EARLY LEARNING SERVICES - PRIORITY #2

This issue reduces the General Revenue funds provided to administer the Voluntary Prekindergarten Education (VPK) Program for Fiscal Year 2010-11 by reducing the funding available for legal and auditing services (in the Executive Leadership budget entity) and administrative expenses (in the Agency Support Services budget entity). Based on prior year reversions and projected expenditures, these reductions could be taken without reducing the current level of administrative services provided.

In the Early Learning Services budget entity, this issue reduces funding available for program support services and information technology assistance provided to the Early Learning Coalitions. These reductions may adversely impact the ability of the Office of Early Learning to efficiently and effectively provide essential administrative support and oversight of the state's \$1 billion early learning programs.

The VPK program is a constitutionally required high-quality early childhood development and education service available to every eligible four year-old child residing in Florida. State funds must be used to cover any costs incurred to administer the program.

EARLY LEARNING SERVICES - PRIORITY #1				
This issue reduces the "penalties and interest" state trust funds that are provided to administer early learning programs by reducing the funding available for public assistance fraud investigations that are currently conducted by the Florida Department of Law Enforcement. On January 1, 2011, the responsibility for conducting these investigations will transfer to the Department of Financial Services. Based on prior year reversions and projected expenditures, this reduction could be taken without reducing the current level of investigative services provided.				
The agency's Office of Early Learning, in partnership with the state's 31 Early Learning Coalitions, assists employers and workers by helping parents access high-quality child care so they can work, go to school, or seek employment. During the 2009-10 program year, the families of 240,912 children were served through the School Readiness program and the families of 156,867 children were served through the Voluntary Pre-kindergarten Education (VPK) program.

AGENCY ISSUE NARRATIVE:  
 SCH VIII B-1 NARR 10-11 NARRATIVE: IT COMPONENT? NO

WORKFORCE SERVICES - PRIORITY #7

This issue reduces the Temporary Assistance for Needy Families (TANF) funds provided to the Regional Workforce Boards (RWBs) for the Welfare Transition Program. The Welfare Transition Program provides employment and training services for individuals seeking employment and is the only program in the state that provides qualified work activities to cash assistance recipients. The workforce services provided to TANF eligible individuals count towards the State's federally required participation rate to qualify for TANF funding. This reduction of federal TANF funding provided to the 24 RWBs will reduce services. TANF funding for the workforce system has consistently declined over the past few years and the additional reduction in services to TANF eligible individuals will make it even more difficult to continue to meet the required state participation rate. Failure to meet the participation rate will likely result in the state's loss of federal TANF funds.

Over the last three fiscal years, there has been a 42 percent increase in the number TANF customers served by the

TRANSITION PROGRAM				33B1200

workforce system (73,207 as of June 30, 2008 to 103,962 as of June 30, 2010). The workforce system has been able to meet this increased demand even though TANF funding for the workforce system was reduced by \$10 million in the current fiscal year (\$94.7 million to \$84.7 million). The RWBs have streamlined operations as much as possible while effectively providing services. However, additional funding reductions will likely have a negative impact on services provided to TANF customers and increase the likelihood of the State not meeting the federally required work participation rate. If the State does not meet the participation rate requirement, in addition to the loss of TANF funds awarded in subsequent years, substantial financial penalties could be imposed.

The RWBs have indicated that further TANF reductions could result in the following impacts at the local level:

- Elimination of transportation assistance for clients to travel to employment training and job sites
- Closure of One-Stop Career Centers, which reduces the availability of workforce services to customers
- Reduction in hours of operation in One-Stop Career Centers, impacting clients' ability to receive services
- Elimination of staff positions, reducing the level and number of services offered to clients
- Elimination of Mobile One-Stops, reducing the availability of workforce services to clients in rural areas
- Elimination of targeted programs such as Career Academies and Teen Parent/Pregnant Teen programs
- Elimination or reduction of employment and training services and support services
- Elimination or reduction of services to non-mandatory TANF clients served on a monthly basis specifically services provided to former cash assistance clients who find employment and need training to upgrade their skills to keep their job, make wage gains and advance their careers. These training opportunities are especially critical in the current economic climate as employers are working with the RWBs to identify training needs to assist employees, reduce turnover costs and improve productivity.
- Elimination or reduction of transitional services, job seminars, training and other activities.

The projected distribution of this reduction for FY 2010-11 is shown below for each RWB:

RWB	Counties	Total Reduction
1	Escambia and Santa Rosa	(129,482)
2	Okaloosa and Walton	(33,678)
3	Calhoun, Holmes, Jackson, Liberty and Washington	(23,176)

AGENCY ISSUE NARRATIVE:  
 SCH VIII B-1 NARR 10-11 NARRATIVE:

IT COMPONENT? NO

WORKFORCE SERVICES - PRIORITY #4

This issue reduces the state trust funds provided as matching funds for the federal Food Stamp Employment and Training (FSET) program. One component of the FSET program that is subject to match requirements reimburses participants (up to \$20 a month) for transportation costs they incur while participating in the program. Due to the very large number of unemployed food stamp recipients, Florida exercised the option provided in the American Recovery and Reinvestment Act to change the program's status from "mandatory" to "volunteer" in 2009.

As a volunteer program, the number of food stamp recipients that have chosen to participate in the FSET program (and be eligible for the transportation reimbursements) has declined. As a result, the agency projects that \$250,000 of the "penalties and interest" funds appropriated for this program will likely remain unspent and could be taken as a reduction in FY 2010-11 without impacting services.

The state's FSET plan for the federal fiscal year that began October 1, 2010, contains an expanded reimbursement strategy to better serve program participants, moving them to work and self-sufficiency. In addition, the program may be required to revert to a "mandatory" program in the next federal fiscal year. As such, no reduction in matching funds is proposed for FY 2011-12.

WORKFORCE SERVICES - PRIORITY #5				
This issue reduces the state trust funds provided for the Displaced Homemaker program. In FY 2010-11, a \$560,024 reduction could be taken without reducing services provided to current program participants. The additional reduction of \$112,194 in FY 2011-12 could result in an estimated 106 fewer participants being served (at an average cost of \$1,056). Some, but not all, of the Displaced Homemaker participants could be served by other workforce programs available through the One-Stop Career Centers.				
Section 446.50, Florida Statutes, establishes the Displaced Homemaker program to assist participants in attaining independence and economic security and self-sufficiency by providing services that include job placement, training, counseling, financial management development and educational services.

WORKFORCE SERVICES - PRIORITY #1

This issue reduces the "penalties and interest" state trust funds that are provided to administer workforce services. Based on prior year reversions and projected expenditures, this reduction could be taken without reducing the current level of administrative services provided in support of the state's workforce system.

The Agency's Office of Workforce Services, primarily in coordination with Florida's 24 Regional Workforce Boards, provides support to Florida's employers, job seekers, and others through a comprehensive array of services including job placement, training, reemployment assistance, and labor market information. During the 2009-10 program year, programs and services were provided to more than 2.9 million job seekers and almost 33,000 businesses in Florida.

FUNDING FOR THE WELFARE TRANSITION				
PROGRAM				33B2220

The Welfare Transition Program provides employment and training services for individuals seeking employment and is the only program in the state that provides qualified work activities to cash assistance recipients. The program enables the state to meet the federal TANF participation rate requirements necessary to qualify for federal TANF funds. If the participation rate requirements are not met, the state may be required to spend more state funds on the various programs that currently receive TANF funds.

WORKFORCE SERVICES - PRIORITY #6

In the FY 2010-11 General Appropriations Act, \$2 million of nonrecurring General Revenue and \$1.3 million of nonrecurring "penalties and interest" funds were provided for the Quick Response Training program. This issue reduces the nonrecurring General Revenue funds provided in FY 2010-11 by \$100,000. With an average cost per trainee of \$1,000, this reduction eliminates the funding to create 100 new high skill/high wage jobs in Florida. An additional \$1.29 million that employers must invest to participate in the QRT program will not be available to meet the training needs of the state's workforce.

The QRT program provides grant funding for customized training that attracts both new and expanding, value-added industries to the state. Since 2000, the QRT program has provided customized training for over 127,084 employees for more than 345 businesses and industries throughout the state. For each dollar of QRT funds invested in training, businesses match a total of \$12.90.

WORKFORCE SERVICES - PRIORITY #2

This issue reduces the "penalties and interest" state trust funds and federal Temporary Assistance for Needy Families (TANF) funds that are provided to cover the operating expenses of Workforce Florida, Inc. (WFI). This reduction will likely result in a reduction in WFI's oversight and monitoring activities, and may require staff reductions due to the funding constraints of WFI's cost allocation methodology.

As established in Chapter 445, Florida Statutes, Workforce Florida, Inc. is the statewide workforce investment board charged with policy-setting and oversight of the state's workforce system. Workforce Florida, led by a 47-member Board of Directors, is responsible for designing and implementing strategies that help Floridians enter, remain in, and advance in the workplace.

EARLY LEARNING SERVICES - PRIORITY #3

This issue reduces trust fund budget authority provided for the Voluntary Prekindergarten Education (VPK) program. This budget authority is funded with General Revenue funds that the Department of Education transfers to the agency's Employment Security Administration Trust Fund. The VPK program is a constitutionally mandated high-quality early childhood development and education service that is available to every four year-old child living in Florida.

The only way to implement this reduction is to reduce the Base Student Allocation (BSA) paid for each child enrolled in the program from its current level of \$2,562 per student for the school year program to \$2,352 per student, a reduction of \$210, and for the summer program, the BSA would be reduced from its current level of \$2,179 per student to \$1,999 per student, a reduction of \$180.

A reduction of this magnitude in the amount paid by the state to VPK providers would compromise the ability of VPK providers to meet the quality mandates outlined in Florida's Constitution. A likely result is that a significant number of providers would not be able to continue to offer the program, which would adversely impact parental choice and limit the program's availability throughout Florida.

The VPK program served over 165,000 children in the fiscal year that ended June 30, 2010. The history of the Base Student Allocations funding follows:

FY 2005-2006	\$2,500
FY 2006-2007	\$2,560
FY 2007-2008	\$2,677
FY 2008-2009	\$2,628, reduced to \$2,575 for School Year; \$2,190 for Summer
FY 2009-2010	\$2,575 for School Year; \$2,190 for Summer
FY 2010-2011	\$2,562 for School Year; \$2,179 for Summer

EARLY LEARNING SERVICES - PRIORITY #4

This issue will reduce General Revenue, Temporary Assistance for Needy Families (TANF) funds, and "penalties and interest" funds from the Special Employment Security Administration Trust Funds used to provide child care services in the School Readiness program. If these reductions are taken, the state will also be unable to draw down \$7.8 million in federal funds for child care services in FY 2010-11. The combined loss of state and federal funding will total \$20.9 million in Fiscal Year 2010-11 and will result in an estimated 10,432 fewer children receiving child care services in Fiscal Year 2010-2011.

The School Readiness program is funded by the General Revenue Fund and two federal grants that have state maintenance of effort and state matching requirements - TANF and Child Care and Development Block Grant (CCDF). This reduction in General Revenue funding would result in the loss of \$7.6 million in CCDF grant funding in Fiscal Year 2010-11. The reduction in Special Employment Security Administration Trust Fund would result in the loss of over \$270,000 in Fiscal Year 2010-11.

The School Readiness program provides child care services for over 200,000 children of federal cash assistance recipients, at-risk children, and children of the working poor. School Readiness is a financial assistance program that enables eligible families to enroll their children in high-quality early learning programs. The School Readiness program is a critical feature of Florida's welfare-to-work strategy and is essential to Florida meeting federal TANF

participation rate requirements.

Because the School Readiness program requires that service priority be given to children whose families receive cash assistance payments or who are in protective custody, this potential reduction in children served would disproportionately impact the other group eligible for services -- working poor families whose income is 150 percent or less of the federal poverty level. The availability of child care is often critical for a parent to obtain and retain employment. Reduced availability of services may lead many of the affected working poor families to unemployment or welfare, which would further decrease tax revenues and increase mandatory state expenditures on other safety net programs.

Applying a prorated formula (using an average cost of care of \$4,000 per child) to reduce program funding may result in less children receiving school readiness services, as follows:

AGENCY ISSUE NARRATIVE:  
 SCH VIIIIB-1 NARR 10-11 NARRATIVE:

IT COMPONENT? NO

EARLY LEARNING SERVICES - PRIORITY #2

This issue reduces the General Revenue funds provided to administer the Voluntary Prekindergarten Education (VPK) Program for Fiscal Year 2010-11 by reducing the funding available for legal and auditing services (in the Executive Leadership budget entity) and administrative expenses (in the Agency Support Services budget entity). Based on prior year reversions and projected expenditures, these reductions could be taken without reducing the current level of administrative services provided.

In the Early Learning Services budget entity, this issue reduces funding available for program support services and information technology assistance provided to the Early Learning Coalitions. These reductions may adversely impact the ability of the Office of Early Learning to efficiently and effectively provide essential administrative support and oversight of the state's \$1 billion early learning programs.

The VPK program is a constitutionally required high-quality early childhood development and education service available to every eligible four year-old child residing in Florida. State funds must be used to cover any costs incurred to administer the program.
