information and operational systems.

Issue Description:

Effective January 1, 2012, the federal government has mandated (Public Law 109-222) that governmental agencies withhold three (3) percent from vendor payments for goods and services. This deadline was extended by the federal stimulus package, "American Recovery and Reinvestment Act of 2009," from the original effective date of January 1, 2011. The draft Internal Revenue Service (IRS) rules for this new law requires governments to withhold 3 percent of payments of \$10,000 or more. During the last fiscal year, the state processed 166,976 vendor payment transactions through FLAIR (State's Accounting System) in excess of \$10,000 to 18,556 vendors. In order to implement this federal mandate, the Department of Financial Services (DFS) will be required to withhold 3 percent from each payment (i.e., identify the applicable payments, calculate the withholding, and disburse the net amount to the vendor), build a system to report the amount and periodically remit funds to the IRS. This process will be similar to the current process for withholding and remitting payroll funds. All governmental entities which make \$100 million or more in vendor payments a year must implement this requirement. Therefore, state and local governments all over the country are being impacted by this requirement.

Division of Information Systems (DIS) Impact:

In order to comply with Public Law 109-222, the Bureaus of Accounting Systems Design and Programming Design estimate that 3,185 complex FLAIR computer programs must be modified and tested to address the reconciliation of withholdings and subsequent payments to the federal government, preparation of tax deposits, monitoring of agency payments, and increased compliance monitoring. For the 2011-2012 fiscal year, the calculation of costs for FLAIR modifications are stated below in the detail of costs. This cost is to analyze, design and code modifications to FLAIR for vendor data consolidation and the 3 percent withholding requirements, as well as analyze IRS reporting requirements.

The complexity of the mandate will require modifications to FLAIR's basic functionality. Designers, testers and programmers in the two FLAIR application support bureaus must understand the existing functionality in order to make these modifications. Recruiting candidates with the appropriate level of knowledge and experience is extremely difficult, making it necessary for the Division to hire staff at 10 percent above the minimum salary base for the requested positions.

This issue will also be in the State Financial Information and State Agency Accounting budget entity (43200200) and the State Self-Insured Claims Adjustment budget entity (43400100).

Potential Agency Impact:

This law will also apply to state disbursements not made currently through FLAIR, such as agency revolving funds. DFS will be required to work with all state agencies to identify non-FLAIR disbursements and devise a method for implementing

the 3 percent withholding requirement.

We have two sets of customers for this project. The first is the federal government. The second is the 200,000 plus vendors doing business with the State of Florida on an annual basis. The mandate to begin the 3% withholding is January 1, 2012. This LBR will create 9 positions and one other personal services position as of July 1, 2011, to develop technical specifications, perform programming, perform testing, develop new policies, continue upgrading the FLAIR vendor files and obtain taxpayer information on all vendors needed for 3 percent withholding. Failure to fund these positions will prevent the State from making the technical modifications to FLAIR necessary for successful implementation of 3 percent withholding by the federally mandated deadline and from making sufficient progress in the clean-up and consolidation of vendor information necessary for the 3 percent withholding.

If this LBR is not funded and the State cannot implement by January 1, 2012, potential penalties could be assessed. Governments that fail to withhold the tax imposed by this law are generally liable for the payment of the tax owed to the IRS unless it can prove that the payee has paid its income tax liability independently of the State. The dollar amount of 3 percent withholdings in a calendar year for the State of Florida is estimated to be over \$500 million a year when considering the amount of vendor payments made each year. Second, payers that fail to withhold the tax are liable for interest and will incur additional penalties depending on the time period taken to eventually remit the withholding amount. Third, annual 1099 forms to the IRS would not be correct, which could result in additional penalties of \$100 per Form 1099 with no cap. The fines under this scenario could run into millions of dollars per year.

From a technical, functional or operational standpoint, if positions are not funded, resources will have to be shifted from other statutory responsibilities which will significantly impact the agency's ability to meet its obligations resulting in extreme impacts to the citizens of Florida. In addition, when a FLAIR production problem occurs, it becomes a critical situation requiring involvement of numerous FLAIR staff members that will be working on the 3 percent withholding project. These resources could be pulled away from the 3 percent withholding project for days or weeks to correct the problem in order to provide the same level of service that customers are currently receiving. With the addition of these new resources, DFS would be able to resolve production problems and continue current levels of support without impacting the 3 percent project schedule. If this LBR is not funded and DFS is required to shift resources for the development, implementation and operations of the 3 percent withholding requirement, the following impacts will be seen:

- 1) Inability to support changes to MFMP processes and interfaces that also require FLAIR to make system modifications, inadequate support of these processes could impact the accuracy and timeliness of payment processing to vendors.
- 2) Inability to support changes to PeopleFirst processes and interfaces that also require FLAIR to make system modifications. Inadequate support of these processes could negatively affect employee payrolls and the accounting for the payroll.

- 3) Currently Division of Information Systems responds to over 1,400 Help Desk tickets each year. These tickets cover issues as simple as how to use the FLAIR accounting system to helping a user work through a complex accounting scenario. If staff is pulled from this functionality, they will be unavailable to work through Help Desk tickets which will not allow Division of Information Systems to respond to critical agency needs involving FLAIR programs.
- 4) Currently, Division of Information Systems provides over 160 files to the Auditor General (AG) monthly. The AG requests specific historical accounting data from prior years for each agency being audited. This requires resources with an understanding of the accounting transactions as well as the technical knowledge to extract and send the data to the AG. If staff is pulled from support of data requests to the AG, the Division of Information Systems will be unable to provide assistance to the AG for their audits of other agencies.
- 5) Currently, FLAIR staff spends 35-40 percent of their work time performing maintenance and resolving production problems. If staff is unavailable for this type of activity, FLAIR production problems could result in significant FLAIR downtime and data corruption.
- 6) Each year several members of the FLAIR Central Accounting staff spend approximately three months (over 1100 hours) preparing for the fiscal year-end process. The year-end process includes closing cash balances from the prior year, opening cash balances for the current year and loading budgets to FLAIR from LAS/PBS in order to control agency spending. If staff is unavailable for this type of activity, the Department will not be able to meet the Chief Financial Officer's constitutional duty for the settlement of claims against the State.
- 7) Inability to provide timely support for FLAIR data requests, including transparency initiatives for DFS as well as from the Legislature and the Governor's Office. Division of Information Systems spends over 480 hours in support of this effort.
- 8) FLAIR staff responds to over 200 requests for public information each year. These are the same staff members who will be working on parts of the 3 percent project. Without additional staff, DIS will not be able to respond to public information requests from citizens, which could put the Department in violation of the Sunshine Law. Division of Information Systems staff spends over 1,050 annually on these requests.
- 9) Data integrity in FLAIR will suffer, which could result in statewide financial statement audit qualifications. This could result in a lower bond rating, affecting the State's ability to issue new bonds and increase the cost of borrowing. As stated above, the current FLAIR staff spends 35-40 percent of their time working through maintenance issues and solving production issues. This is the same staff that will need to spend their time doing the work for the 3 percent project. If Division of Information Systems does not get additional staff to help with the project, the current staff will spend fewer hours on maintenance.
- 10) System modifications required for federal reporting could be affected, such as payroll withholdings, which would result in significant fines by the federal government. Because personnel in the payroll programming and design sections have experience with withholding requirements, Division of Information Systems will have to pull from their expertise. If Division of Information Systems does not get additional staff, the staff currently supporting payroll will be re-assigned to 3 percent withholding and not available for support to the payroll system.
- 11) FLAIR report modifications for production of the State's Comprehensive Annual Financial Report (CAFR) could be

OF THREE PERCENT WITHHOLDING ON				
PAYMENTS FOR SERVICE AND PROPERTY				3612AC0

Issue Title: Required FLAIR Modification due to Internal Revenue Code 3402 Mandate for Three Percent Withholding on Payments for Service and Property after December 2011

Reference to Long-Range Program Plan: Goal 3 - The department will establish processes that reduce risk in its financial, information and operational systems.

Issue Description:

Effective January 1, 2012, the federal government has mandated (Public Law 109-222) that governmental agencies withhold three (3) percent from vendor payments for goods and services. This deadline was extended by the federal stimulus package, "American Recovery and Reinvestment Act of 2009," from the original effective date of January 1, 2011. The draft Internal Revenue Service (IRS) rules for this new law requires governments to withhold 3 percent of payments of \$10,000 or more. During the last fiscal year, the state processed 166,976 vendor payment transactions through FLAIR (State's Accounting System) in excess of \$10,000 to 18,556 vendors. In order to implement this federal mandate, the Department of Financial Services (DFS) will be required to withhold 3 percent from each payment (i.e., identify the applicable payments, calculate the withholding, and disburse the net amount to the vendor), build a system to report the amount and periodically remit funds to the IRS. This process will be similar to the current process for withholding and remitting payroll funds. All governmental entities which make \$100 million or more in vendor payments a year must implement this requirement. Therefore, state and local governments all over the country are being impacted by this requirement.

Division of Accounting & Auditing Impact:

For the 2010-2011 state fiscal year, DFS is working on functional and technical design issues in FLAIR related to new business processes, designing an electronic Form W-9 website, formulating business requirements, and cleaning up the State's multiple vendor files. In addition, DFS is developing an outreach program with State of Florida vendors to make them aware of the federal mandate and how it will affect them, which includes working with MyFloridaMarketPlace (MFMP). Federal withholding and Form W-9 training workshops will also be developed for communicating requirements and business process changes to vendors and state agencies.

For the 2011-2012 state fiscal year, it is anticipated that seven additional FTEs and 1 other personal services (OPS) position will be necessary to handle all remaining areas of this withholding requirement. The total estimated costs for these positions are stated below in the detail of costs. The requested positions will be involved with the following components of implementation: 1) Finalizing technical design and testing in FLAIR; 2) Working with vendors to obtain accurate, up-to-date W-9 forms prior to go-live on January 1, 2012; 3) Establishing a tax and reconciliation section that will be responsible for ensuring tax deposits with the IRS are made accurately and timely to avoid IRS penalties, and continually reconciling the tax account for payment cancellations and error corrections; 4) Continuing work on the

cleaning up of vendor information from the state's multiple vendor files with consolidating data where possible, which is a critical component to implementation; and 5) Conducting training and outreach programs with State of Florida vendors and state agencies which will be necessary to answer questions and work with individual vendors on compliance issues. The requested Other Personal Services (OPS) position will be dedicated to improving data integrity in the current FLAIR vendor files. Once the 3 percent withholding requirement has been implemented and the vendor files have been sufficiently cleaned up, the OPS position can be eliminated.

Once the law is implemented, the workload for DFS will increase significantly from an operational standpoint. For example, the number of 1099s produced by DFS will greatly increase and the questions arising due to withholding reported on the new 1099 form will increase the volume of vendor calls to the 1099 Section. In addition, the complexity of vendor calls will increase significantly as the process changes from a year-end reporting process to a daily vendor payment withholding process. A significant number of vendor calls is anticipated upon implementation because payments will not match invoices. There will also be confusion over which payments are subject to the new law. In addition to the 3 percent federal withholding law, Congress passed the healthcare reform bill that became Public Law 111-148, "Patient Protection and Affordable Care Act." Included in the law is a provision which eliminates corporate exemptions from 1099 reporting. Currently, the State does not prepare Form 1099s for payments to corporations unless they are related to healthcare or attorney's fees. This new provision will result in a significant increase in 1099s that the State must produce, as almost all payments to corporations will be required to be reported on a Form 1099.

Due to the complexity of this federal mandate, it is necessary for the Division to hire staff at 10% above the minimum salary base for the requested positions that are a pay-grade 20 or higher in order to acquire and retain experienced professionals. The Division plans to hire the OPS employee at the minimum hourly rate.

The requirements, forecasted above, are modeled on current 1099 and Bureau of State Payrolls processes which demonstrates the workload associated with these types of business functions.

This issue will also be in the Information Technology - FLAIR Infrastructure budget entity (43010500) and the State Self-Insured Claims Adjustment budget entity (43400100).

Potential Agency Impact:

This law will also apply to state disbursements not made currently through FLAIR, such as agency revolving funds. DFS will be required to work with all state agencies to identify non-FLAIR disbursements and devise a method for implementing the 3 percent withholding requirement.

We have two sets of customers for this project. The first is the federal government. The second is the 200,000 plus vendors doing business with the State of Florida on an annual basis. The mandate to begin the 3% withholding is January

OF THREE PERCENT WITHHOLDING ON				
PAYMENTS FOR SERVICE AND PROPERTY				3612AC0

1, 2012. This LBR will create nine positions and one other personal services position as of July 1, 2011, to develop technical specifications, perform programming, perform testing, develop new policies, continue upgrading the FLAIR vendor files and obtain taxpayer information on all vendors needed for 3 percent withholding. Failure to fund these positions will prevent the State from making the technical modifications to FLAIR necessary for successful implementation of 3 percent withholding by the federally mandated deadline and from making sufficient progress in the clean-up and consolidation of vendor information necessary for the 3 percent withholding.

If this LBR is not funded and the State cannot implement by January 1, 2012, potential penalties could be assessed. Governments that fail to withhold the tax imposed by this law are generally liable for the payment of the tax owed to the IRS unless it can prove that the payee has paid its income tax liability independently of the State. The dollar amount of 3 percent withholdings in a calendar year for the State of Florida is estimated to be over \$500 million a year when considering the amount of vendor payments made each year. Second, payers that fail to withhold the tax are liable for interest and will incur additional penalties depending on the time period taken to eventually remit the withholding amount. Third, annual 1099 forms to the IRS would not be correct, which could result in additional penalties of \$100 per Form 1099 with no cap. The fines under this scenario could run into millions of dollars per year.

From a technical, functional or operational standpoint, if positions are not funded, resources will have to be shifted from other statutory responsibilities which will significantly impact the agency's ability to meet its obligations resulting in extreme impacts to the citizens of Florida. In addition, when a FLAIR production problem occurs, it becomes a critical situation requiring involvement of numerous FLAIR staff members that will be working on the 3 percent withholding project. These resources could be pulled away from the 3 percent withholding project for days or weeks to correct the problem in order to provide the same level of service that customers are currently receiving. With the addition of these new resources, DFS would be able to resolve production problems and continue current levels of support without impacting the 3 percent project schedule. If this LBR is not funded and DFS is required to shift resources for the development, implementation and operations of the 3 percent withholding requirement, the following impacts will be seen:

- 1) Inability to support changes to MFMP processes and interfaces that also require FLAIR to make system modifications, inadequate support of these processes could impact the accuracy and timeliness of payment processing to vendors.
- 2) Inability to support changes to PeopleFirst processes and interfaces that also require FLAIR to make system modifications. Inadequate support of these processes could negatively affect employee payrolls and the accounting for the payroll.
- 3) Currently Division of Information Systems responds to over 1,400 Help Desk tickets each year. These tickets cover issues as simple as how to use the FLAIR accounting system to helping a user work through a complex accounting scenario. If staff is pulled from this functionality, they will be unavailable to work through Help Desk tickets which will not allow Division of Information Systems to respond to critical agency needs involving FLAIR programs.
- 4) Currently, Division of Information Systems provides over 160 files to the Auditor General (AG) monthly. The AG

requests specific historical accounting data from prior years for each agency being audited. This requires resources with an understanding of the accounting transactions as well as the technical knowledge to extract and send the data to the AG. If staff is pulled from support of data requests to the AG, the Division of Information Systems will be unable to provide assistance to the AG for their audits of other agencies.

5) Currently, FLAIR staff spends 35-40 percent of their work time performing maintenance and resolving production problems. If staff is unavailable for this type of activity, FLAIR production problems could result in significant FLAIR downtime and data corruption.

6) Each year several members of the FLAIR Central Accounting staff spend approximately three months (over 1100 hours) preparing for the fiscal year-end process. The year-end process includes closing cash balances from the prior year, opening cash balances for the current year and loading budgets to FLAIR from LAS/PBS in order to control agency spending. If staff is unavailable for this type of activity, the Department will not be able to meet the Chief Financial Officer's constitutional duty for the settlement of claims against the State.

7) Inability to provide timely support for FLAIR data requests, including transparency initiatives for DFS as well as from the Legislature and the Governor's Office. Division of Information Systems spends over 480 hours in support of this effort.

8) FLAIR staff responds to over 200 requests for public information each year. These are the same staff members who will be working on parts of the 3 percent project. Without additional staff, DIS will not be able to respond to public information requests from citizens, which could put the Department in violation of the Sunshine Law. Division of Information Systems staff spends over 1,050 annually on these requests.

9) Data integrity in FLAIR will suffer, which could result in statewide financial statement audit qualifications. This could result in a lower bond rating, affecting the State's ability to issue new bonds and increase the cost of borrowing. As stated above, the current FLAIR staff spends 35-40 percent of their time working through maintenance issues and solving production issues. This is the same staff that will need to spend their time doing the work for the 3 percent project. If Division of Information Systems does not get additional staff to help with the project, the current staff will spend fewer hours on maintenance.

10) System modifications required for federal reporting could be affected, such as payroll withholdings, which would result in significant fines by the federal government. Because personnel in the payroll programming and design sections have experience with withholding requirements, Division of Information Systems will have to pull from their expertise. If Division of Information Systems does not get additional staff, the staff currently supporting payroll will be re-assigned to 3 percent withholding and not available for support to the payroll system.

11) FLAIR report modifications for production of the State's Comprehensive Annual Financial Report (CAFR) could be affected, resulting in issuing the CAFR after the statutory deadline.

AGENCY ISSUE NARRATIVE:
 2011-2012 BUDGET YEAR NARRATIVE:
 Budget Entity: Risk

IT COMPONENT? YES

Issue Title: Required FLAIR Modification Due to Internal Revenue Service Mandate of Three Percent Withholding of Payments for Service and Property

Reference to Long-Range Program Plan: Goal 3 - The department will establish processes that reduce risk in its financial, information and operational systems.

Issue Description:

Effective January 1, 2012, the federal government has mandated (Public Law 109-222) that governmental agencies withhold three percent from vendor payments for goods and services. This deadline was extended by the federal stimulus package, "American Recovery and Reinvestment Act of 2009," from the original effective date of January 1, 2011. The draft IRS rules for this new law require governments to withhold three percent of payments of \$10,000 or more. To implement this federal mandate, the Division of Risk Management (DRM) must withhold three percent from each payment (i.e., identify the applicable payments, calculate the withholding, and disburse the net amount to the vendor), build a system to report the amount and periodically remit funds to the IRS. This process will be similar to the current process for withholding and remitting payroll funds. All governmental entities which make \$100 million or more in vendor payments a year must implement this requirement. Therefore, state and local governments all over the country are being impacted by this requirement. For the state fiscal year 2011-12, positions are needed to work on issues related to technical designs and testing; monitoring and assessing impacts of final IRS rules; developing new vendor payment policies; and preparing training and communication materials. The new positions also will be the Division of Risk Management's (DRM) direct interface with the federal government for compliance and ongoing modifications to this new program. It is envisioned that an outreach program with DRM's vendors will also be necessary to answer questions and work with individual vendors on compliance issues. Once implemented, the additional positions will manage the day-to-day operations of this new requirement. From an operational standpoint (once the law is implemented), this new requirement will significantly increase the workload for DRM. In addition, the complexity of vendor calls will increase significantly as the process changes from a year-end reporting process to a daily vendor payment withholding process. A significant number of vendor calls is anticipated upon implementation because payments will not match invoices. There will also be confusion over which payments are subject to the new law. For the state fiscal year 2011-12, it is anticipated that additional positions will be necessary to handle all areas of this withholding requirement including the following: withholding tax deposits and reconciliation; corrections/resolutions; agency/vendor liaisons; Form W-9/1099 reporting; and training. Due to the complexity of this federal mandate, it is necessary for the DRM to hire staff at ten percent above the minimum salary base for the requested positions in order to acquire and retain experienced professionals. The requirements

REQUIRED FLAIR MODIFICATION DUE TO				
INTERNAL REVENUE CODE 3402 MANDATE				
OF THREE PERCENT WITHHOLDING ON				
PAYMENTS FOR SERVICE AND PROPERTY				3612AC0

forecasted above are modeled on current 1099 and Bureau of State Payrolls processes which demonstrates the workload associated with these types of business functions

This issue will also be in the Information Technology - FLAIR Infrastructure budget entity (43010500) and the State Financial Information and State Agency Accounting budget entity (43200100).

If this is not funded then the state will not be in compliance with the federal law.

This issue is linked to the Required FLAIR modification due to Internal Revenue Code 3402 mandate of three percent withholding on payments for service and property but has no IT component. Positions are requested at 10 percent over the base.

Detail of Costs:

AGENCY ISSUE NARRATIVE:

2011-2012 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

KEY REC**4340010016010000004400100000000

Budget Entity: Division of Risk Management

Issue Title: Increase Appropriation for Purchase of Excess Property Insurance for State Property

Reference to Long-Range Program Plan: Goal 3 The department will establish processes that reduce risk in its financial, information and operational systems.

Issue Description:

The Division of Risk Management is asking for a 37 percent increase over the \$6.8 million initially funded in state fiscal year 2009-10. As this amount could not purchase adequate coverage in state fiscal year 2009-10, the Legislature appropriated additional funding of \$2,500,000 in the state fiscal year 2009-10 General Appropriations Act. This funding was used to purchase an additional \$18.75 million in named wind storm and flood insurance plus fill in a \$3.3 million dollar gap in coverage in the \$40 million coverage layer. This request equates to a requested increase of \$2,500,000 in appropriation category 101221 Claims Servicing/Excess Insurance. If this issue is funded the State should be able to purchase the same or nearly the same excess property insurance coverage in what is expected to be a continued "hardened market". If this issue is not funded, the State could find itself in the situation of purchasing even less excess property insurance coverage than what the State currently maintains. For state fiscal year 2010-11, the State maintains \$58.75 million of windstorm and flood coverage, with coverage for other perils up to \$200 million, and with a "deductible, or retention, of \$42 million. The Division of Risk Management has been "flat funded" in appropriation category 101221 Claims Servicing/Excess Insurance since state fiscal year 2005-2006. During state fiscal year 2008-09, the excess property insurance premium cost the state \$7.35 million, which was \$1.7 million higher than the cost of slightly more excess property insurance coverage in state fiscal year 2007-08. The division expects a "hardened market" to continue, driving the cost of excess property insurance higher. The state's excess property insurance broker was asked to provide an estimate of the cost to procure the same amount of excess property insurance during state fiscal year 2011-12. The broker's response is as follows: "If all pricing factors continue as they are today, we believe that the pricing for excess property insurance will increase by twenty (20) percent by February 15, 2011." This estimate does not take into account the possibility of historically catastrophic hurricane events such as one or more hurricanes the magnitude of Andrew or Katrina or historic years as seen by Florida during the hurricane seasons of 2004 and 2005, which could drive the price even higher.

AGENCY ISSUE NARRATIVE:

2011-2012 BUDGET YEAR NARRATIVE: IT COMPONENT? NO
 Budget Entity: Division of Licensure, Sales Appointment and Oversight
 Division of Funeral and Cemetery Services
 Division of Workers' Compensation

Issue Title: Banking Fees Associated with Electronic Payment Services for Licensees

Reference to Long-Range Program Plan: Goal 3 - The department will establish processes that reduce risk in its financial, information and operational systems.

Issue Description:

Divisions of Agents, and Agency Services, Workers Compensation and Funeral and Cemetery Services are moving to an eCommerce payment processing system from an existing system. Currently, fees for licenses are accepted online and processed by Link 2 Gov. Effective January 1, 2011, the department systems (Agent and Agency Licensing Function (AALF), eAppoint) will be incompatible with Link 2 Gov platform changes. Because similar eCommerce payment processing exists with the state term contract vendor, Bank of America, the department will migrate the Link 2 Gov processing to Bank of America.

Currently, when a licensee makes an electronic payment, Link 2 Gov charges an additional electronic payment services fee. Link 2 Gov keeps this fee and sends the license portion of the payment to the Department of Financial Services. For example, if an applicant were paying a \$60 fee and Link 2 Gov charges them a \$2 electronic payment services fee, the applicant would pay a total of \$62 to Link 2 Gov. Link 2 Gov would keep the \$2 and remit the \$60 to the department. The process will change with Bank of America. Bank of America will remit the full payment to the department, and the department will pay Bank of America the electronic payment services fees.

Budget amendment, EOG Log number B0144, is currently pending for the December LBC meeting. The amendment will appropriate \$1.4 million to this budget entity for six months. This issue annualizes that budget amendment to \$2.1 million for an entire fiscal year.

AGENCY ISSUE NARRATIVE:

2011-2012 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

Issue Title: Transfer Consumer Assistance Funding from Multiple Trust Funds to the Insurance Regulatory Trust Fund - Add

Reference to Long-Range Program Plan: Goal 4 The department will protect the health, safety and welfare of the public.

Issue Description:

This issue requests the fund shift of the Administrative Trust Fund (2021), Financial Institution Regulatory Trust Fund (2275) and the Regulatory Trust Fund (2573) to the Insurance Regulatory Trust Fund (2393). This shift will allow the division to have one trust fund and will simplify the appropriations and the accounting processes. The corresponding issue is 3400140.

AGENCY ISSUE NARRATIVE:

2011-2012 BUDGET YEAR NARRATIVE: IT COMPONENT? NO

Budget Entity: Division of Licensure, Sales Appointment and Oversight
 Division of Funeral and Cemetery Services
 Division of Workers' Compensation

Issue Title: Banking Fees Associated with Electronic Payment Services for Licensees

Reference to Long-Range Program Plan: Goal 3 - The department will establish processes that reduce risk in its financial, information and operational systems.

Issue Description:

Divisions of Agents and Agency Services, Workers' Compensation and Funeral and Cemetery Services are moving to an eCommerce payment processing system from an existing system. Currently, fees for licenses are accepted online and processed by Link 2 Gov . Effective January 1, 2011, the department systems (Agent and Agency Licensing Function (AALF), eAppoint) will be incompatible with Link 2 Gov platform changes. Because similar eCommerce payment processing exists with the state term contract vendor, Bank of America , the department will migrate the Link 2 Gov processing to Bank of America.

Currently, when a licensee makes an electronic payment, Link 2 Gov charges an additional electronic payment services fee. Link 2 Gov keeps this fee and sends the license portion of the payment to the Department of Financial Services. For example, if an applicant were paying a \$60 fee and Link 2 Gov charges them a \$2 electronic payment services fee, the applicant would pay a total of \$62 to Link 2 Gov. Link 2 Gov would keep the \$2 and remit the \$60 to the department. The process will change with Bank of America. Bank of America will remit the full payment to the department, and the department will pay Bank of America the electronic payment services fees.

This is the only division which has excess authority in the contractual services category next year. Due to that, the excess authority is being deducted in issue code 5500030. This issue appropriates the authority in the new category.

This issue will also appear in the Division of Licensure, Sales Appointment and Oversight (43500200) and the Division of Workers' Compensation (43600100).

Reference to Long-Range Program Plan: Goal 4 The department will protect the health, safety and welfare of the public.

Issue Description:

During the 2010 legislative session, Senate Bill 1484 (Law of Florida 2010-144), an act relating to Medicaid, was signed into law by the Governor on May 28, 2010. Section 17 of the bill requires the transfer of all powers, duties, functions, records, offices, personnel, property, pending issues and existing contracts, administrative authority, administrative rules, and unexpended balances of appropriations, allocations, and other funds relating to public assistance fraud in the Department of Law Enforcement (FDLE) to be transferred by type two transfer, to the Division of Public Assistance Fraud in the Department of Financial Services (DFS) by January 1, 2011. A budget amendment is being done for this transfer in the current state fiscal year. This issue transfers all the budget for fiscal year 2011-2012.

DFS has created the new Division of Public Assistance Fraud within the Licensing and Consumer Protection Program in order to comply with SB 1484.

AGENCY ISSUE NARRATIVE:

2011-2012 BUDGET YEAR NARRATIVE: IT COMPONENT? NO
 Budget Entity: Division of Public Assistance Fraud

Issue Title: Transfer of the Division of Public Assistance Fraud from Florida Department of Law Enforcement

Reference to Long-Range Program Plan: Goal 4 The department will protect the health, safety and welfare of the public.

Issue Description:

During the 2010 legislative session, Senate Bill 1484 (Law of Florida 2010-144), an act relating to Medicaid, was signed into law by the Governor on May 28, 2010. Section 17 of the bill requires the transfer of all powers, duties, functions, records, offices, personnel, property, pending issues and existing contracts, administrative authority, administrative rules, and unexpended balances of appropriations, allocations, and other funds relating to public assistance fraud in the Department of Law Enforcement (FDLE) to be transferred by type two transfer, to the Division of Public Assistance Fraud (PAF) in the Department of Financial Services (DFS) by January 1, 2011. A budget amendment, EOG Log number B0144, is pending for the December LBC.

The PAF unit, while at FDLE, used multiple trust funds for their revenues. Many of those revenues were specific to FDLE and will not transfer over to DFS. The original budget amendment being processed at the December LBC merged all trust fund revenues from FDLE into the Administrative Trust Fund at DFS. At this time, that is the only trust fund that DFS has created that would be proper for the revenues.

The majority of revenues for the PAF unit are federal funds from other state agencies. A trust fund bill will be drafted for the 2011 Legislature to create a new Federal Grants Trust Fund in the department. This issue transfers all the trust fund authority from the Administrative Trust Fund to the new Federal Grants Trust Fund.

AGENCY ISSUE NARRATIVE:

2011-2012 BUDGET YEAR NARRATIVE: IT COMPONENT? NO
 Budget Entity: Division of Public Assistance Fraud

Issue Title: Transfer of the Division of Public Assistance Fraud from Florida Department of Law Enforcement

Reference to Long-Range Program Plan: Goal 4 The department will protect the health, safety and welfare of the public.

Issue Description:

During the 2010 legislative session, Senate Bill 1484 (Law of Florida 2010-144), an act relating to Medicaid, was signed into law by the Governor on May 28, 2010. Section 17 of the bill requires the transfer of all powers, duties, functions, records, offices, personnel, property, pending issues and existing contracts, administrative authority, administrative rules, and unexpended balances of appropriations, allocations, and other funds relating to public assistance fraud in the Department of Law Enforcement (FDLE) to be transferred by type two transfer, to the Division of Public Assistance Fraud in the Department of Financial Services (DFS) by January 1, 2011. A budget amendment, EOG Log number B0144, is pending for the December LBC.

The PAF unit, while at FDLE, used multiple trust funds for their revenues. Many of those revenues were specific to FDLE and will not transfer over to DFS. The original budget amendment being processed at the December LBC merged all trust fund revenues from FDLE into the Administrative Trust Fund at DFS. At this time, that is the only trust fund that DFS has created that would be proper for the revenues.

The majority of revenues for the PAF unit are federal funds from other state agencies. A trust fund bill will be drafted for the 2011 Legislature to create a new Federal Grants Trust Fund in the department. This issue transfers all the trust fund authority from the Administrative Trust Fund to the new Federal Grants Trust Fund.

AGENCY ISSUE NARRATIVE:

2011-2012 BUDGET YEAR NARRATIVE: IT COMPONENT? NO
 Budget Entity: Division of Licensure, Sales Appointment and Oversight
 Division of Funeral and Cemetery Services
 Division of Workers' Compensation

Issue Title: Banking Fees Associated with Electronic Payment Services for Licensees

Reference to Long-Range Program Plan: Goal 3 - The department will establish processes that reduce risk in its financial, information and operational systems.

Issue Description:

Divisions of Agents and Agency Services, Worker's Compensation and Funeral and Cemetery Services are moving to an eCommerce payment processing system from an existing system. This is a new system for Workers' Compensation. Fees for licenses are accepted online and processed by Link 2 Gov . Effective January 1, 2011, the department systems (Agent and Agency Licensing Function (AALF), eAppoint) will be incompatible with Link 2 Gov platform changes. Because similar eCommerce payment processing exists with the State Term Contract vendor, Bank of America , the department will migrate the Link 2 Gov processing to Bank of America.

Currently, when a licensee makes an electronic payment , Link 2 Gov charges an additional electronic payment services fee. Link 2 Gov keeps this fee and sends the license portion of the payment to the Department of Financial Services. For example, if an applicant were paying a \$60 fee and Link 2 Gov charges them a \$2 electronic payment services fee, the applicant would pay a total of \$62 to Link 2 Gov. Link 2 Gov would keep the \$2 and remit the \$60 to the department. The process will change with Bank of America. Bank of America will remit the full payment to the department, and the department will pay Bank of America the electronic payment services fees.

Workers' Compensation did not require a budget amendment for the current fiscal year, there was sufficient authority. However, the division feels they will not have excess contractual services authority in Fiscal Year 2011-12.

This issue will also appear in the Division of Licensure, Sales Appointment and Oversight (43500200) and the Division of Funeral and Cemetery Services (43500500).

AGENCY ISSUE NARRATIVE:
 2011-2012 BUDGET YEAR NARRATIVE: IT COMPONENT? NO
 Budget Entity: Compliance and Enforcement Office of Insurance Regulation

Issue Title: Position(s) for the Life & Health Product Review Business Unit

Reference to Long Range Program Plan: Goal 1: The availability of insurance products that are not discriminatory, excessive or inadequately priced.

The Office of Insurance Regulation (Office) is responsible for regulation, compliance, and enforcement of statutes related to the business of insurance and the monitoring of industry markets. Business Units within the office are organized by regulatory expertise related to life and health, property and casualty, specialty lines and other regulated insurance entities. The office fulfills its mission to protect the public through its regulation of company solvency, policy forms and rates, market conduct performance and new company entrants to the Florida market.

Issue Description:
 The Life and Health Product Review (LHPR) business unit is responsible for the review of insurance company policy forms and rates for life, annuities and health policies that will be issued to Florida residents. The business unit receives rate filings from over 900 companies licensed to sell life and health insurance in Florida, including Health Maintenance Organizations (HMOs), Discount Medical Plan Organizations (DMPOs), Prepaid Limited Health Service Plans, Continuing Care Retirement Centers, as well as contracts and advertisements for Medicare Supplement, Long-Term Care and small group health plans.

UNIT				4800010

Since the creation of the office in 2003, the State of Florida has increased its number of insurance entities from 3400 to 3972. However, the Office's resources have been reduced from 315 positions in 2007 to 290 positions in 2010 with a substantial increase in regulatory responsibility. This responsibility has again increased significantly with the recent passage of federal health care reform known as the Affordable Care Act (ACA).

On September 23, 2010, some of the key ACA reforms were automatically implemented including: 1) no lifetime limits on health insurance benefits; 2) restricted limits on annual benefits; 3) first-dollar coverage for certain preventative services; 4) strict limitations on rescissions; 5) dependent coverage up to age 26 (current Florida law allows dependent coverage up to age 25, with optional coverage up to age 30); and 6) the elimination of pre-existing conditions for children. Technically these benefits under the ACA are automatic, but in practical terms, the Office has to deal with additional form filings for small group, individual, large group, and out-of-state group coverage as those forms have to comply with the law; the Office will need to expend considerable resources to ensure that health insurers operating in Florida are complying with these new requirements. Each year through 2014 there will be new additional requirements of the ACA to implement as they phase in to effect that will strain the Office's resources.

LHPR cannot continue to meet statutory requirements and the requirements of the ACA with its current staffing level. Rates and Forms filed by insurance companies may not be reviewed and approved in compliance with statutory time lines. The Office requests three (3) additional positions to ensure it meets its statutorily prescribed mission. These positions are an actuary, a Research and Statistics Consultant and an Insurance Analyst II.

Ultimate Outcome:

With the addition of three (3) positions, LHPR believes it will have the necessary resources to continue to execute its core mission of timely and thorough review of all life and health insurance form and rate filings submitted for use in the state of Florida.

Detail of Costs:

Salaries and Benefits:

Position	Title & Pay Grade	Amount	Non-Recurring
1	Actuary, Pay Grade 560/3554 at 10% Over Base	\$109,190

AGENCY ISSUE NARRATIVE:

2011-2012 BUDGET YEAR NARRATIVE: IT COMPONENT? NO
 Issue Title: Realign Office of Financial Regulation Legal Staff

Reference to Long Range Program Plan 2011-15: This request will further the Office's goals:
 Goal #1: To enforce compliance with state laws related to the financial industry

Issue Description:
 This is a technical issue.

This issue requests the re-approval of Budget Amendment Executive Office of the Governor (EOG) number B0138.
 The Office of Financial Regulation did this to improve the delivery of legal services within the Office of Financial Regulation (OFR), OFR is requesting to realign its structure to integrate attorneys and legal support into the functional areas they serve. This will assist the divisions in carrying out their core mission of enforcing the financial regulation statutes.

This amendment request the transfer of 3 positions and the authorized rate for these positions.

AGENCY ISSUE NARRATIVE:

2011-2012 BUDGET YEAR NARRATIVE: IT COMPONENT? NO
 Budget Entity: Executive Direction and Support Services (OFR)

Issue Title: Transfer Funding Funding For REAL System From Finance Regulation to Executive Direction and Support Services (OIR) - Add

Reference to Long-Range Program Plan: The REAL System supports all of Office of Financial Regulation's goals: GOAL #1: Enforce compliance with State laws related to the financial industry; GOAL #2: Examine regulated companies and individuals; and GOAL #3: Register or charter institutions, companies and individuals.

Issue Description:

Beginning in state fiscal year 2006-07, the Office of Financial Regulation (OFR) began integration of several commercial-off-the-shelf (COTS) packages into a comprehensive system for all of OFR's regulatory functions: licensing, examinations, investigations, legal, and consumer complaints, as well as imaging and work-flow processes. The REAL System was implemented in two phases in March, 2008 and January, 2009. Although the REAL System benefits all areas of OFR, the total cost of the integration and implementation of the REAL System has been paid by one single division. In order to more appropriately allocate the cost of the REAL System, OFR would like to move the appropriation for the system from the Division of Finance (43900560) to Executive Direction. This would allow the costs to be shared between the OFR budget entities through OFR's cost allocation process.

Ultimate Outcome: Shifting the appropriation from Division of Finance to Executive Direction will allow greater transparency into the costs associated with operating OFR's regulatory programs by appropriately charging the operating units for the use of the REAL System.

Detail of Costs:

AGENCY ISSUE NARRATIVE:
 2011-2012 BUDGET YEAR NARRATIVE: IT COMPONENT? YES
 Budget Entity: Finance Regulation

Issue Title: Operations and Maintenance to Support the Regulatory Enforcement and Licensing (REAL) System
 Reference to Long-Range Program Plan: The REAL System supports all of Office of Financial Regulation's goals: GOAL #1: Enforce compliance with State laws related to the financial industry; GOAL #2: Examine regulated companies and individuals; and GOAL #3: Register or charter institutions, companies and individuals.

Issue Description/Need:
 The Regulatory Enforcement and Licensing (REAL) System provides the Office of Financial Regulation (OFR) with an integrated financial regulatory management system that combines core processes for examination, investigation, consumer complaint, licensing, legal and fiscal functions. The REAL System contains all activities related to the entity (i.e., legal cases, investigative cases, examinations, complaints, business relationships, and other licenses held). REAL also provides a tracking mechanism for unlicensed entities. Due to federal requirements to share information with other states and regulatory bodies, the design of the REAL System additionally allows for the import of data from other systems that exist outside OFR to support the licensing and enforcement programs. This approach provides OFR with a comprehensive

regulatory tool to maintain licensing information and monitor licensee compliance. REAL aligns the agency's business units and processes to support the enforcement authority of the Office.

On March 12, 2007, the agency contracted with Accenture, LLP for implementation services for the REAL System. Release 1 of the REAL System was deployed on March 24, 2008 and Release 2 was deployed on January 20, 2009. The implementation contract between OFR and the vendor provides an option to retain the vendor beyond the initial implementation phase to provide on-going operations and maintenance services. The Office exercised this option and the subsequent extensions for the vendor to provide REAL System application support, database support, and technical infrastructure support on a fixed price basis. The current contract expires on January 20, 2012.

In June 2010, Office of Financial Regulation secured the services of a third party vendor to review and analyze the options for on-going application support for the REAL System, as well as other internal technology services. The analysis will provide a recommendation concerning the best approach for on-going support to begin January 20, 2012 when the Accenture contract expires. The analysis evaluates cost estimates and service performance of current providers.

The third party vendor is also required to prepare and submit a detailed Transition Plan based on the service provider option selected by the Office of Financial Regulation management. The Transition Plan will set forth a transition schedule (project plan), procurement requirements, hardware and software needs, and will detail anticipated costs associated with the transition of application and Information Technology support services.

Based on preliminary information, the Office of Financial Regulation estimates it will need recurring funds for Operations and Maintenance of \$681,346 and non-recurring funds of \$75,276 to cover transition expenses for FY 2011-12. More detailed cost information will be provided as it becomes available.

AGENCY ISSUE NARRATIVE:

2011-2012 BUDGET YEAR NARRATIVE: IT COMPONENT? NO
 Issue Title: Re-approval of Budget Amendment to Realign Office of Financial Regulation Legal Staff - Add

Reference to Long Range Program Plan 2011-15: This request will further the Office's goals:
 Goal #1: To enforce compliance with state laws related to the financial industry

Issue Description:
 This is a technical issue.

This issue requests the re-approval of Budget Amendment Executive Office of the Governor (EOG) number B0138. The Office of Financial Regulation did this to improve the delivery of legal services within the Office of Financial Regulation (OFR), OFR is requesting to realign its structure to integrate attorneys and legal support into the functional areas they serve. This will assist the divisions in carrying out their core mission of enforcing the financial regulation statutes.

This amendment requests the transfer of seven positions and the authorized rate for these positions.

Issue Title: Eliminate Mortgage Broker Examinations (Finance)

Reference to Long-Range Program Plan: Goal #3: Register or charter institutions, companies and individuals

Issue Description:

Reduction of the Mortgage Broker Examination fund would have a minimal impact on the Division's operating budget. The U.S. Congress passed the Secure and Fair Enforcement for Mortgage Licensing Act (SAFE Act) effective July 23, 2008, federal law requires all loan originators (which includes mortgage brokers) become licensed with the Nationwide Mortgage Licensing System (NMLS), developed by the Conference of State Bank Supervisors (CSBS). The 2009 Florida Legislature approved significant changes to Chapter 494, Florida Statutes, by passing Senate Bill 2226 to comply with SAFE. As part of those changes, the Office of Financial Regulation will no longer administer the mortgage broker test and applicants will be required to take the test through NMLS effective October 1, 2010.

For the first three months of state fiscal year 2010-11, OFR will continue to use third party services to conduct the mortgage broker testing for the agency. However, based on the federal requirement that all mortgage related licensees are tested through the national testing center, OFR anticipates the remaining funds will no longer be used by the agency for this purpose and are available for elimination.

Effective 10/1/2010, as a result of the SAFE Act legislation passed at the federal and state level, the pre-licensure mortgage broker examination will be conducted at the federal level and OFR will no longer administer the examination.

AGENCY ISSUE NARRATIVE:

2011-2012 BUDGET YEAR NARRATIVE: IT COMPONENT? NO
 Budget Entity: Finance Regulation

Issue Title: Transfer Funding Funding For REAL System From Finance Regulation to Executive Direction and Support Services (OFR) - Deduct

Reference to Long-Range Program Plan: The REAL System supports all of the Office of Financial Regulation's goals: GOAL #1: Enforce compliance with State laws related to the financial industry; GOAL #2: Examine regulated companies and individuals; and GOAL #3: Register or charter institutions, companies and individuals.

Issue Description:

Beginning in state fiscal year 2006-07, the Office of Financial Regulation (OFR) began integration of several commercial-off-the-shelf (COTS) packages into a comprehensive system for all of OFR's regulatory functions: licensing, examinations, investigations, legal, and consumer complaints, as well as imaging and work-flow processes. The REAL System was implemented in two phases in March, 2008 and January, 2009. Although the REAL System benefits all areas of OFR, the total cost of the integration and implementation of the REAL System has been paid by one single division. In order to more appropriately allocate the cost of the REAL System, OFR would like to move the appropriation for the system from the Division of Finance (43900560) to Executive Direction. This would allow the costs to be shared between the OFR budget entities through OFR's cost allocation process.

Ultimate Outcome: Shifting the appropriation from Division of Finance to Executive Direction will allow greater transparency into the costs associated with operating OFR's regulatory programs by appropriately charging the operating units for the use of the REAL System.

AGENCY ISSUE NARRATIVE:

2011-2012 BUDGET YEAR NARRATIVE: IT COMPONENT? NO

Issue Title: Reapproval of Budget Amendment to Realign Office of Financial Regulation Legal Staff - Add

Reference to Long Range Program Plan 2011-15: This request will further the Office's goals:

Goal #1: To enforce compliance with state laws related to the financial industry

Issue Description: This is a technical issue.

This issue requests the re-approval of Budget Amendment Executive Office of the Governor (EOG) number B0138. The Office of Financial Regulation did this to improve the delivery of legal services within the Office of Financial Regulation (OFR), OFR is requesting to realign its structure to integrate attorneys and legal support into the functional areas they serve. This will assist the divisions in carrying out their core mission of enforcing the financial regulation statutes.

This amendment requests the transfer of 5 positions and the authorized rate for these positions.

AGENCY ISSUE NARRATIVE:

2011-2012 BUDGET YEAR NARRATIVE: IT COMPONENT? NO
 Budget Entity: Division of Securities

Issue Title: Comply with Dodd-Frank Wall Street Reform and Consumer Protection Act

Reference to Long Range Program Plan 2011-15: This request will further the Office's goals:
 Goal #1: To enforce compliance with state laws related to the financial industry
 Goal #2: To examine regulated companies and individuals

The Dodd-Frank Wall Street Reform and Consumer Protection Act (Dodd-Frank) was recently signed into law. It mandates investment advisers with assets under management less than \$100 million will be regulated by the state securities regulator. Currently, the states are responsible for investment adviser firms with less than \$25 million in assets under management. Unless the Division of Securities (Division) has the resources necessary to adequately examine these investment advisory firms, Florida citizens will be placed at risk.

Issue Description:

As the state securities regulator in Florida, the division will become the sole regulator of investment adviser firms with less than \$100 million assets under management. Currently, the division is the regulator for 1,100 state registered investment advisers with less than \$25 million in assets under management doing business in Florida. As a result of Dodd-Frank, more than 700 additional investment adviser firms are expected to transfer to state registration from registration with the Securities Exchange Commission (SEC), bringing the total registered in Florida to 1,800 advisers. By 2015, approximately 2,600 investment advisory firms are projected to be registered with the Office. This will greatly increase the workload for the regulatory staff.

CONSUMER PROTECTION ACT				4900010

During Fiscal Year 2009-2010, on average the Bureau of Securities Regulation (Bureau) expended 113 examiner hours (excluding legal hours) to complete an examination of an investment adviser. Due to the increasing complexity of the investment advisory business and the greater size and sophistication of the companies falling under the agency's jurisdiction, the Bureau projects it will take 141 examiner hours (excluding legal hours) to complete an average examination of an investment adviser. Due to the significant risk to investors, the bureau feels it is imperative to increase the number of investment adviser examinations to a minimum of 80 per year. Because of the impending increase in state registered investment advisers, and the increasing growth and complexity of the investment advisory business being regulated, the bureau projects, based on an average of 1,600 hours per year to conduct examinations, this will require seven additional FTE. These examinations and investigations will also require two additional senior attorneys to bring actions against firms and individuals engaged in unlawful activity.

By increasing the number of examiners, the number of examinations and investigations conducted and enforcement actions brought by the division will be increased. Over the past seven years, the division's resources have been considerably stressed by a decrease in the number of positions at the same time the securities industry has experienced considerable growth. Since Fiscal Year 2003-2004, the Division has lost 13 positions (104 to 91), while the number of registered agents increased from 234,816 to 265,934 (13%) and registered firms and branch offices increased from 12,639 to 19,221 (52%). Securities Regulation currently has 61 FTE, 56 of which are examiners. The additional nine positions are critical to achieving the Office's mission to protect the citizens of Florida by enforcing the securities laws and providing regulation of businesses that promote the sound growth and development of Florida's economy.

Ultimate Outcome:

Securities Regulation will be able to preserve the integrity of Florida's financial services market and protect the public by examining, investigating, regulating and taking enforcement actions against a greater number of securities firms engaged in unlawful activity. The ability to conduct more examinations and bring more enforcement actions will better protect Florida citizens and deter unlawful activity by investment advisory firms and the individuals employed by them. These examinations and enforcement actions will result in substantial restitution being paid to Florida consumers and more penalties and fines being paid to the state.

For Fiscal Year 2011-2012, the office requests seven (7) additional examiners and two (2) attorneys to focus on investment advisory examinations, investigations and enforcement. Because of the complexity of the securities industry and the knowledge required of its staff, these positions are requested at 20% above base. Because of the extensive travel required for these employees to conduct examinations, Office of Financial Regulation is requesting additional travel dollars of \$1,500 each and funds to purchase laptops with docking stations. Because of the travel required to conduct examinations, the ability to use a laptop will greatly increase the productivity of the staff.
