SCH VIIIIB-2 NARR 23-24 NARRATIVE:
 PRIORITY #03

IT COMPONENT? NO

Suspends the Other Personal Services category. This would eliminate all the department's OPS staff including the department's internship program, end financial support of the Governor's Fellowship Program, end paying costs associated with court reporting, transcriptions, public attorney fees and supplemental legal fees. These programs and costs cannot be absorbed in any other category in the department as those categories are also being substantially reduced or eliminated in this required exercise.

AGENCY ISSUE NARRATIVE:

SCH VIIIIB-2 NARR 23-24 NARRATIVE:
 PRIORITY #02

IT COMPONENT? NO

Suspends the Lease or Lease-Purchase of Equipment budget. This category provides funding for the lease or lease-purchase of equipment, fixtures, and other tangible personal property. The elimination of this budget has the potential to impact payments on lease agreements for copiers, fax machines and postage meters. If suspended, invoices and costs cannot be absorbed in the Expenses category as that category is also being substantially reduced in this required exercise.

AGENCY ISSUE NARRATIVE:

SCH VIIIIB-2 NARR 23-24 NARRATIVE:
 PRIORITY #06

IT COMPONENT? NO

Suspends the Consultant Fees budget. The department has already reduced its workforce by over 40 percent since 2000-01. A portion of the workforce reduction was moved to consultants to provide these services and it is anticipated that this will continue as the number of employees decrease and our workload increases due to the anticipated requirements of the America Rescue Plan Act of 2021 (ARPA). Reducing consultant fees would impact FDOT in the following ways:

- Delay the completion of certain planning tools such as congestion management and process mapping.
- Increase response time for traffic reviews
- Reduction in the usage of the Electronic Document Management System (EDMS) which supports construction and bridge maintenance by document management
- Delay or eliminate the development of traffic computer modeling courses for the districts and MPOs that help develop transportation solutions
- Delay administrative tasks and responsibilities to support eminent domain active lawsuits

Additional delays or restrictions in moving consultants into the Work Program would affect not only the department's operations but Florida's economy by removing state-funded jobs in the construction, information technology and transportation industries. This further reduction may cause projects to be delayed and will result in less services being provided by the department.

AGENCY ISSUE NARRATIVE:

SCH VIIIIB-2 NARR 23-24 NARRATIVE:
 PRIORITY #04

IT COMPONENT? NO

Suspends the Operating Capital Outlay category and will eliminate the department's ability to purchase day-to-day equipment but also equipment for emergency events such as: portable truck scales; crash attenuators; mowers; and saws for cutting concrete. This suspension of budget will also impact the department's ability to buy and/or replace lab equipment that is used to test the materials that go into Florida's roads and bridges. Those test are required as part of the federal reporting mandates. Aging equipment will become more costly to operate and maintain and, if the equipment fails, it will adversely impact the delivery of services. With the demand on resources to implement the projects in the America Rescue Plan Act of 2021 (ARPA), this suspension of budget will impact the department's ability to meet ARPA goals.

CONTRACTED SERVICES REDUCTIONS	33G0870

AGENCY ISSUE NARRATIVE:

SCH VIIIIB-2 NARR 23-24 NARRATIVE:
 PRIORITY #09

IT COMPONENT? NO

Reduces Contracted Services category by 20 percent. The department protects the fixed costs in this category. Any increases in any fixed costs will impact the day-to-day operations of the department. This category provides budget to fund contracts with vendors to perform various services such as:

- Credit card processing fees
- Janitorial services which are negotiated by and under contract with Department of Management Services (DMS)
- Court reporter and legal fees

- Mailing and delivery services
- Staff augmentation services
- Bank service contracts
- Pest control and elevator inspections

The department would experience reductions in contracts with vendors providing planning and development information technology projects important for keeping the Work Program systems running as well as updating software and providing computer maintenance. Information Technology services would be delayed or eliminated entirely. Other impacts include reduced assistance to transit agencies regarding operational analysis and performance review; reduced production of the Florida Aeronautical Chart and Airport Directory; reduced maintenance of GPS sites; and reduced maintenance of the materials lab which evaluates the materials used in construction projects.

FDOT teams are first on the scenes of natural disasters and other emergency situations. Our team clear the way for emergency responders' to have access to the area. The department not only provides access to first responders, but also provides resources and support to other agencies who need assistance in critical situations. FDOT's ability to respond to emergency situations will be restricted, due to the inability to hire additional personnel or allow employees to work overtime.

Since 2000-01, the department has reduced its workforce by over 40 percent and this budget reduction will further limit the department's ability to hire highly skilled staff in hard to fill positions. With the decrease of department staff, the department has had to hire consultant and contracted employees to manage our workload and demands on our resources. These resources are limited and costs of consultants and contracted staff are increasing each year.

IT COMPONENT? NO

Reduces the Expenses category by 30 percent. Any increases in fixed costs coupled with reductions in budget will impact the day-to-day operations of the department. Reductions could result in non-payment and increase the potential of litigation.

This category covers:

- Building leases negotiated by the Department of Management Services (DMS)
- Toll facility insurance required to protect the toll facilities such as fires, storms, terrorist attacks
- Software licenses and maintenance (example: Office 365) that allow the department to communicate internally and with our external partners and customers
- Utility bills,
- Communication costs for cell phones, data lines and circuits, Viacom, audio/visual conferences and trainings, pages and printed safety message communications
- Office supplies and postage
- Travel used by our teams daily and to mobilize during emergencies

The department would need to eliminate all travel, eliminate communication services, reduce mission critical information technology application maintenance and upgrades, would be unable to renew any increases in building lease contracts managed by DMS or absorb any increases in the Microsoft Office 365 licenses if these reductions are implemented.

AGENCY ISSUE NARRATIVE:
 SCH VIIIIB-2 NARR 23-24 NARRATIVE: IT COMPONENT? NO
 PRIORITY #04

Suspends the Operating Capital Outlay category and will eliminate the department's ability to purchase day-to-day equipment but also equipment for emergency events such as: portable truck scales; crash attenuators; mowers; and saws for cutting concrete. This suspension of budget will also impact the department's ability to buy and/or replace lab equipment that is used to test the materials that go into Florida's roads and bridges. Those test are required as part of the federal reporting mandates. Aging equipment will become more costly to operate and maintain and, if the equipment fails, it will adversely impact the delivery of services. With the demand on resources to implement the projects in the America Rescue Plan Act of 2021 (ARPA), this suspension of budget will impact the department's ability to meet ARPA goals.

CONTRACTED SERVICES REDUCTIONS		33G0870

ST TRANSPORT (PRIMARY) TF -STATE 500,000- 2540 1
 =====

AGENCY ISSUE NARRATIVE:
 SCH VIIIIB-2 NARR 23-24 NARRATIVE: IT COMPONENT? NO
 PRIORITY #09

Reduces Contracted Services category by 20 percent. The department protects the fixed costs in this category. Any increases in any fixed costs will impact the day-to-day operations of the department. This category provides budget to fund contracts with vendors to perform various services such as:

- Credit card processing fees
- Janitorial services which are negotiated by and under contract with Department of Management Services (DMS)
- Court reporter and legal fees

MANAGEMENT REDUCTIONS		33G0000
CONTRACTED SERVICES REDUCTIONS		33G0870

- Mailing and delivery services
- Staff augmentation services
- Bank service contracts
- Pest control and elevator inspections

The department would experience reductions in contracts with vendors providing planning and development information technology projects important for keeping the Work Program systems running as well as updating software and providing computer maintenance. Information Technology services would be delayed or eliminated entirely. Other impacts include reduced assistance to transit agencies regarding operational analysis and performance review; reduced production of the Florida Aeronautical Chart and Airport Directory; reduced maintenance of GPS sites; and reduced maintenance of the materials lab which evaluates the materials used in construction projects.

 PRIORITY #08

IT COMPONENT? NO

Reduces the Expenses category by 30 percent. Any increases in fixed costs coupled with reductions in budget will impact the day-to-day operations of the department. Reductions could result in non-payment and increase the potential of litigation.

This category covers:

- Building leases negotiated by the Department of Management Services (DMS)
- Toll facility insurance required to protect the toll facilities such as fires, storms, terrorist attacks
- Software licenses and maintenance (example: Office 365) that allow the department to communicate internally and with our external partners and customers
- Utility bills,
- Communication costs for cell phones, data lines and circuits, Viacom, audio/visual conferences and trainings, pages and printed safety message communications
- Office supplies and postage
- Travel used by our teams daily and to mobilize during emergencies

The department would need to eliminate all travel, eliminate communication services, reduce mission critical information technology application maintenance and upgrades, would be unable to renew any increases in building lease contracts managed by DMS or absorb any increases in the Microsoft Office 365 licenses if these reductions are implemented.

TRANSPORTATION, MATERIALS AND		
EQUIPMENT REDUCTION		33G0790

- Leases on heavy equipment and materials
- Shoulder mounted and under deck luminaries
- To pay the operation of field equipment installed in roadways to facilitate the Intelligent Transportation System (ITS) statewide
- Sign repairs
- Shoulder washouts
- Pothole repairs and guardrail repairs

The department's ability to purchase materials will be significantly impacted and will reduce the productivity, efficiency and effectiveness in roadside safety response and performance. The ability to purchase fuel and maintain an inventory of adequate supplies will be impacted, creating safety concerns, especially during emergencies. Intelligent Transportation System (ITS) equipment includes dynamic message signs, closed circuit TV camera and encoders, microwave detection devices, communication hubs, etc. This equipment communicates data for analysis to minimize congestion and reduce secondary accidents while also providing travel information to the public.

Suspends the Operating Capital Outlay category and will eliminate the department's ability to purchase day-to-day equipment but also equipment for emergency events such as: portable truck scales; crash attenuators; mowers; and saws for cutting concrete. This suspension of budget will also impact the department's ability to buy and/or replace lab equipment that is used to test the materials that go into Florida's roads and bridges. Those test are required as part of the federal reporting mandates. Aging equipment will become more costly to operate and maintain and, if the equipment fails, it will adversely impact the delivery of services. With the demand on resources to implement the projects in the America Rescue Plan Act of 2021 (ARPA), this suspension of budget will impact the department's ability to meet ARPA goals.

 PRIORITY #09

IT COMPONENT? NO

Reduces Contracted Services category by 20 percent. The department protects the fixed costs in this category. Any increases in any fixed costs will impact the day-to-day operations of the department. This category provides budget to fund contracts with vendors to perform various services such as:

- Credit card processing fees
- Janitorial services which are negotiated by and under contract with Department of Management Services (DMS)
- Court reporter and legal fees
- Mailing and delivery services
- Staff augmentation services
- Bank service contracts
- Pest control and elevator inspections

The department would experience reductions in contracts with vendors providing planning and development information technology projects important for keeping the Work Program systems running as well as updating software and providing computer maintenance. Information Technology services would be delayed or eliminated entirely. Other impacts include reduced assistance to transit agencies regarding operational analysis and performance review; reduced production of the Florida Aeronautical Chart and Airport Directory; reduced maintenance of GPS sites; and reduced maintenance of the materials lab which evaluates the materials used in construction projects.

SCH VIIIIB-2 NARR 23-24 NARRATIVE:
 PRIORITY #10

IT COMPONENT? NO

FDOT teams are first on the scenes of natural disasters and other emergency situations. Our team clear the way for emergency responders' to have access to the area. The department not only provides access to first responders, but also provides resources and support to other agencies who need assistance in critical situations. FDOT's ability to respond to emergency situations will be restricted, due to the inability to hire additional personnel or allow employees to work overtime.

Since 2000-01, the department has reduced its workforce by over 40 percent and this budget reduction will further limit the department's ability to hire highly skilled staff in hard to fill positions. With the decrease of department staff, the department has had to hire consultant and contracted employees to manage our workload and demands on our resources. These resources are limited and costs of consultants and contracted staff are increasing each year.

Without these resources, the department will be slow to implement and report to the federal government as required by ARPA guidance. On top of the ARPA program, the department is responsible for implementing and administering other federal grants, the \$11.1 billion Work Program, and the day-to-day operations of the department.

IT COMPONENT? NO

Reduces the Expenses category by 30 percent. Any increases in fixed costs coupled with reductions in budget will impact the day-to-day operations of the department. Reductions could result in non-payment and increase the potential of litigation.

This category covers:

- Building leases negotiated by the Department of Management Services (DMS)
- Toll facility insurance required to protect the toll facilities such as fires, storms, terrorist attacks
- Software licenses and maintenance (example: Office 365) that allow the department to communicate internally and with our external partners and customers
- Utility bills,
- Communication costs for cell phones, data lines and circuits, Viacom, audio/visual conferences and trainings, pages and printed safety message communications
- Office supplies and postage
- Travel used by our teams daily and to mobilize during emergencies

The department would need to eliminate all travel, eliminate communication services, reduce mission critical information technology application maintenance and upgrades, would be unable to renew any increases in building lease contracts managed by DMS or absorb any increases in the Microsoft Office 365 licenses if these reductions are implemented.

 PRIORITY #06

IT COMPONENT? NO

Suspends the Consultant Fees budget. The department has already reduced its workforce by over 40 percent since 2000-01. A portion of the workforce reduction was moved to consultants to provide these services and it is anticipated that this will continue as the number of employees decrease and our workload increases due to the anticipated requirements of the America Rescue Plan Act of 2021 (ARPA). Reducing consultant fees would impact FDOT in the following ways:

- Delay the completion of certain planning tools such as congestion management and process mapping.
- Increase response time for traffic reviews
- Reduction in the usage of the Electronic Document Management System (EDMS) which supports construction and bridge maintenance by document management
- Delay or eliminate the development of traffic computer modeling courses for the districts and MPOs that help develop transportation solutions
- Delay administrative tasks and responsibilities to support eminent domain active lawsuits

Additional delays or restrictions in moving consultants into the Work Program would affect not only the department's operations but Florida's economy by removing state-funded jobs in the construction, information technology and transportation industries. This further reduction may cause projects to be delayed and will result in less services being provided by the department.

- Building leases negotiated by the Department of Management Services (DMS)
- Toll facility insurance required to protect the toll facilities such as fires, storms, terrorist attacks
- Software licenses and maintenance (example: Office 365) that allow the department to communicate internally and with our external partners and customers
- Utility bills,
- Communication costs for cell phones, data lines and circuits, Viacom, audio/visual conferences and trainings, pages and printed safety message communications
- Office supplies and postage
- Travel used by our teams daily and to mobilize during emergencies

The department would need to eliminate all travel, eliminate communication services, reduce mission critical information technology application maintenance and upgrades, would be unable to renew any increases in building lease contracts managed by DMS or absorb any increases in the Microsoft Office 365 licenses if these reductions are implemented.

AGENCY ISSUE NARRATIVE:
 SCH VIIIIB-2 NARR 23-24 NARRATIVE: IT COMPONENT? NO
 PRIORITY #03

Suspends the Other Personal Services category. This would eliminate all the department's OPS staff including the department's internship program, end financial support of the Governor's Fellowship Program, end paying costs associated with court reporting, transcriptions, public attorney fees and supplemental legal fees. These programs and costs cannot be absorbed in any other category in the department as those categories are also being substantially reduced or eliminated in this required exercise.

LEASE/LEASE PURCHASE OF EQUIPMENT	
REDUCTION	33G0700
SPECIAL CATEGORIES	100000

AGENCY ISSUE NARRATIVE:
 SCH VIIIIB-2 NARR 23-24 NARRATIVE: IT COMPONENT? NO
 PRIORITY #05

Suspends the Acquisition of Motor Vehicles category. With the increase of funds from the American Rescue Plan Act (ARPA), demand for our maintenance vehicles will be increased. These vehicles are used for field operations, such as road and bridge inspections, pavement friction testing, maintenance activities such as highway light replacement and for emergency situations and repairs and are used in the performance of mandatory test performed the State Laboratory in Gainesville. Suspension of these funds would eliminate the maintenance on the current fleet which could cause safety issues for the employees who drive and use the vehicles. There are no other resources available to purchase maintenance vehicles or fleet vehicles in the department.

CONSULTANT FEES REDUCTION	33G0750
SPECIAL CATEGORIES	100000
CONSULTANT FEES	100686

ST TRANSPORT (PRIMARY) TF -STATE 276,776- 2540 1
 =====

AGENCY ISSUE NARRATIVE:
 SCH VIIIIB-2 NARR 23-24 NARRATIVE: IT COMPONENT? NO
 PRIORITY #06

Suspends the Consultant Fees budget. The department has already reduced its workforce by over 40 percent since 2000-01. A portion of the workforce reduction was moved to consultants to provide these services and it is anticipated that this will continue as the number of employees decrease and our workload increases due to the anticipated requirements of the America Rescue Plan Act of 2021 (ARPA). Reducing consultant fees would impact FDOT in the following ways:

COL A10		
SCH VIIIIB-2		
RED FY23-24		
POS	AMOUNT	CODES
TRANSPORTATION, DEPT OF		55000000
FLORIDA'S TURNPIKE SYSTEMS		55180000
<u>FL'S TURNPIKE ENTERPRISE</u>		55180100
GOV OPERATIONS/SUPPORT		16
<u>TOLL OPERATIONS</u>		<u>1601.01.05.00</u>
MANAGEMENT REDUCTIONS		33G0000
CONSULTANT FEES REDUCTION		33G0750

- Delay the completion of certain planning tools such as congestion management and process mapping.
- Increase response time for traffic reviews
- Reduction in the usage of the Electronic Document Management System (EDMS) which supports construction and bridge maintenance by document management
- Delay or eliminate the development of traffic computer modeling courses for the districts and MPOs that help develop transportation solutions
- Delay administrative tasks and responsibilities to support eminent domain active lawsuits

Additional delays or restrictions in moving consultants into the Work Program would affect not only the department's operations but Florida's economy by removing state-funded jobs in the construction, information technology and transportation industries. This further reduction may cause projects to be delayed and will result in less services being provided by the department.

OPERATING CAPITAL OUTLAY		
REDUCTION		33G0850
OPERATING CAPITAL OUTLAY		060000
ST TRANSPORT (PRIMARY) TF -STATE	97,485-	2540 1
	=====	

AGENCY ISSUE NARRATIVE:
 SCH VIIIIB-2 NARR 23-24 NARRATIVE:
 PRIORITY #04

IT COMPONENT? NO

Suspends the Operating Capital Outlay category and will eliminate the department's ability to purchase day-to-day equipment but also equipment for emergency events such as: portable truck scales; crash attenuators; mowers; and saws for cutting concrete. This suspension of budget will also impact the department's ability to buy and/or replace lab equipment that is used to test the materials that go into Florida's roads and bridges. Those test are required as part of the federal reporting mandates. Aging equipment will become more costly to operate and maintain and, if the equipment fails, it will adversely impact the delivery of services. With the demand on resources to implement the projects in the America Rescue Plan Act of 2021 (ARPA), this suspension of budget will impact the department's ability to meet ARPA goals.

AGENCY ISSUE NARRATIVE:

SCH VIIIIB-2 NARR 23-24 NARRATIVE:
 PRIORITY #09

IT COMPONENT? NO

Reduces Contracted Services category by 20 percent. The department protects the fixed costs in this category. Any increases in any fixed costs will impact the day-to-day operations of the department. This category provides budget to fund contracts with vendors to perform various services such as:

- Credit card processing fees
- Janitorial services which are negotiated by and under contract with Department of Management Services (DMS)
- Court reporter and legal fees
- Mailing and delivery services
- Staff augmentation services
- Bank service contracts
- Pest control and elevator inspections

The department would experience reductions in contracts with vendors providing planning and development information technology projects important for keeping the Work Program systems running as well as updating software and providing computer maintenance. Information Technology services would be delayed or eliminated entirely. Other impacts include reduced assistance to transit agencies regarding operational analysis and performance review; reduced production of the Florida Aeronautical Chart and Airport Directory; reduced maintenance of GPS sites; and reduced maintenance of the materials lab which evaluates the materials used in construction projects.

STATE FUNDING REDUCTIONS	3300000
ADMINISTRATIVE REDUCTIONS	3300010

Since 2000-01, the department has reduced its workforce by over 40 percent and this budget reduction will further limit the department's ability to hire highly skilled staff in hard to fill positions. With the decrease of department staff, the department has had to hire consultant and contracted employees to manage our workload and demands on our resources. These resources are limited and costs of consultants and contracted staff are increasing each year.

Without these resources, the department will be slow to implement and report to the federal government as required by ARPA guidance. On top of the ARPA program, the department is responsible for implementing and administering other federal grants, the \$11.1 billion Work Program, and the day-to-day operations of the department.
