Administrative Trust Fund

Fund: 2021 Administrative Trust Fund

Per instructions Administrative Trust Fund is exempt from the reserve computations.

Section III Adjustments Narrative:

Current Year Adjustments of \$2,214,678 are payables not certified forward and due tos, due froms, and transfer identified after closing.

Prior Year Adjustments of \$1,279,107 are necessary to record prior year FLAIR adjustments required by the Department of Financial Services. Due to the trust fund realignment.

Revenue Estimating Methodology Narrative:

Calculations began with the previous year requested amount. The amounts were first adjusted based on any Legislative Budget Requests being submitted. Then prior years activity was analyzed to determine if there were upward or downward trends and based on that analysis adjustments were incorporated.

Schedule IA - Part I: Examination of Regulatory Fees

Department: Agency for Health Care Administration

Regulatory Service to or Oversight of Businesses or Professions Program:
Health Care Facilities

1. What recent operational efficiencies have been achieved to either decrease costs or improve services? If costs have been reduced, how much money has been saved during the fiscal year?

Response: There have not been operational efficiencies specific to any one particular program. However, licensure streamlining changes to Chapter 408 created through passage of SB 1986 and background screening through passage of HB 7069 may improve efficiency of licensure. Central intake and front end scanning of licensure applications has also had a significant positive impact on program efficiency.

Central intake and front end scanning of all applications and accompanying checks was fully implemented during SFY 09/10. These central intake activities, coupled with efficiencies obtained under the Document Management System have reduced the costs across all programs by more than \$93,000 for postage, more than \$18,000 for copier rentals and more than \$13,000 for paper purchases.

2. What additional operational efficiencies are planned? What are the estimated savings associated with these efficiencies during the next fiscal year?

Response: There are ongoing efforts to further streamline licensure processes across the board through legislation being proposed for 2012.

3. Is the regulatory activity an appropriate function that the agency should continue at its current level?

Response: Yes. It is required by Florida Statutes.

4. Are the fees charged for the regulatory service or oversight to businesses or professions based on revenue projections that are prepared using generally accepted governmental accounting procedures or official estimates by the Revenue Estimating Conference, if applicable?

Response: No. Fees are established in Florida Statutes.

5. Are the fees charged for the regulatory service or oversight to businesses or professions adequate to cover both direct and indirect costs of providing the regulatory service or oversight?

Response: No. Reports available to the licensure units indicate the fees do not cover the total licensure expense, which includes application processing and the on-site survey activity required in statute.

6. Are the fees charged for the regulatory service or oversight to businesses or professions reasonable and do they take into account differences between the types of professions or businesses that are regulated? For example, do fees reflect the amount of time required to conduct inspections by using a sliding scale for annual fees based on the size of the regulated business; or do fees provide a financial incentive for regulated entities to maintain compliance with state standards by assessing a re-inspection fee if violations are found at initial inspection?

Response: Fees are established in Florida Statutes.

7. If the fees charged for the regulatory services or oversight to businesses or professions are **not** adequate to cover direct and indirect program costs provide either:
 - a) information regarding alternatives for realigning revenues or costs to make the regulatory service or program totally self-sufficient, including any statutory changes that are necessary to implement the alternative; or
 - b) demonstrate that the service or program provides substantial benefits to the public which justify a partial subsidy from other state funds, specifically describing the benefits to the general public (statements such as 'providing consumer benefits' or 'promoting health, safety and welfare' are not sufficient justification). For example, the program produces a range of benefits to the general public, including pollution reduction, wildlife preservation, and improved drinking water supply. Alternatively, the agency can demonstrate that requiring self-sufficiency would put the regulated entity at an unfair advantage. For example, raising fees sufficiently to cover program costs would require so high an assessment as to damage its competitive position with similar entities in other states.

Response: Regulation of Health Care Facilities is critical to the health, welfare and safety of patients. Although costs are not adequately funded by the licensure fees allowed by statute, the regulatory program is critical to the health and safety of Floridians and is therefore subsidized by other state funds.

8. If the regulatory program is not self-sufficient and provides a public benefit using state subsidization, please provide a plan for reducing the state subsidy.

Response: During the 2010 legislative session, the Agency requested an amendment to Chapter 408, Part II, F.S., and authorizing statutes to remove limits (maximums) on licensing fees and allow fees to be adjusted to pay for the cost of regulatory activities. Adjustments were limited to the Consumer Price Index (inflation) plus 10% annually. Pursuant to 408.805, F.S., licensing fees must cover Agency costs. This provision was not accepted by the legislature and will not be requested in 2011 since legislative policies have not changed. Agency costs continue to increase and previous deficits may never be covered without statutory relief.

Currently significant disparities in fees exist among provider types; some provider types pay for the costs of their regulation and others do not.

Schedule IA - Part II: Examination of Regulatory Fees

Department: **Agency for Health Care Administration**

Regulatory Service to or Oversight of Business or Profession Program: **Health Care Regulation**

Does Florida Statutes require the regulatory program to be financially self-sufficient? (Yes or No and F.S.): **Yes. 408.805, F.S. effective 10/1/06**

What percent of the regulatory cost is currently subsidized? (0 to 100%) **0%**

If the program is subsidized from other state funds, what is the source(s)? **Section 408.20, F.S. Assessments, Health Care Trust Fund**

What is the current annual amount of the subsidy? **\$2,312,521**

Schedule I Series

**Refugee Assistance
Trust Fund**

Fund: 2579 Refugee Assistance Trust Fund

This Trust Fund in this Budget Entity has no revenues subject to the 5% reserve. Per instructions, we have exempted Federal funds from reserve computations.

Section III Adjustments Narrative: No Adjustments

Revenue Estimating Methodology Narrative:

Calculations began with the previous year requested amount. The amounts were adjusted based on any Legislative Budget Requests being submitted. The Medicaid office prepares a revenue estimate for the Medicaid Services appropriation and that is the estimate that is used to record revenues.
