From the funds provided in Specific Appropriations 6 and 68, juvenile justice education programs shall receive the basic allocation assigned to a juvenile justice student, including Exceptional Student Education (ESE) special education funding when appropriate. If a school district provides incentive funding for teachers to work in a failing school, then an equal incentive bonus must be provided to teachers teaching in juvenile justice facilities.

The district cost differential (DCD) for each district shall be calculated pursuant to the provisions of section 1011.62(2), Florida Statutes.

From the funds provided in Specific Appropriations 6 and 68, \$35,243,269 is provided for the Sparsity Supplement as defined in section 1011.62(7), Florida Statutes, for school districts of 20,000 and fewer FTE in the 2011-2012 fiscal year.

- 1. 0.748 mills

If any school district levies the full 0.748 mill levy and it generates an amount of funds per unweighted FTE that is less than the state average amount per unweighted FTE, the school district shall receive from the funds provided in Specific Appropriations 6 and 68, a discretionary millage compression supplement that, when added to the funds generated by the district's 0.748 mill levy, shall be equal to the state average as provided in section 1011.62(5), Florida Statutes.

If any school district chooses to levy an amount not less than 0.498 mills and less than 0.748 mills, a compression supplement shall be calculated on a levy of 0.498. If a 0.498 levy generates an amount of funds per unweighted FTE that is less than the state average amount per unweighted FTE for 0.498 mills, the school district shall receive from the funds provided in Specific Appropriations 6 and 68, a discretionary millage compression supplement that, when added to the funds generated by a 0.498 mill levy, would be equal to the state average as provided in section 1011.62(5), Florida Statutes.

2. In addition, if any school district levies by super majority vote for the 2011-2012 fiscal year, an additional voted .25 mills to meet critical operating needs pursuant to section 1011.71(3)(b), Florida Statutes, and the .25 mills generates an amount of funds per unweighted FTE that is less than the state average amount per unweighted FTE, the school district shall receive from the funds provided in Specific Appropriations 6 and 68, a discretionary millage compression supplement that, when added to the funds generated by the district's .25 mill levy, shall be equal to the state average as provided in section 1011.62(5), Florida Statutes.

The funds provided in Specific Appropriations 119 through 125 from the Education and General Student and Other Fees Trust Fund are the only budget authority provided in this act for the 2011-2012 fiscal year to the named universities to expend tuition and fees that are collected during the 2011-2012 fiscal year and carried forward from the prior fiscal year and that are appropriated into local accounts pursuant to section 1011.4106, Florida Statutes. The expenditure of tuition and fee revenues from local accounts by each university shall not exceed the authority provided by these specific appropriations, unless approved pursuant to the provisions of chapter 216, Florida Statutes. If a court of competent jurisdiction finds that the restriction above is invalid, the appropriation made by section 1011.4106, Florida Statutes, is hereby repealed for the 2011-2012 fiscal year and the moneys described in that section shall be deposited in the state treasury for expenditure only pursuant to appropriations made by law.

General revenue funds provided in Specific Appropriations 119 through 125 to each of the named universities are contingent upon each university complying with the tuition and fee policies established in the proviso language attached to Specific Appropriation 119, and with the tuition and fee policies for state universities included in Part II of chapter 1009, Florida Statutes. However, the funds appropriated to a specific university shall not be affected by the failure of another university to comply with this provision.

Funds in Specific Appropriations 11 through 15 and 119 through 125 shall be expended in accordance with operating budgets that must be approved by each university's board of trustees.

Each university board of trustees may allocate the institution's General Revenue Funds and Federal Grants Trust Funds across the Education and General Activities category and other program categories. From the funds provided in Specific Appropriations 11, 13, 119, and 134, each university may shift enrollment by level in a manner which is revenue neutral; however, no university, with the exception of New College of Florida, shall increase the number of lower-level FTEs. For planning and enrollment shifting purposes, the University of South Florida may combine lower, upper, and graduate FTE identified in Specific Appropriations 119 and 121.

The enrollment policy adopted by the Legislature does not limit the number of students admitted from out-of-state under the profile admissions policy; however, no state university may receive general revenue funding associated with the enrollment of out-of-state students admitted under this policy. For the purposes of implementing this policy, the Chancellor shall segregate these FTEs and not count them toward the 2011-2012 enrollment plan for the State University System.

Funds provided in Specific Appropriation 119 for the University of Florida include no more than that amount which the State Board of Education and the City of Gainesville agree represents the cost of service for water provided by the city to the University of Florida. The amount charged shall reflect a cost-based rate only and shall be determined through a cost of service study completed annually by the city and reviewed by the university. The costs of any General Fund transfer to the City of Gainesville from Gainesville Regional Utilities or any profit to the city or utility shall be specifically excluded as costs allocable to the university. The cost-based rate shall include charges for only those water services actually provided by the city to the university and shall not include charges for services furnished by the university.

Each university board of trustees is given flexibility to make necessary adjustments to its operating budget. If any board reduces individual programs or projects within the university by more than 10 percent during the 2011-2012 fiscal year, written notification shall be made to the Executive Office of the Governor, the President of the Senate, the Speaker of the House of Representatives, and the Board of Governors.

In the event the state share provided through grants and donations is not available to fund the removal of inpatient ceilings for hospitals, the Agency for Health Care Administration shall submit a revised hospital reimbursement plan to the Legislative Budget Commission for approval.

From the funds in Specific Appropriation 177, \$3,644,021 from the Grants and Donations Trust Fund and \$4,626,567 from the Medical Care Trust Fund are provided to make Medicaid payments to hospitals. Of these funds, \$5,000,000 from the General Revenue Fund, \$127,187,502 from the Grants and Donations Trust Fund and \$167,829,525 from the Medical Care Trust Fund are subject to the LIP program and \$44,062,500 from the Grants and Donations Trust Fund and \$55,943,175 from the Medical Care Trust Fund are not subject to the LIP program. For Children's hospitals, 100% of the funding to eliminate the inpatient ceiling is funded through the LIP program, for Community Hospital Education Program hospitals, 41% of the funding to eliminate the inpatient ceiling is funded through the LIP Program, and for all other qualified hospitals, 78.08% of the funding to eliminate the inpatient ceiling is funded through the LIP program.

From the funds in Specific Appropriation 177, \$21,628,715 from the Grants and Donations Trust Fund and \$27,460,518 from the Medical Care Trust Fund are provided to buy back the Medicaid trend adjustment that is being applied against the Medicaid inpatient rates for the following three categories of hospitals. Of these funds, \$15,895,688 from the Grants and Donations Trust Fund, and \$20,181,682 from the Medical Care Trust Fund are subject to the LIP program and \$5,733,027 from the Grants and Donations Trust Fund and \$7,278,836 from the Medical Care Trust Fund are not subject to the LIP program. Of the funds subject to the LIP program, \$17,762,050 is provided to the first category of hospitals, which are those hospitals that are part of a system that operates a provider service network and has no tax revenues to use as an intergovernmental transfer for match, in the following manner: \$17,762,050 is for Shands Gainesville. In the event that the above amounts exceed the amount of the Medicaid trend adjustment applied to each hospital, then the excess funds will be used to buy back other Medicaid reductions in the inpatient rate. Of the above funds, \$12,604,570 shall be used for the second category to buy back the Medicaid trend adjustment that is being applied against the Medicaid inpatient rates for those hospitals that are licensed as a children's specialty hospital and whose Medicaid days plus charity care days divided by total adjusted patient days equals or exceeds 30 percent. Of the above funds, \$5,710,750 shall be used for the third category to buy back the Medicaid trend adjustment that is being applied against the Medicaid inpatient rates to rural hospitals. In the event that the funds under this category exceed the amount of the Medicaid trend adjustment, then any excess funds will be used to buy back other Medicaid reductions in the inpatient rate for those individual hospitals. For this section of proviso the agency shall use the 2004, 2005 and 2006 audited DSH data available as of March 1, 2011. In the event the agency does not have the prescribed three years of audited DSH data for a hospital, the agency shall use the average of the audited DSH data for 2004, 2005 and 2006 that are available.

From the funds in Specific Appropriation 177, \$84,211,082 from the Grants and Donations Trust Fund and \$106,917,111 from the Medical Care Trust Fund are provided for public hospitals, including any leased public hospital found to have sovereign immunity, teaching hospitals as defined in sections 408.07 (45) or 395.805, Florida Statutes, which have seventy or more full-time equivalent resident physicians, hospitals with graduate medical education positions that do not otherwise qualify, and for designated trauma hospitals to buy back the Medicaid inpatient trend adjustment applied to their individual hospital rates and other Medicaid reductions to their inpatient rates up to actual Medicaid inpatient cost. Of the funds, \$16,530,477 from the Grants and Donations Trust Fund and \$20,987,628 from the Medical Care Trust Fund are subject to the LIP program and \$67,680,605 from the Grants and Donations Trust Fund and \$85,929,483 from the Medical Care Trust Fund are not subject to the LIP program. The payments under this proviso are contingent on the state share being provided through grants and donations from state, county or other governmental funds. This section of proviso does not include the buy back of the Medicaid inpatient trend adjustment applied to the individual state mental health hospitals.

Funds in Specific Appropriation 177, that are provided to buy back the Medicaid inpatient trend adjustment contain funding that is either funded through or not subject to the LIP program. For Shands Teaching Hospital of Gainesville and the rural hospitals, 100% of the funding to buy back the Medicaid trend adjustment is funded through the LIP program, for Children's hospitals, 69.84% of the funding to buy back the Medicaid trend adjustment is funded through the LIP program, and for all Statutory Teaching and Trauma hospitals, 19.63% of the funding to buy back the Medicaid trend adjustment is funded through the LIP program.

The payments under this proviso are contingent on the state share being provided through grants and donations from state, county, or other governmental funds. The agency shall not include the funds described in this paragraph for the buy back of reductions to inpatient hospital rates in the calculation of capitation rates for Health Maintenance Organizations unless the nonfederal share is provided through grants and donations from state, county or other governmental funds. This section of proviso does not include the buy back of the Medicaid inpatient trend adjustment applied to the individual state mental health hospitals.

From the funds in Specific Appropriation 177, \$17,624,000 from the Grants and Donations Trust Fund and \$22,376,000 from the Medical Care Trust Fund are provided for hospitals not previously included in the proviso above to allow for exemptions from inpatient reimbursement limitations for any hospital that has local funds available for intergovernmental transfers. The payments under this proviso are contingent upon the state share being provided through grants and donations from state, county, or other governmental funds. The agency shall not include the funds described in this paragraph for the buyback of exemptions to inpatient hospital rates in the calculation of capitation rates for Health Maintenance Organizations unless the nonfederal share is provided through grants and donations from state, county or other governmental funds.

From the funds in Specific Appropriations 177, and 191, \$2,643,600 from the Grants and Donations Trust Fund and \$3,356,400 from the Medical Care Trust Fund are provided to make Medicaid payments for multi-visceral transplant and intestine transplants in Florida. The agency shall establish a reasonable global fee for these transplant procedures and the payments shall be used to pay approved multi-visceral transplant and intestine transplant facilities a global fee for providing transplant services to Medicaid beneficiaries. Payment of the global fee is contingent upon the nonfederal share being provided through grants and donations from state, county or other governmental funds. The agency is authorized to seek any federal waiver or state plan amendment necessary to implement this provision.

Hospitals providing primary care to low-income individuals and participating in the Primary Care Disproportionate Share Hospital (DSH) program in Fiscal Year 2003-2004 shall be paid \$10,054,728 distributed in the same proportion as the Primary Care DSH payments for Fiscal Year 2003-2004, excluding Imperial Point Hospital, Memorial Regional Hospital, and Memorial Hospital Pembroke who will receive individual amounts equal to \$536,489, \$1,620,659, and \$536,489 respectively. Hospitals that are designated or provisional trauma centers shall be paid \$7,868,862. Of that amount, \$3,443,570 shall be distributed equally among hospitals that are a Level I trauma center; \$2,824,246 shall be distributed equally among hospitals that are either a Level II or pediatric trauma center; and \$1,601,046 shall be distributed equally among hospitals that are both a Level II and pediatric trauma center. The funding shall be distributed in a two-step allocation process. The first phase of the allocation process shall distribute payments to qualified hospitals based on the amount of local government funding provided for the uninsured and underinsured. Payments to qualified hospitals shall be capped at 106.0 percent of the amount of local government funding it would have received for the uninsured and underinsured without the Low Income Pool program. The second phase of the allocation process is to distribute the remaining funds based on a hospital's cost efficiency adjusted total

SECTION 3 - HUMAN SERVICES

Medicaid days, charity care days, and 50 percent of bad debt days to the cost efficiency adjusted total Medicaid days, charity care days, and 50 percent of bad debt days of all qualifying hospitals. The cost efficiency adjustment is calculated for each hospital by first, dividing each hospital's cost per adjusted admission by the case mix index for the four quarters most closely relating to that hospital's fiscal year. The patient data for all hospital premises operating under the hospital license shall be included in the case mix index calculation for each hospital. The mean case mix adjusted cost per adjusted admission for all acute care hospitals is then divided by the individual hospital's case mix adjusted cost per adjusted admission to determine the cost efficiency adjustment for the patient days used in the allocation methodology. To receive funds in this distribution, the hospital's unadjusted Medicaid days, charity care days and 50 percent of bad debt days divided by the hospital's total days must equal or exceed 10 percent. Of the funds allocated in the second phase, \$2,014,830 shall be allocated to the rural hospitals and the remaining funds shall be allocated to the remaining hospitals that qualify for a distribution. All hospitals with accepted 2009 Financial Hospital Uniform Reporting System (FHURS) data are eligible for the second phase of the allocation process. In this proviso, the quarterly patient data used to compute the annual case mix index for each licensed hospital shall be obtained from the Agency for Health Care Administration Florida Center for Health Information and Policy Analysis.

From the funds in Specific Appropriation 179, \$566,748 from the Grants and Donations Trust Fund and \$719,562 from the Medical Care Trust Fund are provided for Medicaid low-income pool payments to specialty pediatric facilities. To qualify for a Medicaid low-income pool payment under this section, a hospital must be licensed as a children's specialty hospital and its combined Medicaid managed care and fee-for-service days as a percentage to total inpatient days must equal or exceed 30 percent. The agency shall use the 2003 Financial Hospital Uniform Reporting System (FHURS) data to determine the combined Medicaid managed care and fee-for-service days. The total Medicaid low-income pool payments made shall be distributed equally to the qualifying hospitals.

From the funds in Specific Appropriation 179, \$250,000 from the General Revenue Fund, \$31,906,657 from the Grants and Donations Trust Fund and \$40,827,131 from the Medical Care Trust Fund are provided to make Medicaid low-income pool payments to hospitals that serve as a safety net in providing emergency, specialized pediatric trauma services or inpatient hospital care to low-income individuals. The programs receiving these grants shall reduce unnecessary emergency room visits and preventable hospitalizations by providing disease management; improving patient compliance; and coordinating services. The agency is authorized to continue contracting with an entity having experience in evaluating the Medicaid program to develop reporting requirements for grant recipients and to measure the effectiveness of the grant-funded programs.

From the funds in Specific Appropriation 179, the agency is authorized to transfer a hospital's low-income pool payments between the various low-income programs listed in this specific appropriation if it is required to obtain approval of the low-income pool payment methodology from the Centers for Medicare and Medicaid Services. Any transfer of funds, however, is contingent on the hospital's net low-income pool payments under the low-income pool plan remaining unchanged.

From the funds in Specific Appropriation 179, in the event that the amount of approved nonfederal share of matching funds is not provided by local governmental entities, the agency may re-allocate low-income pool funds between programs described within this specific appropriation as necessary to ensure sufficient nonfederal matching funds. No re-allocation, under this provision, of low-income pool funds may occur if the level of program increase for any provider access system exceeds the amount of the additional increases in the local nonfederal share match that their local governments transfer to the state Medicaid program, and for which the provider access system would have otherwise

received.

From the funds in Specific Appropriation 179, the agency may make low-income pool Medicaid payments to hospitals in an accelerated manner that is more frequent than on a quarterly basis subject to the availability of state, local and federal funds.

Funds provided in Specific Appropriation 179, are contingent upon the nonfederal share being provided through grants and donations from state, county or other governmental funds. In the event the nonfederal share provided through grants and donations is not available to fund the Medicaid low-income payments for eligible Medicaid providers, known as provider access systems, the agency shall submit a revised low-income pool plan to the Legislative Budget Commission for approval. Distribution of such funds provided in Specific Appropriation 179 is contingent upon approval from the Centers for Medicare and Medicaid Services.

\$39,739,542 from the General Revenue Fund, \$50,454,606 from the Medical Care Trust Fund, and \$145,213 from the Refugee Assistance Trust Fund as a result of implementing a reduction in outpatient hospital reimbursement rates. The agency shall implement a recurring methodology in the Title XIX Outpatient Hospital Reimbursement Plan to achieve this reduction. In establishing rates through the normal process, prior to including this reduction, if the unit cost is equal to or less than the unit cost used in establishing the budget, then no additional reduction in rates is necessary. In establishing rates through the normal process, prior to including this reduction, if the unit cost is greater than the unit cost used in establishing the budget, then rates shall be reduced by an amount required to achieve this reduction, but shall not be reduced below the unit cost used in establishing the budget.

For any public hospital or any leased public hospital found to have sovereign immunity or hospital with graduate medical education positions that does not qualify for the elimination of the outpatient ceilings under this provision of proviso or any other proviso listed, such hospitals shall be exempt from the outpatient reimbursement ceilings contingent on the public hospital or local governmental entity providing the required state match. The agency shall use the average of the 2004, 2005 and 2006 audited DSH data available as of March 1, 2011. In the event the agency does not have the prescribed three years of audited DSH data for a hospital, the agency shall use the average of the audited DSH data for 2004, 2005 and 2006 that are available.

From the funds in Specific Appropriation 182, \$17,226,693 from the Grants and Donations Trust Fund and \$21,871,567 from the Medical Care Trust Fund are provided to eliminate the outpatient reimbursement ceilings for hospitals whose Medicaid days, as a percentage of total hospital days, exceed 7.3 percent, and are designated or provisional trauma centers. through grants and donations from state, county or other governmental funds. The agency shall submit a revised hospital outpatient reimbursement plan to the Legislative Budget Commission for approval if the state share is not available to fund the removal of hospital outpatient ceilings or if the Centers for Medicare and Medicaid Services does not approve amendments to the Medicaid Hospital Outpatient Reimbursement Plan to eliminate the reimbursement ceilings for certain hospitals.

Funds in Specific Appropriation 182, that are provided to eliminate outpatient ceilings contain funding that is either funded through or not subject to the LIP program. For Children's hospitals, 100% of the funding to eliminate the outpatient ceiling is funded through the LIP program, for Community Hospital Education Program hospitals, 41% of the funding to eliminate the outpatient ceiling is funded through the LIP program, and for all other qualified hospitals, 78.08% of the funding to eliminate the outpatient ceiling is funded through the LIP program.

From the funds in Specific Appropriation 182, \$6,749,838 from the Grants and Donations Trust Fund and \$8,569,813 from the Medical Care Trust Fund program are provided to buy back the Medicaid trend adjustment that is being applied against the Medicaid outpatient rates for three categories of hospitals. Of these funds, \$5,012,696 from the Grants and Donations Trust Fund and \$6,364,282 from the Medical Care Trust Fund are subject to the LIP program and \$1,737,142 from the Grants and Donations Trust Fund and \$2,205,531 from the Medical Care Trust Fund not subject to the LIP program. Of the funds subject to the LIP program, \$3,428,791 is provided to the first category of hospitals, which are those hospitals that are part of a system that operate a provider service network in the following manner: \$3,428,791 to Shands Gainesville. In the event that the above amounts exceed the amount of the Medicaid trend adjustment applied to each hospital, then the excess funds will be used to buy back other Medicaid reductions in the outpatient rate. Of the above funds, \$3,756,717 shall be used for the second category to buy back the Medicaid trend adjustment that is being applied against the Medicaid outpatient rates for those hospitals that are licensed as a children's specialty hospital and whose Medicaid days plus charity care days divided by total adjusted patient days equals or exceeds 30 percent. In the event that the above amounts exceed the amount of the Medicaid trend adjustment applied to each hospital, then the excess funds will be used to buy back other Medicaid reductions in the outpatient rate. Of the above funds, \$4,191,469 shall be used for the third category to buy back the Medicaid trend adjustment that is being applied against the Medicaid outpatient rates for rural hospitals. In the event that the funds under this category exceed the amount of the Medicaid trend adjustment, then any excess funds will be used to buy back other Medicaid reductions in the outpatient rate for those individual hospitals. For this section of proviso the agency shall use the average of 2004, 2005 and 2006 audited DSH data available as of March 1, 2011. In the event the agency does not have the prescribed three years of audited DSH data for a hospital, the agency shall use the average of the audited DSH data for 2004, 2005 and 2006 that are available.

From the funds in Specific Appropriation 182, \$14,371,085 from the Grants and Donations Trust Fund and \$18,245,994 from the Medical Care Trust Fund are provided for public hospitals, including any leased public hospital found to have sovereign immunity, teaching hospitals as defined in sections 408.07 (45) or 395.805, Florida Statutes, which have seventy or more full-time equivalent resident physicians, hospitals with graduate medical education positions that do not otherwise qualify, and designated trauma hospitals to buy back the Medicaid outpatient trend adjustment applied to their individual hospital rates and other Medicaid reductions to their outpatient rates up to actual Medicaid outpatient cost. Of these funds, \$2,821,017 from the Grants and Donations Trust Fund and \$3,581,654 from the Medical Care Trust Fund are subject to the LIP program and \$11,550,068 from the Grants and Donations Trust Fund and \$14,664,340 from the Medical Care Trust Fund are not subject to the LIP program. The payments under this proviso are contingent on the state share being provided through grants and donations from state, county or other governmental funds. This section of proviso does not include the buy back of the Medicaid outpatient trend adjustment applied to the individual state mental health hospitals.

Funds in Specific Appropriation 182, that are provided to buy back the Medicaid outpatient trend adjustment contain funding that is either funded through or not subject to the LIP program. For Shands Teaching Hospital- Gainesville and rural hospitals, 100% of the funding to buy

SECTION 3 - HUMAN SERVICES

back the Medicaid trend adjustment is funded through the LIP program, for Children's hospitals, 69.84% of the funding to buy back the Medicaid trend adjustment is funded through the LIP program, and for statutory teaching and trauma hospitals, 19.63% of the funding to buy back the Medicaid trend adjustment is funded through the LIP program.

From the funds in Specific Appropriation 182, \$6,609,000 from the Grants and Donations Trust Fund and \$8,391,000 from the Medical Care Trust Fund are provided for hospitals not previously included in the proviso above to allow for exemptions from outpatient reimbursement limitations for any hospital that has local funds available for intergovernmental transfers. The payments under this proviso are contingent upon the state share being provided through grants and donations from state, county, or other governmental funds. The agency shall not include the funds described in this paragraph for the buy back of exemptions to outpatient hospital rates in the calculation of capitation rates for Health Maintenance Organizations unless the nonfederal share is provided through grants and donations from state, county or other governmental funds.

SECTION 4 - CRIMINAL JUSTICE AND CORRECTIONS

SPECIFIC
APPROPRIATION

The moneys contained herein are appropriated from the named funds to the Department of Corrections, Justice Administration, Department of Juvenile Justice, Florida Department of Law Enforcement, Department of Legal Affairs/Attorney General, and the Parole Commission as the amounts to be used to pay the salaries, other operational expenditures and fixed capital outlay of the named agencies.

CORRECTIONS, DEPARTMENT OF

From the funds in Specific Appropriations 570 through 759, each provider contracting with the Department of Corrections must provide the department with a proposal prior to the release of funds that details the services that will be delivered, the expected results, and recommended performance measures. The department and each provider must execute a contract before the release of any funds, and the contract documents must include mutually agreed upon performance measures. Each provider must provide quarterly performance reports to the department. Funds shall only be released to providers whose performance reports indicate successful compliance with the performance measures described in the contract.

The Department of Corrections shall develop and use a uniform format and uniform methodologies for the purpose of reporting annually to the Governor and to the Legislature on the state prison system. Such reports shall include a comprehensive plan for current facility use and any departures from planned facility use, including opening new facilities, renovating or closing existing facilities, and advancing or delaying the opening of new or renovated facilities. The report shall include the maximum capacity of currently operating facilities and the potential maximum capacity of facilities that the department could make operational within the fiscal year. The report shall also identify appropriate sites for future facilities and provide information to support specified locations, such as availability of personnel in local labor markets. Reports should include updated infrastructure needs for existing or future facilities. Each report should reconcile capacity figures to the immediately preceding report. For the purpose of this paragraph, maximum capacity shall be calculated and displayed pursuant to section 944.023(1)(b), Florida Statutes. The department may provide additional analysis of current and future bed needs based on such factors as deemed necessary by the Secretary. The next report shall be due January 1, 2012.

From the funds in Specific Appropriations 570 through 759, the Department of Corrections shall, before closing, substantially reducing the use of, or changing the purpose of any state correctional institution as defined in section 944.02, Florida Statutes, submit its proposal to the Governor's Office of Policy and Budget and the Legislative Budget Commission for approval.

Funds in Specific Appropriations 570 through 759 shall not be used to pay for unoccupied space currently being leased by the Department of Corrections in the event the leases are vacant on or after July 1, 2011, and for which it has been determined by the Secretary of the department that there is no longer a need.

The Department of Corrections may, subject to all applicable provisions of chapter 216, Florida Statutes, transfer funds and positions and salary rate among budget entities and programs within Specific Appropriations 570 through 759 if necessary, to ensure public safety and avoid adversely affecting current employees due to the elimination of vacant positions and other approved reductions. It is the intent of the Legislature that priority shall be placed on preserving positions in correctional institutions and community corrections.

Funds in Specific Appropriations 570 through 759 include reductions in full-time equivalent positions and associated salary and benefits. Those reductions in full-time equivalent positions must be from, to the maximum extent feasible, supervisory and managerial positions.

To minimize the impact of funding reductions within Specific Appropriations 570 through 759, the department shall identify vacant correctional work release and substance abuse programming capacity and has the discretion pursuant to the provisions of chapter 216, Florida

SECTION 4 - CRIMINAL JUSTICE AND CORRECTIONS

Statutes, to transfer funds to enable the filling of such additional capacity in accordance with the provisions of chapter 945, Florida Statutes.

Funds in Specific Appropriations 570 through 759 include reductions in recurring general revenue in the amount of \$3,017,882 to accomplish the transition of 800 medium or close custody beds at an average per diem of \$53.34 to 800 contract residential substance abuse beds.

PROGRAM: SECURITY AND INSTITUTIONAL OPERATIONS

From the funds provided in Specific Appropriations 605, 616, 628, 638A, 649A and 660A, a total of \$1,074,362 is provided as payment in lieu of ad valorem taxation for distribution to local government taxing authorities. Funding is provided as follows: \$269,324 for the Bay Correctional Facility, \$339,242 for the Moore Haven Correctional Facility, \$275,560 for the South Bay Correctional Facility, \$100,000 for the Gadsden Correctional Facility and \$90,236 for the Lake City Correctional Facility. These funds may not be distributed if there are outstanding claims for ad valorem taxes due on the property at issue and may not be distributed until the property is reclassified on the real property and tangible personal property rolls as Government State property back to the date the finance corporation or other state entity acquired the title thereto. These distributions shall be adjusted, with respect to any facility, to reimburse the Department of Management Services, and any predecessor agency, for the total amounts expended by the state in resisting the imposition of such ad valorem tax claims, including all attorneys' fees and costs actually incurred by the state's agencies.

From the funds in Specific Appropriations 605, 616, 628, 638A, 649A and 660A, the Department of Management Services must ensure all future private prison contracts have explicit conditions that provide for the flexibility to adjust the percentages of special needs inmates to allow for changes in overall state populations of those inmates. Such percentages must be based on Department of Corrections' special needs inmate population forecasts, so that medical and mental healthcare costs are appropriately shared by both private and state prisons. All future private prison contracts must require each private prison vendor to report the same performance measures for inmate programs in private prisons as reported by the Department of Corrections for its comparable public institutions. As part of the private prisons contracting negotiations process, the Department of Corrections must consult with the Department of Management Services and each private prison vendor to establish high, reasonable, and achievable performance standards. All future private prison contracts must require each private prison vendor to develop inmate visitation policies and telephone rates for the private prisons that are consistent with those policies followed by the state's public prisons and encourage inmate family contact, as directed by Florida Statutes. Finally, the Department of Management Services must require all future private prison contracts to adhere to Department of Management Services' established criteria for awarding Privately Operated Institutions Inmate Welfare Trust Fund monies so that Department of Management Services' staff can verify such funds are being used appropriately.

SECTION 4 - CRIMINAL JUSTICE AND CORRECTIONS

From the funds in Specific Appropriations 605, 616, and 628, the Department of Management Services is directed to execute private prison contract amendments to each operations and management contract for each correctional facility currently under its supervision in order to provide the contractors the maximum flexibility to address recurring reductions in contract amounts. Such contract amendments shall expire on June 30, 2012. The Department of Management Services and the private prison contractors may amend the provisions of the private prison operating contracts limiting correctional officer overtime and part-time hours to be consistent with the overtime and part-time use as permitted by the Department of Corrections and the American Correctional Association standards. The contract amendments may also eliminate deductions for vacant positions as long as the services associated with the position are being provided through the use of overtime or part-time staff. The Department of Management Services may amend the private prison operating contracts to provide for the payment of costs associated with all inmate academic, vocational, behavioral and substance abuse programs from funds in the Privately Operated Institutions Inmate Welfare Trust Fund. Such contract amendments may not negatively affect the Department of Corrections.

The Department of Corrections may contract through a request for proposal, as defined in section 287.057(1)(b), Florida Statutes, for innovative and cost effective approaches to the financing, construction and operation of private correctional beds and services which can include any and all operations defined and requested by the department, including but not limited to financing, operations, housing, staffing, security, meals, medical care, transportation, education and substance abuse treatment services. The department may consult with other state agencies on the development of this request for proposal. Any resulting contract shall be funded through existing appropriations, and at a minimum provide for per diem costs at a cost of at least seven percent below that for which the department can incarcerate similar inmates. The department shall not implement this section in a manner that reduces participation in existing reentry programs.

From the funds provided in Specific Appropriations 570 through 759, the Department of Corrections shall implement an electronic time and attendance system in all regions through a contract or contracts resulting from a request for proposal as defined in section 287.057(1)(b), Florida Statutes. The department shall report all implementation costs and cost savings projections related to the implementation of the electronic time and attendance system to the Speaker of the House of Representatives and the President of the Senate by January 1, 2012.

The department shall identify 6,400 prison beds at an average per diem of \$53.34 and implement cost efficiencies that will reduce the per diem by five percent. Funds in Specific Appropriations 570 through 688A and 726 through 759 include reductions in recurring general revenue in the amount of \$5,938,075 which represents a five percent cost savings in the operation of these prison beds.

Funds and positions in Specific Appropriations 570 through 688A and 726 through 759 support the state's inmate population. These funds and positions are sufficient to provide housing and security for 101,369 inmates when fully annualized. Variable expenses, maintenance, and health services funds are provided for an average daily population of 101,778 inmates, as projected by the Criminal Justice Estimating Conference.

From the funds in Specific Appropriations 570 through 759, the Department of Corrections shall assist the Department of Management Services in the issuance of a request for proposal (RFP), as defined in section 287.057(1)(b), Florida Statutes, for the management and operation of the correctional facilities and assigned correctional units, including annexes, work camps, road prisons and work release centers currently operated by the Department of Corrections in Manatee, Hardee, Indian River, Okeechobee, Highlands, St. Lucie, DeSoto, Sarasota, Charlotte, Glades, Martin, Palm Beach, Hendry, Lee, Collier, Broward, Dade and Monroe counties. The RFP shall require a contract commencement date of no later than January 1, 2012.

The contract shall achieve an overall savings of at least seven percent over the Fiscal Year 2009-2010 Department of Corrections actual operational costs totaling \$390,576,585 which includes both direct and indirect costs for each facility, as identified below.

The Department of Management Services may contract for a term of three years. At a minimum, the contract shall require adherence to all applicable federal, state and local laws, as well as rules adopted by the Department of Management Services for private prison service providers. These facilities shall continue to operate at capacities set forth in section 944.023, Florida Statutes. Each facility's average daily population (ADP), as well as medical and psychological grade population percentages, shall remain substantially unchanged from the ADP calculated for FY 2009-2010. Funds received for these institutions from canteens, subsistence payments, and any other participation accounts shall continue to be remitted to the General Revenue Fund.

The contract between the Department of Management Services and the private provider must specify performance measures to ensure contractor performance and accountability. The required performance measures shall include, but are not limited to: the number of batteries committed by inmates on one or more persons per 1,000 inmates; number of inmates receiving major disciplinary reports per 1,000 inmates; percentage of random inmate drug tests that are negative; percentage of reported criminal incidents investigated by the proper authorities; number of escapes from the secure perimeter of major institutions; percentage of inmates placed in a facility that provides at least one of the inmate's primary program needs; number of transition plans completed for inmates released from prison; number of release plans completed for inmates released from prison; percentage of release plans completed for inmates released from prison; percentage of inmates needing programs who successfully complete Drug Abuse Education/Treatment programs; number of inmates who are receiving substance abuse services; percentage of inmates completing mandatory literacy programs who score at or above 6th grade level on next Tests of Adult Basic Education (TABE); percentage of inmates who successfully complete mandatory literacy programs; percentage of inmates who successfully complete GED education programs; percentage of inmates needing special education programs who participate in special education (federal law) programs; percentage of inmates who successfully complete vocational education programs; average increase in grade level achieved by inmates participating in educational programs per 3-month instructional period; and percentage of inmates who successfully complete transition, rehabilitation, or support programs without subsequent recommitment to community supervision or prison for 24 months after release. The Department of Management Services shall provide quarterly reports to the chairs of the Senate Budget Committee and the House Appropriations Committee on the performance of the private prison provider under contract with the department using the required

performance measures and other performance measures contained in the contracts.

In order to provide for the transition of these facilities from state operations to private provider operations, the Department of Corrections shall submit a budget amendment to the Legislative Budget Commission, accompanied by a plan for transitioning staff and operations. The budget amendment shall place positions in reserve and transfer funds to the proper appropriation categories in accordance with the provisions of chapter 216, Florida Statutes. Additional budget amendments may be submitted by the Department of Corrections and the Department of Management Services during the 2011-2012 fiscal year as necessary for the proper alignment of budget and positions.

From the funds in Specific Appropriations 595 through 688A, \$500,000 in recurring general revenue is provided to the Department of Corrections to issue a request for proposal, as defined in section 287.057(1)(b), Florida Statutes, for the development of a water savings plan that creates performance standards for rain water harvesting and water reuse to achieve annual cost savings of at least 25 percent from the 2008, 2009, and 2010 calendar years. By no later than September 30, 2011 the department shall identify a vendor to conduct and inventory the water consumption of all department facilities consuming water for irrigation, gray water or drinking water purposes, including an inventory of each facility's roof surface area. To achieve these cost savings objectives, the vendor shall submit a plan to the department by February 1, 2012 that identifies the most cost effective plan for the procurement of services and cistern products and establishes performance standards for the efficient and effective use of water resources and also estimates of future potential savings and other related benefits.

The contract between the Department of Management Services and the private provider shall specifically require adherence to the requirements set forth in section 119.01, F.S., to ensure that any nongovernmental entity contracting with the Department of Management Services for the management and operations of correctional facilities and services shall have the same duty to release information about the management and operation of a correctional facility and services as a state agency managing and operating such a facility and services would have under section 119.01, F.S. The contract between the Department of Management Services and the private provider shall be required to adhere to the provisions provided in section 287.0571, F.S., regardless of any exemptions.

Current Department of Corrections employees who are affected by the health services and prison privatization initiatives shall be given first preference for continued employment by the contractors. To implement this reduction, the department shall limit payment for the number of correctional officer basic recruit training course hours to 360. PROGRAM: COMMUNITY CORRECTIONS

From the funds in Specific Appropriations 689 through 723, the Department of Corrections shall issue a request for proposal (RFP), as defined in section 287.057(1)(b), Florida Statutes, for the management and operation of department probation and field services offices as well

SECTION 4 - CRIMINAL JUSTICE AND CORRECTIONS

as community supervision services in Manatee, Hardee, Indian River, Okeechobee, Highlands, St. Lucie, DeSoto, Sarasota, Charlotte, Glades, Martin, Palm Beach, Hendry, Lee, Collier, Broward, Dade and Monroe counties. The RFP shall require a significant cost savings in the operational costs of the facilities and community supervision services. These estimated cost savings shall be reported by the department to the chairs of the Senate Budget Committee and the House Appropriations Committee by March 1, 2012. In order to award the contract, the Department of Corrections shall report its intent to award a contract and submit a budget amendment to the Legislative Budget Commission accompanied by a plan for transitioning staff and maintaining state assets.

The contract between the Department of Corrections and the private provider must specify performance measures to ensure contractor performance and accountability. The required performance measures shall include, but are not limited to: percentage of offenders who successfully complete supervision and are not subsequently recommitted to the Department of Corrections for committing a new crime within two years; percentage of offenders that successfully complete their sentence or are still under supervision at the end of a two year measurement period; percentage of community supervision offenders who have completed drug treatment without subsequent recommitment to community supervision or prison within 24 months after release; substance abuse tests administered to offenders being supervised in the community; percentage of substance abuse tests administered to offenders being supervised in the community in which negative test results were obtained; percentage of inmates who have completed drug treatment without subsequent recommitment to community supervision or prison within 24 months after release. Contracts shall also include a provision that requires employees displaced from this transition to be given first consideration for employment with the private service provider that is awarded the contract.

From the funds in Specific Appropriations 689 through 725, the Department of Corrections shall issue a request for proposal, as defined in section 287.057(1)(b), Florida Statutes, for a validated risk and needs assessment tool to classify violators of probation by level of risk to determine whether they should be returned to prison or transferred instead to the appropriate re-entry or community based program. The department may implement the risk assessment as an integrated web based automated offender referral management system that matches the offenders' needs with appropriate service providers and interventions to enhance supervision and outcomes.

These treatment programs may include drug treatment, residential and outpatient treatment programming, day reporting or other services to reduce recidivism.

PROGRAM: HEALTH SERVICES

From the funds in Specific Appropriation 726 through 741, the Department of Corrections shall issue a request for proposals, as defined in s. 287.057(1)(b), F.S. for the provision of comprehensive health care services to inmates in the custody of the department, excluding those inmates housed in institutions authorized under the provisions of chapter 957, F.S. Comprehensive health care services shall include physical health care services, dental services, mental health services and pharmacy services.

The department is authorized to award bids to private companies for the provision of services that are compatible to standard Medicaid service levels at a cost of at least 7 percent less than the department's fiscal year 2009-2010 healthcare expenditures. The department shall contract for services on a regional basis with a minimum of 3 regions to achieve the greatest efficiencies and cost savings and to promote competition among vendors. The department shall not award more than one regional contract to any one vendor in order to protect the state from the risk of non-performance, cancellation or vendor attempts to renegotiate the price after a contract is awarded and signed.

The department shall notify the Governor's Office of Policy and Budget and the chairs of the Senate Budget Committee and the House Appropriations Committee no later than September 1, 2011, of its intent to award contracts.

The contracts for health services and mental health services shall be effective no later than October 1, 2011, for a term of 5 years. Contractors shall be responsible for maintaining electronic medical files that are nationally certified by the Credentialing Committee for Health Information Technology (CCHIT) for each patient's health information and for providing that information to the department upon request. Contractors shall report utilization and encounter data to the department on a quarterly basis in a format that is acceptable to the department. From these electronic health records the department shall maintain a single statewide electronic health records system.

In order to implement these privatization efforts, the department shall submit budget amendments to the Legislative Budget Commission as well as a plan for transitioning staff and operations. The budget amendments shall place department positions in reserve and transfer funds to the proper appropriation categories in accordance with the provisions of chapter 216, F.S. Additional budget amendments may be submitted during the 2011-2012 fiscal year as necessary for the proper alignment of budget and positions.

From the funds in Specific Appropriation 726 through 741, the Department of Corrections, or its designee, shall establish a pilot in the Health Services Program to use a supply chain management company for the purchase of health care products and supplies for facilities that are operated by the department in Pinellas, Hillsborough, Manatee, Pasco, Charlotte, DeSoto, Lee, Manatee, and Sarasota counties. The department shall issue a request for proposal, as defined in section 287.057(1)(b), Florida Statutes, to contract with a company for these services. The department shall report any budget savings to the chairs of the Senate Budget Committee and the House Appropriations Committee by February 1, 2012.

Current Department of Corrections employees who are affected by the health services and prison privatization initiatives shall be given first preference for continued employment by the contractors. The department shall make reasonable efforts to find a suitable job placement for employees who wish to remain state employees.

JUVENILE JUSTICE, DEPARTMENT OF

From the funds in Specific Appropriations 1068 through 1147, each provider who contracts with the Department of Juvenile Justice shall provide the department with a proposal prior to the release of funds that details the services that will be delivered, the expected results, and recommended performance measures. The department and each provider must execute a contract before the release of any funds, and the contract documents shall include mutually agreed upon performance measures. Each provider must provide quarterly performance reports to the department. Funds shall only be released to providers whose performance reports indicate successful compliance with the performance measures described in the contract.

From the funds in Specific Appropriations 1068 through 1147, the Department of Juvenile Justice shall establish a performance accountability system for each provider who contracts with the department for the delivery of services to children at-risk of future involvement in the criminal justice system, as determined by the department. The contract shall include both output measures, such as the number of children served, and outcome measures, such as program completion. The contractor shall report performance results annually to the department. The department's Office of Program Accountability shall summarize performance results from all contracts and report the information annually to the Legislature.

From the funds in Specific Appropriations 1068 through 1147, the Department of Juvenile Justice is directed to withhold funds from contract payments to any provider if that provider failed to comply with contract requirements that it maintain property insurance and if the failure to do so resulted in uninsured losses. The amount withheld shall not exceed the amount of the uninsured loss and may be reduced by other remedial actions agreed upon by the department and the provider.

From the funds in Specific Appropriations 1068 through 1147, the Department of Juvenile Justice must before implementing any departmental reorganization plans, submit its proposal to the Governor's Office of Policy and Budget and to the Legislative Budget Commission for approval.

Funds in Specific Appropriations 1068 through 1147 shall not be used to pay for unoccupied space currently being leased by the Department of Juvenile Justice in the event the leases are vacant on or after July 1, 2011, and for which it has been determined by the Secretary of the department that there is no longer a need.

PROGRAM: JUVENILE DETENTION PROGRAM

DETENTION CENTERS

From the funds in Specific Appropriations 1068 through 1077A, the department may contract for services consistent with the department's Juvenile Detention Alternative Initiative (JDAI) and the Annie E. Casey Foundation to divert youth from secure detention to alternative community based services. These services should be designed using in-home and community advocacy to reduce the need for more expensive restrictive placements, build community capacity to reduce recidivism, create supported work opportunities for youth, and improve community safety.

PROGRAM: RESIDENTIAL CORRECTIONS PROGRAM

From the funds in Specific Appropriations 1114 through 1135, the department shall provide a weekly residential resource utilization report that identifies operating capacity, current placements, vacant placements, number of youth waiting placement and the percent of use for all residential commitment beds. The department may increase or decrease beds or overlay services provided that the change will better serve taxpayers and the youth under its care. Notification and justification of changes will be provided to the Governor's Office of Policy and Budget, the chair of the Senate Budget Committee and the chair of the House Appropriations Committee prior to implementing any change.

From the funds in Specific Appropriations 1114 through 1135, for determining the most appropriate bed reductions in each level of residential commitments, the department may consider those residential commitment programs, if necessary, which have scored below 72 on the overall program score represented in the Comprehensive Accountability Report. The department may also consider programs that are underutilized, those that provide services for which there is a less critical need and other relevant performance measures in determining which level of residential beds should be reduced. The department shall apply identical criteria in determining whether bed reductions come from contracted or state-operated beds.

Prior to any change authorized herein, notification and justification must be provided to the Governor's Office of Policy and Budget, the chair of the Senate Budget Committee and the chair of the House

Of the funds in Specific Appropriation 1335, \$50,000 in nonrecurring funds from the General Inspection Trust Fund is provided for the Association of Florida Conservation Districts' contract for support services to all Florida's Soil and Water Conservation Districts.

Of the funds in Specific Appropriation 1335, \$4,000,000 in nonrecurring general revenue is provided for the Florida Water Quality Compliance and Improvement Best Management Practices project to adapt real-time radio frequency soil-sensor based systems from a limited research setting to deployment in agricultural fields to assess their effectiveness in irrigation decision-making, reduction in water use, and minimizing nutrient loss of nitrogen and phosphorous due to leaching and runoff. This project will include installing remote sensor systems in different field locations, calibrating the sensors to the fields, evaluating soil samples along a depth profile to determine moisture, nitrogen, and phosphorous content, and calculating daily water and nutrient uptake from different soil regions. The field data will be a concentration model for target crops that can be extended to the watershed level. Use of this model will augment weather, hydrologic, and water quality information for the development of improved best management practices for nutrient management and optimum irrigation scheduling for reduction of nutrient runoff and leaching.

From the funds in Specific Appropriation 1335, \$3,000,000 is provided for the operation and maintenance of existing hybrid wetland/chemical treatment projects within the Northern Everglades pursuant to section 373.4595(3)(b), Florida Statutes.

PROGRAM: AGENCY FOR ENTERPRISE INFORMATION
 TECHNOLOGY

From funds in Specific Appropriations 2446 through 2452A, the Agency for Enterprise Information Technology (AEIT) in coordination with the primary data centers shall promulgate rules to establish standards, pursuant to s.14.201, Florida Statutes, that will facilitate authorized consolidations of enterprise information technology services, including the transition to a shared, virtualized server environment. The AEIT shall establish policies and guidelines for agencies to minimize or eliminate unnecessary expenditures for hardware, software, and other infrastructure by state agencies prior to any consolidations and to maximize the savings of the consolidated environments. The agency shall provide notice of the development of its proposed rules by publication of a notice of developing in the Florida Administrative Weekly no later than October 1, 2011.

From the funds in Specific Appropriation 2449A, the Agency for Enterprise Information Technology (AEIT) shall perform an assessment of the disaster recovery requirements in each of the primary data centers. The assessment shall include an evaluation of cost-effective options for disaster recovery solutions that reduce the risks to the mission-critical applications maintained within the primary data centers, and a proposed timeline and implementation plan for the recommended disaster recovery solution. A report that summarizes the findings of the assessment, including the options considered for reducing risks, the recommended solution, cost estimates, and implementation timeline, shall be submitted to the Governor and Cabinet and to the chairs of the House Appropriations Committee and Senate Budget Committee by October 1, 2011.

From the funds in Specific Appropriation 2449A, the Agency for Enterprise Information Technology (AEIT) shall develop a plan and cost benefits analysis for providing an end-user seat management service to state agencies that includes related help-desk services. The plan and analysis should at a minimum consider solutions that provide computing and application resources in a central location, such as a primary data center, and strategies that could provide contract managed equipment and support. A plan and suggested timeline must leverage the existing investment Florida has made in endpoint devices; meet agency performance requirements for custom applications; provide the performance necessary to run both utility and strategic applications; reduce the desktop computing and related services costs for the state; and protect the security of the state's data. The AEIT shall provide preliminary results of the analysis and recommendations to the Governor's Office of Policy and Budget by October 15, 2011. The final report and plan shall be submitted to the Governor and Cabinet and to the chairs of the Senate Budget Committee and House Appropriations Committee by December 1, 2011.

From the funds in Specific Appropriation 2499A, the Agency for Enterprise Information Technology (AEIT) shall develop a plan and cost benefits analysis for providing a statewide, enterprise consolidation of Local Area Network (LAN) services to enable the state to more efficiently meet the networking needs of state agencies while reducing duplication of effort and cost. The plan and analysis should, at a minimum, consider solutions that provide LAN service in a central location, such as by the Department of Management Services' Division of Telecommunication or a state primary data center, and solutions that

SECTION 6 - GENERAL GOVERNMENT

could provide contract managed equipment and support. A proposed plan must identify all resources currently used by the agencies to provide this service; leverage the existing investment Florida has made in current LAN resources; meet the customer agency performance requirements; reduce the LAN support costs for the state; and protect the security of the state's data. The AEIT shall provide preliminary results of the analysis and recommendations to the Governor's Office of Policy and Budget by October 15, 2011. The final report and plan shall be submitted to the Governor and Cabinet and to the chairs of the Senate Budget Committee and House Appropriations Committee by December 1, 2011.

From the funds in Specific Appropriation 2535BQ through 2535CD, it is the intent of the Legislature that the administration and delivery of workforce services and programs that are currently provided by department employees working in One Stop Career Centers operated by the Regional Workforce Boards may be transferred from Jobs Florida to the Regional Workforce Boards. Such transfers shall only occur if the department determines that the Regional Workforce Boards would more

effectively and efficiently deliver services and if such transfers comply with applicable federal regulations. For all transfers made, the department shall submit budget amendments pursuant to chapter 216, Florida Statutes, to move positions to the Executive Office of the Governor's reserve and realign the budget into the appropriate operating budget appropriation categories to implement the transfer of programs and service delivery to the Regional Workforce Boards.

From the funds in Specific Appropriations 2535BQ through 2535CD, Jobs Florida shall determine whether any funds provided for specific workforce programs, projects or initiatives are not an allowable use of federal funds. If the department finds that any project or initiative for which funds are specifically appropriated in this act is not an allowable use of federal funds, the department shall notify the Executive Office of the Governor, the chair of the Senate Budget Committee and the chair of the House Appropriations Committee.

From the funds in Specific Appropriations 2535BQ through 2535CD, no federal or state funds shall be used to pay for space being leased by a Regional Workforce Board, Workforce Florida, Inc., or Jobs Florida if it has been determined by whichever entity is the lessee that there is no longer a need for the leased space. All leases, and performance and obligations under the leases, are subject to and contingent upon an annual appropriation by the Florida Legislature. In the event that such annual appropriation does not occur, or in the alternative, there is either a reduction in funding from the prior annual appropriation or the entity which is the lessee determines that the annual appropriation is insufficient to meet the requirements of the leases, then the lessee has the right to terminate the lease upon written notice by the lessee and the lessee shall have no further obligations under the contracts.

From the funds in Specific Appropriation 2707 through 2711, the Southwood Shared Resource Center (SSRC) shall implement the Plan for Standardization of Mainframe Software to Achieve Cost Savings and Operational Efficiencies that was submitted by the technical group comprised of subject matter experts from the SSRC and SSRC agency mainframe customers on November 1, 2010. SECTION 6 - GENERAL GOVERNMENT

August 1, 2011, explaining the specific issues preventing compliance and describing its plan and schedule for resolving the issues.

From funds in Specific Appropriations 2707 through 2711, the Southwood Shared Resource center shall develop a plan by December 31, 2011, to (1) consolidate the mainframe from the Department of Corrections with its existing mainframe platform and (2) standardize or replace existing mainframe software products to achieve cost savings and other operational efficiencies for mainframe services. In producing the plan, the SSRC shall identify specific software functions that can be performed more effectively through standardization or replacement, estimate the potential savings, and identify the timeframe for achieving the savings and other related benefits.

From the funds in Specific Appropriation 2868, up to \$68,000 from the Child Support Enforcement Application and Program Revenue Trust Fund and \$132,000 from the Federal Grants Trust Fund may be used by the Department of Revenue to fund the child support guideline review, which will be conducted by the Office of Economic and Demographic Research. From the funds provided for this purpose, the department shall reimburse the Office of Economic and Demographic Research for contractual costs incurred to conduct the review of the child support guidelines schedule. The review is in accordance with the federal Family Support Act of 1988, to ensure appropriate determination of child support award amounts and shall include development of a percent-of-obligor income and/or modified percent-of-obligor income model for Florida and estimated cost-savings and benefits to citizens and other entities of the proposed model. A final report is due to the Governor, the President of the Senate, and the Speaker of the House of Representatives by November 1, 2011. The Office of Economic and Demographic Research may contract with a state university or a nationally recognized organization for the purpose of collecting and analyzing the economic data necessary for the review.

To be eligible, a county must segregate federal funds and required county matching dollars in a separate account established to hold only such funds. Funds in this account must be used only for the activities for which the funds were received.
