From the funds in Specific Appropriation 219, \$16,627,715 from the Grants and Donations Trust Fund and \$26,293,594 from the Medical Care Trust Fund are provided to buy back intermediate care facilities for the developmentally disabled rate reductions, effective on or after October 1, 2008, and are contingent on the nonfederal share being provided through intermediate care facilities for the developmentally disabled quality assessments. Authority is granted to buy back rate reductions up to, but not higher than, the amounts available under the budgeted authority in this Specific Appropriation. In the event that the funds are not available in the Grants and Donations Trust Fund, the State of Florida is not obligated to continue reimbursements at the higher amount.

The recurring methodology to be utilized by the Agency for Health Care Administration to establish rates taking into consideration the reductions imposed on or after October 1, 2008, shall be to compare the average unit appropriation with actual average unit cost as follows: 1) the average unit appropriation shall be determined by dividing the total appropriation in Specific Appropriation 219 by the total bed days for the past fiscal year; 2) the total actual cost as generated based on the July 1 rate setting shall be divided by the total bed days for the past fiscal year to determine the actual unit cost; 3) the actual unit cost shall be reduced to a Reduced Actual Unit Cost by the same percentage used to calculate the Legislative Appropriation to account for client participation contributions; 4) no negative adjustment to the rates paid to providers shall occur so long as the Reduced Actual Unit Cost is equal to or less than the average unit appropriation; and 5) in the event the Reduced Actual Unit Cost is greater than the average unit appropriation, a prorated reduction shall be imposed on all rates after all Quality Assessment Fee funds have been exhausted to cover the rate reductions.

The Agency for Health Care Administration shall not pay any legal judgments, settlements, lawsuit damages or awards imposed by a court as the result of any legal proceeding relating to prior fiscal years without specific authority in the General Appropriations Act.

JUVENILE JUSTICE, DEPARTMENT OF

From the funds in Specific Appropriations 1105 through 1187, the Department of Juvenile Justice may work within its existing budget, including applicable grants, to implement any corrective action plan that is developed as the result of a Prison Rape Elimination Act audit conducted in accordance with Title 28, Part 115 of the Code of Federal Regulations. The department may request additional resources required through the Legislative Budget Request process as defined in chapter 216, Florida Statutes.

From the funds in Specific Appropriation 1105 through 1187, the Department of Juvenile Justice shall conduct a comprehensive statewide review of county-level data, including a gap analysis of services and programs available across all counties in the state, to evaluate the implementation of juvenile justice policies at the county level. As a result of such review, the department shall prepare a report that includes benchmarking of counties' performance on factors that demonstrate how a county is supporting the department's strategic goals of preventing and diverting more youth from entering the juvenile justice system; providing appropriate, less restrictive, community-based sanctions and services; reserving serious sanctions for youth who pose the greatest risk to public safety; and focusing on rehabilitation. The report shall also include recommendations and strategies that can be implemented by the department or counties to address any identified deficiencies and to assist in developing a statewide, coordinated response across all of Florida's communities to support the department's strategic goals. A copy of the report shall be submitted to the Governor, President of the Senate, and Speaker of the House of

PROGRAM: RESIDENTIAL CORRECTIONS PROGRAM

From the funds in Specific Appropriations 1161 through 1173, the Department of Juvenile Justice shall provide a monthly residential resource utilization report that identifies operating capacity, current placements, vacant placements, number of youth awaiting placement, and the percent of use for all residential commitment beds. The department may increase or decrease beds or overlay services provided that the change will better serve taxpayers and the youth under its care. Notification and justification of changes will be provided to the Governor's Office of Policy and Budget, chair of the Senate Appropriations Committee, and chair of the House of Representatives Appropriations Committee prior to implementing any change.

From the funds in Specific Appropriations 1161 through 1173, in selecting a private provider for operation of secure and non-secure residential programs, the Department of Juvenile Justice must consider the provider's history of performance of services in other jurisdictions as well as its performance of services in Florida. The department must also provide a report of serious incidents to the Governor, President of the Senate, and Speaker of the House of Representatives on no less than a quarterly basis. The report must include, at a minimum: the number of incidents and allegations of staff abuse or abuse by another child, including whether or not an allegation was substantiated; descriptions of incidents or allegations of such abuse that resulted in physical injury or significant psychological trauma, or that involved deprivation of food, water, or medical care; and the failure of a provider to report incidents or allegations within required timeframes established by the department. In addition, the department must conduct an independent review of each out-of-state provider before issuing a new contract. The report must be organized so that the incidents and allegations relating to a particular facility and to a particular provider can be readily ascertained. The department must also immediately report the death or serious bodily injury of a youth in a secure or non-secure residential program to the Governor, President of the Senate, and Speaker of the House of Representatives, and may make any additional reports that it determines to be appropriate based upon the seriousness of an incident or allegation.

From the funds in Specific Appropriation 1939, the nonrecurring sum of \$1,500,000 from the State Transportation Trust Fund is provided to the Department of Transportation for an assessment of the Work Program Integration Initiative project. These funds shall be held in reserve. The department must competitively procure a comprehensive assessment of the project by an independent third party consulting firm with experience in conducting independent verification and validation assessments of public sector information technology projects and that

SECTION 5 - NATURAL RESOURCES/ENVIRONMENT/GROWTH MANAGEMENT/TRANSPORTATION

has not previously contracted with the department for the project. No funding is provided for staff augmentation, third party support services, organizational change management, project management office, the current independent verification and validation contract, the purchase of new software, or the re-procurement of a systems integrator.

The assessment must include (1) a review of all project artifacts, application development, and software purchases from the project start date in Fiscal Year 2013-2014 through June 30, 2021; (2) an assessment of the department's project governance and management structure, organizational change management approach, procurement approach, and technology resources; (3) an evaluation of the approach of using contracted services to backfill agency staff working on the project; (4) an updated fit gap analysis to determine how the proposed solution(s) aligns with the department's documented business requirements; (5) a proposed strategic roadmap that depicts a timeline and costs for project deliverables recommended for completion by the department through the lifecycle of this project; and (6) an identification of what functional assets the state has received from project appropriations up to and including Fiscal Year 2020-2021.

Contingent upon the successful award of a contract, the department is authorized to submit a budget amendment(s) to request release of the funding being held in reserve pursuant to the provisions of chapter 216, Florida Statutes. The contract with the independent third party consulting firm must require that all deliverables be simultaneously provided to the Executive Office of the Governor's Office of Policy and Budget, the chair of the Senate Appropriations Committee, the chair of the House Appropriations Committee, and the Florida Digital Service.

The vendor must submit quarterly status reports to the Executive Office of the Governor's Office of Policy and Budget, the chair of the Senate Appropriations Committee, the chair of the House Appropriations Committee, and the Florida Digital Service describing the progress made to-date on the assessment as prescribed in the enumerated items above. ECONOMIC OPPORTUNITY, DEPARTMENT OF

From the funds in Specific Appropriations 2162 through 2257, any expenditure from the Temporary Assistance for Needy Families (TANF) Block Grant must be expended in accordance with the requirements and limitations of Part A of Title IV of the Social Security Act, as amended, or any other applicable federal requirement or limitation. Before any funds are released by the Department of Children and Families, each provider shall identify the number of clients to be served and certify their eligibility under Part A of Title IV of the Social Security Act. Funds may not be released for services to any clients except those so identified and certified.

The department head or a designee must certify that controls are in place to ensure that such funds are expended in accordance with the requirements and limitations of federal law and that reporting requirements of federal law are met. It is the responsibility of any entity to which such funds are appropriated to obtain the required certification prior to any expenditure of funds.

From the funds in Specific Appropriations 2162 through 2257 no federal or state funds shall be used to pay for space being leased by a Local Workforce Board, CareerSource Florida, or the Department of Economic Opportunity if it has been determined by whichever entity is the lessee that there is no longer a need for the leased space. All leases, and performance and obligations under the leases, are subject to and contingent upon an annual appropriation by the Florida Legislature. In the event that such annual appropriation does not occur, or in the alternative, there is either a reduction in funding from the prior annual appropriation or the entity which is the lessee determines that the annual appropriation is insufficient to meet the requirements of the leases, then the lessee has the right to terminate the lease upon written notice by the lessee and the lessee shall have no further obligations under the contracts.

WORKFORCE DEVELOPMENT

From the funds in Specific Appropriations 2188 through 2215, the Department of Economic Opportunity must determine if any funds provided for specific workforce programs, projects, or initiatives are not an allowable use of federal funds. If the department finds that any workforce program, project, or initiative for which funds are specifically appropriated in this act is not an allowable use of federal funds, the department must notify the Executive Office of the Governor's Office of Policy and Budget, the chair of the Senate Appropriations Committee, and the chair of the House Appropriations Committee.

When allocating full-time equivalent (FTE) positions to individual local workforce development boards, the Department of Economic Opportunity must ensure that workforce services are effectively and efficiently provided throughout the state. The department is authorized to reallocate any FTE position allocated to a local workforce development board that has been or becomes vacant for more than 180 days. When reallocating a vacant FTE position, the department must give priority to a local workforce development board that would use the FTE position to provide additional services to veterans.

The funds shall be placed in reserve. The funds are contingent upon HB 5003 becoming law, which provides for the replacement of the Florida Accounting Information Resource (FLAIR) Subsystem and the Cash Management Subsystem (CMS). agencies that are necessary for remediation of their systems impacted by the PALM project, and (2) the tasks and deliverables needed to retain the current historical reporting functionality provided by the FLAIR Information Warehouse and inclusive of PALM data. Pursuant to section 216.181(16)(a), F.S., nothing in this act provides for this specific appropriation to be advanced for payment of system integrator deliverables. No funds are provided for project marketing activities, branding, or promotional materials.

The department shall provide to all agencies updated and fully detailed business process models that reflect the project's current phased implementation approach, to demonstrate transparency, convey pertinent information, and assist agency preparations for transition to PALM. Upon each agency's reassessment of the updated system requirements documentation, the Executive Steering Committee shall review and approve the final Business Process Models and any resulting changes or elaboration to PALM business and technical requirements, which reflect the functionality necessary to transition Central FLAIR, Departmental FLAIR, and Payroll to PALM.

From the funds provided in Specific Appropriation 2344, up to \$1,500,000 is provided to the Department of Financial Services to competitively re-procure a private sector provider with experience in conducting independent verification and validation (IV&V) services of public sector enterprise resource planning (ERP) information technology projects to provide independent verification and validation for the PALM project. A professional staff member from the department's Office of the General Counsel shall be designated as the contract manager for the IV&V contract. Monthly reports shall include technical reviews of project deliverables submitted or accepted within the reporting period and assessments of the department's project management and governance. The contract shall require that all deliverables be simultaneously provided to the department, the Florida Digital Service, the chair of the Senate Appropriations Committee, the chair of the House of Representatives Appropriations Committee, and the Executive Office of the Governor's Office of Policy and Budget. The contracted provider shall be available to provide all project related data to the Florida Digital Service in support of its project oversight responsibilities pursuant to section 282.0051, Florida Statutes.

The Department of Financial Services shall provide monthly project status reports to the chair of the Senate Appropriations Committee, the chair of the House of Representatives Appropriations Committee, the Executive Office of the Governor's Office of Policy and Budget, and the Florida Digital Service. Each report must include progress made to date for each project milestone, deliverable, and task order, planned and actual completion dates, planned and actual costs incurred, and any current project issues and risks. Each status report must also provide an update on the progress and cost of each system interface and agency application remediation task, as provided by agencies, required for deployment of PALM functionality scheduled through December 31, 2023.

The Department of Financial Services, by November 1, 2021, shall submit final recommendations by the Executive Steering Committee and draft legislation for any statutory changes needed to implement the FLAIR replacement system to the chair of the Senate Appropriations Committee, the chair of the House of Representatives Appropriations Committee, and the Executive Office of the Governor's Office of Policy and Budget.

SPECIFIC APPROPRIATION

The moneys contained herein are appropriated from the named funds to the State Courts System as the amounts to be used to pay salaries, other operational expenditures and fixed capital outlay.

STATE COURT SYSTEM

From the funds in Specific Appropriations 3124 through 3172, the Office of the State Courts Administrator shall coordinate with the circuit courts to develop or procure one or more electronic criminal justice risk assessment solutions. The solution(s) shall be a validated pretrial risk assessment instrument for all counties which will objectively analyze the risk that a criminal defendant will re-offend or fail to appear before trial and provide risk levels that will inform the court's decision as to whether the defendant should be detained pretrial or released with or without conditions. Criminal justice agencies shall cooperate with the implementation of the tool. In determining the appropriate pretrial risk assessment instruments, the office, in collaboration with the participating criminal justice agencies, shall review existing, validated pretrial risk assessment instruments. The office shall submit a final report to the President of the Senate and the Speaker of the House of Representatives by January 3, 2022, and shall include the preliminary outcome results from the use of the tool.

From the funds in Specific Appropriation 3152, the Office of the State Courts Administrator shall provide a report by December 1, 2021, to the President of the Senate and the Speaker of the House of Representatives which details the number of participants in each problem-solving court for each fiscal year the court has been operating and the types of services provided, each source of funding for each court during each fiscal year, and information on the performance of each court based upon outcome measures established by the courts.

From the funds in Specific Appropriation 3152, \$9,412,527 in recurring funds from the General Revenue Fund is provided for treatment services, drug testing, case management, and ancillary services for participants in problem-solving courts, including, but not limited to, adult drug courts, juvenile drug courts, family dependency drug courts, early childhood courts, mental health courts, and veterans courts. Funds may also be used to provide training and education for multidisciplinary problem-solving court team members to gain up-to-date knowledge on best practices.

The Trial Court Budget Commission shall determine the allocation of funds to the circuits. Funds distributed from this specific appropriation must be matched by local government, federal government, or private funds. The matching ratio for allocation of these funds shall be 30 percent non-state and 70 percent state funding, other than veterans court, which shall have a matching ratio of 20 percent non-state funding and 80 percent state funding. However, no match will be required for a problem-solving court that by its primary purpose or mission addresses activities for which state dollars are typically expended. Further, if the county meets the definition of a "fiscally constrained county," as provided in section 218.67, Florida Statutes, no match will be required. In pursuing funding under this specific appropriation, a circuit may consider, among other criteria, the extent to which a problem-solving court addresses the needs of individuals with an opioid use disorder.
