GENERAL INSPECTION TF	-STATE 18,790-	2321 1

AGENCY ISSUE NARRATIVE:

SCH VIIIIB-2 NARR 14-15 NARRATIVE: IT COMPONENT? NO
 PRIORITY #13

DESCRIPTION OF REDUCTION ISSUE:

This is to request a reduction of \$18,790 from the recurring Expenses appropriation category in the General Inspection Trust Fund.

IMPACT OF THE REDUCTION:

Moderate - Given that the Office of Agricultural Water Policy has a modest amount of \$398,865 in recurring Expenses authority, a reduction to this appropriation will moderately impact agency operations and require a reduction in travel costs, office supplies, vehicle fuel, suncom and maintenance. The reduction will not result in any changes to current staffing levels and performance.

CALCULATION OF REDUCTION AMOUNT:

The reduction to this appropriation was determined based on the type and cost of the expenses involved that provided the greatest amount of flexibility for reduction with the least adverse impact on administrative operations and services.

STATUTORY CHANGE(S): A statutory change is not required to implement the requested reduction.

EXPENSES (040000):

	=====	

AGENCY ISSUE NARRATIVE:
 SCH VIIIIB-2 NARR 14-15 NARRATIVE:
 PRIORITY #47

IT COMPONENT? NO

DESCRIPTION OF REDUCTION ISSUE:

This is to request a reduction of \$355,065 from the recurring Agricultural Nonpoint Source Best Management Practices Implementation Special Appropriation Category 104127, General Revenue Fund, of the funds specifically appropriated for the deployment, testing and monitoring of technology based sensors, deployment of Hybrid Wetlands Treatment Technology (HWTT) and deployment of Floating Aquatic Vegetative Tilling (FAVT) technology.

IMPACT OF THE REDUCTION:

Significant - The reduction to this appropriation will significantly reduce the level of project activities relative to the number of technology based sensors deployed, tested and monitored, Hybrid Wetlands Treatment Technology (HWTT) deployed or Floating Aquatic Vegetative Tilling (FAVT) technology deployed. It will not affect clients, agency staffing or other program areas.

CALCULATION OF REDUCTION AMOUNT:

The amount of the reduction of the total General Revenue appropriation for these projects was determined after due consideration was given to the severity of the impact on services provided and the need to avoid the elimination of other potentially affected programs.

STATUTORY CHANGE(S): A statutory change is not required to implement the requested reduction.

 PRIORITY #20

DESCRIPTION OF REDUCTION ISSUE:

This is to request a reduction of \$93,000 from the recurring Best Management Practices Special appropriation category in the General Inspection Trust Fund. These funds were specifically appropriated for the Nitrate Research and Remediation Program used to improve fertilization-management practices as soon as practicable in a way that protects the state's water resources and preserves a viable agricultural industry.

IMPACT OF THE REDUCTION:

Moderate - A reduction in this appropriation will moderately affect the number of best management practices (BMP) implemented by landowners with the intent of improving fertilization-management practices and protecting the water resources of the state. The reduction will also limit the amount of cost share available to landowners as incentive payments for their voluntary participation in the BMP program. Currently, there is one (1) FTE that supports this program; consequently, no reduction in FTE's will result. It is anticipated that the 175,000 acres would be reduced by

AGENCY ISSUE NARRATIVE:

SCH VIIIB-2 NARR 14-15 NARRATIVE: IT COMPONENT? NO
 PRIORITY #25

DESCRIPTION OF REDUCTION ISSUE:

This issue reduces Administrative Trust Fund Contracted Services authority within the Division of Administration and eliminates the maintenance contract that the department currently has with an outside vendor to provide facility maintenance on the Mayo Building and the Conner Complex.

IMPACT OF THE REDUCTION:

Significant - Print shop functions within the Bureau of General Services would need to be eliminated and print shop staff reassigned to perform facility maintenance functions for the Mayo Building and Conner Complex that are now being performed by the outside vendor.

CALCULATION OF REDUCTION AMOUNT:

Calculated by taking the amount of the current maintenance contract for the Mayo Building and Conner Complex and reducing it by anticipated supply costs that the department would incur if required to assume maintenance duties for these facilities.

STATUTORY CHANGE(S): None needed.

AGENCY ISSUE NARRATIVE:

SCH VIIIIB-2 NARR 14-15 NARRATIVE: IT COMPONENT? NO
 PRIORITY #10

DESCRIPTION OF REDUCTION ISSUE:

This issue reduces Administrative Trust Fund Expenses authority within the Division of Administration.

IMPACT OF THE REDUCTION:

Moderate - This reduction would have a moderate impact on the Division of Administration. Historically, the Division of Administration has reverted very minimal, if any, Expense authority. Also, in FY 2012-13, the Division of Administration's Expenses authority was reduced by \$342,047. As administrative costs increase, there is an adverse effect in the increases of the division's responsibilities and expectations, any reductions to current authority will almost certainly manifest as reductions in the ability to provide quality services to the divisions.

STATUTORY CHANGE(S): None needed.

EXPENSES (040000):

AGENCY ISSUE NARRATIVE:

SCH VIIIB-2 NARR 14-15 NARRATIVE:
 PRIORITY #46

IT COMPONENT? NO

DESCRIPTION OF REDUCTION ISSUE:

This issue reduces \$300,000 in the Natural Gas Vehicle Rebates category from the General Revenue Fund. In Fiscal Year 2013-14, the Department of Agriculture and Consumer Services, Office of Energy received a \$6 million appropriation in General Revenue to provide rebates to eligible applicants with three (3) or more fleet vehicles that have converted their diesel and gasoline powered vehicles to natural gas. The amount of \$300,000 represents 5% of the \$6 million dollar General Revenue appropriation.

IMPACT OF THE REDUCTION:

This reduction will have a moderate impact by reducing the Natural Gas Vehicle Rebates Program appropriation of \$6 million down to \$5.7 million and thereby decreasing the number of rebates available to Florida businesses and local governments from 240 down to 228. This reduction will result in the loss of twelve (12) natural gas rebates at a cost of \$25,000 each that will no longer be provided. Also this reduction will have a similar impact on the state of Florida's efforts, pursuant to Chapter 377.810, Florida Statutes, and Chapter 2013-198, Laws of Florida to decrease reliance on imported diesel and gasoline fuels.

CALCULATION OF REDUCTION AMOUNT:

The amount of \$300,000 represents 5% of the \$6 million dollar General Revenue appropriation and meets the 5% target reduction.

COST SUMMARY:

SPECIAL CATEGORY: Natural Gas Fleet Vehicle Rebates

QUANTITY	DESCRIPTION	CALCULATIONS	AMOUNT NEEDED FY 2014-15

AGENCY ISSUE NARRATIVE:

SCH VIIIIB-2 NARR 14-15 NARRATIVE:
 PRIORITY #58

IT COMPONENT? NO

DESCRIPTION OF REDUCTION ISSUE:

This will eliminate the Florida Forest Service's Wildfire Management Teams, (WMT) which are a critical reinforcement on wildfires. This program reduction will equal to a total of \$1,553,158. \$1,048,492 in the General Revenue Fund, consisting of \$1,039,685 (23.0 FTE positions) in Salaries and Benefits, \$6,500 in Expenses and \$2,307 in Contractual Services. \$502,956 in the Incidental TF, consisting of \$500,000 in Expenses and \$2,956 in Contractual Services. \$1,710 in the Ag. Emergency TF under the On-Call Category.

IMPACT OF THE REDUCTION:

This reduction will significantly impact Florida Forest Service's ability to suppress wildfires that escape initial attack. These teams are critical to keeping fires from growing into large campaign wildfires that become very costly and destructive.

The mission of the Wildfire Management Teams is to provide assistance to each Forestry District/Center within the region in accomplishing the wildfire hazard mitigation goals as set forth in the District/Center Annual Operational Plan. While the primary mission of a Wildfire Management Team is protecting Florida's communities with wildfire hazard mitigation, every Florida Forest Service employee has a responsibility to support and participate in wildfire suppression activities as the situation demands. The organizational structure, resource complement, and self-sufficient nature of a Wildfire Management Team allows for quick mobilization as a Strike Team or Task Force throughout the region in support of fire suppression or other emergency operations.

This program of wildland vegetative fuel management in and around the wildland urban interface minimizes the likelihood that homes and property will be damaged or destroyed by wildfire. All wildfire hazard fuel reduction conducted by the Wildfire Management Team will be within interface areas where structures are reasonably determined to be in danger of

wildfire. This work will include prescribed fire operations, mechanical fuel reduction (mowing, masticating, roller chopping), pre-suppression fire line construction, herbicide application or a combination of treatment types.

Since their establishment these teams have treated 149,199 acres and provided a reduced risk of wildfire damage to 100,494 structures. The loss of these teams would increase the chances of a home or business being damaged or destroyed by a wildfire. These untreated areas also would require additional personnel and equipment, either from the Florida Forest Service or local Fire Department, to provide more protection than would be needed if the areas had been treated. These full-time positions work on wildfire prevention, suppression and all other hazard emergency incident response.

CALCULATION OF REDUCTION AMOUNT:

The calculation is based on actual Salaries and Benefits paid to the Fire Management Team positions and their operating budget for fiscal year 13-14.

STATUTORY CHANGE(S): No statutory change is required to implement this reduction.

PROGRAM REDUCTIONS		33V0000
CLOSE RECREATION AREA WITHIN		
WITHLACOOCHEE STATE FOREST		33V0130

DESCRIPTION OF REDUCTION ISSUE:

This cut of \$627,208 will close all recreation areas within the Withlacoochee State Forest. This requests is made up of: \$214,358 in General Revenue Fund, \$202,898 (12.0 FTE positions) in Salaries and Benefits, \$11,460 in Expenses; \$316,572 in Incidental Trust Fund, \$215,572 in Salaries and Benefits, \$95,000 in Expenses, \$6,000 in Contractual Services; \$96,278 in Conservation and Recreation Lands Trust Fund (CARL) \$92,625 Salaries and Benefits and \$3,653 in Expenses.

IMPACT OF THE REDUCTION:

This would have a significant impact on Florida's Citizens. Withlacoochee State Forest (WSF) is located near several metropolitan centers (Tampa, St. Petersburg, etc.) and received 1,026,161 State Forest visitors during fiscal year 2012-13. If the recreational facilities at Withlacoochee State Forest were closed, 159,604 acres of public land would be closed to public access. The State of Florida, Department of Agriculture and Consumer Services and Florida Forest Service would lose \$765,556 in annual revenue based on FY 2012-2013 figures. A total of 16 different recreational sites would no longer be accessible to the visitors. Hiking, biking, horseback riding, canoeing/kayaking, picnicking, hunting and off-highway vehicle riding opportunities that are current available to the public would be eliminated.

CALCULATION OF REDUCTION AMOUNT:

This calculation is based on actual Salaries and Benefits paid to Recreational staff at Withlacoochee and their operating budget for fiscal year 13-14.

STATUTORY CHANGE(S): No statutory change is required to implement this reduction.

AGENCY ISSUE NARRATIVE:

SCH VIIIIB-2 NARR 14-15 NARRATIVE:
 PRIORITY #56

IT COMPONENT? NO

DESCRIPTION OF REDUCTION ISSUE:

This will eliminate the Florida Forest Service's Road Crew Program. This program reduction will equal to a total of \$345,224 in Conservation and Recreation Lands Trust Fund (CARL), under the following categories: \$206,415 in Salaries and Benefits, \$136,629 in Expenses and \$2,180 in Contractual Services.

IMPACT OF THE REDUCTION:

This would have a significant impact as the Florida Forest Service maintain a total of 3,632 miles and 125 bridges throughout the state forests. This crew is capable of traveling throughout the State Forest system to handle the major road repair projects that are often beyond the capabilities of the local State Forest maintenance personnel. Without their added assistance, many miles of forest roads would not be open to the public or available to accommodate timber harvesting and reforestation activities. Based on current figures, FFS cost per mile to rebuild, reshape the ditches and install culverts is approximately \$73,909 per mile, versus \$245,000 if contracted out. This is a cost savings to the State of \$171,091 per mile of repaired road.

The Road Crew is a unit that was established over 10 years ago to assist Florida Forest Service on the management of the mounting road repair problems that derive from the large amount of state's wildland acreage. These roads are often in varying degrees of disrepair due to heavy rain, floods, timber logging and recreational visitor traffic. There is a constant need for culverts replacement, washouts repairs and ditches maintenance. The Road Crew unit is very knowledgeable and familiar with forestry Best Management Practices in order to comply with rules of the various Water Management Districts. These roads are necessary for emergency access, fire protection, forest management activities, school busses, public recreation, timber harvesting and access to private in holdings.

Forest Receipts Distribution, which will eliminate the forest receipts payments to fiscally-constrained counties.

IMPACT OF THE REDUCTION:

This reduction will have a significant impact. Fiscally-constrained counties will no longer receive a percentage of revenues collected from sales of timber from state lands located within their counties. These funds currently go to county education boards; therefore, the elimination of the payments will further reduce local education funds.

CALCULATION OF REDUCTION AMOUNT:

This amount was calculated based on total budget for this category, as part of the cut exercise for FY 13-14.

STATUTORY CHANGE(S): Will require statutory changes to Ch. 289.08(2), F.S., and Ch. 289.081, F.S.

AGENCY ISSUE NARRATIVE:

SCH VIIIIB-2 NARR 14-15 NARRATIVE: IT COMPONENT? NO
 PRIORITY #31

DESCRIPTION OF REDUCTION ISSUE:

The budget reduction consists of decreasing funding within the Office of Agriculture Technology Services for the costs of data communication circuits obtained through the Department of Management Services. These circuits are critical to operations and their costs are necessary for access to the Internet, Electronic Mail, department applications and most other data communications needs.

IMPACT OF THE REDUCTION:

Significant Impact - The reduction in funding does not mean the data communication circuit costs will be eliminated, rather they will have to be shifted to and absorbed directly by division operating budgets. The annual cost impact on the divisions is estimated below.

CALCULATION OF REDUCTION AMOUNT: Based on 5% target reduction of service costs provided to divisions.

Division	Amount	Division	Amount
Administration	(\$ 19,392)	Ag Environ. Services	(\$ 18,228)

AGENCY ISSUE NARRATIVE:

SCH VIIIIB-2 NARR 14-15 NARRATIVE: IT COMPONENT? NO
 PRIORITY #6

DESCRIPTION OF REDUCTION ISSUE:

The budget reduction consists of decreasing funding within the Office of Agriculture Technology Services for the appropriate Licensing Trust Fund share.

IMPACT OF THE REDUCTION:

Minimal Impact - The reduction in funding does not mean the Licensing share of data communication circuit costs will be eliminated, rather they will have to be shifted to and absorbed directly by the Division of Licensing operating budget.

CALCULATION OF REDUCTION AMOUNT: Based on 5% target amount for Division of Licensing Trust Fund authority.

STATUTORY CHANGE(S): No Statutory Change required.

EXPENSES (040000):

 PRIORITY #2

IT COMPONENT? NO

DESCRIPTION OF REDUCTION ISSUE:

Fund shift of Salary and Benefit authority from General Revenue to the General Inspection Trust Fund within the Office of Agriculture Technology Services.

IMPACT OF THE REDUCTION:

The impact of this reduction is anticipated to be Minimal. As Salaries and Benefits is the only category with General Revenue funding and the reduction of funding cannot be achieved through elimination of any specific position without exceeding the reduction target by approximately 50%. It is proposed that the reduction target be achieved via a shift of funds from General Revenue to General Inspection Trust Fund.

CALCULATION OF REDUCTION AMOUNT:

The amount of the fund shift is \$31,081 and this is the amount necessary to meet the targeted reduction amount.

STATUTORY CHANGE(S):

No statutory change is needed.

AGENCY ISSUE NARRATIVE:

SCH VIIIB-2 NARR 14-15 NARRATIVE:
 PRIORITY #51

IT COMPONENT? NO

DESCRIPTION OF REDUCTION ISSUE:

This reduction issue eliminates eight (8) positions which includes six (6) in the Food Laboratory and two (2) in the Chemical Residue Laboratory within the Division of Food Safety reducing Salaries and Benefits by \$382,267 from the General Inspection Trust Fund.

IMPACT OF THE REDUCTION:

Bureau of Food Laboratories: Significant Impact: This reduction would be a significant impact to the Division of Food Safety's mission and authorized mandates. The Food Laboratories are mission critical and have a significant food safety function in the state of Florida. The elimination of six (6) positions in this bureau will result in a reduction in state samples and analytical tests; loss of ability to analyze nutrient claims (e.g. fat content, sodium); loss of ability to analyze for certain hazardous substances (e.g. mercury content in fish and heavy metals); loss of ability to prevent fraudulently identified fish, honey, vanilla, syrup; overall reduction in consumer based laboratory services. This lab is a national leader in the development of methods for detecting toxins in food and is on the forefront of bio-terrorism security and emergency response relative to potential food hazards. It is the only state laboratory dedicated to the microbiological analysis of food in Florida. The reduction of scientific staff will have a negative impact on meeting performance measures. Currently, five (5) positions are filled and one (1) position is vacant.

Bureau of Chemical Residue Laboratories: Significant Impact: This reduction would be a significant impact to the Division of Food Safety's mission and authorized mandates. The elimination of two (2) positions in this bureau will result in the division's inability to protect Florida consumers from the presence of chemical containments found on fruits, vegetables,

seafood, honey and other Florida produce. These food items are inspected and analyzed within the distribution chain and analyzed prior to them landing on store shelves for consumption. It is the only state laboratory in Florida dedicated to chemical residue analysis in foods. Currently, one (1) position is vacant and one (1) position is currently filled.

Both of these labs are national leaders in the development of methods for detecting toxins in food and are on the forefront of bio-terrorism security and emergency response relative to potential food hazards. It is the only state laboratory in Florida dedicated to chemical residue analysis in foods.

CALCULATION OF REDUCTION AMOUNT:

The reductions are based on the annual salary rate and salaries and benefits associated with these eight (8) positions within the Division of Food Safety.

STATUTORY CHANGE(S): None

AGENCY ISSUE NARRATIVE:

SCH VIIIIB-2 NARR 14-15 NARRATIVE: IT COMPONENT? NO
 PRIORITY #4

DESCRIPTION OF REDUCTION ISSUE:

The reduction of \$413,107 consists of various operating categories within the Division of Food Safety and Inspection program from the Federal Grants Trust Fund. This issue will reduce \$300,000 in Salaries and Benefits, \$63,107 in Other Personal Services and \$50,000 in Contracted Services.

IMPACT OF THE REDUCTION:

Minimal Impact: The reduction of \$413,107 in Federal Grants Trust Fund authority would have a minimal impact on the overall grant programs currently being administered. The Division has reverted excess spending authority in previous years in the Federal Grants Trust Fund in Salaries and Benefits, OPS and Contracted Services categories and has projected to revert additional authority in Fiscal Year 2013-14. This reduction in spending is primarily due to federal sequestration actions taken upon all of the divisions' renewal and new grant funding opportunities and the loss of the Microbiological Data Program (MDP) grant this year.

CALCULATION OF REDUCTION AMOUNT:

The reductions are based on prior year reversions and the decreases in grant funding in the Federal Grants Trust Fund.

STATUTORY CHANGE(S): None

 PRIORITY #23

IT COMPONENT? NO

DESCRIPTION OF ISSUE:

This issue reduces the Aid to Local Governments for the Mosquito Control Program in the amount of \$744,400 from the General Inspection Trust Fund.

IMPACT OF THE REDUCTION:

This reduction would be a significant impact to the program. This would reduce the amount available for distribution to local governments and mosquito control research by \$744,400. The funds allocated for Fiscal Year 2013-14, provide for overhead for administrative costs, mosquito control research, support of new personnel at the Florida Medical Entomology Laboratory, and distribution to county mosquito control programs, with approximately \$29,000 provided per program. Amounts distributed after this reduction would depend on the total amount appropriated by the Legislature for Fiscal Year 2014-15. The amount of funding appropriated in past years have been as low as \$1,293,368 and as high as \$2,660,000.

CALCULATION OF REDUCTION AMOUNT:

The reduction amount of \$744,400 is based on 5% of the total appropriation designated to the Mosquito Control Program for

=====

AGENCY ISSUE NARRATIVE:
 SCH VIIIB-2 NARR 14-15 NARRATIVE:
 PRIORITY #22

IT COMPONENT? NO

DESCRIPTION OF REDUCTION ISSUE:

Reduce General Inspection Trust Fund recurring cost with additional cutbacks to meet the 5% budget reduction goal.

IMPACT OF THE REDUCTION:

The reduction in inspection staff would have a significant impact on the Florida Department of Agriculture and Consumer Services' Bureau of Standards. The Bureau of Standards performed 253,746 petroleum inspections in FY 12-13. The reduction of two (2) petroleum inspectors will cause an estimated yearly decrease of approximately 9,760 petroleum inspections. This reduction would expand the recurring inspection of gasoline pumps, which are now inspected every 18-24 months, to 26 months. Consumer complaints would be investigated, but targeted response time (currently 2 days) would increase to 3-4 days.

CALCULATION OF REDUCTION AMOUNT:

Reduction of all staff is based on the salary and benefits report for FY 13-14 and the recurring expense is based on a yearly average of costs incurred by inspectors which include travel fuel, vehicle repair/maintenance, equipment repair/maintenance, communications, computer equipment and office supplies.

STATUTORY CHANGE(S): NA

	=====		

AGENCY ISSUE NARRATIVE:

SCH VIIIIB-2 NARR 14-15 NARRATIVE:
 PRIORITY #21

IT COMPONENT? NO

DESCRIPTION OF REDUCTION ISSUE:

The Division of Consumer Services requests the repeal of sections 527.20-.23, Florida Statutes, eliminating the Florida Propane Gas Education, Safety, and Research Act, the Florida Propane Gas Education, Safety, and Research Council and the Florida Propane Gas Education, Safety, and Research Marketing Order. The repeal will result in an appropriation reduction in the General Inspection Trust Fund in the amount of \$452,500. This would also result in a reduction of General Inspection Trust Fund revenues as assessments would no longer be collected by the department.

IMPACT OF THE REDUCTION:

The 1997 Florida legislature passed the Florida Propane Gas Education, Safety, and Research Act for the purpose of providing the industry with a mechanism for development of projects to benefit Florida's consumers and the propane gas industry. The Florida Propane Gas Education, Safety, and Research Council (FPGSER) develop and implements projects in the areas of research and development, safety, education and marketing. There are a wide variety of projects, including magazine ads, billboards, radio and television spots, publications and special projects.

Repeal of the Florida Propane Gas Education, Safety, and Research Act would result in cancellation of the Florida Propane Gas Education, Safety, and Research Council and the mandatory Marketing Order assessments collected under the Act. This would likely have a significant impact on the liquefied petroleum gas industry which relies on the Florida Propane Gas Education, Safety, and Research Council to approve marketing and other programs and on the department to collect the

statutorily-mandated Marketing Order assessments. It is not known whether the propane industry could continue to fund these programs through a voluntary Marketing Order initiative although the industry has been able to effectively market propane and achieve other goals of the Act through other means. In response to a desire for greater independence in spending control, the Florida Propane Gas Education, Safety, and Research Council, with input from the Florida Propane Gas Association, established in 2009 the Propane Education Foundation of Florida, a non-profit whose board is comprised solely of industry members. This foundation independently secures funding sources that were previously obtained by the Florida Propane Gas Education, Safety, and Research Council, but were subject to spending authority. The foundation has been very successful in obtaining national Marketing Order funding for conducting rebate programs and for entering into contracts with providers for safety and education training - programs that were previously undertaken by the Florida Propane Gas Education, Safety, and Research Council.

CALCULATION OF REDUCTION AMOUNT:
 Repeal of the Florida Propane Gas Education, Safety and Research Act would reduce the Florida Department of Agriculture and Consumer Services' General Inspection Trust Fund appropriation by a total of \$452,500 (\$114,000 Expense category and \$338,500 Contracted Services category).

STATUTORY CHANGE(S): Repeal ss. 527.20-.23, F.S.

AGENCY ISSUE NARRATIVE:
 SCH VIIIIB-2 NARR 14-15 NARRATIVE:
 PRIORITY #30

IT COMPONENT? NO

DESCRIPTION OF REDUCTION ISSUE:

In order to meet the reduction target of 5% of operating funds, the Division of Fruit and Vegetables proposes to implement a Customer Assisted Certification Program (CACP) for inspection services in the Peanut industry which would have to be approved by the United States Department of Agriculture (USDA). The CACP program reduces the number of peanut aides required in the inspection process, thus reducing the amount of OPS appropriation needed by \$252,396.

IMPACT OF THE REDUCTION:

Significant - This program change has not been approved by the USDA. There have been discussions regarding alternative inspection programs for FS Peanuts, however, these discussions have not picked up traction towards implementing change. The proposed alternative inspection is a Customer Assisted Certification Program whereby the peanut buying point provides an employee(s) to assist the division's licensed inspector with the non-critical areas of the inspection process. This assistance would eliminate the need for OPS peanut aides hired by the division.

CALCULATION OF REDUCTION AMOUNT:

Target amount of 5% reduction in GITF appropriation equals \$183,747.

STATUTORY CHANGE(S): None needed

 PRIORITY #3

DESCRIPTION OF REDUCTION ISSUE:
 In order to meet the reduction target of 5% of operating funds, the Division of Fruit and Vegetables proposes reducing Other Personal Services (OPS) appropriation by \$98,425.

IMPACT OF THE REDUCTION:
 Minimal - A reduction in OPS appropriation will have minimal impact on the ability of the division to maintain flexibility in staffing. In FY 2008-09, the division, in cooperation with the Citrus industry, implemented alternative inspection programs at the processing facilities that reduced the division's need for OPS appropriation. After several seasons of managing staffing needs, the division is confident that this reduction will not have a significant impact.

CALCULATION OF REDUCTION AMOUNT:
 Target amount of 5% reduction in CITF appropriation equals \$285,023.

 ECONOMIC OPPORTUNITIES
BUSINESS DEVELOPMENT
 PROGRAM REDUCTIONS
 REDUCTION IN FRUIT AND VEGETABLE
 CITRUS INSPECTION TRUST FUNDED
 POSITIONS

IMPACT OF THE REDUCTION:

Minimal - A reduction in salaries and benefits will have a minimal impact on the division. The three proposed career service position cuts are a Staff Assistant (P1701002), a Custodial Worker (P1701003) and an Administrative Assistant II (P1701001). The Staff Assistant is retiring in January 2014 and, in preparation for his departure, others were trained to assume the position's duties. The Custodial Worker position is currently vacant with no plans to rehire. The janitorial and maintenance needs of the new building in Bartow will be less than required at the Florida Citrus Building as there are no rental facilities for which to set-up, staff and tear-down for events. The Administrative Assistant II duties will be absorbed into other positions.

CALCULATION OF REDUCTION AMOUNT:

Target amount of 5% reduction in CITF appropriation equals \$285,023.

AGENCY ISSUE NARRATIVE:

SCH VIIIB-2 NARR 14-15 NARRATIVE: IT COMPONENT? NO
 PRIORITY #8

DESCRIPTION OF REDUCTION ISSUE:

This issue is to reduce spending authority from the Citrus Inspection Trust Fund (CITF), Special Category Citrus Marketing Orders. Funds for the marketing orders are paid by farmers via a per-box voluntary assessment the industry approved to pay for research. None of the funds are used directly by the Department of Agriculture. Rather, the advisory council recommends to the Commissioner of Agriculture which research projects they wish to fund. This reduction represents a 5% reduction of the spending authority provided for this purpose.

IMPACT OF THE REDUCTION:

The impact of this issue is minimal in that they do not bring in as much in assessments due to the various citrus diseases that have reduced the number of boxes of citrus being processed. \$3.1 million was reverted in FY 2012-13. If the assessments increase and authority decreases, the industries will be unable to fully utilize funds they voluntarily pay into the marketing order, thereby reducing the amount and scope of research and marketing conducted on its behalf. All activities funded through the marketing order are conducted by entities associated directly with the industry.

CALCULATION OF REDUCTION AMOUNT:

Reduction of Special Category 100838 - \$357,461

 PRIORITY #44

IT COMPONENT? NO

DESCRIPTION OF REDUCTION ISSUE:

This issue is to reduce spending authority in the General Inspection Trust Fund, Special Category for the Peanut and Tobacco Marketing Orders. Funds for the marketing orders are paid by farmers via a per-ton voluntary assessment the industries approved to pay for research and marketing specifically for their commodities. None of the funds are used directly by the Department of Agriculture. Rather, each marketing order's industry advisory council recommends to the Commissioner of Agriculture which research and marketing projects they wish to fund. The Department writes contracts directly to the selected entities and passes the industry funds along. This reduction represents a 5% reduction of the spending authority provided for this purpose.

IMPACT OF THE REDUCTION:

The impact of this issue will be viewed by industry as Significant.

The peanut and tobacco industries will be unable to fully utilize funds they voluntarily pay into the marketing order, thereby reducing the amount and scope of research and marketing conducted on its behalf. All marketing funded with the marketing order is conducted by entities associated directly with the industry (i.e., the Florida Peanut Producers Association).

AGENCY ISSUE NARRATIVE:

SCH VIIIIB-2 NARR 14-15 NARRATIVE: IT COMPONENT? NO
 PRIORITY #39

DESCRIPTION OF REDUCTION ISSUE:

This issue is to reduce spending authority in the Viticulture Trust Fund, Special Category for the state Viticulture Program. Funds for the program are paid by farmers via an excise tax and approved to pay for research and marketing on Florida Viticulture. None of the funds are used directly by the Department of Agriculture. Rather, the Viticulture Advisory Council recommends to the Commissioner of Agriculture which research and marketing projects they wish to fund. The Department writes contracts directly to the selected entities and passes the industry funds along.

IMPACT OF THE REDUCTION:

The impact of this issue will be viewed by industry as Significant. The viticulture industry will be unable to utilize all the funds transferred to the Department. Funds are paid in order to conduct research and marketing projects that will benefit the industry as a whole. All marketing funded by the Viticulture Trust Fund is conducted by wineries and the grape growers' association directly decided by the advisory council.

DESCRIPTION OF REDUCTION ISSUE:

This issue is to reduce the Bureau of Seafood and Aquaculture Promotion Expenses and Contracted Services categories in the Saltwater Products Promotion Trust Fund (SWPPTF). The proposal recommends a reduction of \$59,725 for the Bureau.

IMPACT OF THE REDUCTION:

The impact of this issue will be Significant.

With the end of seafood marketing funding from British Petroleum (BP), the bureau will be operating its entire marketing and promotion program with significantly less than FY 2012-13. It is the very minimal level responsible for promoting an industry that contributes upwards of \$250 million a year to the state's economy.

REDUCE THE FLORIDA AGRICULTURAL		
PROMOTION CAMPAIGN		33V6260

This reduction would require cutting recurring funding of \$271,628 that is provided in General Revenue and the Agricultural Emergency Eradication Trust Fund for the highly effective Florida Agriculture Promotion Campaign. Some 50 initiatives a year are developed and executed from the FAPC Special Category, including the Global Grid promotion which is conducted in more than 10,000 supermarkets each year during Florida's peak growing seasons. The interruption or discontinuance of ongoing promotions could have significant impact on this campaign which has helped Florida growers increase sales by more than a billion dollars since its inception.

PROGRAM REDUCTIONS		33V0000
REDUCE SALARIES AND BENEFITS IN THE		
DIVISION OF ANIMAL INDUSTRY		33V0250

It is expected that cuts will have a negative impact on overall response capacity for all programs including those for emergency response. Due to the potential of rapid spread of many animal diseases, lengthened reporting time and delayed response time could result in widespread disease outbreaks that would be difficult to contain and control. Also, many (up to 75%) animal diseases are zoonotic and this reduction could have a significant adverse public health impact.

The elimination of the field supervisor in GITF would have a significant impact and program oversight would be reassigned to the Bureau Chief.

The elimination of the Chief of Diagnostic Laboratories would have a significant impact on the Bronson Animal Disease Diagnostic Laboratory. Program oversight would be reassigned to the Laboratory Director.

CALCULATION OF REDUCTION AMOUNT: Position reductions for the six (6) FTE were figure at the minimum for the class.

AGENCY ISSUE NARRATIVE:

SCH VIIIB-2 NARR 14-15 NARRATIVE:
 PRIORITY #35

IT COMPONENT? NO

DESCRIPTION OF ISSUE:

This is to reduce four (4) FTE and \$144,900 in General Revenue funding from the Salaries and Benefits category in the Bureau of Entomology, Nematology, and Plant Pathology as part of the budget reduction plan as follows:

- Three (3) Senior Clerks in the Entomology Section
- One (1) Senior Word Processing Systems Operator in the Plant Pathology Section

IMPACT OF THIS REDUCTION:

Senior Clerks - The loss of three Senior Clerks in the Entomology section would have a serious impact on processing of arthropod identification slips that are submitted by inspectors, and Florida citizens, and the timeliness of reporting of resulting identifications. This proposed reduction is a 75% reduction of clerical staff resources in our Entomology Section leaving one clerical position to provide services for 8 identifiers. The loss of three senior clerk positions will increase the overall handling time needed to process a sample from the time it arrives to the identification lab to the time that the results are reported. The increased work load for the one senior clerk may well lead to a higher probability of data entry errors.

Senior Word Processing Systems Operator - The loss of a Senior Word Processing Systems Operator in the Plant Pathology Section would have a serious impact on processing of plant pathology slips that are submitted by inspectors and Florida

citizens and the timeliness of reporting of resulting diagnoses. The loss of the Senior Word Processing Systems Operator will reduce the Plant Pathology Section to no clerical support and will significantly increase the overall handling time needed to process a sample from the time it arrives to the identification lab to the time that the results are reported. If this position is lost we will have to consider reassigning clerical staff from another section.

 PRIORITY #36

IT COMPONENT? NO

DESCRIPTION OF ISSUE:

This is to reduce \$105,296 and two (2) FTE in Salaries and Benefits from the Division of Plant Industry's Administration Office as part of the budget reduction plan as follows:

- One (1) Data Processing Manager in the Data Processing Section
- One (1) Maintenance Mechanic from the Maintenance Section

IMPACT OF THIS REDUCTION:

The loss of the following positions would have a significant impact on the Division of Plant Industry.

Data Processing Manager - The loss of a Data Processing Manager within the Division of Plant Industry would have a major impact on our ability to develop new systems to record, report and archive inspections, pest and disease identifications and other plant protection activities. The loss of this position will make us more reliant on outside contractors for application development which is a less efficient and a more costly alternative.

Maintenance Mechanic - The loss of Maintenance Mechanic will impact the division's ability to keep aging equipment operational. The HVAC system, fire suppression systems, electrical, plumbing, vehicles and other equipment at the Doyle Conner complex are aged and outdated and require constant repair and upkeep. Failures to the HVAC system has the potential to result in irreversible damages to the extremely valuable work conducted in our many greenhouses including irreplaceable citrus germplasm, biological control colonies and diagnostic research studies.

DESCRIPTION OF ISSUE:

This is to reduce \$82,799 and two (2) FTE in General Revenue funding from the Salaries and Benefits category in the Bureau of Methods Development and Biological Control as part of the budget reduction plan as follows:

- One (1) Operations Analyst II from the Bureau of Methods Development and Biological Control
- One (1) Agricultural Technician III from the Bureau of Methods Development and Biological Control

IMPACT OF THIS REDUCTION:

Operations Analyst II - The Operations Analyst II position is the only state asset (our eyes and ears) we have involved in the Mediterranean fruit fly (Medfly) Preventative Release Program (PRP) Rearing Facility. By eliminating this position the State will no longer have an employee involved in the quality control and rearing / release technique development of the Florida Medfly program.

Agricultural Technician III - This position is responsible for many different specialized areas including: building security and after hours project monitoring, fumigation, fruit fly methods development, imported fire ant certification, hazardous chemical disposal and cactus moth rearing. By eliminating this position we will no longer be able to test soils for imported fire ant certification; we will be unable to do the necessary work on methods development of fruit fly trapping and eradication techniques; and our security schedule will no longer cover full weekends. This lack of security and project monitoring during the weekends could lead to catastrophic losses in our many biological control programs. All fumigation, hazardous chemical disposal and construction and design projects will have to be handled by one employee if

AGENCY ISSUE NARRATIVE:

SCH VIIIB-2 NARR 14-15 NARRATIVE:
 PRIORITY #40

IT COMPONENT? NO

DESCRIPTION OF ISSUE:

This is to reduce two (2) FTE and \$83,859, \$37,020 in General Revenue and \$46,839 in the Agricultural Emergency Eradication Trust Fund in the Bureau of Plant and Apiary Inspection from the Salaries and Benefits category as part of the budget reduction plan as follows:

- One (1) Senior Word Processing Systems Operator from the Bureau of Plant and Apiary Inspection
- One (1) Environmental Specialist I from the Bureau of Plant and Apiary Inspection

IMPACT OF THIS REDUCTION:

Senior Word Processing Systems Operator - The loss of the Senior Word Processing Systems Operator would result in the inability to coordinate and process over 1,000 nematode certification letters required for the entry of live plants from Florida producers into Arizona, California, Texas, Louisiana and foreign markets. This certification accounts for all plant material exported to these markets without which Florida producers would be significantly impacted.

Environmental Specialist I - The loss of an inspector position would have a major impact and is proposed only out of the necessity to meet the required 5% reduction target. A reduction of one plant inspector would have a significant impact on the services provided to customers, particularly the nursery industry and other export agribusinesses that rely on inspection services to retain certification and to allow for intra/interstate and international movement of regulated commodities. The Division lost four inspector FTE's in the 2011 budget reduction. Other duties include tending of fruit fly traps and assistance in special projects.

COST SUMMARY:

DESCRIPTION OF ISSUE:

This is to reduce \$46,839 and one (1) FTE in Salaries and Benefits from the Bureau of Budwood Registration as part of the budget reduction plan as follows:

One (1) Environmental Specialist I

Impact of this Reduction:

Environmental Specialist I - The loss of a position from this relatively small industry-funded bureau would have a significant impact on our ability to continue to provide a ready supply of clean citrus propagative material to citrus growers. The demand for citrus budwood has and continues to increase with over 528,000 citrus bud eyes cut from the Bureaus foundation plantings over the last year. It is essential to have adequate staff to care take the trees properly to maximize budwood yield, maintain accurate records on propagations and track them to the nursery which ensures only clean stock is used by the industry.

 PRIORITY #12

DESCRIPTION OF REDUCTION ISSUE:

This is a reduction in the Agricultural Emergency Eradication Trust Fund of \$18,798 out the Special Category, Apiary Indemnities.

IMPACT OF THE REDUCTIONS:

Apiary Indemnities - This reduction would have a significant impact on the Division's Apiary Inspection Program and the health and vitality of managed honey bee colonies that are essential to the pollination of crops and plants in natural areas. Bee keepers with honey bee colonies infected with the honey bee bacterial disease known as American foul brood have historically been compensated through the Division's Apiary Inspection Section as the infected colonies must be depopulated and the equipment burned. If this practice is discontinued it will lead to uncooperative honey bee colony owners who may attempt to hide their infected colonies or seek litigation for compensation, thus placing other bee keepers at risk of disease exposure impacting pollination and our agriculture well being and potentially costing the state additional money for the compensation of destroyed colonies.

CALCULATION OF REDUCTION AMOUNT:

Apiary Indemnities was used to properly adjust the balances after personnel reductions were calculated to meet the targeted reduction amounts.

DESCRIPTION OF REDUCTION ISSUE:

This is a reduction from the Plant Inspection Trust Fund of \$252,782 out of the Special Category, TR/IFAS/INVASIVE EXOTICS that is transferred to the Institute of Food and Agricultural Sciences (IFAS) for Invasive Plant Research.

IMPACT OF THE REDUCTIONS:

The reduction of the IFAS Invasive Plant Research authority would have a moderate impact on the Division. This reduction impacts the pass through funding that supports invasive exotic plant research at a quarantine lab in Ft. Pierce for plants and animals that must be quarantined before being released.

CALCULATION OF REDUCTION AMOUNT:

IFAS Invasive Plant Research was used to properly adjust the balances after personnel reductions were calculated to meet the targeted reduction amounts.

AGENCY ISSUE NARRATIVE:

SCH VIIIIB-2 NARR 14-15 NARRATIVE: IT COMPONENT? NO
 PRIORITY #32

DESCRIPTION OF REDUCTION ISSUE:

This is a reduction from General Revenue of \$34,831 out of the Expenses category.

IMPACT OF THE REDUCTIONS:

This reduction would have a significant impact on the Division's ability to cope with the high price of gasoline and the costs of rental facilities with secure parking for offices throughout the state. The Division of Plant Industry conducts plant pest detection and response activities and agricultural product inspections for export statewide and is dependent on a mobile inspection staff to carry out these important activities. The loss of expense funds would greatly reduce our mobility and strategic geographic office locations and as a result affect our ability to protect our agricultural industry and facilitate exports. These activities are core responsibilities of the Division that include regulatory inspections, pest surveys and when needed, eradication/control of plant pests and diseases of economic importance.

CALCULATION OF REDUCTION AMOUNT:

Expenses were used to properly adjust the balances after personnel reductions were calculated to meet the targeted reduction amounts.

STATUTORY CHANGE(S): N/A

AGENCY ISSUE NARRATIVE:

SCH VIIIIB-2 NARR 14-15 NARRATIVE: IT COMPONENT? NO
 PRIORITY #15

DESCRIPTION OF REDUCTION ISSUE:

This is a reduction of \$33,771 in Contracted Services out of General Revenue, Agricultural Emergency Eradication Trust Fund, Plant Industry Trust Fund, and Citrus Inspection Trust Fund.

IMPACT OF THE REDUCTIONS:

Contracted Services - This reduction would have a significant impact as it would primarily affect the division's laboratory equipment maintenance contracts. The equipment used in the Entomology, Nematology, Plant Pathology, Advanced Diagnostic and Botany laboratories are high-value, sensitive items that require regular servicing and calibration. The loss of these contracts would result in significantly higher costs for servicing/calibrating equipment, and exorbitant costs for repairs. Equipment that is not properly and regularly serviced and maintained raises the risk of inaccurate test results.

CALCULATION OF REDUCTION AMOUNT:

Contracted Services was used to properly adjust the balances after personnel reductions were calculated to meet the targeted reduction amounts.

from the school breakfast supplement in the General Appropriations Act. All allocations from these funds are critical to the recipients and would impact them greatly if not received. The reduction requirement is being met through the breakfast supplement as opposed to reducing the lunch match appropriation. While the reduction to the breakfast supplement will have a significant impact on recipients, a reduction to the lunch match would jeopardize federal funding for claims payments if the required match was not fully met.

CALCULATION OF REDUCTION AMOUNT:
 Target amount of \$844,303 is 5% of total of General Revenue - Aid to Local Governments (both lunch match and breakfast supplement) appropriation for FY 2013-14.

STATUTORY CHANGE(S): None needed

AGENCY ISSUE NARRATIVE:

SCH VIIIIB-2 NARR 14-15 NARRATIVE: IT COMPONENT? NO
 PRIORITY #27

DESCRIPTION OF REDUCTION ISSUE:

Reduction to the state match for The Emergency Food Assistance Program (TEFAP).

IMPACT OF THE REDUCTION:

Significant - The Emergency Food Assistance Program (TEFAP) is a federal program that helps improve the diets of low-income Americans, regardless of age, by providing them with emergency food and nutrition assistance at no cost. TEFAP plays a vital role in providing food assistance by supplementing other donated foods distributed by the emergency feeding organizations. This is the required match to administer the TEFAP program. A reduction in funds would jeopardize federal funding if the required match was not fully met.

CALCULATION OF REDUCTION AMOUNT:

Target amount of \$10,226 is 5% of total of General Revenue TEFAP appropriation for FY 2013-14.

STATUTORY CHANGE(S): None needed

AGENCY ISSUE NARRATIVE:

SCH VIIIIB-2 NARR 14-15 NARRATIVE: IT COMPONENT? NO
 PRIORITY #29

DESCRIPTION OF REDUCTION ISSUE:

Reduction of General Inspection Trust Fund Contracted Services authority in the Women Infant and Children's (WIC) and Farmer's Market Nutrition Programs (FMNP).

IMPACT OF THE REDUCTION:

Significant - The FMNP provides WIC participants with coupons that can be used to purchase locally-grown, fresh Florida fruit and vegetables. This produce can be purchased at authorized farmers' markets from April 1 to July 31. The current allocation is distributed as follows: Value of Food Coupons (\$174,160); Processing of Coupons by Financial Institution (\$9,000); Distribution of Coupons through the Memorandum of Understanding (MOU) with Department of Health (\$32,200); and Miscellaneous (\$4,640). A reduction in either Expenses or in Contracted Services (the only two categories associated with these programs in GITF) would jeopardize the department's ability to provide aid.

CALCULATION OF REDUCTION AMOUNT:

Target amount of \$11,000 is 5% of total of General Inspection Trust Fund appropriation for FY 2013-14.

STATUTORY CHANGE(S): None needed
