An act making appropriations; providing moneys for the annual period beginning July 1, 2010, and ending June 30, 2011, to pay salaries, and other expenses, capital outlay - buildings, and other improvements, and for other specified purposes of the various agencies of State government; providing an effective date.

Be It Enacted by the Legislature of the State of Florida:

The moneys contained herein are appropriated from the named funds for Fiscal Year 2010-2011 to the State agency indicated, as the amounts to be used to pay the salaries, other operational expenditures, and fixed capital outlay of the named agencies, and are in lieu of all moneys appropriated for these purposes in other sections of the Florida Statutes.

SECTION 1 - EDUCATION ENHANCEMENT "LOTTERY" TRUST FUND

The moneys contained herein are appropriated from the Education Enhancement "Lottery" Trust Fund to the state agencies indicated.

EDUCATION, DEPARTMENT OF

Funds provided in sections 1 and 2 of this act as Grants and Aids-Special Categories or as Grants and Aids-Aid to Local Governments may be advanced quarterly throughout the fiscal year based on projects, grants, contracts, and allocation conference documents. Of the funds provided in Specific Appropriations 3, 4, 5, 57, 62, 64A through 70, and 139 for student financial assistance, sixty percent shall be released at the beginning of the first quarter and the balance at the beginning of the third quarter.

From funds provided in Specific Appropriations 10, 11 through 15, 112, 113, 132, 133, and 134 through 138, each college and university shall strive to reduce their campus-wide energy consumption by 10 percent. While savings may be accrued by any means, the goal shall be to implement energy use policies and/or procedures and any equipment retrofits that are necessary to carry out this reduction. The reduction may be obtained by either reducing the cost of the energy consumed or by reducing total energy usage, or a combination of both. Energy consumption expenditures incurred during the 2007-2008 fiscal year shall be used to establish the benchmark for the 10 percent goal. If a college or university can document that it has implemented energy use policies in the 2008-2009 or 2009-2010 fiscal years that resulted in reduction in energy usage or costs, then those reductions may be counted towards the 10 percent goal. Each college and university shall submit a report to the Governor, the Speaker of the House, and the President of the Senate by January 1, 2011 describing how they have met or plan to meet the 10 percent energy consumption reduction goal.

The appropriations provided in Specific Appropriations 132 and 134 through 138 from the Education and General Student and Other Fees Trust Fund are the only budget authority provided in this act for the 2010-2011 fiscal year to the named universities to expend tuition and fees that are collected during the 2010-2011 fiscal year and carried forward from the prior fiscal year and that are appropriated into local accounts pursuant to section 1011.4106, Florida Statutes. The expenditure of tuition and fee revenues from local accounts by each university shall not exceed the authority provided by these specific appropriations, unless approved pursuant to the provisions of chapter 216, Florida Statutes. If a court of competent jurisdiction finds that the restriction above is invalid, the appropriation made by section 1011.4106, Florida Statutes, is hereby repealed for the 2010-2011 fiscal year and the moneys described in that section shall be deposited in the state treasury for expenditure only pursuant to appropriations made by law.

General revenue funds provided in Specific Appropriations 132 through 138 to each of the named universities are contingent upon each university complying with the tuition and fee policies established in the proviso language attached to Specific Appropriation 132, and with the tuition and fee policies for state universities included in Part II of chapter 1009, Florida Statutes. However, the funds appropriated to a specific university shall not be affected by the failure of another university to comply with this provision.

From the funds provided in Specific Appropriations 11, 13, 132, and

SECTION 2 - EDUCATION (ALL OTHER FUNDS)

134, each university may shift enrollment by level in a manner which is revenue neutral; however, no university, with the exception of New College of Florida, shall increase the number of lower level FTEs. For planning and enrollment shifting purposes, the University of South Florida may combine lower, upper, and graduate FTE identified in Specific Appropriations 132 and 134.

The Chancellor of the State University System shall submit a revised 3-year state university enrollment plan by lower, upper, graduate I and graduate II levels, by university, to the Board of Governors by September 1, 2010. This revised 3-year enrollment plan must be developed with input from each state university.

The enrollment policy adopted by the Legislature does not limit the number of students admitted from out-of-state under the profile admissions policy; however, no state university may receive general revenue funding associated with the enrollment of out-of-state students admitted under this policy. For the purposes of implementing this policy, the Chancellor shall segregate these FTEs and not count them toward the 2010-2011 enrollment plan for the State University System.

Funds provided in Specific Appropriation 132 for the University of Florida include no more than that amount which the State Board of Education and the City of Gainesville agree represents the cost of service for water provided by the city to the University of Florida. The amount charged shall reflect a cost-based rate only and shall be determined through a cost of service study completed annually by the city and reviewed by the university. The costs of any General Fund transfer to the City of Gainesville from Gainesville Regional Utilities or any profit to the city or utility shall be specifically excluded as costs allocable to the university. The cost-based rate shall include charges for only those water services actually provided by the city to the university and shall not include charges for services furnished by the university.

Each university board of trustees is given flexibility to make necessary adjustments to its operating budget. If any board reduces individual programs or projects within the university by more than 10 percent during the 2010-2011 fiscal year, written notification shall be made to the Executive Office of the Governor, the President of the Senate, the Speaker of the House of Representatives, and the Board of Governors.

From the funds provided in Specific Appropriations 132 from the General Revenue Fund, \$50,354,749 shall be utilized by receiving institutions to reprioritize funding towards key state and regional needs. These funds may be used to: improve student access and success initiatives that lead to increased degree production, build preeminent academic and training programs, enhance strategic research and development capacity, and enhance vital programs or student support services. Priority programs include the STEM related fields (Science, Technology, Engineering, and Math), health professions, education, and other high-priority state or regional workforce need areas. Each board of trustees shall determine how to implement the prioritization of funds based on their strategic analyses of the programs at their respective institutions. Each institution shall provide a delineation of how the reprioritized funds are being strategically invested to support these goals, as well as the metrics by which success would be measured, to the Chancellor of the Board of Governors. The Chancellor shall submit a summary report of the reprioritization efforts to the Governor, the Speaker of the House, and the President of the Senate no later than December 1, 2010.
