AGENCY ISSUE NARRATIVE:
 2011-2012 BUDGET YEAR NARRATIVE: IT COMPONENT? NO
 "Amended 2011-12 Narrative after February 7 2011."

The Agency requests to continue a five percent transfer EOG number (B7159). This transfers appropriation in the Federal Grants Trust Fund to OPS category for the Office of Florida Geological Survey. The continuation of this five percent will result in the Department having the correct amount of operating budget authority in the proper categories.

Cost Summary:

Issue Summary:

This issue is a continuation of 5% transfer, EOG log number B7276, approved on February 17, 2011. The Division of Waste Management (Division) requests transfers from the Expense category to various special categories, to better align the budget within trust funds pursuant to the needs of the Division. These shifts in funding will provide funds needed by the Division for contracted services and grant projects, thus ensuring sufficient funds for operational purposes within the Division.

AGENCY NARRATIVE:

2011-2012 BUDGET YEAR NARRATIVE: CLEAN MARINA IT COMPONENT? NO
 Issue Summary:

This issue requests \$1,000,000 in Federal Grants Trust Fund budget authority for the Clean Marina/Clean Vessel grant programs based on anticipated federal (Clean Vessel Act) funds to be awarded.

The Clean Vessel Act grant program is a pollution prevention partnership program that began in 1994 through grants from the United States Department of Interior, U.S. Fish and Wildlife Service and the U.S. Environmental Protection Agency. Funds received are awarded by the Department of Environmental Protection (DEP) as reimbursement grants for the purchase, installation, operation, maintenance, and repair of sewage pump-out equipment at marine and fresh water facilities. They will also be used for educational presentations and workshops for boater groups and organizations, boat show representations, publications, public service announcements and website maintenance. Other Personal Services (OPS) type support positions and contract personnel will be funded from these dollars as well. In the past ten years, DEP has provided Clean Vessel Act grant funding for a total of 411 pump-out projects at public and private marinas. As a result of these pump outs, the number of gallons of untreated sewage collected and kept out of Florida's waters totals 10.7 million gallons. For Fiscal Year 2010-2011, \$1,800,000 in Federal Grants Trust Fund budget authority was provided Clean Marina/Clean Vessel grants.

Specific uses of the grant funds include support for the Clean Boating Partnership. Formed by DEP in 2000, the Florida Clean Boating Partnership is a public/private partnership created to foster better communication and act as a liaison between the marine industry and government, and to guide the development of the Clean Marina Program. Extremely successful in improving the relationship between the marine industry and those areas of DEP that regulate it, the Clean Boating Partnership is comprised of marina and boatyard owners and operators, the Marine Industries Association of Florida, Florida SeaGrant, the United States Coast Guard & Coast Guard Auxiliary, Florida Fish and Wildlife Conservation Commission and DEP representatives. Through the development of the Clean Marina Program's Best Management Practices, the Clean Boating Partnership assists marinas and boatyards achieve clean water standards, including the installation of pump out equipment, while operating their businesses and providing recreational opportunities for Floridians and tourists enjoying our beautiful natural resources.

Each year, the Department applies for and receives funding for the installation of pump-out stations at marinas and

boatyards across the state and for education and outreach to inform boaters on the importance of clean water. These pollution prevention programs are specifically designed to encourage boaters to use marina pump-out stations rather than discharging raw sewage into the state's waterways. The Department encourages marinas and boatyards to meet environmental standards by utilizing industry expertise and peer assistance to promote awareness and involvement with clean marina practices. Reimbursement grants for the installation or repair of sewage pump-out facilities or for mobile marine sanitation units are distributed after review of project applications. The applications are screened in accordance with program criteria and funded on a "first come-first served" basis.

Grant funds are also used to continue full implementation of the Clean Marina Program. This program is guided by a public-private partnership that includes members of the industry and boating community and consists of education, incentive grants, and designation. Each component is designed to work together to encourage, reward and maintain voluntary long-term participation by marinas and boatyards in the program. Marinas and boatyards meeting program criteria receive recognition as "Clean Marinas". In return for designation by the department as a Clean Marina, marinas and boatyards agree to incorporate best management practices into their operation resulting in a cleaner environment. There is a Clean Marina in every county on the East Coast of Florida with a cumulative total of 224 marinas and 33 boatyards and 11 Clean Marine Retailers meeting the guidelines for official designation and another 50 facilities currently working towards compliance. The Department's goal is 1,800 marinas and boatyards participating in the Clean Marina Program within the next 3 years.

DEP, in cooperation with the Clean Boating Partnership, continually solicits and evaluates suggestions from its members for potential improvements to effectiveness and efficiency. By drawing on the resources of its corporate partners, the Department has been able to further leverage grant funding. The Clean Boating Partnership seeks to provide meaningful incentives for marinas to join the program, such as a discount on a facility's submerged land lease, to reward these businesses for their participation.

requested in the original LBR. This increase is supported by awarded federal grant funds. Plans have been developed for continued aggressive communication to marinas and boatyard owners and operators on the importance of clean water, installing pump out facilities, and clean designations. Emphasis will be placed on the added environmental and economic benefits that accrue as a result. Increased interest and activity is expected to continue as the economy improves, therefore, the additional funds will be utilized to assist marinas.

The Clean Marina/Clean Vessel Act Program has developed a 2-year business plan as well as detailed quarterly implementation plans with new and continued outreach objectives and goals. Plans include public service announcements, mass mailings to marinas, updated web resources and electronic application process, workshops, and continued partnering efforts with counties, cities, and private marinas. For example, Monroe County is working on a county-wide plan requiring marinas to provide pump out services to boaters. Additionally, new marinas and renovated marinas are highly encouraged to install pump out facilities and implement best management practices with the goal of a clean designation.

Cost Summary:

Budget Entity	Category	Total Amended Amount	Funding Source
----- 37010100	----- 140122	----- \$1,500,000	----- Federal Grants Trust Fund

Summary: This requests \$500,000 in additional federal grant budget authority for the Clean Marina/Clean Vessel Act Program based on available grant revenues and an anticipated demand for such funding.

AGENCY NARRATIVE:

2011-2012 BUDGET YEAR NARRATIVE: FED LAND/WATER CONSV/GRNTS IT COMPONENT? NO

Issue Summary:

Congress has appropriated funds to the states for the Land and Water Conservation Fund (LWCF) program. Florida's share of these funds is estimated at \$1,200,000. This appropriation will allow the division to administer pass through grants to local governments and non-profit organizations. This program provides grants for recreational opportunities through the construction of facilities such as playgrounds and ball fields. This issue continues the current year level of funding.

If this issue is not funded, the division would not be able to provide grants to local governments and increase recreational opportunities.

Cost Summary:

Category	Amount	Fund Source
Land and Water Conserv Fund	\$1,200,000	Federal Grants Trust Fund

Amended 2011-12 Narrative after February 7, 2011

Congress recently awarded Florida an additional \$896,222 in funding for the Land and Water Conservation program. This additional spending authority is needed in order to pass through these additional funds to local governments. Without this additional spending authority, the division would not be able to provide grants to local governments and increase recreational opportunities. Spending authority now needs to be \$2,096,222 instead of the \$1.2 million originally requested.

Summary: This is issue increases the funding from \$1,200,000 to \$2,96,222 for total of \$896,222.

AGENCY NARRATIVE:
 2011-2012 BUDGET YEAR NARRATIVE: GRANTS & DONAT SPDG AUTH IT COMPONENT? NO

Issue Summary:

This issue requests budget authority to allow the division to expend grant funds from federal, local government and non-profit organizations. Chief among these are grants for resource management, historic structure repairs, and land management. The division generally receives 15 to 20 grants from various sources (National Oceanic and Atmospheric Administration, Division of Historic Resources, etc.) each year. This issue continues the current year level of funding.

If this issue is not funded, the division would be unable to accept outside grant funding for numerous resource management and park projects.

Recent economic events have made it more important than ever to seek grant funding to pay for state park activities. Without this funding, grants offered for resource management and other activities would be rejected due to lack of budget authority. Delays may also increase future costs of these projects.

Funds may also be used to purchase the necessary equipment and hire temporary employees to carry out these activities.

Cost Summary:

Category	Amount	Fund Source
Grants and Don Spend Auth	\$1,000,000	Grants and Donations Trust Fund
	\$1,450,000	Federal Grants Trust Fund
Total	\$2,450,000

Amended 2011-12 Narrative after February 7, 2011

This request is to realign budget between funding in the Grants and Donations and Federal Grants Trust Funds.

Summary: This issue will increase the funds in the Grants and Donations Trust Fund from \$1,450,000 to \$1,750,000 and decrease funds in Federal Grants Trust Fund from \$1,000,000 from \$700,000.
