This issue requests Non-Recurring budget appropriation within the Grants and Donations Trust Fund in the amount of \$154,157. We are requesting \$1,734 in Expense and \$152,423 in the Operating Capital Outlay (OCO) Category (060000) to replace items that have reached/exceeded their useful life. The replacement items will be purchased for all State Veterans home facilities. The homes range in age from 4 to 18 years old. Numerous equipment items have reached their viable lifetime use and need to be replaced. This authority would enable the Homes Program to replace the old and outdated equipment.

Equipment Replacement Items

QTY	Description	Estimated Cost	Total Request
5	Hi-Low Beds	\$ 1,000	\$ 5,000
3	Ice Machines	3,400	10,200
1	Plate Warmer	2,300	2,300

10	Broda Chairs	2,000	20,000
Equipment Replacement: OCO (060000)			\$122,000
			=====

The five Florida Department of Veterans' Affairs (FDVA) Skilled Nursing Facilities have two providers of Rehabilitation services which include Physical Therapy, Occupational Therapy and Speech Therapy. FDVA is responsible for the purchasing of all equipment. There are several equipment items that are needed to provide an improved level of medically necessary rehabilitation services for the residents.

Without the purchase of this equipment the Department of Veterans' Affairs will not be able replace old and outdated

AGENCY ISSUE NARRATIVE:

2009-2010 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

PROGRAM TITLE: Division of Homes

ISSUE TITLE: State Nursing Home Program Purchase Vans Equipped to Transport Handicapped Residents

FUNDING SOURCE NAME: General Revenue

LONG RANGE PROGRAM PLAN MEASURE: Percent of Veterans Homes in Substantial Compliance with State and Federal Healthcare Regulations

This issue requests the authority to purchase one 22 foot van equipped with a Braun wheelchair lift, six wheelchair sure lock restraint systems and eight fold-away seats for the new State Veterans' Nursing Home (SVNH) in St. Johns County. (See issue 4109000). The St. Johns SVNH is scheduled to open in March 2010.

Providing transportation to the residents of our nursing homes is an integral and necessary part of the services provided by each of our facilities. The Vans are essential for 1) Resident transportation to medical appointments at local health care providers, and 2) recreational outings and participation in community activities.

AGENCY ISSUE NARRATIVE:

2009-2010 BUDGET YEAR NARRATIVE:

IT COMPONENT? YES

Program Title: Division of Homes

Issue Title: Operations Maintenance Management System - Software Platform (36340C0)

Funding Source: Operations Maintenance Trust Fund

Long Range Program Plan Measure: Occupancy rate for veterans' homes in operation for two years or longer.

This issue requests an increase in budget authority within the Contracted Services Category (100777) in the Operations Maintenance Trust Fund in the amount of \$10,500 for Operations Maintenance Building Engine Software. The Department of Veterans' Affairs requests \$9,000 in Recurring and \$1,500 in Non Recurring budget appropriation.

The following system is being requested to enable continuous improvement of the Florida Department of Veterans' Affairs (FDVA) infrastructure supporting the operations of the FDVA nursing home facilities. The system provides a software platform with interrelated modules, wireless data collection and comprehensive messaging tools to support the following:

Operations Maintenance Management System:

- Work order service request
- Preventative Maintenance Tracking
- Certificate insurance tracking and notifications
- Fire and Safety Emergency Planning
- Incident tracking and reporting
- Critical data reminders
- Management Reporting

 BUDGET ENTITY/SERVICE TITLE: 50100100

ISSUE TITLE: Apollo RM, Risk Management System (36350C0)

FUNDING SOURCE NAME: Operations Maintenance Trust Fund - 2516

LONG RANGE PROGRAM PLAN MEASURE: Occupancy rate for veterans' homes in operation for two years or longer.

This issue requests an increase totaling \$17,100 in the Contracted Services Category (100777) in the Operations Maintenance Trust Fund. Of the \$17,100 increase in appropriation \$6,900 is Non-Recurring and \$10,200 is Recurring. This additional appropriation is needed to contract with Polaris to utilize Apollo RM, Systems Software in the State Veterans' Nursing Home facilities.

The Apollo RM, System is software that evaluates the accuracy of the Minimum Data Set (MDS) submission which determines the level of reimbursement for the resident in the skilled nursing facility. The Apollo RM system assists in assuring accuracy by providing immediate error messages allowing for corrections and improved reimbursement. The tool improves the accuracy of MDS and provides recommendations to improve the reimbursement level. The on line real time tool can improve the quality of care, benchmark facility performance and assist the facility to better manage risk and liability.

The Apollo System provides immediate survey trends utilizing the Center for Medicare-Medicaid Services (CMS) data. This data assists the facility in identifying high risk residents and to pro-actively identify risk areas which may result in deficiencies during the Agency for Health Care Administration (ACHA) survey. In addition, the system provides access to current regulations, readily accessible management reports and a quarterly corporate roll-up report.

If this budget issue is not approved it will inhibit the Florida Department of Veterans' Affairs efficiency hamper our ability to improve the performance level of reimbursement for the health care provided to residents of State Nursing Homes.

Issue Title: Tray Trackker - Dietary Software (36360C0)

Funding Source: Operations and Maintenance Trust Fund

Long Range Program Plan Measure: Percent of veterans homes in substantial compliance with state and federal healthcare regulations.

Table with columns: COL A03 (AGY REQUEST FY 2009-10), COL A04 (AGY REQ N/R FY 2009-10), COL A05 (AG REQ ANZ FY 2009-10), and CODES. Rows include: VETERANS' AFFAIRS, DEPT OF; PGM: SERVICES TO VETERANS; VETERANS' HOMES; HEALTH AND HUMAN SERVICES; LONG-TERM CARE; PROGRAM OR SERVICE-LEVEL INFORMATION TECHNOLOGY; TRAY TRAKKER SOFTWARE; DIETARY SOFTWARE.

This issue requests an increase of \$13,640 in recurring budget authority within the Expense (040000) Appropriation in the Operations and Maintenance Trust Fund. This increase is for a yearly renewal fee for Tray Trakkar, Dietary Software utilized in five of the Department of Veterans' Affairs, State Nursing facilities.

In Fiscal Year 2008-2009 the legislature approved the allocation of Full Time Equivalent positions (FTEs) for the Douglas T. Jacobson State Veterans' Home, the Alexander Nininger and the Clifford Chester Sims facilities to transition the dietary services from an outsourced contracted service to an in-house operation. In August 2008, the outsourced contract was terminated and the dietary departments are now staffed with state employees. To transition the dietary services, hardware and software was purchased to provide adequate resources for the purchasing of food and equipment, clinical documentation and to produce resident-specific tray cards and nourishment labels.

The Baldomero Lopez facility has been using the Tray Trakker Software. The software license was renewed for this facility. This appropriation will be used to standardize the system use of the Tray Trakker Software.

Cost Summary:

Tray Trakker Software

Expense -(040000)

 2009-2010 Budget Year Narrative:

Program Title: State Veterans Nursing Homes

Funding Source: General Revenue (1000)
 Grants and Donations Trust Fund (2339)

Issue Title: Initial Staffing/Start Up Funding St. Johns County State Veterans' Nursing Home
 Long Term Care (410900)

Long Range Program Plan Measure: Number of Veteran Beds Available

The sixth State Veterans' Nursing in St. Johns County will begin construction in November 2008 and has a projected completion date of January 2010. With the appropriate staffing, training and licensing, the State Veterans' Nursing Home is scheduled to open in March 2010.

This issue requests 144 FTEs, which include 25 FTEs required by Senate Bill 1202, to staff the operations of the Nursing Home. One FTE is requested as a Veterans Claims Examiner which would require recurring General Revenue. All Salaries

and Benefits, Other Personnel Services, Expense, Food Products and Contracted Services costs are projected for four months (except for Key Staff members) to allow for the purchase of initial materials and supplies, hiring and training of staff, and obtain certification prior to the admission of residents. Key Staff members, who are required to develop operational plans, policies and procedures and oversee the furnishing and staffing of the nursing home, will be hired beginning in July 2009. The home will use contracted services for housekeeping, pharmacy and other health related services.

This request includes required General Revenue funding for the start-up period of the nursing home (total cost of operations less trust fund revenue collected during the start up period). The Department of Veterans' Affairs requests \$4,734,521 in General Revenue. We are requesting \$4,734,521 of which \$483,359 in non-recurring budget appropriation.

In addition, an appropriation from the Grants and Donations Trust Fund (2339) is needed for the Recreational Equipment/Supplies Category (103042). This appropriation will be used to purchase items for the direct benefit of the residents. This request is for recurring funds in the amount of \$10,500.

Salaries and Benefits: (010000)

It is imperative to be able to offer competitive salaries in the current market (staffing shortages and high turnover rates). According to the Florida Health Care Association, when defining Florida's staffing shortage, it was noted that St. Johns County has the third highest number of persons over 65 years old, with a ratio of 57 persons 65+ per available Certified Nursing Assistant. Competitive salaries are necessary to retain staff and to reduce very costly temporary agency staffing. Base rate salary information was established per the AAHSA Nursing Home Salary and Benefit Report 2007-08. In addition, the new nursing home facility design is structured to emphasize a residential, homelike, environment with each unit/house having 20 residents replicating the atmosphere of a home. The new design with each of the 6 units located around a central courtyard, is arranged so that resident interaction is encouraged while resident privacy is provided. The design which benefits the resident does require additional staffing to assure adequate observation and to provide a level of care required.

	FTE	Base Rate	Benefits	Subtotal	Lapsed Salaries and Benefits
New Positions	---	-----	-----	-----	-----
Total Salaries and Benefits:(010000)	144	\$4,139,639	\$1,956,122	\$6,095,761	\$2,222,785

Other Personnel Services:(030000)

Title: Division of Homes

Issue Title: Food Increase Long Term Care - 4200010

Funding Source: Operations and Maintenance Trust Fund (OMTF) 2516

Long Range Program Plan Measure: Occupancy rate for veterans' homes in operation for two years or longer.

This issue requests an increase in recurring budget authority in the Food Products Category (070000) in the amount of \$1,039,851 within the Operations and Maintenance Trust Fund (OMTF) to pay for food products in the State Veterans' Home facilities.

Due to the increasing costs of energy and fuel food products have risen considerably in Fiscal Year 2007-2008 and continue to rise. The Department of Veterans' Affairs(FDVA) is currently experiencing inadequate funding for the five state nursing and domiciliary homes. The Bureau of Labor statistics reported in June 2008 that the Consumer Price Index for energy increased 6.6% in July following an increase in May 2008 of 4.4%. The increase in the energy index accounted for approximately two-thirds of the overall increase for June. The index for petroleum based energy rose 10% and the food index rose .3% in May and .8% in June. Consumer Prices for energy advanced at a seasonally annualized rate of 29.1% in the first half of 2008, accounting for around one-half of the advance for all items.

Increased energy costs is only one variable in the increasing costs of food products. The food index rose at 6.8% in the first half of 2008 accounting for one sixth of the overall CPI-U increase in the period. The US Foods contract, a state term contract, is the contractor for food for all Department of Veterans' Affairs facilities. US Foods costs are based on current market prices which are contingent on the fluctuations in the market place. Items such as produce, milk and bread are purchased locally from various vendors.

Issue Title: Increase to the Expense Category

Funding Source: Operations and Maintenance Trust Fund (2516)

Long Range Program Plan Measure: Occupancy rate for veterans' homes in operation for two years or longer.

This issue requests an increase in budget authority in the Expense Category (040000) in the amount of \$ 125,037 within the Operations and Maintenance Trust Fund (OMTF) to pay for the rising rate increases for electric and utility services within the Department of Veterans' Affairs six nursing home facilities.

The Bureau of Labor statistics reported in June 2008 the the Consumer Price Index for energy increased 6.6% in July following an increase in May 2008 of 4.4%. The increase in the energy index accounted for approximately two-thirds of the overall increase in June. The index for petroleum-based energy rose 10%. Consumer Prices for energy advanced at a seasonally annualized rate of 29.11% in the first half of 2008, accounting for around one-half of the advance for all items. Florida Power and Light (FPL) which services four FDVA facilities has projected 7.5% to a 9% increase in 2009.

As stated in a September 2, 2008 Florida Power and Light (FPL) news release, "The primary components of the adjustment include pass-through fuel costs, previously announced investments in nuclear power generation, and energy conservation costs. Bill estimates are subject to change based on fluctuation in fuel prices, the potential impact of hurricanes and other factors which cannot be anticipated". Progress Energy which services the Land O' Lakes facility has an estimated

Long Range Program Plan Measure: Occupancy Rates for Veterans' Homes in Operation for Two Years or Longer

This issue requests an increase budget authority totaling \$1,383,937 in the Other Personal Services (OPS) 030000 Category for the five State Veterans' Nursing Homes (SVNH) and one State Veterans' Domiciliary Home (SVDH). This additional budget authority will pay for OPS positions currently staffed by temporary staffing agencies.

Over the last several years the Department of Veterans' Affairs has experienced ever increasing temporary nurse staffing costs in the six State Veterans Homes. Considering the documented nursing shortage in the state and the fact that state salaries have not remained competitive in today's market, the ability to attract quality staff has declined. The temporary agency costs have escalated from \$1.5 million since year 2005 to over \$5.3 million in year 2008.

The average hourly rates for temporary agencies servicing FDVA facilities are as follows:

- Registered Nurse Supervisors \$43.86
- Registered Nurses (RN) \$42.45
- Licensed Practical Nurses (LPN) \$35.15
- Certified Nursing Assistants (CNA) \$21.30

Most temporary agencies charge a weekend differential of approximately \$2.00 per hour and time and half for holiday coverage with an additional 60% - 66% for holiday coverage that occurs on a weekend.

As of June 2008 the average vacancy rate in the FDVA facilities for RN, LPN, and CNA positions was 17%. The Florida Center for Nursing, 2007 "Nurse Employer Survey: Methods and Statewide Results" revealed that Full Time Equivalent (FTE) position vacancy rates for RN's in the state were especially high for skilled nursing facilities. The average vacancy rate for RN's, LPN's and CNA's according to this report was 9.7%. Also, this same study indicated that the median turnover rates in skilled nursing facilities is, 42.8% for RN's, 37.8% for LPN's and 42.5% for CNA's.

The Florida Center for Nursing has projected a 39% increase in the need for RN's in Nursing facilities from 2002-2012. The need for nurses will only increase as the population that nursing facilities serves grow larger. To meet State and Federal staffing requirements facilities must develop the most efficient and effective staffing patterns while considering the acuity levels of each resident. FDVA has implemented an Agency Reduction Plan to decrease agency staffing expenditures, while not jeopardizing the quality of care.

RECURRING BUDGET BASE - INCREASE				4200030

To that end, it is imperative that each facility develop a flexible pool of nursing staff to replace much more costly temporary agency staff and that turnover and vacancy rates are monitored and retention and recruitment plans are in place.

According to the American Association of Homes and Services for the Aging Nursing Home Salary and Benefits Report 2007-2008, the average state hourly rate for a Registered Nurse is \$23.85. A Licensed Practical Nurse \$18.67 and Certified Nursing Assistant is \$10.49 compared to FDVA base rates of \$22.59 for a Registered Nurse, \$17.53 for Licensed Practical Nurse's and the Certified Nursing Assistant's cost per hour is \$11.59. By hiring OPS nursing staff instead of using temporary agencies the Department would show a cost savings per hour as follows:

	Temp Agency Rates	Requested OPS Rate	Difference
- Registered Nurse Supervisors	\$43.86	\$23.53	\$20.33
- Registered Nurses	\$42.45	\$22.59	\$19.86
- Licensed Practical Nurses	\$35.15	\$17.53	\$17.62
- Certified Nursing Assistants	\$21.30	\$11.59	\$ 9.71

The projected cost of using temporary agencies for Fiscal Year 2009-2010 is \$3,081,402. The costs for using OPS instead of temporary agencies would cost \$1,863,937. Therefore a cost savings of \$1,217,465 could be derived by increasing the budget authority in the OPS category. Not only would there be a cost savings but a consistent pool of FDVA trained nursing staff which would assure continuity of care.

Failure to increase budget authority in the OPS appropriation would result in the Department paying high agency hourly rates and the inability to meet state and federal staffing requirements in monetary fines and most importantly decreased quality of care for our Florida Veterans.

Agency Issue Narrative: Contractual Services - Price Increase (430000)

Long Range Program Plan Measure: Percent of Veterans' Homes in Substantial Compliance with State and Federal Healthcare Regulations

This issue requests additional recurring budget authority in the Contracted Services Category (100777) within the Operations and Maintenance Trust Fund (2516) in the amount of \$990,842. Over the last several years the Department of Veterans' Affairs has experienced rising Contractual Services costs for the many services provided in the State Veterans' Nursing (SVNH) and Domiciliary (SVDH)Homes.

Crothall Housekeeping and Laundry Services provide services for three of the Department of Veterans' Affairs State Nursing Home facilities. (The Sandy Nininger SVNH in Pembroke Pines, the Clifford Sims SVNH in Springfield and the Douglas Jacobson SVNH in Port Charlotte.) The Housekeeping and Laundry Services are provided in accordance with the contract number FDVA-04-C001, Modification #10. The Department is requesting an increase in budget appropriation in the amount of \$62,113.

RehabCare provides services for five of the Department of Veterans' Affairs State Nursing Home facilities. The RehabCare services provide therapy for the residents in the Robert Jenkins, Emory Bennett, Baldomero Lopez, Sandy Nininger and Clifford Sims nursing home facilities. The Department requests an increase in budget appropriation in the amount of \$365,897 to realign the costs in therapy services.

Functional Pathways provide services for occupational, speech and physical therapy services for the Department of Veterans' Affairs residents located at the Douglas Jacobson, Nursing Home facility located in Port Charlotte. The Department requests an increase in budget appropriation in the amount of \$122,204 to realign the costs in therapy services.

VA Pharmacy provides pharmacy services to five of the Department of Veterans State Nursing Homes facilities. The five nursing home facilities have experienced a 26% rise in these services since FY 2006-2007. We are requesting an increase in budget authority to realign these services in the amount of \$405,151.

Polaris - Accounting Consulting is the consulting company the Department of Veterans' Affairs contracts to provide in the aid of the preparation of cost reporting. The Department request in increase in the amount of \$12,961 to pay for the additional increase in the contract.

Non-Emergency Transportation Services - Due to the requirements of Florida Statute 427.0135(2), the Florida Department of Veterans' Affairs, Division of Homes is requesting \$22,516. This appropriation will be used to comply with the Transportation Disadvantaged Service Plan which provides transportation disadvantaged services to persons who because of physical or mental disability, income status, or age are unable to transport themselves or to purchase transportation are

The Florida Center for Nursing has projected a 39% increase in the need for RNs in Nursing facilities from 2002-2012. The need for nurses will only increase as the population that the nursing facilities serve grows larger. To meet State and Federal staffing requirements facilities must develop the most efficient and effective staffing patterns while considering the acuity levels of each resident.

In FY 07-08 FDVA experienced difficulty in the recruitment and retention of the key positions in the five nursing facilities and the assisted living facility. These positions included the Administrator, Director of Nursing, Risk Manager, MDS Coordinator, Staff Development Coordinator, Registered Nurse and Senior Licensed Practical Nurse. Frequent turnover and the length of time positions are vacant result in a potential for a decrease in the quality and continuity of care.

During FY 07-08 three of the five nursing facilities had the need to recruit for the Risk Manager position and the Staff Development Coordinator on two and three occasions, respectively. To be competitive in the current long term care market the needed salary to recruit and retain the MDS Coordinator, was in a range which is at the state 75th percentile to the maximum according to the American Association of Homes and Services for the Aging Nursing Home Salary and Benefits Report 2007-2008. The MDS Coordinator is a vital position to ensure the accurate assessment of the resident and accurate reimbursement for care. Experience has shown that without competitive salaries these positions are vacant for months which may have a significant negative impact on the overall care provided, the amount of revenue and places the facility at an increased risk as well as the risk for citations by the Federal Veterans' Administration and the Agency for Health Administration.

The American Association of Homes and Services for the Aging Nursing Home Salary and Benefits Report 2007-2008 reported that the state/regional averages for the following positions were:

- Administrator- \$91,485
- Director of Nursing- \$76,950
- Staff Development Coordinator- \$58,608
- Risk Manager-(Nursing Supervisor for facility of same bed size-50th percentile)-\$58,407
- Registered Nurse - \$50,752
- Licensed Practical Nurse - \$39,166

75th percentile-maximum state salary range
 -MDS Coordinator-\$59,977-\$66,560

Failure to adjust the appropriation and rate in the Salaries and Benefits Category will result in further escalation of agency hourly rates, inability to meet state and federal staffing requirements resulting in monetary fines, inability to

compete in today's market for recruitment and retention of a quality staff, and most importantly quality of care for our Florida Veterans will be compromised. The Department of Veterans' Affairs provides a rich benefit package and a dynamic professional environment with the addition of competitive salaries the staffing issues presently experienced should improve.

Cost Summary:

AGENCY ISSUE NARRATIVE:

2009-2010 BUDGET YEAR NARRATIVE: IT COMPONENT? YES

Program Title: Executive Direction/Support Services

Budget Entity/Service Title: Information Technology

Issue Title: Information Resource Management Staffing Requirements (30001C0)

Funding Source Name: General Revenue

Long Range Program Plan Measure: N/A

This issue requests \$207,066 in General Revenue of which \$13,326 is Non Recurring funds to hire (3) Full Time Equivalent (FTE) positions in the Florida Department of Veterans' Affairs Information Technology Program.

The Florida Department of Veterans' Affairs (FDVA) use of mission critical information technology (IT) resources has significantly increased as FDVA continues to expand its State Veterans Homes Program, its Veterans Benefits and Assistance Division and its Executive Direction/Support Services. This staffing increase is necessary for the following reasons. First, the increase in veterans benefits claims processing and veterans outreach serving veterans returning to Florida from Operation Iraqi Freedom (OIF) and Operation Enduring Freedom (OEF). Second, the increased use of informatics systems in our State Veterans Homes Program and the addition of a seventh State Veterans Home in St. Johns County (scheduled to open in March 2010).

The demand for a wide variety of enabling technologies in each of these organizational units has saturated FDVA's existing Information Technology Program, which currently totals ten (10) FTEs. This small IT staff is currently supporting the statewide technical infrastructure for six 24 X 7 long-term healthcare facilities, 17 statewide veterans

claims processing centers, an administrative and program support staff in Largo and an executive headquarters in Tallahassee. The number of FDVA employees requiring IT support already doubled between 2003 and 2007 and with the return of full State employee staffing at three facilities (Pembroke Pines, Springfield and Port Charlotte) another 246 FTE's have been added to the FDVA staff. All of this combines to not only generate a larger workload, but also a more diverse workload encompassing new areas of technical support. This situation will be exacerbated in the second half of 2009 with setup and installation of all IT services once the Certificate of Occupancy is received for the new long-term healthcare facility in St. Johns County.

As the FDVA IT Program's support role has grown so has the need for FTE positions with different skill-sets and with the requisite experience to support more complicated systems. This D-3A request is FDVA's first effort to reorganize IT Program staffing in a manner that will permit the Department to better address its expanding IT needs and responsibilities. FDVA's IT Program is currently supporting a wide range of technical support responsibilities and these will definitely increase by FY 2009-2010. FDVA has supporting documentation for this staffing increase. First, unmet workload estimates support establishing three additional IT FTE's to support FDVA's critical automated systems needs. Second, cost comparisons for contract IT augmentation staffing which illustrates, even with state term contract consulting rates, provision of temporary staffing resources would cost four to five times the amount required for three State of Florida FTE's.

The following describes examples of the operational requirements and increased workload within FDVA. Technical support and systems administration for an integrated clinical and financial database (Ultra-Care for Windows) supporting the operations of six long-term healthcare facilities totaling 750 resident beds. In addition, the IT Program supports a variety of clinical support functions unique to long term healthcare facilities: including 42 wall-mounted touch screen computers for reporting clinical documentation, five Pharmacy operations with specialized software, hardware and network connectivity requirements, general ledger accounting software, various Medicaid/Medicare billing systems, dietary operations systems, telephone systems with integrated voice mail and 900 MHz wireless subsystems, digital video recording security systems, networked biometric time and attendance systems, automated for inventory tracking and billing systems, networked HVAC and energy management systems.

Technical support and systems administration for an in-house developed database application (Veterans Benefits On Line Tracking System or V-BOLTS) which tracks in-take processing for all Florida veterans seeking federal USDVA benefits and State of Florida veterans benefits, federal virtual private network (VPN) support, veterans outreach kiosks, Microsoft Terminal Server access to federal VA databases for benefits look up. Technical support and systems administration for the FDVA's web presence (Internet web site and Intranet), a Veterans First web portal, and electronic newsletter with a weekly subscription of over 22,000 addressees.

FDVA IT requests three additional FTEs for FY 2009-2010. This includes the following job classifications: Distributed Computer Systems Administrator (Pay Grade 425/SES, Class Code 2053), Senior Database Analyst (Pay Grade 25/CS/Class 2122) and a Computer Programmer/Analyst II (Pay Grade 22/CS, Class Code 2103).

 2009-2010 Budget Year Narrative:

Division/Bureau: Division of Executive Direction and Support Services / Information Technology

PROJECT/ISSUE DESCRIPTION: FDVA IT Recurring Base Budget Increase - \$372,030
 Estimated Expenditures - Operations - Information Technology

Long Range Program Plan Measure: Number of State Veteran's Nursing Homes in substantial
 compliance with Agency for Health Care (ACHA) and USDVA
 rules and regulations

This issue requests an increase in the Division of Executive Direction/Annual Information Technology (IT) Program recurring base budget in the amount of \$ 372,030 in General Revenue for the Florida Department of Veterans' Affairs. The increase would include \$ 132,030 in Expense (040000) appropriation and \$ 240,000 in Other Capital Outlay (060000) appropriation.

ANNUAL INFORMATION TECHNOLOGY (IT)						
RECURRING BUDGET BASE - INCREASE						36025C0

The Florida Department of Veterans' Affairs (FDVA) Annual Information Technology Program Recurring Base Budget was reduced from \$758,587 to \$603,734 in FY 2008-2009 and with this reduction FDVA was left with only \$120,512 in critical Operating Capital Outlay (OCO) funding. This further exacerbated the situation already caused by the Florida Department of Veterans' Affairs growth between 2003 and 2007. During this period FDVA has doubled in size and we have increased operations from four State Veterans' long term healthcare facilities to six. A seventh facility is now scheduled to open in March 2010.

This issue requests a \$372,030 increase for the FDVA Annual IT Program Recurring Base Budget; the increase would include \$132,030 in Expense and \$240,000 in OCO funding. This increased allocation would provide adequate funding to support critical database applications, network file servers, personal computers, printers, back office and desktop computer software, network connectivity and the integral technical support resources. This funding is essential for the FDVA to continue day-to-day operations in all Division programs, including veterans' claims processing, advocacy and state veterans' homes.

FDVA cannot realistically provide services to Florida's nearly two million veterans without the capability to access and exchange information via its networked automated systems. These essential IT functions cannot be supported on an annual basis with only \$120,512 (our 2003) OCO baseline. The current level of appropriation is significantly inadequate to meet FDVA's needs in FY 2009-2010. FDVA has a line item spending plan with Expense and OCO allocations for this FY 2009-2010 requested increase.

These funds provide technical support services for FDVA's network file servers, personal computers and printers at twenty-eight (28) statewide locations (including six 24 x 7 long-term healthcare facilities). Information technology resources have become increasingly important as FDVA continues to build and operate State Veterans' Nursing Homes. At this time FDVA has facilities located in Daytona Beach (Volusia County), Lake City (Columbia County), Land O' Lakes (Pasco County), Pembroke Pines (Broward County) Port Charlotte (Charlotte County) and Springfield (Bay County) and a seventh facility is scheduled to be built in St. Augustine (St. Johns County) in 2009/2010.

Unfavorable consideration for this IT Recurring Base Budget increase will significantly degrade FDVA's ability to provide efficient and timely IT support services, and hamper FDVA's efforts to bring significant Federal revenue to Florida veterans through compensation and pension payments, home loans, educational benefits, vocational rehabilitation, insurance and indemnity payments and medical services. Our Division of Benefits and Assistance accounts for \$220+ million annually in total United States Department Veterans Affairs compensation for Florida's growing veteran population and our six State Veterans Homes account for approximately \$50+ million annually. The outcomes from FDVA's operations service are clearly advantageous to the State of Florida as they offset citizen services with Federal dollars that would otherwise be directed to Florida's other health and human services activities.

AGENCY ISSUE NARRATIVE:

2009-2010 BUDGET YEAR NARRATIVE:

IT COMPONENT? NO

Agency Issue Narrative:

2009-2010 Budget Year Narrative:

Division/Bureau: Division of Benefits and Assistance / Bureau State Approving Veterans' Training

Funding Source: General Revenue (1000)

Long Range Program Plan Measure: Number of claims processed - Timely submission of claims

This issue requests a transfer of budget authority of \$1,000 from Expense to the Contracted Services appropriation category. The Contracted Services Category will be used to pay for the Division's courier services.

Chapter 2005-152 Laws of Florida, amended S.216.011(1)(n) during the 2005 Legislature session to remove "Contracted Services" from the Expense appropriation category. As a result, this requires vendors such as courier services to be paid from the Contracted Services Category instead of the Expense category.

The Division of Benefits and Assistance utilizes courier services for Bay Pines VA Regional Office Building and field personnel. Should this issue not be approved the Division would not be able to pay the courier services expenditures from the appropriate category.

The request is for one Accredited Veterans Representative at each of Florida's 28 state and community colleges and 11 state universities. A total of 39 FTE's employed and trained by the Florida Department of Veterans' Affairs Division of Benefits and Assistance for accreditation by the United States Department of Veterans Affairs to access the entire range of benefits returning veterans have earned. Based upon current salaries for existing Veteran Claims Examiners, salaries and benefits for 39 FTE's would total approximately \$2,108,496 in recurring GR.

The Department of Defense records show 158,000 men and women who have been deployed in the Global War on Terrorism list Florida as their Home of Record. On June 30 2008, President Bush signed into law the most comprehensive Educational GI Bill since World War Two providing an estimated \$62B in funding for tuition, fees, books, supplies, student housing, transportation and other education expenses. Florida's colleges and universities will experience an explosion of returning veterans on campus beginning with the GI Bill's effective date August 1, 2009.

Social spending on veterans has provided tremendous returns for the nation. The original GI Bill of 1946 is a good example of targeted social spending and allowed an entire generation of World War II veterans to access higher education and realize upward social mobility. The Viet Nam era veterans came home in smaller numbers however initially did not take advantage of their educational benefits. Operation Outreach, the Viet Nam VET REP Program placed a full time employee at each major campus. As a result, the number of Viet Nam Era veterans using their educational benefit rose from 25% in 1969 to 76% in 1974. The new Post 9/11 GI Bill holds promise to do the same for this generation of veterans.

By Vet Reps being able to access all federal benefits including mental health, housing, and counseling, the attrition rate will drop, and the graduation rate will increase. Lack of such preparation will result in significant numbers of student veterans not completing their education, not receiving the other benefits they have earned and billions of federal dollars unused or diverted to other states who had foreseen the influx and prepared for it.

CLAIMS BUREAU STAFFING INCREASE						3000040

This issue requests \$45,927 in General Revenue funds of which \$3,971 in Non Recurring funds to hire (1) Full Time Equivalent (FTE) Staff Assistant in the Bureau of Claims Services.

The Florida Department of Veterans' Affairs (FDVA), Division of Veterans' Benefits and Assistance - Bureau of Veterans' Claims Services, provides direct advocacy in support of claims processing and appellate review of appeals of the United States Department of Veterans Affairs (USDVA) decisions. Total workload procedures for Veterans Claims Examiners (VCE's) have risen from 182,000 in Fiscal Year 2004 to 217,172 in Fiscal Year 2008. The USDVA continually hires Veterans Service Representatives to respond to the increased demand for entitlement to veteran's benefits. To meet the Federal demand FDVA must continue to add staff to better provide services to Florida veterans, therefore, we request an additional full time Staff Assistant.

The major responsibilities of the requested Staff Assistant include:

Provide administrative support to Claims Services to receive telephone inquiries and walk-in clients. Serve as receptionist for visitors and operates the Department switchboard. Takes messages and/or makes appointments for visitors.

Direct telephone inquiries and walk-in visitors to the appropriate Veterans Claims Examiner (VCE) or staff member.

Provide information to the general public to assist in locating veterans service organizations with the USDVA Regional Office.

Maintain walk-in log to include information on voter registration.

Access USDVA computer applications to check power of attorney information for veterans and VCE's.

Prepare and process State of Florida Disabled Veterans ID cards. Distribute USDVA application screens to service organization holding veterans Power of Attorney for additional information needed to process ID Cards. Prepare and mail ineligibility letters. Provide response to inquiries regarding status of ID card.

Log veterans and claimants data in Veterans Benefits Online Tracking System (VBOLTS). Record purpose of visit to include differentiation of Regional Office and Board of Veterans' Appeals hearings. Compare VBOLTS data to USDVA computer application data for accuracy.

Receive and complete out-of-state requests for birth certificates, adoption documents, marriage licenses, and divorce documents. Distribute requested material to requestor.

Receive, copy and process end of month informal claims received by fax. Includes delivering to USDVA Public Contact Unit for date stamp and deliver returning copy to assigned VCE.

Budget Entity Service Title: Division of Benefits and Assistance

Issue Title: Recurring base budget - Increase (3000500)

Funding Source: General Revenue (1000)

Long Range Program Plan Measure: Number of Services to Veterans

This issue requests a \$71,552 increase in the recurring base budget for the Benefits and Assistance Division of the Florida Department of Veterans' Affairs. This increase is necessary to fund the expansion of the Field Services Bureau's activities and provide outreach support for the Governor's Priority #2 - Strengthening Florida Families via the Florida Seamless Transition Program. When time is critical for benefits or urgent medical care is needed, cases are expedited by FDVA staff through the United States Department of Veterans Affairs (USDVA) health care system. We have implemented a special case management known as the Florida's Seamless Transition Program (FSTP). This program enables the severely injured service members returning to Florida and families of those military service members killed in action to receive timely, assistance in obtaining the benefits and access to services they have earned by their military service. The FSTP expedites claims processing for Operation Iraqi Freedom/Operation Enduring Freedom (OIF/OEF) veterans returning to Florida. The program ensures our severely injured service members are identified when they move from military hospitals to USDVA medical facilities in Florida and tracked by state government agencies offering a variety of health care, education, employment and financial benefits to supplement existing programs. In particular, the request would provide additional funding for the travel and administrative costs related to the nine additional full time equivalent (FTE) positions added in fiscal year 2007/08 specifically earmarked to support returning soldiers engaged in the Global War on Terrorism (GWOT). These positions are extensively involved with returning Florida soldiers and require frequent travel to the almost 200 Florida locations for active duty, reserve, and guard soldiers.

Veterans' Benefits and Assistance Division:

Veterans' Benefits and Assistance provides assistance to all former, present, and future members of the Armed Forces of the United States and their dependents in preparing claims for and securing such compensation, hospitalization, educational and vocational training and other benefits or privileges to which such persons are or may become entitled under any Federal or State law or regulation by reason of their honorable service in the Armed Forces of the United States. This mandate is facilitated and accomplished through the activities of the Bureau of Veterans' Claims Services, Bureau of Veterans' Field Services and Bureau of State Approving for Veterans' Training.

During 2007/08, the Division initiated 23,355 new claims for Florida veterans and family members. The value of benefits granted for claims advocacy total \$220,268,614. In addition, retroactive payment of benefits due, related to these claims, added an additional \$84,661,562. The advocacy work of the Division also resulted in \$498,349 in debt relief for Florida veterans and family members. Staff with the Bureau of Field Services, located at the VA medical facilities throughout Florida, assisted veterans in securing needed services in 445,098 instances during the fiscal year. These services run the gamut from prosthetics and canteen coupons for meals to wheelchairs and hearing aids. Staff of the Bureau of Veterans' Claims Services also provided counseling services and assistance to veterans, their dependents and survivors with the preparation, submission and prosecution of claims and appeals for State and Federal entitlements as well as applications to correct military records. Staff with the Bureau of Veterans' Claims Services represent clients before the USDVA and Board of Veterans Appeals (BVA). During the last fiscal year they assisted 1,168 veterans and dependants before the BVA. Staff with the Bureau of Veterans' Claims Services also provide a quality control function by reviewing completed USDVA benefits rating decisions and paralegal due process assistance in the prosecution of veterans' disagreements with and appeals of USDVA rating decisions and debt identification/relief. The Bureau's staff is co-located with the USDVA Regional Office on the Bay Pines USDVA Medical Center campus in south Pinellas County.

Additional services provided through the Bureau of Veterans' Field Services include benefits counseling services to all inpatients and outpatients in the 15 USDVA medical facilities in Florida, the State Veterans' Nursing Homes and during outreach activities for FDVA throughout the State to include supporting the Transitional Assistance Program at military installations. The Bureau's primary responsibility is to help veterans initiate, develop, submit, and prosecute claims and appeals for Federal veteran's entitlements. The focus of Field Services is face-to-face interaction with the client/customer and determining, verifying and obtaining eligibility for treatment, medications and other monetary issues within the USDVA system.

Veterans' Benefits and Assistance Mission responsibilities have increased significantly as the Global War on Terrorism has increasingly required multiple deployments by men and women in Florida's active military service, Florida Guard, and Florida Reserve units. During fiscal year 2007/08, staff from the Benefits and Assistance Division briefed 5,745 returning soldiers. Services were offered to 212 families of soldiers killed as a result of the conflict in Iraq and Afghanistan.

In addition to the increased need to provide services to returning soldiers, Benefits and Assistance staff provide claims assistance to the State Veterans' Nursing Homes. As the USDVA adds new Federal Veterans' Health Administration (VHA) outpatient clinics the demand for services from the Bureau of Field Services also increases. The staff also develops and executes the statutory training of County Veterans' Service Officers (CVSO). Finally, the Division provides representatives and/or support for numerous State and Federal veterans' initiatives to include:

- Veterans Integrated Service Network 16 (VISN16) quarterly meetings
- Stand-Down (Medical services for the homeless)
- County Veterans Service Officers (CVSO) conferences held in May and October
- Certification Training Course (4 day) for new claim examiners
- Transition Assistance Point (TAP) Briefings at military bases
- The Governor's Florida Vets First" initiative
- Quarterly Supervisor visits to Outpatient Clinics
- Capital for the Day
- Meet your Government with the Governor
- Representative to Veterans' of Foreign Wars (VFW) Training
- Coverage at Outpatient Clinic when Claims Examiners are available
- Capital Asset Realignment for Enhanced Services (CARES) meetings
