 Priority #11

The Directed Patrol Team at the Capital Circle Office Complex (CCOC) operates primarily from bikes to enhance the resources of the Capitol Police through provided accessibility of uniform police officers to the public and reduce the opportunities for criminal activity by enforcement through proactive policing. Officers on bikes allow for quicker responses to emergencies and allow officers to disrupt crimes in progress with stealth-like approach. Currently, the Directed Patrol Team is staffed from 7AM to 7PM.

The impact of reducing the Directed Patrol Team would be a longer response time to incidents at the CCOC as officers would have to respond from the Capitol which is approximately seven miles away.

House of Representatives, and those employees assigned to assist such state officials in the performance of their official duties.

Elimination of these Operational Components would eliminate all screening by our explosives trained K-9's at the Capitol Complex, Governor's Mansion/Plane, Mail Center and CCOC. It would also eliminate all on-site response to suspicious packages/hazardous devices and would require response by the Big Bend Bomb Squad. There will be a large loss of productivity by those in the affected buildings as they remain evacuated until the arrival and assessment of the suspicious device.

Additionally, elimination of these services would result in a return to on-site (Capitol) mail processing. In the absence of the off-site mail center, there would be disruptions and possible evacuations at the Capitol for hazardous or suspicious mail, packages or powder incidents. Capitol Police's current staffing levels are based upon an agreed staffing plan that is approved by the House, Senate and Governor's Office. Any reduction in staffing will necessitate the elimination of two assigned posts and a revision to the staffing plan.

Elimination of these Operational Components would also require longer hours and more overtime for Protective Operations staff which is currently functions below minimum staffing. Any loss of personnel will severely impact the safety of the agents and the security mission of this unit.

Finally, elimination of these Operational Components would cause a loss of staff who provide and track officer training, who provide security/crime prevention and fire prevention/safety training to our stakeholders at the Capitol and CCOC, who maintain our records section and provides assistance to the Capitol Access System and who handle matters related to state and national accreditation as well as grant funding.

A portion of fines assessed as a result of driving/boating under the influence and drug contraband convictions that are collected by Clerks of the Court across Florida are deposited into the Florida Department of Law Enforcement's Operating Trust Fund. These funds are distributed on a quarterly basis to five county-operated forensic laboratories (Broward, Indian River, Miami-Dade, Palm Beach and Pinellas) to be applied toward their current year actual operating costs. Funds are based on actual collections of fines during the quarter and disbursements may not exceed 75% of the actual operating costs of each eligible forensic laboratory. Florida Department of Law Enforcement (FDLE) does not receive a share of these funds.

Elimination of these funds will impact the operations of the five county-operated laboratories which are defined in Florida Statute as part of the state laboratory system. Elimination of support to these crime laboratories will impact the timely analysis of forensic evidence, increasing backlogs and turnaround times. FDLE crime laboratories could experience an increase in backlogs and turnaround times, as criminal justice agencies divert their evidence from the county laboratories to FDLE's labs.

Florida Statutes: 938.07; 938.25; 943.35; 943.361

Legislation Change Needed: Legislative change is needed to remove FDLE as the agency responsible for the collection and pass-through of these funds.

A Child is Missing (ACIM) is a national non-profit organization offering free assistance to law enforcement to aid in recovering missing persons (including children, teens and elderly). This organization provides immediate telephone alerts to the surrounding community when an individual goes missing. As part of the response to missing persons incidents, Missing and Endangered Persons Information Clearinghouse (MEPIC) staff asks local law enforcement to contact A Child is Missing, Inc. to activate alerts. ACIM also provides services to the Child Abduction Response Team by making notification to the team members when the team needs to mobilize to respond to an abducted or missing child.

By eliminating funding for this resource, ACIM would have to obtain additional alternative funding sources. ACIM currently receives funding from special events, sponsorship, private donations, corporate donations, state and federal funding.

Abuse of prescription and over the counter drugs is prevalent across the state. According to the federal Drug Enforcement Administration (DEA), at least 40% more oxycodone is distributed in Florida than in any other state, and accounted for about 14% of all fatal overdoses in Florida. Additionally, over-the-counter drugs that contain ephedrine compounds are the major ingredients in the production of methamphetamine, a highly addictive, dangerous drug. The Florida Department of Law Enforcement (FDLE) provides multijurisdictional authority and leadership in the investigation of these pharmacies, doctors and pain clinics, to identify and dismantle the major organizations involved in these activities. FDLE also trains local agencies to identify and safely dismantle methamphetamine laboratories. In Fiscal Year 2009-10 FDLE devoted more than 21,000 hours to the investigation of drug diversion and methamphetamine cases statewide.

Without FDLE involvement, most drug cases will be worked as single jurisdiction cases, missing the larger impact of dismantling a multijurisdictional criminal enterprise or relying upon other agencies which also have limited resources to pursue these investigations.

SCH VIII B-1 NARR 10-11 NARRATIVE:
 Priority #12

IT COMPONENT? NO

The mission of the Capitol Police is to serve the safety and security needs of both the legislative and executive branches of state government. Capitol Police serve as a specially trained and highly effective security and law enforcement agency serving the Capitol Complex. The primary responsibility of the Capitol Police is to protect the security of the Governor, the Lieutenant Governor, the members of the Cabinet, and the members of the Senate and of the House of Representatives, and those employees assigned to assist such state officials in the performance of their official duties.

Elimination of these Operational Components would eliminate all screening by our explosives trained K- 9's at the Capitol Complex, Governor's Mansion/Plane, Mail Center and CCOC. It would also eliminate all on-site response to suspicious packages/hazardous devices and would require response by the Big Bend Bomb Squad. There will be a large loss of productivity by those in the affected buildings as they remain evacuated until the arrival and assessment of the suspicious device.

Additionally, elimination of these services would result in a return to on-site (Capitol) mail processing. In the absence of the off-site mail center, there would be disruptions and possible evacuations at the Capitol for hazardous or

suspicious mail, packages or powder incidents. Capitol Police's current staffing levels are based upon an agreed staffing plan that is approved by the House, Senate and Governor's Office. Any reduction in staffing will necessitate the elimination of two assigned posts and a revision to the staffing plan.

Elimination of these Operational Components would also require longer hours and more overtime for Protective Operations staff which is currently functions below minimum staffing. Any loss of personnel will severely impact the safety of the agents and the security mission of this unit.

Finally, elimination of these Operational Components would cause a loss of staff who provide and track officer training, who provide security/crime prevention and fire prevention/safety training to our stakeholders at the Capitol and CCOC, who maintain our records section and provides assistance to the Capitol Access System and who handle matters related to state and national accreditation as well as grant funding.

AGENCY ISSUE NARRATIVE:
 SCH VIIIIB-1 NARR 10-11 NARRATIVE: IT COMPONENT? NO
 Priority #15

Florida began statewide registration of individuals convicted of sexual offenses in 1993. As of June 30, 2009, the registry holds records on 52,152 individuals. Eliminating funding for this resource would remove a key public safety tool for both Florida citizens as well as an investigative tool for law enforcement. Absence of this service will insure Florida's non-compliance with federal registration requirements and create a national vacuum with Florida as the only state without a statewide registry, making Florida an attractive state for sex offenders to live in.

In essence, Florida could require a sex offender to register, however, there would be no ability to track and verify the information statewide and no ability to verify and track address changes. Images of sex offenders would no longer be available in a statewide database, and the information that is currently collected by the Department of Highway Safety and Motor Vehicles and the Department of Corrections would not be available to law enforcement or compiled in a statewide system.

Additionally, a number of Florida laws, legal procedures and supervision provisions currently in place and directly related to Florida's registration laws will be impacted or eliminated including: no availability of public toll-free

telephone numbers and internet access to registered sexual offender/predator information; no email notification of registrants and registrant mapping; elimination of investigative support regarding registered sexual predator and sexual offender information; no notification to law enforcement and the public upon release of sexual offenders from prison and jail; elimination of immediate identification of sexual offenders by means of Driver's License/Identification Cards; inability to identify a sex offender who enters Florida from another state and inability to provide information to other states on Florida offenders. There would no longer be a unit to look for absconded sex offenders. As of June 30, 2009, the unit has located over 3,000 absconders.

FDLE is proposing a \$100,000 reduction in funding for the Criminal Justice Network (CJNet). This reduction is made possible due to the consolidation of data circuits and reductions in MyFlorida Network rates which went into effect January 2010.

This reduction will have no impact on the criminal justice agencies that use the CJNet.

Career Offender Registration service provides information to Florida citizens and law enforcement regarding the identities and locations of those individuals in Florida designated as habitual violent felony offenders, violent career criminals, and three-time violent felony offenders under F.S. 775.084 as well as prison release re-offenders under F.S. 775.082(9). The law requires that these individuals register and keep current their residence locations with the state under penalty of a third degree felony. Absence of this program will remove a public safety tool for both Florida citizens as well as an investigative tool for law enforcement. This would result in no statewide tracking of career offenders, no availability of public internet access to registered career offender information, elimination of the authority to give public notification regarding career offenders within the community, elimination of investigative support and resources regarding registered career offender information, no identification to law enforcement and notification to the public upon release of career offenders from prison and elimination of immediate identification of a registrant to criminal justice entities through the Florida Crime Information Center (FCIC) without an individual and full criminal history search and review. As a result of the elimination of the Unit, offenders would no longer be required to update their registration and provide change of address information.

ELIMINATE MISSING AND ENDANGERED						
PERSONS INFORMATION CLEARINGHOUSE						
(MEPIC)						33B2200

The elimination of the MEPIC would discontinue the repository for the exchange of information related to missing and endangered persons. AMBER, Missing Child or Silver Alerts would no longer be administered thus discontinuing the media, road sign and electronic mass notification to the public of missing endangered persons including children. The co-location of Department of Children and Families (DCF) personnel at the clearinghouse to assist in locating children missing from foster care would be removed. Conducting daily follow-up investigations and flagging birth and student records which lead to rescuing missing children would be discontinued. Other important services such as providing analytical services to local, state and federal law enforcement, providing training to law enforcement, medical, school and welfare professionals, providing services or information to the National Center for Missing and Exploited Children (NCMEC), state clearinghouse, INTERPOL or U.S. Department of State would cease. Providing services or information to NCMEC, INTERPOL and U.S. Department of State facilitates the rescue of children that are abducted into or out of Florida would also cease. Florida Missing Children's Day, which raises awareness of missing children's issues statewide, would not be hosted. These are tasks that are exclusively performed by FDLE.

The Commission Planning and Support Section (CPSS) is responsible for, but not limited to, researching, planning and scheduling all Criminal Justice Standards and Training Commission (CJSTC) quarterly meetings, tracking and bill analysis for the CJSTC and Criminal Justice Professionalism Program, tracking all budgetary issues and ensuring that the Program operates within established guidelines. The CPSS also tracks and reports all Performance Accountability Measurement System (PAMS) measures, maintenance and submission of all vehicle information and compiling and disseminating a quarterly Commission update report to all criminal justice agencies.

Elimination would require the acquisition of external event planners to provide Commission support and schedule and deliver the quarterly CJSTC meetings. Cost savings derived from FTE reductions would be offset by the cost of hiring external planners. Elimination would also limit the ability of the Professionalism Program to ensure the Program continues to operate within established legislative and budgetary guidelines, including adherence to performance accountability measures approved by the Florida Cabinet.

The Violent Crime & Drug Control Council (VCDCC) was created as an advisory board to address violent criminal activity and disburse funds to reimburse state and local enforcement for violent crime investigations, drug cases and victim/witness protection. The Florida Department of Law Enforcement (FDLE) is statutorily mandated to provide the Council with necessary staff to assist in the performance of its duties which includes conducting at least two Council meetings a year, collecting and reviewing financial updates from agencies in receipt of advanced funding, dispersing funds and preparing and submitting an annual report. As part of the Fiscal Year 2007-08 budget reductions, the violent crime and drug funding was eliminated and the victim/witness protection funding was reduced to \$100,000. During Fiscal Year 2008-09, the Council expended \$38,283 in victim/witness funding to support 13 cases; \$33,071 was expended in Fiscal Year 2009-10. Eliminating the remaining witness protection funds will impact FDLE's ability to reimburse local law enforcement for costs associated with providing victim and witness protection or temporary relocation services.

The Medical Examiners Act, Chapter 406, F.S., was enacted by the 1970 Legislature to establish minimum and uniform

standards of excellence in statewide medical examiner services. The Medical Examiners Commission (MEC) staff provides administrative assistance to MEC members in performing their statutory mandates, tracking and analyzing legislative issues, maintaining MEC rules and other administrative issues. MEC staff administers the quarterly meetings of the Commission, oversees the appointment and re-appointment process for all District Medical Examiners, and annually publishes a workload report of the district medical examiners as well as an annual and semi-annual detailed drug-related death report. Eliminating the MEC support would cripple FDLE's efforts in executing the mandates of Chapter 406, F.S.

IT COMPONENT? NO

The Florida Criminal Justice Executive Institute/Leadership Center (FCJEI) was established in 1990 under F.S. 943.1755 to provide quality training for Florida's criminal justice executives. This training is to better prepare present and future executives to deal with the complex issues facing our state. Since 1990, the FCJEI programs have been expanded to include training of first line officers through chief executives and all rank and levels in between. In addition to the training provided, the FCJEI is responsible for providing research on current and future issues facing our criminal justice system, as well as for the administration of the Sheriffs Salary Supplement Program.

Elimination of the FCJEI means that FDLE would be unable to fulfill the requirements of s. 943.1755, F.S. Agencies currently served by the FCJEI would be forced to seek leadership based training from entities not familiar with the specific issues facing our state and the criminal justice profession, which in many cases would be cost prohibitive to state and local participants. Additionally, research on current and future issues facing the criminal justice system would end due to a lack of resources. Administration of the Sheriffs Salary Supplement Program could be shifted to another area within FDLE, but such a move would likely add stress to an already stressed system.

within their respective organizations. A staff of four supports the Florida Law Enforcement Accreditation Commission and the Florida Corrections Accreditation Commission which provides accreditation services for law enforcement, corrections and pretrial agencies in addition to agency Inspectors General. Duties include, but are not limited to, the development of standards, training of assessors, coordination of all on-site accreditation assessments and working with various partnerships.

Elimination of the CFA would remove the ability of Florida's agencies to obtain accreditation except through the Commission on Accreditation for Law Enforcement Agencies (CALEA) which is a national process. Many agencies over the years have elected to obtain CFA approval due to the significantly higher cost of CALEA and quality of the CFA program and services.

SCH VIII B-1 NARR 10-11 NARRATIVE: IT COMPONENT? NO
 Priority #14

The Florida Department of Law Enforcement's (FDLE) Alcohol Testing Program is responsible for the oversight and administration of Florida's Breath and Blood Alcohol Testing Program. Responsibilities include, but are not limited to, the testing and selection of the Alcohol Breath Test instruments used in Florida, providing training and certification for all agency Inspectors and Breath Test Operators, providing maintenance support to the criminal justice agencies, providing testimony at the request of State Attorneys during criminal proceedings, providing testimony at the request of the Department of Highway Safety and Motor Vehicles Hearing Officers, providing annual inspections for all Alcohol Breath Test instruments and providing legal review and expertise in breath testing matters.

Elimination of the Alcohol Testing Program would remove any independent inspection of the instruments which would cause significant issues in the courts. Additionally, there would be no training/certification available for agency Inspectors and Breath Test Operations which is critical from a credibility standpoint in court proceedings.

The Commission Planning and Support Section (CPSS) is responsible for, but not limited to, researching, planning and scheduling all Criminal Justice Standards and Training Commission (CJSTC) quarterly meetings, tracking and bill analysis for the CJSTC and Criminal Justice Professionalism Program, tracking all budgetary issues and ensuring that the Program operates within established guidelines. The CPSS also tracks and reports all Performance Accountability Measurement System (PAMS) measures, maintenance and submission of all vehicle information and compiling and disseminating a quarterly Commission update report to all criminal justice agencies.

Elimination would require the acquisition of external event planners to provide Commission support and schedule and deliver the quarterly CJSTC meetings. Cost savings derived from FTE reductions would be offset by the cost of hiring external planners. Elimination would also limit the ability of the Professionalism Program to ensure the Program continues to operate within established legislative and budgetary guidelines, including adherence to performance accountability measures approved by the Florida Cabinet.

The Violent Crime & Drug Control Council (VCDCC) was created as an advisory board to address violent criminal activity and disburse funds to reimburse state and local enforcement for violent crime investigations, drug cases and victim/witness protection. The Florida Department of Law Enforcement (FDLE) is statutorily mandated to provide the Council with necessary staff to assist in the performance of its duties which includes conducting at least two Council meetings a year, collecting and reviewing financial updates from agencies in receipt of advanced funding, dispersing funds and preparing and submitting an annual report. As part of the Fiscal Year 2007-08 budget reductions, the violent crime and drug funding was eliminated and the victim/witness protection funding was reduced to \$100,000. During Fiscal Year 2008-09, the Council expended \$38,283 in victim/witness funding to support 13 cases; \$33,071 was expended in Fiscal Year 2009-10. Eliminating the remaining witness protection funds will impact FDLE's ability to reimburse local law enforcement for costs associated with providing victim and witness protection or temporary relocation services.

The Medical Examiners Act, Chapter 406, F.S., was enacted by the 1970 Legislature to establish minimum and uniform standards of excellence in statewide medical examiner services. The Medical Examiners Commission (MEC) staff provides administrative assistance to MEC members in performing their statutory mandates, tracking and analyzing legislative issues, maintaining MEC rules and other administrative issues. MEC staff administers the quarterly meetings of the Commission, oversees the appointment and re-appointment process for all District Medical Examiners, and annually publishes a workload report of the district medical examiners as well as an annual and semi-annual detailed drug-related

The Florida Criminal Justice Executive Institute/Leadership Center (FCJEI) was established in 1990 under F.S. 943.1755 to provide quality training for Florida's criminal justice executives. This training is to better prepare present and future executives to deal with the complex issues facing our state. Since 1990, the FCJEI programs have been expanded to include training of first line officers through chief executives and all rank and levels in between. In addition to the training provided, the FCJEI is responsible for providing research on current and future issues facing our criminal justice system, as well as for the administration of the Sheriffs Salary Supplement Program.

Elimination of the FCJEI means that FDLE would be unable to fulfill the requirements of s. 943.1755, F.S. Agencies currently served by the FCJEI would be forced to seek leadership based training from entities not familiar with the specific issues facing our state and the criminal justice profession, which in many cases would be cost prohibitive to state and local participants. Additionally, research on current and future issues facing the criminal justice system would end due to a lack of resources. Administration of the Sheriffs Salary Supplement Program could be shifted to another area within FDLE, but such a move would likely add stress to an already stressed system.

The Criminal Justice Standards and Training Commission (CJSTC) has among its many duties, the responsibility of establishing uniform minimum standards for the training of officers in the various criminal justice disciplines. Additionally, the CJSTC is responsible for establishing and maintaining officer training programs, curricula requirements, and certification of training schools and training school instructors. For many years, the Professionalism Program has relied on OPS staff to design, implement, maintain, evaluate, and revise job-related curricula for CJSTC-approved basic recruit, advanced, and career development training programs for law enforcement, correctional, and correctional probation officers. Now that these curricula require more revision and maintenance than design and evaluation, there is a reduced need for OPS resources.

the Florida Corrections Accreditation Commission which provides accreditation services for law enforcement, corrections and pretrial agencies in addition to agency Inspectors General. Duties include, but are not limited to, the development of standards, training of assessors, coordination of all on-site accreditation assessments and working with various partnerships.

Elimination of the CFA would remove the ability of Florida's agencies to obtain accreditation except through the Commission on Accreditation for Law Enforcement Agencies (CALEA) which is a national process. Many agencies over the years have elected to obtain CFA approval due to the significantly higher cost of CALEA and quality of the CFA program and services.
