau of Public Health Laboratories in Jacksonville. These positions will provide administrative functions by supporting the Jacksonville laboratory operations to expand and coordinate activities related to infectious diseases and maintain laboratory compliance and certification with federal and state regulations.

Bureau of Epidemiology
 Double Budget: General Revenue (1000) and County Health Department Trust Fund (2141)
 County Health Departments Program Component (13.06.00.00.00)
 Biological Scientist IV - 54.0 FTE (Existing FTEs)

Epidemiological resources at the CHDs are sparse. These requested positions will serve various counties throughout the state. These positions will serve as intermediate-level professional epidemiologists responsible for carrying out a broad and complex range of investigative and analytical epidemiologic activities related to the surveillance, detection, and prevention of diseases and injuries. They will work independently or as an experienced team or project member, providing epidemiologic expertise for specific programs or more complex individual epidemiologic analyses. This high level of epidemiologic work includes developing and designing methods of collecting, analyzing, and disseminating data and requires a broad understanding of program processes and methods for prevention, intervention, and control of diseases of public health importance.

These additional positions will contribute to the critical need for Florida to enhance and sustain the epidemiological infrastructure. These positions will help quickly identify emerging public health threats to Florida, guide community

efforts to prevent and control disease spread, and have the capacity to quickly deploy resources to support CHDs and community efforts with needed operational and technical assistance.

BUDGET SUMMARY: The Department requests \$6,893,044 in General Revenue (1000) in the Disease Control and Health Protection budget entity (64200200), as follows:

Disease Control and Health Protection budget entity (64200200)
 Bureau of Public Health Laboratories
 General Revenue (1000) (Laboratory Services Program Component 16.02.02.00.00)
 Salary Rate: 830,389 units of rate transferred from County Health Departments Local Health Needs budget entity
 Salaries and Benefits (010000) \$1,183,912
 Expenses (040000) \$132,982
 Nonrecurring Expenses (040000) \$62,006
 Human Resources (107040) \$4,623
 General Revenue = \$1,321,517 recurring and \$62,006 nonrecurring
 Total General Revenue: \$1,383,523

Disease Control and Health Protection budget entity (64200200)
 General Revenue (1000), County Health Departments Program Component (13.06.00.00.00)
 Recurring Contribution to County Health Units category (050329) \$5,509,521
 General Revenue = \$5,270,355 recurring and \$239,166 nonrecurring
 Total General Revenue: \$5,509,521

County Health Department Local Health Needs (64200700)
 County Health Department Trust Fund (2141) County Health Departments Program Component (13.06.00.00.00)
 Salaries and Benefits (010000) \$4,930,018
 Expenses (040000) \$327,672
 Nonrecurring Expenses (040000) \$239,166
 Human Resources (107040) \$12,665
 County Health Departments Trust Fund = \$5,270,355 recurring and \$239,166 nonrecurring
 Total County Health Departments Trust Fund \$5,509,521

2021-2022 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

ISSUE TITLE: Addressing the HIV Epidemic

Current Situation: The Human Immunodeficiency Virus (HIV) is a life-threatening disease that attacks the body's immune system and leaves a person vulnerable to opportunistic infections. As there is no cure for HIV, reducing the transmission of HIV, while minimizing its effect on those living with HIV, is critical. Although transmission of HIV is on a downward trend nationally, Florida continues to be a high morbidity state with increasing diagnoses reported over the past several years. Continued increases in HIV infection in Florida places an increased stress on Florida's economy, adversely affects its local communities, and impacts Florida's health care system.

The Florida Department of Health (Department) has identified reducing transmission of HIV as one of its seven priority goals. To achieve this goal, Florida has adopted a comprehensive strategic approach to prevent HIV transmission and strengthen patient care activities which will greatly reduce the risk of further transmission of HIV from those diagnosed and living with HIV.

Testing is the first intervention in a series aimed at changing the HIV epidemic. Earlier diagnosis leads to more successful treatment. Being aware of one's status allows the opportunity to link individuals to treatment with effective antiretroviral medications. These medications lower the amount of HIV in the client's blood, which is known as suppression. The Centers for Disease Control and Prevention (CDC) estimates that in 2018 there were 17,700 Floridians living with HIV that were unaware of their HIV status.

Starting in December 2018, Pre-Exposure Prophylaxis (PrEP) services became available in all of Florida's 67 County Health Departments (CHD). PrEP is a program that provides access to an antiretroviral medication which will prevent the infection of HIV for persons who do not have HIV. The Department's PrEP program is focused on screening for HIV, sexually transmitted infections (STI), and offering access to the medication immediately for appropriate individuals.

The United States Department of Health and Human Services also initiated a plan to mitigate the spread of HIV and broaden the awareness of useful resources available to citizens. The proposed initiative, "Ending the HIV Epidemic (EHE): A Plan for America", seeks to reduce new HIV transmissions 90% by the year 2030.

The Plan for America to end the HIV epidemic revolves around four pillars; diagnosis, treatment, prevention, and response and a strategy that pulls them all together: strengthening the public health workforce. In order to reach the national 90% reduction goal, there needs to be a reduction of new HIV cases from 4,906 new HIV diagnoses in Florida (2018) to fewer than 400, to hit the estimated 2030 target for Florida. This will require a focused, statewide effort.

Request: The Department has a need to increase its infrastructure to support the statewide advancement of efforts to end the HIV epidemic in our state. The implementation of PrEP in Florida's 67 CHD's has added a workload to clinical providers. The Department is requesting funding for 17 additional Advanced Registered Nurse Practitioners (ARNPs) to support clinical efforts with PrEP. The CDC guidelines for PrEP treatment includes a clinic visit every 90 days to be screened for STI including HIV. ARNPs will support the Department's STI and Family Planning clinics to ensure the following services are delivered:

1. Conduct Health Screenings
2. Order diagnostic tests
3. Conduct physical health exams
4. Order medications
5. Provide STI treatment (injections) as needed
6. Provide antiretrovirals to individuals diagnosed with HIV
7. Provide telehealth services to other STI and Family Planning clinics within the Department as needed.

Additional personnel in the higher morbidity areas of the state will increase the capacity of CHD's STI and/or Family Planning clinics to screen, prescribe medication, navigate, and clinically monitor clients receiving PrEP. The following is the proposed allocation of Full-Time Equivalent (FTE) positions to the counties with the highest HIV rates.

-	Broward	2 FTE
-	Duval	2 FTE
-	Hillsborough	2 FTE
-	Lee	2 FTE
-	Miami-Dade	2 FTE
-	Orange	2 FTE
-	Palm Beach	2 FTE
-	Pinellas	2 FTE
-	Brevard	1 FTE

The Integrated HIV Surveillance and Prevention grant received by the Department from the CDC does not allow for payment of PrEP medication. The grant also does not allow for certain laboratory costs associated with maintaining clients on PrEP, nor can it be used to fund personnel costs for the provision of PrEP medication and recommended clinical care associated with PrEP.

The Ending the Epidemic grant received by the Department from the CDC may be used to support limited personnel costs related to the provision of PrEP medication if coupled with other supportive PrEP services, i.e. eligibility assessments, risk reduction education, referral/navigation support to other essential services, etc. These activities must be a well-defined set of duties that are in addition to writing prescriptions and provision of clinical care. Other sources of funding are needed to support any duties specifically related to clinical care. CDC funds cannot be used to cover the costs of antiretroviral medication, including PrEP and clinical care.

Budget Summary: The Department requests \$1,417,088 (1,341,795 recurring; \$75,293 non recurring) in General Revenue (1000), in the Disease Control and Health Protection budget entity (64200200), in the Grants and Aid HIV/AIDS Prevention and Treatment category (050028). The Department plans to use this funding to support 17 vacant FTE's in the County Health Departments Local Health Needs budget entity (64200700).

The Department request double budget authority in the County Health Department Trust Fund (2141), in the County Health Department Local Health Needs budget entity (64200700), in the following categories:

Salaries and Benefits (010000) - \$1,139,995
 Expense (040000) - \$273,105 (\$75,293 non-recurring)
 Transfer to Department of Management Services Human Resources Services Purchased Per Statewide Contract (107040) - \$3,988

LINKAGE TO THE GOVERNOR'S PRIORITIES: 4. Health Care: Promote innovation in healthcare that reduces the cost of medical procedures and services and increases access to care for Floridians.

FLORIDA STRATEGIC PLAN: (6.2) Ensure Floridian in all communities and life stages have opportunities to achieve healthier outcomes and societal contributions.

state entity responsible for regulating the cultivation, processing, transportation, and dispensation of marijuana in Florida. Additionally, the OMMU is responsible for issuing identification cards to qualified patients and caregivers. Section 381.986, Florida Statutes, permits the legal use of marijuana for medical purposes when a qualified patient is diagnosed with at least one of the statutorily defined qualifying medical conditions.

The OMMU works daily to provide qualified patients, caregivers, and physicians the information and resources they need to access Florida's medical marijuana program. The OMMU contracts with a vendor to process patient and caregiver applications, issue ID cards to approved applicants, and operate a call center to provide customer service to Florida residents seeking general information related to medical marijuana use. The call center is staffed 10 hours per day from 8:00 a.m. to 6:00 p.m., Monday through Friday, excluding state holidays. The OMMU has an internal team of staff dedicated to customer service support. In addition to providing information to qualified patients and caregivers, the OMMU call center receives inquiries from qualified physicians, law enforcement personnel, and medical marijuana treatment centers on numerous topics relating to the lawful use of medical marijuana in Florida.

At the end of fiscal year 2019-2020, there were 358,122 active patients, 5,345 active caregivers, and 2,457 qualified physicians in Florida. The number of active qualified patients and caregivers increased by 120 percent and 138 percent, respectively, compared to Fiscal Year 2018-2019. The number of qualified physicians remained comparatively stable at a growth rate of five percent.

The OMMU contracted call center received 506,965 calls from July 2018 through June 2020 at an average length of 7 minutes and 22 seconds per call. The average monthly calls received during this period is 21,124 with a minimum of 10,961 received in December 2018 and a peak of 42,086 received in June 2020. The number of calls received each month varies, but largely tracks to the number of patient and caregiver applications received in that month. In fiscal year 2019-2020, the total number of calls received each month was on average 73 percent of the total applications received monthly in that same time period.

Due to the increase in call volume at the contracted call center, the OMMU began onboarding additional full-time equivalent (FTE) staff in September 2019. The OMMU began tracking calls received internally in September 2019, and the number of calls received has increased from 1,203 to 4,013 in June 2020, which represent an increase of 234 percent. Since January 2020, the OMMU has hired, or is in the process of hiring, additional Other Personal Services (OPS) staff to absorb the increase in OMMU call center workload as a temporary solution while it seeks additional full-time equivalent positions for the 2021-2022 fiscal year.

REQUEST: The OMMU projects receiving approximately 507,000 patient and caregiver applications in the current fiscal year. The OMMU anticipates the call volume per application received to be 73 percent; therefore, the total number of calls received by the contracted vendor and OMMU call support staff is estimated at 370,143. Based on the workload calculations below, an additional 11 full-time equivalent (FTE) positions are required to timely provide qualified patients, caregivers, and physicians the information and resources they need to access Florida's medical marijuana program.

WORKLOAD						3000000
WORKLOAD - OFFICE OF MEDICAL						
MARIJUANA USE - DEDUCT						3000790

Workload Calculations: Total hours in a work year (LBR standard 1,854 hours) divided by Average Call Length (7 min 22 sec) equals 15,100 calls answered per year. Estimated Call Volume (370,143) divided by Calls Answered per Year (15,100) equals 25 staff needed to handle the estimated workload. There are 11.0 contracted staff and 3.0 Department FTE positions meaning an additional 11.0 FTE positions are needed to support the anticipated call volume at the beginning of Fiscal Year 2021-22.

The OMMU requests 11.0 FTE Regulatory Specialist I's filled at the current salary of OMMU call center staff (\$30,129) to satisfy the minimum staffing requirements of the OMMU call center based on the anticipated workload. The OMMU requests 2.0 FTE Regulatory Specialist Supervisors filled at the mid-point salary of similarly classed positions at the Department (\$36,640) to oversee the call support staff, prepare monthly quality assurance and monitoring reports, and respond to calls that are escalated by OMMU call center staff. The Department requests the standard expenses package with no travel for these positions.

BUDGET SUMMARY: The Department is requesting \$667,348 from the Salaries and Benefits category (010000), \$136,461 from the Expenses category (040000), of which \$57,577 is nonrecurring, and \$4,293 in the Transfer to DMS - HR Assessment category (107040) within the Division of Disease Control and Health Protection budget entity(64200200), Grants and Donations Trust Fund (2339), Regulation and Licensing program component (12.04.00.00.00).

The Department requests to transfer 13 FTE's, with the equivalent units of rate of 404,698, from the County Health Department Local Health Needs budget entity (64200700), to the Disease Control and Health Protection budget entity (64200200).

	FTE	RATE

AGENCY ISSUE NARRATIVE:

2021-2022 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

ISSUE TITLE: Bureau of Public Health Laboratory Onboarding Medical Marijuana Testing

Current Situation: The Office of Medical Marijuana Use (OMMU) within the Department of Health (Department) administers the statewide Medical Marijuana Use Program. The OMMU has the mission of providing a regulatory framework for the cultivation, processing, transportation and dispensing of low-tetrahydrocannabinol (THC) cannabis and full-potency medical marijuana. Section 381.986, Florida Statutes, permits the legal use of marijuana for medical purposes when a qualified patient is diagnosed with at least one of the statutorily defined qualifying medical conditions. It is unlawful for a qualified patient or caregiver to obtain marijuana or a marijuana delivery device for medical purposes from any person or business entity other than a medical marijuana treatment center (MMTC) licensed by the Department pursuant to 381.986(8), F.S.

MMTCs are the only entities legally authorized in Florida to cultivate, process, transport, and dispense marijuana and marijuana delivery devices to qualified patients and caregivers. MMTCs are vertically integrated business entities with sole control over the cultivation, processing, transportation, and dispensation of medical marijuana, including low-THC cannabis as defined in section 381.986(1)(e), F.S., and marijuana delivery devices in Florida. Licensed MMTCs receive authorization from the Department to cultivate, process, and dispense marijuana; and all MMTC dispensing facilities must be authorized individually before an MMTC is permitted to dispense marijuana and marijuana delivery devices to qualified patients and caregivers. MMTCs must contract with Department-certified marijuana testing laboratories to analyze samples of marijuana to ensure the safety and potency of the medical marijuana products prior to sale at the MMTCs' dispensing facility.

Pursuant to 381.986(8)(e)11.d., F.S., the Department may select a random sample from edibles available for purchase in a dispensing facility and test to determine that the edible meets statutory potency requirements, is safe for human consumption, and the labeling of the tetrahydrocannabinol and cannabidiol concentration is accurate. MMTCs must recall edibles, including all edibles made from the same batch of marijuana, which fail to meet health and safety requirements in Florida Statutes and Department rule. The Department anticipates adopting regulatory guidance for the production and dispensation of edible products in the 2020-2021 fiscal year and begin preparation for implementation of the statutorily

authorized testing of edible products at the beginning of fiscal year 2021-2022.

Request: The Bureau of Public Health Laboratories (BPHL) is requesting appropriation and staff to support the on-boarding of Medical Marijuana Laboratory Testing at the Jacksonville Public Health Laboratory. The Jacksonville laboratory will conduct testing of random samples of edibles selected by the Department from MMTC dispensing facilities. Testing by the Jacksonville laboratory will determine that the edible meets statutorily required potency limits, is safe for human consumption, and is labeled with the accurate concentration of THC and cannabidiol.

The Department is required to adopt rules to determine the types of contaminants that must be tested in marijuana processed by MMTCs and determine the maximum levels of each contaminant which is safe for human consumption. The Department of Agriculture and Consumer Services is required to assist the Department in developing the testing requirements for contaminants that are unsafe for human consumption in edibles. Appropriate testing is critical to demonstrate that these products do not contain harmful levels of contaminants or adulterants and are safe for public consumption. Laboratory testing may include cannabinoid testing, pesticide/fungicide, residual solvents, heavy metals, and microbiological contaminants. The Jacksonville laboratory can provide the OMMU the essential laboratory testing and analysis needed to ensure medical marijuana edible products dispensed by MMTCs are in compliance with state law and Department regulations.

Based on a workload analysis using the standard 1,854 work hours per year, the Department is requesting 8.0 full-time equivalent(FTE) positions at the Jacksonville laboratory to perform and oversee testing of medical marijuana edible products. The positions are being requested at a higher than minimum rate to recruit and retain qualified laboratory scientists and related technical personnel. The positions are being requested at the midpoint of the pay grade because of the level of expertise and technical competency needed for directing, supervising, and operating a medical marijuana laboratory. The laboratory will be required to obtain International Organization for Standardization (ISO) 17025 certification and laboratory staff must be capable to meet all proficiency requirements for receiving (chain-of-custody), processing, testing, reviewing data, and accurate reporting of test results. The personnel will be required to maintain quality standards for operating as an accredited environmental chemistry and biological laboratory, which would be an expectation as the State of Florida verification laboratory for all laboratories operating under this program. Accreditation standards meet or exceed the regulatory requirements of certification and provide a public assurance of the accuracy and reliability of test results.

- * 2.0 FTE Medical Laboratory Scientist III (Salary \$49,623)
 - Performing microbiological culture and identification analyses
 - Communicating with supervisor in performance of assigned duties
 - Working with compliance officer (Sr Mgmt Analyst II) to meet regulatory requirements

- * 1.0 FTE Medical Laboratory Scientist IV-SES (Salary \$63,531)
 - Supervision and oversight of microbiological analyses

AGENCY ISSUE NARRATIVE:

2021-2022 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

Title: Project Management and Technology Changes for Transition to the Florida Planning, Accounting, and Ledger Management (PALM) Solution

Current Situation: The State of Florida Accounting Information Resource (FLAIR) system is based on software developed in the 1970s and was implemented as the core of the state's financial system in 1981. Recognizing the risks and shortcomings of FLAIR, the Legislature authorized and appropriated funds to the Department of Financial Services in Fiscal Year 2013-2014 to conduct a study of replacement options. The result of this study was a recommendation to replace the core functionality of FLAIR and the Treasury Cash Management System (CMS). The replacement of FLAIR and CMS has been recognized as the Florida Planning Accounting and Ledger Management (PALM) Project.

As the Florida PALM Project advances towards the replacement of CMS and components of FLAIR, the Department of Health (Department) will need to prepare for and execute specific transition activities which will require additional resources. Starting in 2021, Florida PALM will begin to replace the CMS components, followed by the Central FLAIR functions in 2022, the FLAIR Payroll functions in January 2024, and finally, the Departmental FLAIR functions in July 2024.

Request: As a result of replacing CMS and FLAIR components over time, the Department's business systems must be analyzed to determine if they need to be modified, retired, or will not be impacted. Currently, the Department has over 100 business systems and databases that exchange data with FLAIR and CMS. The requested budget authority would fund positions to develop an analysis of current business system usage and anticipated actions such as modifications, retirements, or no action needed.

Florida PALM will be offering several standardized interfaces to exchange data with agency-maintained applications that will still be needed to support critical agency functions. The requested budget authority is needed for additional

Full-Time Equivalents (FTE) to conduct the Department's efforts to connect multiple interfaces with Florida PALM. FLAIR currently uses an antiquated batching system to exchange data with agency business systems. However, Florida PALM will offer a modern Application Program Interface (API) to process data inputs and outputs. This improved interface will require development within the Department's interface architecture, including software licenses and hardware.

During the next three years subject matter experts will be utilized to participate in the collaborative design, testing, and implementation activities for Florida PALM. The Department is requesting 4 FTE positions to provide continuity of the Department's business functions while the current staff are transitioning the current business processes and systems to Florida PALM.

The following describes the current high-level timeline of activities for the Department's transition to Florida PALM:

Conduct interface testing (CMS Wave)	November 2020- February 2021
Participate in user acceptance testing (CMS Wave)	March 2021- April 2021
Support go-live (CMS Wave)	July 2021

increasing difficulty recruiting and retaining the attorney workforce necessary to efficiently prosecute MQA's disciplinary cases. This has directly impacted PSU's ability to meet statutory requirements under Chapter 456, Florida Statutes, and achieve strategic goals for the agency and regulatory boards. Based on FY 2018-19 data, PSU had a turnover rate of 27% for attorneys.

The recurrent shortfalls in recruitment and retention are salary driven. The Bureau of Labor Statistics reports average annual salaries of \$116,850 for an attorney in Tallahassee, \$130,010 for an attorney in Florida, and \$145,300 for attorneys nationwide. Most PSU positions rank well below the 10th percentile of the national average. While these averages include attorney salaries from the private sector, review of the comparable state government attorney salaries shows that PSU also fails to offer competitive salaries amongst available state government attorney positions. Additionally, the constant pressure of student loan debt drives attorneys in public service fields to aggressively seek out promotional opportunities at other agencies, affecting PSU's ability to retain attorneys.

PSU's base salary for the staff attorney position is \$42,991.78. Not only does this fall below the statewide class code (7736) average by almost \$4,000.00, it is in the bottom 12% of the salaries offered by other agencies. The comparative salaries at other agencies and public service offices have impeded the Department of Health's (Department) efforts of recruitment and retention. For example, the average salary for State Attorneys is \$68,000, the average salary for Public Defenders is \$63,000, and other state agencies start senior attorneys at \$52,000. This is well below the base salary of \$42,991.78 for PSU attorneys at the Department of Health.

Request: MQA/PSU is requesting additional rate to mitigate difficulty with recruiting and retaining attorneys responsible for resolving MQA's disciplinary cases. PSU is responsible for the litigation of all disciplinary cases before the state licensing boards, including those cases that represent a danger to public safety, such as repeated medical malpractice, sexual misconduct, drug diversion, and inappropriate prescription practices. The increase in salary and benefits will be absorbed within current salary and benefits authority.

Budget Summary: The Department requests an increase of 274,915 units of rate in the Medical Quality Assurance budget entity (64400100), and a decrease of 274,915 units of rate from County Health Department Local Health Needs budget entity (64200700).

AGENCY ISSUE NARRATIVE:

2021-2022 BUDGET YEAR NARRATIVE: IT COMPONENT? NO
 Issue Title: Epidemiology Infrastructure and Clinical Laboratory Capacity

CURRENT SITUATION: The role of the Florida's Department of Health (Department) Division of Disease Control and Health Protection is to help the state identify and monitor the occurrence of known infectious disease, identify newly emerging infectious diseases, and identify and respond to outbreaks. The ability for state health agencies to quickly detect and respond to infectious diseases depend on having a strong public health infrastructure in place. Infrastructure is the foundation for delivering, planning, and evaluating public health services.

Both our Nation's and Florida's experience with SARS-CoV-2 (COVID-19) since January 2020 has demonstrated the need for a more robust professional public health epidemiology infrastructure. The Department has responded to a growing number of infectious disease and related public health emergencies over the past few years. These have included extended responses to Ebola (2014), Zika (2016-2017), Hepatitis A (2018-ongoing), and SARS-CoV-2 (2020-ongoing) viral outbreaks, and a variety of health care associated infections. Such threats are likely to continue and are of concern to Florida's large population with underlying health conditions and older residents. According to the U.S. Census Bureau, (1) 32.5% of Florida's population will be 60 and older by 2030, (2) over 13.1 million have chronic medical conditions, (3) and in a

ADD				5500040

May 2020 survey of states with the most vulnerable population, Florida ranked number one.

To protect Florida's diverse populations, the public health epidemiology infrastructure currently focuses on supporting County Health Departments (CHD), infectious disease prevention, surveillance, education, and investigations. An effective response to public health threats depend on a skilled and experienced work force. To ensure that the public health work in the state can be effectively performed, the Department's Bureau of Epidemiology and Public Health Laboratories (BPHL) relies on recruiting and retaining highly qualified public health professionals.

Request: The national COVID-19 pandemic has demonstrated an even greater need to build and sustain a professional epidemiological public health workforce, focused on infectious diseases and protection of our growing diverse population in Florida. The increasing volume of work due to infectious diseases has added an increased workload for state laboratory staff, epidemiologist and the CHDs. The Department requests resources that will sustain ongoing core public health functions to protect Florida's largest and most vulnerable populations from infectious disease threats now and into the future. The Department requests funding for a total of 68 FTE for the increased workload for Disease Control and Health Protection budget entity (64200200):

General Revenue (1000)	(Laboratory Services Program Component 16.02.02.00.00)
Maintenance Mechanic	1.0 FTE
Biological Administrator II-SES	2.0 FTE
Government Analyst II	2.0 FTE
Data Processing Manager	1.0 FTE
Systems Programming Consultant	2.0 FTE
Biological Scientist IV	5.0 FTE
Senior Web Page Design Specialist	1.0 FTE

14 positions are being requested in General Revenue for the Bureau of Public Health Laboratories in Jacksonville. These positions will provide administrative functions by supporting the Jacksonville laboratory operations to expand and coordinate activities related to infectious diseases and maintain laboratory compliance and certification with federal and state regulations.

Bureau of Epidemiology
 Double Budget: General Revenue (1000) and County Health Department Trust Fund (2141)
 County Health Departments Program Component (13.06.00.00.00)
 Biological Scientist IV - 54.0 FTE (Existing FTEs)

Epidemiological resources at the CHDs are sparse. These requested positions will serve various counties throughout the state. These positions will serve as intermediate-level professional epidemiologists responsible for carrying out a broad and complex range of investigative and analytical epidemiologic activities related to the surveillance, detection,

and prevention of diseases and injuries. They will work independently or as an experienced team or project member, providing epidemiologic expertise for specific programs or more complex individual epidemiologic analyses. This high level of epidemiologic work includes developing and designing methods of collecting, analyzing, and disseminating data and requires a broad understanding of program processes and methods for prevention, intervention, and control of diseases of public health importance.

These additional positions will contribute to the critical need for Florida to enhance and sustain the epidemiological infrastructure. These positions will help quickly identify emerging public health threats to Florida, guide community efforts to prevent and control disease spread, and have the capacity to quickly deploy resources to support CHDs and community efforts with needed operational and technical assistance.

BUDGET SUMMARY: The Department requests \$6,893,044 in General Revenue (1000) in the Disease Control and Health Protection budget entity (64200200), as follows:

Disease Control and Health Protection budget entity (64200200)
 Bureau of Public Health Laboratories
 General Revenue (1000) (Laboratory Services Program Component 16.02.02.00.00)
 Salary Rate: 830,389 units of rate transferred from County Health Departments Local Health Needs budget entity

AGENCY ISSUE NARRATIVE:

2021-2022 BUDGET YEAR NARRATIVE: IT COMPONENT? NO
 Issue Title: Epidemiology Infrastructure and Clinical Laboratory Capacity

CURRENT SITUATION: The role of the Florida's Department of Health (Department) Division of Disease Control and Health Protection is to help the state identify and monitor the occurrence of known infectious disease, identify newly emerging infectious diseases, and identify and respond to outbreaks. The ability for state health agencies to quickly detect and respond to infectious diseases depend on having a strong public health infrastructure in place. Infrastructure is the foundation for delivering, planning, and evaluating public health services.

Both our Nation's and Florida's experience with SARS-CoV-2 (COVID-19) since January 2020 has demonstrated the need for a more robust professional public health epidemiology infrastructure. The Department has responded to a growing number of infectious disease and related public health emergencies over the past few years. These have included extended responses to Ebola (2014), Zika (2016-2017), Hepatitis A (2018-ongoing), and SARS-CoV-2 (2020-ongoing) viral outbreaks, and a variety of health care associated infections. Such threats are likely to continue and are of concern to Florida's large population with underlying health conditions and older residents. According to the U.S. Census Bureau, (1) 32.5% of Florida's population will be 60 and older by 2030, (2) over 13.1 million have chronic medical conditions, (3) and in a May 2020 survey of states with the most vulnerable population, Florida ranked number one.

To protect Florida's diverse populations, the public health epidemiology infrastructure currently focuses on supporting County Health Departments (CHD), infectious disease prevention, surveillance, education, and investigations. An effective response to public health threats depend on a skilled and experienced work force. To ensure that the public health work in the state can be effectively performed, the Department's Bureau of Epidemiology and Public Health

STATE LABORATORY
 EPIDEMIOLOGY INFRASTRUCTURE AND
 CLINICAL LABORATORY CAPACITY -
 DEDUCT

Laboratories (BPHL) relies on recruiting and retaining highly qualified public health professionals.

Request: The national COVID-19 pandemic has demonstrated an even greater need to build and sustain a professional epidemiological public health workforce, focused on infectious diseases and protection of our growing diverse population in Florida. The increasing volume of work due to infectious diseases has added an increased workload for state laboratory staff, epidemiologist and the CHDs. The Department requests resources that will sustain ongoing core public health functions to protect Florida's largest and most vulnerable populations from infectious disease threats now and into the future. The Department requests funding for a total of 68 FTE for the increased workload for Disease Control and Health Protection budget entity (64200200):

General Revenue (1000) (Laboratory Services Program Component 16.02.02.00.00)
 Maintenance Mechanic 1.0 FTE
 Biological Administrator II-SES 2.0 FTE
 Government Analyst II 2.0 FTE
 Data Processing Manager 1.0 FTE
 Systems Programming Consultant 2.0 FTE
 Biological Scientist IV 5.0 FTE
 Senior Web Page Design Specialist 1.0 FTE

14 positions are being requested in General Revenue for the Bureau of Public Health Laboratories in Jacksonville. These positions will provide administrative functions by supporting the Jacksonville laboratory operations to expand and coordinate activities related to infectious diseases and maintain laboratory compliance and certification with federal and state regulations.

Bureau of Epidemiology
 Double Budget: General Revenue (1000) and County Health Department Trust Fund (2141)
 County Health Departments Program Component (13.06.00.00.00)
 Biological Scientist IV - 54.0 FTE (Existing FTEs)

Epidemiological resources at the CHDs are sparse. These requested positions will serve various counties throughout the state. These positions will serve as intermediate-level professional epidemiologists responsible for carrying out a broad and complex range of investigative and analytical epidemiologic activities related to the surveillance, detection, and prevention of diseases and injuries. They will work independently or as an experienced team or project member, providing epidemiologic expertise for specific programs or more complex individual epidemiologic analyses. This high level of epidemiologic work includes developing and designing methods of collecting, analyzing, and disseminating data and requires a broad understanding of program processes and methods for prevention, intervention, and control of diseases of public health importance.

These additional positions will contribute to the critical need for Florida to enhance and sustain the epidemiological infrastructure. These positions will help quickly identify emerging public health threats to Florida, guide community efforts to prevent and control disease spread, and have the capacity to quickly deploy resources to support CHDs and community efforts with needed operational and technical assistance.

BUDGET SUMMARY: The Department requests \$6,893,044 in General Revenue (1000) in the Disease Control and Health Protection budget entity (64200200), as follows:

Disease Control and Health Protection budget entity (64200200)

AGENCY ISSUE NARRATIVE:

2021-2022 BUDGET YEAR NARRATIVE: IT COMPONENT? NO
 ISSUE TITLE: Strengthening the State's Minority Health and Health Equity Infrastructure

CURRENT SITUATION: Many of Florida's racial or ethnic minorities face complex barriers to optimal health resulting in substantial health disparities and avoidable health care expenses. Significant racial and ethnic health disparities continue to persist in Florida. Examples include but are not limited to diabetes, prostate cancer, new cases of human immunodeficiency virus (HIV), and infant mortality rates remaining higher among Florida's racial and ethnic populations. The Office of Minority Health and Health Equity (OMHHE) works to eliminate health disparities and improve access to public health which has eluded minority populations for the past 30 plus years. The office also serves to assist the Florida Department of Health (Department) in the development and implementation of policies and programs aimed at eliminating health disparities in Florida.

INFRASTRUCTURE - ADD				6200320

A comprehensive, statewide, multi-sector approach is needed to effectively implement improvements to resources available at the local level. The OMHHE will lead this effort and work together with its more than 250 partners from diverse sectors to facilitate and coordinate limited public health resources as well as ensure Florida's minority populations are aware of and have opportunities to access these resources.

The Department's goal is to enhance the capacity of the OMHHE to develop, design, and implement programs/resources, which would reduce health disparities and advance health equity at the state and county levels. Resources that will decrease disparities may include but are not limited to:

- Case Management
- Client Services
- Personnel to provide more education to targeted populations
- Personnel to provide more outreach to targeted populations
- Increased coordination of cross-sector partnerships
- Increased training opportunities and technical assistance for internal and external partners.

These efforts include coordination of cross-sector partnerships, more communication to vulnerable populations, analysis and dissemination of relevant data, strategic planning, training, and technical assistance for staff across the agency.

REQUEST: The Department requests \$8,473,802 in General Revenue (1000), and \$5,875,760 in County Health Department Trust Fund (2141) budget authority. Funds will be used to enhance the capacity of the OMHHE and to support implementation of evidence-based health equity (which is the opportunity for all individuals regardless of race/ethnicity to obtain optimal health) improvement projects focused on racial and ethnic minority and underserved communities. This includes projects that are designed to reduce or eliminate disparities in:

- Adult and Childhood Immunizations
- Alzheimer's Disease and Related Dementias
- Cancer
- Cardiovascular Disease
- Diabetes
- HIV/AIDS
- Lupus
- Maternal and Infant Mortality
- Oral Health
- Sickle Cell Disease

Analysts, Class Code 6843, Paygrade 27) will serve as subject matter experts, support the development and implementation of county and/or regional health equity plans focused on improving the health of the most vulnerable populations. These FTE's will also provide training and technical assistance to partners across the state to identify and address inequalities within minority populations. The OMMHE has over 250 partners. Partners include but are not limited to:

- Faith-based organizations
- Community Organizations
- Universities
- Community Health Centers
- Local Urban Leagues and like organizations
- County Health Departments
- Neighborhood organizations
- City and County Governments
- Schools and Youth Organizations

Funding of up to \$5,875,760 will be awarded to County Health Departments (CHD). The funds will be used to support the development of county and/or regional health equity plans for the most vulnerable populations to address the social determinants of health and improve health status. Health equity projects are the implementation of health equity plans. Coordination and monitoring of activities will be key elements of assuring projects produce healthier communities. Allocated funding will vary based on population size, proposed initiatives, and complexity of the issues being addressed. Activities will be evaluated and reports will be developed to document project outcomes. Positions will support training efforts for Florida's certified Community Health Workers (CHWs) on various topics to minority populations. CHWs are front-line health workers who serve as liaisons between health services and communities, making it easier to provide services to hard to reach populations. This funding will support a CHW workforce.

BUDGET SUMMARY: The Department requests to transfer 4 vacant FTE's, with the equivalent units of rate of 210,000, from the County Health Department Local Health Needs budget entity (64200700), to the Administrative Support budget entity (64100200).

Administrative Support budget entity (64100200)	
Executive Direction Program Component (16.02.00.00.00)	210,000 units of Rate
County Health Department Local Needs budget entity (64200700)	
County Health Departments Program Component (13.06.00.00.00)	(210,000) units of Rate

The Department also requests a total of \$8,473,802 in General Revenue (1000), of which \$126,886 is non-recurring.

Administrative Support budget entity (64100200)
 Executive Direction Program Component (16.02.00.00.00)

disparities may include but are not limited to:

- Case Management
- Client Services
- Personnel to provide more education to targeted populations
- Personnel to provide more outreach to targeted populations
- Increased coordination of cross-sector partnerships
- Increased training opportunities and technical assistance for internal and external partners.

These efforts include coordination of cross-sector partnerships, more communication to vulnerable populations, analysis and dissemination of relevant data, strategic planning, training, and technical assistance for staff across the agency.

REQUEST: The Department requests \$8,473,802 in General Revenue (1000), and \$5,875,760 in County Health Department Trust Fund (2141) budget authority. Funds will be used to enhance the capacity of the OMMHE and to support implementation of evidence-based health equity (which is the opportunity for all individuals regardless of race/ethnicity to obtain optimal health) improvement projects focused on racial and ethnic minority and underserved communities. This includes projects that are designed to reduce or eliminate disparities in:

- Adult and Childhood Immunizations
- Alzheimer's Disease and Related Dementias
- Cancer
- Cardiovascular Disease
- Diabetes
- HIV/AIDS
- Lupus
- Maternal and Infant Mortality
- Oral Health
- Sickle Cell Disease

Four Full Time Equivalent (FTE) positions (2 Government Analysts IIs, Class Code 2225, Paygrade 26 and 2 Senior Program Analysts, Class Code 6843, Paygrade 27) will serve as subject matter experts, support the development and implementation of county and/or regional health equity plans focused on improving the health of the most vulnerable populations. These FTE's will also provide training and technical assistance to partners across the state to identify and address inequalities within minority populations. The OMMHE has over 250 partners. Partners include but are not limited to:

- Faith-based organizations
- Community Organizations
- Universities

- Community Health Centers
- Local Urban Leagues and like organizations
- County Health Departments
- Neighborhood organizations
- City and County Governments
- Schools and Youth Organizations

Funding of up to \$5,875,760 will be awarded to County Health Departments (CHD). The funds will be used to support the development of county and/or regional health equity plans for the most vulnerable populations to address the social determinants of health and improve health status. Health equity projects are the implementation of health equity plans. Coordination and monitoring of activities will be key elements of assuring projects produce healthier communities. Allocated funding will vary based on population size, proposed initiatives, and complexity of the issues being addressed. Activities will be evaluated and reports will be developed to document project outcomes. Positions will support training efforts for Florida's certified Community Health Workers (CHWs) on various topics to minority populations. CHWs are front-line health workers who serve as liaisons between health services and communities, making it easier to provide services to hard to reach populations. This funding will support a CHW workforce.

BUDGET SUMMARY: The Department requests to transfer 4 vacant FTE's, with the equivalent units of rate of 210,000, from the County Health Department Local Health Needs budget entity (64200700), to the Administrative Support budget entity (64100200).

Administrative Support budget entity (64100200)	
Executive Direction Program Component (16.02.00.00.00)	210,000 units of Rate
County Health Department Local Health Needs budget entity (64200700)	
County Health Departments Program Component (13.06.00.00.00)	(210,000) units of Rate

The Department also requests a total of \$8,473,802 in General Revenue (1000), of which \$126,886 is non-recurring.

Administrative Support budget entity (64100200)	
Executive Direction Program Component (16.02.00.00.00)	
General Revenue (1000)	
-Salary and Fringe Benefits category (010000)	\$305,185
-TR/HR/DMS Services Purchased er Statewide Contract category (107040)	\$1,321
-Grants and Aids - Minority Health Initiative category (050310)	\$8,167,296
for the following:	
\$180,036 for Expenses (\$17,716 non-recurring)	
\$2,111,500 for Contractual Services	
\$5,875,760 for transfer to County Health Departments (\$109,170 non-recurring)

HEALTH AND HEALTH EQUITY				
INFRASTRUCTURE - DEDUCT				6200330
				Total:
				\$8,473,802

This issue also requests recurring double budget authority of \$5,875,760 of which \$109,170 is non-recurring.

County Health Department Local Needs budget entity (64200700)
 County Health Departments Program Component (13.06.00.00.00)
 County Health Department Trust Fund (2141)

- Other Personal Services category (030000) \$2,036,480
 - 30 OPS will be hired for approximately 1,850 hours each annually consisting of 25 positions at \$28 per hour and 5 positions at \$32 per hour, with 28% fringe.
- Transfer to Department of Management Services Human Resources Services Purchased per Statewide Contract category (107040) \$7,037
- Expense category (040000) \$669,640
 - \$262,380 for standard expense (\$109,170 non-recurring; \$153,210 recurring) and \$407,260 to establish up to thirty-five projects at an estimated \$11,636 per project for program expenses. The expenditures will include office supplies, printing, space rental for meetings, online survey software, evidence-based curriculum, translation and interpretation services (American sign language, English/Spanish/Creole).
 - *Standard Expense Package for OPS:
 (30 OPS positions X \$3,639 non-recurring) + (30 OPS positions + \$5,107 recurring expenses no travel) = \$262,380
 - *Standard Expense Package for Projects (with limited travel): \$11,636 X 35 projects = \$407,260
- Contracted Services category (100777) \$3,162,603
 - Each CHD grantee will contract with at least two organizations to establish a consortium (35 consortia). The organizations selected to be a part of each consortium will be different for each community because each community's needs are different and the organizations available to meet those needs will be different. The CHDs will make these determinations based on these factors. An estimated 70 subcontracts will be established statewide. Organizations subcontracted will co-lead with the CHDs efforts to establish and implement local health equity plans with a coordinated multi-sector approach. They will also bring new resources, nontraditional partners and different approaches to solving complex problems, such as educational gaps, crime prevention, economic instability, etc.

Please see companion issue: 6200320

LINKAGE TO THE GOVERNOR'S PRIORITIES: Health Care - Promote innovation in healthcare that reduces the cost of medical procedures and services and increases access to care for Floridians.

AGENCY ISSUE NARRATIVE:

2021-2022 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

ISSUE TITLE: Bureau of Public Health Pharmacy Florida Department of Corrections Agreement

CURRENT SITUATION: The Florida Department of Health (Department) and the Florida Department of Corrections (FDOC) entered into an Inter-Agency Agreement in 2008 that authorizes the Department, Bureau of Public Health Pharmacy (BPHP) to fill client specific prescriptions for FDOC through the Sexually Transmitted Disease (STD) Specialty Care Program. The parties are authorized to enter into this agreement pursuant to section 945, Florida Statutes (F.S.). The Department's, Division of Emergency Preparedness and Community Support, BPHP, performs the procurement, management and dispensing of client specific prescriptions for the FDOC. This program provides annual savings for the procurement of prescription drugs. The purchase of prescription drugs for government entities are procured in two ways:

- 1) Minnesota Multi-State Contracting Alliance for Pharmacy (MMCAP): The Government Purchasing Organization (GPO)

procurement collective negotiates best prescription drug prices for member states.

2) Public Health Service (PHS) 340b: Allows the procurement of prescription drugs at reduced cost. Entities must apply and be recognized as eligible before utilizing this advantage.

With the Department being recognized as an eligible 340b entity, certain pharmaceuticals are purchased by the Department through the PHS 340b for FDOC clients. FDOC clients are examined by County Health Department physicians in the vicinity of the regional correctional institutions.

From the purchase of pharmaceuticals by the STD Specialty Care Program FDOC saves approximately \$25 million a year on the cost of drugs. There has been an average annual increase of 18% in the cost of pharmaceuticals. With this annual increase expenditures are projected to be \$43,832,962 by the end of fiscal year 2020-2021. Due to this annual increase, the Department is anticipating a request for a recurring budget amendment for fiscal year 2020-21 to cover the deficit.*

The Department will work with FDOC to develop a formulary to help reduce the 18% increase each year for the cost of pharmaceuticals. The goal is to save money while still providing the best care and continue protecting the Department from the rising cost of prescription drugs.

REQUEST: The Department requests an additional \$7,889,933 of budget authority for Statewide Public Health Support Services budget entity (64200800), Grants and Donations Trust Fund (2339); in the Drugs/Vaccines/Biologicals category (101015). In 2019-2020, the expenditures for the Inter-Agency Agreement with FDOC was \$37,146,577 with an average increase of 18% each year starting in fiscal year 2016-2017. The Department used resources from Statewide Public Health Support Services budget entity (64200800) and County Health Department Local Health Needs budget entity (64200700) to cover the purchases of pharmaceuticals during fiscal year 2019-2020. If the increase continues, the projected expenditures for fiscal year 2020-2021 will be \$43,832,962 (increase of \$6,686,384) and 2021-2022 at \$51,772,895 (increase of \$7,889,933). The request for an additional \$7,889,933 will cover the projected 18% increase in costs related to the Inter-Agency Agreement with FDOC for 2021-2022. The Department has collaborated with the FDOC.

BUDGET SUMMARY: The Department currently has \$35,403,240 in appropriation in the Grants and Donations Trust Fund (2339), in the Statewide Public Health Support Services budget entity (64200800), in the Drugs/Vaccines/Biologicals category (101015). This issue requests an additional \$7,889,933 of recurring budget authority in the Grants and Donations Trust Fund (2339), Statewide Public Health Support Services budget entity (64200800), Drugs/Vaccines/Biologicals category (101015). This request is necessary to continue the purchase of prescription drugs for the FDOC contract with the Department.

Pharmaceuticals increase:

The annual increase percentage is derived by calculating the difference between current and previous year expenditures

ISSUE TITLE: EARLY STEPS PROGRAM ADMINISTRATIVE DATA SYSTEM CONTINUATION

CURRENT SITUATION: The Department of Health (Department) administers the Individuals with Disabilities Education Act (IDEA), Part C, through the Florida Early Steps Program. Early Steps is Florida's early intervention program for infants and toddlers (birth to 36 months), who have a developmental disability, delay, or a condition that places the child at risk of a developmental disability. Early intervention services are authorized by Title 34, Code of Federal Regulation (CFR), Part 303, Section 409.906 and Chapter 391, Part III, Florida Statutes (F.S.). These laws require the Early Steps program to ensure programmatic and fiscal accountability through the establishment of a high-capacity data system.

Currently, the Department uses an administrative system to manage the Local Early Steps (LES) Programs, which was originally developed by the University of Florida in 1981. This system has become outdated and is not able to effectively support the Early Steps Program. For consecutive years, the United States Department of Education (USDOE), who administers the IDEA Part C Grant, has determined Florida as "needs assistance" in implementing the federal requirements of the IDEA Part C Grant. A significant factor in this assessment is the lack of data completeness and the number of data anomalies in Florida.

The Department executed a contract in FY 2019-20 with a vendor selected through a competitive procurement process. The Department received \$2,338,385 in nonrecurring budget authority in Fiscal Year 2019-20 and \$2,478,074 in nonrecurring budget authority in Fiscal Year 2020-21 for the first two years of a five-year project.

REQUEST: The Department is requesting \$1,234,819 in nonrecurring budget authority to continue the development of the Early Steps Administrative System for the third year of a five-year project. The system will provide functionalities to record child specific development and outcome data, allow access to families and health care professionals, allow population and regional-level reporting, facilitate contract and fiscal monitoring, and ensure programmatic and fiscal accountability. The enhanced system will reduce the amount of paperwork and manual data entry for the LES programs and allow providers to spend more time rendering services to infants, toddlers, and their families. In addition, a better system may also increase the number of providers in Florida by making it easier to do business in the state.

BUDGET SUMMARY: The Department requests \$1,234,819 in nonrecurring budget authority from the Federal Grants Trust Fund (2261), within the Children's Special Health Care budget entity (64300100), in the Grants and Aid - Developmental Evaluation and Intervention Services/Part C appropriation category (103629), in the Health Services Individuals program component (13.01.00.00.00).

LINKAGE TO THE GOVERNOR'S PRIORITIES: 4. HEALTH CARE: Promote innovation in healthcare that reduces the cost of medical procedures and services and increases access to care for Floridians.

FLORIDA STRATEGIC PLAN: (G3) Lead the nation in quality of life and quality places for residents, communities and visitors.

2021-2022 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

ISSUE TITLE: Early Steps Program State Systemic Improvement Plan

CURRENT SITUATION: The Division of Children's Medical Services (CMS) provides early intervention services for infants and toddlers from birth to thirty-six months who have a developmental disability, or at risk of developmental delays, through the Florida Early Steps Program. The Individuals with Disabilities Act (IDEA), Part C Grant, 34 CFR, Part 303 Section 409.906 and Chapter 391, Part III Florida Statutes are the laws governing the Early Steps Program. The program is funded through state General Revenue and federal grant dollars.

The U.S. Department of Education, Office of Special Education Program (OSEP) provides federal oversight of the Early Steps Program. In 2013, states with an approved IDEA Part C grant award were required to implement a State Systemic Improvement Plan (SSIP) as part of the State Performance Plan/Annual Performance Report outlined in federal regulation at 34 CFR 303.4701 (a) and 34 CFR 303.702. Each state was required to develop and implement a plan to improve children and family outcomes.

The Early Steps Program is currently implementing Phase 3 of the SSIP, which is a federally required multi-year plan to develop, evaluate, and implement effective, sustainable policies and practices at the state and local levels to positively impact children outcomes. The purpose of the SSIP is to strengthen program infrastructure with the ultimate objective to improve the social-emotional development of infants and toddlers served by the program.

Currently, a professional development framework is being implemented using evidence-based coaching practices to directly impact children's social-emotional development. Implementation at three demonstration sites began in Fiscal Year (FY) 2018-2019. Two sites were added in FY 2019-2020 and four sites are planned to be added in FY 2020-2021.

REQUEST: The Department requests \$1,166,478 in budget authority, of which \$664,500 is nonrecurring. This is to continue the coaching infrastructure and training at the existing nine implementation sites and to begin initial installation and professional development training at three additional Local Early Steps (LES) programs. The SSIP requires implementation at additional Local Early Steps Programs, incrementally each year, until all fifteen Local Early Steps Programs have implemented the policies and practices. Early intervention services have shown benefits to the state by reducing economic impact through a decreased need for special education and life-long services.

The requested budget authority will be used for salaries and fringe for six additional Lead Implementation Coaches

IMPROVEMENT PLAN (SSIP) - ADD				6200250

(LICS), cameras and associated equipment needed for infrastructure, professional development training, computers, and travel costs. The requested SSIP funds will be added to the existing Local Early Steps contracts.

BUDGET SUMMARY: The Department of Health is requesting \$1,166,478 in Federal Grants Trust Fund (2261), within the Children's Special Health Care budget entity (64300100), in the Grants and Aids - Developmental Evaluation and Intervention Services/Part C category (103629), in the Health Services Individuals program component (1301000000).

The estimated recurring costs for the SSIP implementation: TOTAL \$501,978

*Lead Implementation Coaches (LICS): \$465,978 - LICs train and coach staff and providers on the evidence-based practices to support a child's social-emotional development. A total of six new LICs will be needed for the new SSIP sites. (\$77,663 salary and fringe x 6 LICs).

*Travel: \$36,000 - 9 Local Early Steps staff will travel to 4 quarterly cross-site meetings (9 staff members X 4 quarterly meetings X \$1,000 in travel expenses).

The estimated nonrecurring costs for the SSIP implementation: TOTAL \$664,500

*Cameras/Associated Equipment: \$15,000 - Equipment is used for filming home visits. (30 cameras/equipment X \$500)

*Professional Development Training: \$645,000 - Training fee for 430 providers. 310 providers at the nine existing sites, who have not been trained, and 120 providers at the three new sites to complete 60 hours of training at \$25 per hour. (430 providers x \$25 per hour X 60 hours of training per provider).

*Computers: \$4,500 - Computers will be needed for six new Lead Implementation Coaches (6 LIC X \$750 per computer).

LINKAGE TO THE GOVERNOR'S PRIORITIES: 4. Health Care: Promote innovation in healthcare that reduces the cost of medical procedures and services and increases access to care for Floridians.

FLORIDA STRATEGIC PLAN: (G3) - Lead the nation in quality of life and quality places for residents, communities and visitors.

AGENCY ISSUE NARRATIVE:

2021-2022 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

ISSUE TITLE: Workload - Additional Other Personal Services (OPS) Staff for Medical Quality Assurance

Current Situation: The timely completion of dental sedation inspections is critical to protect the health and safety of Florida's residents. Dental sedation involves general anesthesia, deep sedation, moderate sedation, or pediatric moderate sedation that is performed in a dental office setting. The responsibility for dental inspections moved from the Board of Dentistry Licensure Office to the Division of Medical Quality Assurance (MQA), Bureau of Enforcement (BOE), Investigative Service Unit (ISU) effective July 1, 2019. The Dental Sedation inspections were moved to the BOE to improve training and consistency of these inspections as the BOE completes an average of 20,449 inspections a year. BOE is responsible for all the other inspections which fall under MQA.

Historically, MQA contracted with Dentists to perform the dental sedation inspections. ISU now performs inspections with OPS dental inspectors. MQA completed 326 inspections in FY 2016-17; 367 inspections in FY 2017-18; 438 inspections in FY 2018-19; and 312 inspections in FY 2019-20, utilizing both contracted dentists and Other Personal Services (OPS) dental inspectors. During FY 2019-20, there was insufficient budget authority to hire additional OPS dental inspectors. There are currently 4 OPS Dental Inspectors in MQA and a remaining 1,075 open inspections presently. One dental inspector can conduct between 200 and 250 inspections, along with associated duties within a fiscal year. Five additional OPS dentists are needed to timely complete these inspections.

Request: Due to the challenges in completing dental sedation inspections by independent dental contractors, MQA requests additional OPS authority for 5 OPS Dentists. Currently MQA has insufficient OPS budget authority to cover these costs. The requested increase in OPS budget authority is based on 1,854 hours for 5 OPS Dentists at an hourly rate of \$90 plus 19% for fringe benefits. (1,854 hours X \$90 X 5 OPS X 1.19 fringe)

Budget Summary: This issue requests \$992,817 in recurring budget authority in the Other Personal Services category (030000), in the Medical Quality Assurance budget entity (64400100), within the Medical Quality Assurance Trust Fund (2352).

OPS - \$992,817/Recurring

LINKAGE TO THE GOVERNOR'S PRIORITIES: 4. Health Care: Promote innovation in healthcare that reduces the cost of medical procedures and services and increases access to care for Floridians.

AGENCY ISSUE NARRATIVE:

2021-2022 BUDGET YEAR NARRATIVE:

IT COMPONENT? YES

ISSUE TITLE: Medical Quality Assurance Artificial Intelligence Customer Service Solution

CURRENT SITUATION: The Division of Medical Quality Assurance (MQA) is established under section 20.43, Florida Statutes, and is comprised of more than 628 employees responsible for regulatory activities of various health care practitioners, facilities, and businesses. MQA Customer Contact Center operates Monday through Friday during state business hours (8am-6pm). Customers contact MQA by either calling the Customer Contact Center or submitting an email. To support MQA's operations, 22 employees answer inbound telephone calls. An average of 39,878 calls (over 1,800 calls per business day) are received every month in the Customer Contact Center that lasts an average of 4.08 minutes. Customer service agents are overloaded with common questions and repetitive processes making it harder to deliver exceptional customer service. During peak periods, 22.78% of the calls (410 per day) received are abandoned due to high call volume, and customer wait times can be more than 7.43 minutes, both resulting in frustrated customers.

Additionally, MQA maintains 23 websites that support the regulatory boards. MQA staff responds to more than 10,000 emails from more than 50,000 weekly visitors to these sites. Many health care practitioners work shifts at hospitals, nursing homes, medical facilities, etc. that are not always during state business hours. Since the current call center is only staffed during state business hours, customers can not receive direct assistance afterhours. This technology will allow customers to receive the help they need 24 hours a day. Currently there is not a system in place to support a virtual automated web application, voice agent, or chat functionality. Also, the existing Customer Contact Center does

not support interactive voice response (IVR) functionality. Credit card payments cannot be accepted over the phone, and there is no integration between Versa Regulation, which is the license regulatory system, and the Customer Contact Center at this time. Therefore, call center agents must manually search for records to retrieve the information needed to respond to customer inquiries. Adding a virtual agent to both the Board websites and the Customer Contact Center will not only allow MQA to serve customers twenty-four hours a day, 7 days a week, it will also provide the ability to accept credit card payments over the phone for certain types of applications or renewals.

REQUEST: The estimated total costs for this 2 fiscal year project is \$5,717,600. This consists of \$4,018,800 in year 1 (FY 2021/2022) and \$1,698,800 in year 2 (FY 2022/2023). The ability to respond to the general public, health care practitioners, and applicants twenty-four hours, seven days a week can better serve the customer base and provide consistent responses by implementing an integrated virtual chat and voice agent driven by artificial intelligence (AI). The AI solution will authenticate users, answer commonly asked questions and calls, allow applicants to apply, check the status of their application, allow licensees to renew, allow customers to update their online profiles, and allow payments to be taken over the phone.

In FY 2023-2024, after the project has been fully implemented, MQA anticipates a reduction of five and a half (5.5) OPS Regulatory Specialist I and eight (8) OPS Regulatory Specialist II positions with an annual cost savings of \$324,107. This would reduce the MQA's overall OPS positions by 13.5. The AI solution aims to reduce the number of paper applications received by MQA by 66%, resulting in a 95% rate of all applications received online. Increasing online business to a 95% usage rate will result in savings of \$759,524 (\$1,150,794 contract amount for initial application reduced by 66%) starting in FY 2023-2024. This will result in the reduction of annual MQA Versa:Online application maintenance costs of \$145,950 in FY 2023-2024. Each year after, due to no longer using Versa:Online, the savings will be \$160,950. Also, there are 11 servers supported by the Florida Division of State Technologies with an annual cost of \$119,114 that will no longer be needed. After full implementation of the AI solution, the estimated annual cost reduction is \$1,363,695.

BUDGET SUMMARY: The Florida Department of Health requests \$4,018,800 of non-recurring budget authority in the Contracted Services category (100777), in the Medical Quality Assurance budget entity (64400100), within the Medical Quality Assurance Trust Fund (2352).

AGENCY ISSUE NARRATIVE:

2021-2022 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

Issue Title: Medical Quality Assurance Prosecution Services Unit - Attorney Workforce Rate Request

Current Situation: The Division of Medical Quality Assurance (MQA), Prosecution Services Unit (PSU), has experienced increasing difficulty recruiting and retaining the attorney workforce necessary to efficiently prosecute MQA's disciplinary cases. This has directly impacted PSU's ability to meet statutory requirements under Chapter 456, Florida Statutes, and achieve strategic goals for the agency and regulatory boards. Based on FY 2018-19 data, PSU had a turnover rate of 27% for attorneys.

The recurrent shortfalls in recruitment and retention are salary driven. The Bureau of Labor Statistics reports average annual salaries of \$116,850 for an attorney in Tallahassee, \$130,010 for an attorney in Florida, and \$145,300 for attorneys nationwide. Most PSU positions rank well below the 10th percentile of the national average. While these averages include attorney salaries from the private sector, review of the comparable state government attorney salaries shows that PSU also fails to offer competitive salaries amongst available state government attorney positions. Additionally, the constant pressure of student loan debt drives attorneys in public service fields to aggressively seek out promotional opportunities at other agencies, affecting PSU's ability to retain attorneys.

ASSURANCE - ADD						51R0140

PSU's base salary for the staff attorney position is \$42,991.78. Not only does this fall below the statewide class code (7736) average by almost \$4,000.00, it is in the bottom 12% of the salaries offered by other agencies. The comparative salaries at other agencies and public service offices have impeded the Department of Health's (Department) efforts of recruitment and retention. For example, the average salary for State Attorneys is \$68,000, the average salary for Public Defenders is \$63,000, and other state agencies start senior attorneys at \$52,000. This is well below the base salary of \$42,991.78 for PSU attorneys at the Department of Health.

Request: MQA/PSU is requesting additional rate to mitigate difficulty with recruiting and retaining attorneys responsible for resolving MQA's disciplinary cases. PSU is responsible for the litigation of all disciplinary cases before the state licensing boards, including those cases that represent a danger to public safety, such as repeated medical malpractice, sexual misconduct, drug diversion, and inappropriate prescription practices. The increase in salary and benefits will be absorbed within current salary and benefits authority.

Budget Summary: The Department requests an increase of 274,915 units of rate in the Medical Quality Assurance budget entity (64400100), and a decrease of 274,915 units of rate from County Health Department Local Health Needs budget entity (64200700).
