AGENCY ISSUE NARRATIVE:

2009-2010 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

This request continues budget amendment EOG #B7078 (Agency #09CA-071) approved in FY 08-09. There is insufficient appropriation in the General Revenue Contracted Services category and surplus appropriation in the General Revenue Expenses appropriation category. A transfer of budget authority between the two appropriation categories is requested.

Please see issue #160F120 which complements this issue.

AGENCY ISSUE NARRATIVE:

2009-2010 BUDGET YEAR NARRATIVE: IT COMPONENT? NO  
 This issue requests the transfer of an Operations and Management Consultant II (OMCII) - SES position between budget entities. This position is currently assigned within the Statewide Health Support Services budget entity's Office of Public Health Preparedness (PHP). However, it has been out-posted to the Bureau of Revenue Management for several years to handle all grant management and reporting requirements at the state and federal levels for all PHP grants. The duties and responsibilities of this OMCII position have evolved to now include other various department wide activities and are no longer restricted to just those of PHP. It is in the best interest of the department to move this position and all rate, salary and benefits and human resource services appropriations associated with it to the Administrative Support budget entity to avoid non-compliance with federal grant regulations.

Please reference companion issue #1800950 in Community Public Health.

AGENCY ISSUE NARRATIVE:

2009-2010 BUDGET YEAR NARRATIVE: IT COMPONENT? NO

This issue requests the transfer of the Minority Health Initiative program from the County Health Department Local Health Needs budget entity to the Office of Minority Affairs within the Administrative Support budget entity.

The Office of Minority Affairs manages the Minority Health Initiative (Closing the Gap) program and this transfer would move the program to the organizationally appropriate budget entity.

The "Closing the Gap" program was designed to eliminate racial and ethnic health disparities in Florida. It provides grants to local counties and organizations with the intent to increase community-based health promotion and disease prevention activities which targets seven areas that racial and ethnic groups currently experience serious disparities in access to care and health outcomes. The seven areas are: Cardiovascular Disease, Cancer, Diabetes, HIV/AIDS, Maternal and Infant Mortality, Immunizations for Children and Adults, and Oral Health.

Please see companion issue #1801120

The total line item appropriation is \$5,185,011 and includes member projects which are referenced for transfer in the list below.

- Issue #1801100 and #1801110
  - Jessie Trice Cancer Center/Health Choice Network \$218,429
  - Economic Opportunity \$54,607
  - Community Environmental Health Advisory Board (CEHAB) \$90,000
- Issue #6400800 and #6400810
  - Minority Outreach - Penalver Clinic \$364,048

AGENCY ISSUE NARRATIVE:

2009-2010 BUDGET YEAR NARRATIVE: IT COMPONENT? NO

This issue requests a transfer of unfunded appropriation in the Federal Grants Trust Fund (FGTF) and the Preventive Health Services Block Grant Trust Fund (PHSBGTF) to the Administrative Trust Fund (ATF).

The Department of Health has fund-shifted positions originally funded by the FGTF and the PHSBGTF to the ATF over the last two years in order to prevent any potential federal audit criticism. This action was precipitated by the federal regulations requiring that any positions funded by their grants be fully dedicated to those programs. This was difficult to achieve in administrative offices because the positions support all programs in the department.

At the time these positions were shifted to ATF funding, there was sufficient cash and appropriation to cover the costs of these positions. The ATF has sufficient cash to fund the positions, but there is not adequate appropriation to cover these costs. Please see companion issue # 3400330.

AGENCY ISSUE NARRATIVE:

2009-2010 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

This issue requests a transfer of unfunded appropriation in the Federal Grants Trust Fund (FGTF) and the Preventive Health Services Block Grant Trust Fund (PHSBGTF) to the Administrative Trust Fund (ATF).

The Department of Health has fund-shifted positions originally funded by the FGTF and the PHSBGTF to the ATF over the last two years in order to prevent any potential federal audit criticism. This action was precipitated by the federal regulations requiring that any positions funded by their grants be fully dedicated to those programs. This was difficult to achieve in administrative offices because the positions support all programs in the department.

At the time these positions were shifted to ATF funding, there was sufficient cash and appropriation to cover the costs of these positions. The ATF has sufficient cash to fund the positions, but there is not adequate appropriation to cover these costs. Please see companion issue # 3400320.

AGENCY ISSUE NARRATIVE:

2009-2010 BUDGET YEAR NARRATIVE:

IT COMPONENT? YES

On July 11, 2007, Governor Charlie Crist created the Children and Youth Cabinet. The cabinet consists of 20 members and will coordinate state agencies and programs that deliver children's services. The following agencies will participate with the Children and Youth cabinet: Department of Children and Families, Department of Elder Affairs, Department of Health, Department of Juvenile Justice, Agency for Health Care Administration, Agency for Persons with Disabilities, Agency for Workforce Innovation, and the Guardian Ad Litem Program.

The mission of the Children and Youth Cabinet is to ensure that the public policy of Florida relating to children and youth promotes interdepartmental collaboration and program implementation in order for services designed for children and youth to be planned, managed and delivered in a holistic and integrated manner to improve the self-sufficiency, safety, economic stability, health and quality of life of all children and youth in Florida.

INFORMATION SYSTEM (CYCIS)				36101C0

An agreement was made between the Department of Health (DOH) and the Office of the State Courts Administrator (OSCA) to develop a Children and Youth Cabinet Information System (CYCIS).

The agreement between the DOH and the OSCA is to accomplish with the other cabinet agencies, Phase I of the design and implementation of a CYCIS system that will promote collaboration, creativity, increased efficiency, information sharing and improved service delivery between and within state governmental organizations that provide services for children, youth, and their families. The purpose of the CYCIS is to provide the cabinet agencies that serve the children and families of Florida a tool that allows them the ability to provide a higher quality of services and programs in a more efficient manner.

Quarterly payments of \$15,626 were committed by the DOH to the OSCA beginning January 1, 2009. After the initial fiscal year the amount committed by the DOH to the OSCA is \$62,504 annually. The DOH will be able to make the first two quarterly payments out of its FY 08-09 appropriation, but will not be able to cover these expenditures on a recurring basis.

This request is for \$62,504 in Contracted Services appropriation from the Administrative Trust Fund to fund this ongoing agreement.

AGENCY ISSUE NARRATIVE:

2009-2010 BUDGET YEAR NARRATIVE: IT COMPONENT? NO

When the Florida Department of Health (DOH) was created in 1997, it originally had thirty-five (35) grants. As the DOH has grown and continued to seek funding opportunities outside of General Revenue and State Trust Funds that number has grown to over 200 active grants with little change in the number of administrative grant support staff. The Bureau of Revenue Management (BRM) has shifted positions and enhanced processes in order to accommodate this increased workload. Even with these changes, additional hours are always required.

In the last three years the additional workload required in the BRM has taken a toll on the staff. Turnover is a constant problem due to the long hours, the complexity of the workload, and never-ending state and federal reporting deadlines. It is often difficult to allow staff to use annual leave and as a result some leave balances are maxed-out or, are very high for most staff.

Moreover, due to the urgency to meet federal deadlines on reports, the grants may not be managed to industry standards. Meeting federal deadlines is a priority due to the possibility of being cut from future funding sources. Due to the time and manpower constraints, many grants that have final financial status reports (FSRs) submitted to the federal government may not be completely reconciled with the cash draws from the letter of credit. This also includes reconciling expenditures and cash draws to the various budget entities and funds within the DOH. This is a very time consuming process but it is the industry standard for state agencies within Florida. Effective grants management is also important because indirect funds are earned from federal grants to help support the DOH's administrative and executive functions. (The additional staff requested in this issue will be funded from indirect earnings cash from federal grants.)

Based on the Schedule of Federal Awards for last year, the DOH has the most active grants of any state agency. The ratio

	COL A03	COL A04	COL A05

FEDERAL GRANTS MANAGEMENT STAFFING				6400330

of the number of grant analysts to grants at the DOH is one analyst per 22 grants, as compared to a comparable agency which has a ration of one analyst per eight grants. Due to budget reductions, the DOH has seen an increase in grant applications from the program offices in the last three months. Additionally, a new initiative to provide grant training (how to search for grants and project/budget narrative writing) to Central Office, Children's Medical Services and County Health Department staff will also increase the workload of the BRM. These positions will help the BRM to more effectively and efficiently manage the ever-increasing number of grants that are so important to the funding of the DOH's programs.

Current workload indicates that each grant takes approximately 134 hours annually to adequately manage a federal grant. This includes reconciling expenditures, preparing cash analyses, and completing FSRs. (134 hrs per FTE X 200 grants = 26,800 hours "/" 1,854 hrs (per FTE) = 14.5 FTEs) The DOH currently has 9 FTEs (grant analysts), two of which are supervisors. However, this does not include grants that have carryover or receive a no-cost extension which adds to the workload tremendously.

Five Government Operations Consultant II positions and \$437,708 in appropriation from the Administrative Trust Fund are requested to manage this workload. The positions are being requested at the mid-point of the pay grade as recruitment for qualified personnel is difficult at the pay grade minimum. The standard DOH Expenses and Operating Capital Outlay packages are being requested for the five positions.

AGENCY ISSUE NARRATIVE:

2009-2010 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

The Department of Health (DOH) contracted for services in a limited capacity for several years. The Auditor General's Office first questioned this practice in a 2004 audit. The Auditor General's findings stated "FDOH contracted with State universities and a community college to provide staffing to administer grant activities under FDOH direction rather than using authorized positions or outsourcing. FDOH did not use competitive procurement methods when establishing the contractual arrangements". Although DOH challenged this finding, an Intent to Negotiate (ITN) was issued to procure support services. As a result, Nitelines USA and Tallahassee Community College (TCC) were awarded the contracts, as the most prudent and economical option to meet DOH legislative mandates outlined in Florida Statutes (20.43, 381.001 and 391.016).

Currently, DOH contracts with Nitelines USA (a private, for-profit, employment agency), Tallahassee Community College and the University of Florida for most of its contracted positions. Subsequent audits by the Auditor General's Office stated that DOH continued to utilize contract services to administer DOH grant activities although it had not identified expressed statutory authority to do so. DOH has responded repeatedly, with legal counsel advice, that DOH has the lawful authority to contract for staff.

In addition to their past findings, the Auditor General's Office has recently directed DOH to determine, as a matter of law, whether DOH's initiation of staffing contracts bypass limitations imposed by the Florida Legislature. The U.S. Department of Health and Human Services (HHS) also conducted an independent audit and requires DOH to obtain clarification from another state authorized entity for a final determination {Department of Management Services (DMS)} . If this issue is not resolved, DOH will be required to pay funds back to the respective federal agency for the two grants recently audited and all other federal grants with contracted staff hired as outlined above. This potentially amounts to over \$25 million.

Additionally, many of the agency's services to Florida's public health system would have to be terminated. This termination may affect the day-to-day operation of many established programs, such as public health preparedness and family health services. Although DOH believes it has the authority to contract for services and has requested clarification from DMS, DOH feels that it should take a proactive approach to resolve this situation while also reducing cost by establishing FTEs.

REPLACE CONTRACT STAFF WITH FULL TIME EQUIVALENT POSITIONS - DEDUCT							6400700

The Department of Health requests a shift from contracted services to salaries and benefits, along with the appropriate full-time equivalent positions (FTEs) and approved rate. The issues to convert 173.50 positions are in several budget entities and funding sources. The total issue nets to a cost savings of over \$500,000. This savings does not include the additional administrative costs and time required by DOH staff to administer, monitor and manage the contract.

AGENCY ISSUE NARRATIVE:

2009-2010 BUDGET YEAR NARRATIVE: IT COMPONENT? NO  
 This issue is to request the transfer of \$225,000 in Administrative Trust Fund Expenses appropriation to Contracted Services appropriation. Similar transfers have been requested via budget amendment the last two fiscal years and it is clear that this appropriation needs to be transferred on a continuing basis. The need for the transfer is to shift appropriation to the Contracted Services appropriation category in order to pay for services formerly paid from the Expenses category.

This shifting of appropriation is still the after-affect of the change in Chapter 2005-152, Laws of Florida, which removed "contractual services" from the list of items in the Expenses definition effective July 1, 2006.

Please see issue # 6400810 which complements this issue.

Similar transfers have been requested via budget amendment the last two fiscal years and it is clear that this appropriation needs to be transferred on a continuing basis. The need for the transfer is to shift appropriation to the Contracted Services appropriation category in order to pay for services formerly paid from the Expenses category.

This shifting of appropriation is still the after-affect of the change in Chapter 2005-152, Laws of Florida, which removed "contractual services" from the list of items in the Expenses definition effective July 1, 2006.

AGENCY ISSUE NARRATIVE:

2009-2010 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

This issue requests the transfer of unfunded appropriation in the Federal Grants Trust Fund (FGTF) to the Administrative Trust Fund (ATF).

Federal regulations require that any positions funded by their grants be fully dedicated to those programs. It was difficult to meet this stringent criterion, as administrative support offices use their positions to support all Department of Health programs. As a result, the FGTF appropriation is no longer used in this budget entity. Please see companion issue #3400330.

AGENCY ISSUE NARRATIVE:

2009-2010 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

The Department of Health (DOH) contracted for services in a limited capacity for several years. The Auditor General's Office first questioned this practice in a 2004 audit. The Auditor General's findings stated "FDOH contracted with State universities and a community college to provide staffing to administer grant activities under FDOH direction rather than using authorized positions or outsourcing. FDOH did not use competitive procurement methods when establishing the contractual arrangements". Although DOH challenged this finding, an Intent to Negotiate (ITN) was issued to procure support services. As a result, Nitelines USA and Tallahassee Community College (TCC) were awarded the contracts, as the most prudent and economical option to meet DOH legislative mandates outlined in Florida Statutes (20.43, 381.001 and 391.016).

Currently, DOH contracts with Nitelines USA (a private, for-profit, employment agency), Tallahassee Community College and the University of Florida for most of its contracted positions. Subsequent audits by the Auditor General's Office stated that DOH continued to utilize contract services to administer DOH grant activities although it had not identified expressed statutory authority to do so. DOH has responded repeatedly, with legal counsel advice, that DOH has the lawful authority to contract for staff.

In addition to their past findings, the Auditor General's Office has recently directed DOH to determine, as a matter of law, whether DOH's initiation of staffing contracts bypass limitations imposed by the Florida Legislature. The U.S. Department of Health and Human Services (HHS) also conducted an independent audit and requires DOH to obtain clarification from another state authorized entity for a final determination {Department of Management Services (DMS)} . If this issue is not resolved, DOH will be required to pay funds back to the respective federal agency for the two grants recently audited and all other federal grants with contracted staff hired as outlined above. This potentially amounts to over \$25 million.

Additionally, many of the agency's services to Florida's public health system would have to be terminated. This termination may affect the day-to-day operation of many established programs, such as public health preparedness and family health services. Although DOH believes it has the authority to contract for services and has requested clarification from DMS, DOH feels that it should take a proactive approach to resolve this situation while also reducing cost by establishing FTEs.

TIME EQUIVALENT POSITIONS - DEDUCT				6400700

The Department of Health requests a shift from contracted services to salaries and benefits, along with the appropriate full-time equivalent positions (FTEs) and approved rate. The issues to convert 173.50 positions are in several budget entities and funding sources. The total issue nets to a cost savings of over \$500,000. This savings does not include the additional administrative costs and time required by DOH staff to administer, monitor and manage the contract.

AGENCY ISSUE NARRATIVE:

2009-2010 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

This issue requests a change in Fund Source Indicator (FSI) for General Revenue in the Family Health Outpatient and Nutrition Services budget entity.

COL A03		COL A04		COL A05		CODES

ESTIMATED EXPENDITURES						1600000
GENERAL REVENUE FUND REVIEW-DEDUCT						160S150

Budget authority in the Salaries and Benefits, and Other Personal Services category is not being used as state match and therefore the FSI needs to be changed from a 2-State Match to a 1-State Non-Match.

Of the budget authority in the Expenses category that is a FSI 2-State Match, only \$22,813 is being used as state match for the Oral Health Workforce Activities grant. Therefore the FSI needs to be changed from a 2-State Match to a 1-State Non-Match for the remainder of \$335,465.

Budget authority in the School Health Services and G/A Healthy Start Coalition category is used as Maintenance of Effort (MOE) for the Maternal and Child Health Block Grant. Therefore the FSI needs to be changed from a 1-State Non-Match to a 2-State Match. The FSI of 2-State Match can now be used to indicate MOE as well as State Match.

Please see companion issue #160S160 in the Family Health Outpatient and Nutrition Services budget entity.

AGENCY ISSUE NARRATIVE:

2009-2010 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

The Department of Health (DOH) requests a fund shift of unfunded appropriation in the Administrative Trust Fund (ATF), the Tobacco Settlement Trust Fund (TSTF), Grants and Donations Trust Fund (GDTF) and the Preventive Health Services Block Grant Trust Fund (PHSBGTF) to the Maternal and Child Health Block Grant Trust Fund (MCHBGTF), GDTF, and Federal Grants Trust Fund (FGTF) in the Family Health Outpatient and Nutrition Services budget entity. This issue requests a transfer of \$306,040 of recurring budget authority to facilitate central office expenditures.

The transfer of \$155 from ATF, \$2,501 from GDTF, and \$300,000 from the PHSBGTF to the MCHBGTF will allow full utilization of authority and federal dollars. The department has historically requested 216 actions to cover salary expenditures in the MCHBGTF; however a realignment of \$302,656 in the Salaries and Benefit category (010000) would accurately represent DOH's need. The MCHBGTF supports seven professional and administrative staff, who work exclusively on the Maternal and Child Health Block Grant. There is sufficient MCHBGTF cash to support this additional budget authority.

In addition, DOH requests a fund shift of \$97 in Expenses category (040000) from the TSTF to the GDTF. Due to the current economic conditions, Family Health Outpatient and Nutrition Services budget entity has been pursuing outside sources to fund current efforts. They have been successful in receiving multiple small grants from March of Dimes. There is sufficient GDTF cash to support this additional budget authority.

Finally, DOH requests a fund shift of \$3,287 in the Special Categories Transfer to Department of Management Services Human Resources Services Purchased per Statewide Contract, category 107040. This fund shift would properly align the People First costs to the appropriate funding source.

Please refer to companion issue 3400330 in the Family Health Outpatient and Nutrition Services budget entity (64200300).

AGENCY ISSUE NARRATIVE:

2009-2010 BUDGET YEAR NARRATIVE:

IT COMPONENT? YES

The Department of Health requests \$2,660,546 of non-recurring budget authority in the Federal Grants Trust Fund for the implementation phase of a three-year project to replace the Women, Infants, and Children (WIC) Data System which, as of June 2008, supports the delivery of WIC services to 473,076 clients. Florida's sixteen-year old mainframe system will be replaced with a state-of-the-art, commercially developed web-based WIC system that is successfully operating in another state. The new system will improve the efficiency of local operations to meet the growing demand for services, support all WIC business process areas, and provide a cost-effective foundation for WIC Electronic Benefits Transfer (EBT). Some examples of the efficiencies to be gained include: automating manual procedures such as the collection of basic applicant information through an online application; collecting data electronically such as signatures that document receipt of benefits; and developing efficient access to needed data in other systems such as the Florida Medicaid Management Information System (FMMIS) used to document Medicaid eligibility for WIC income assessment. These and other system-related efficiencies will reduce the time needed to serve clients, thereby increasing by 23% the program's ability to assess client eligibility and issue benefits. This will allow a greater number of eligible mothers and children to receive nutritious foods, nutrition education and health care referrals. Without the efficiencies to be gained through a new data system, the ability to serve the expected growth in clients is expected to plateau resulting in clients experiencing longer waiting times for eligibility appointments and even the possibility that local agencies may have to restrict WIC services to higher priority clients only. In May 2008, the USDA Food and Nutrition Service granted approval for Florida WIC to proceed with implementation of this project. The estimated timeline for the project is as follows: 7/09 project begins; 9/09 system transfer and modifications begin; 9/10 user acceptance testing begins; 12/10 pilot begins; 4/11 statewide rollout begins; and 12/11 completion of project.

The additional budget authority is requested as follows: Expenses (\$212,894), Operating Capital Outlay (\$124,072), and Special Categories, Grants and Aids - Federal Nutrition Programs (\$2,323,580). The Expense budget will be used to purchase scanners and signature pads for use in development/testing as well as to purchase server and system testing software. The Operating Capital Outlay budget will be used to purchase laptops and servers. The Special Categories, Grants and Aids - Federal Nutrition Programs budget will fund the systems contractor and project management staff that will be responsible for modifying and implementing the transferred system.

The total implementation cost is estimated at \$6,227,926. The project pays for itself through cost savings in less than

AGENCY ISSUE NARRATIVE:

2009-2010 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

The Department of Health requests \$30,016,424 of recurring budget authority in the Federal Grants Trust fund for the Child Care Food Program in the Family Health Outpatient and Nutrition Services budget entity. \$29,550,946 will reimburse program contractors for additional meals served and \$465,478 for program administration. The Child Care Food Program is a federal entitlement program administered by the Bureau of Child Nutrition Programs. The program reimburses child care providers for nutritious meals served to children in their care and also provides reimbursement for meals served to children in temporary residential settings for homeless families and children in after-school programs.

Over the past three years the program has experienced a 5.435% average annual increase in the number of meals served. It is anticipated that this trend will continue, resulting in reimbursement for approximately 117,223,258 meals during federal fiscal year 2010 (6,042,602 more meals than anticipated for FY 2009). Meal reimbursement rates are established annually by the U.S. Department of Agriculture (USDA) based on each child's eligibility for meal reimbursement as being "free", "reduced price" or "non-needy". USDA adjusts these reimbursement rates for inflation effective July 1 of each year. Rates for FY 2009 increased 5.773% over the FY 2008 rates. Given current inflationary factors for the cost of

CHILD NUTRITION PROGRAM				4800020

food, it is anticipated that the percentage increase for FY 2010 will be at least the same as the FY 2009 increase. These increases in the number of meals served and in the reimbursement rates will cause total estimated expenditures for FY 2010 to be \$157,472,085. Current budget authority is \$131,739,557, creating an anticipated budget deficit of \$25,732,528. The program was short \$3,818,418 in budget authority to close out FY 2008 causing these expenditures to be paid from the program's FY 2009 budget authority. It is anticipated that this budget shortfall will be carried forward into FY 2010, increasing the anticipated budget deficit to \$29,550,946.

The department also receives funding from USDA for program administration including claims payments, monitoring contractor compliance for 1,358 contractors providing program services at 5,690 sites, providing contractor training and guidance, development and dissemination of program policy and nutrition education materials, programmatic outreach and other administrative functions. The department received \$4,946,148 to conduct these activities during FY 2009, representing a 9% increase over administrative funding for FY 2008. It is anticipated that this same level of administrative funding increase will be received for FY 2010, resulting in an anticipated budget deficit of \$465,478.

	FY 08/09	Estimated FY 09/10	Amount Increased	Percent Increased

TOTAL ISSUE.....		35,000		

\*\*\*\*\*

AGENCY ISSUE NARRATIVE:

2009-2010 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

The Department of Health requests \$35,000 of recurring Grants and Donations Trust Fund budget authority in the Family Health Outpatient and Nutrition Services budget entity. The budget authority is needed to facilitate additional agreements between the March of Dimes Birth Defects Foundation Florida Chapter and the Department of Health, Infant, Maternal and Reproductive Health Unit.

In the last two years the department has received an average of three separate agreements per year with the March of Dimes. These agreements range from \$8,000 to \$50,000 per agreement and include the following activities: birth defects prevention campaigns, folic acid campaigns, preconception health brochures, and preterm live births and Cesarean delivery studies. The department believes this trend will continue and we are requesting recurring authority to minimize service delivery disruptions. This funding is usually one-time and deliverables or services are required within a short time frame.

Based on the departments past need to complete the similar contract deliverables the department is requesting: \$20,160 of Other Personal Services (OPS), \$12,100 in Expenses, and \$2,740 in Special Categories Contracted Services authority.

AGENCY ISSUE NARRATIVE:

2009-2010 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

The Department of Health requests \$97.5 million for the Women, Infants and Children (WIC) Nutrition Services Program to provide nutritious foods to eligible pregnant and postpartum women, breastfeeding mothers, infants and children under the age of five. This issue will increase the Federal Grants Trust Fund authority in Family Health Outpatient and Nutrition Services budget entity. This additional authority is necessary to support food costs associated with food inflation and an increasing caseload. From June 2007 to June 2008, client participation increased by 9.8%. Due to existing economic conditions, it is anticipated that WIC will experience similar growth in FY 08/09 and a smaller increase in FY 09/10. WIC food costs during FY 07/08 increased by 9.4%, however, the food cost estimates to serve all clients in FY 08/09 and FY 09/10 were increased by 11.67% annually. This increase annualizes the impact of higher food prices experienced during the spring/summer of 2008. Another factor affecting WIC food costs in FY 09/10 will be the implementation of the new federally required expanded food package in October 2009. The cost of the new food package is unknown at this time but the higher cost estimate of 11.67% should assist in meeting these new costs. To meet this need, the Department of Health, Bureau of WIC and Nutrition Services requests budget authority in Special Categories, Grants and Aids - Federal Nutrition Programs (\$97,508,650) to provide services to the maximum number of clients in need. This budget issue allows an additional 24,371 clients to receive WIC benefits in FY 09/10 and addresses the agency's priority to improve access to basic preventive, acute and chronic family health care services. The program was short \$18,061,019 in budget authority to close out FY 07/08 causing these expenditures to be paid from the program's FY 08/09 budget authority. Current budget authority of \$281,279,807 creates an anticipated budget deficit of \$42,079,675 in FY 08/09. This budget deficit is included in this request.

	Actual FY 07/08	Estimated FY 08/09 Increase	Estimated FY 08/09	Estimated FY 09/10 Increase	Estimated FY 09/10
Caseload	452,977	9.8%	497,369	4.9%	521,740

AGENCY ISSUE NARRATIVE:

2009-2010 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

This issue requests the continuation of \$7,871,588 non-recurring Temporary Assistance for Needy Families (TANF) funding in the Welfare Transition Trust Fund, Family Health Outpatient and Nutrition Services budget entity and Children's Special Health Care budget entity.

In the Family Health Outpatient and Nutrition Services budget entity \$2,071,588 is used to support the Ounce of Prevention program whose purpose is to reduce infant mortality per 1,000 live births. Innovative public and private projects are funded to strengthen individual, family and community capacities to raise healthy, competent, productive and caring children and to prevent family dysfunction in at-risk families by providing support services with a focus on adolescent pregnancy prevention and parenthood. \$2,000,000 is used for the Abstinence program whose purpose is to educate teens on the consequences of sexual activity outside marriage, such as teen pregnancy and sexually transmitted diseases, while also teaching improved decision making, problem solving skills and building self-confidence.

In the Children's Special Health Care budget entity \$3,800,000 is used to support the Early Steps program whose purpose is to provide a coordinated system of early intervention services for infants and toddlers, from birth until age 3, who have a developmental delay or an established condition that places them at high risk for developmental disabilities. The program provides assessments, early intervention and support services, home visits, parent training, service coordination/case management and family support planning.

AGENCY ISSUE NARRATIVE:

2009-2010 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

The Department of Health (DOH) contracted for services in a limited capacity for several years. The Auditor General's Office first questioned this practice in a 2004 audit. The Auditor General's findings stated "FDOH contracted with State universities and a community college to provide staffing to administer grant activities under FDOH direction rather than using authorized positions or outsourcing. FDOH did not use competitive procurement methods when establishing the contractual arrangements". Although DOH challenged this finding, an Intent to Negotiate (ITN) was issued to procure support services. As a result, Nitelines USA and Tallahassee Community College (TCC) were awarded the contracts, as the most prudent and economical option to meet DOH legislative mandates outlined in Florida Statutes (20.43, 381.001 and 391.016).

Currently, DOH contracts with Nitelines USA (a private, for-profit, employment agency), Tallahassee Community College and the University of Florida for most of its contracted positions. Subsequent audits by the Auditor General's Office stated that DOH continued to utilize contract services to administer DOH grant activities although it had not identified expressed statutory authority to do so. DOH has responded repeatedly, with legal counsel advice, that DOH has the lawful authority to contract for staff.

In addition to their past findings, the Auditor General's Office has recently directed DOH to determine, as a matter of

law, whether DOH's initiation of staffing contracts bypass limitations imposed by the Florida Legislature. The U.S. Department of Health and Human Services (HHS) also conducted an independent audit and requires DOH to obtain clarification from another state authorized entity for a final determination {Department of Management Services (DMS)}. If this issue is not resolved, DOH will be required to pay funds back to the respective federal agency for the two grants recently audited and all other federal grants with contracted staff hired as outlined above. This potentially amounts to over \$25 million.

Additionally, many of the agency's services to Florida's public health system would have to be terminated. This termination may affect the day-to-day operation of many established programs, such as public health preparedness and family health services. Although DOH believes it has the authority to contract for services and has requested clarification from DMS, DOH feels that it should take a proactive approach to resolve this situation while also reducing cost by establishing FTEs.

The Department of Health requests a shift from contracted services to salaries and benefits, along with the appropriate full-time equivalent positions (FTEs) and approved rate. The issues to convert 173.50 positions are in several budget entities and funding sources. The total issue nets to a cost savings of over \$500,000. This savings does not include the additional administrative costs and time required by DOH staff to administer, monitor and manage the contracts.

Budget authority in the G/A Primary Care Program category is used as state match for the Oral Health Workforce Activities grant (\$72,103) and as Maintenance of Effort (MOE) for the Preventive Health Services Block Grant (\$5,471,214). Therefore the FSI needs to be changed from a 1-State Non-Match to a 2-State Match. The FSI of 2-State Match can now be used to indicate MOE as well as State Match.

Budget authority in the School Health Services and G/A Healthy Start Coalition category is used as Maintenance of Effort (MOE) for the Maternal and Child Health Block Grant. Therefore the FSI needs to be changed from a 1-State Non-Match to a 2-State Match. The FSI of 2-State Match can now be used to indicate MOE as well as State Match.

REVIEW - DEDUCT				160S210

Budget authority in the School Health Services category is used as state match for the Maternal and Child Health Block Grant and therefore the FSI needs to be changed from a 1-State Non-Match to a 2-State Match.

Budget authority in the Full Service Schools category is used as Maintenance of Effort (MOE) for the Temporary Assistance for Needy Families (TANF) grant. The FSI of 2-State Match can now be used to indicate MOE as well as state match and therefore the FSI needs to be changed from a 1-State Non-Match to a 2-State Match.

Please see companion issue #160S220 within the Family Health Outpatient and Nutrition Services budget entity.

AGENCY ISSUE NARRATIVE:

2009-2010 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

The Department of Health requests \$9,000,000 of recurring General Revenue to maintain current levels of school health services in the Family Health Outpatient and Nutrition Services budget entity. These services are provided in all 67 counties by 2,955 school health staff in Florida's 3,484 public schools and support the Governor's Health Initiatives to promote wellness and healthy lifestyles. They provide preventive health services that protect the health and safety of Florida school students, keeps them healthy and ready to learn, and provides enhanced health services to high risk students. In FY 06/07, the most recent year for which final data is available, there were 19,717,195 school health services provided statewide. Loss of this funding would result in a reduction of 1,673,990 preventive health services to students (8.49% of total services based on a comparable staff reduction).

Failure to provide this funding will result in a loss of 251 school health staff and reduce access to health services for the most vulnerable high-risk students, impact the safety of students with chronic health conditions such as diabetes or asthma, and affect the staffing of community special needs shelters during hurricanes or other disasters. \$31,121,881 of state funds support 868 of the school health staff and the remaining 2,087 are supported through local funding.

$$\begin{aligned} \$31,121,881 / 868 &= \$35,855 \text{ per average staff} \\ \$9,000,000 / \$35,855 &= 251 \text{ school health staff} \end{aligned}$$

Children's Medical Services program and other non-recurring resources have provided cash to support these services for FY 07/08 and FY 08/09. These revenue resources are depleted.

Prior to FY 07/08, these funds came from:

- 1) \$1,000,000 of non-recurring budget authority in the Maternal and Child Health Block Grant Trust Fund for basic services authorized by s. 381.0056, F.S. This program promotes the health of students through screenings, first aid, medication administration and complex medical procedures.
- 2) \$1,000,000 of non-recurring budget authority in Temporary Assistance To Needy Families dollars for comprehensive school health services authorized by s. 381.0057, F.S. This program promotes student health management, interventions and classes to reduce risk-taking behaviors, violence and injury prevention, and services to reduce teen pregnancy and promote return to school after giving birth.
- 3) \$7,000,000 of recurring Title XXI budget authority in the Federal Grants Trust Fund for comprehensive services authorized by s. 381.0057, F.S. This program promotes student health through the increased use of RNs for assessments, interventions, case management, and improving access to care. It provides an in-depth focus on at-risk students to decrease student involvement in risk-taking behaviors, and reduces the incidence of teenage pregnancy.

\* Community partners may be hospitals, universities, foundations, special taxing districts, etc.

Staffing Explanation: Statewide staffing for county school health programs consists of Registered Nurses, Licensed Practical Nurses, and Health Aides. Community partners provide funds and/or staffing that supplement the state funding (see charts above). The actual county positions affected by a potential state \$9 million funding cut would vary by county depending on the local staffing models in place. School health services are dependent upon professional registered nurses to provide local nursing services and professional staffing oversight. Based on total statewide staff, the 868 CHD staff is 29.37% of the total.

\* NOTE: Data is provided by the DOH Health Management System. There are approximately 50 service codes (categories) for which data are collected from school health service staff. This data has been consolidated, with only major services represented, for the purpose of brevity.

The DOH Health Management System collects data for services provided directly to students by school health staff. Each service is also supported by staff activities that are not captured by the data system. The ability to provide effective day-to-day service delivery in schools is dependant upon these coexisting support activities (such as administration, professional supervision, delegation, training, etc.).

AGENCY ISSUE NARRATIVE:

2009-2010 BUDGET YEAR NARRATIVE: IT COMPONENT? NO

The Department of Health (DOH) contracted for services in a limited capacity for several years. The Auditor General's Office first questioned this practice in a 2004 audit. The Auditor General's findings stated "FDOH contracted with State universities and a community college to provide staffing to administer grant activities under FDOH direction rather than using authorized positions or outsourcing. FDOH did not use competitive procurement methods when establishing the contractual arrangements". Although DOH challenged this finding, an Intent to Negotiate (ITN) was issued to procure support services. As a result, Nitelines USA and Tallahassee Community College (TCC) were awarded the contracts, as the most prudent and economical option to meet DOH legislative mandates outlined in Florida Statutes (20.43, 381.001 and 391.016).

Currently, DOH contracts with Nitelines USA (a private, for-profit, employment agency), Tallahassee Community College and the University of Florida for most of its contracted positions. Subsequent audits by the Auditor General's Office stated that DOH continued to utilize contract services to administer DOH grant activities although it had not identified expressed statutory authority to do so. DOH has responded repeatedly, with legal counsel advice, that DOH has the lawful authority to contract for staff.

In addition to their past findings, the Auditor General's Office has recently directed DOH to determine, as a matter of law, whether DOH's initiation of staffing contracts bypass limitations imposed by the Florida Legislature. The U.S. Department of Health and Human Services (HHS) also conducted an independent audit and requires DOH to obtain clarification from another state authorized entity for a final determination {Department of Management Services (DMS)}. If this issue is not resolved, DOH will be required to pay funds back to the respective federal agency for the two grants recently audited and all other federal grants with contracted staff hired as outlined above. This potentially amounts to over \$25 million.

Additionally, many of the agency's services to Florida's public health system would have to be terminated. This termination may affect the day-to-day operation of many established programs, such as public health preparedness and family health services. Although DOH believes it has the authority to contract for services and has requested clarification from DMS, DOH feels that it should take a proactive approach to resolve this situation while also reducing cost by establishing FTEs.

The Department of Health requests a shift from contracted services to salaries and benefits, along with the appropriate full-time equivalent positions (FTEs) and approved rate. The issues to convert 173.50 positions are in several budget entities and funding sources. The total issue nets to a cost savings of over \$500,000. This savings does not include the additional administrative costs and time required by DOH staff to administer, monitor and manage the contracts.

AGENCY ISSUE NARRATIVE:

2009-2010 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

This issue requests a change in Fund Source Indicator (FSI) for General Revenue in the Infectious Disease Control budget entity.

Of the budget authority in the Salaries and Benefits category that is a FSI 2-State Match, only \$275,411 is being used as state match for the Ryan White grant. Therefore the FSI needs to be changed from a 2-State Match to a 1-State Non-Match for the remainder of \$64,521.

Budget authority in the Expenses and Contracted Services category is used as state match for the Ryan White grant. Therefore the FSI needs to be changed from a 1-State Non-Match to a 2-State Match.

Please see companion issue #160S160 within the Infectious Disease Control budget entity.

AGENCY ISSUE NARRATIVE:

2009-2010 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

The Department of Health requests a fund shift of \$226,517 in unfunded Preventive Health Services Block Grant Trust Fund (PHSBGTF) appropriation to the Federal Grants Trust Fund (FGTF). These funds will be used in conjunction with the National Cancer Prevention and Control Program.

Programs previously funded by the PHSBGTF have been converted by the federal grantor into individual programs funded through the FGTF. The National Cancer Prevention and Control Program is one such program within the Division of Disease Control, Bureau of Epidemiology. At the time this program was shifted to FGTF funding, there was sufficient appropriation to absorb the costs associated. However, increases in federal funding for grant awards has precipitated additional need in authority. The department still receives federal funding for this program and requests that the unfunded PHSBGTF appropriation be shifted to the FGTF to ensure adequate appropriation remains available.

Please see issue # 3400330 also.

AGENCY ISSUE NARRATIVE:

2009-2010 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

The Department of Health (DOH) is requesting \$3,829,995 in recurring authority (\$1,575,995 Expenses and \$2,254,000 Grants and Aids - Contractual Services) to support the federally funded African American Testing Initiative (AATI) program within the Division of Disease Control. DOH received this award September 30, 2007. Since the grant was received during a fiscal year and lapse in start up of the grant, existing authority was used to fund the initiatives.

This initiative expands testing for the human immunodeficiency virus(HIV), in clinical settings, for members of the African-American population at risk for HIV. Persons of this population are often diagnosed late in the course of their infection. The program goal is to increase testing by 150,000 at-risk persons in the first year and estimates that approximately 2,000 test results will be confirmed positive for HIV. A variety of clinical and non-clinical sites across the state are participating in this testing program, including hospitals, community health centers and community-based organizations.

A portion of AATI funding, \$326,900, will go to the Bureau of Laboratory Services for testing supplies and services. Please reference issue #430090 in Community Public Health, Statewide Health Support Services.

AGENCY ISSUE NARRATIVE:

2009-2010 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

The Department of Health (DOH) contracted for services in a limited capacity for several years. The Auditor General's Office first questioned this practice in a 2004 audit. The Auditor General's findings stated "FDOH contracted with State universities and a community college to provide staffing to administer grant activities under FDOH direction rather than using authorized positions or outsourcing. FDOH did not use competitive procurement methods when establishing the contractual arrangements". Although DOH challenged this finding, an Intent to Negotiate (ITN) was issued to procure support services. As a result, Nitelines USA and Tallahassee Community College (TCC) were awarded the contracts, as the most prudent and economical option to meet DOH legislative mandates outlined in Florida Statutes (20.43, 381.001 and 391.016).

Currently, DOH contracts with Nitelines USA (a private, for-profit, employment agency), Tallahassee Community College and the University of Florida for most of its contracted positions. Subsequent audits by the Auditor General's Office stated that DOH continued to utilize contract services to administer DOH grant activities although it had not identified expressed statutory authority to do so. DOH has responded repeatedly, with legal counsel advice, that DOH has the lawful authority to contract for staff.

In addition to their past findings, the Auditor General's Office has recently directed DOH to determine, as a matter of law, whether DOH's initiation of staffing contracts bypass limitations imposed by the Florida Legislature. The U.S. Department of Health and Human Services (HHS) also conducted an independent audit and requires DOH to obtain clarification from another state authorized entity for a final determination {Department of Management Services (DMS)}. If this issue is not resolved, DOH will be required to pay funds back to the respective federal agency for the two grants recently audited and all other federal grants with contracted staff hired as outlined above. This potentially amounts to over \$25 million.

Additionally, many of the agency's services to Florida's public health system would have to be terminated. This termination may affect the day-to-day operation of many established programs, such as public health preparedness and family health services. Although DOH believes it has the authority to contract for services and has requested clarification from DMS, DOH feels that it should take a proactive approach to resolve this situation while also reducing cost by establishing FTEs.

The Department of Health requests a shift from contracted services to salaries and benefits, along with the appropriate full-time equivalent positions (FTEs) and approved rate. The issues to convert 173.50 positions are in several budget entities and funding sources. The total issue nets to a cost savings of over \$500,000. This savings does not include the additional administrative costs and time required by DOH staff to administer, monitor and manage the contracts.

AGENCY ISSUE NARRATIVE:

2009-2010 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

The Department of Health (DOH) requests that \$150,000 in budget authority be transferred from the Expenses category to the Contractual Services category within Grants and Donations Trust Fund in the Infectious Disease Control budget entity.

Chapter 205-152, Laws of Florida, amended section 216.011(n) of the Florida Statutes by removing "contractual services" from the list of allowable expenditures in the Expenses definition. The Department of Financial Services Memorandum #20, June 30, 2006, modified the state standard object codes that shall not be paid from the Expenses Category. Based on these changes, the department has identified additional expenditures that now must be paid from the Contractual Services category.

These funds will be used by the Bureau of Epidemiology to conduct additional surveys in the Behavioral Risk Factor Surveillance System (BRFSS). Beginning January 2009, The Center for Disease Control (CDC) will require that BRFSS surveys be expanded to include cellular phone customers. It is projected that cash will be sufficient to support these funds and are received by DOH from the Department of Children and Families, various state universities and other entities who have contracted with DOH to receive specific survey response information.

Please see companion issue number 6400810.

AGENCY ISSUE NARRATIVE:

2009-2010 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

This issue requests a change in Fund Source Indicator (FSI) for General Revenue in the Infectious Disease Control budget entity.

Budget authority in the Contribution to County Health Units category is used as Maintenance of Effort (MOE) for the Immunization grant (\$1,292,629). Therefore the FSI needs to be changed from a 1-State Non-Match to a 2-State Match. The FSI of 2-State Match can now be used to indicate MOE as well as State Match.

The Contribution to County Health Units category, General Revenue funding is used to support the double budget in the

AGENCY ISSUE NARRATIVE:

2009-2010 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

This issue requests a change in Fund Source Indicator (FSI) for the Administrative Trust Fund in the Environmental Health Services budget entity.

Budget authority in the Contracted Services category is used as state match for the Remote Sensing of Optical Brighteners grant (\$24,000). Therefore the FSI needs to be changed from a 1-State Non-Match to a 2-State Match.

Please see companion issue #160S100 within the Environmental Health Services budget entity.

AGENCY ISSUE NARRATIVE:

2009-2010 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

The Department of Health requests \$1,000,000 of non-recurring budget authority in the Grants and Donations Trust Fund in the Environmental Health Services budget entity. The General Appropriations Act for Fiscal Year 2008-2009, Specific Appropriation 1682, authorizes the transfer of \$1,000,000 from the Department of Environmental Protection, Water Protection and Sustainability Program Trust Fund to the Department of Health (DOH) for Phase I of an anticipated 3-year

project. This language mandated the Department of Health to contract for the development of cost-effective nitrogen reduction strategies.

Environmental Health Services budget entity original appropriation did not include sufficient budget authority in the Grants and Donations Trust Fund, Contracted Services category to comply with the provisions of Specific Appropriation 1682. An amendment (EOG #B0152 / DOH #09GA-027) was approved on September 12, 2008 to ensure Legislative Intent was met by the Department of Health.

In anticipation of Phase II, the Department of Health is requesting non-recurring budget authority in Other Personal Services (41,600) to assist in the management of the nitrogen reduction strategies project and Contracted Services (958,400) to continue contracting with the vendor chosen during Fiscal Year 2008-2009.

FUND SHIFT				3400000
TRANSFER PROGRAM FUNDING BETWEEN				
FUNDS - DEDUCT				3400320

The department has historically requested 216 actions to cover salary expenditures in the ATF; however a realignment of the Salaries and Benefit category (010000) would accurately represent DOH's need. The ATF supports Environmental Health's senior management, who oversee multiple programs in multiple funds and are filled at the midpoint or above for the pay grade. Over the last few years, vacant positions in the FGTF, GDTF, and the RPTF have been filled at the minimum for the pay grade resulting in a minimal surplus of authority in those funds. There is sufficient ATF cash to support this additional budget authority.

In addition, DOH requests a fund shift of \$3,354 in Expenses category (040000) from the Preventive Health Services Block Grant (PHSBGTF) to the FGTF. The PHSBGTF is no longer a viable funding source for this budget entity's operation. There is sufficient FGTF cash to support this additional budget authority.

Please see companion issue 3400330.

AGENCY ISSUE NARRATIVE:

2009-2010 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

The Department of Health (DOH) requests \$300,000 of recurring budget authority in the Environmental Health Services budget entity. This issue requests recurring budget authority to facilitate an annual agreement between the Florida Department of Environmental Protection (DEP) and DOH.

DEP contract NO. GW251 requests the department to provide potable well survey and sampling services. The number of samples and the cost per sample increases annually. To facilitate the inter-agency cost sharing of this project, contract terms require DOH to reimburse the County Health Departments (CHDs) for the initial sampling expenditures from the fees they collect. This minimum sampling threshold is paid from Special Categories State Underground Petroleum Environmental Response (SUPER) Act Reimbursement category (109100). Once the minimum sampling is met, DEP will reimburse for additional sampling.

To complete the contract deliverables that are reimbursed by DEP, the department is requesting \$200,000 of recurring

AGENCY ISSUE NARRATIVE:

2009-2010 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

The Department of Health (DOH) contracted for services in a limited capacity for several years. The Auditor General's Office first questioned this practice in a 2004 audit. The Auditor General's findings stated "FDOH contracted with State universities and a community college to provide staffing to administer grant activities under FDOH direction rather than using authorized positions or outsourcing. FDOH did not use competitive procurement methods when establishing the contractual arrangements". Although DOH challenged this finding, an Intent to Negotiate (ITN) was issued to procure support services. As a result, Nitelines USA and Tallahassee Community College (TCC) were awarded the contracts, as the most prudent and economical option to meet DOH legislative mandates outlined in Florida Statutes (20.43, 381.001 and 391.016).

Currently, DOH contracts with Nitelines USA (a private, for-profit, employment agency), Tallahassee Community College and the University of Florida for most of its contracted positions. Subsequent audits by the Auditor General's Office stated that DOH continued to utilize contract services to administer DOH grant activities although it had not identified expressed statutory authority to do so. DOH has responded repeatedly, with legal counsel advice, that DOH has the lawful authority to contract for staff.

In addition to their past findings, the Auditor General's Office has recently directed DOH to determine, as a matter of law, whether DOH's initiation of staffing contracts bypass limitations imposed by the Florida Legislature. The U.S. Department of Health and Human Services (HHS) also conducted an independent audit and requires DOH to obtain clarification from another state authorized entity for a final determination {Department of Management Services (DMS)}. If this issue is not resolved, DOH will be required to pay funds back to the respective federal agency for the two grants

recently audited and all other federal grants with contracted staff hired as outlined above. This potentially amounts to over \$25 million.

Additionally, many of the agency's services to Florida's public health system would have to be terminated. This termination may affect the day-to-day operation of many established programs, such as public health preparedness and family health services. Although DOH believes it has the authority to contract for services and has requested clarification from DMS, DOH feels that it should take a proactive approach to resolve this situation while also reducing cost by establishing FTEs.

The Department of Health requests a shift from contracted services to salaries and benefits, along with the appropriate full-time equivalent positions (FTEs) and approved rate. The issues to convert 173.50 positions are in several budget entities and funding sources. The total issue nets to a cost savings of over \$500,000. This savings does not include the additional administrative costs and time required by DOH staff to administer, monitor and manage the contracts.

AGENCY ISSUE NARRATIVE:

2009-2010 BUDGET YEAR NARRATIVE: IT COMPONENT? NO

The Department of Health (DOH) requests \$300,000 of recurring budget authority in the Environmental Health Services budget entity. This issue requests recurring budget authority to facilitate an annual agreement between the Florida Department of Environmental Protection (DEP) and DOH.

DEP contract NO. GW251 requests the department to provide potable well survey and sampling services. The number of samples and the cost per sample increases annually. To facilitate the inter-agency cost sharing of this project, contract terms require DOH to reimburse the County Health Departments (CHDs) for the initial sampling expenditures from the fees they collect. This minimum sampling threshold is paid from Special Categories State Underground Petroleum Environmental Response (SUPER) Act Reimbursement category (109100). Once the minimum sampling is met, DEP will reimburse for additional sampling.

To complete the contract deliverables that are reimbursed by DEP, the department is requesting \$200,000 of recurring budget authority in Contributions to County Health Departments, category (050329) in the Grants and Donations Trust Fund. To complete the minimum sampling threshold, the department is requesting \$100,000 of recurring budget authority in (SUPER) Act Reimbursement category (109100) in the Administrative Trust Fund.

Please see companion issue 5800090 in program component 13.02.00.00.00.

PROGRAM COMPONENT TECHNICAL				
CORRECTION - ADD				160P020

There are two program components within the County Health Departments Local Health Needs budget entity. The 13.06.00.00.00 program component is used for the County Health Department Trust Fund operating budget authority. The 13.06.01.00.00 program component is used for the General Revenue and Tobacco Settlement Trust Fund appropriations that transfer cash to the counties (050329 category), provide funding for Minority Health Initiatives (050310 category) or fund legislative member projects (100778 category).

Please see companion issue #160P010.

AGENCY ISSUE NARRATIVE:

2009-2010 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

This issue requests a change in Fund Source Indicator (FSI) for the County Health Department Trust Fund in the County Health Department Local Health Needs budget entity.

The grants listed below use expenditures in the County Health Department Trust Fund as either state match and/or Maintenance of Effort (MOE). The amounts in the list below represent the total needed from the trust fund as match and MOE. This issue changes the FSI 1-State Non-Match to a 2-State Match for the remaining amount not marked as match. The FSI 2-State Match can now be used to indicate MOE as well as state match.

Abstinence Education Block Grant	\$ 1,891,186
Breast and Cervical Cancer	\$ 1,083,665
National Cancer Registry	\$ 340,341
Ryan White	\$100,888,387
Maternal and Child Health Block Grant	\$117,037,303
Family Planning	\$ 50,531,944
Immunization	\$ 7,500,000
Preventive Health Services Block Grant	\$ 6,002,627
Temporary Assistance for Needy Families	\$ 7,463,392
Oral Health Activities	\$ 72,103
Public Health Preparedness	\$ 4,657,367
Total Match/MOE	\$297,468,315

The Operating Capital Outlay and Replacement of Motor Vehicles category FSI's need to be changed from 2-State Match and 3-Federal to a 1-State Non-Match. These two categories are not normally used to capture state match or federal reimbursement expenditures.

Please see companion issue #160S040.

AGENCY ISSUE NARRATIVE:

2009-2010 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

The FY 2001-02 General Appropriations Act authorized \$500,000 of recurring budget authority to address local emergency needs as defined by the State Surgeon General. The department requests an \$115,927 increase to the account. Section 154.02(5)(b), Florida Statutes, requires the cash reserve for emergency needs to be adjusted each July 1 by the change in the Consumer Price Index that occurred during the previous 12 months. The department cash reserve for this emergency fund is now \$615,927 and the appropriation remains at \$500,000. The budget authority increase will align funding with the cash reserve.

\*\*\*\*\*

AGENCY ISSUE NARRATIVE:

2009-2010 BUDGET YEAR NARRATIVE: IT COMPONENT? NO  
 This issue requests the transfer of \$15,000,000 in County Health Department Trust Fund (CHD TF) budget authority between categories to allow for the provision of necessary services directly to, or for the benefit of Florida Citizens. The CHD TF budget authority needs to be realigned with the projected expenditures and support plans agreed upon by the county authorities pursuant to Section 216.2525, Florida Statute.

The County Health Departments (CHDs) contract with private entities to provide numerous specialty care medical services like infectious disease control, safety net primary health care, and environmental sanitation and safety. There is not sufficient budget authority in the Contracted Services (100777) category to cover the projected costs for these services.

During the 2008-2009 state fiscal year the department submitted budget amendment 09GA-005, EOG #B0118 approved on September 10, 2008 by the Legislative Budget Commission (LBC) to realign \$15,000,000 in CHD TF budget authority. The categories used for the amendment realigned budget from the Salaries category to Other Personal Services and the Primary Care special category. This issue requests realignment from Salaries to Contracted Services. The Contracted Services category is the most appropriate category for these services.

Please see companion issue #6400810.

AGENCY ISSUE NARRATIVE:

2009-2010 BUDGET YEAR NARRATIVE: IT COMPONENT? NO

This technical issue requests the transfer of \$338 of budget authority from the "Transfer to Department of Management Services, Human Resource Services, Statewide Contract" category (107040) and \$500,000 Community Health Initiatives category (052250), County Health Department Trust Fund, 13.06.01.00.00 Local Health Needs program component to the 13.06.00.00.00 County Health Department program component.

There are two program components within the County Health Departments Local Health Needs budget entity. The 13.06.00.00.00 program component is used for the County Health Department Trust Fund operating budget authority. The 13.06.01.00.00 program component is used for the General Revenue and Tobacco Settlement Trust Fund appropriations that transfer cash to the counties (050329 category), provide funding for Minority Health Initiatives (050310 category) or fund legislative member projects (100778 category).

Please see companion issue #160P020.

AGENCY ISSUE NARRATIVE:

2009-2010 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

This issue requests a change in Fund Source Indicator (FSI) for General Revenue in the County Health Department Local Health Needs budget entity.

Of the budget authority in the G/A Minority Health Initiative category, \$320,157 is not being used as state match and therefore the FSI needs to be changed from a FSI 2-State Match to a 1-State Non-Match.

Budget authority in the Contribution to County Health Unit category is being used as state match and Maintenance of Effort (MOE) for the grants listed below. Therefore the FSI needs to be changed from a 1-State Non-Match to a 2-State Match, which can now be used to indicate MOE as well as state match.

Abstinence Education Block Grant	\$ 1,891,186
Breast and Cervical Cancer	\$ 1,083,665
National Cancer Registry	\$ 340,341
Ryan White	\$ 9,026,990
Maternal and Child Health Block Grant	\$103,415,422
Family Planning	\$ 45,105,546
Immunization	\$ 6,207,371

ESTIMATED EXPENDITURES				1600000
GENERAL REVENUE FUND REVIEW-DEDUCT				160S150
Total 050329		\$167,070,521		

The Contribution to County Health Units category, General Revenue funding is used to support the double budget in the County Health Department Local Health Needs budget entity, County Health Department Trust Fund. The FSI for both funds should reflect 2-State Match. (See issue #160S030 and #160S040)

Budget authority in the G/A Contracted Services category is used as state match for the Breast and Cervical Cancer grant (\$172,800) and Maintenance of Effort (MOE) for the Preventive Health Services Block Grant (\$306,413). Therefore the FSI needs to be changed from a 1-State Non-Match to a 2-State Match, which can now be used to indicate MOE as well as state match.

Please see companion issue #160S160 in the County Health Department Local Health Needs budget entity.

AGENCY ISSUE NARRATIVE:

2009-2010 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

This issue requests the transfer of the Minority Health Initiative program from the County Health Department Local Health Needs budget entity to the Office of Minority Affairs within the Administrative Support budget entity.

The Office of Minority Affairs manages the Minority Health Initiative (Closing the Gap) program and this transfer would move the program to the organizationally appropriate budget entity.

The "Closing the Gap" program was designed to eliminate racial and ethnic health disparities in Florida. It provides grants to local counties and organizations with the intent to increase community-based health promotion and disease prevention activities which targets seven areas that racial and ethnic groups currently experience serious disparities in access to care and health outcomes. The seven areas are: Cardiovascular Disease, Cancer, Diabetes, HIV/AIDS, Maternal and Infant Mortality, Immunizations for Children and Adults, and Oral Health.

TRANSFER BUDGET AUTHORITY BETWEEN				
CATEGORIES - DEDUCT				6400800

Community Health Initiatives (052250) category.

The department's intention is to move the budget authority of the legislative member projects not associated with a specific program office and other health initiative funding that has historically been given to the county health departments and keep the 050329 category in the 64200700 budget entity strictly for the transfer of "non-categorical" cash. (Please see issue 1801100 and 1801110 for the transfer of specific program office member projects.)

The projects and initiatives are:

	CURRENT	PROPOSED	AMOUNT
Citizens Against Toxic Exposure (CATE)	64200700, 100778	64200700, 052250	\$259,200

TRANSFER BUDGET AUTHORITY BETWEEN						
CATEGORIES - ADD						6400810

The department's intention is to move the budget authority of the legislative member projects not associated with a specific program office and other health initiative funding that has historically been given to the county health departments and keep the 050329 category in the 64200700 budget entity strictly for the transfer of "non-categorical" cash. (Please see issue 1801100 and 1801110 for the transfer of specific program office member projects.)

The projects and initiatives are:

	CURRENT	PROPOSED	AMOUNT
Citizens Against Toxic Exposure (CATE)	64200700, 100778	64200700, 052250	\$259,200
Manatee County Rural Health Services	64200700, 100778	64200700, 052250	\$104,845
Medivan	64200700, 100778	64200700, 052250	\$ 17,474
La Liga Contra el Cancer	64200700, 050329	64200700, 052250	\$900,000
Special Needs Shelter Program	64200700, 050329	64200700, 052250	\$405,000
Duval Teen Pregnancy Prevention	64200700, 050329	64200700, 052250	\$ 82,505
Metropolitan Orlando Urban League	64200700, 050329	64200700, 052250	\$ 84,097

AGENCY ISSUE NARRATIVE:

2009-2010 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

This issue requests the transfer of budget authority provided by the Lapse and Fund Split Table in the Contribution to County Health Units (050329) category, County Health Department Trust Fund (CHD TF) to the Contracted Services (100777) category.

The 050329 category is used to transfer cash into the CHD TF. CHD TF budget authority in the 050329 transfer category should not be used to process operating expenditures.

AGENCY ISSUE NARRATIVE:

2009-2010 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

This issue requests a change in Fund Source Indicator (FSI) for General Revenue in the Statewide Public Health Support Services budget entity.

Budget authority in the Salaries and Benefits category is used as state match for the Public Health Preparedness and Response for Bioterrorism grant. Therefore the FSI needs to be changed from a 1-State Non-Match to a 2-State Match.

Please see companion issue #160S160 within the Statewide Public Health Support Services budget entity.

AGENCY ISSUE NARRATIVE:

2009-2010 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

This issue requests a change in Fund Source Indicator (FSI) for General Revenue in the Statewide Public Health Support Services budget entity.

Budget authority in the Salaries and Benefits category is used as state match for the Public Health Preparedness and Response for Bioterrorism grant. Therefore the FSI needs to be changed from a 1-State Non-Match to a 2-State Match.

Please see companion issue #160S150 within the Statewide Public Health Support Services budget entity.

AGENCY ISSUE NARRATIVE:

2009-2010 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

This issue requests the transfer of an Operations and Management Consultant II (OMCII) - SES position between budget entities. This position is currently assigned within the Statewide Health Support Services budget entity's Office of Public Health Preparedness (PHP). However, it has been out-posted to the Bureau of Revenue Management for several years to handle all grant management and reporting requirements at the state and federal levels for all PHP grants. The duties and responsibilities of this OMCII position have evolved to now include other various department wide activities and are no longer restricted to just those of PHP. It is in the best interest of the department to move this position and all rate, salary and benefits and human resource services appropriations associated with it to the Administrative Support budget entity to avoid non-compliance with federal grant regulations.

Please reference issue #1800960 in Executive Direction and Support.

FLORIDA TRAUMA REGISTRY UPGRADE						36318C0

Florida Trauma Registry (FTR) required under s395.40FS. The improvements will increase system functionality bringing its level of data comprehensiveness and utilization capability inline with national information requirements, help meet departmental needs and improve cross-agency usage with the Agency for Health Care Administration (ACHA). Enhancements will also allow the department to substantially improve data sharing and rapid data access with nearly real-time availability. This project includes \$55,000 for the purchase of two servers with maintenance(\$27,500 each); \$12,000 for new computers (10 at \$1,200 each); \$81,300 for new system software, travel and miscellaneous expenses; \$ 326,700 for temporary contract staff necessary for the conversion of system software and its testing upon completion.

The Florida Trauma Care Act of 1987 mandated that the FTR collect specific trauma case data from verified trauma centers and other facilities as necessary. The FTR was migrated from a paper based system to an electric database in 2002 using software specific programming which has become obsolete and is no longer compatible with approximately 25% of trauma center systems. Due to extensive manual processes conducted to make gathered data compatible with end-user systems, the FTR does not allow for real-time data sharing. The system currently only summarizes data annually and does not allow for extensive data manipulation necessary to fulfill user's needs.

FTR system upgrades are essential for DOH in the timely reporting of current state data to the National Trauma Data Bank; fully responding to increasing complex legislative inquires, media requests, request for data related to research and trauma prevention; pre-site visit requirements; new rule and regulation monitoring requirements; and to improve internal processes used to make legislated court fine payments to trauma centers. Currently, annual direct system maintenance costs for the FTR are approximately \$3,500. The Bureau of Trauma estimates that future costs will remain the same and can be absorbed in the base budget.

AGENCY ISSUE NARRATIVE:

2009-2010 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

The Department of Health (DOH) contracted for services in a limited capacity for several years. The Auditor General's Office first questioned this practice in a 2004 audit. The Auditor General's findings stated "FDOH contracted with State universities and a community college to provide staffing to administer grant activities under FDOH direction rather than using authorized positions or outsourcing. FDOH did not use competitive procurement methods when establishing the contractual arrangements". Although DOH challenged this finding, an Intent to Negotiate (ITN) was issued to procure support services. As a result, Nitelines USA and Tallahassee Community College (TCC) were awarded the contracts, as the most prudent and economical option to meet DOH legislative mandates outlined in Florida Statutes (20.43, 381.001 and 391.016).

Currently, DOH contracts with Nitelines USA (a private, for-profit, employment agency), Tallahassee Community College and the University of Florida for most of its contracted positions. Subsequent audits by the Auditor General's Office stated that DOH continued to utilize contract services to administer DOH grant activities although it had not identified expressed statutory authority to do so. DOH has responded repeatedly, with legal counsel advice, that DOH has the lawful authority to contract for staff.

In addition to their past findings, the Auditor General's Office has recently directed DOH to determine, as a matter of law, whether DOH's initiation of staffing contracts bypass limitations imposed by the Florida Legislature. The U.S. Department of Health and Human Services (HHS) also conducted an independent audit and requires DOH to obtain clarification from another state authorized entity for a final determination {Department of Management Services (DMS)}. If this issue is not resolved, DOH will be required to pay funds back to the respective federal agency for the two grants recently audited and all other federal grants with contracted staff hired as outlined above. This potentially amounts to over \$25 million.

TIME EQUIVALENT POSITIONS - DEDUCT				6400700

Additionally, many of the agency's services to Florida's public health system would have to be terminated. This termination may affect the day-to-day operation of many established programs, such as public health preparedness and family health services. Although DOH believes it has the authority to contract for services and has requested clarification from DMS, DOH feels that it should take a proactive approach to resolve this situation while also reducing cost by establishing FTEs.

The Department of Health requests a shift from contracted services to salaries and benefits, along with the appropriate full-time equivalent positions (FTEs) and approved rate. The issues to convert 173.50 positions are in several budget entities and funding sources. The total issue nets to a cost savings of over \$500,000. This savings does not include the additional administrative costs and time required by DOH staff to administer, monitor and manage the contracts.

AGENCY ISSUE NARRATIVE:

2009-2010 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

This issue requests a change in Fund Source Indicator (FSI) for General Revenue in the Statewide Public Health Support Services budget entity.

Of the budget authority in the Drugs, Vaccines and Biologicals category that is a FSI 2-State Match, only \$5,500,000 is being used as state match for the Ryan White grant. Therefore the FSI needs to be changed from a 2-State Match to a 1-State Non-Match for the remainder of \$2,500,000.

Please see companion issue #160S160 in the Statewide Public Health Support Services budget entity.

AGENCY ISSUE NARRATIVE:

2009-2010 BUDGET YEAR NARRATIVE: IT COMPONENT? NO

This issue requests a change in Fund Source Indicator (FSI) for General Revenue in the Statewide Public Health Support Services budget entity.

Budget authority in the Salaries and Benefits category is used as state match for the Public Health Preparedness and Response for Bioterrorism grant. Therefore the FSI needs to be changed from a 1-State Non-Match to a 2-State Match.

Of the budget authority in the Expenses category, only \$33,600 is used as state match for the Ryan White grant. Therefore the FSI needs to be changed from a 2-State Match to a 1-State Non-Match for the remainder of \$106,414.

Budget authority in the Contracted Services category is used as state match for the Ryan White grant. Therefore the FSI needs to be changed from a 1-State Non-Match to a 2-State Match.

Please see companion issue #160S160 within the Statewide Public Health Support Services budget entity.

AGENCY ISSUE NARRATIVE:

2009-2010 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

The Department of Health (DOH) is requesting \$326,900 in recurring expenses authority to support the federally funded African American Testing Initiative (AATI) program within the Bureau of Laboratory Services. This funds will be used to provide supplies and services necessary for testing samples. DOH received this award September 30, 2007. Since the grant was received during a fiscal year and lapse in start up of the grant, existing authority was used to fund the initiatives.

This initiative expands testing for the human immunodeficiency virus(HIV), in clinical settings, for members of the African-American population at risk for HIV. Persons of this population are often diagnosed late in the course of their infection. The program goal is to increase testing by 150,000 at-risk persons in the first year and estimates that approximately 2,000 test results will be confirmed positive for HIV. A variety of clinical and non-clinical sites across the state are participating in this testing program, including hospitals, community health centers and community-based organizations.

Please reference issue #430090 in Community Public Health, Infectious Disease Control.

AGENCY ISSUE NARRATIVE:

2009-2010 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

The Department of Health (DOH) contracted for services in a limited capacity for several years. The Auditor General's Office first questioned this practice in a 2004 audit. The Auditor General's findings stated "FDOH contracted with State universities and a community college to provide staffing to administer grant activities under FDOH direction rather than using authorized positions or outsourcing. FDOH did not use competitive procurement methods when establishing the contractual arrangements". Although DOH challenged this finding, an Intent to Negotiate (ITN) was issued to procure support services. As a result, Nitelines USA and Tallahassee Community College (TCC) were awarded the contracts, as the most prudent and economical option to meet DOH legislative mandates outlined in Florida Statutes (20.43, 381.001 and 391.016).

Currently, DOH contracts with Nitelines USA (a private, for-profit, employment agency), Tallahassee Community College and the University of Florida for most of its contracted positions. Subsequent audits by the Auditor General's Office stated that DOH continued to utilize contract services to administer DOH grant activities although it had not identified expressed statutory authority to do so. DOH has responded repeatedly, with legal counsel advice, that DOH has the lawful authority to contract for staff.

In addition to their past findings, the Auditor General's Office has recently directed DOH to determine, as a matter of law, whether DOH's initiation of staffing contracts bypass limitations imposed by the Florida Legislature. The U.S. Department of Health and Human Services (HHS) also conducted an independent audit and requires DOH to obtain clarification from another state authorized entity for a final determination {Department of Management Services (DMS)}. If this issue is not resolved, DOH will be required to pay funds back to the respective federal agency for the two grants recently audited and all other federal grants with contracted staff hired as outlined above. This potentially amounts to over \$25 million.

Additionally, many of the agency's services to Florida's public health system would have to be terminated. This termination may affect the day-to-day operation of many established programs, such as public health preparedness and family health services. Although DOH believes it has the authority to contract for services and has requested clarification from DMS, DOH feels that it should take a proactive approach to resolve this situation while also reducing cost by establishing FTEs.

The Department of Health requests a shift from contracted services to salaries and benefits, along with the appropriate full-time equivalent positions (FTEs) and approved rate. The issues to convert 173.50 positions are in several budget

AGENCY ISSUE NARRATIVE:

2009-2010 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

The Department of Health (DOH) requests that \$244,928 of unfunded budget authority in the Preventative Health Services Block Grant Trust Fund (PHSBGTF) be shifted to the Planning and Evaluation Trust Fund (P&ETF) in the Statewide Health Support Services budget entity.

Over the last two years, in order to prevent any potential federal audit criticism, the department transferred five positions funded by the PHSBGTF to the P&ETF. This action was precipitated by the federal program insisting that any positions funded by the Preventive Health Services Block Grant be fully dedicated to that program. This was difficult to achieve in administrative offices because the positions support all programs in the department.

The P&ETF still has sufficient cash to fund the positions, but there is not adequate appropriation to cover these costs. As a result of the positions' salaries and expenses being shifted to the P&ETF, the unfunded PHSBGTF appropriation is requested in the P&ETF. This action will avoid the processing of budget amendments and transferring expenditures to other sources. (Recent reductions to General Revenue contributed to the lack of available budget.)

AGENCY ISSUE NARRATIVE:

2009-2010 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

The Department of Health (DOH) requests \$371,718 in the Planning and Evaluation Trust Fund authority in the Statewide Public Health Services budget entity to train users in the use of the Electronic Death Registration System (EDRS). As a result of several federal initiatives associated with the intelligence reform and Real ID Acts, the Social Security Administration (SSA) has placed a high priority on Electronic Death Registration System initiatives throughout the country.

Completion of EDRS training throughout the state is a three year project to be completed in fiscal year 2011-12 that will entail training of Florida's 24 medical examiner districts, which include 1,283 funeral homes and staff, about 800 online physicians and staff, and over 40,000 licensed physicians who will be potential offline users of the system. In addition, hundreds of hospital staff, hospice facility staff and possibly nursing home staff will also directly access the system to allow resident physicians to enter cause of death information into the EDRS. If not approved, Vital Statistics will not be able to implement the system beyond pilot, training of potential users will not be accomplished, and help desk and support availability for users will be restricted.

Two existing Vital Statistics staff will be used to introduce the system to users. In addition, two contract training staff requested to provide a regional training approach, by medical examiner district. The number of days needed to bring up a district will vary, depending on the size and the number of users in the district. Funds will be needed for trainer travel expense, costs incurred for training sites where needed, staff time to develop a training program and training materials. Funding for contract trainers and travel expense will be needed to assist with statewide implementation. These funds will also be used to expand the help desk/call center coverage and support for ongoing maintenance. Currently, there is not adequate staffing or funding to handle training and address user service calls.

TRAINING AND HELP DESK SUPPORT FOR				
ELECTRONIC DEATH REGISTRY SYSTEM				6400340

EDRS is statewide and implantation will allow the 67 county health departments access to electronic death records for issuance of certificates within days of death. The system will also provide more timely cause-of-death data for public health officials. In the event of a public health treat, disease or disaster, the timelier filing will provide important health data to DOH and centers for Disease Control (CDC).

AGENCY ISSUE NARRATIVE:

2009-2010 BUDGET YEAR NARRATIVE: IT COMPONENT? NO  
 This issue requests a change in Fund Source Indicator (FSI) for General Revenue in the Children's Special Health Care budget entity.

Budget authority in the G/A CMS Network category is used as Maintenance of Effort (MOE) for the Maternal and Child Health Block Grant and budget authority in the G/A DEI Services Part C category is used as MOE for the Early Steps program. Therefore the FSI needs to be changed from a 1-State Non-Match to a 2-State Match, which can now be used to indicate MOE as well as state match.

Please see companion issue #160S160 within the Children's Special Health Care budget entity.

AGENCY ISSUE NARRATIVE:

2009-2010 BUDGET YEAR NARRATIVE:

IT COMPONENT? YES

The Department of Health, Children's Medical Services (CMS) Program, requests \$2,609,600 for development and implementation of claims processing and data management systems by outside contracted vendors.

Children's Medical Services provided statewide targeted medical services to 110,736 special needs children (under the age of 21) during FY 2007-08. The CMS Network coordinates the provision of medical services and payments for children whose serious or chronic physical or developmental conditions require extensive preventative and maintenance care that is well above or outside that required by healthy children. These services are paid for using a combination of Title XIX (Medicaid), Title XXI (KidCare), federal Individuals with Disabilities Education Act (IDEA) Part C (Early Steps) and Safety Net funding sources.

The present claims processing and data management systems are over 20 years old, not Health Insurance Portability and Accountability Act (HIPAA) compliant, and do not operate at the levels necessary to support Title XIX, Title XXI, or Safety Net billing and reimbursement processes effectively and comply with federal regulations concerning the expenditures and use of federal funds. In addition, there is a need to absorb the claims payment processes currently managed by local Early Step agencies to assure accuracy and compliance with federal requirements. The current CMS payment and data software cannot be modified to meet these needs. The need for an improved system for this program has been addressed by the Office of Program Policy Analysis and Government Accountability (OPPAGA) and the Auditor General.

The CMS Case Management Data System (CMDS) is the tool currently used by the 21 CMS Area Offices and CMS Central Office to process medical provider billings for warrant issue by the Florida Department of Financial Services (DFS). The system is not centralized, but rather a stand-alone procedure at each of the 21 CMS Area Offices. It is also being used by a majority of the Primary Care Contractors that provide primary care service and case management for CMS.

This lack of centralization of information creates problems with client information duplication, information sharing and statewide data reporting and analysis. Essentially, most of the features have not changed as the business needs of CMS have changed. It is a distributed system without centralization. Other functions are provided by a patchwork of support systems, but by in large, the work routines are heavily human dependent and use antiquated technologies.

The focus of the CMS Infrastructure Development Project is to improve and stabilize client claims processing and data

management systems that are necessary to operate a statewide managed care network administered and directed by the CMS Network. The CMS Infrastructure Development Project will lay the groundwork for the creation of a "virtual" statewide Health Maintenance Organization / Preferred Provider Organization (HMO/PPO) operation for children with special needs. This project will eventually replace the current CMS-IS applications and include modules for 1. Provider management, eligibility and enrollment and electronic imaging, 2. Claims processing and 3. Clinic management and care coordination. The project received an appropriation of \$565,072 in FY 2006-07 and \$1,814,400 in FY 2007-08. The planning process is complete; the on-line internet based provider management system is complete; and electronic imaging/tracking of closed CMS patient records is complete. An Invitation to Negotiate has been developed to procure a Third Party Administrator (TPA) and is ready to be issued when an appropriation is provided. The amount requested (\$2,609,600) will be used to procure the initial design, development, testing, and implementation for a TPA to begin processing payments for CMS. By the end of FY 2009-10, the TPA will process CMS Title XXI and Title XIX claims. During the following year (FY 2010-11), funding will be requested (\$1.6 million) for completion of the development, testing and implementation of claims payment for Purchased Client Services and Early Steps. The TPA will also implement clinic scheduling and care coordination software. Should the project be implemented, any ongoing annual maintenance costs will be based on a per claim or per enrollee charge and be paid from existing appropriations.

The benefits of the new CMS Infrastructure Project are as follows:

- Centralize CMS information and promote statewide uniformity of business process
- Automate current business processes that have little or no automation
- Consolidate three different systems for claims processing into a single automated solution
- Provide effective reporting of business performance measurements
- Promote quality of care for children through automation of manual processes and administrative efficiencies
- Provide an automated integration with external systems for managing Eligibility and Enrollment information
- Provide the ability to generate management reports from a centralized information system
- Provide the ability for all CMS offices to share a single repository for all provider information
- Provide a single authoritative repository for provider information from which to pay for health care services
- Automate the process of capturing client medical assessment and care coordination information
- Automate the linkage between fiscal payment processes and benefit structures that dictate what benefits are to be paid
- Provide timely and accurate management reporting of client care coordination information
- Utilize new technologies that allow integration with internet protocols
- Comply with HIPAA requirements

If this issue is not approved:

1. The project will not move forward. With Medicaid reform and current federal Title XIX and XXI requirements, there has been growth in the number of CMS patients and corresponding claims. The current CMS-IS application has difficulty with the current workload.
2. CMS would continue to operate 22 separate and distinct applications and multiple databases and not be able to

AGENCY ISSUE NARRATIVE:

2009-2010 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

This issue requests additional funding of \$3,600,000 for multidisciplinary services, follow-up activities and community education services for children who are alleged to have been abused or neglected. Section 39.303, Florida Statutes, requires the Department of Health to provide a statewide system of medically led, multidisciplinary Child Protection Teams. The teams are mandated to provide multidisciplinary evaluation and assessment services to all children meeting referral criteria. Teams support the protective supervision activities of the Department of Children and Family Services.

The teams do not see all children alleged to have been abused as mandated because they lack resources to conduct appropriate follow-up activities. In 2007, 38% of abuse reports that met the mandatory referral criteria were not seen by the teams. The teams are often unable to provide the complete array of multidisciplinary services cited in statute (medical evaluations, medical consultations, family psychosocial interviews, specialized clinical interviews, or forensic interviews). Medical assessments comprise 42% of all services provided by Child Protection Teams and forensic or specialized interviews account for 51% of services. Social assessments and psychological assessments make up the remaining 7%. In 2007, the teams served 28,410 children. This is an average 5% increase over the past 3 years. Additional funding is essential to continue to provide direct client services to these children and their families.

Teams are required to provide training services for protective supervision and other employees of the Department of Children and Family Services, Department of Health and other medical professionals to enable them to develop and maintain their professional skills and abilities in handling child abuse cases. They also provide educational and community awareness campaigns. These services are severely limited because of scarce resources. This may be one reason why

PROTECTION TEAMS						5300050

Florida has seen a continuing rise in the incidence rate (per thousand) of child abuse from 21.5 in 2000 to 29.4 in 2007.

The additional funding will allow the teams to provide multidisciplinary services and follow-up activities to mandated children and provide community education activities. Teams will be able to serve approximately 50% of the unseen mandated children through contracts with community providers. This equates to an additional 3,382 children served. The additional funding will be used to provide the following services:  
 Assessments for new children needing services - 3,382 at \$621 each (average) - approximately \$2,100,000  
 Additional assessments for children receiving services - 9,950 at \$150 each (average) - approximately \$1,500,000

Base funding for the Child Protection Teams totals \$17,632,314 (\$11,869,019 General Revenue and \$5,763,295 Social Services Block Grant).

AGENCY ISSUE NARRATIVE:

2009-2010 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

The Department of Health requests \$3,000,000 of recurring budget authority for the federally funded Early Steps Program so that it can provide additional early intervention services that can be supported by unspent grant cash from prior years. The Early Steps Program serves Florida's infants and toddlers birth to 36 months with a developmental delay or a condition that places them at risk for developmental delay. The program served 38,355 clients during calendar year 2007. Early Steps is administered by Children's Medical Services (CMS) in accordance with Part C of the federal Individuals with Disabilities Education Act (IDEA). Sixteen contracted local Early Steps providers coordinate with community agencies and other providers for the delivery of needed support and services.

Over the past several years, the Early Steps Program has consistently had more cash available from the grant award than budget authority to spend it. The Office of Program Policy Analysis and Government Accountability (OPPAGA) noted in its report on Early Steps that the department should request budget authority to spend all available federal funds. For FY 2008-09, the program has the following budget allocations (all categories) and grant awards:

\* Salaries, OPS, Expenses, DEI-Part C, HR Contract  
 \*\* DEI-Part C only

Additional recurring budget authority of \$3,000,000 is needed in order to have the capability to spend roll forward grant awards or accommodate an increase in grant award. Contract providers for this program have been unpredictable when requesting payment for services given to CMS clients. This can cause difficulty in aligning services rendered and expenditures to the same fiscal year and will also cause grant award to be available for the next budget cycle. A recurring budget cushion should accommodate the fiscal uncertainty and OPPAGA's concerns as well. Since FY 2004-05, the Early Steps Program has received the following budget adjustments (rounded):

- FY 2004-05: non-recurring budget amendment for \$4.0 million
- FY 2005-06: recurring appropriation for \$2.0 million
- FY 2005-06: non-recurring budget amendment for \$3.1 million
- FY 2006-07: non-recurring budget amendment for \$.25 million
- FY 2007-08: non-recurring appropriation for \$1.6 million
- FY 2007-08: non-recurring budget amendment for \$.25 million
- FY 2008-09: non-recurring appropriation for \$3.0 million

In the Family Health Outpatient and Nutrition Services budget entity \$2,071,588 is used to support the Ounce of Prevention program whose purpose is to reduce infant mortality per 1,000 live births. Innovative public and private projects are funded to strengthen individual, family and community capacities to raise healthy, competent, productive and caring children and to prevent family dysfunction in at-risk families by providing support services with a focus on adolescent pregnancy prevention and parenthood. \$2,000,000 is used for the Abstinence program whose purpose is to educate teens on the consequences of sexual activity outside marriage, such as teen pregnancy and sexually transmitted diseases, while also teaching improved decision making, problem solving skills and building self-confidence.

In the Children's Special Health Care budget entity \$3,800,000 is used to support the Early Steps program whose purpose is to provide a coordinated system of early intervention services for infants and toddlers, from birth until age 3, who have a developmental delay or an established condition that places them at high risk for developmental disabilities. The program provides assessments, early intervention and support services, home visits, parent training, service coordination/case management and family support planning.

AGENCY ISSUE NARRATIVE:

2009-2010 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

The Department of Health (DOH) contracted for services in a limited capacity for several years. The Auditor General's Office first questioned this practice in a 2004 audit. The Auditor General's findings stated "FDOH contracted with State universities and a community college to provide staffing to administer grant activities under FDOH direction rather than using authorized positions or outsourcing. FDOH did not use competitive procurement methods when establishing the contractual arrangements". Although DOH challenged this finding, an Intent to Negotiate (ITN) was issued to procure support services. As a result, Nitelines USA and Tallahassee Community College (TCC) were awarded the contracts, as the most prudent and economical option to meet DOH legislative mandates outlined in Florida Statutes (20.43, 381.001 and 391.016).

Currently, DOH contracts with Nitelines USA (a private, for-profit, employment agency), Tallahassee Community College and the University of Florida for most of its contracted positions. Subsequent audits by the Auditor General's Office stated that DOH continued to utilize contract services to administer DOH grant activities although it had not identified expressed statutory authority to do so. DOH has responded repeatedly, with legal counsel advice, that DOH has the lawful authority to contract for staff.

In addition to their past findings, the Auditor General's Office has recently directed DOH to determine, as a matter of law, whether DOH's initiation of staffing contracts bypass limitations imposed by the Florida Legislature. The U.S. Department of Health and Human Services (HHS) also conducted an independent audit and requires DOH to obtain

clarification from another state authorized entity for a final determination {Department of Management Services (DMS)}. If this issue is not resolved, DOH will be required to pay funds back to the respective federal agency for the two grants recently audited and all other federal grants with contracted staff hired as outlined above. This potentially amounts to over \$25 million.

Additionally, many of the agency's services to Florida's public health system would have to be terminated. This termination may affect the day-to-day operation of many established programs, such as public health preparedness and family health services. Although DOH believes it has the authority to contract for services and has requested clarification from DMS, DOH feels that it should take a proactive approach to resolve this situation while also reducing cost by establishing FTEs.

The Department of Health requests a shift from contracted services to salaries and benefits, along with the appropriate full-time equivalent positions (FTEs) and approved rate. The issues to convert 173.50 positions are in several budget entities and funding sources. The total issue nets to a cost savings of over \$500,000. This savings does not include the additional administrative costs and time required by DOH staff to administer, monitor and manage the contracts. Please refer also to issue number 6400710.

AGENCY ISSUE NARRATIVE:

2009-2010 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

This request is to convert four full-time Other Personal Services (OPS) positions to four full-time equivalent (FTE) career service positions.

The Division of Medical Quality Assurance (MQA) Investigative Services Unit (ISU) investigates complaints against health care practitioners/facilities, conducts annual inspections of pharmacies and dispensing practitioners, and performs related quality assurance, performance measurement and process improvement activities. The MQA's Compliance Management Unit (CMU) is responsible for monitoring disciplinary final orders and citations entered against health care licensees statewide. Due to a steady increase in the disciplinary enforcement workload and additional statutory mandates, work units are relying on OPS positions to meet performance standards, quality assurance and statutory requirements.

Workload Analysis

Senior Pharmacist inspectors must have pharmaceutical expertise to discover violations that a lay inspector may not find during a routine inspection. They are expected to educate working pharmacists and fellow investigators everyday on

highly technical pharmacy laws, rules and policy to ensure that the public will continue to be able to safely purchase and receive medications.

Workload: Inspections = 1,262  
 Time to process one application: = 3 hrs.  
 Total hrs. required to accomplish workload: = 1,262 X 3 hrs. = 3,786  
 Number of FTEs required: 3,786 hours / 1,854 hrs. = 2.04 FTE

The growing volume and complexity of institutional and special pharmacy inspection requirements and the knowledge necessary to efficiently complete inspections independently does not lend itself to using temporary staffing. Two FTE career service positions are requested to replace the two OPS positions.

An OPS Government Analyst I position is currently used to lead the unit's quality assurance program, develop performance measures and manage the process improvement needs of 156 ISU staff performing an increasing workload. In FY 06-07, 8,098 investigative reports (IR) were completed; 3,217 supplemental investigative reports were completed; 248 Emergency Orders were served; and 2,925 other process services were completed and documented. Due to increased volume and statutory administrative requirements the unit's average percentage rate of compliance with the 90-day completion of investigations declined from 97.97% in FY 04-05 to 90.41% in FY 06-07 while the number of supplemental requests has increased. Due to numerous tasks that this position performs workload analysis by task is difficult. One FTE career service position is requested to replace one OPS position.

Through active monitoring, the Compliance Officers provide direct services and support to licensees who have received a citation or been disciplined. This includes non-disciplinary citations, a form of alternative dispute resolution that is used for minor administrative violations to avoid the more costly disciplinary process required under s. 456.073, F.S. The number of final orders and citations has steadily increased over the past three years, going from 4,007 final orders and citations tracked during fiscal year 2005-06 to 5,900 during fiscal year 2007-08. An OPS Regulation Specialist II has been used to assist in managing this workload.

Workload: Final order/citations = 5,847  
 Time to process one application: = .30 hrs.  
 Total hrs. required to accomplish workload: = 5,847 X .30 hrs. = 1,754  
 Number of FTEs required: 1,754 hours / 1,854 hrs. = .95 FTE

This position has been filled six times within the last three years. The turnover, combined with the lengthy training necessary for an employee to be productive in this position, significantly hinders the productivity of this unit. One FTE career service position is requested to replace one OPS position.

Appropriation for four positions - two Senior Pharmacists, one Government Analyst I, and one Regulatory Specialist II is requested to replace existing Other Personal Services (OPS) staff. The Senior Pharmacist positions are being requested at their pay grade maximum as recruitment for pharmacists is impossible at the pay grade minimum. The Government Analyst

I and Regulatory Specialist II positions are being requested at 10% above the pay grade minimum as recruitment for qualified personnel is difficult at the pay grade minimum. \$199,000 in OPS appropriation can be eliminated if this appropriation is received. The Department of Health standard Expenses and Operating Capital Outlay package is not being requested for these positions.

The net amount of Medical Quality Assurance Trust Fund appropriation requested, after deducting \$199,000 in OPS, is \$99,097.

AGENCY ISSUE NARRATIVE:

2009-2010 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

This request is to convert seven Other Personal Services (OPS) positions to five full-time career service positions. (Some of the OPS work part-time, with all seven's hours equivalent to 5.25 full-time equivalent (FTE)).

The Board of Nursing (Board) in the Division of Medical Quality Assurance (MQA) utilizes seven OPS positions to set-up and complete over 70,000 application files annually. These files include fingerprints cards that have to be scanned and electronically routed to the Florida Department of Law Enforcement. Results either clear applicants for licensure or create "hits" that require additional time to research to ensure applicants are not unfairly barred from licensure. Many of these files have to be referenced and handled numerous times. Since 2002 the number of in-state nursing schools has grown from 93 to 172, with a resulting number of applicants growing from 10,143 to over 15,000. The reliance on OPS positions has had significantly negative affect on this office's productivity. More than 40 OPS employees have filled these positions over the last seven years. The turnover causes loss of production because there are constant vacancies and the training of new employees is a lengthy process. The Board office has experienced a relatively low turnover rate in similar career service positions.

	COL A03	COL A04	COL A05	
	AGY REQUEST	AGY REQ N/R	AG REQ ANZ

<u>REGULATION AND LICENSING</u>				<u>1204.00.00.00</u>
MEDICAL QUALITY ASSURANCE				4600000
BOARD OF NURSING STAFFING				4600190

Workload Analysis

Workload: Inspections = 70,000  
 Time to process one application: = .15 hrs.  
 Total hrs. required to accomplish workload: = 70,000 X .15 hrs. = 10,500  
 Number of FTEs required: 10,500 hrs. / 1,854 hrs. = 5.66 FTE

It is anticipated that with less turnover experienced with career service positions as opposed to OPS positions, productivity will be higher and that five career service positions will be able to process the 70,000 records.

Appropriation for five positions - four Regulatory Specialist I, and one Regulatory Specialist II, is requested at 10% above the base salary for the pay grade as recruitment for qualified personnel is difficult at the pay grade minimum. \$114,000 in OPS appropriation can be reduced if this appropriation is received. The DOH standard Expenses and Operating Capital Outlay package is not being requested.

The net amount of Medical Quality Assurance Trust Fund appropriation requested, after deducting \$114,000 in OPS, is \$108,433.

AGENCY ISSUE NARRATIVE:

2009-2010 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

This issue requests a change in Fund Source Indicator (FSI) for the Brain and Spinal Cord Injury Rehabilitation Trust Fund in the Community Health Resources budget entity.

Budget authority in the administrative categories of Salaries, Expenses and Contracted Services has been identified with the Brain and Spinal Cord Injury Home and Community Based Services Medicaid Waiver administrative claiming which has a 50% state match. The FSI needs to be changed from a 1-State Non-Match to a 2-State Match and 3-Federal.

Budget authority in the Purchased Client Services category is no longer associated with the waiver since receiving a new category specifically for the waiver. The FSI of 2 and 3 that is remaining in the Purchased Client Services category needs to be changed to a 1.

universities and a community college to provide staffing to administer grant activities under FDOH direction rather than using authorized positions or outsourcing. FDOH did not use competitive procurement methods when establishing the contractual arrangements". Although DOH challenged this finding, an Intent to Negotiate (ITN) was issued to procure support services. As a result, Nitelines USA and Tallahassee Community College (TCC) were awarded the contracts, as the most prudent and economical option to meet DOH legislative mandates outlined in Florida Statutes (20.43, 381.001 and 391.016).

Currently, DOH contracts with Nitelines USA (a private, for-profit, employment agency), Tallahassee Community College and the University of Florida for most of its contracted positions. Subsequent audits by the Auditor General's Office stated that DOH continued to utilize contract services to administer DOH grant activities although it had not identified expressed statutory authority to do so. DOH has responded repeatedly, with legal counsel advice, that DOH has the lawful authority to contract for staff.

In addition to their past findings, the Auditor General's Office has recently directed DOH to determine, as a matter of law, whether DOH's initiation of staffing contracts bypass limitations imposed by the Florida Legislature. The U.S. Department of Health and Human Services (HHS) also conducted an independent audit and requires DOH to obtain clarification from another state authorized entity for a final determination {Department of Management Services (DMS)}. If this issue is not resolved, DOH will be required to pay funds back to the respective federal agency for the two grants recently audited and all other federal grants with contracted staff hired as outlined above. This potentially amounts to over \$25 million.

Additionally, many of the agency's services to Florida's public health system would have to be terminated. This termination may affect the day-to-day operation of many established programs, such as public health preparedness and family health services. Although DOH believes it has the authority to contract for services and has requested clarification from DMS, DOH feels that it should take a proactive approach to resolve this situation while also reducing cost by establishing FTEs.

The Department of Health requests a shift from contracted services to salaries and benefits, along with the appropriate full-time equivalent positions (FTEs) and approved rate. The issues to convert 173.50 positions are in several budget entities and funding sources. The total issue nets to a cost savings of over \$500,000. This savings does not include the additional administrative costs and time required by DOH staff to administer, monitor and manage the contracts. Please refer also to issue number 6400710.

AGENCY ISSUE NARRATIVE:

2009-2010 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

The Department of Health (DOH) contracted for services in a limited capacity for several years. The Auditor General's Office first questioned this practice in a 2004 audit. The Auditor General's findings stated "FDOH contracted with State universities and a community college to provide staffing to administer grant activities under FDOH direction rather than using authorized positions or outsourcing. FDOH did not use competitive procurement methods when establishing the contractual arrangements". Although DOH challenged this finding, an Intent to Negotiate (ITN) was issued to procure

support services. As a result, Nitelines USA and Tallahassee Community College (TCC) were awarded the contracts, as the most prudent and economical option to meet DOH legislative mandates outlined in Florida Statutes (20.43, 381.001 and 391.016).

Currently, DOH contracts with Nitelines USA (a private, for-profit, employment agency), Tallahassee Community College and the University of Florida for most of its contracted positions. Subsequent audits by the Auditor General's Office stated that DOH continued to utilize contract services to administer DOH grant activities although it had not identified expressed statutory authority to do so. DOH has responded repeatedly, with legal counsel advice, that DOH has the lawful authority to contract for staff.

In addition to their past findings, the Auditor General's Office has recently directed DOH to determine, as a matter of law, whether DOH's initiation of staffing contracts bypass limitations imposed by the Florida Legislature. The U.S. Department of Health and Human Services (HHS) also conducted an independent audit and requires DOH to obtain clarification from another state authorized entity for a final determination {Department of Management Services (DMS)}. If this issue is not resolved, DOH will be required to pay funds back to the respective federal agency for the two grants recently audited and all other federal grants with contracted staff hired as outlined above. This potentially amounts to over \$25 million.

Additionally, many of the agency's services to Florida's public health system would have to be terminated. This termination may affect the day-to-day operation of many established programs, such as public health preparedness and family health services. Although DOH believes it has the authority to contract for services and has requested clarification from DMS, DOH feels that it should take a proactive approach to resolve this situation while also reducing cost by establishing FTEs.

The Department of Health requests a shift from contracted services to salaries and benefits, along with the appropriate full-time equivalent positions (FTEs) and approved rate. The issues to convert 173.50 positions are in several budget entities and funding sources. The total issue nets to a cost savings of over \$500,000. This savings does not include the additional administrative costs and time required by DOH staff to administer, monitor and manage the contracts. Please refer also to issue number 6400700.

AGENCY ISSUE NARRATIVE:

2009-2010 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

This issue requests the realignment of \$250,000 in Federal Grants Trust Fund budget authority from Other Personal Services, Expenses and G/A Rural Health Network categories to Contracted Services to suit the needs and trends in expenditures of Community Health Resources federal grants.

This issue also requests the realignment of \$1,127 in Tobacco Settlement Trust Fund budget authority from Expenses to the Comprehensive Statewide Tobacco Prevention and Education Program special category. The Tobacco Settlement Trust Fund traditionally does not have budget authority in the administrative categories with an exception for the Salaries associated with the Tobacco Constitutional Amendment funding.

Please see companion issue #6400810.
