\*\*\*\*\*

AGENCY ISSUE NARRATIVE:

SCH VIIIIB-2 NARR 24-25 NARRATIVE:  
 PRIORITY #06

IT COMPONENT? NO

Suspends the Consultant Fees budget. The department has already reduced its workforce by over 40 percent since FY 2000-01. A portion of the workforce reduction was moved to consultants to provide these services and it is anticipated that this will continue as the number of employees decrease and our workload increases. Reducing consultant fees would impact FDOT in the following ways:

- Delay the completion of certain planning tools such as congestion management and process mapping.
- Increase response time for traffic reviews
- Reduction in the usage of the Electronic Document Management System (EDMS) which supports construction and bridge maintenance by document management
- Delay or eliminate the development of traffic computer modeling courses for the districts and MPOs that help develop transportation solutions
- Delay administrative tasks and responsibilities to support eminent domain active lawsuits

Additional delays or restrictions in moving consultants into the Work Program would affect not only the department's operations but Florida's economy by removing state-funded jobs in the construction, information technology and transportation industries. This further reduction may cause projects to be delayed and will result in less services being provided by the department.

\*\*\*\*\*

AGENCY ISSUE NARRATIVE:  
 SCH VIII B-2 NARR 24-25 NARRATIVE: IT COMPONENT? NO  
 PRIORITY #04

Suspends the Operating Capital Outlay category and will eliminate the department's ability to purchase day-to-day equipment but also equipment for emergency events such as: portable truck scales; crash attenuators; mowers; and saws for cutting concrete. This suspension of budget will also impact the department's ability to buy and/or replace lab equipment that is used to test the materials that go into Florida's roads and bridges. Those tests are required as part of the federal reporting mandates. Aging equipment will become more costly to operate and maintain and, if the equipment fails, it will adversely impact the delivery of services.

\*\*\*\*\*

CONTRACTED SERVICES REDUCTIONS 33G0870

 =====

\*\*\*\*\*

AGENCY ISSUE NARRATIVE:  
 SCH VIII B-2 NARR 24-25 NARRATIVE: IT COMPONENT? NO  
 PRIORITY #09

Reduces Contracted Services category by 21 percent. The department protects the fixed costs in this category. Any increases in any fixed costs will impact the day-to-day operations of the department. This category provides budget to fund contracts with vendors to perform various services such as:

- Credit card processing fees
- Janitorial services which are negotiated by and under contract with Department of Management Services (DMS)
- Court reporter and legal fees
- Mailing and delivery services

MANAGEMENT REDUCTIONS	33G0000
CONTRACTED SERVICES REDUCTIONS	33G0870

- Staff augmentation services
- Bank service contracts
- Pest control and elevator inspections

The department would experience reductions in contracts with vendors providing planning and development information technology projects important for keeping the Work Program systems running as well as updating software and providing computer maintenance. Information Technology services would be delayed or eliminated entirely. Other impacts include reduced assistance to transit agencies regarding operational analysis and performance review; reduced production of the Florida Aeronautical Chart and Airport Directory; reduced maintenance of GPS sites; and reduced maintenance of the materials lab which evaluates the materials used in construction projects.

AGENCY ISSUE NARRATIVE:  
 SCH VIIIIB-2 NARR 24-25 NARRATIVE:  
 PRIORITY #10

IT COMPONENT? NO

FDOT teams are first on the scenes of natural disasters and other emergency situations. Our teams clear the way for emergency responders to have access to the area. The department not only provides access to first responders, but also provides resources and support to other agencies who need assistance in critical situations. FDOT's ability to respond to emergency situations will be restricted, due to the inability to hire additional personnel or allow employees to work overtime.

Since FY 2000-01, the department has reduced its workforce by over 40 percent and this budget reduction will further limit the department's ability to hire highly skilled staff in hard to fill positions. With the decrease of department staff, the department has had to hire consultant and contracted employees to manage our workload and demands on our resources. These resources are limited, and costs of consultants and contracted staff are increasing each year.

AGENCY ISSUE NARRATIVE:

SCH VIIIIB-2 NARR 24-25 NARRATIVE:  
 PRIORITY #08

IT COMPONENT? NO

Reduces the Expenses category by 30 percent. Any increases in fixed costs coupled with reductions in budget will impact the day-to-day operations of the department. Reductions could result in non-payment and increase the potential of litigation.

This category covers:

- Building leases negotiated by the Department of Management Services (DMS)
- Toll facility insurance required to protect the toll facilities such as fires, storms, terrorist attacks
- Software licenses and maintenance (example: Office 365) that allow the department to communicate internally and with our external partners and customers
- Utility bills,
- Communication costs for cell phones, data lines and circuits, Viacom, audio/visual conferences and trainings, pages and printed safety message communications
- Office supplies and postage
- Travel used by our teams daily and to mobilize during emergencies

The department would need to eliminate all travel, eliminate communication services, reduce mission critical information technology application maintenance and upgrades, would be unable to renew any increases in building lease contracts managed by DMS or absorb any increases in the Microsoft Office 365 licenses if these reductions are implemented.

 =====

\*\*\*\*\*

AGENCY ISSUE NARRATIVE:  
 SCH VIIIIB-2 NARR 24-25 NARRATIVE: IT COMPONENT? NO  
 PRIORITY #04

Suspends the Operating Capital Outlay category and will eliminate the department's ability to purchase day-to-day equipment but also equipment for emergency events such as: portable truck scales; crash attenuators; mowers; and saws for cutting concrete. This suspension of budget will also impact the department's ability to buy and/or replace lab equipment that is used to test the materials that go into Florida's roads and bridges. Those tests are required as part of the federal reporting mandates. Aging equipment will become more costly to operate and maintain and, if the equipment fails, it will adversely impact the delivery of services.

 =====

\*\*\*\*\*

AGENCY ISSUE NARRATIVE:  
 SCH VIIIIB-2 NARR 24-25 NARRATIVE: IT COMPONENT? NO  
 PRIORITY #09

Reduces Contracted Services category by 21 percent. The department protects the fixed costs in this category. Any increases in any fixed costs will impact the day-to-day operations of the department. This category provides budget to fund contracts with vendors to perform various services such as:

- Credit card processing fees
- Janitorial services which are negotiated by and under contract with Department of Management Services (DMS)
- Court reporter and legal fees
- Mailing and delivery services

ECONOMIC OPPORTUNITIES	11
<u>PLANNING AND ENVIRONMENT</u>	<u>1101.01.08.00</u>
MANAGEMENT REDUCTIONS	33G0000
CONTRACTED SERVICES REDUCTIONS	33G0870

- Staff augmentation services
- Bank service contracts
- Pest control and elevator inspections

The department would experience reductions in contracts with vendors providing planning and development information technology projects important for keeping the Work Program systems running as well as updating software and providing computer maintenance. Information Technology services would be delayed or eliminated entirely. Other impacts include reduced assistance to transit agencies regarding operational analysis and performance review; reduced production of the Florida Aeronautical Chart and Airport Directory; reduced maintenance of GPS sites; and reduced maintenance of the materials lab which evaluates the materials used in construction projects.

 PRIORITY #08

IT COMPONENT? NO

Reduces the Expenses category by 30 percent. Any increases in fixed costs coupled with reductions in budget will impact the day-to-day operations of the department. Reductions could result in non-payment and increase the potential of litigation.

This category covers:

- Building leases negotiated by the Department of Management Services (DMS)
- Toll facility insurance required to protect the toll facilities such as fires, storms, terrorist attacks
- Software licenses and maintenance (example: Office 365) that allow the department to communicate internally and with our external partners and customers
- Utility bills,
- Communication costs for cell phones, data lines and circuits, Viacom, audio/visual conferences and trainings, pages and printed safety message communications
- Office supplies and postage
- Travel used by our teams daily and to mobilize during emergencies

The department would need to eliminate all travel, eliminate communication services, reduce mission critical information technology application maintenance and upgrades, would be unable to renew any increases in building lease contracts managed by DMS or absorb any increases in the Microsoft Office 365 licenses if these reductions are implemented.

TRANSPORTATION, MATERIALS AND EQUIPMENT REDUCTION	33G0790

- Shoulder mounted and under deck luminaries
- To pay the operation of field equipment installed in roadways to facilitate the Intelligent Transportation System (ITS) statewide
- Sign repairs
- Shoulder washouts
- Pothole repairs and guardrail repairs

The department's ability to purchase materials will be significantly impacted and will reduce the productivity, efficiency and effectiveness in roadside safety response and performance. The ability to purchase fuel and maintain an inventory of adequate supplies will be impacted, creating safety concerns, especially during emergencies. Intelligent Transportation System (ITS) equipment includes dynamic message signs, closed circuit TV camera and encoders, microwave detection devices, communication hubs, etc. This equipment communicates data for analysis to minimize congestion and reduce secondary accidents while also providing travel information to the public.

\*\*\*\*\*

AGENCY ISSUE NARRATIVE:  
 SCH VIIIIB-2 NARR 24-25 NARRATIVE:  
 PRIORITY #04

IT COMPONENT? NO

Suspends the Operating Capital Outlay category and will eliminate the department's ability to purchase day-to-day equipment but also equipment for emergency events such as: portable truck scales; crash attenuators; mowers; and saws for cutting concrete. This suspension of budget will also impact the department's ability to buy and/or replace lab equipment that is used to test the materials that go into Florida's roads and bridges. Those tests are required as part of the federal reporting mandates. Aging equipment will become more costly to operate and maintain and, if the equipment fails, it will adversely impact the delivery of services.

 PRIORITY #09

IT COMPONENT? NO

Reduces Contracted Services category by 21 percent. The department protects the fixed costs in this category. Any increases in any fixed costs will impact the day-to-day operations of the department. This category provides budget to fund contracts with vendors to perform various services such as:

- Credit card processing fees
- Janitorial services which are negotiated by and under contract with Department of Management Services (DMS)
- Court reporter and legal fees
- Mailing and delivery services
- Staff augmentation services
- Bank service contracts
- Pest control and elevator inspections

The department would experience reductions in contracts with vendors providing planning and development information technology projects important for keeping the Work Program systems running as well as updating software and providing computer maintenance. Information Technology services would be delayed or eliminated entirely. Other impacts include reduced assistance to transit agencies regarding operational analysis and performance review; reduced production of the Florida Aeronautical Chart and Airport Directory; reduced maintenance of GPS sites; and reduced maintenance of the materials lab which evaluates the materials used in construction projects.

FDOT teams are first on the scenes of natural disasters and other emergency situations. Our teams clear the way for emergency responders to have access to the area. The department not only provides access to first responders, but also provides resources and support to other agencies who need assistance in critical situations. FDOT's ability to respond to emergency situations will be restricted, due to the inability to hire additional personnel or allow employees to work overtime.

Since FY 2000-01, the department has reduced its workforce by over 40 percent and this budget reduction will further limit the department's ability to hire highly skilled staff in hard to fill positions. With the decrease of department staff, the department has had to hire consultant and contracted employees to manage our workload and demands on our resources. These resources are limited, and costs of consultants and contracted staff are increasing each year.

 PRIORITY #08

IT COMPONENT? NO

Reduces the Expenses category by 30 percent. Any increases in fixed costs coupled with reductions in budget will impact the day-to-day operations of the department. Reductions could result in non-payment and increase the potential of litigation.

This category covers:

- Building leases negotiated by the Department of Management Services (DMS)
- Toll facility insurance required to protect the toll facilities such as fires, storms, terrorist attacks
- Software licenses and maintenance (example: Office 365) that allow the department to communicate internally and with our external partners and customers
- Utility bills,
- Communication costs for cell phones, data lines and circuits, Viacom, audio/visual conferences and trainings, pages and printed safety message communications
- Office supplies and postage
- Travel used by our teams daily and to mobilize during emergencies

The department would need to eliminate all travel, eliminate communication services, reduce mission critical information technology application maintenance and upgrades, would be unable to renew any increases in building lease contracts managed by DMS or absorb any increases in the Microsoft Office 365 licenses if these reductions are implemented.

AGENCY ISSUE NARRATIVE:

SCH VIIIIB-2 NARR 24-25 NARRATIVE:  
 PRIORITY #06

IT COMPONENT? NO

Suspends the Consultant Fees budget. The department has already reduced its workforce by over 40 percent since FY 2000-01. A portion of the workforce reduction was moved to consultants to provide these services and it is anticipated that this will continue as the number of employees decrease and our workload increases. Reducing consultant fees would impact FDOT in the following ways:

- Delay the completion of certain planning tools such as congestion management and process mapping.
- Increase response time for traffic reviews
- Reduction in the usage of the Electronic Document Management System (EDMS) which supports construction and bridge maintenance by document management
- Delay or eliminate the development of traffic computer modeling courses for the districts and MPOs that help develop transportation solutions
- Delay administrative tasks and responsibilities to support eminent domain active lawsuits

Additional delays or restrictions in moving consultants into the Work Program would affect not only the department's operations but Florida's economy by removing state-funded jobs in the construction, information technology and transportation industries. This further reduction may cause projects to be delayed and will result in less services being provided by the department.

- Delay administrative tasks and responsibilities to support eminent domain active lawsuits

Additional delays or restrictions in moving consultants into the Work Program would affect not only the department's operations but Florida's economy by removing state-funded jobs in the construction, information technology and transportation industries. This further reduction may cause projects to be delayed and will result in less services being provided by the department.

AGENCY ISSUE NARRATIVE:  
 SCH VIIIIB-2 NARR 24-25 NARRATIVE: IT COMPONENT? NO  
 PRIORITY #08

Reduces the Expenses category by 30 percent. Any increases in fixed costs coupled with reductions in budget will impact the day-to-day operations of the department. Reductions could result in non-payment and increase the potential of litigation.

- This category covers:
- Building leases negotiated by the Department of Management Services (DMS)
  - Toll facility insurance required to protect the toll facilities such as fires, storms, terrorist attacks
  - Software licenses and maintenance (example: Office 365) that allow the department to communicate internally and with our external partners and customers
  - Utility bills,
  - Communication costs for cell phones, data lines and circuits, Viacom, audio/visual conferences and trainings, pages and printed safety message communications
  - Office supplies and postage
  - Travel used by our teams daily and to mobilize during emergencies

The department would need to eliminate all travel, eliminate communication services, reduce mission critical information technology application maintenance and upgrades, would be unable to renew any increases in building lease contracts managed by DMS or absorb any increases in the Microsoft Office 365 licenses if these reductions are implemented.

IT COMPONENT? NO

Suspends the Acquisition of Motor Vehicles category. These vehicles are used for field operations, such as road and bridge inspections, pavement friction testing, maintenance activities such as highway light replacement and for emergency situations and repairs and are used in the performance of mandatory test performed the State Laboratory in Gainesville. Suspension of these funds would eliminate the maintenance on the current fleet which could cause safety issues for the employees who drive and use the vehicles. There are no other resources available to purchase maintenance vehicles or fleet vehicles in the department.

AGENCY ISSUE NARRATIVE:

SCH VIIIIB-2 NARR 24-25 NARRATIVE:  
 PRIORITY #09

IT COMPONENT? NO

Reduces Contracted Services category by 21 percent. The department protects the fixed costs in this category. Any increases in any fixed costs will impact the day-to-day operations of the department. This category provides budget to fund contracts with vendors to perform various services such as:

- Credit card processing fees
- Janitorial services which are negotiated by and under contract with Department of Management Services (DMS)
- Court reporter and legal fees
- Mailing and delivery services
- Staff augmentation services
- Bank service contracts
- Pest control and elevator inspections

The department would experience reductions in contracts with vendors providing planning and development information technology projects important for keeping the Work Program systems running as well as updating software and providing computer maintenance. Information Technology services would be delayed or eliminated entirely. Other impacts include reduced assistance to transit agencies regarding operational analysis and performance review; reduced production of the Florida Aeronautical Chart and Airport Directory; reduced maintenance of GPS sites; and reduced maintenance of the materials lab which evaluates the materials used in construction projects.

STATE FUNDING REDUCTIONS	3300000
ADMINISTRATIVE REDUCTIONS	3300010

Since FY 2000-01, the department has reduced its workforce by over 40 percent and this budget reduction will further limit the department's ability to hire highly skilled staff in hard to fill positions. With the decrease of department staff, the department has had to hire consultant and contracted employees to manage our workload and demands on our resources. These resources are limited, and costs of consultants and contracted staff are increasing each year.
