OPS	_____	_____	_____	_____	_____	_____
	SUBTOTAL	_____	_____	_____	_____	_____

At the facilities' central office level the department does not track net service cost data by facility. Much of these service costs are already included in the department's operational expenditures since most cases involve existing staff who will occupy the new facilities. Net increase or decrease in service costs for each project is done locally and submitted in the operational budget. With data not readily available, the potential for over estimating net service costs is great and could result in the double counting of the department's estimated expenditures.
