 PROGRAM TITLE: State Veterans' Homes Program

ISSUE TITLE: Additions and Improvements to the Veterans' Homes

FUNDING SOURCE NAME: Operations and Maintenance Trust Fund and the Federal Grants Trust Fund

Long Range Program Plan Measure: Percent of Veterans' Homes in Substantial Compliance with State and Federal Healthcare Regulations

The Florida Department of Veterans' Affairs (FDVA) has determined that a number of State Veterans' Nursing Homes (SVNH) are in need of renovation projects, specifically, Emory L. Bennet SVNH in Daytona Beach (Volusia County), Baldomero Lopez SVNH in Land O' Lakes (Pasco County) and the Douglas Jacobson SVNH in Port Charlotte (Charlotte County). Per 38 CFR, section 59, renovation projects will be funded in partnership with the USDVA on a cost share basis. The USDVA will provide 65% of the renovation cost through the Grants to State for Construction of State Homes Facilities.

The Daytona Beach SVNH was constructed in 1993. Since opening, only routine maintenance and minor projects have been completed to the HVAC equipment. This 17 year old facility is in need of new HVAC equipment to ensure proper air quality and reduction of operating costs through more efficient, updated equipment. Budget authority is requested from the Operations and Maintenance Trust Fund and the Federal Grants Trust fund, \$ 525,000 and \$975,000, respectively.

The Land O'Lakes facility was constructed in 1999. Since opening, only routine maintenance and minor projects have been

completed to the facility. This 11 year old facility is in need of new handrails, an updated fire panel and NOA rated windows to ensure resident safety, vent fans to ensure proper air flow and upgraded exterior finishes to ensure envelop integrity. Budget authority is requested from the Operations and Maintenance Trust Fund and the Federal Grants Trust fund, \$990,500 and \$1,839,500, respectively.

The Port Charlotte SVNH was constructed in 2003. Since opening, only routine maintenance and minor projects have been completed to the HVAC equipment. This 7 year old facility is in need of an air quality analysis and, if necessary, remediation and commissioning of the HVAC System to ensure proper air quality. Budget authority is requested from the Operations and Maintenance Trust Fund and the Federal Grants Trust fund, \$ 420,000 and \$780,000, respectively.

AGENCY NARRATIVE:

2011-2012 BUDGET YEAR NARRATIVE: MAINT/REP/RES FAC/VETERANS IT COMPONENT? NO
 PROGRAM TITLE: State Veterans' Homes Program

ISSUE TITLE: Maintenance and Repair of State-Owned Residential Facilities for Veterans

FUNDING SOURCE NAME: State Homes for Veterans' Trust Fund and Operations and Maintenance Trust Fund

Long Range Program Plan Measure: Percent of Veterans' Homes in Substantial Compliance with State and Federal Healthcare Regulations

The Florida Department of Veterans' Affairs (FDVA) has site specific facilities plans for maintenance, repair and replacement of fixed capital outlay at each State Veterans' Domiciliary Home (SVDH) and State Veterans' Nursing Homes (SVNH) operated by the Department. (See listing of facility/county below.)

The FDVA facilities plans provide the following documentation: inventories of facilities, systems, grounds and improvements; surveys of existing buildings and locations; and details and summaries of facility maintenance costs, listed by facility category, projected for the next five years.

Capital Renewal encompasses on-going activities to identify, prevent and correct conditions that, left untreated, result in a reduction or elimination of serviceable component systems. Capital Renewal costs include salaries for permanent maintenance personnel, expenses for consumable parts, supplies, and materials, Other Personnel Services (OPS) funds for contracted tradesmen and technicians, and short-term improvements to existing building components that enable a presently functioning component to operate with better efficiency. Active Capital Renewal activities are necessary to properly maintain current and anticipated buildings and systems.

The facility maintenance program implemented by FDVA is designed to extend the service life of the Veterans' Homes while maintaining an appropriate and safe environment for the residents. This proactive approach ensures attainment of 30-year life cycles for the facilities, with nominal year-to-year maintenance. However, this approach cannot foresee changes driven by code revisions, mandated program changes, and shifting population needs.

Capital Renewal is subcategorized into building system, central utility system, special system, and campus system. The building system is comprised of electrical, envelope, interior, mechanical, plumbing, roof, site, structural and special

categories. The central utility system is comprised of cogeneration, cooling generation and distribution, electrical distribution, heating generation and distribution, landfill, water treatment and distribution, and water treatment. The special system is comprised of energy conservation and storage tanks. The campus system is comprised of drainage and grounds, road system paving, and other paving.

Contingency Fund - Emergency repairs at Veterans' Homes.
 Budget authority is requested to provide for emergency repairs at the State Veterans' Homes. Emergency determination is to be made by the Department of Management Services; however, FDVA would manage the funds and repair projects. This appropriation is necessary in order to readily address any emergency conditions at the Veterans' Domiciliary and Nursing Homes where residents' medical conditions dictate rapid response to correct unforeseen problems.

The continuation of this funding gives FDVA the capability to more rapidly and adequately respond to emergency repair requirements at facilities which house critical care residents.
