Transfer from Operating Capital Outlay to Expenses - Deduct

SUMMARY:

The Department of the Lottery (department) requests the transfer of \$100,000 from the Operating Capital Outlay appropriation category to the Expenses appropriation category in order to appropriately align the department's budget based on guidance received from the Department of Financial Services (DFS). DFS' Chief Financial Officer Memorandum No. 13, issued on July 1, 2020, increased the state's asset capitalization threshold from \$1,000 to \$5,000, which had the impact of increasing the minimum cost of equipment, fixtures, and other tangible personal property purchased from the Operating Capital Outlay appropriation category by the same.

TRANSFER FROM OPERATING CAPITAL				
OUTLAY TO EXPENSES - DEDUCT				160G010

The department reviewed historical spending of items purchased from Operating Capital Outlay with a cost of between \$1,000 and \$5,000. Over the past two fiscal years, that spending averaged approximately \$100,000, and that amount is requested for transfer from the Operating Capital Outlay appropriation category to the Expenses appropriation category in order to more appropriately align the department's budget based on the new DFS guidance.

ISSUE TITLE:

Transfer Positions Between Program Components - Deduct

SUMMARY:

The Department of Lottery (department) requests to transfer 1.5 Full-Time Equivalent (FTE) positions, \$133,949 in budget authority and 98,866 in salary rate between program components to more appropriately align the positions with current responsibilities. Specifically, the Deputy Director of Accounting FTE (position # 36000391) and Human Resource Analyst 0.5 FTE (position # 36000213) are transferred from the Governmental Operations Program Component (1601000000) to the Executive Leadership and Support Services Program Component (1602000000). The positions are transferred at the current, filled salary rate.

complied with the state's cloud-first policy outlined in section 282.206, Florida Statutes. Due to this, the Expenses appropriation category was no longer appropriate, and funding required transfer to Contracted Services. The Expenses appropriation was transferred for Fiscal Year 2019-20 in Section 75 of Chapter 2020-111, Laws of Florida (the Fiscal Year 2020-21 General Appropriations Act). However, budget issues are needed in order to make that transfer permanent.

 The Department of the Lottery (department) requests an increase of \$82,200 of nonrecurring budget authority (\$41,700 in the Contracted Services appropriation category and \$40,500 in the Expenses category) to replace security cameras at the Headquarters building in Tallahassee. This request completes the department's phased approach of replacing security equipment at the Headquarters building and district offices.

The department currently has 55 security cameras located at the Headquarters building (includes the Tallahassee District Office). The department seeks to replace these cameras, which are more than 25 years old and are no longer supported under the department's maintenance contract. In addition, the current cameras are not capable of showing detail, such as individual recognition and other detail needed to provide a secure environment.

2021-2022 BUDGET YEAR NARRATIVE:

IT COMPONENT? YES

ISSUE TITLE:

Increased Workload for Data Center to Support an Agency

SUMMARY:

The Department of Lottery (department) requests an increase of \$37,000 of recurring budget authority in the Northwest Regional Data Center (NWRDC) appropriation category to support additional security costs related to the department's Managed Security Services Provider (MSSP). The department received funding in Fiscal Year 2019-20 to utilize the NWRDC as its MSSP in conjunction with existing information security software. Recurring costs are higher than originally anticipated and total \$237,961, with an existing base budget of \$201,349, this leaves a difference of \$36,612.

Linkage to the Florida Lottery Long Range Program Plan:

Agency Goal #1 - Focus on the integrity of the Florida Lottery

Linkage to Florida Strategic Plan for Economic Development:

Strategy #5.2 - Improve the efficiency and effectiveness of government agencies at all levels

ISSUE TITLE:

Florida Lottery Independent Security Audit

SUMMARY:

The Department of the Lottery (department) requests an increase of \$250,000 in nonrecurring budget authority in the Contracted Services appropriation category to contract with an independent firm to conduct a comprehensive security evaluation as required in subsection 24.108(7), Florida Statutes. Subsection 24.108(7), Florida Statutes, requires the security evaluation be conducted at least once every two years, and it was last completed in Fiscal Year 2019-20. The department plans to contract with a firm for multiple terms to allow for the continuity and integrity of the audit process.

If budget authority is not provided to support the security evaluation in Fiscal Year 2021-22, the department will not be in compliance with Florida law.

Linkage to the Florida Lottery Long Range Program Plan:

Agency Goal #1 - Serve with integrity in the execution of statutory duties

Agency Goal #4 - Maximizing the effectiveness of the Florida Lottery

Linkable to the Florida Strategic Plan for Economic Development:

#5.2 - Improve the efficiency and effectiveness of government agencies at all levels.

AGENCY ISSUE NARRATIVE:

2021-2022 BUDGET YEAR NARRATIVE: IT COMPONENT? NO
 ISSUE TITLE: Eliminate Printing of the Department's Quarterly Retailer Newsletter

SUMMARY:

This reduction relates to the elimination of printing the Department of the Lottery's (department) quarterly retailer newsletter, The Winning Ticket. The newsletter was distributed to each of the more than 13,000 retailers across the state and used to inform retailers of the latest Lottery news and happenings. The department ceased printing the newsletter in Fiscal Year 2020-21 as a cost saving measure.

IMPACT OF REDUCTION: Minimal

The Lottery has ranked its proposed reductions into three levels of impact:

Minimal Impact - These proposed reductions reflect cost savings and/or efficiencies identified by the Agency that can be taken with little to no impact.

Moderate Impact - These proposed reductions reflect identified reductions that if taken could or will have an impact to operations or services.

Significant Impact - These proposed reductions will have a direct impact on operations and/or services.

ISSUE TITLE:

Cloud Infrastructure Implementation

SUMMARY:

The Department of the Lottery (department) requests an increase of \$130,000 in budget authority (\$40,000 recurring and \$90,000 nonrecurring) in the Contracted Services appropriation category to begin the transition of its core data center infrastructure to the cloud, complying with the state's cloud first policy (section 282.206, Florida Statutes) by procuring high-speed data circuit services, Infrastructure as a Service, licenses, and support. This will be a multi-year strategy, as the department establishes, then completes the necessary cloud infrastructure, analyzes each application, and develops a next generation cloud strategy for adoption.

As part of the state's cloud-first policy, agencies are to first consider cloud-computing solutions in the technology sourcing strategies for technology initiatives that either minimize or do not require the use of state data center infrastructure. To comply with Florida Statutes, the department's approach is based on a multi-step cloud implementation strategy: first plan, next assess, and then implement iteratively as applications are assessed for readiness.

Transitioning to a cloud environment will provide the department with a secure, usage-based cost model with greater budget predictability and a number of additional benefits that include:

- Redundancy in the cloud architecture that is built into the service
- Capacity on demand, allowing for quick turn-up
- Improved hardware, software, and storage scalability for the support of and anticipated capacity requirements based on current growth trends and functionality
- Improved system performance from the agility and flexibility of having an external hosting provider who can add capacity and address and resolve performance issues rapidly
- Inclusion of hardware upgrades in the hosting costs
- Reduction in operations risks related to capacity expansion timeframes, disaster recovery, and application support
- Ability to leverage virtual and on-demand services for efficient expansion and contraction of application environments
- Reduced downtime and increased level of root cause validation and resolution
- Defined and Enforceable Service Level Agreements (SLAs)
- Continually improved maturity of offerings and service capabilities stemming from competitive pressures on a private cloud vendor

GOVERNMENTAL OPERATIONS						1601.00.00.00
AGENCY-WIDE INFORMATION TECHNOLOGY						3620000
CLOUD INFRASTRUCTURE IMPLEMENTATION						36240C0

The department maintains over 40 applications, and approximately 150 terabytes of data, that is located across three disparate datacenters: in Tallahassee at the primary Lottery data center, in Orlando at the backup Lottery datacenter, and in Tallahassee at the State Data Center. The department has begun planning for the move to the cloud by outlining the costs and services necessary to support the development, test, user acceptance, and production environments in a commercial cloud environment. The department will assess application readiness and remediate any applications that are not cloud compliant and procure cloud services in future fiscal years.

For applications hosted in the cloud, an initial step is to establish a cloud infrastructure. This will require a dedicated high-speed data service to interface with the industry's leading cloud providers as applications are moved to the cloud. In addition, the department's on-premises environment uses multiple authentication methods. As the department transitions services to cloud environments, a product that allows for the standardization and integration of disparate information technology services would be beneficial to the agency's cloud efforts. Several vendors were evaluated, and Microsoft Azure Active Directory Premium was identified as a solution that met the department's needs for the standardization of authentication methods.

If this issue is not funded, it will be difficult for the department to comply with the cloud first policy, as a high-speed data circuit is required to facilitate the move from the State Data Center to a cloud provider. In addition, if the transition does not occur, future funding would be necessary to replace on-premise hardware, which would be provided by the cloud service in the proposed solution.

ISSUE TITLE:

Prize Payment System Business Case

SUMMARY:

The Department of the Lottery (department) requests an increase of \$110,000 of nonrecurring budget authority in the Contracted Services appropriation category to contract for the completion of a business case study that will recommend options for the future of the department's prize payment system.

Paying prizes is the department's second most important business operation, next to selling tickets. During Fiscal Year 2019-20, the department paid out over \$5.1 billion in prizes, creating 188 millionaires. While the majority of prize payments occur through the gaming system at Lottery retail locations, all prizes valued at \$600 or more are processed through the department's prize payment system in order to satisfy Federal tax reporting requirements. In addition to paying prizes, the system also withholds state-owed debt, if applicable.

The department's current prize payment system is more than ten years old and was developed internally since, at the time, there wasn't an "off-the-shelf" product option available. Now, as technology has advanced, and the demand has increased, these types of systems are widely available and offered by a variety of vendors. Due to the age and customization of the system, recruiting and retaining staff, and even consultants, with the programming skills necessary to maintain the system has become increasingly difficult. As the talent necessary to maintain the system becomes more challenging to obtain, the system's longevity decreases and the risk to department's ability to pay prize winners increases.

The department requests nonrecurring funding in order to conduct a business case study to determine the costs and benefits of maintaining the current prize payment system vs. purchasing a new, "off-the-shelf" program.

ISSUE TITLE:

Increase to Instant Ticket Purchase Appropriation

SUMMARY:

The Department of the Lottery requests an increase of \$703,119 of recurring budget authority in the Instant Ticket Purchase appropriation category to align the base appropriation with the anticipated expenditures for Scratch-Off sales as adopted by the July 2020 Revenue Estimating Conference (REC). The July 2020 REC forecasted Instant Ticket Purchase sales in Fiscal Year 2021-22 of \$5.65 billion. The total REC estimated transfer to the Educational Enhancement Trust Fund (EETF) in Fiscal Year 2021-22 is \$1.87 billion.

Increase for Leases

SUMMARY:

The Department of the Lottery (department) requests an increase of \$64,526 of recurring budget authority in the Expenses appropriation category to support increases in leases for the department's district offices. The department's Headquarters is located in Tallahassee and there are eight additional District Offices. Several of the department's district office leases include annual price escalations. In addition, the department recently renegotiated a lease for its Tampa district office, resulting in an adjustment to meet current market rates and also the addition of square footage that will allow the office to better serve its customers. The department is unable to absorb these increases within its existing budget.

Transfer Positions Between Program Components - Add

SUMMARY:

The Department of Lottery (department) requests to transfer 1.5 Full-Time Equivalent (FTE) positions, \$133,949 in budget authority and 98,866 in salary rate between program components to more appropriately align the positions with current responsibilities. Specifically, the Deputy Director of Accounting FTE (position # 36000391) and Human Resource Analyst 0.5 FTE (position # 36000213) are transferred from the Governmental Operations Program Component (1601000000) to the Executive Leadership and Support Services Program Component (1602000000). The positions are transferred at the current, filled salary rate.

This issue nets to zero with issue code 160P300.

AGENCY ISSUE NARRATIVE:

2021-2022 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

ISSUE TITLE: Utilities Savings at Headquarters Building

SUMMARY:

This reduction relates to estimated utilities savings at the Department of the Lottery's (department) headquarters building in Tallahassee. In April 2020, the department entered into a savings agreement with the City of Tallahassee that will result in a 7 percent utilities savings each month. This reduction is the result of those monthly savings.

IMPACT OF REDUCTION: Minimal

The Lottery has ranked its proposed reductions into three levels of impact:

Minimal Impact - These proposed reductions reflect cost savings and/or efficiencies identified by the Agency that can be taken with little to no impact.
