EDUCATION, DEPARTMENT OF

Funding provided in Specific Appropriations 24 through 149 from State Fiscal Stabilization Funds authorized in the American Recovery and Reinvestment Act of 2009 is contingent upon the approval of the State's application and request for any necessary waivers of maintenance of effort requirements by the United States Department of Education. The Department of Education, or Board of Governors as appropriate, shall provide guidance to school districts and institutions of higher education regarding the inclusion or exclusion of State Fiscal Stabilization Funds with general fund revenues for the purpose of required state and federal reporting.

If it is determined that any entity designated to receive an appropriation from State Fiscal Stabilization Funds is ineligible to receive such funds in accordance with the American Recovery and Reinvestment Act of 2009, the Executive Office of the Governor may adjust allocations from state funds and State Fiscal Stabilization Funds among eligible recipients, based upon the recommendation of the Department of Education or Board of Governors as appropriate, in a manner that ensures the combined total of state funds and State Fiscal Stabilization Funds remains consistent with the intent of the General Appropriations Act. Any such adjustments shall be subject to the notice and objection requirements of section 216.17, Florida Statutes.

The receipt of funds provided in Specific Appropriations 24 through 149 from federal stimulus grants authorized in the American Recovery and Reinvestment Act of 2009 by an eligible recipient are contingent upon the recipient's agreement to fully comply with the application and reporting requirements established by the Department of Education or the Board of Governors, as applicable.

The sum designated for each project is the maximum sum to be expended for each specified phase of the project from funds accruing under section 9(a)(2), Article XII of the State Constitution. If any school district chooses to levy an amount not less than 0.498 mills and less than 0.748 mills, a compression supplement shall be calculated on a levy of 0.498. If a 0.498 levy generates an amount of funds per unweighted FTE that is less than the state average amount per unweighted FTE for 0.498 mills, the school district shall receive from the funds provided in Specific Appropriations 5A and 76, a discretionary millage compression supplement that, when added to the funds generated by a 0.498 mill levy, would be equal to the state average as provided in section 1011.62(5), Florida Statutes.

A minimum guaranteed level of funding shall be calculated to provide no greater than a 10 percent reduction per unweighted full-time equivalent student compared to the amount per unweighted full-time equivalent student funded in the 2008-2009 FEFP. The calculation of this minimum funding shall compare total state and local formula and categorical funds and actual discretionary local revenue for 2008-2009 with total state and local formula and categorical funds, maximum potential discretionary local revenue, and federal stabilization funds for 2009-2010. Funds for the School Recognition Program and the Merit Award Program shall not be included in the calculation of the Minimum Guarantee. If at any time during the 2009-2010 fiscal year, the appropriation is reduced, the Minimum Guarantee shall not hold a district or other entity harmless from the impact of the reduction.

Each of the K-8 virtual schools shall provide to the Department of Education the name and address of each student who was enrolled and served during the 2008-2009 fiscal year and who is re-enrolled and is eligible to be served during the 2009-2010 fiscal year. The Department shall verify the eligibility of the students, assist with placement of each student in a school district virtual instruction program regardless of the student's district of residence, and assist the school district with executing an appropriate contract with an approved K-8 virtual school for payment for virtual instruction for each student. The maximum number of students to be funded pursuant to this provision is the number being served in 2008-2009.

From the funds provided in Specific Appropriations 11, 12A, 138, and 139A, each university may shift enrollment by level in a manner which is revenue neutral; however, no university, with the exception of New College of Florida, shall increase the number of lower level FTEs. For planning and enrollment shifting purposes, the University of South Florida may combine lower, upper, and graduate FTE identified in Specific Appropriations 138 and 139A.

The Chancellor of the State University System shall submit a revised 3-year state university enrollment plan by lower, upper, graduate I and graduate II levels, by university, to the Board of Governors by September 1, 2009. This revised 3-year enrollment plan must be developed with input from each state university.

The enrollment policy adopted by the Legislature does not limit the number of students admitted from out-of-state under the profile admissions policy; however, no state university may receive general revenue funding associated with the enrollment of out-of-state students admitted under this policy. For the purposes of implementing this policy, the Chancellor shall segregate these FTEs and not count them toward the 2009-2010 enrollment plan for the State University System.

Funds provided in Specific Appropriation 138 for the University of Florida include no more than that amount which the State Board of Education and the City of Gainesville agree represents the cost of service for water provided by the city to the University of Florida. The amount charged shall reflect a cost-based rate only and shall be determined through a cost of service study completed annually by the city and reviewed by the university. The costs of any General Fund transfer to the City of Gainesville from Gainesville Regional Utilities or any profit to the city or utility shall be specifically excluded as costs allocable to the university. The cost-based rate shall include charges for only those water services actually provided by the city to the university and shall not include charges for services furnished by the university.

Each university board of trustees is given flexibility to make necessary adjustments to its operating budget. If any board reduces individual programs or projects within the university by more than 10 percent during the 2009-2010 fiscal year, written notification shall be made to the Executive Office of the Governor, the President of the Senate, the Speaker of the House of Representatives, and the Board of Governors.

BOARD OF GOVERNORS

Funds appropriated in Specific Appropriations 144 through 148 from the Federal Grants Trust Fund are State Fiscal Stabilization Funds (Discretionary).

From the funds provided in Specific Appropriations 144 through 149, the Board of Governors shall assist the Office of Program Policy Analysis and Government Accountability (OPPAGA) in a review of best practices for student health policies at universities. OPPAGA shall provide a report to the Legislature by December 1, 2009. The report shall include findings and recommendations relating to: the efficacy of mandatory health insurance; the cost effectiveness and efficiency of third party billing for student health services on university campuses; and the fees charged for health services provided by university health centers in the State University System.

From the funds in Specific Appropriations 144 through 149, the Board of Governors shall develop a funding methodology for a consistent base level of state support on a per-student basis for each 4-year Doctor of Medicine degree program offered by a state university. The Board of Governors shall work with OPPAGA and representatives from each 4-year Doctor of Medicine degree program to develop the methodology. As part of the development of the funding methodology, the Board of Governors shall:

- (1) Review national data on the costs associated with 4-year Doctor of Medicine degree programs offered by public universities.
- (2) Determine a base-level cost per student that excludes supplemental costs or startup costs.
- (3) Determine supplemental costs and startup costs that are in addition to the base-level cost per student and that support the unique mission of a degree program or support the implementation of new 4-year Doctor of Medicine degree programs.
- (4) Determine a uniform reporting procedure for the consistent annual reporting of expenditures and outcome data for 4-year Doctor of Medicine degree programs.

The Board of Governors shall submit a report on the funding methodology to the Governor, the President of the Senate, and the Speaker of the House of Representatives no later than February 1, 2010.

Consortiums shall consist of a combination of statutory teaching hospitals, statutory rural hospitals, hospitals with existing accredited graduate medical education positions, medical schools, Department of Health clinics, federally qualified health centers, and where possible, the Department of Veterans' Affairs clinics. Ideally, each consortium will have at least five residents per training year. Each consortium must include primary care providers and at least one hospital, and consortium residents shall rotate between participating primary care sites and hospitals. On or before September 1, 2009, consortiums will apply to the agency for funding with the objective of initiating new medical resident programs and five initial resident positions by July 2010. On or before October 1, 2009, the agency in consultation with the Department of Health shall at a minimum fund two consortiums, one of which shall be designed to serve a rural area. All consortium-initiated residency programs and positions shall be reviewed by the Community Hospital Education Council, which shall report all findings to the Executive Office of the Governor, the chair of the Senate Policy and Steering Committee on Ways and Means, and the chair of the House Full Appropriations Council on General Government and Health Care.

Hospitals providing primary care to low-income individuals and participating in the Primary Care Disproportionate Share Hospital (DSH) program in Fiscal Year 2003-2004 shall be paid \$9,518,238 distributed in the same proportion as the Primary Care DSH payments for Fiscal Year 2003-2004, excluding Imperial Point Hospital and Memorial Regional Hospital who will receive individual amounts equal to \$536,489 and \$1,620,659, respectively. Hospitals that are designated or provisional trauma centers shall be paid \$9,683,541. The funding shall be distributed in a two-step allocation process. The first phase of the allocation process shall distribute payments to qualified hospitals based on the amount of local government funding provided for the uninsured and underinsured. Payments to qualified hospitals shall be capped at 115.0 percent of the amount of local government funding it would have received for the uninsured and underinsured without the Low Income Pool program. The second phase of the allocation process is to distribute the remaining funds based on a hospital's Medicaid days, charity care days, and 50 percent of bad debt days to the total Medicaid days, charity care days, and 50 percent of bad debt days of all qualifying hospitals. To receive funds in this distribution, the hospital's Medicaid days, charity care days and 50 percent of bad debt days divided by the hospital's total days must equal or exceed 10 percent. Of the funds allocated in the second phase, \$2,419,573 shall be allocated to the rural hospitals and the remaining funds shall be allocated to the remaining hospitals that qualify for a distribution. All hospitals with accepted 2007 Financial Hospital Uniform Reporting System (FHURS) data are eligible for the second phase of the allocation process.

From the funds in Specific Appropriation 190, \$512,243 from the

Grants and Donations Trust Fund and \$1,070,709 from the Medical Care Trust Fund are provided for Medicaid low-income pool payments to specialty pediatric facilities. To qualify for a Medicaid low-income pool payment under this section, a hospital must be licensed as a children's specialty hospital and its combined Medicaid managed care and fee-for-service days as a percentage to total inpatient days must equal or exceed 30 percent. The agency shall use the 2003 Financial Hospital Uniform Reporting System (FHURS) data to determine the combined Medicaid managed care and fee-for-service days. The total Medicaid low-income pool payments made shall be distributed equally to the qualifying hospitals.

From the funds in Specific Appropriation 190, \$700,000 from the General Revenue Fund, \$23,886,181 from the Grants and Donations Trust Fund and \$50,868,334 from the Medical Care Trust Fund are provided to make Medicaid low-income pool payments to hospitals that serve as a safety net in providing emergency, specialized pediatric trauma services and inpatient hospital care to low-income individuals. These payments may be used to provide funding for Federally Qualified Health Centers supporting primary care services in medically underserved areas.

From the funds in Specific Appropriation 190, \$3,090,684 from the Grants and Donations Trust Fund and \$6,460,255 from the Medical Care Trust Fund are provided for county health initiatives emphasizing the expansion of primary care services, and rural health networks. The Department of Health will develop the funding criteria processes, which include assessing statewide benefits, sustainability, access to primary care improvements, ER diversion potential, and health care innovations that are replicable and with a three-year limit on low-income pool funding. The total low-income pool payments provided in this proviso are contingent on the state share being provided through grants and donations from state, county or other governmental funds.

From the funds in Specific Appropriation 190, \$970,800 from the Grants and Donations Trust Fund and \$2,029,200 from the Medical Care Trust Fund are provided to make Medicaid low-income pool payments to hospitals. These payments shall be used, in collaboration with the Department of Health to provide funding for hospitals with hospital based primary care initiatives.

From the funds in Specific Appropriation 190, \$80,900 from the Grants and Donations Trust Fund and \$169,100 from the Medical Care Trust Fund are provided to make health insurance premium payments for low-income residents enrolled in the Miami-Dade Premium Assistance Program. These funds are contingent on a local government contribution of \$80,900.

From the funds in Specific Appropriation 190, \$5,134,565 from the Grants and Donations Trust Fund and \$10,732,449 from the Medical Care Trust Fund are provided to make Medicaid low-income pool payments for premium assistance programs operated by the Palm Beach County Health Care District. These funds are contingent on a local government

contribution from the Palm Beach Health Care District in the amount of \$13,367,014.

From the funds in Specific Appropriation 190, \$1,026,720 from the General Revenue Fund and \$2,146,086 from the Medical Care Trust Fund are provided to make Medicaid low-income pool payments to hospitals. These payments shall be used, in collaboration with the Department of Health to provide funding for hospitals providing poison control programs.

From the funds in Specific Appropriation 190, \$388,320 from the General Revenue Fund and \$811,680 from the Medical Care Trust Fund are provided to continue the primary care and emergency room diversion program in Manatee, Sarasota and DeSoto counties.

From the funds in Specific Appropriation 190, \$39,989,570 in non-recurring grants and donations trust funds and \$83,587,593 in non-recurring medical care trust funds are provided to make Medicaid low-income payments to hospital provider access systems. The funding shall be distributed in a two-step allocation process. The first phase of the allocation process shall distribute payments to qualified hospitals based on the amount of local government funding provided for the uninsured and underinsured. Payments to qualified hospitals will be capped at 100.0 percent of the amount of local government funding it would have received for the uninsured and underinsured without the Low Income Pool program. The local funds for this section of proviso are separate from any other Low Income Pool or hospital program and the amount of local government funding for the first phase of the allocation process shall be limited to \$39,989,570. The second phase of the allocation process is to distribute the remaining funds based on a hospital's Medicaid days, charity care days, and 50 percent of bad debt days to the total Medicaid days, charity care days and 50 percent of bad debt days of all qualifying hospitals. To receive funds in this distribution, the hospital's Medicaid days, charity care days, and 50 percent of bad debt days divided by the hospital's total days must equal or exceed 10 percent. Rural hospitals shall be excluded from the second phase of the allocation process. All hospitals with accepted 2006 Financial Hospital Uniform Reporting System (FHURS) data are eligible for the second phase of the allocation process. The distribution of funds under this section of proviso are contingent on the Agency for Health Care Administration obtaining an amendment to the Special Terms and Conditions for the Florida Medicaid Reform section 1115 demonstration that allows for the distribution of \$1 billion under the Low Income Pool program in the fifth year of the demonstration. If the amendment to the demonstration is not approved by January 31, 2010, then the funds in this section of proviso shall be used in Fiscal Year 2010-2011 for the Low Income Pool program as appropriated in the Fiscal Year 2010-2011 General Appropriations Act.

The agency may make low-income pool Medicaid payments to hospitals in an accelerated manner that is more frequent than on a quarterly basis, subject to the availability of state, local and federal funds.

The agency is authorized to transfer a hospital's low-income pool payments between the various low-income programs listed in this specific appropriation if it is required to obtain approval of the low-income pool payment methodology from the Centers for Medicare and Medicaid Services. Any transfer of funds, however, is contingent on the hospital's net low-income pool payments under the low-income pool plan remaining unchanged.

In the event that the amount of approved non-federal share of matching funds is not provided by local governmental entities, the agency may re-allocate low-income pool funds between programs described within this specific appropriation as necessary to ensure sufficient non-federal matching funds. No re-allocation, under this provision, of low-income pool funds may occur if the level of program increase for any provider access system exceeds the amount of the additional increases in the local non-federal share match that their local governments transfer to the state Medicaid program, and for which the provider access system would have otherwise received.

Funds provided in Specific Appropriation 190 are contingent upon the non-federal share being provided through grants and donations from state, county or other governmental funds. In the event the non-federal share provided through grants and donations is not available to fund the Medicaid low-income payments for eligible Medicaid providers, known as provider access systems, the agency shall submit a revised low-income pool plan to the Legislative Budget Commission for approval.

From the funds in Specific Appropriation 193, \$16,535,960 from the Grants and Donations Trust Fund and \$34,564,042 from the Medical Care Trust Fund are appropriated so that the agency may amend its current facility fees and physician services to allow for payments to hospitals providing primary care to low-income individuals and participating in the Primary Care Disproportionate Share Hospital (DSH) program in Fiscal Year 2003-2004 provided such hospital implements an emergency room diversion program so that non-emergent patients are triaged to lesser acute settings; or a public hospital assumed the fiscal and operating responsibilities for one or more primary care centers previously operated by the Florida Department of Health or the local county government. Any payments made to qualifying hospitals because of this change shall be contingent on the state share being provided through grants and donations from counties, local governments, public entities, or taxing districts, and federal matching funds. This provision shall be contingent upon federal approval of a state plan amendment.

Funds in Specific Appropriation 193, reflect a reduction of \$3,366,515 from the General Revenue Fund, \$7,014,950 from the Medical Care Trust Fund, and \$21,857 from the Refugee Assistance Trust Fund as a result of implementing a reduction in outpatient hospital reimbursement rates. The agency shall implement a recurring methodology in the Title XIX Outpatient Hospital Reimbursement Plan to achieve this reduction. In establishing rates through the normal process, prior to including this reduction, if the unit cost is equal to or less than the unit cost used in establishing the budget, then no additional reduction in rates is necessary. In establishing rates through the normal process, prior to including this reduction, if the unit cost is greater than the unit cost used in establishing the budget, then rates shall be reduced by an amount required to achieve this reduction, but shall not be reduced below the unit cost used in establishing the budget.

From the funds in Specific Appropriation 193, \$28,595,811 from the Grants and Donations Trust Fund and \$59,771,961 from the Medical Care Trust Fund are provided to increase the outpatient cap for adults from \$1,000 to \$1,500 per year and to eliminate the outpatient reimbursement ceilings for teaching, specialty, Community Health Education Program hospitals and Level III Neonatal Intensive Care Units that have a minimum of three of the following designated tertiary services as

SECTION 3 - HUMAN SERVICES

regulated under the certificate of need program: pediatric bone marrow transplantation, pediatric open heart surgery, pediatric cardiac catheterization and pediatric heart transplantation. Included in these funds are the annualized amounts to offset the reductions taken against hospitals defined in section 408.07 (45), Florida Statutes, that are not certified trauma centers, as identified in Section 13, chapter 2007-326, Laws of Florida.

From the funds in Specific Appropriation 193, \$5,915,170 from the Grants and Donations Trust Fund and \$12,364,094 from the Medical Care Trust Fund are provided to eliminate the outpatient reimbursement ceilings for hospitals whose charity care and Medicaid days as a percentage of total adjusted hospital days equals or exceeds 11 percent. For any public hospital or any leased public hospital found to have sovereign immunity or hospital with graduate medical education positions that does not qualify for the elimination of the outpatient ceilings under this provision of proviso or any other proviso listed, such hospitals shall be exempt from the outpatient reimbursement ceilings contingent on the public hospital or local governmental entity providing the required state match. The agency shall use the average of the 2003, 2004 and 2005 audited DSH data available as of March 1, 2009. In the event the agency does not have the prescribed three years of audited DSH data for a hospital, the agency shall use the average of the audited DSH data for 2003, 2004 and 2005 that are available.

From the funds in Specific Appropriation 193, \$132,125 from the Grants and Donation Trust Fund and \$276,173 from the Medical Care Trust Fund are provided to eliminate the outpatient reimbursement ceilings for hospitals that have a minimum of ten licensed Level II Neonatal Intensive Care Beds and are located in Trauma Services Area 2.

From the funds in Specific Appropriation 193, \$7,109,906 from the Grants and Donations Trust Fund and \$14,861,374 from the Medical Care Trust Fund are provided to eliminate the outpatient reimbursement ceilings for hospitals whose Medicaid days, as a percentage of total hospital days, exceed 7.3 percent, and are designated or provisional trauma centers. This provision shall apply to all hospitals that are designated or provisional trauma centers on July 1, 2009 or become a designated or provisional trauma center during Fiscal Year 2009-2010. Included in these funds are the annualized amounts to offset the reductions taken against certified trauma centers as identified in section 13, chapter 2007-326, Laws of Florida. The agency shall use the average of the 2003, 2004 and 2005 audited DSH data available as of March 1, 2009. In the event the agency does not have the prescribed three years of audited DSH data for a hospital, the agency shall use the average of the audited DSH data for 2003, 2004 and 2005 that are available.

Funds provided for the elimination of hospital outpatient ceilings in Specific Appropriation 193 are contingent upon the state share being provided through grants and donations from state, county or other governmental funds. The agency shall submit a revised hospital outpatient reimbursement plan to the Legislative Budget Commission for approval if the state share is not available to fund the removal of hospital outpatient ceilings or if the Centers for Medicare and Medicaid Services does not approve amendments to the Medicaid Hospital Outpatient Reimbursement Plan to eliminate the reimbursement ceilings for certain hospitals.

From the funds in Specific Appropriation 193, \$5,969,075 from the Grants and Donations Trust Fund and \$12,476,770 from the Medical Care Trust Fund are provided to buy back the Medicaid trend adjustment that is being applied against the Medicaid outpatient rates for the following three categories of hospitals. Of these funds \$6,711,233 is provided to the first category of hospitals, which are those hospitals that are part of a system that operate a provider service network in the following manner: \$2,762,760 is for Jackson Memorial Hospital; \$803,934 is for hospitals in Broward Health; \$1,211,814 is for hospitals in the Memorial Healthcare System; and \$795,574 to Shands Jacksonville and \$1,137,151 to Shands Gainesville. In the event that the above amounts exceed the amount of the Medicaid trend adjustment applied to each hospital, then the excess funds will be used to buy back other Medicaid reductions in the outpatient rate. Of the above funds, \$5,985,074 shall be used for the second category to buy back the Medicaid trend adjustment that is being applied against the Medicaid outpatient rates for those hospitals that are licensed as a children's specialty hospital and whose Medicaid days plus charity care days divided by total adjusted patient days equals or exceeds 30 percent. In the event that the above amounts exceed

SECTION 3 - HUMAN SERVICES

the amount of the Medicaid trend adjustment applied to each hospital, then the excess funds will be used to buy back other Medicaid reductions in the outpatient rate. Of the above funds, \$5,749,538 shall be used for the third category to buy back the Medicaid trend adjustment that is being applied against the Medicaid outpatient rates for rural hospitals. In the event that the funds under this category exceed the amount of the Medicaid trend adjustment, then any excess funds will be used to buy back other Medicaid reductions in the outpatient rate for those individual hospitals. For this section of proviso the agency shall use the average of 2003, 2004 and 2005 audited DSH data available as of March 1, 2009. In the event the agency does not have the prescribed three years of audited DSH data for a hospital, the agency shall use the average of the audited DSH data for 2003, 2004 and 2005 that are available.

From the funds in Specific Appropriation 193, \$14,611,860 from the Grants and Donations Trust Fund and \$30,542,219 from the Medical Care Trust Fund are provided for public hospitals, including any leased public hospital found to have sovereign immunity, teaching hospitals as defined in s. 408.07 (45) or 395.805, Florida Statutes, which have seventy or more full-time equivalent resident physicians and designated trauma hospitals to buy back the Medicaid outpatient trend adjustment applied to their individual hospital rates and other Medicaid reductions to their outpatient rates up to actual Medicaid outpatient cost. The payments under this proviso are contingent on the state share being provided through grants and donations from state, county or other governmental funds. This section of proviso does not include the buy back of the Medicaid outpatient trend adjustment applied to the individual state mental health hospitals.

SECTION 4 - CRIMINAL JUSTICE AND CORRECTIONS

SPECIFIC
APPROPRIATION

The moneys contained herein are appropriated from the named funds to the Department of Corrections, Justice Administration, Department of Juvenile Justice, Florida Department of Law Enforcement, Department of Legal Affairs/Attorney General, and the Parole Commission as the amounts to be used to pay the salaries, other operational expenditures and fixed capital outlay of the named agencies.

CORRECTIONS, DEPARTMENT OF

From the funds in Specific Appropriations 582 through 773, each provider contracting with the Department of Corrections must provide the department with a proposal prior to the release of funds that details the services that will be delivered, the expected results, and recommended performance measures. The department and each provider must execute a contract before the release of any funds, and the contract documents must include mutually agreed upon performance measures. Each provider must provide quarterly performance reports to the department. Funds shall only be released to providers whose performance reports indicate successful compliance with the performance measures described in the contract.

The Department of Corrections shall develop and use a uniform format and uniform methodologies for the purpose of reporting annually to the Governor and to the Legislature on the state prison system. Such reports shall include a comprehensive plan for current facility use and any departures from planned facility use, including opening new facilities, renovating or closing existing facilities, and advancing or delaying the opening of new or renovated facilities. The report shall include the maximum capacity of currently operating facilities and the potential maximum capacity of facilities that the department could make operational within the fiscal year. The report shall also identify appropriate sites for future facilities and provide information to support specified locations, such as availability of personnel in local labor markets. Reports should include updated infrastructure needs for existing or future facilities. Each report should reconcile capacity figures to the immediately preceding report. For the purpose of this paragraph, maximum capacity shall be calculated and displayed pursuant to section 944.023(1)(b), Florida Statutes. The department may provide additional analysis of current and future bed needs based on such factors as deemed necessary by the Secretary. The next report shall be due January 1, 2010.

Funds in Specific Appropriations 582 through 773 shall not be used to pay for unoccupied space currently being leased by the Department of Corrections in the event the leases are vacant on or after July 1, 2009, and for which it has been determined by the Secretary of the department that there is no longer a need.

The Department of Corrections may, subject to all applicable provisions of chapter 216, Florida Statutes, transfer funds and positions and salary rate among budget entities and programs within Specific Appropriations 582 through 773 if necessary, to ensure public safety and avoid adversely affecting current employees due to the elimination of vacant positions and other approved reductions. It is the intent of the Legislature that priority shall be placed on preserving positions in correctional institutions and community corrections.

Funds in Specific Appropriations 582 through 773 include reductions in full-time equivalent positions and associated salary and benefits. Those reductions in full-time equivalent positions must be from, to the maximum extent feasible, supervisory and managerial positions.

To minimize the impact of funding reductions within Specific Appropriations 582 through 773, the department shall identify vacant correctional work release and substance abuse programming capacity and has the discretion pursuant to the provisions of Chapter 216, Florida Statutes, to transfer funds to enable the filling of such additional capacity in accordance with the provisions of chapter 945, Florida Statutes.

By February 1, 2010, the department shall provide the Legislature a report on the department's provision of food services to inmates housed in Florida's state prisons. The report shall include data from the

SECTION 4 - CRIMINAL JUSTICE AND CORRECTIONS

period January 2009 through January 2010. The report shall include but not be limited to the master menu provided for the inmate population, caloric content of meals, inmate participation rate at meals, department staffing structure, detailed analysis of total expenditures, per diem cost, federal grant participation, utilization of certified minority business enterprises and utilization of PRIDE.

PROGRAM: SECURITY AND INSTITUTIONAL OPERATIONS

From the funds provided in Specific Appropriations 617, 631 and 644, a total of \$1,074,362 is provided as payment in lieu of ad valorem taxation for distribution to local government taxing authorities. Funding is provided as follows: \$269,324 for the Bay Correctional Facility, \$339,242 for the Moore Haven Correctional Facility, \$275,560 for the South Bay Correctional Facility, \$100,000 for the Gadsden Correctional Facility and \$90,236 for the Lake City Correctional Facility. These funds may not be distributed if there are outstanding claims for ad valorem taxes due on the property at issue and may not be distributed until the property is reclassified on the real property and tangible personal property rolls as Government State property back to the date the finance corporation or other state entity acquired the title thereto. These distributions shall be adjusted, with the respect to any facility, to reimburse the Department of Management Services, and any predecessor agency, for the total amounts expended by the state in resisting the imposition of such ad valorem tax claims, including all attorneys' fees and costs actually incurred by the state's agencies.

From the funds in Specific Appropriations 617, 631, and 644, the Department of Management Services must ensure all future private prison contracts have explicit conditions that provide for the flexibility to adjust the percentages of special needs inmates to allow for changes in overall state populations of those inmates. Such percentages must be based on Department of Corrections' special needs inmate population forecasts, so that medical and mental healthcare costs are appropriately shared by both private and state prisons. All future private prison contracts must require each private prison vendor to report the same performance measures for inmate programs in private prisons as reported by the Department of Corrections for its comparable public institutions. As part of the private prisons contracting negotiations process, the Department of Corrections must consult with the Department of Management Services and each private prison vendor to establish high, reasonable, and achievable performance standards. All future private prison contracts must require each private prison vendor to develop inmate visitation policies and telephone rates for the private prisons that are consistent with those policies followed by the state's public prisons and encourage inmate family contact, as directed by Florida Statutes. Finally, the Department of Management Services must require all future private prison contracts to adhere to Department of Management Services' established criteria for awarding Privately Operated Institutions Inmate Welfare Trust Fund monies so that Department of Management Services' staff can verify such funds are being used appropriately.

If at any time during the term of the contract, including any renewal period, the Legislature reduces appropriations to the department or the department's legally available funds are otherwise inadequate to fully fund the contract, the parties agree to collaborate in good faith in accommodating such funding shortfalls in a manner least disruptive to current operations. If necessary, the parties agree to engage in good

SECTION 4 - CRIMINAL JUSTICE AND CORRECTIONS

faith negotiations to amend the contract to achieve commensurate reduction in services corresponding to any proposed or necessary per diem reduction. If accommodations or negotiations become irreconcilably untenable to the parties, the Department of Management Services may exercise its no-fault termination rights under the contract.

From the funds in Specific Appropriations 617, 631, and 644, the Department of Management Services is directed to execute private prison contract amendments to each operations and management contract for each correctional facility currently under its supervision in order to provide the contractors the maximum flexibility to address recurring reductions in contract amounts. Such contract amendments shall expire on June 30, 2010. The Department of Management Services and the private prison contractors may amend the provisions of the private prison operating contracts limiting correctional officer overtime and part-time hours to be consistent with the overtime and part-time use as permitted by the Department of Corrections and the American Correctional Association standards. The contract amendments may also eliminate deductions for vacant positions as long as the services associated with the position are being provided through the use of overtime or part-time staff. The Department of Management Services may amend the private prison operating contracts to provide for the payment of costs associated with all inmate academic, vocational, behavioral and substance abuse programs from funds in the Privately Operated Institutions Inmate Welfare Trust Fund. Such contract amendments may not negatively affect the Department of Corrections.

The Department of Corrections may contract through a request for proposal for innovative and cost effective approaches to the financing, construction and operation of private correctional beds and services which can include any and all operations defined and requested by the department, including but not limited to financing, operations, housing, staffing, security, meals, medical care, transportation, education and substance abuse treatment services. The department may consult with other state agencies on the development of this request for proposal. Any resulting contract shall be funded through existing appropriations, and at a minimum provide for per diem costs at a cost of at least seven percent below what the department can incarcerate similar inmates. The department shall not implement this section in a manner that reduces participation in existing reentry programs.

ADULT MALE CUSTODY OPERATIONS

Funds and positions in Specific Appropriations 607 through 773, include: an increase of 36 full-time equivalent positions and \$772,852 from the General Revenue Fund to support the state-wide inmate population increase. These funds and positions are sufficient to provide housing and security for 105,583 inmates when fully annualized. Variable expenses, maintenance, and health services funds are provided for an average daily population of 103,270 inmates.

Funds and positions in Specific Appropriations 607 through 773 are provided to address security needs for the additional prison populations expected in Fiscal Year 2009-2010 as projected by the Criminal Justice Estimating Conference.

PROGRAM: RESIDENTIAL CORRECTIONS PROGRAM

From the funds in Specific Appropriations 1090 through 1112, the department shall provide a weekly residential resource utilization report that identifies operating capacity, current placements, vacant placements, number of youth waiting placement and the percent of use for all residential commitment beds. The department may increase or decrease beds or overlay services provided that the change will better serve taxpayers and the youth under its care. Notification and justification of changes will be provided to the Governor's Office of Policy and Budget, the chair of the Senate Policy and Steering Committee on Ways and Means, and the chair of the House Full Appropriations Council on General Government and Health Care prior to implementing any change.

From the funds in Specific Appropriations 1090 through 1112, for determining the most appropriate bed reductions in each level of residential commitments, the department may consider those residential commitment programs, if necessary, which have scored below 72 on the overall program score represented in the Comprehensive Accountability Report. The department may also consider programs that are underutilized, those that provide services for which there is a less critical need and other relevant performance measures in determining which level of residential beds should be reduced. Prior to any change authorized herein, notification and justification must be provided to the Governor's Office of Policy and Budget, the chair of the Senate Policy and Steering Committee on Ways and Means, and the chair of the House Full Appropriations Council on General Government and Health Care.

As part of the department's Beach Management Assistance Program, funds shall be allocated to those projects on the 2009-2010 Priority Projects List with a federal cost-share, according to their readiness-to-proceed and in such a manner as to maximize the federal dollars leveraged. Further, pursuant to s. 161.143(5)(a), F.S., the top three projects on the department's Inlet Management List shall be funded accordingly. Appropriated funds shall also be used for post-construction monitoring. To the extent state matching funds for monitoring requirements are not available, such unrealized state dollars may be considered as a local government cost credit toward future beach management projects or activities. The remaining dollars shall be used to fund projects on the department's Alternate Projects List for Fiscal Year 2009-2010 that received appropriations from Specific Appropriation 1748 of chapter 2008-152, Laws of Florida, and Specific Appropriation 1834 of chapter 2007-72, Laws of Florida.

SECTION 5 - NATURAL RESOURCES/ENVIRONMENT/GROWTH MANAGEMENT/TRANSPORTATION

Pursuant to the 2008-2009 General Appropriations Act, Specific Appropriation 1748 Proviso Report submitted to the President of the Senate and Speaker of the House of Representatives, the department shall implement those recommendations pertaining to the project management provisions addressing funding, accountability, and transparency, for the 2009-2010 fiscal year.

AGENCY FOR WORKFORCE INNOVATION

From the funds in Specific Appropriations 2104 through 2162, any expenditure from the Temporary Assistance for Needy Families (TANF) Block Grant must be expended in accordance with the requirements and limitations of Part A of Title IV of the Social Security Act, as amended, or any other applicable federal requirement or limitation. Before any funds are released by the Department of Children and Family Services, each provider shall identify the number of clients to be served and certify their eligibility under Part A of Title IV of the Social Security Act. Funds may not be released for services to any clients except those so identified and certified.

The agency head or a designee shall certify that controls are in place to ensure that such funds are expended in accordance with the requirements and limitations of federal law and that reporting requirements of federal law are met. It shall be the responsibility of any entity to which such funds are appropriated to obtain the required certification prior to any expenditure of funds.

From funds in Specific Appropriations 2104 through 2162, the Agency for Workforce Innovation shall submit a plan by October 1, 2009, to the Southwood Shared Resource Center (SSRC), Agency for Enterprise Information Technology, Executive Office of the Governor, the chair of the Senate Policy and Steering Committee on Ways and Means, and the chair of the House Full Appropriations Council on Education and Economic Development, providing for the efficient transfer of all data center service resources allocated to data center functions within the agency to the SSRC, pursuant to section 17, Chapter 2008-116, Laws of Florida.

No federal or state funds shall be used to pay for space being leased by a Regional Workforce Board, Workforce Florida, Inc., or the Agency for Workforce Innovation if it has been determined by whichever entity is the lessee that there is no longer a need for the leased space. All leases, and performance and obligations under the leases, are subject to and contingent upon an annual appropriation by the Florida Legislature. In the event that such annual appropriation does not occur, or in the alternative, there is either a reduction in funding from the prior annual appropriation or the entity which is the lessee determines that the annual appropriation is insufficient to meet the requirements of the leases, then the lessee has the right to terminate the lease upon written notice by the lessee and the lessee shall have no further obligations under the contracts.

PROGRAM: WORKFORCE SERVICES

PROGRAM SUPPORT

It is the intent of the Legislature that the administration and delivery of workforce services and programs that are currently provided by agency employees working in One Stop Career Centers operated by the Regional Workforce Boards may be transferred from the Agency for Workforce Innovation to the Regional Workforce Boards. Such transfers shall only occur if the agency determines that the Regional Workforce Boards would more effectively and efficiently deliver services and if such transfers comply with applicable federal regulations. For all transfers made, the agency shall submit budget amendments pursuant to chapter 216, Florida Statutes, to move positions to the Executive Office of the Governor's reserve and realign the budget into the appropriate operating budget appropriation categories to implement the transfer of programs and service delivery to the Regional Workforce Boards.

From the funds in Specific Appropriations 2121 through 2162, the Agency for Workforce Innovation shall determine whether any funds provided for specific workforce programs, projects or initiatives are not an allowable use of federal funds. If the agency finds that any project or initiative for which funds are specifically appropriated in this act is not an allowable use of federal funds, the agency shall notify the Executive Office of the Governor, the chair of the Senate Policy and Steering Committee on Ways and Means and the chair of the House Full Appropriations Council on Education and Economic Development.

From the Child Care and Development Block Grant Trust Fund in Specific Appropriation 2157, a minimum of \$3,000,000 shall be used to enhance the quality of child care through the Teacher Education and Compensation Helps Program (T.E.A.C.H.).

From the funds in Specific Appropriation 2157 in the Welfare Transition Trust Fund, \$1,400,000 from recurring funds is provided for the Home Instruction Program for Pre-School Youngsters (HIPPY).

Funds in Specific Appropriation 2157 from the Child Care and Development Block Grant Trust Fund may be used to provide a rate differential or stipend to programs which reach the Gold Seal Quality Care designation. The rate differential shall not exceed twenty percent of the reimbursement rate.

Funds in Specific Appropriation 2157 require a match from local sources for working poor eligible participants of six percent on child care slots. In-kind match is allowable provided there is not a reduction in the number of slots or level of services from the provision of in-kind match. The Agency for Workforce Innovation may adopt a policy to grant a waiver of the six percent match requirement to a rural county that demonstrates a significant hardship in meeting the match requirement. Progress towards meeting this requirement shall be monitored by the Agency for Workforce Innovation, and shall be considered satisfactorily attained if the six percent requirement is met on a statewide basis.

From the funds in Specific Appropriation 2157, the Agency for Workforce Innovation shall designate an amount to be used for the Child Care Executive Partnership Program, as defined in section 411.0102, Florida Statutes, as match to expand the provision of services to low income families at or below 200 percent of the federal poverty level. Funds for this program may be used to match funds for statewide contracts.

Funds in Specific Appropriations 2157 and 2161B provided for school readiness programs as defined in chapter 411, Florida Statutes, are allocated based on June 30, 2008, funding level with any additional funding above that level allocated by use of the School Readiness Allocation Formula submitted to the Legislature on December 29, 2008, pursuant to section 411.01(9), Florida Statutes.

The transition plans shall be submitted to the legislative appropriations committee chairs and the Governor. The transition plans shall establish timetables for each transfer, identify the costs and savings associated with each transfer, the positions and resources to be moved and the necessary budget adjustments required to accomplish the consolidation.

administration, system programming, job control, production control, print, storage, technical support, help desk and managed services.

By October 1, 2009, the Agency for Enterprise Information Technology shall submit a proposal for reducing the service cost per user and overall cost of the current electronic mail customers of the Southwood Shared Resource Center (SSRC). The proposal shall be submitted for approval to the Legislative Budget Commission along with any necessary budget amendments. The proposal shall consist of a recommendation to provide the least costly electronic mail solution which maintains current service levels for existing SSRC customers. The proposed solution shall be funded from current resources. The proposal shall, at a minimum, be based on a review of the following options:

- 1. Allow the SSRC to contract with another state agency for use of its electronic mail system with similar electronic mail services to temporarily provide electronic mail services for existing customers.
2. Allow the SSRC to procure an externally sourced system option that can be used to provide temporary electronic mail services for the existing customers.
3. Transition of additional electronic mail customers onto the existing service platform at the SSRC to reduce the service cost per user.

The proposal shall include an analysis of:

- 1. The ability of each option to meet major requirements of each customer;
2. A description of the scope of functionality and operations; and
3. A description of the required resources associated with each option, including one-time acquisition costs, mail migration costs, and ongoing operations, administrative overhead, and staffing costs.

If the option results in increased electronic mail costs for any customer, the proposal shall identify those costs and the funding sources proposed to pay those costs. In order to develop the proposal, the Agency for Enterprise Information Technology shall consult with and, as necessary, form workgroups consisting of agency staff from affected state agencies. State agencies shall cooperate with the Agency for Enterprise Technology in its development of the proposal.

The study shall be provided to the chair of the Senate Committee on General Government Appropriations and the chair of the House Government Operations Appropriations Committee no later than January 31, 2010.

The Office of Program Policy Analysis and Government Accountability (OPPAGA) shall conduct a study to examine the cost effectiveness of alternatives for providing field support services, including outsourcing field support operations and the impact, at a minimum, on the department's staffing, fleet vehicles, district offices, retailer network, and services. The study shall include advantages and disadvantages of each option reported; the fiscal impact of each option if ascertainable; and other relevant information.
