AGENCY ISSUE NARRATIVE:

2012-2013 BUDGET YEAR NARRATIVE: IT COMPONENT? NO
 "Amended 2012-13 Narrative after December 9, 2011:"

The Department of State, Division of Library and Information Services received a grant of \$46,181 from the National Archives and Records Administration for the purpose of conducting a detailed processing project for the historical records of the Koreshan Unity, a late-19th/early 20th century religious utopian community in order to make the collection available to the public. The Koreshan Unity Papers collection has tremendous state and national historical significance and consists of over 300 cubic feet of original writings, letters, photographs and other records of founders and members of the Koreshan Unity dating from the late 19th century through the late 20th century. The grant was awarded specifically for this purpose.

The Division of Library and Information Services is authorized to operate the State Archives of Florida to serve as the central repository for the archives of Florida's state government. The State Archives is mandated by law to collect, preserve and make available for research the historically significant records of the state, as well as private manuscripts, local government records, photographs and other materials that complement the official state records. The Division actively investigates non-state funding sources to enhance State Archives programs and provide expanded services and resources to state government and to the citizens of Florida.

The Department requested \$36,945 in budget authority on Budget Amendment #11-12-10, EOG# B0149, to be used to hire a professional project archivist to work both independently and with Division staff to conduct the following:

- Detailed processing of the collection in accordance with professional archival standards.
- Compile a complete finding aid (access tool) to the collection which will be made available in online catalogs and websites.
- Identify appropriate themes and documentation for web-based educational materials.
- Identify individual photographic items to be cataloged, digitized and made available on the Florida Photographic Collection page of the Florida Memory website.

 "Amended 2012-13 Narrative after December 9, 2011:"

The Department of State, Division of Library and Information Services is requesting a reduction in funding in the Federal Grants Trust Fund due to excess budget authority. The federal grant award from the Institute of Museum and Library Services for Fiscal Year 2012-13 will be less than the amount received in the current year. The budget reduction issue is necessary in order to align the requested budget authority with the anticipated revenue.

 "Amended 2012-13 Narrative after December 9, 2011:"

The Department of State is requesting \$263,205 to restore General Revenue funding in the Division of Library and Information Services, Salaries and Benefits appropriation category for 6.5 FTE's that were eliminated through budget reduction issues in FY 2011-12. The reductions were submitted as part of the Department's Schedule VIII-B budget reduction issues.

The Department's Schedule VIII-B issues included the reduction of 6.5 FTE's from the Records Management Trust Fund. However, the recommended reductions were taken from General Revenue in order to follow the proposed budget restructuring plan to fund shift state funded programs from existing state trust funds to General Revenue.

During Conference, the budget reduction issues were accepted, however, the reductions that should have been made from the Records Management Trust Fund were taken from General Revenue. As a result, the Department has insufficient funding in General Revenue for the General Revenue-funded positions in the Division of Library and Information Services. Additionally, it is necessary for the Department to use the Records Management Trust Fund which is already experiencing a reduction in revenue due to services that have been eliminated.

Listed below are the three issues that included reductions from General Revenue Salaries and Benefits. These reductions should have been taken from the Records Management Trust Fund:

Issue 33B0370 - Eliminate Computer Output Microfilm
 3.50 FTE's
 Salaries and Benefits - \$153,690
 Positions were funded from the Records Management Trust Fund

Issue 33B0560 - Consolidate State Archives & State Library
 2 FTE's - should have been taken from Records Management Trust Fund
 Salaries and Benefits - \$72,254
 Note: The total reduction issue included 7.5 FTE's. Five and one half of the FTE's were funded from General Revenue and two were funded from the Records Management Trust Fund.

Issue 33B0610 - Eliminate State Flags and Audio Visual Program
 1.00 FTE
 Salaries and Benefits - \$37,261
 The position was funded from the Records Management Trust Fund

The Department is requesting restoration of the General Revenue funds in order to have sufficient funding for the General Revenue positions in the Division of Library and Information Services.

AGENCY ISSUE NARRATIVE:

2012-2013 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

The Department of State, Division of Cultural Affairs, is requesting \$2,500,000 in General Revenue funding to provide general program support grants up to \$150,000 for non-profit, tax-exempt Florida corporations including, but not limited to, history museums, science museums, youth and children's museums, art museums, state service organizations, performing art centers, orchestras, dance companies, and theater groups; local or state government entities; school districts; community colleges; colleges and universities that have cultural program activities in any of the arts and cultural disciplines. The program is designed to support the general program activities of an organization engaged in conducting, creating, producing, presenting, staging, or sponsoring multiple cultural exhibits, performances, events, or providing cultural services during the grant period.

Organizations must demonstrate a sustained commitment to achieving cultural or artistic excellence, address their specific audience and community needs, include outreach and educational services and further the state's cultural objectives. Grantees match awards dollar for dollar with cash and in-kind contributions. Applicants may apply for one General Program Support grant or one Specific Cultural Project grant but may not apply for both.

Eligible applications are reviewed in an open competitive process by peer review panels comprised of professionals knowledgeable in the various disciplines. Panel recommendations are then reviewed by the Florida Council on Arts and Culture and forwarded to the Secretary of State for approval.

In addition to providing citizen and visitor access to cultural activities, these organizations contribute to the vitality of their communities and bring in tourism dollars providing a return of \$5 to every \$1 invested by the state. Subject to Legislative appropriation, all applications approved by the Secretary of State will be funded using the following method:

- 1.If the Legislative appropriation is equal to the total amount requested by applicants on the list, all applicants will be awarded their full request amount.
- 2.If the Legislative appropriation is less than the total amount requested by the applicants on the list, award amounts will be determined by a score-based formula that proportionally distributes the appropriation.

The list will be provided in our Amended Legislative Budget Request.

AGENCY ISSUE NARRATIVE:

2012-2013 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

The Department of State, Division of Cultural Affairs, is requesting \$500,000 in General Revenue funds in the G/A-Culture Builds Florida appropriation category. The funding will provide for specific cultural project grants up to \$25,000 for nonprofit, tax-exempt Florida corporations, local or state governmental entities such as school districts, community colleges, colleges, universities, and local arts agencies for activities in arts in education, Culture Builds Florida, museums, or for activities in any of the arts and cultural disciplines and under-served cultural communities.

Pursuant to s. 265.286(4) F.S. project grants shall be funded at full request by score until all appropriated funds are depleted.

Applicants may apply for one Specific Cultural Project grant or one General Program Support grant but may not apply for both. Grantees must match grant awards dollar for dollar and 25% of total project costs may be in-kind contributions. Organizations in a Rural Economic Development Initiative (REDI) designated county are eligible for a waiver of the cash match requirement. Eligible applications for all specific project categories are reviewed in an open competitive process by peer review panels comprised of professionals knowledgeable in the various disciplines and are limited to one grant per annual grant cycle. Panel recommendations are then reviewed by the Florida Council on Arts and Culture and forwarded to the Secretary of State for approval.

State dollars provide an economic stimulus to the communities where grants are awarded. Quality of life is enhanced

further encouraging the stability and vitality of the communities.

Arts in Education: Grants awarded support projects that advance arts education within school and community settings throughout the state. Activities range from artist residencies, to curriculum development, to community partnerships. Most projects have a direct involvement with public schools; others may be community after-school programs or designed for special audiences such as seniors or youth at risk. (The National Endowment for the Arts State Partnership Award requires that General Revenue dollars match dollar for dollar the Federal dollars awarded for Arts in Education.)

Discipline-Based: Projects are discipline-specific for organizations conducting cultural programming, realizing their stated mission, and furthering the state's cultural objectives as described in the Division's strategic plan. Projects address an identified program-based need within the service area, produce a measurable impact on the target audience or community, demonstrate cultural or artistic excellence, and promote inclusion through outreach and educational services. Disciplines for this category are defined as Museum, Community and Professional Theatre, Dance, Folk Arts, Music, Literature, Media Arts, Multidisciplinary, Sponsor/Presenter, and Visual Arts.
 Culture Builds Florida: Project grants are designed to support and encourage new statewide projects in the four vision areas of the Division's Strategic Plan, Culture Builds Florida's Future: Strengthening the Economy, Promoting Learning and Wellness, Building Leadership and Advancing Design and Development. Funded projects may include programs that benefit patients in healthcare settings, work with aging populations, or attract tourism and other drivers of the economy.

Under-served Cultural Community Development: Funding for these projects supports the organizational development of under-served cultural organizations. For the purposes of this project type, under-served means rural, minority, or lacking in resources. These organizations are typically located within counties where there is no designated Local Arts Agency or other means of acquiring ongoing cultural support, information, and assistance. (The National Endowment for the Arts State Partnership Award requires that General Revenue dollars awarded must match dollar for dollar the Federal dollars awarded to Under-served Arts Community Assistance grants.)

There are three funding categories for Under-served Cultural Community Development projects: Capacity building, Consultancy, and Salary Assistance. Capacity building provides opportunities for staff exchange, professional development, and plan development such as fundraising, marketing, arts education, and equipment and technology procurement. The Consultancy category provides for retaining consultants that can provide specific administrative or artistic needs such as needs assessment, board and staff training, grant writing, stage or house management, curatorial or exhibit guidance. The Salary Assistance category provides full or partial salary support for one or more positions critical to the mission of the organization.

The list will be provided in our Amended Legislative Budget Request.
