PRIORITY 3

A reduction to the State University System Capital Improvement Fee appropriation of \$15,243 in the Capital Improvement Fee Trust Fund will directly impact the completion of the University of South Florida Polytechnic Student Center project and the projected 15,000 students (headcount) for this innovative concept at the newest branch campus in the State University System. The Capital Improvement Fees are assessed each student on a per credit hour basis for student related projects. The revenues are not eligible to be used for other purposes. This reduction could also result in potential litigation or in the renegotiation of contractual agreements at increased project costs. Any reduction to the appropriated amount may not be accomplished at the time of implementation because the disbursement of funds for project costs occurs monthly.

Outlay and Debt Service Trust Fund will directly impact projects at the Daytona Rehabilitation Center necessary for the delivery of programs to visually impaired students. Over 31,000 individuals benefit from the services of the Center. The funds are for projects which address safety and health issues, including Americans with Disabilities Act (ADA) corrections, on the campus. The potable water system is over 60 years old and needs to be replaced to ensure adequate water service to the campus facilities. The sanitary line is over 50 years old, resulting in emergency maintenance remedies and increased costs. The roof of the Braille and Talking Library leaks and is in need of replacement.

PUBLIC BROADCASTING PROJS						089542
PUBLIC ED CO&DS TRUST FUND-STATE	114,731-					2555 1

AGENCY NARRATIVE:
 SCH VIIIB-1 NARR 10-11 NARRATIVE: PUBLIC BROADCASTING PROJS IT COMPONENT? NO

PRIORITY 3

A reduction to the Public Broadcasting Projects appropriation of \$114,731 in the Public Education Capital Outlay and Debt Service Trust Fund will directly impact the delivery of educational and governmental programs to the citizens of Florida. The funds are to be used for projects which address safety and health issues, and upgrades to keep stations operational. The Federal Communications Commission (FCC) has required public broadcasting stations to discontinue analog transmissions, resulting in the need for equipment upgrades. A transmitter tower no longer meets revised wind standards, posing a community safety problem. Leaking roofs at the facilities threaten broadcast equipment and the safety of employees.

SCH VIII B-1 NARR 10-11 NARRATIVE:

IT COMPONENT? NO

PRIORITY 1

Salaries and Benefits

A reduction to Salaries and Benefits of \$704,086 is comprised of \$478,526 in General Revenue and \$225,560 in the Workers' Compensation Administration Trust Fund. This reduction will result in the loss of 10 General Revenue positions and 324,341 in rate and 5 Workers' Compensation Administration Trust Fund positions and 150,599 in rate. This reduction will diminish the Division's ability to provide critical vocational services to individuals with physical and/or mental impairments and reemployment services for injured workers. Additionally, this reduction will impact the Division's ability to reduce the waiting list and achieve overall success for Vocational Rehabilitation customers. It is especially critical for injured workers who are afforded 104 weeks of indemnity benefits which are inclusive of their retraining period. As services are delayed or reduced, the indemnity benefit payment eligibility period for the injured worker is being reduced and/or exhausted while they wait for services through no fault of their own.

Other Personal Services

A reduction to Other Personal Services of \$12,551 in the Workers' Compensation Administration Trust Fund will limit the availability to maintain temporary staff in critical program areas where there are backlog issues. The Vocational Rehabilitation Reemployment Services Program has the responsibility for monitoring Florida's workers' compensation insurance carrier practices to determine compliance with statutory and rule requirements under section 440.491, Florida Statutes and Rule 6A-22, Florida Administrative Code. Since the enactment of the 2003 Workers' Compensation Law amendments, several issues have surfaced that impact consumer protection where insurance carriers are not providing injured workers with the necessary services for them to return to work. To address these insurance carrier non-compliance issues where an audit backlog has developed, the bureau requested that the realigned funds be used to hire four (4) temporary staff to increase the number of insurance carrier on-site monitoring reviews by 26 for state Fiscal Year 2010-2011. These funds will pay for the salaries and related travel needed to accomplish these tasks.

Expenses

A reduction to Expenses of \$43,573 is comprised of \$334 in General Revenue and \$43,239 in the Workers' Compensation

Administration Trust Fund and will limit travel related to the provision of client services for injured workers and oversight and audit of insurance carriers; reduce program marketing initiatives with insurance carriers, employers, attorneys, health care providers and other partners; and limit oversight and review of district program operations. In addition, this reduction will impact daily program operations and constrain administrative support costs related to office supplies, carrier delivery services, shipping and brochures.

Operating Capital Outlay

A reduction to Operating Capital Outlay of \$2,480 in the Workers' Compensation Administration Trust Fund will impact the Division's ability to replace the required one third of the information technology equipment when it becomes outdated or inoperable in the injured workers program.

Other Data Processing Services

A reduction to Other Data Processing Services of \$7,716 in General Revenue will impact the ability to facilitate the training and capacity building for Vocational Rehabilitation staff which is essential to the continued reduction in the Division's reliance on Marquis Software Development, Inc. The development of electronic invoicing, online training capacity, and other automation projects will also be impacted.

Education Technology

A reduction to Education Technology Information Services of \$267 in the Workers' Compensation Administration Trust Fund can be absorbed without undue hardship.

OPERATING				33B0000
PROGRAM REDUCTIONS WITH DIRECT				
IMPACT ON STUDENTS AND INSTRUCTION				33B3000

A reduction to the Florida Endowment Fund for Vocational Rehabilitation (Able Trust) of \$15,758 in General Revenue will reduce the allocation of funds to each of the 14 High School/High Tech sites, and reduce the number of students served and enrolled. Through mentoring and summer internships, the program directly supports students with disabilities in the successful transition to postsecondary education and to work.

Contracted Services

A reduction to Contracted Services of \$47,221 is comprised of \$22,221 in General Revenue and \$25,000 in the Workers' Compensation Administration Trust Fund and will reduce funds available to the Florida Alliance for Assistive Services and Technology (FAAST). FAAST provides support for individuals with disabilities who need assistive technology through public awareness, education and training, technical assistance, device loan programs and device demonstration centers. A reduction in the Workers' Compensation Administration Trust Fund will significantly impact daily program operations and constrain contractual support costs related services for injured workers, carrier delivery services, technology consulting services and repairs and maintenance for essential equipment.

Independent Living Services

A reduction to Independent Living Services of \$61,600 in General Revenue will reduce funds to each of the 16 Centers for Independent Living (CILs) across the state. The CILs provide a wide range of services to individuals with all types of disabilities, including independent living skills training, peer counseling, and advocacy services. During federal Fiscal Year 2008-2009, the CILs created 25,824 independent living plans. Based on the average cost per person for an independent living plan, approximately 154 people with disabilities will be unable to access services related to a plan for independent living.

Purchased Client Services

A reduction to Purchased Client Services of \$1,376,617 is comprised of \$1,300,932 in General Revenue and \$75,685 in the Workers' Compensation Administration Trust Fund. The reduction in General Revenue will impact the Division's ability to reduce the waiting list. There will be a reduction in services provided to eligible individuals with disabilities including vocational counseling, employment services, supported employment services, education and training, support services, medical services, mental health services, equipment, transportation, assistive technology service, prosthetics and orthotics, job coaching, and job placement.

The reduction in the Workers' Compensation Trust Fund will significantly limit the availability of adequate funding to pay for training and education, vocational evaluations, tools, uniforms and supplies, mileage, and tuition and books for injured workers in order to return them to suitable gainful employment after they have suffered a work related injury. The Purchased Client Services budget allocations for Fiscal Year 2010-2011 from the Workers' Compensation Trust Fund is currently \$1.2 million less than the allocations provided for Fiscal Year 2009-10 and any further reductions will be

PRIORITY 1

Salaries and Benefits

A reduction to Salaries and Benefits of \$204,664 in General Revenue will result in the loss of 4 positions and 119,896 in associated rate. This reduction will diminish the Division's ability to accomplish work assignments in a timely manner and meet client needs.

Other Personal Services

A reduction to Other Personal Services of \$7,792 is comprised of \$7,290 in General Revenue and \$502 in the Grants and Donations Trust Fund and will limit the amount of funds available to pay for time-limited projects that have critical deadlines and student assistants who supplement the office support, answer phones, scan historical documents for archiving, make deliveries, and perform other routine but important functions that will otherwise have to be assigned to full time staff.

Expenses

A reduction to Expenses of \$23,043 is comprised of \$20,823 in General Revenue and \$2,220 in the Grants and Donations Trust Fund and will limit the funds available to pay for rent, travel, professional development, printing and distribution of statutorily required reports, and general office supplies.

Operating Capital Outlay

A reduction to Operating Capital Outlay of \$2,715 in General Revenue will delay the replacement of older, less efficient equipment used in the performance of day to day tasks of Division employees.

Contracted Services

A reduction to Contracted Services of \$2,807 in General Revenue will reduce the use of Federal Express to mail out client warrants, and will reduce the use of security services in our Dormitory and maintenance in private buildings.

PRIORITY 3

Access to Better Learning and Education (ABLE) Grants

A reduction to the Access to Better Learning and Education (ABLE) Grants of \$132,918 in General Revenue will reduce the award level of tuition assistance provided to an estimated 4,289 Florida undergraduate students enrolled in a degree program at eligible private Florida colleges or universities. ABLE is a decentralized program, which means each participating institution determines application procedures, deadlines, and student eligibility. The current maximum award of \$945 will be reduced by 3.28%, or approximately \$31.

Academic Program Contracts

A reduction to Academic Program Contracts of \$29,319 in General Revenue will reduce the level of support provided as tuition assistance to Florida resident students enrolled in specified high demand programs at the University of Miami, Florida Institute of Technology, Barry University, and Nova/Southeastern University.

Florida Resident Access Grant

A reduction to the Florida Resident Access Grant (FRAG) of \$2,899,325 in General Revenue will reduce the award level of tuition assistance provided to approximately 34,580 Florida resident full-time students attending eligible private institutions. The current maximum award of \$2,425 will be reduced by 3.46%, or approximately \$84.

Nova Southeastern University Health Programs

A reduction to the Nova Southeastern University Health Programs of \$163,042 in General Revenue will reduce award levels of tuition assistance provided to Florida resident students enrolled in four health programs at Nova Southeastern

Prepaid Tuition Scholarships

A reduction to Prepaid Tuition Scholarships of \$155,404 in General Revenue will delay the purchase of prepaid tuition scholarships. This program, also known as Project STARS - Scholarship Tuition for At-Risk Students, is administered by the Florida Prepaid College Foundation. The program provides prepaid tuition scholarships to economically disadvantaged youth who otherwise may not have the financial resources to pursue postsecondary education opportunities.

Transfer to the Florida Education Fund

A reduction to the Florida Education Fund of \$100,385 in General Revenue will impact programs and services that strengthen the community through institutional enhancements and greater advancement for historically under-represented groups. The Florida Education Fund offers three programs that have shown positive results across various educational levels: McKnight Doctoral Fellowships, Minority Participation in Legal Education, and Centers of Excellence.

Florida Education Finance Program

A reduction to the Florida Education Finance Program (FEFP) of \$293,528,514 is comprised of \$291,854,745 in General Revenue, \$451,824 in the Educational Enhancement Trust Fund, and \$1,221,945 in the Principal State School Trust Fund. The FEFP is the primary mechanism for funding the operating costs of school districts and the foundation for financing

PROGRAM REDUCTIONS WITH DIRECT				
IMPACT ON STUDENTS AND INSTRUCTION				33B3000

Florida's K-12 education programs. These reductions will have a direct impact on students and instruction with significant reductions to classroom services, programs, and course offerings; reductions in classroom support services; reduced salaries and wages; and position eliminations.

Class Size Reduction

A reduction to the Class Size Reduction category of \$146,396,074 is comprised of \$136,899,201 in General Revenue, \$4,308,055 in the Principal State School Trust Fund and \$5,188,818 in the Educational Enhancement Trust Fund. These reductions will have a direct impact on students and instruction and will jeopardize the Department's ability to comply with the Constitutional requirement that allows no more than 18 students in a core curriculum classroom in grades PK-3, 22 students in a core curriculum classroom in grades 4-8, and 25 students in a core curriculum classroom in grades 9-12.

District Lottery/School Recognition

A reduction to the School Recognition Program of \$6,495,702 in the Educational Enhancement Trust Fund will reduce funding for the District Lottery program and the School Recognition program. District Lottery program funds are provided to permit school boards to define and implement enhancements to school district education programs and for the state to reward schools financially for the academic performance of their students. The Florida School Recognition Program, authorized by Section 1008.36, Florida Statutes, provides monetary awards to schools that earn an "A" grade or improve at least one performance grade from the previous year.

The reduction to these three categories will result in a reduction of per student funding of approximately \$168.77.

PRIORITY 2

Excellent Teaching

A reduction to the Excellent Teaching Program of \$1,062,209 in General Revenue will reduce funds to provide certification and mentoring bonuses to Florida teachers who demonstrate teaching excellence by attaining National Board for Professional Teaching Standards certification and by sharing their expertise with other teachers.

Florida Diagnostic and Learning Resources Centers

A reduction to the Florida Diagnostic and Learning Resources Centers of \$117,428 in General Revenue will decrease funding to each of the five multidisciplinary educational service centers within the Florida Diagnostic and Learning Resources System. These five multidisciplinary educational service centers provide evaluation and other specialized services and are located at the University of Florida, University of Miami, Florida State University, University of South Florida, and University of Florida Health Science Center at Jacksonville. The Centers work with school districts to facilitate the provision of evaluation services and other specialized services to exceptional students and their families and work within the university system to provide pre-service and inservice training in diagnosing and serving students with exceptionalities.

A reduction to the New World School of the Arts of \$29,764 in General Revenue will reduce the level of services provided for approximately 600 high school students pursuing a program of academic and artistic studies in the visual and performing arts.

School District Matching Grants Program

A reduction to the School District Matching Grants Program of \$64,279 in General Revenue will limit opportunities to provide challenge grants to public school district education foundations for programs that serve low-performing students, support teacher recruitment and retention efforts, or provide technical career education and/or literacy education.

Teacher and School Administrator Death Benefits

A reduction to Teacher and School Administrator Death Benefits of \$1,000 in General Revenue will limit funds available to provide teacher and school administrator special death benefits should they die while in the performance of their duties.

Regional Education Consortium Services

A reduction to the Regional Education Consortium Services of \$72,270 in General Revenue will reduce funding for each service organization. The Regional Education Consortium Services conducts regional delivery of educational services to small and rural districts in order to improve student achievement through the provision of technical assistance and school improvement strategies. There are three eligible regional consortium organizations of which 32 school districts, the Florida School for the Deaf and the Blind, and laboratory schools are members.

Teacher Professional Development

A reduction to Teacher Professional Development of \$11,835 in General Revenue will reduce the amount of funding available for recognition programs to provide awards to district personnel including Principal of the Year, Teacher of the Year and School Related Personnel of the Year, and for training of District School Superintendents.

School and Instructional Enhancements

A reduction to School and Instructional Enhancements of \$52,622 in General Revenue will limit funds available for programs such as the State Science Fair, the Academic Tourney, the Arts for Complete Education, and the Holocaust Museum.

Instructional Materials

A reduction to Instructional Materials of \$62,763 in General Revenue will impact several program areas including Partially Sighted Students, Sunlink Uniform Library Database, Learning through Listening, Instructional Materials Management, Distance Learning Training through the Panhandle Area Educational Consortium, and Redefining the Rural High School.

Assistance to Low Performing Schools

A reduction to Low Performing Schools of \$160,590 in General Revenue will impact programs and services provided by the Florida Partnership for Minority and Under-represented Student Achievement. The partnership provides a coordinated series of programs, services, and activities geared to the specific needs of targeted students and teachers, and increases academic rigor in Florida's low performing middle and high schools.

Mentoring/Student Assistance Initiatives

A reduction to Mentoring/Student Assistance Initiatives of \$702,288 in General Revenue will reduce funding to community-based organizations and school districts to improve student performance for low performing or at-risk students, and to reduce drop out rates by providing additional learning opportunities. Funds are provided to programs that assist children in receiving support from a mentor, improve academic performance, improve interpersonal relationships, reduce dropout rates, and reduce juvenile delinquency.

A reduction to the College Reach Out Program of \$91,255 in General Revenue will reduce support to students from low-income educationally disadvantaged backgrounds. The program works with these students and provides tutoring, mentoring, PSAT/SAT/ACT preparation, college tours, summer residential programs, and educational field trips.

Autism Program

A reduction to the state's regional autism centers of \$294,687 in General Revenue will reduce nonresidential resources and training services for persons of all ages and all levels of intellectual functioning who have autism spectrum disorders, who have a pervasive developmental disorder that is not otherwise specified, who have an autistic-like disability, who have a dual sensory impairment, or who have a sensory impairment with other disabling conditions. There are seven Centers for Autism and Related Disabilities that provide services within an assigned geographic region of the state. Each center is expected to coordinate services within and between state and local agencies and school districts but may not duplicate services provided by those agencies or school districts.

Florida School for the Deaf and the Blind

A reduction to the Florida School for the Deaf and the Blind (FSDB) of \$1,998,818, comprised of \$1,911,488 from General Revenue and \$87,330 from the Grants and Donations Trust Fund, will reduce learning opportunities for blind/visually impaired students and deaf/hearing impaired students. The FSDB serves students from throughout the State of Florida between the ages of 3 and 21 who are blind/visually impaired or deaf/hearing impaired, some of whom have multiple disabilities requiring special programs and services

PRIORITY 2

Federal Equipment Matching Grant

A reduction to the Federal Equipment Matching Grant of \$31,368 in General Revenue will reduce federal funds on a dollar for dollar basis and delay station equipment replacement and upgraded facilities. The Federal Equipment Matching Grant Program administers awards to Florida's public television and radio stations received from the National Telecommunications and Information Administration's Public Telecommunications Facilities Program. Funds are used to update broadcast equipment of stations in order to expand coverage and services that include educational programs, instructional programs and emergency information. Teachers, students, parents, and citizens obtain greater access and receive better services more cost effectively by improving equipment used in the processing and delivery of programs.

Public Broadcasting

A reduction to Public Broadcasting of \$377,768 in General Revenue will impact the production of statewide governmental, educational and cultural affairs programming and broadcasting services. Programs supported by this funding include Florida Crossroads, Capital Report, and the Florida Channel Year Round Coverage. Additionally, support is provided for closed captioning of broadcast programs, as mandated by the Federal Communications Commission, to ensure access to citizens, teachers and students with hearing impairments.

PRIORITY 2
 Commission on Community Service

A reduction to the Governor's Commission on Volunteerism and Community Service of \$28,313 in General Revenue will limit the staff's ability to utilize and administer federal funds available under the National and Community Service Trust Act of 1993. This reduction will reduce opportunities to develop and encourage volunteerism in support of Florida's neediest citizens, and those responding to man-made and natural disasters.

Distance Learning

A reduction in the Distance Learning Consortium category of \$15,834 in General Revenue will limit staff's ability to facilitate collaboration among public postsecondary educational institutions in the use of distance learning, including the management of the Higher Education Distance Learning Course Catalog and the development of a plan to implement an online registration process for distance learning courses.

Community College Lottery Funds

A reduction to the Community College Lottery Funds of \$6,347,958 in the Educational Enhancement Trust Fund will have a critical impact on the ability to serve more than 880,700 students in the Florida College System. The Florida College System consists of 28 locally-governed public colleges operating 180 instructional sites. Community College Lottery Funds are used to fund a portion of the basic operations of Florida public colleges including: instruction, academic support, libraries, student services, and institutional support.

Community Colleges Program Fund

A reduction in the Community College Program Fund line item of \$45,205,976 in General Revenue or approximately \$127 per FTE, will have a significant and direct impact on students and academic instruction at the 28 colleges in the Florida College System. These colleges experienced significant growth over the last year of an additional 30,848 FTE, or a 9.4% increase. This growth amounted to an increase in student headcount of more than 41,000 for a total student enrollment of more than 880,700. With an average of 76% of the system's funding tied up in personnel costs, any significant reduction in general revenue will result in extensively reduced student access and support as well as reduced program offerings, decreased availability of necessary courses, increased class sizes, restricted availability of required equipment and supplies, as well as reductions in instructional and instructional/institutional personnel.

PRIORITY 1

Salaries and Benefits

A reduction of \$1,820,732 in Salaries and Benefits is comprised of \$1,045,715 in General Revenue and \$775,017 from trust funds and will eliminate 16 General Revenue funded full time positions with associated rate of 722,592 and 12 trust funded full time positions with associated rate of 541,944. The loss of these positions will result in working with fewer staff resources than are needed to accomplish required work assignments in a timely manner.

Other Personal Services

A reduction to Other Personal Services of \$30,377 is comprised of \$11,976 in General Revenue and \$18,401 in trust funds. This reduction will limit the amount of funds available to pay for time-limited projects that have critical deadlines and student assistants who supplement the office support, answer phones, scan historical documents for archiving, make deliveries, and perform other routine, but important, functions that will otherwise have to be assigned to full time staff.

Expenses

ADMINISTRATIVE REDUCTIONS				33B1000

A reduction in Expenses of \$363,942 is comprised of \$142,250 in General Revenue and \$221,692 from trust funds. This reduction will lessen the funds available to pay for travel, professional development for staff, printing and distribution of statutorily required reports, and general office supplies.

Operating Capital Outlay

A reduction in Operating Capital Outlay of \$8,657 is comprised of \$2,420 in General Revenue and \$6,237 from trust funds and will delay the replacement of older, less efficient equipment used in the performance of day to day tasks of Department employees.

Contracted Services

A reduction in Contracted Services of \$178,243 is comprised of \$31,816 in General Revenue and \$146,427 from trust funds and will reduce funds available to the Department to purchase services rendered by independent contractors. These services may include, but are not limited to: evaluations; consultations; maintenance; accounting; security; information technology; legal services; management systems; management consulting; educational training programs; research and development studies; and professional, technical, and social services.

Choices Product Sales

A reduction in Choices Product Sales of \$20,000 from trust funds will diminish the Department's ability to provide educational products and materials to school districts. The Products Catalog is available online and in print and includes a variety of products and materials some which are free (required by state or grant regulations) while others have a cost recovery charge invoiced to the school or district.

Educational Facilities Research and Development Projects

A reduction to Educational Facilities Research and Development Projects of \$10,000 in trust funds will limit the Department's ability to provide technical assistance, training and research related to educational facilities for public school districts and Florida colleges, as well as technical support to state universities regarding environmental issues.

Data Processing Services - Education Technology and Information Services

A reduction to Data Processing services of \$282,093 is comprised of \$180,175 in General Revenue and \$101,918 from trust funds and will impact mission critical technology needs and programs throughout the Department including:

Department Wide Technology Purchases: Many information technology purchases are acquired for use by the entire department and are not specific to any one program area. Such purchases include hardware maintenance, software license renewals, and software maintenance.

Education Data Center (EDC) Data Processing Services: The Education Data Center (EDC) Data Processing Services provided to all departmental staff include Help Desk and Desktop Support; Disaster Recovery Services; Information Security; Computer Operations Services; Telecommunications & Data Infrastructure Support; and Applications Development & Support. Some of the largest mission critical applications supported by the EDC through General Revenue funds are the Public Schools Funding and Financial Reporting system, the Public Schools Student and Staff databases, and ACT/SAT records for the Bright Futures program.

Education Data Warehouse: The K-20 Education Data Warehouse (EDW) was designed and developed to provide an accessible means to retrieve information from the DOE's prodigious data resources longitudinally. The K-12 and Florida College (CC) student and staff databases were designed to collect and edit data required to administer Florida's education programs. This includes state and federally mandated reporting requirements. State and federal funding are also administered through both of these database applications. The EDW repository uses state of the art technology that will be leveraged to improve the processing environment for the K-12 and CC databases and better integrate them into the enterprise vision of the department.

FACTS.org: FACTS.org is the computer-assisted student advising system, which is required by Section 1007.28, F.S. The system's establishment and maintenance is the responsibility of the Department of Education in conjunction with the Board of Governors. The two agencies, via an advisory committee, oversee the Florida Center for Advising and Academic Support, which administers the project. The site enables students to: create a high school plan and select their major area of interest; check their eligibility for Bright Futures, SUS Admissions, and other scholarships; explore careers; learn about Florida's postsecondary opportunities; apply online for admission and financial aid; view their transcripts and grades; and check their progress towards graduation. FACTS.org supports an inter-institutional network which connects all public postsecondary institutions allowing students to assess the impact of transferring schools and programs.

Northwest Regional Data Center (NWRDC) Processing: Many DOE mainframe legacy systems were designed and programmed to run on an IBM mainframe. The mainframe environment is used for test, development and production of batch and online mainframe applications. The applications hosted at NWRDC are typically large applications that perform better on a mainframe. Some of the largest mission critical programs at NWRDC supported by General Revenue funds are the K-12 Student and Staff Databases as well as the Workforce and Community Colleges databases.

Northwood Shared Resource Center

A reduction to the Northwood Shared Resource Center in General Revenue of \$1,500 will not impact the Department.

Assessment and Evaluation

A reduction of \$2,432,803 in Assessment and Evaluation is comprised of \$1,782,443 in General Revenue and \$650,360 from trust funds and will have a significant impact on PreK-12 student assessment, and postsecondary and certification assessment programs. The PreK-12 assessment programs provide key information about student learning. These assessments are critical for determining student achievement and school accountability in Florida schools. Assessment programs also measure postsecondary readiness and educator readiness. Certification assessments for teachers and school administrators help to ensure the educational competency of adults who provide and supervise the academic development of Florida's students.

The Education and General (E&G) budget entity reflects the allocation of resources by the legislature for the State University System of Florida (SUS) as a whole. The E&G budget consists of educational activities such as instruction and research, libraries, student services and plant operations and maintenance. For FY 2010-11, the Legislature appropriated over \$1.7 B in general revenue and lottery funds to the Universities. A 5% reduction equates to over \$87 M in total appropriations for the current year. This potential shortfall could cause personnel reductions and elimination of programs and course offerings.

Additional information regarding the reduction plans of the Universities are available in the Board of Governors General Office upon request.

The University of Florida - Institute of Food and Agricultural Science (UF-IFAS) is a federal-state-county partnership dedicated to developing knowledge in agriculture, human and natural resources, and life sciences. Additionally, UF-IFAS is the research and development center for Florida's agricultural and natural resources industries with close to a \$100 B annual impact to the southern region.

A 5% budget reduction, or \$6.5 M reduction, at UF-IFAS could cause disruptions to the federally funded research activities. Around 80% of the expenditures are related to salaries and benefits. Many of these costs have mandatory costs shares with the local county government and the USDA.

The University of South Florida (USF-HSC) is an enterprise dedicated to making life better by improving health in the state and national environment, in communities, and for individuals. USF-HSC has, as its core, the three colleges of Public Health, Nursing and Medicine, including a School of Physical Therapy as well as the healthcare delivery by its clinicians. Originally founded as the USF Medical Center in 1965, its name has been changed to USF Health Science Center to reflect its collaborative focus on the full continuum of health.

AT THE UNIVERSITY OF SOUTH FLORIDA						33B4200

Over half of the USF-HSC funding consists of general revenue and lottery appropriations. These funds are primarily used to support the instructional and educational costs of medical education at the university. For FY 2010-11, total appropriations for the health center are \$62.5 M. A 5% reduction would equate to \$3.1 M in total appropriations for the current year. Since 2007, the center's recurring appropriation has been reduced by more than \$12.7 M. Any additional budget reductions could potentially have a negative impact on the center's ability to provide quality medical education to its student body.

The overall mission of the University of Florida - Health Science Center (UF-HSC) is to improve health care in Florida, our nation, and the world through excellence and consistently superior leadership in education, clinical care, discovery and service. UF-HSC have set high standards to improving human health and disease through groundbreaking research and translating these discoveries into new solutions that promote health and improve health outcomes and quality of care. The health center is highly dedicated to recruiting, developing and nurturing a diverse and academically outstanding community of faculty, students, trainees and staff who each contribute to excellence in medical education.

For FY 2010-11, recurring general revenue and lottery appropriations for UF-HSC were \$101.9. These funds will be used primarily to support the instructional and educational costs of medical education at UF. A 5% reduction would equate to \$5.1 M of total state appropriations. Since 2007, the center's recurring appropriation has been reduced by over \$12 M. These reductions could possibly cause the medical school to revise their enrollment plan by placing tighter restrictions on student enrollment and freezing faculty and staff recruitment efforts.

 PRIORITY #010

The Florida State University Medical School (FSU-MS) focuses on educating outstanding physicians for practice in community settings. Students benefit from a well-structured continuum of education in the biomedical, behavioral and clinical sciences. Subjects such as anatomy and pathology are presented in a clinically relevant context using medical cases and the latest educational technologies. Problem-based and small-group learning experiences help students develop their clinical acumen and to work within a team setting.

The FSU-MS relies heavily on state appropriated dollars for everyday operations. Approximately \$36.2 M in total general revenue and lottery funds was appropriated to the medical school for fiscal year 2010-11. These funds will be used primarily to support the instructional and educational costs of medical education at the institution. Reducing these appropriations by 5% would equate to \$1.8 M. Since 2007, recurring appropriations at the medical school have been reduced by more than \$9 M. Any additional reductions could further hinder the medical school's objective of providing quality medical school education to 480 students.

Since 2007, the University of Central Florida - Medical School has experienced close to \$1.4 M in budget reductions. A 5% budget reduction for FY 2010-11 would equate to \$1 M. As a result, this could further impede the school's ability to produce new physicians for the State of Florida. Ongoing support of state dollars is critical to the medical school's overall mission of delivering medical education conducive to the needs of the students served.

The Florida Distance Learning Consortium (FDLC) employs 5 full time staff. Although fiscal savings through further consolidation may offset a portion of the projected reduction, a 5% reduction - or a reduction of \$13,943 - will result in the loss of one staff position after FY 2010-11. The FDLC responsibilities as outlined in S. 1004.091 F.S. as they relate to the ongoing operation of a central content repository and the open access textbook initiative will be compromised by additional budget reductions.

For FY 2010-11, the Legislature reduced student financial aid by \$424,000 - leaving a total of \$16.8 M as recurring general revenue. A 5% general revenue reduction for the current year would force the System to endure further reductions, which would put Florida's students at a disadvantage as many would be forced to seek other funding sources such as private loans or full-time employment to pay for school.

The Research Commercialization Initiative consists of awards provided for various research projects ranging between \$30,000 and \$200,000. Recently, the universities submitted proposals to the Board of Governors General Office for consideration and approval. Notifications have been mailed to the universities regarding the type of award and the amount awarded for their approved research project.

As a result of a 5% budget reduction, or a \$100,000 reduction, the number of awards provided to support medical research would decrease. Universities would have to seek other funding sources to support the research projects affected as a result of the reduction.
