SCH VIIIA NARR 09-10 NOTES:

The purpose of these projects is to continue posturing the Guard to successfully execute its state and federal emergency and military missions in the 21st Century by renovating state readiness centers (armories) to meet state and federal building codes, benefiting from energy saving upgrades while maintaining structural integrity and safety. Additional emphasis will be placed on force protection measures such as fencing, barricading and security. The program will encompass readiness center renovations, including assessment, design, construction, furniture, furnishings, as well as program administration costs (i.e., human resources, labor, etc.), as well as operating equipment such as vehicles, lifts, loaders, etc. for fund and project execution.

Agency Goal Number 1: Provide military organizations that are trained and ready to meet the needs of national, state and local authorities.

ARMORY SUPPORT 2 4300000
 GENERAL REVENUE FUND..... 370,000 1000
 =====

SCH VIIIA NARR 09-10 NOTES:

This issue funds an energy increase for the state's 56 armories. Rising fuel costs and increased summer heat have caused a dramatic increase in the amount of energy required to operate an armory. Additionally, the department is in the middle of a multi-year revitalization of its armories. This effort includes new air conditioning for rooms and buildings that were never air conditioned in the past. The requested amount represents three years of growth as last year's increase was funded with non-recurring dollars. This issue is critical because a unit's armory is its 'nerve center'. Training, maintenance, deployment preparation, and administration all take place at the armory.

This issue is statewide and supports:

Agency Goal #1: Provide military units that are trained and ready to meet the needs of national, state and local authorities.

SCH VIIIA NARR 09-10 NOTES:

During recent years, the Department has had a marked increase in legal requirements. The current remodeling of existing older armories and the closing of outdated facilities has generated a myriad of legal issues. Additionally, the increase in National Guard state activations have resulted in several line-of-duty injuries, which have created an additional legal workload. The department does not currently have a full time state position for an attorney. All state legal work has to be contracted or forwarded to the Attorney General's office for action.

This issue benefits St. Johns County and supports:

Agency Goal #6: Provide effective executive direction and support services.

SCH VIIIA NARR 09-10 NOTES:

In FY 05-06, the legislature funded the development of IOEMS to support the Florida National Guard when the Governor calls them to State Active Duty (SAD). The system converts federal data to usable state data for direct use by the state's many financial management systems. IEOMS has dramatically improved the department's responsiveness to National Guard service members, Florida vendors and the citizens of Florida. Because the National Guard has a 20% turnover of members each year and the federal databases frequently change, IEOMS has to be constantly modified to extract the needed data to provide a timely response. Additionally, National Guard turnover and promotions create a need for an annual training class to teach National Guard service members how to use the modules. This request is essential to fund software changes and hardware replacement required to keep the system ready at a moments notice.

This issue is statewide and supports:

Agency Goal #2: Provide military organizations that are trained and equipped to protect life and property and preserve peace, order and public safety.

Both the summer and after-school programs provide schoolwork assistance, focusing on life skills that enhance effective group behavior. The training includes computer skills, basic problem solving, decision making and reasoning skills.
